INTERSTATE COMMERCE COMMISSION

[49 CFR Part 1005]

[Ex parte 263 (Sub-No. 2)]

LOSS AND DAMAGE CLAIMS

Net Weights for Determining Losses

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 20th day of June, 1973.

By notice dated March 19, 1973, and published in the FEDERAL REGISTER on March 28, 1973 (38 FR 8108), it was stated that a petition had been filed by Louis Padnos Iron & Metal Company seeking the institution of an investigation into the lawfulness of the practice of certain railroads in utilizing a comparison of gross weights to determine the extent of loss on shipments of scrap iron and steel. The petition was docketed for administrative handling as No. 35767, Louis Padnos Iron & Metal Co.—Petition for Investigation of Practices of Rail Carriers Respecting Handling of Loss Claims on Scrap Iron and Steel. As stated below, we have decided to institute an investigation as requested; however, we have also decided to consider the advisability of prescribing rules and regulations governing the voluntary disposition of loss claims. Therefore, we have docketed the proceeding with the number and title captioned above.

In the notice, we advised that petitioner asserts that it is entitled to reimbursement of its "full and actual loss", pursuant to section 20(11) of the Interstate Commerce Act and that such loss lawfully should be measured by the difference between origin and destination net weights. Petitioner states that it is the practice of certain railroads to pay only those claims for loss established by a comparison of gross weights.

In the past, we have had occasion to consider several matters which are necessarily connected with this petition. For example, as long ago as 1913, In re Weighing of Freight by Carrier, 28 I.C.C. 7, it was noted that inaccuracies in weighing can result in discrimination between shippers as much as do differences in rates themselves. Cognizance was taken there of the fact that accuracy in the matter of weight in connection with claims for loss becomes of increasing importance in proportion to the value of the article being transported. A prolific source of error in ascertaining correct weights was found to be improper tare weights stenciled upon cars, but it was also stated to be of great importance that cars were being delivered for loading which contain foreign substances (thereby increasing the "light" weight of the car.)

More recently, in Consignees' Obligation to Unload, 340 I.C.C. 405, we found that Rule 27 of the Uniform Freight Classification imposes upon consignees the obligation of unloading railcars with exceptions. The carriers are on notice that cars not completely unloaded must either be left on demurrage or pulled under rates for the transportation of refuse. However, petitioner has, in other representations before this Commission, given reason to believe that such is not always the case with respect to cars used for the movement of scrap iron and steel.

In Loss and Damage Claims, 340 I.C.C. 515, we determined that we have the requisite authority to prescribe rules and regulations governing the voluntary processing of loss and damage claims. While we could proceed to consider the advisability of detailed rules with respect to weighing and to completion of unloading, we believe that, if warranted, a simple rule requiring the settlement of loss claims to be based upon a comparison of net weights will best accomplish the protection of the public interest. However, if it should later appear that the proceeding should be broadened for the consideration of more detailed rules, we will take under advisement the possibility of prescribing a net-weight rule on an interim basis pending the completion of more detailed proceedings.

Wherefore, and for good cause:

It is ordered, That, to the extent indicated below, the petition be, and it is hereby, granted; and that, in all other respects the petition be, and it is hereby, denied.

It is further ordered, That, upon petition and the Commission's own motion, pursuant to the authority of the National Transportation Policy (49 U.S.C. proceeding section 1) parts I, II, III, and IV of the Interstate Commerce Act (49 U.S.C. 1, 301, 901, and 1001, et seq.), including more specifically sections 1, 2, 3, 6, 12, 13, 15, and 20; 204, 208, 216, 217, 218, 219, and 220; 304, 305, 306, 307, 313, 315, and 316; 403, 404, 405, 406, 409, 412, 413, and 417; and as may be applicable, sections 553, 556, 557, and 599 of the Administrative Procedure Act (5 U.S.C. § 551, et seq.): (a) an investigation be, and it is hereby, instituted into the lawfulness of the practice of common

V 38 132 JUL 11 73 XUM

carriers of determining their liability for the loss of scrap iron and steel by a comparison of gross weights at origin and destination; and (b) a rulemaking proceeding be, and it is hereby, instituted for the purpose of considering the following addition to the Commission's rules and regulations governing the voluntary disposition of loss and damage claims and processing salvage, 49 CFR Part 1005, et seq.:

§ 1005.7 Weight as a measure of loss.

Where weight is used as a measure of loss, the settlement of claims shall be based upon a comparison of net weights at origin and destination.

It is further ordered, That all common carriers subject to the Interstate Commerce Act be, and they are hereby, made respondents to this proceeding.

It is further ordered, That any person other than those who responded to the notice issued in connection with No. 35767 intending to participate in this proceeding shall notify this Commission by filing with the Commission's Office of Proceedings, Room 5342, 12th Street and Constitution Avenue, N.W., Washington, D.C., 20423, on or before July 31, 1973, an original and one copy of a statement of his intention to participate; and that a revised service list shall then be prepared and made available to persons responding to this order and to the notice issued in connection with No. 35767, containing the names and addresses of all parties to this proceeding, upon whom copies of all pleadings must be served; thereafter, the nature of further proceedings will be designated.

And it is further ordered, That notice of this proceeding be given by posting a copy in the office of the Commission's Secretary for public inspection and by delivering a copy to the Director, Division of the Federal Register, for publication in the FEDERAL REGISTER as notice to all interested parties.

This decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Evironmental Policy Act of 1969.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF STATE

[Public Notice CM-43]

STUDY GROUP 8 OF THE U.S. NATIONAL COMMITTEE FOR THE INTERNATIONAL RADIO CONSULTATIVE COMMITTEE (CCIR)

Notice of Meeting

The Department of State announces that Study Group 8 of the U.S. National Committee for the International Radio Consultative Committee (CCIR) will meet on July 31, 1973, at 9:30 a.m. in the theatre (first floor), COMSAT Building, 950 L'Enfant Plaza South, SW., Washington, D.C. Study Group 8 studies matters relating to systems of radio communications and radiodetermination for the mobile services. The agenda for the meeting will include consideration of draft documents being developed as proposed contributions by the U.S. to the international meeting of Study Group 8 in 1974.

Members of the general public who desire to attend the meeting on July 31 will be admitted up to the limit of the capacity of the meeting room. Entry to the COMSAT Building will be facilitated if arrangements are made in advance of the meeting. Therefore, it is suggested that prior to July 31, 1973, members of the general public who plan to attend the meeting should inform their name, affiliation and address to Mr. Raymond E. Simonds (Chairman, U.S. Study Group 8), RCA Frequency Bureau, 2000 L Street, NW., Washington, D.C. 20036; the telephone number is Area Code 202, 659-3320.

Dated July 2, 1973.

GORDON L. HUFFCUTT,
Chairman,
U.S. National Committee.

Correction

In FR Doc. 73-11979 appearing on page 15741 in the issue of Friday, June 15, 1973, the Treasury Order Number should read as set forth above in brackets.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

PROVISIONAL OUTER CONTINENTAL SHELF LEASING

Proposed Schedule

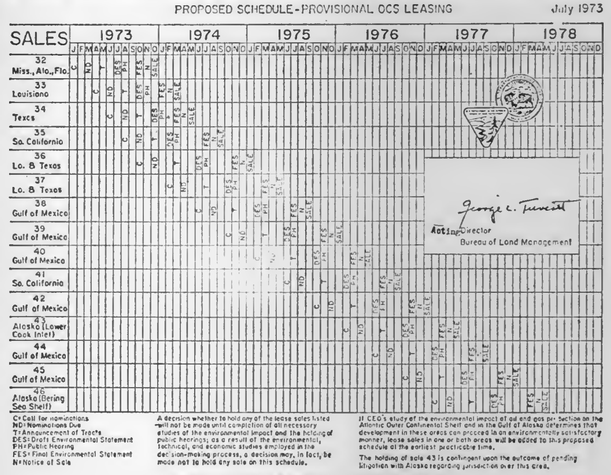
JULY 5, 1973.

Pursuant to the Outer Continental Shelf Lands Act (67 Stat. 462; 43 U.S.C. 1331-1343) and the regulations issued thereunder (43 CFR 3301.2), notice is hereby given that a proposed schedule of provisional Outer Continental Shelf (OCS) oil and gas lease sales has been prepared by the Department of the Interior. A copy of this schedule follows.

The revised proposed sale schedule provides for three sales per year and mainly consists of sales in the Gulf of Mexico. In accordance with the President's April 18, 1973, Energy Message to Congress, sales offshore California and beyond the 200 meter isobath have also been included.

This schedule is intended to give notice to all interested parties of possible leasing actions. A decision whether to hold any of the lease sales listed will not be made until completion of all necessary studies of the environmental impact and the holding of public hearings; as a result of the environmental, technical and economic studies employed in the decision-making process, a decision may, in fact, be made not to hold any sale shown on this schedule. Moreover, the holding of the Cook Inlet Sale will be contingent upon the outcome of pending litigation with Alaska regarding jurisdiction of this area.

Copies of the proposed leasing schedule may be obtained from (1) the Director, Bureau of Land Management (Attn: 393), Washington, D.C. 20240, or from (2) the Manager, Gulf OCS Office, Bureau of Land Management, Suite 3200, 1001 Howard Avenue, New Orleans, Louisiana 70113.



Interested parties may submit comments concerning the tentative schedule to the Director, Bureau of Land Management (Attn: 393), Washington, D.C. 20240.

GEORGE L. TURCOTT,
Acting Director,
Bureau of Land Management.

Approved:

JOHN C. WHITAKER,
Acting Secretary of the Interior.

PROPOSED SCHEDULE-PROVISIONAL OCS LEASING July 1973

C-Call for nominations
ND-Nominations Due
T-Announcement of Tracts
DES-Draft Environmental Statement
PH-Public Hearing
FES-Final Environmental Statement
N-Notice of Sale

A decision whether to hold any of the lease sales listed will not be made until completion of all necessary studies of the environmental impact and the holding of public hearings; as a result of the environmental, technical, and economic studies employed in the decision-making process, a decision may, in fact, be made not to hold any sale on this schedule.

If C.E.Q.'s study of the environmental impact of oil and gas per Section 20 the Atlantic Outer Continental Shelf and in the Gulf of Alaska determines that development in these areas can proceed in an environmentally satisfactory manner, lease sales in one or both areas will be added to this proposed schedule at the earliest practicable time.

The holding of sale 43 is contingent upon the outcome of pending litigation with Alaska regarding jurisdiction over this area.

[INT FES 73-34]

PROPOSED CARSON CITY-LAKE TAHOE POWER TRANSMISSION LINE

Availability of Final Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Bureau of Outdoor Recreation of the Department of the Interior has prepared a final environmental statement on the proposal by Sierra Pacific Power Company to construct 16 miles of 120KV power transmission line from Carson City, Nevada to Incline Village, Lake Tahoe, through Nevada', Lake Tahoe State Park. Because the park is a federally assisted Land and Water Conservation Fund project, the approval of the Secretary of the Interior is needed for conversion of certain parklands to a non-related park use.

Copies of the statement are available for inspection at the following locations:

Office of Communications, Department of the Interior, Room 7229, Washington, D.C. 20240, Telephone (202) 343-9383

Office of Information, Bureau of Outdoor Recreation, Department of The Interior, Room 4225, Washington, D.C. 20240, Telephone (202) 343-6020

Office of the Regional Director, Bureau of Outdoor Recreation, 450 Golden Gate Avenue, San Francisco, California 94102

State Clearinghouse, Chief, Budget Division, Department of Administration, Blasdel Building, Carson City, Nevada 89701

Metropolitan Clearinghouse, Washoe County Regional Planning Commission, P.O. Box 1286, Reno, Nevada 89504

Regional Clearinghouse, Tahoe Regional Planning Agency, P.O. Box 869, South Lake Tahoe, California 95705

Copies may be obtained by writing the National Technical Information Service, Department of Commerce, Springfield, Virginia 22151. Please refer to the statement number above.

Dated: July 3, 1973.

LAURENCE E. LYNN Jr.,
Assistant Secretary of the Interior.

[FR Doc.73-14077 Filed 7-10-73;8:45 am]

[INT FES 73-35]

WILD FREE-ROAMING HORSE AND BURRO MANAGEMENT REGULATIONS

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Bureau of Land Management, Department of the Interior, has prepared a final environmental statement on the proposed regulations for the management of wild free-roaming horses and burros on national resource lands.

Review copies of the statement are available for inspection in Room 5643 of the Interior Building, 18th and C Streets NW., Washington, D.C., and in all State and District Offices of the Bureau of Land Management. A limited supply of sale copies is also available at $3.00 per copy, from the Director (130), Bureau of Land Management, U.S. Department of the Interior, Washington, D.C. 20240. Other copies will be placed on sale when printed by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, at a price to be announced.

LAURENCE E. LYNN Jr.,
Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Soil Conservation Service

BRYANT SWAMP WATERSHED PROJECT, N.C.

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental statement for the Bryant Swamp Watershed Project, Bladen County, North Carolina, USDA-SCS-ES-WS-(ADM)-73-19(D).

The environmental statement concerns a plan for watershed protection, flood prevention, and drainage. The planned works of improvement include conservation land treatment, 22.9 miles of channel modification and 6 grade-control structures.

Copies are available during regular working hours at the following locations:

Soil Conservation Service, USDA, South Agriculture Building Room 5227, 14th and Independence Avenue, SW., Washington, D.C. 20250

Soil Conservation Service, USDA, Room 544, Federal Building, New Bern Avenue, Raleigh, North Carolina 27611

Copies of the draft environmental Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151. Please use name and number of statement above when ordering. The estimated cost is $3.50.

Copies of the draft environmental statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines.

Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Jesse L. Hicks, State Conservationist, Soil Conservation Service, Room 544, P.O. Box 27307, Federal Building, New Bern Avenue, Raleigh, North Carolina 27611.

Comments must be received on or before August 28, 1973, to be considered in the preparation of the final environmental statement.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated June 29, 1973.

JOSEPH W. HAAS,
Acting Deputy Administrator for Water Resources, Soil Conservation Service.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

FLORIDA STATE UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 37-00294-01-59800. Applicant: Florida State University, Department of Chemistry, Tallahassee, Fla. 32306. Article: Flash Photolysis Apparatus Type FP-2R. Manufacturer: Northern Precision Co., Ltd., United Kingdom. Intended use of article: The article is intended to be used in flash-kinetic-spectroscopy studies of the triplet decay characteristics of flexible organic molecules. The functioning of those molecules as acceptors and donors of triplet excitation is to be determined using the same technique. In these experiments a very intense flash of light is used to excite the molecules to higher electronically excited states. The article will also be used in undergraduate and graduate level courses to introduce students to advanced laboratory techniques in specialized areas of chemistry as well as to supervise independent and original research by students as part of the requirements for graduation with honors at the BA and BS level and the obtention of Masters or Ph.D. degrees.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The applicant's study of triplet excited states of flexible organic molecules at liquid nitrogen temperatures requires a minimum flash duration, highest flash energy and a vertical geometry to accommodate the dewar flask cooling the sample cell. The foreign article provides a 30 microsecond flash width at half peak height at an energy of 1000 joules and the needed vertical cell geometry. The Department of Health, Education, and Welfare (HEW) advised in its memorandum dated June 8, 1973 that the combination of capabilities described above are pertinent to the purposes for which the article is intended to be used. HEW also advised that it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the purposes for which the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director,
Special Import Programs Division.

[FR Doc.73-14079 Filed 7-10-73;8:45 am]

UNIVERSITY OF CALIFORNIA

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 73-00377-01-77030. Applicant: University of California, at San Diego, Department of Chemistry, Post Office Box 109, La Jolla, CA 92037. Article: NMR Spectrometer system, Model PS-100 with variable temperature controller, automatic "Y" gradient control unit, and Carbon-13 Fourier transform system. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for physical, chemical, dynamic and structural studies on organic, inorganic and polymeric materials. Nmr studies of ^{1}H, ^{19}F, ^{13}C and ^{31}P will be carried out, including the following projects:

(a) Measurements of chemical shifts and coupling constants as functions of temperature, concentration, and solvent.

(b) Temperature dependent studies of both T_1 and T_2 for the above nuclei, including 180-t-90 and Carr-Purcell pulse sequences.

(c) Determination of reaction rates by lineshape analysis as a function of temperature.

(d) Broadline nmr studies on polymeric solids to determine linewidths, second moments, and lineshapes as a function of temperature.

(e) Nuclear Overhauser experiments as an aid to spectral analysis and a quantitative measure of spin-lattice cross relaxation.

(f) Measurement of very small coupling constants, ca. 0.05 Hz, by spin echo spectroscopy (Fourier transformation of modulated Carr-Purcell spin echo decays).

(g) Studies of transverse cross relaxation and its effect on the pulse spacing dependence of apparent T_2 value in Carr-Purcell experiments.

(h) Generation and testing of new pulse sequences, such as the phase alternated θ pulse sequence, which yields spectra with scaled chemical shifts.

(i) Extension of studies to ^{14}N relaxation as soon as economically feasible.

The article will also be used to train graduate and postdoctoral students in both FT and CW nmr spectroscopy.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus or equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides the capability for variable radio frequency (rf) phase. The most closely comparable domestic instrument, the Model XL-100 System, manufactured by Varian Associates (Varian) does not provide the capability for variable rf phase. The National Bureau of Standards advised in its memorandum dated June 8, 1973 that the capability for variable rf phase is pertinent to the applicant's intended research purposes.

For these reasons, we find the Model XL-100 System is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director,
Special Import Programs Division.

National Oceanic and Atmospheric Administration

FOUKE CO.

Economic Hardship Exemption Application and Hearing

Notice is hereby given that the following named corporation has filed an application for exemption from the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361, 86 Stat. 1027 (1972)) on grounds of undue economic hardship as authorized by Section 101(c) of the Act, and § 216.13 of the Interim Regulations Governing the Taking and Importing of Marine Mammals (37 FR 28177, 28182, December 21, 1972) for the importation of marine mammal skins as hereinafter described for the purposes stated.

The Fouke Company, Route 1, P.O. Box 168, Whitehorse Road, Greenville, South Carolina 29611, seeks to import from the Republic of South Africa as many as 70,000 raw skins of Cape seals (*Arctocephalus pusillus*) for processing and subsequent sale at public auction.

The applicant states, inter alia, that: (1) The skins would be from animals taken during June, July and August, 1973 in the Republic of South Africa during the annual harvest from seal herds managed under conservation programs administered by the Government of the Republic of South Africa, and would be imported into the United States between the time of taking and October 21, 1973.

(2) The skins would be processed into finished fur seal pelts for sale to professional fur buyers at the Applicant's facility in Greenville, South Carolina.

(3) If the exemption is not granted, the Applicant will suffer undue economic hardship in that he will be deprived of over 50 percent of his business for the year. An immediate result of this would be a higher unit cost to the Applicant for the processing of skins for other suppliers which would jeopardize existing contracts with those suppliers. Longer range results would be the loss of the South African source of supply and, consequent upon the significant diminution of the Appplicant's business, the loss of all or a considerable portion of its peculiarly skilled work force. Cumulatively, these occurrences could force the Applicant out of business in the reasonably immediate future.

In order to solicit comments from the interested members of the public, notice is hereby given that a hearing will be held on the application described above beginning at 10:00 a.m. local time July 24, 1973, in the East Board Room, Greenville Chamber of Commerce, 24 Cleveland Street, Greenville, South Carolina.

Individuals and organizations may submit written comments for the official record to the Director, National Marine Fisheries Service, Washington, D.C. 20235, telephone 202-343-4543 or to the Regional Director, National Marine Fisheries Service, Southeast Region, William C. Cramer, Federal Office Building, 144 First Avenue South, St. Petersburg, Florida 33701, telephone 813-893-3141. Written comments will be accepted for the official record provided they are postmarked or received by midnight on August 7, 1973.

Documents submitted in connection with this application, other than confidential information, are available for inspection in the Office of the Director, National Marine Fisheries Service, Washington, D.C. and in the Office of the Regional Director, National Marine Fisheries Service, St. Petersburg, Florida. Any person wishing to comment on this application may write to either or both of these offices.

All statements and opinions contained in this notice in support of the application are those of the Applicant.

Dated: July 6, 1973.

ROBERT W. SCHONING,
Acting Director, National Marine Fisheries Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. FDC-D-640]

DIAMOND LABORATORIES, INC.

Tetracycline Hydrochloride Capsules; Notice of Drugs Deemed Adulterated

In an announcement in the FEDERAL REGISTER of July 8, 1970 (35 FR 10966, DESI 0012NV), the Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration following evaluation of reports received from the National Academy of Sciences—National Research Council, Drug Efficacy Study Group on Tetrazon Capsules (marketed under the Myzon Laboratories label), Tetracycline Hydrochloride Capsules (marketed under the Trans-World label) and Tetra-D Capsules; marketed by Diamond Laboratories, Inc., 2358 Southeast 43d Street, Des Moines, IA 50304.

Said announcement provided the manufacturer and all interested parties a 6 month period in which to submit new animal drug applications for the above named products. Diamond Laboratories, Inc. submitted no new animal drug applications for these products.

Therefore, based on the information before him, the Commissioner concludes that the above named products are adulterated within the meaning of section 501(a)(5) of the Federal Food, Drug, and Cosmetic Act, in that they are not the subject of approved new animal drug applications pursuant to section 512 of the act. Notice is given to Diamond Laboratories, Inc. and all interested persons that effective July 23, 1973, all stocks of the above named drugs for use in animals within the jurisdiction of the Federal Food, Drug, and Cosmetic Act are deemed adulterated within the meaning of the act and are subject to appropriate regulatory action.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 501(a)(5), 512, 52 Stat. 1049, as amended, 82 Stat. 343-351; 21 U.S.C. 351(a)(5), 360b) and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: July 2, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-14060 Filed 7-10-73;8:45 am]

[Docket No. FDC-D-639; NADA No. 9-370V]

NORDEN LABORATORIES, INC.

Purified Oxytocic Principal (Double Strength); Notice of Withdrawal of New Animal Drug Application

In the FEDERAL REGISTER of February 13, 1969 (34 FR 2146), the Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration following evaluation of a report received from the National Academy of Sciences—National Research Council, Drug Efficacy Study Group, on Purified Oxytocic Principal (Double Strength), new animal drug application (NADA) No. 9-370V; marketed by Norden Laboratories, Inc., 601 West Cornhusker Highway, Lincoln, NB 68501.

Norden Laboratories, Inc. requested that approval of NADA No. 9-370V be withdrawn.

Based on the grounds set forth in said announcement and the firm's request, the Commissioner concludes that approval of said NADA should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug and Cosmetic Act (sec. 512, 82 Stat. 343-351; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), approval of NADA No. 9-370V, including all amendments and supplements thereto, is hereby withdrawn effective on July 23, 1973.

Dated: July 2, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-14059 Filed 7-10-73;8:45 am]

MANUFACTURERS AND DISTRIBUTORS OF PRESCRIPTION DRUGS

Drugs for Human Use Affected by Drug Efficacy Study Implementation; Permission for Certain Drugs to Remain on the Market

A notice was published in the FEDERAL REGISTER of December 14, 1972 (37 FR 26623) informing manufacturers and distributors of prescription drugs for human use of the future schedule for implementation of the drug efficacy study. That notice listed certain drugs, together with the justification of their medical need, which may remain on the market pending completion of scientific studies to determine effectiveness, and provided for future additions to or deletions from that list.

V 38 I 132 JUL 11 73 XUM

The notice of December 14, 1972 did not provide for any controlled release preparations to remain on the market pending completion of scientific studies. The Commissioner of Food and Drugs has been petitioned, as provided by said notice, to permit a controlled release form of the coronary vasodilator pentaerythritol tetranitrate to remain on the market pending completion of such studies. The Commissioner concludes that controlled release forms of peripheral and coronary vasodilators may remain on the market, on a product-by-product basis, pending completion of scientific studies which show, by appropriate methodology, that the product is released in a defined manner which would then permit well controlled clinical trials to determine effectiveness to be performed. It is required that the data from studies concerning product release be submitted to the Food and Drug Administration no later than November 1, 1973, in order to receive consideration under paragraph XIV of the court order prior to the date by which the Commissioner is required by paragraph V of the court order to take the next step in implementing the Drug Efficacy Study. Protocols for studies concerning product release may be discussed with the Division of Clinical Research (BD–220), Office of Scientific Coordination, Bureau of Drugs.

In the notice of December 14, 1972, paragraph 3, Group II PERIPHERAL VASODILATORS listed oral forms of cyclandelate, nicotinyl tartrate, dioxyline phosphate, and nylidrin hydrochloride as peripheral vasodilator which may remain on the market provided that scientific studies are undertaken. Other peripheral vasodilators were published as possibly effective July 11, 1972 (37 FR 13565) (DESI 6403); i.e., parenteral and standard oral forms of tolazoline hydrochloride, parenteral and standard oral forms of isoxsuprine hydrochloride, parenteral nylidrin hydrochloride, standard oral form of azapetine phosphate, and standard oral form of phenoxybenzamine hydrochloride. They were inadvertently omitted from the notice of December 14, 1972. The lists of coronary and peripheral vasodilators are amended to read as follows:

I. CORONARY VASODILATORS (ANTI-ANGINAL DRUGS) (SINGLE ACTIVE DRUG ENTITY)

Isosorbide dinitrate (sublingual forms and standard oral forms)
Mannitol hexanitrate (standard oral forms)
Trolnitrate phosphate (standard oral form)
Pentaerythritol tetranitrate (standard oral form)
Dipyridamole (standard oral form)

II. PERIPHERAL VASODILATORS (SINGLE ACTIVE DRUG ENTITY)

Cyclandelate (standard oral forms)
Nicotinyl tartrate (standard oral forms)
Nicotinyl alcohol (standard oral form)
Dioxyline phosphate (standard oral form)
Nylidrin hydrochloride (parenteral and standard oral forms)
Tolazoline hydrochloride (parenteral and standard oral forms)
Isoxsuprine hydrochloride (parenteral and standard oral forms)
Azapetine phosphate (standard oral form)
Phenoxybenzamine hydrochloride (standard oral form)

On or before September 10, 1973, persons interested in conducting clinical studies to determine effectiveness of coronary or peripheral vasodilators are required to notify the Administration of such intent and the date when such studies are expected to begin; and in the case of peripheral vasodilators, to submit protocols.

In the FEDERAL REGISTER of September 18, 1970 (35 FR 14629) (DESI 8173), the Food and Drug Administration published its conclusions concerning Benoquin (monobenzone) Lotion and Ointment stating that monobenzone was regarded as possibly effective for its labeled indications as a depigmenting agent. The Commissioner concludes that this drug should remain on the market pending additional scientific studies. Accordingly, a new section is added to the list of drugs which may remain on the market, to read as follows:

XIII. MONOBENZONE

A FEDERAL REGISTER announcement published September 18, 1970 (35 FR 14629) (DESI 8173) stated that Benoquin (monobenzone) Lotion and Ointment were regarded as possibly effective for their recommended uses in depigmentation. The NAS/NRC panel commented that the products should not be generally used in the conditions for which they are labeled; however that they may be of value in some patients who have small cosmetically disfiguring defects, and should be available to them. Since no alternative depigmenting agents are available, these preparations may remain on the market pending additional clinical studies to determine effectiveness.

Every manufacturer or distributor of monobenzone lotion or ointment who intends to, but has not already begun studies required to determine effectiveness, or who has begun studies but has not yet discussed the protocols with the Food and Drug Administration, is required to communicate with the Division of Anti-Infective Drug Products (BD–140), Office of Scientific Evaluation, Bureau of Drugs on or before September 10, 1973, to discuss and agree to undertake the studies necessary to justify continued marketing of the product.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 505, 701, 52 Stat. 1052–1053, as amended; 21 U.S.C. 355, 371), the Administrative Procedure Act (5 U.S.C. 553, 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: July 2, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-14061 Filed 7-10-73;8:45 am]

SCIENCE ADVISORY BOARD OF THE NATIONAL CENTER FOR TOXICOLOGICAL RESEARCH

Notice of Establishment

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Public Law 92–463, 86 Stat. 770–776), the Food and Drug Administration announces the establishment by the Secretary, DHEW, on June 2, 1973, of the following public advisory committee:

Designation. Science Advisory Board of The National Center for Toxicological Research.

Purpose. The board will (1) advise the Director, National Center for Toxicological Research, in establishing and implementing a research program that will assist the Commissioner of Food and Drugs and the Administrator, Environmental Protection Agency, in fulfilling their regulatory responsibilities; and (2) provide the extra-agency review in assuring that research programs and methodology development at National Center for Toxicological Research are scientifically sound and pertinent to environmental problems.

Authority for this board will expire June 2, 1974, unless the Secretary, DHEW, formally determines that continuance is in the public interest.

Dated: July 3, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.73-14058 Filed 7-10-73;8:45 am]

Office of Education

NATIONAL ADVISORY COUNCIL ON INDIAN EDUCATION

Notice of Public Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92–463) that the National Advisory Council on Indian Education will hold two meetings in July, 1973. Firstly, the National Council subcommittee on Talent Search will be held at the Cosmopolitan Hotel, 18th and Broadway, Denver, Colorado on July 12, 13, and 14 from 8:00 a.m. to 5:00 p.m. daily, local time. Secondly, the full membership of the National Council will be held at the San Francisco Hilton Hotel, Mason and O'Farrell, San Francisco, California on July 26, 27 and 28 from 8:00 a.m. to 7:00 p.m. daily, local time.

This Council was established on June 23, 1972, by the Indian Education Act, title IV, section 442(a) of Public Law 92–318, the Education Amendments of 1972. The Council is to advise the Commissioner of Education with respect to the administration of any programs in which Indian children or adults participate or from which they can benefit; review applications for assistance and make recommendations to the Commissioner with respect to their approval; evaluate programs and projects carried out under any program of the Department of Health, Education and Welfare in which Indian children or adults can participate or from which they can benefit, and disseminate the results of such evaluations; provide technical assistance to local educational agencies and to Indian educational agencies, institutions, and organizations; assist the Commissioner in developing criteria and regulations for the administration and evaluation of grants; and submit to the Congress an annual report of its activities.

The meeting of the Council or subcommittees thereunder, shall be open to the public. The agenda for the proposed meeting of the Subcommittee Talent Search involves the reviewing of applications and interviewing candidates for the Executive Directorship position of the Council, and setting up procedures for selecting a list of nominees for Deputy Commissioner of Indian Education position to submit to the Council in preparation to making recommendations to the U.S. Commissioner of Education.

The agenda of the National Council meeting involves reports of the Talent Search Committee, budget committee, legislative committee on 1974 funding, location of the National Council Headquarters and an overall Council review of the system for reviewing proposals by Council members.

Because of limited space for the meeting, all persons wishing to attend should request reservations from the National Advisory Council on Indian Education, room 4032, U.S. Office of Education, 400 Maryland Avenue, SW., Washington, D.C. 20202, phone 202–963–4894.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on Indian Education temporarily located at the Washington address above.

Signed at Washington, D.C. on July 6, 1973.

FRANK B. MCGETTRICK,
Acting Deputy Commissioner on Indian Education.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[Docket No. NFD–104]

ILLINOIS

Amendment to Notice of Major Disaster

Notice of Major Disaster for the State of Illinois, dated April 27, 1973, and published May 3, 1973 (38 FR 11013), amended May 4, 1973, and published May 10, 1973 (38 FR 12260); amended May 14, 1973, and published May 18, 1973 (38 FR 13063); and amended May 30, 1973, and published June 5, 1973 (38 FR 14800), is hereby further amended to include the following county among those counties determined to have been adversely affected by the catastrophe declared a major disaster by the President in his declaration of April 26, 1973:

The County of:
Johnson

Dated: July 5, 1973.

(Catalog of Federal Domestic Assistance Program No. 50.002, Disaster Assistance)

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

[FR Doc.73-14066 Filed 7-10-73;8:45 am]

ATOMIC ENERGY COMMISSION

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS ARKANSAS NUCLEAR ONE, UNIT ONE, SUBCOMMITTEE MEETING

Notice of Meeting

JULY 9, 1973.

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232 b.), the Advisory Committee on Reactor Safeguards' Subcommittee on Arkansas Nuclear One, Unit One, will hold a meeting on July 26, 1973, in Room 1046, 1717 H Street, NW., Washington, D.C. The purpose of this meeting will be to review the application of the Arkansas Power and Light Company for a license to operate Unit One, which is located near Russellville, Arkansas.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

THURSDAY, JULY 26, 1973, 9:30 A.M.–3:30 P.M.

Review of the application for an operating license (presentations by the AEC Regulatory Staff and Arkansas Power and Light Company and its consultants, and discussions with these groups).

In connection with the above agenda item, the Subcommittee will hold an executive session at 8:30 a.m. which will involve a discussion of its preliminary views, and an executive session at the end of the day, consisting of an exchange of opinions of the Subcommittee members and internal deliberations and formulation of recommendations to the ACRS. In addition, prior to the executive session at the end of the day, the Subcommittee may hold a closed session with the Regulatory Staff and Applicant to discuss privileged information relating to plant security, nuclear fuel design, and the analysis of containment pressure transients, if necessary.

I have determined, in accordance with subsection 10(d) of Public Law 92–463, that the executive sessions at the beginning and end of the meeting will consist of an exchange of opinions and formulation of recommedations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b); and that a closed session may be held, if necessary, to discuss certain documents which are privileged, and fall within exemption (4) of 5 U.S.C. 552(b). It is essential to close such portions of the meeting to protect such privileged information and to protect the free interchange of internal views and to avoid undue interference with agency or Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than July 19, 1973, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon the application for an operating license and related documents which are on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, and through the Librarian, Arkansas River Valley Regional Library, Dardanelle, Arkansas 72834.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 1:00 p.m., and 3:00 p.m. on the day of the meeting, July 26, 1973.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled, and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on July 24, 1973, to the Office of the Executive Secretary of the Committee (telephone: 301–973–5651) between 8:30 a.m. and 5:15 p.m. local time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) A copy of the transcript of the open portions of the meeting will be available within approximately 24 hours at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545 and within approximately five days at the Arkansas

V 38-132 JUL 11 73 XUM

River Valley Regional Library, Dardanelle, Arkansas 72834. Copies of the minutes of the meeting will be made available, on request, at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545 on or after September 24, 1973. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Acting Advisory Committee, Management Officer.

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON LOFT

Notice of Meeting

JULY 9, 1973.

In accordance with the purposes of sections 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232(b), the Advisory Committee on Reactor Safeguards' Subcommittee on LOFT will hold a meeting on July 25, 1973 in the Basement Conference Room of the AEC Idaho Operations Office at Holmes Avenue and Second Street, Idaho Falls, Idaho. The LOFT facility is located on the National Reactor Test Site in Idaho.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

WEDNESDAY, JULY 25, 8:30 A.M.-3:30 P.M.

The Subcommittee will hear presentations by representatives of Aerojet Nuclear Company regarding the LOFT facility and the associated experimental program and discussions of safety related items will be held with Aerojet and cognizant AEC Program Division personnel.

In connection with the above agenda item, the Subcommittee will hold an executive session beginning at 8:00 a.m. which will involve a discussion of its preliminary views and an exchange of opinions of individual Subcommittee members present and internal deliberations for the purpose of identifying items to be emphasized or pursued further in the discussions to follow. I have determined, in accordance with subsection 10(d) of Public Law 92-463, that the executive session at the beginning of the meeting will consist of an exchange of opinions and, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b). It is essential to close such portions of the meeting to protect the free interchange of internal views and to avoid undue interference with agency or Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by mailing 25 copies thereof, postmarked no later than July 18, 1973 to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon information pertinent to the LOFT facility and associated experimental program on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statements and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of not more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 1:30 p.m. and 3:00 p.m. on the day of the meeting.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on July 23, 1973 to the Office of the Executive Secretary of the Committee (telephone: 301-973-5651) between 8:30 a.m. and 5:15 p.m. e.d.t.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) A copy of the transcript of the open portions of the meeting will be available within approximately 24 hours at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545. Copies of the minutes of the meeting will be made available, on request, at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545 on or after September 25, 1973. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Acting Advisory Committee, Management Officer.

[FR Doc.73-14298 Filed 7-10-73;10:54 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS, THREE MILE ISLAND NUCLEAR STATION, UNIT 1, SUBCOMMITTEE MEETING

Notice of Meeting

JULY 9, 1973.

In accordance with the purposes of sections 29 and 182b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b.), the Advisory Committee on Reactor Safeguards' Subcommittee on the Three Mile Island Nuclear Station will hold a meeting on July 25, 1973 in Room 1046, 1717 H Street, NW., Washington, D.C. The purpose of this meeting will be to review the application of the Metropolitan Edison Company and Jersey Central Power and Light Company for a license to operate Unit 1 which is located in Londonderry Township of Dauphin County, approximately 10 miles southeast of Harrisburg, Pennsylvania.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

WEDNESDAY, JULY 25, 1973, 9:30 A.M.-3:30 P.M.

Review of the application for an operating license (presentations by the AEC Regulatory Staff and Metropolitan Edison Company, Jersey Central Power and Light Company, and their consultants, and discussions with these groups).

In connection with the above agenda item, the Subcommittee will hold an executive session at 8:30 a.m. which will involve a discussion of its preliminary views, and an executive session at the end of the day, consisting of an exchange of opinions of the Subcommittee members and internal deliberations and formulation of recommendations to the ACRS. In addition, prior to the executive session at the end of the day, the Subcommittee may hold a closed session with the Regulatory Staff and Applicant to discuss privileged information relating to plant security, nuclear fuel design, and the analysis of containment pressure transients, if necessary.

I have determined, in accordance with subsection 10(d) of Public Law 92-463, that the executive sessions at the beginning and end of the meeting will consist of an exchange of opinions and formulation of the recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b); and that a closed session may be held, if necessary, to discuss certain documents which are privileged, and fall within exemption (4) of 5 U.S.C. 552(b). It is essential to close such portions of the meeting to protect such privileged information and to protect the free interchange of internal views and to avoid undue interference with agency or Committee operation.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that, in his judgment, will facilitate the orderly conduct of business.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than July 18, 1973, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be

based upon the application for an operating license and related documents which are on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, and through the Government Publications Section, State Library of Pennsylvania, Education Building, Box 1601, Harrisburg, Pennsylvania, 17126.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 1:00 p.m. and 3:00 p.m. on the day of the meeting, July 25, 1973.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled, and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on July 23, 1973, to the Office of the Executive Secretary of the Committee (telephone: 301-973-5651) between 8:30 a.m. and 5:15 p.m. local time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) A copy of the transcript of the open portions of the meeting will be available within approximately 24 hours at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, and within approximately five days at the Government Publications Section, State Library of Pennsylvania, Education Building, Harrisburg, Pennsylvania, 17126.

Copies of the minutes of the meeting will be made available, on request, at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545 on or after September 25, 1973. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Acting Advisory Committee, Management Officer.

[Docket Nos. 50-324 and 50-325]

CAROLINA POWER & LIGHT CO.

Availability of Applicant's Amendments to Environmental Report and AEC Draft Environmental Statement; Correction

The FEDERAL REGISTER notice of availability (38 FR 15543) issued on June 13, 1973, indicated that two addresses were given incorrectly. The first address given incorrectly was for the State Clearinghouse. The correct address for the State Clearinghouse should be Office of Planning Coordinator, Clearinghouse and Information Center, 116 West Jones Street, Raleigh, North Carolina 27603 and the second address given incorrectly was for Cape Fear Council of Governments. The correct address for the Cape Fear Council of Governments is One North Third, Suite 206, Wilmington, North Carolina 28401.

Dated at Bethesda, Md., this 5th day of July 1973.

For the Atomic Energy Commission.

GORDON K. DICKER,
Chief, Environmental Projects Branch 2, Directorate of Licensing.

[FR Doc.73-14065 Filed 7-10-73;8:45 am]

[Docket Nos. 50-440, 50-441]

DUQUESNE LIGHT CO. ET AL

Notice of Hearing on Application for Construction Permits

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in Title 10, Code of Federal Regulations, Part 50, "Licensing of Production and Utilization Facilities," and Part 2, rules of practice, notice is hereby given that a hearing will be held, at a time and place to be set in the future by an Atomic Safety and Licensing Board (Board), to consider the application filed under the Act by the Duquesne Light Company, Ohio Edison Company, Pennsylvania Power Company, The Cleveland Electric Illuminating Company and the Toledo Edison Company (the applicants), for construction permits for two boiling water nuclear reactors designated as the Perry Nuclear Power Plant, Units 1 & 2 (the facilities), each of which is designed for initial operation at approximately 3579 thermal megawatts with a net electrical output of approximately 1205 megawatts. The proposed facilities are to be located near Lake Erie in Lake County, Ohio. The plant site is approximately 35 miles northeast of Cleveland, Ohio, and 21 miles southwest of Ashtabula, Ohio. The hearing will be scheduled to begin in the vicinity of the site of the proposed facilities.

The Board will be designated by the Atomic Energy Commission (Commission) or the Chairman of the Atomic Safety and Licensing Board Panel. Notice as to its membership will be published in the FEDERAL REGISTER.

Upon completion by the Commission's regulatory staff of a favorable safety evaluation of the application and an environmental review and upon receipt of a report by the Advisory Committee on Reactor Safeguards, the Director of Regulation will consider making affirmative findings on Items 1-3, a negative finding on Item 4, and an affirmative finding on Item 5 specified below as a basis for the issuance of construction permits to the applicant:

Issues pursuant to the Atomic Energy Act of 1954, as amended. 1. Whether in accordance with the provisions of 10 CFR 50.35(a):

(a) The applicants have described the proposed design of the facilities including, but not limited to, the principal architectural and engineering criteria for the design, and has identified the major features or components incorporated therein for the protection of the health and safety of the public;

(b) Such further technical or design information as may be required to complete the safety analysis and which can reasonably be left for later consideration, will be supplied in the final safety analysis report;

(c) Safety features or components, if any, which require research and development have been described by the applicants and the applicants have identified, and there will be conducted a research and development program reasonably designed to resolve any safety questions associated with such features or components; and

(d) On the basis of the foregoing, there is reasonable assurance that (i) such safety questions will be satisfactorily resolved at or before the latest date stated in the application for completion of construction of the proposed facilities, and (ii) taking into consideration the site criteria contained in 10 CFR Part 100, the proposed facilities can be constructed and operated at the proposed location without undue risk to the health and safety of the public.

2. Whether the applicants are technically qualified to design and construct the proposed facilities;

3. Whether the applicants are financially qualified to design and construct the proposed facilities; and

4. Whether the issuance of permits for construction of the facilities will be inimical to the common defense and security or to the health and safety of the public.

Issue pursuant to National Environmental Policy Act of 1969 (NEPA).

5. Whether, in accordance with the requirements of Appendix D of 10 CFR Part 50, the construction permits should be issued as proposed.

In the event that this proceeding is not a contested proceeding, as defined by 10 CFR 2.4(n), the Board will determine

V 38 1 132 JUL 11 73 XUM

(1) without conducting a de novo evaluation of the application, whether the application and the record of the proceeding contain sufficient information, and the review of the application by the Commission's regulatory staff has been adequate, to support the findings proposed to be made by the Director of Regulation on Items 1–4 above, and to support, insofar as the Commission's licensing requirements under the Act are concerned, the issuance of the construction permits proposed by the Director of Regulation; and (2) determine whether the review conducted by the Commission pursuant to NEPA has been adequate. In the event that this proceeding is not contested, the Board will convene a prehearing conference of the parties at a time and place to be set by the Board. It will also set the schedule for the evidentiary hearing. Notice of the prehearing conference and the hearing will be published in the FEDERAL REGISTER.

In the event that this proceeding becomes a contested proceeding, the Board will consider and initially decide, as issues in this proceeding, Items 1–5 above as a basis for determining whether the construction permits should be issued to the applicants.

The Board will convene a special prehearing conference of the parties to the proceeding and persons who have filed petitions for leave to intervene, or their counsel, to be held at such time as may be appropriate, at a place to be set by the Board for the purpose of dealing with the matters specified in 10 CFR 2.751a. Notice of the special prehearing conference will be published in the FEDERAL REGISTER.

The Board will convene a prehearing conference of the parties, or their counsel, to be held subsequent to any special prehearing conference, after discovery has been completed, or within such other time as may be appropriate, at a time and place to be set by the Board for the purpose of dealing with the matters specifield in 10 CFR 2.752.

With respect to the Commission's responsibilities under NEPA, and regardless of whether the proceeding is contested or uncontested, the Board will, in accordance with section A.11 of Appendix D of 10 CFR Part 50, (1) determine whether the requirements of section 102(2)(C) and (D) of NEPA and Appendix D of 10 CFR Part 50 have been compiled with in this proceeding; (2) independently consider the final balance among conflicting factors contained in the record of the proceeding with a view to determining the appropriate action to be taken; and (3) determine whether the construction permits should be issued, denied, or appropriately conditioned to protect environmental values.

For further details, see the application for construction permits dated March 28, 1973, and amendments thereto, and the applicants' Environmental Report dated March 28, 1973, which are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., between the hours of 8:30 a.m. and 5:00 p.m. on weekdays. Copies of those documents will also be made available at the Perry Public Library, 3753 Main Street, Perry Township, Ohio 44081 for inspection by members of the public between the hours of 12 noon to 8 p.m. Monday through Friday and from 12 noon to 5 p.m. on Saturday. As they become available, a copy of the safety evaluation by the Commission's Directorate of Licensing, the Commission's draft and final detailed statements on environmental considerations, the report of the Advisory Committee on Reactor Safeguards (ACRS), the proposed construction permits, other relevant documents, and the transcripts of the prehearing conferences and of the hearing will also be available at the above locations. Copies of the Directorate of Licensing's safety evaluation and the Commission's final detailed statement on environmental considerations, the proposed construction permits, and the ACRS report may be obtained, when available, by request to the Deputy Director for Reactor Projects, Directorate of Licensing, United States Atomic Energy Commission, Washington, D.C. 20545.

Any person who does not wish to, or is not qualified to become a party to this proceeding may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715. A person making a limited appearance may only make an oral or written statement on the record, and may not participate in the proceeding in any other way. Limited appearances will be permitted at the time of the hearing in the discretion of the Board, within such limits and on such conditions as may be fixed by the Board. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, not later than August 10, 1973.

A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of the hearing as specified in the issues set out above.

Any person whose interest may be affected by the proceeding, who does not wish to make a limited appearance and who wishes to participate as a party in the proceeding must file a written petition under oath or affirmation for leave to intervene in accordance with the provisions of 10 CFR 2.714.

A petition for leave to intervene shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and any other contentions of the petitioner including the facts and reasons why he should be permitted to intervene, with particular reference to the following factors: (1) The nature of the petitioner's right under the Act to be made a party to the proceeding; (2) the nature and extent of the petitioner's property, financial, or other interest in the proceeding; and (3) the possible effect of any order which may be entered in the proceeding on the petitioner's interest. Any such petition shall be accompanied by a supporting affidavit identifying the specific aspect or aspects of the subject matter of the proceeding as to which the petitioner wishes to intervene and setting forth with particularity both the facts pertaining to his interest and the basis for his contentions with regard to each aspect on which he desires to intervene. A petition that sets forth contentions relating only to matters outside the jurisdiction of the Commission will be denied.

A petition for leave to intervene must be filed with the Office of the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, or may be delivered to the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C., not later than August 10, 1973. A petition for leave to intervene which is not timely will not be granted unless the Board determines that the petitioner has made a substantial showing of good cause for failure to file on time and after the Board has considered those factors specified in 10 CFR 2.714(a)(1)–(4) and 2.714(d).

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have all the rights of the applicants to participate fully in the conduct of the hearing, such as the examination and cross-examination of witnesses, with respect to their contentions related to the matters at issue in the proceeding.

An answer to this notice, pursuant to the provisions of 10 CFR 2.705, must be filed by the applicants not later than July 31, 1973.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. A copy of the petition or request for limited appearance should also be sent to the Chief Hearing Counsel, Office of the General Counsel, U.S. Atomic Energy Commission, Washington, D.C. 20545 and Gerald Charnoff, Esq., Shaw, Pittman, Potts, Trowbridge & Madden, 910 17th Street, NW, Washington, D.C. 20006, attorney for the applicants.

Pending further order of the Board, parties are required to file, pursuant to the provisions of 10 CFR 2.708, an original and twenty (20) conformed copies of each such paper with the Commission.

With respect to this proceeding, pursuant to 10 CFR 2.785, an Atomic Safety and Licensing Appeal Board will exercise the authority and the review function which would otherwise be exercised and performed by the Commission. Notice as to the membership of the Appeal Board will be published in the FEDERAL REGISTER.

Dated at Germantown, Md., this 5th day of July 1973.

UNITED STATES ATOMIC ENERGY COMMISSION,
GORDON M. GRANT,
Acting Secretary of the Commission.

[FR Doc.73-14084 Filed 7-10-73;8:45 am]

[Docket No. PRM-50-7]

GENERAL ELECTRIC CO.

Notice of Filing of Petition for Rule Making

Notice is hereby given that General Electric Company, Vallecitos Nuclear Center, Pleasanton, California, by letter dated June 15, 1973, has filed with the Atomic Energy Commission a petition for rule making to amend the Commission's regulation Licensing of Production and Utilization Facilities, 10 CFR Part 50.

The petitioner requests that the Commission amend the exception to the definition of "production facility" set out in § 50.2(a)(3)(iii). The exception in § 50.2(a)(3)(iii) applies to facilities in which processing of irradiated materials containing special nuclear material is conducted pursuant to a license issued under Parts 30 and 70 of the Commission's regulations, or equivalent regulations of an Agreement State, for the receipt, possession, use, and transfer of irradiated special nuclear material, which authorizes the processing of the irradiated material on a batch basis for the separation of selected fission products and limits the process batch to "not more than 15 grams of special nuclear material." The petitioner requests that the process batch limit be changed to "not more than 100 grams of special nuclear material."

The exception set out in § 50.2(a)(3)(iii) was issued by the Commission on April 16, 1970 (35 FR 6175) in response to an earlier petition for rule making (PRM-50-3) filed by the General Electric Company. The petitioner in the current petition states that the earlier petition was based on a series of planned experiments and operations envisaged at that time and that the petitioner recognized that the 15-gram special nuclear material limit, which it requested as one of the limitations of the exception, was arbitrary. The petitioner states also that the 15-gram limitation was considered to be well within a quantity range several orders of magnitude below that which would require the "production facility" classification contemplated by subsection 11 v. of the Atomic Energy Act of 1954, as amended.

The petitioner states further that it has conducted activities involving the processing of irradiated material on a batch basis, has developed and demonstrated sound procedures and practices for the separation of selected fission products from special nuclear material, and that plans are being made for continuation of those operations which would require the incorporation of modest increases, up to 100 grams in the batch sizes of special nuclear material.

A copy of the petition for rule making is available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of the petition may be obtained by writing the Rules and Proceedings Branch at the below address.

All interested persons who desire to submit written comments or suggestions concerning the petition for rule making should send their comments to the Rules and Proceedings Branch, Office of Administration—Regulation, U.S. Atomic Energy Commission, Washington, D.C. 20545 on or before September 10, 1973.

Dated at Germantown, Md., this 5th day of July 1973.

For the Atomic Energy Commission.

GORDON M. GRANT,
Acting Secretary of the Commission.

[FR Doc.73-14100 Filed 7-10-73;8:45 am]

CIVIL AERONAUTICS BOARD

[Docket No. 25080]

GAC CORP.

Proposed Approval of Application

Application of GAC Corporation pursuant to section 408 of the Federal Aviation Act of 1958, as amended, Docket 25080.

Notice is hereby given, pursuant to the statutory requirements of section 408(b) of the Federal Aviation Act of 1958, as amended, that the undersigned intends to issue the attached order under delegated authority. Interested persons are hereby afforded until July 19, 1973, within which to file comments or request a hearing with respect to the action proposed in the order.

Dated at Washington, D.C., July 5, 1973.

[SEAL] WILLIAM B. CALDWELL, Jr.,
Director, Bureau of Operating Rights.

[Docket 25080]

GAC CORP.

ORDER OF APPROVAL

Issued under delegated authority.

GAC Corporation (GAC), Modern Air Transport, Inc. (Modern) and GAC Properties, Inc. (Properties)[1] request approval, pursuant to the third proviso of section 408(b) of the Federal Aviation Act of 1958, as amended (the Act), whereby Properties,[2] a wholly-owned subsidiary of GAC, will organize a property development association to be known as River Ranch Airpark Association (Association)[3] to sell homesite lots on land adjacent to an airfield now owned by Properties[4] at River Ranch Shores, a Properties community development in Florida.

The applicants submit that the airfield and adjacent homesites will be developed so that Association property owners will have access to the airfield for the purpose of operating small propeller aircraft.

The applicants further state that eventual control of the Association including the airfield, will pass from Properties to the Association membership when property owner membership reaches a sufficient number to permit them to elect a majority of the officers and directors in the Association.

In support of their request, applicants state that Modern has not had, and will not have, anything whatever to do with the Association airfield, and no officer or director of Modern will serve as an officer or director of the Association.

No comments relative to the application have been received.

Notice of intent to dispose of the application without hearing has been published in the Federal Register and a copy of such notice has been furnished by the Board to the Attorney General not later than one day following such publication both in accordance with section 408(b) of the Act.

Upon consideration of the foregoing, it is concluded that GAC is a person controlling an air carrier (Modern) and that the Association will be a person engaged in a phase of aeronautics, both within the meaning of section 408 of the Act, and that the indirect control of the Association by GAC through its wholly-owned subsidiary, Properties, is subject to section 408(a)(6) thereof.[5] It has been further concluded that the control relationships do not affect the control of an air carrier directly engaged in the operations of aircraft in air transportation, do not result in creating a monopoly and thereby tend to restrain competition, nor do they appear to jeopardize any other air carrier. Furthermore, no person disclosing a substantial interest in this proceeding is currently requesting a hearing and it is found that the public interest does not require a hearing. The Board has previously approved relationships involving the control of airport facilities by an air carrier[6] and the instant application does not appear to raise new substantive issues. Under the circumstances it does not appear that the control relationships described herein will be inconsistent with the public interest or that the requirements of section 408 will be otherwise unfulfilled.

[1] The Board previously approved the acquisition of Modern, a certificated supplemental carrier, by Gulf American Corp. (now Properties) in 1968 pursuant to Order E-23825. Gulf American was itself acquired by GAC in 1969, the Board disclaiming jurisdiction over the transaction in Order 69-2-110. As a result of a 1972 corporate reorganization approved by Board Order 72-3-24, Modern became a direct subsidiary of GAC.

[2] The principal business of Properties is the development of communities and the sale of homesites and other real property.

[3] According to the applicants the Association will be a Florida corporation not for profit. Furthermore, the Association will not issue any shares of stock and membership in the Association will be based on ownership of Association homesites.

[4] The applicants state that the airport is licensed by the state of Florida as a restricted airport site and is currently used for non-paying passengers and company personnel of Properties.

[5] Jurisdiction is asserted by virtue of the common control by a person (GAC) of an air carrier (Modern), on the one hand, and a person (Properties) controlling a person engaged in a phase of aeronautics (the Association), on the other hand. See 49 USC 1378(a)(6).

[6] Pan American World Airways, Inc. Farmingdale and Teterboro Airport Operation, Dockets 19045 and 19046, Order 68-9-120, September 25, 1968.

V 38 1 32 JUL 11 73 XUM

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.13, it is found that the foregoing control relationships should be approved without a hearing pursuant to the third proviso of section 408(b) of the Act.

Accordingly, it is ordered, That:

The control relationships described herein between GAC Corporation, Modern Air Transport, Inc., GAC Properties, Inc. and River Ranch Airpark Association be and they hereby are approved under section 408 of the Act.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period unless within such period a petition for review thereof is filed, or the Board gives notice that it will review this order on its own motion.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[Dockets No. 145 etc.]

ALDRIN AND DIELDRIN; REGISTRATIONS AND TOLERANCES OF PESTICIDES

Notice of Hearing

Notice is hereby given, pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (7 U.S.C. 135 *et seq.*), as amended by the Federal Environmental Pesticide Control Act of 1972 (86 Stat. 973), that a public hearing in the consolidated proceedings thereunder involving the cancellation of registrations of pesticides containing aldrin and dieldrin will begin on Tuesday, August 7, 1973, at 9:30 a.m., local time, in Davenport, Iowa. The place of hearing will be announced later. Subsequently, the hearing will move to various locations, including Indianapolis, Indiana, Kansas City, Missouri, Texas and Florida, before convening in Washington, D.C.

Notice is further given that this hearing is also for the purpose of receiving evidence in connection with the petitions filed by Shell Chemical Company (34 FR 1274; 34 FR 2215; 36 FR 2824) for additional tolerances for residues of aldrin and dieldrin in meat, milk, eggs, and certain other food commodities under section 408 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a) and the petition of Environmental Defense Fund, Inc. (36 FR 21223) for setting, in effect, a zero tolerance for residues of aldrin and dieldrin under section 408 of the Federal Food, Drug, and Cosmetic Act and for establishing tolerances under section 406 thereof (21 U.S.C. 346) providing for a systematic reduction of residue tolerances consistent with declining residues which would result from cancellation of the registrations of these pesticides, which petitions were consolidated into these proceedings under the Federal Insecticide, Fungicide, and Rodenticide Act by the December 7, 1972 Determination and Order of the Administrator. (37 FR 26463).

Comments or objections to the petition of Environmental Defense Fund, Inc. were filed by American National Cattlemen's Association, Denver, Colorado (requesting at least 0.3 parts per million of aldrin and dieldrin in the fat of meat); William E. Tomlinson, Jr., Agricultural Experiment Station, Cranberry Station, East Wareham, Massachusetts (objects to repeal of established finite tolerances for residues of dieldrin on cranberries); Libby, McNeil & Libby, Janesville, Wisconsin (stepwise lowering of tolerances more reasonable than immediate zero tolerance); Joe Capizzi, Oregon State University and W. H. Kosesan, Oregon State Department of Agriculture (certain uses of aldrin and dieldrin, primarily preplant, ornamental or structural pest control uses, essential to effective pest control in Oregon); J. E. Legates, North Carolina State University (continuing essential need for aldrin and dieldrin in the production of apples and corn, the protection of wooden structures and the control of the Japanese and Whitefringed beetle); Northrup, King and Company, Minneapolis, Minnesota (essential use of aldrin and dieldrin on seed); Industry Committee on Citrus Additives and Pesticides, Inc., Claremont, California (oppose zero tolerance for any agricultural chemical); Environmental Defense Fund, Inc. (iterates request for zero tolerances); and Shell Chemical Company (deny proposal for repeal of tolerances at this time).

Appearances pursuant to section 180.16 of the rules of practice under section 408 of the Federal Food, Drug, and Cosmetic Act (40 CFR 180.16) may be filed with the Hearing Clerk, Environmental Protection Agency, Room E-1019, Waterside Mall, 401 M Street, SW, Washington, D.C. 20460, by August 2, 1973. Opportunity for additional appearances later in the hearing will be afforded interested persons.

For information concerning the issues involved and other details of these proceedings, interested persons are referred to the dockets of these proceedings on file with the Hearing Clerk, Environmental Protection Agency.

HERBERT L. PERLMAN,
Chief Administrative Law Judge.

JULY 6, 1973.

N,N-BIS-(PHOSPHONOMETHYL) GLYCINE

Notice of Extension of Temporary Tolerance

The Monsanto Co., 800 N. Lindbergh Boulevard, St. Louis MO 63166, was granted a temporary tolerance for residues of the plant regulator *N,N*-bis-(phosphonomethyl) glycine in or on sugarcane at 1.5 parts per million on July 24, 1972, in connection with Pesticide Petition No. 2G1233 (notice was published in the FEDERAL REGISTER of July 29, 1972 (37 FR 15340)).

The firm has requested a 1-year extension to obtain additional experimental data. It is concluded that such extension will protect the public health. A condition under which this temporary tolerance is extended is that the plant regulator will be used in accordance with the temporary permit which is being issued concurrently and which provides for distribution under the Monsanto Co., name.

As extended, this temporary tolerance expires July 24, 1974.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038).

Dated: June 6, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 655]

COMMON CARRIER SERVICES INFORMATION [1]

Domestic Public Radio Services Applications Accepted for Filing [2]

JULY 2, 1973.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) the close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cut-off dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's Rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

APPENDIX

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

9568-C2-P-73 Mobilfone of Boston (KCA240) C.P. to change antenna location #3 to Nobscot Hill, Framingham, Massachusetts operating on 454.050 MHz.

9570-C2-P-73 Telephone Answering Service of Fayetteville, Inc. (New) C.P. for a new 1-way signaling station to operate on 152.24 MHz at 727 McGilvary Street, Fayetteville, North Carolina.

9571-C2-P-73 Bennett Radio Paging Service (New) C.P. for a new 1-way signaling station to operate on 152.24 MHz at 511 Fort Street, Port Huron, Michigan.

9572-C2-P-73 South Central Bell Telephone Company (KIC344) C.P. to change antenna system, replace transmitter and to change power at 201 Court Avenue, Memphis, Tennessee on frequencies: 157.77 157.86 157.89 and 157.98 MHz (Test)

9573-C2-P-(3)-73 Arrowhead Business Radio, Inc. (KFJ901) C.P. add control frequency: 454.350 MHz at 3189 Miller Trunk Highway, Duluth, Minnesota.

9580-C2-P-(2)-73 Intra State Telephone Company (KSJ807) C.P. to change antenna system, location and to replace transmitter, operating on 152.51 and 152.75 MHz at 100 North Cherry Street, Galesburg, Illinois.

9582-C2-P-(4)-73 Radio Paging, Inc. (KKI-4945) C.P. to add transmitters, operating on 35.58 MHz at Loc. #2: 1100 E. Holcomb Blvd, Houston, Texas, Loc. #3: 910 West Belt Drive North, Houston, Texas, Loc. #4: 9300 Airline Drive, Houston, Texas, Loc. #5: 401 Mayo Shell Road, Galena Park, Texas.

9584-C2-P-73 Edwards Radio Common Carrier (New) C.P. for a new 2-way station to operate on 152.12 MHz at Hwy. 55, 1.25 miles SE of Rocksprings, Texas.

9585-C2-P-73 Mobile Radio Communications (KSV904) C.P. to change antenna system, and location to 6500 Tower Drive Platte Woods, Missouri, operating on 158.70 MHz. (1-way signalling, Loc. #2)

9587-C2-TC-73 Euclid Telecommunications, Inc. (KQC880) Consent to Transfer of Control from Herbert Fitzgerald, TRANSFEROR to D.M.G., Inc., TRANSFEREE. Station: KQC880 Euclid, Ohio.

Renewals of Licenses expiring July 1, 1973. TERM: July 1, 1973 to July 1, 1978.

The Concord Telephone Company, Inc	KFL872
Same as above	KFL871
Hamilton Telephone Company	KOP325
Leaco Rural Telephone Coop., Inc.	KLB782
Same as above	KLB783
Project Mutual Telephone Cooperative Association, Inc.	KOH281
Quincy Telephone Company	KIY727

Major Amendments

1743-C2-P-73 (New) Gulf Central Communications and Electronics, Inc. Amend to Substitute Gulf Central Communications and Electronics, Inc. for Lafayette Radiofone. Change location from 1302 Maude St., Abbeville, Louisiana, to the KATC-TV tower, 5.8 miles West of Kaplan, Louisiana.

Corrections

9092-C2-TC-(2)-73 Phone Depots, Inc., d/b/as Mobilefone Radio System. Amend to change name of first transferor from Levey to Levy and to add names of transferees: Fanye Ettlinger, William Lloyd, Harry, Daniel D., and Max I. Lefcort and Abraham Friedman, also changing call signs from KCA743 and KCA748 to KCA748 and KEA254. All other particulars to remain as reported on Public Notice 653 dated June 18, 1973. Southwestern Bell Telephone Company. Correct to add the following call signs missing from the renewal list of Public Notice 653 dated June 18, 1973:

KAA690	KDT208
KAA692	KKA833
KAA698	KLB572
KAA890	KLB576
KAQ635	KLB772
KAQ640	KLB798
KAQ642	KLB805
KBM510	KLB606
KDN411	

Indiana Bell Telephone Company. Correct to add KSD326 and correct sign KIB622 from the renewal list on Public Notice No. 650 dated May 29, 1973.

Wisconsin Bell Telephone Company. Omitted call sign KQZ766 from the renewal list on Public Notice No. 653 dated June 18, 1973.

RURAL RADIO SERVICE

9588-C6-P-73 The Mountain States Telephone and Telegraph Company (New) C.P. for a new rural subscriber station to operate on 158.01 MHz at 44.2 Miles E. of Gobernador, New Mexico.

9589-C6-P-73 Pacific Northwest Bell Telephone Company (WOG82) C.P. to change antenna and to add unguyed pole for antenna support, operating on 157.95 MHz at 9.8 miles East of McKenzie Bridge, Lane, Oregon.

9590-C6-P-73 Same as above (New) C.P. for a new rural subscriber station to operate on 157.86 MHz at 6.9 Miles West of Huntington, Oregon.

POINT-TO-POINT MICROWAVE RADIO SERVICE

9354-C1-P-73 The Offshore Telephone Company (New) Block 269, South Marsh Island Area, Gulf of Mexico. Lat. 29 07 52 N.—Long. 91 53 33 W. C.P. for a new station on freq. 2162.0V MHz toward Block 63, Eugene Island Area, Gulf of Mexico.

9355-C1-P-73 Same (New) Block 63, Eugene Island Area, Gulf of Mexico. Lat. 29 10 27 N.—Long. 91 32 01 W. C.P. for a new station on freq. 2112.0V MHz toward Block 269, South Marsh Island, Gulf of Mexico.

9356-C1-P-73 Same (New) Block 250, Eugene Island Area, Gulf of Mexico. Lat. 28 31 18 N.—Long. 91 38 42 W. C.P. for a new station on freq. 2128.0H MHz toward Block 296B, South Marsh Island, Gulf of Mexico.

9357-C1-P-73 Same (New) Block 306A, Eugene Island, Gulf of Mexico. Lat. 28 19 23 N.—Long. 91 36 25 W. C.P. for a new station on freq. 2118.4V MHz toward Block 296B, South Marsh Island, Gulf of Mexico.

9358-C1-P-73 Same (New) Block 296A, Eugene Island Area, Gulf of Mexico. Lat. 28 20 48 N.—Long. 91 33 34 W. C.P. for a new station on freq. 2115.2H MHz toward Block 296B, Eugene Island.

9359-C1-P-73 Same (New) Block 306B, Eugene Island Area, Gulf of Mexico. Lat. 28 17 45 N.—Long. 91 35 13 W. C.P. for a new station on freq. 2121.6H MHz toward Block 296B, Eugene Island.

9360-C1-P-73 Same (New) Block 296B, Eugene Island Area, Gulf of Mexico. Lat. 28 20 33 N.—Long. 91 32 15 W. C.P. for a new station on freq. 2168.4H MHz toward Block 296A; freq. 2168.4V MHz toward Block 306A; freq. 2168.4H MHz toward Block 306B; freq. 2178.0V MHz toward Block 250.

9361-C1-P/ML-73 American Telephone & Telegraph Company (KEL79) 811 10th Avenue, New York, New York. Lat. 40 45 59 N.—Long. 73 59 27 W. C.P. and Mod. of License to add (2) Western Electric, TD-2 transmitters on freq. 3990 4070 MHz toward Roslyn Harbor, N.Y. & add freq. 3990H 4070H MHz toward Roslyn Harbor, N.Y.

9362-C1-P/ML-73 Same (KYS89) Roslyn Harbor, 0.1 Mile N.E. of Roslyn, New York. Lat. 40 45 59 N.—Long. 73 59 27 W. C.P. and Mod. of License to add (4) Western Electric, TD-2 transmitters on freq. 3950 4030 MHz toward Huntington, N.Y. & New York, N.Y. and add freq. 3950V 4030V MHz toward Huntington, N.Y.; freq. 3950H 4030H MHz toward New York, N.Y.

JULY 2, 1973

9363-C1-P/ML-73 American Telephone and Telegraph Company (KOB95) 1.9 Miles East of Huntington, New York. Lat. 40 49 48 N.—Long. 73 21 12 W. C.P. and Mod. of License

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations and other requirements.

[2] The above alternative cut-off rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio and Local Television Transmission Services (Part 21 of the Rules).

V 38 I 132 JUL 11 73 XUM

to add (2) Western Electric, TD-2 transmitters on freq. 3990 4070 MHz toward Roslyn Harbor, N.Y. and add freq. 3990V 4070V MHz toward Roslyn Harbor, N.Y.

9364-C1-ML-73 Same (KAC62) 1 Mile West of Broomfield, Colorado. Lat. 39 54 48 N.—Long. 105 05 57 W. Mod. of License to change the polarization from Horizontal to Vertical on freqs. 3730 3810 3970 4050 4130 MHz toward Brooks Tower Building, Denver, Colo. via Passive Repeater.

9592-C1-P-73 General Telephone Company of Kentucky (KYC58) 151 Walnut Street, Lexington, Kentucky. Lat. 38 02 45 N.—Long. 84 29 39 W. C.P. to add freqs. 11325V 11565H MHz toward Centerville, Ky.

9593-C1-P-73 Eastern Microwave, Inc. (KZA86) Tyrone Mountain, 6.0 Miles NW of Tyrone, Pennsylvania (Lat. 40 43 56 N.—Long. 78 19 33 W.): C. P. (a) to change frequencies to 10775.0H MHz and 10935.0H MHz toward Little Flat Tower (WDD79), Pennsylvania, on azimuth 87 degrees/04 minutes and (b) to add frequency 11095.0H MHz toward same point of communication (Little Flat Tower).

9594-C1-P-73 Same (WDD79) Little Flat Tower, 2.2 Miles SE of Boalsburg, Pennsylvania (Lat. 40 45 11 N.—Long. 77 45 18 W.): C. P. (a) to change frequencies to 11385.0V MHz and 11545.0V MHz toward Lewistown, Pennsylvania, on azimuth 128 degrees/18 minutes, and (b) to add frequency 11225.0V MHz toward same point of communication (Lewistown). See file nos. 8001 and 8002-C1-P-73.

9595-C1-P-73, United Video, Inc. (WAY25) Joplin, Missouri (Lat. 37 04 49 N.—94 33 25 W.): C. P. to change transmitters and to increase output power to 5.0 watts (power split toward Miami, Oklahoma; Pittsburg, Kansas; and Neosho, Missouri) on existing frequencies. (NOTE: United has requested Special Temporary Authority.)

8814-C1-P/ML-73 American Television Relay, Inc. (KNK38) Blue Ridge Mountain, California (Lat. 34 21 09 N.—Long. 117 40 26 W.): C. P. to change frequency to 6019.3H MHz toward Barstow and Victorville, California.

9596-C1-MP-73 Penn Service Microwave Company (WQQ37) Wyoming Mountain, 4.0 Miles SSE of Wilkes-Barre, Pennsylvania (Lat. 41 11 52 N.—Long. 75 49 22 W.): Mod. of C. P. (a) to relocate receive site to 2.0 Miles East of Idestown (Lat. 41 20 45 N.—Long. 76 01 08 W.), Pennsylvania, on azimuth 313 degrees/30 minutes and (b) to replace transmitting equipment.

9597-C1-P-73 American Television Relay, Inc. (KRW88) 1.0 Mile West Silver City, New Mexico (Lat. 32 46 25 N.—Long. 108 18 34 W.): C. P. to relocate receive site at Hurley, New Mexico, to Lat. 32 42 49 North—Long. 108 08 27 West.

9598-C1-P-73 Tower Communications Systems Corp. (New) Fremont, Ohio (Lat. 41 21 16 N.—Long. 83 05 29 W.): C. P. for new station—frequencies 11225.0V MHz and 11465.0V MHz toward Bellevue, Ohio, on azimuth 117 degrees/50 minutes.

9599-C1-P-73 Same (New) 3.5 Miles West of Bellevue, Ohio (Lat. 41 16 49 N.—Long. 82 54 19 W.): C. P. for new station—frequencies 10735.0H MHz and 10975.0H MHz toward Hartland, Ohio, on azimuth 1009 degrees/12 minutes.

9600-C1-P-73 Same (New) Hartland, 4.5 Miles SW of Clarksfield, Ohio (Lat. 41 10 13 N.—Long. 82 29 26 W.): C. P. for new station—frequencies 11265.0V MHz and 11505.0V MHz toward Litchfield, Ohio, on azimuth 94 degrees/10 minutes.

9601-C1-P-73 Same (New) Litchfield, 6.5 Miles West of Medina, Ohio (Lat. 41 08 31 N.—Long. 81 59 42 W.): C. P. for new station—frequencies 10735.0V MHz and 10975.0V MHz toward Akron, Ohio, on azimuth 104 degrees/20 minutes.

9618-C1-P-73 Southwestern Bell Telephone Company (New) 5.7 Miles SSW of Davis, Oklahoma. Lat. 34 25 04 N.—Long. 97 08 56 W. C.P. for a new station on freq. 5945.2H MHz toward Ardmore, Okla.

9619-C1-P-73 Same (New) 126 "C" Street, NW, Ardmore, Oklahoma. Lat. 34 10 32 N.—Long. 97 07 51 W. C.P. for a new station on freq. 6197.2H MHz toward Davis, Okla.

9620-C1-P-73 South Central Bell Telephone Company (KJW75) 217 West Second Street, Paintsville, Kentucky. Lat. 37 48 52 N.—Long. 82 48 38 W. C.P. to add freq. 11075V MHz toward Hagerhill, Ky.

9621-C1-P-73 Same (KIV68) Approximately 1.5 Miles SE of Paintsville, Kentucky. Lat. 37 47 45 N.—Long. 82 48 05 W. to change power and change freq. from 6234.3 MHz to 6271.4V MHz toward Louisa, Ky.; add freq. 6390.0V MHz toward Louisa, Ky.; correct azimuth on freq. 11525V MHz toward Paintsville, Ky. to 338° 39'.

9622-C1-P-73 Same (KVH96) Approximately 0.4 Mile SW of Louisa, Kentucky. Lat. 38 08 36 N.—Long. 82 36 36 W. C.P. to change power, replace freq. 5982.3 with freq. 6019.3V MHz toward new point of communication at Hagerhill, Ky.; add freq. 6137.9V MHz toward Hagerhill, Ky.

9625-C1-P-73 New England Telephone and Telegraph Company (KCL84) South Uncanoonuc Mountain, Goffstown, New Hampshire. Lat. 42 59 00 N.—Long. 71 35 23 W. C.P. to change antenna system & power on freq. 11545.0H MHz toward Littleton, Mass.

9626-C1-P-73 Same (KTF47) 1.6 Miles South of Littleton, Massachusetts. Lat. 42 31 29 N.—Long. 71 27 49 W. C.P. to change power on freq. 11135.0H MHz toward Goffstown, N.H.

9627-C1-P-73 Interdata Communications, Inc. (WOG70) 8200 Ridge Avenue, Roxborough, Pennsylvania. Lat. 40 03 33 N.—Long. 75 14 20 W. C.P. to add freq. 6256.5V MHz toward Chester.

9628-C1-MP-73 Same (WIU91) Mod. of C.P. to change station location to 3.0 Miles WNW of Chester, Pennsylvania. Lat. 39 50 51 N.—Long. 75 29 45 W. Change freq. toward new point of communication at Roxborough to 6034.2V MHz and to change freq. toward North East to 5945.2H MHz.

9629-C1-MP-73 Same (WIU90) 2.8 Miles NE of North East, Maryland. Lat. 39 37 13 N.—Long. 75 53 37 W. Mod. of C.P. to change point of communication for freq. 6256.5H from Five Points to Chester.

Major Amendments

766-C1-P-73 MCI Telecommunications Corporation (Formerly MCI Texas-Pacific, Inc.) (WPY72) Red Mesa, 11.8 Miles S. of Blue Springs, New Mexico. C.P. to add freq. 6152.8V MHz toward new point of communication at Scholle. Delete Albuquerque and Monticello as points of communication.

6375-C1-P-70 Same (New) 505 Marquette, N.W., Albuquerque, New Mexico. C.P. to add freq. 6404.8H MHz toward new point of communication at Dalies. Delete Red Mesa as a point of communication. (All other particulars same as reported on Public Notices, dated 4-20-70 and 8-14-72.)

7470-C1-P-73 Microwave Communications Corp. (KNM53) St. John Mtn., 27.0 Miles West of Willow, California. Lat. 39 26 05 N.—Long. 122 41 32 W. Application amended to change from Horizontal to Vertical the polarity of freq. 6063.8 MHz toward Mtn. Sanhedrin, Calif. on azimuth 284°43'.

7002-C1-MP-73 Data Transmission Company (WKR35) 7220 N. Stemmons Freeway, Dallas, Texas. Change freq. toward Cedar Hill to 6197.2V MHz.

7003-C1-MP-73 Same (WKR36) 4 Miles East of Rosser, Texas. Change freq. toward Cedar Hill to 6404.8H MHz. (All other particulars same as reported on Public Notice, dated 4-2-73.)

[FCC 73-685]

BROADCASTING OF INFORMATION CONCERNING HORSE RACES

Memorandum Opinion and Order In Regard Clarification

1. The Commission has before it a request filed May 3, 1973, by Harness Tracks of America (HTA), that the Commission clarify its Memorandum Opinion and Order of April 3, 1973, "In the Matter of Broadcasting of Information Concerning Horse Races" (FCC #73-355) (38 FR 9531), for the purpose of "making it clear beyond any doubt that the nature of the advertising permitted O.T.B. (New York City Off-Track Betting Corporation) will be equally acceptable for advertising the pari-mutuel tracks which are licensed by the states for the same purposes that O.T.B. has been authorized." HTA specifically requests the Commission to add the words "pari-mutuel tracks" to its Memorandum Opinion and Order of April 3rd in order to make it expressly applicable to pari-mutuel betting. HTA states that it represents substantially all of the principal pari-mutuel Harness tracks in this country and Canada.

2. We think it is clear from a reading of the three principal Commission documents in this area, i.e. the 1964 Policy Statement,[1] the 1971 Declaratory Ruling,[2] and the previously mentioned April 3, 1973 Memorandum Opinion and Order,[3] that the Commission is using the same standard in issuing guidance to legalized on and off-track betting, and that legalized pari-mutuel betting may be advertised in the same manner as legalized off-track betting.

In the 1964 Policy Statement, which remains the basic expression of Commission policy in this area, it was clearly stated that the Commission did not intend to:

> • • • inhibit the broadcasting of appropriate news, publicity and advertising concerning horseracing. Horseracing and parimutuel betting at racetracks are, of course, permitted in many States. Indeed, the revenues derived from such legal parimutuel betting are of considerable significance to many States. These factors underscore the established role of horseracing, a role which the Commission recognizes and one which we do not wish to disturb.[4]

3. The 1971 Declaratory Ruling and the April 3, 1973, ruling were directed to OTB advertising because both rulings had been requested by OTB and were concerned with specific questions raised by OTB in regard to its advertising and promotional programs. It should be additionally noted that both rulings were interpretations of the 1964 Policy Statement. In the April 3, 1973 ruling we pointed out: "The revised ruling forbids advertising which directly aids or encourages illegal gambling. It permits advertisements which only induce people to follow the State's legalized betting course."[6] We think it is apparent from that statement, along with other expressions of Commission policy in this area, that the Commission's stated policy regarding broadcasting of horseracing information is currently applicable to the "State's legalized betting course," whether that course be limited to pari-mutuel tracks or includes off-track betting facilities such as New York's OTB.

4. *Accordingly, it is ordered*, That the Request to Clarify Memorandum Opinion and Order filed by Harness Tracks

CABLE TELEVISION FEDERAL/STATE-LOCAL ADVISORY COMMITTEE

Steering Committee Meetings

JUNE 5, 1973.

The Steering Committee of the Cable Television Federal/State-Local Advisory Committee will hold open meetings on July 12 and 13, 1973 at 9:30 a.m. The meetings will be held in Room 6331 of the Cable Television Bureau offices located at 2025 M Street, NW., Washington, D.C.

The agenda for the meetings will be a discussion with members of the CTAC Steering Committee on two issues to be included in the final report and a discussion on the two drafts of Part II of the report.

FEDERAL COMMUNICATIONS COMMISSION.
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

U.S. GULF/COLOMBIA NORTHBOUND AND SOUTHBOUND FREE ACCESS AGREEMENT

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street, N.W., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, and San Francisco, California. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before July 31, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Lloyd Strickland, Vice President
Lykes Bros. Steamship Co., Inc.
Lykes Center
300 Poydras Street
New Orleans, Louisiana 70130

Agreement No. 10064, between Flota Mercante Grancolombiana S.A. and Lykes Bros. Steamship Co., Inc., provides for the establishment of a regular coordinated service between the parties in the trade between United States Gulf of Mexico ports and ports in Colombia. The intent is that the lines will (1) have free access to the total import/export cargoes available without any governmental restrictions; (2) become associate companies upon approval of the agreement; and (3) mutually collaborate to have cargo not carried by one party to be carried by the other party.

Agreement No. 10064 will remain in effect indefinitely unless earlier canceled as provided therein.

Dated: July 5, 1973.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

MAJOR PIPELINE COMPANIES

Schedule of Meetings on 1973–74 Operations

The Commission's staff wishes to meet with the senior officials of the major gas pipelines to discuss the capability of these companies to serve their anticipated requirements during the coming year. The pattern will be similar to previous years' meetings with groups of companies having some community of interest meeting at the same time. Some companies have operations extending across two or more groups and accordingly are requested to send representatives to more than one meeting.

The purpose of the meetings is to anticipate, if possible, emergency situations in the coming winter and possible problems in filling storage this summer. These conferences are not intended to affect the resolution of issues pending in any Commission proceedings. The conferences will be open to the public and all interested parties are encouraged to attend. To this end notice will be placed in the Commission's calendar of events and in the FEDERAL REGISTER.

At these meetings we would like to discuss, both on an individual company and on a regional basis, such subjects as current supply availability, present and projected levels of storage, anticipated supply additions—both of a short term and long term nature, anticipated requirements, and other related matters. Of

V 38-132 JUL 11 73 XUM

particular concern will be any indication of curtailment projections by or to a pipeline and other operational adjustments that may become necessary.

Replies to my letter of April 10, 1973, requesting historical and projected supply and requirements for the period April 1972 through March 1974 will provide a useful basis for our discussions.

These meetings will be held in the offices of FPC at 10:00 a.m. on the days indicated in the schedule below.

FRANK C. ALLEN,
Acting Chief, Bureau of Natural Gas.

FEDERAL RESERVE SYSTEM

ASB INVESTMENT CO.

Acquisition of Bank

ASB Investment Company, Flint, Michigan, has applied in separate applications for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire between 10.9 and 12.2 percent of the voting shares of Great Lakes Bancorp, Inc., Kalamazoo, Michigan, and thereby acquire, indirectly, 90 per cent or more of the voting shares of Industrial State Bank & Trust Company, Kalamazoo, The Owosso Savings Bank, Owosso, and Alpena Savings Bank, Alpena, all in Michigan. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The applications may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the applications should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than July 28, 1973.

Board of Governors of the Federal Reserve System, July 3, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-14083 Filed 7-10-73;8:45 am]

ALABAMA BANCORPORATION

Order Approving Acquisition of Bank

Alabama Bancorporation, Birmingham, Alabama, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of the successor by merger to J. C. Jacobs Banking Company, Inc., Scottsboro, Alabama ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant is the largest banking organization in Alabama, controlling five banks with total deposits of $972.6 million, representing 14.3 percent of total deposits of commercial banks in Alabama.[1] Acquisition of Bank (deposits of $17.7 million) would not significantly increase the concentration of banking resources in Alabama.

There are four banking organizations with three banks and one branch in Jackson County (the relevant market). Bank is the second largest organization in the market, holding 27.8 percent of total market deposits as of June 30, 1972. The largest bank in Jackson County controls over 40 percent of the deposits in the market as of the same date. A subsidiary of the second largest holding company in the State has a branch in the market. It is unlikely that approval of the proposed transaction would lead to domination of the area's other banks by Bank.

Applicant's subsidiary closest to Bank is located 64 miles distant, and there is no existing competition between this subsidiary or any of Applicant's other subsidiary banks and Bank. Moreover, Applicant's mortgage banking subsidiary, Engel Mortgage Company, has not originated mortgage loans in Jackson County for several years and does not presently compete with Bank. It does not appear likely that meaningful competition between Bank and Applicant would develop in the future in view of Alabama's restrictive banking laws and the limited prospects of the market for de novo entry.[2] On the basis of the record before it, the Board concludes that consummation of the proposal herein will not result in any significant increase in concentration of banking resources in Alabama nor have any adverse effect on competition in any relevant area.

Considerations relating to the managerial and financial resources and future prospects of Applicant, its subsidiary banks, and Bank are satisfactory and consistent with approval of the application. Considerations relating to the needs of the community to be served lend some weight for approval of the application since Applicant's acquisition of Bank will enable the latter to expand its services within the market. The Board finds that approval of the application is in the public interest.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order, or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Atlanta, pursuant to delegated authority.

By order of the Board of Governors,[3] effective July 3, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-14081 Filed 7-10-73;8:45 am]

[1] All banking data are as of December 31, 1972 except where otherwise noted, and represent bank holding company formations and acquisitions approved by the Board through May 31, 1973.

[2] Income levels in Jackson County are significantly below those of the State as a whole, while the population per banking office (3,700) relative to the State average (6,300) makes Scottsboro an unattractive location for de novo entry.

[3] Voting for this action: Vice Chairman Mitchell and Governors Sheehan, Bucher and Holland. Absent and not voting: Chairman Burns and Governors Daane and Brimmer.

AMERICAN BANCSHARES, INC.

Acquisition of Bank

American Bancshares, Incorporated, North Miami, Florida, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 90 percent or more of the voting shares of Executive Bank of Fort Lauderdale, Fort Lauderdale, Florida. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank to be received not later than July 28, 1973.

Board of Governors of the Federal Reserve System, July 5, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-14082 Filed 7-10-73;8:45 am]

CONTINENTAL BANKSYSTEM, INC.

Order Denying Formation of Bank Holding Company

Continental Banksystem, Inc., St. Paul, Minnesota, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) for formation of a bank holding company through acquisition of 60 percent or more of the voting shares of St. Anthony Park State Bank, St. Paul, Minnesota ("St. Anthony Park"); 53 percent or more of the voting shares of Roseville State Bank, Roseville, Minnesota ("Roseville Bank"); 59 percent or more of the voting shares of Peoples National Bank, Mora, Minnesota ("Mora Bank"); and 70 percent or more of the voting shares of Citizens State Bank of Montgomery, Montgomery, Minnesota ("Montgomery Bank").

At the same time Applicant has applied for the Board's approval under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire a majority of the voting shares of Peoples Credit Company of Mora, Minnesota, Inc., Mora, Minnesota ("Peoples Credit Company"), a company which engages in the activities of a non-real estate agricultural credit corporation. Such activity has been determined by the Board to be closely related to the business of banking (12 CFR 225.4(a)(2)).[1]

Notice of the application, affording opportunity for interested persons to submit comments and views has been given in accordance with sections 3 and 4 of the Act (38 FR 11011, 11034). The time for filing comments and views has expired, and none has been timely received. The Board has considered the applications in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)), and the considerations specified in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).

Applicant was organized in 1970 for the purpose of becoming a bank holding company and has no operating history. The four banks to be acquired have aggregate deposits of $49 million representing .5 percent of the total commercial bank deposits in Minnesota.[2] Applicant would become the tenth largest bank holding company and the twelfth largest banking organization in the State.

St. Anthony Bank (deposits of $10.3 million) and Roseville Bank (deposits of $15 million) are located about three miles apart in a northwestern section of St. Paul, Minnesota and an adjacent northern suburb respectively. There is a small amount of service area overlap between the two banks and some competition would be eliminated by this proposed transaction. The Twin Cities market, however, is highly concentrated with the two largest banking organizations holding 70 percent of the market deposits. In view of this concentration and the large number of commercial banking alternatives (75) in the market and the fact that by this proposed transaction both banks may become more viable competitors to the dominant banking organizations in the market, the slight elimination of competition is not a signficant adverse factor.

Mora Bank (deposits of $13.5 million) is located in rural area of Kanabec County, Minnesota, 60 miles north of St. Paul. Montgomery Bank (deposits of $10 million) is located in a rural area of La Sueur County, Minnesota, 50 miles southwest of St. Paul. Neither of these banks compete with the other or with St. Anthony Bank or Roseville Bank. In view of the distances involved and the Minnesota prohibition against branching it is unlikely that any such competition would develop in the future.

Peoples Credit Company (outstanding loans of $1.3 million) originates and services non-real estate agricultural loans in the same market area serviced by Mora Bank. Since Mora Bank is affiliated with Peoples Credit Company, St. Anthony Bank and Roseville Bank do not make agricultural loans, and Montgomery Bank is 110 miles away, there is no elimination of competition through this acquisition. The proposed acquisitions will not produce any adverse competitive effects and may be slightly procompetitive if they result in a holding company capable of offering new competition to the dominant banking organizations in the State.

While Applicant proposes to offer additional services and improve the facilities and increase the hours of operation of the banks to be acquired, the Mora, Montgomery and Twin City markets are being adequately served at present. Considerations relating to the convenience and needs of the communities to be served are consistent with and lend slight weight for approval.

While the above considerations are consistent with approval, section 3(c) of the Bank Holding Company Act directs the Board to take into consideration the financial and managerial resources and future prospects of Applicant and banks to be acquired; these give rise to serious questions in connection with this proposal. Even if successful in completing a private equity offering of $2 million, which must be effected prior to the consummation, Applicant will still have acquisition debt remaining equal to 66 per cent of equity capital accounts. Applicant's plan to eliminate this debt by a public or private placement equity offering of $2 million during 1975 is questionable under conditions the Applicant projects. Earnings prospects as projected by the Applicant are essentially dependent on earnings of the proposed subsidiaries, and these do not appear sufficient to service the debt in the interim period and still maintain a viable organization. This strain on earnings in turn will make the projected 1975 placement more questionable. Applicant has failed to show alternative plans or ability to meet its debt should its 1975 equity offering fail or become impossible to complete.

The Board has on many occasions stated that a holding company should be a source of strength for its subsidiary banks rather than vice versa. Applicant, however, will be required to use bank earnings to support its acquisition debt and will be unable to provide additional capital funds should the need arise. In addition, the acquisition of the majority interest of one of the banks contemplates the payment of $125,000 in deferred compensation over five years to the majority shareholder in return for his services as chief executive officer of the bank and for making himself available part-time to perform services for Applicant. Since the bank already has an adequately compensated chief executive officer, and the majority shareholder is principally involved in operating his own construction firm, there appears to be no economic justification for this compensation arrangement. The capital position of this bank is at present only marginally satisfactory, and the proposed compensation agreements would adversely affect its financial position and future prospects.

The Board concludes that the excessive debt to be incurred by Applicant in this proposed transaction, the consequent strain on subsidiary bank earnings to service the debt, and the reliance without alternative plans on an uncertain public placement to repay his debt present adverse circumstances bearing on financial condition, managerial responsibility and future prospects of the Applicant and banks. These circumstances are not outweighed by any procompetitive factors or by considerations relating to convenience and needs of the communities to be served. Accordingly, the Board is of the opinion that approval of this application is not in the public interest and should be denied.

[1] In view of the Board's Order denying the formation of the bank holding company, action with respect to the § 4(c)(8) application has been rendered moot.

[2] All banking data are as of June 30, 1972 and reflect bank holding company formations and acquisitions through April 30, 1973.

V 38 1132 JUL 11 73 XUM

On the basis of the record, the application is denied for the reasons summarized above.

By order of the Board of Governors,[3] effective July 2, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-14063 Filed 7-10-73;8:45 am]

FIRST CITY BANCORPORATION OF TEXAS, INC.

Order Approving Acquisition of Bank

First City Bancorporation of Texas, Inc., Houston, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares (less directors' qualifying shares) of First Professional Bank, National Association, Houston, Texas ("Bank"), a proposed new bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the third largest banking organization in Texas and the largest in the Houston banking market (approximated by the Houston SMSA), controls 15 banks with total deposits of $1,812.5 million, which represents 5.96 per cent of total commercial bank deposits in the State, and 20.04 per cent of all such deposits in the Houston market.[1] In addition, Applicant owns voting shares in 13 other banks with aggregate deposits of $372.9 million—which represents an additional 1.22 per cent of the State's total commercial bank deposits.[2] Consummation of the proposed acquisition would not immediately increase Applicant's share of commercial bank deposits either in Texas or in the Houston market. Applicant's nearest present subsidiary, Highland Village State Bank, is located six miles away, outside Bank's proposed service area. Within that service area, Bank will face significant competition from three other commercial banks, including the tenth largest banking organization in the Houston market. Accordingly, the Board concludes that consummation of the proposed acquisition would not adversely affect competition in any relevant area.

The financial and managerial resources of Applicant, its present subsidiary banks, and Bank are satisfactory. Considerations relating to the convenience and needs of the communities to be served lend weight toward approval, since Bank will be located near the rapidly expanding Texas Medical Center and will provide an additional source of services to customers in or near this complex. It is the Board's judgment that the proposed acquisition is in the public interest and that the application should be approved

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after that date, and (c) First Professional Bank, National Association, Houston, Texas, shall be opened for business not later than six months after the effective date of this order. Each of the periods described in (b) and (c) may be

[1] Banking data are as of June 30, 1972, adjusted to reflect holding company acquisitions and formations approved through May 31, 1973.

[2] The Board's Order of January 4, 1973, conditions approval of Applicant's acquisitions of Highland Village State Bank, Houston, Texas, and of First State Bank of Clear Lake City, Clear Lake City, Texas, upon divestiture of direct or indirect control of all voting shares in excess of five per cent of both South Main Bank and Heights State Bank, both of Houston, Texas. The figures above do not reflect any such divestiture.

extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[3] effective July 3, 1973.

Secretary of the Board.

[FR Doc.73-14085 Filed 7-10-73;8:45 am]

FIRST INTERNATIONAL BANCSHARES, INC.

Order Approving Acquisition of Bank

First International Bancshares, Inc., Dallas, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent (less directors' qualifying shares) of the voting shares of the successor by merger to The First National Bank of Odessa, Odessa, Texas ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, presently the second largest bank holding company in Texas, controls two banks[1] with aggregate deposits of approximately $1.7 billion,[2] representing 5.6 percent of the total commercial bank deposits in the State. Acquisition of Bank would increase Applicant's share of State deposits by .17 per cent and would not result in a significant increase in the concentration of banking resources in the State.

Bank (approximately $52 million in deposits) is the third largest of nine banks in the Midland-Odessa SMSA and accounts for 11.7 per cent of the commercial bank deposits in the market. The first and second largest banks in the market account for 42 and 18 per cent of the commercial bank deposits, respectively. Consummation of the proposal herein would constitute Applicant's initial entry into the Midland-Odessa SMSA.

[2] Voting for this action: Vice Chairman Mitchell and Governors Brimmer, Sheehan, and Holland. Absent and not voting: Chairman Burns and Governors Daane and Bucher.

[1] In addition to its two subsidiary banks, Applicant indirectly owns interests of between 5 and 25 per cent in 13 banks. Applicant states that it intends to acquire five of these banks, and to divest its minority interest in each of the remaining eight banks.

[2] All banking data are as of June 30, 1972, and reflect holding company formations and acquisitions approved through May 31, 1973.

Applicant's subsidiary bank closest to Bank is located in Dallas, more than 300 miles away. There is no meaningful present competition between Applicant's subsidiary banks and Bank. Furthermore, in view of the distances involved and Texas' restrictive branching law, there is little probability that any significant amount of competition would develop in the future between these institutions. Although Applicant could enter the market de novo or through the acquisition of a smaller bank, Applicant's acquisition of Bank is not regarded as having a substantially adverse effect on potential competition because Applicant's acquisition of Bank would not result in Applicant's gaining a dominant share of the market's banking resources, nor would it appear to preclude the possibility of other holding companies entering the market. The Board concludes, therefore, that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Bank, and of Applicant and its present subsidiary banks, are regarded as satisfactory; and Applicant intends to increase Bank's equity capital upon consummation of the transaction. Considerations relating to the banking factors are consistent with approval of the application. Although the major banking needs of the residents in the area are being adequately served at the present time, the proposed affiliation is likely to result in expansion of the range of services presently offered by Bank. Considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[3] effective July 3, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-14086 Filed 7-10-73;8:45 am]

FIRST INTERNATIONAL BANCSHARES, INC.

Order Approving Acquisition of Bank

First International Bancshares, Inc., Dallas, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent (less directors' qualifying shares) of the voting shares of the successor by merger to The First National Bank of Harlingen, Harlingen, Texas ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, presently the largest bank holding company in Texas, controls two banks[1] with aggregate deposits of approximately $2.1 billion,[2] representing 6.1 per cent of the total commercial bank deposits in the State. Acquisition of Bank would increase Applicant's share of State deposits by 0.2 per cent and would not result in a significant increase in the concentration of banking resources in the State.

Bank (approximately $62 million in deposits) is the second largest of nine banks in the Brownsville-Harlingen-San Benito SMSA and accounts for 22.8 per cent of the commercial bank deposits in the market. The first and third largest banks in the market account for 24.3 and 17.3 per cent of the commercial bank deposits, respectively. Consummation of the proposal herein would constitute Applicant's initial entry into this market.

Applicant's subsidiary closest to Bank is located in Houston, approximately 300 miles away, and there is no meaningful present competition between Applicant's subsidiary banks and Bank. In view of the distances involved and Texas' restrictive branching law, there appears to be little likelihood for the development of any significant amount of future competition between these institutions. Although Applicant could enter the market de novo or through the acquisition of a smaller bank, Applicant's acquisition of Bank is not regarded as having a substantially adverse effect on potential competition because size disparity among the top banks is narrow enough so that Applicant's acquisition of Bank would not result in Applicant's gaining a dominant share of the market's banking resources, nor would it appear to preclude the possibility of other holding companies entering the market. The Board concludes,

[1] In addition to its two subsidiary banks, Applicant indirectly owns interests of between 5 and 25 per cent in 13 banks. Applicant states that it intends to acquire five of these banks, and to divest its minority interest in each of the remaining eight banks.

[2] All banking data are as of December 31, 1972, and reflect holding company formations and acquisitions approved through May 31, 1973.

[3] Voting for this action: Vice Chairman Mitchell and Governors Brimmer, Sheehan and Holland. Absent and not voting: Chairman Burns and Governors Daane and Bucher.

V 38 I 132 JUL 11 73 XUM

therefore, that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Bank, and of Applicant and its present subsidiary banks, are regarded as satisfactory; and Applicant intends to increase the equity capital of Bank upon consummation of the transaction. Considerations relating to the banking factors are consistent with approval of the application. Although the major banking needs of the residents in the area are being adequately served at the present time, the proposed affiliation is likely to result in expansion of the range of services presently offered by Bank. Considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[1] effective July 3, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-14087 Filed 7-10-73;8:45 am]

FIRST & MERCHANTS CORP.

Order Approving Acquisition of Bank

First & Merchants Corp., Richmond, Virginia, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares of the successor by merger to the Peoples Bank of Stafford, Falmouth, Virginia ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls three banks with aggregate deposits of $1,011 million, representing 9.4 per cent of the total commercial bank deposits in Virginia, and is the third largest banking organization in the State. (All banking data is of December 30, 1972.) Bank has four offices and controls $15.7 million in deposits, representing .15 per cent of the commercial bank deposits in Virginia. Bank ranks third in its market. Consummation of the proposed acquisition will not significantly increase concentration of banking resources in the State.

The market area of Bank includes the city of Fredericksburg, Stafford County, and Spotsylvania County. There is no significant competition between Applicant's banking subsidiaries and Bank at the present time, and the possibility of future competition is remote because Virginia law prevents Applicant's subsidiary banks from branching *de novo* into the market. Bank is the third largest of four banks located in the market and is considerably smaller than the two leading banks. Applicant's acquisition of Bank would not result in Applicant's gaining a dominant share of the market's banking resources, nor would it appear to preclude the possibility of other bank holding companies entering the market.

Applicant's subsidiary, First Mortgage Corporation, Richmond, Virginia, does compete directly with Bank for loans secured by new one-to-four family residential properties. That competition is not substantial at present, nor does the Board believe that it would likely attain significant proportions in the future, if the application were not approved.

Consummation of the proposed acquisition would not appear, therefore, to eliminate or foreclose significant existing or potential competition between Applicant or any of its subsidiaries and Bank, and the Board concludes that competitive considerations are consistent with approval of the application.

The financial and managerial resources of Applicant and its subsidiaries are generally satisfactory. Applicant has agreed to add capital to Bank and Bank's management appears satisfactory. Future prospects for Applicant and Bank are considered good. Applicant plans to make Bank more aggressive in its investments and loans (and Bank will have a larger lending limit) by financing dealer floor plans, by purchasing installment paper, and by more aggressive retail banking in general. Hence, factors relating to convenience and needs of the community are consistent with approval. It is the Board's judgment that the proposed transaction is in the public interest and should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Richmond pursuant to delegated authority.

By order of the Board of Governors,[1] effective July 3, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

GREAT LAKES HOLDING CO.

Acquisition of Bank

Great Lakes Holding Company, Kalamazoo, Michigan, has applied in separate applications for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire between 28.6 and 31.8 per cent of the voting shares of Great Lakes Bancorp, Inc., Kalamazoo, Michigan and thereby acquire, indirectly, 90 per cent or more of the voting shares of Industrial State Bank & Trust Company, Kalamazoo, The Owosso Savings Banks, Owosso, and Alpena Savings Bank, Alpena, all in Michigan. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The applications may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the applications should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than July 28, 1973.

Board of Governors of the Federal Reserve System, July 3, 1973.

PHILADELPHIA NATIONAL CORP.

Proposed Retention of Congress Factors Corporation

Philadelphia National Corporation (formerly PNB Corporation), Philadelphia, Pennsylvania, has applied, pursuant to §§ 4(c)(8) and (13) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and (13) and § 225.4(b)(2) of the Board's Regulation Y, for permission to transfer and retain voting shares of Congress Factors Corporation, Philadelphia, Pennsylvania. Those shares are presently held by The Philadelphia National Bank, a wholly-owned (except for directors' qualifying shares) subsidiary of Philadelphia National Corporation. Congress Financial Corporation, Philadelphia, Pennsylvania, and Congress Credit Corporation, Philadelphia, Pennsylvania, are both subsidiaries of Congress Factors Corporation. Notice of the application was published on April 17, 1973 in The New York Times, a newspaper circulated in New York City, New York; on April 17, 1973, in the Miami Herald, a newspaper circulated in Miami, Florida; on April 18, 1973, in The Philadelphia Daily News, a newspaper circulated in Philadelphia, Pennsylvania; and on April 19, 1973 in El Mundo, a newspaper circulated in the island of Puerto Rico, in each of which locations Congress Factors Corporation and/or one or more of its subsidiaries maintains offices.

Applicant states that Congress Factors Corporation engages in the activities of factoring, that is, the purchasing, principally on a non-recourse basis, of accounts receivable, and commercial financing, that is, the making of loans to commercial customers, secured by accounts receivable, inventory, equipment, and/or real estate; Congress Financial Corporation and Congress Credit Corporation engage in the activity of commercial financing. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Philadelphia.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than July 30, 1973.

Board of Governors of the Federal Reserve System, July 5, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

SECURITIES AND EXCHANGE COMMISSION

[70-5361]

ALABAMA POWER CO.

Proposed Issue and Sale of First Mortgage Bonds

JULY 2, 1973.

Notice is hereby given, that Alabama Power Company ("Alabama"), an electric utility subsidiary company of The Southern Company, a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the following proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Alabama proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, up to $100,000,000 principal amount of its First Mortgage Bonds, — percent Series, having a term of not less than 5 years and not more than 30 years. Alabama will decide on the terms of the bonds prior to the filing of the registration statement. The interest rate (which shall be a multiple of ⅛%) and the price, exclusive of accrued interest, to be paid to Alabama (which shall be not less than 99 percent nor more than 102¾ percent of the principal amount thereof) will be determined by the competitive bidding. The bonds will be issued under an Indenture, dated as of January 1, 1942, between Alabama and Chemical Bank, as Trustee, as heretofore supplemented and as to be further supplemented by a Supplemental Indenture to be dated as of August 1, 1973, which includes a prohibition until August 1, 1978 against refunding the bonds with the proceeds of funds borrowed at a lower effective interest cost.

Alabama proposes to use the proceeds from the sale of the bonds together with: (1) cash contributions to capital of $65,000,000 by The Southern Company ($27,000,000 of which had been received through May 31, 1973) heretofore authorized by the Commission (Holding Company Act Release No. 17824), (2) proceeds from the sales of additional first mortgage bonds ($75,000,000 principal amount) and 300,000 shares of preferred stock (par value $30,000,000), which Alabama proposes to issue later in 1973; and (3) cash on hand in excess of operating requirements, interest and dividends, to finance its 1973 construction program (estimated at $364,710,000), to pay short-term promissory notes payable in the form of bank notes and commercial paper notes incurred for such purpose, and for other lawful purposes. Alabama estimates that no additional financing will be required for construction purposes during 1973, except for the issuance and sale of short-term bank notes and commercial paper notes authorized by the Commission (Holding Company Act Release No. 17824). It is estimated that approximately $7,000,000 of notes payable will be outstanding at December 31, 1973.

It is stated that the Alabama Public Service Commission has approved the proposed issuance and sale of the bonds by Alabama. No other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction. A statement of the fees and expenses to be incurred in connection with the proposed transaction will be supplied by amendment.

Notice is further given that any interested person may, not later than July 26, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest; the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary,

V 38 1 132 JUL 11 73 XUM

Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the General Rules and Regulation promulgated under the Act, or the Commission may grant exemption from such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[812-3473]

IDS NEW DIMENSIONS FUND, INC.

Application for Exemption

JULY 3, 1973.

Notice is hereby given that IDS New Dimensions Fund, Inc. (the "Fund"), 1000 Roanoke Building, Minneapolis, Minnesota 55402, which is registered as a diversified, open-end management investment company under the Investment Company Act of 1940 (the "Act"), has filed an application pursuant to section 6(c) of the Act for exemption from section 22(d) of the Act and Rule 22c-1 under the Act to permit a public offering of shares of the Fund in Japan to Japanese and other non-United States nationals in accordance with Japanese law and regulations, but under terms and with sales charges which differ from the terms and charges described in the prospectus of the Fund that is used in the United States. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein which are summarized below.

Section 22(d) of the Act provides, in substance, that no registered investment company may sell any redeemable security issued by it except either to or through a principal underwriter for distribution or at a current public offering price described in its prospectus. The current public offering price includes the sales charge, if any, and is subject to the terms and options, such as rights of accumulation, automatic withdrawal, and purchases under a letter of intent, as are described in the prospectus.

Rule 22c-1 under the Act provides, in pertinent part, that a redeemable security may be sold only at a price based on the current net asset value of the security which is next computed after receipt of an order to purchase such security.

Yamaichi Securities Co. Ltd. ("Yamaichi"), a Japanese securities dealer, proposes to purchase at least $10,000,000 of shares of the Fund for the purpose of reselling such shares in Japan to Japanese and other non-United States nationals by means of a block offering to be completed within a short period of time either by Yamaichi directly or by selected dealers. Yamaichi proposes to purchase such shares at the net asset value computed in accordance with Rule 22c-1, plus an underwriting commission of 1 percent to be paid to Investors Diversified Services, Inc. ("IDS"), the investment adviser of, and principal underwriter for, the Fund. This arrangement would ensure that the Fund would receive full net asset value for its shares as required by the Act. However, resale of such shares in Japan would be subject to Japanese regulation and Japanese marketing practices which require, as a practical matter, that the block offering be made pursuant to terms different from those described in the Fund's United States prospectus.

For the purpose of computing the sales prices of shares in the initial block offering, the net asset value of the Fund would be the lesser of the net asset value paid by Yamaichi or that next computed after the receipt by Yamaichi or a selected dealer of a purchase order. After the initial block offering, Yamaichi intends to make additional shares available in Japan at prices based on net asset values of the Fund computed in accordance with Rule 22c-1, but with sales loads as described herein. Further block offerings might be made in the same manner as the proposed initial block offering, depending on market reception to the Fund.

Shares of the Fund would be sold in Japan according to a schedule of sales charges different from the one used in the United States. The respective schedules set different break points and provide, generally speaking, for lower sales loads in Japan on smaller purchases and higher sales loads in Japan for larger purchases. Applicant represents that the proposed different schedule of sales charges to be used in Japan is necessary because permissible sales charges in Japan are determined by the various securities dealers' associations as a matter of self-regulation and that such associations have an understanding among themselves tantamount to a requirement that sales commissions to be charged in Japan in connection with the sale of foreign investment company securities should be somewhat closely related to those sales charges currently prevailing with respect to the sale of shares of Japanese investment trusts with similar objectives. Applicant also states that the sales charges to be imposed in Japan are more or less similar to those charged by other foreign investment trusts marketing shares in Japan and that it would be competitively impossible to charge higher rates.

The Japanese regulation and marketing practices also require certain other variations from the terms of offering contained in the Fund's United States prospectus. Such options as rights of accumulation, systematic withdrawal, aggregation of purchases by "any person" under Rule 22d-1, purchases under a letter of intent, and exchange of shares of the Fund for shares of other investment companies in the IDS complex would not be available under the proposed offering in Japan because they are not consistent with the present practice in that country. Because the terms and sales charges pursuant to which shares of the Fund would be required to be sold in Japan would differ from the terms and sales charges described in the current prospectus of the Fund that is used in the United States, the public offering price in Japan would differ from the public offering price described in the Fund's current prospectus.

Section 6(c) of the Act permits the Commission to exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from the provisions of the Act and the Rules and Regulations promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

The Fund represents that the exemptions requested from the provisions of section 22(d) of the Act and Rule 22c-1 under the Act, pursuant to section 6(c), so as to permit the sale of its securities in Japan, are necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than July 23, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule O-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponement thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

KELLOGG CO.

Applications for Unlisted Trading Privileges and Opportunity for Hearing

JULY 3, 1973.

In the matter of applications of the Midwest Stock Exchange, Inc. for unlisted trading privileges in certain securities.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the common stocks of the following company, which securities is listed and registered on one or more other national securities exchanges:

Kellogg Company ---------- File No. 7-4415

Upon receipt of a request, on or before July 19, 1973 from any interested person, the Commission will determine whether the application with respect to any of the companies named shall be set down for hearing. Any such request should state briefly the title of the security in which he is interested, the nature of the interest of the person making the request, and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C., 20549 not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation pursuant to delegated authority.

MASSACHUSETTS BAY INCOME SHARES

Proposal To Terminate Registration

JULY 3, 1973.

Notice is hereby given that the Commission proposes, pursuant to section 8 (f) of the Investment Company Act of 1940 ("Act"), to declare by order upon its own motion that Massachusetts Bay Income Shares ("Fund"), 441 Stuart Street, Boston, Massachusetts 02116, registered under the Act as an open-end diversified management investment company, has ceased to be an investment company.

Fund was organized as a Massachusetts corporation on December 31, 1970, and filed a Notification of Registration on Form N-8A and a Registration Statement on Form N-8B-1 with the Commission on April 19, 1971.

Fund presently has no assets or shareholders and has no intention of making a public offering of its shares. Its Registration Statement under the Securities Act of 1933 was declared abandoned by the Commission on November 1, 1972.

Section 8(f) of the Act, provides, in pertinent part, that when the Commission finds a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order, which may be issued upon the Commission's own motion when appropriate, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than July 27, 1973 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Fund at the address set forth above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the matter may be issued by the Commission upon the basis of the information stated herein, unless an order for a hearing shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

POTOMAC EDISON CO. ET AL.

Proposed Issue and Sale of Short-Term Notes

JULY 2, 1973.

Notice is hereby given that Monongahela Power Company ("Monongahela"), 1310 Fairmont Avenue, Fairmont, West Virginia 26554, The Potomac Edison Company ("PE"), Downsville Pike, Hagerstown, Maryland 21740, and West Penn Power Company ("West Penn") 800 Cabin Hill Drive, Greensburg, Pennsylvania 15601, public utility subsidiary companies of Allegheny Power System, Inc., a registered holding company, have filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 6(b) of the Act and Rule 50(a)(5) promulgated thereunder as applicable to the following proposed transactions. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transactions.

Monongahela, PE, and West Penn request permission to issue and sell short-term notes to banks and to dealers in commercial paper from time to time for the period July 31, 1973, to December 31, 1974. Monongahela, PE, and West Penn also request that from the date of this application to December 31, 1974, the exemption from the provisions of section 6(a) of the Act afforded to each of them by the first sentence of section 6 (b) of the Act be increased to the extent necessary to cover the issuance and sale of notes to banks and to dealers in commercial paper up to the following amounts: Monongahela $35,000,000; PE—$40,000.00; and West Penn—$60,000,000.

Monongahela, PE, and West Penn propose to issue, reissue, sell, and renew from time to time short-term notes to banks and to dealers in commercial paper prior to December 31, 1974, provided that in no case shall any of such notes mature later than June 30, 1975. The proceeds from the issuance and sale of such notes will be used by each of the companies to reimburse its corporate treasury for past expenditures made in connection with its construction program, to pay part of the cost of future construction, and for other corporate purposes. The estimated gross construction expenditures for 1973, 1974, and 1975 are estimated to total $135.8 million in the case of Monongahela, $121.9 million in the case of PE, and $224.6 million in the case of West Penn.

Each note payable to a bank will be dated as of the date of the borrowing which it evidences, will mature not more than 270 days after the date of issuance or renewal thereof, will bear interest at the prime or comparable interest rate of the bank from which the borrowing is made, in effect at the time of issuance or in effect from time to time, and will be prepayable at any time without premium or penalty. The names of the banks from which such borrowings are proposed to be effected and the maximum amount of borrowings outstanding at any one time are as follows:

MONONGAHELA	
First National City Bank	$36,900,000
Mellon National Bank & Trust Company	35,000,000
	$71,900,000
PE	
First National City Bank	$67,000,000
Chemical Bank	35,000,000
Manufacturers Hanover Trust Company	2,500,000
	$104,500,000
WEST PENN	
First National City Bank	$65,000,000
Mellon National Bank & Trust Company	35,000,000
Pittsburgh National Bank	6,000,000
The Chase Manhattan Bank N.A	5,000,000
	$111,000,000

The maximum amount of short-term notes outstanding at any one time will not, when taken together with any commercial paper outstanding, be in excess of $35,000,000 in the case of Monongahela or $60,000,000 in the case of West Penn and in the case of PE will not, when taken together with any commercial paper outstanding and any long-term unsecured debt outstanding, be in excess of $40,000,000 in each case including any notes which may be outstanding pursuant to prior orders of the Commission. It is stated that Monongahela, PE, and West Penn maintain balances to meet regular operating requirements at these banks which vary in amount from time to time. If average balances were maintained solely to fulfill compensating balance requirements of major banks, approximately 20 percent, the effective interest costs to each of the companies issuing and selling the notes on the basis of a prime commercial credit or comparable rate of 7.5 percent would be 9.375 percent.

The commercial paper will be in the form of promissory notes in denominations of not less than $50,000 nor more than $5,000,000 and will be of varying maturities, with no maturity more than 270 days after the date of issue. None will be prepayable prior to maturity. The commercial paper notes will be sold directly to a dealer or dealers in commercial paper, designated by post-effective amendment by each of the companies, at a discount not in excess of the discount rate per annum prevailing at the time of issuance for commercial paper of comparable quality and of the particular maturity. The dealer or dealers may reoffer the commercial paper at a discount of ⅛ of 1 percent per annum less than the discount rate to Monongahela, PE, or West Penn. No commercial paper notes will be issued having a maturity of more than 90 days at an effective interest cost which exceeds the effective interest cost at which Monongahela, PE, or West Penn, as the case may be, is able to borrow the same amount from banks at that time. Such dealer or dealers will reoffer the commercial paper notes to not more than 200 of its or their customers identified and designated in a list for each company (nonpublic) prepared in advance. It is expected that the commercial paper notes will be held by the customers to maturity, but if the customers wish to resell prior to maturity, the dealer or dealers, pursuant to a verbal repurchase agreement, will repurchase the notes and reoffer them to others on said list.

Monongahela, PE, and West Penn requests an exception from the competitive bidding requirements of Rule 50 for the proposed issue and sale of its commercial paper pursuant to paragraph (a)(5) thereof. Each applicant also requests authority to file certificates under Rule 24 with respect to the issue and sale of commercial paper hereafter consummated pursuant to this application on a quarterly basis.

The application states that total fees and expenses related to the proposed transactions are estimated not to exceed $9,900, including credit rating fees in the amount of $2,500 for each company, and that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than July 26, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as amended or as it may be further amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof. For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

SELECTIVE SERVICE SYSTEM

REGISTRANTS PROCESSING MANUAL

The Registrants Processing Manual is an internal manual of the Selective Service System. The following portions of that Manual are considered to be of sufficient interest to warrant publication in the FEDERAL REGISTER. Therefore these materials are set forth in full as follows:

[TEMPORARY INSTRUCTION NO. 601–1]

Issued: June 29, 1973

Subject: State Operational Issuances

Chapter 601 of the RPM requires that state operational issuances to local boards concerning matters covered in the RPM be issued under a new system as either State Temporary Instructions or State Supplements. Therefore, it will be necessary that all current state operational issuances be revised to conform to this new system.

Each State Director shall review all state operational issuances which are currently in effect in his state. After the review, all issuances which he desires to remain effective shall be forwarded to National Headquarters, Operations Division, Attention: OOPR, for approval in accordance with Sections 601.8 and 601.9. Those issuances shall be rewritten in accordance with Section 601.4; all other operational issuances shall be cancelled. Issuances forwarded for approval must reach National Headquarters not later than July 31, 1973.

This Temporary Instruction will terminate upon completion of the required actions.

[TEMPORARY INSTRUCTION NO. 631–12]

ISSUED: June 29, 1973

SUBJECT: Extension of Temporary Instruction No. 631–11, Assignment to Priority Selection Groups

Temporary Instruction No. 631–11, issued June 1, 1973, and originally scheduled to terminate on July 1, 1973, is amended to terminate on September 1, 1973.

This Temporary Instruction will terminate September 1, 1973.

CANADIAN PACIFIC LTD.

Rerouting or Diversion of Traffic

In the opinion of R. D. Pfahler, Agent, the Canadian Pacific Limited is unable to transport traffic over its line between Lyndonville, Vermont and Wells River, Vermont, because of flood damage.

It is ordered, That:

(a) The Canadian Pacific Limited, being unable to transport traffic over its line between Lyndonville, Vermont, and Wells River, Vermont, because of flood damage, that carrier is hereby authorized to reroute or divert such traffic via any available route to expedite the movement. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) *Concurrence of receiving roads to be obtained.* The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) *Notification to shippers.* Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the division of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) *Effective date.* This order shall become effective at 11:59 a.m., July 3, 1973.

(g) *Expiration date.* This order shall expire at 11:59 p.m., July 7, 1973, unless otherwise modified, changed, or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., July 3, 1973.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER, *Agent.*

[FR Doc.73–14140 Filed 7–10–73;8:45 am]

FOURTH SECTION APPLICATION FOR RELIEF

JULY 6, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed on or before July 26, 1973.

FSA No. 42710—*Soda Ash from Wyandotte, Michigan.* Filed by Traffic Executive Association-Eastern Railroads, Agent, (E.R. No. 3039), for interested rail carriers. Rates on soda ash, dense, in bulk, in covered hopper cars, as described in the application, from Wyandotte, Michigan, to Oakdale, Georgia.

Grounds for relief—Rate relationship.

Tariff—Supplement 171 to Traffic Executive Association-Eastern Railroads, Agent, tariff C/S–128–E, I.C.C. No. C–611. Rates are published to become effective on August 5, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice 17]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JULY 6, 1973.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules—Motor Carriers of Passengers, 1969 (49 CFR 1042.2 (c)(9)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.2 (c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.2 (c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PASSENGERS

NO. MC–2866 (Deviation No. 13), EDWARDS MOTOR TRANSIT COMPANY,

V 38-132 JUL 11 73 XUM

56 East 3rd St., Williamsport, Pa. 17701, filed June 18, 1973. Carrier's representative: Robert E. Goldstien, 8 West 40th St., New York, N.Y. 10018. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, and *express* and *newspapers* in the same vehicle with passengers, over deviation routes as follows: (1) from junction U.S. Highway 219 and New York Highway 242 north of Ellicottville, N.Y., over U.S. Highway 219 to junction New York Highway 39 near Springville, N.Y., and (2) from junction U.S. Highway 219 and New York Highway 277 at North Boston, N.Y., over New York Highway 277 to junction New York Highway 240 near Orchard Park, N.Y., thence over New York Highway 240 to junction U.S. Highway 20–A, thence over U.S. Highway 20–A to junction Interstate Highway 90 (Interchange No. 55), thence over Interstate Highway 90 to junction Interstate Highway 190, thence over Interstate Highway 190 to Buffalo, N.Y. (Interchange No. 7) (New York Highways 277 and 240 and U.S. Highway 20–A described above to be new U.S. Highway 219), and return over the same routes for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and same property, over a pertinent service route as follows: from Lantz Corners, Pa., over U.S. Highway 219 via Bradford, Pa., and Salamanca, N.Y., to junction New York Highway 242 (formerly U.S. Highway 219), thence over New York Highway 242 to junction New York Highway 240 (formerly U.S. Highway 219), thence over New York Highway 240 to junction New York Highway 39, thence over New York Highway 39 via Springville, N.Y., to junction U.S. Highway 219, thence over U.S. Highway 219 to Hamburg, N.Y., thence over U.S. Highway 62 to Buffalo, N.Y. (also from Springville, N.Y., over New York Highway 39 to junction New York Highway 240, thence over New York Highway 240 to Buffalo, N.Y.), and return over the same route.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 311]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before July 31, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–74283. By order of June 28, 1973 the Motor Carrier Board approved the transfer to Chelsea Storage Warehouse Corp., Chelsea, Mass., of the operating rights in Certificate No. MC–38232 issued December 17, 1969, to J. K. McKeown Co., Inc., Arlington, Mass., authorizing the transportation of building materials, between Medford, Mass., and points in Massachusetts within 5 miles thereof, on the one hand, and, on the other, points in Massachusetts; and household goods, between Medford, Mass., and points in Massachusetts within 15 miles thereof, on the one hand, and, on the other, points in Connecticut, Maine, New Hampshire, New York, Vermont, Rhode Island, New Jersey, Maryland, Pennsylvania, and the District of Columbia. George C. O'Brien, 15 Court Square, Boston, Mass. 02108 Attorney for applicants.

No. MC–FC–74230. By order of June 26, 1973 the Motor Carrier Board approved the transfer to Robert Krebs and Janet Krebs McCamley, a partnership, doing business as Krebs Brothers Transfer Company, Clearfield, Pa., of the operating rights in Certificates Nos. MC–21567, MC–21567 (Sub-No. 2), MC–21567 (Sub-No. 3), and MC–21567 (Sub-No. 4), issued October 14, 1943, June 7, 1946, September 5, 1947, and August 19, 1954, respectively, to Mrs. Gwennie Krebs, Robert Krebs, and Janet Krebs McCamley, a partnership, doing business as Krebs Bros. Transfer Co., Clearfield, Pa., authorizing the transportation of household goods, radially, between points in Clearfield, Jefferson, and Centre Counties, Pa., and points in Maryland, Virginia, Ohio, Michigan, Kentucky, Indiana, West Virginia, New York, New Jersey, Connecticut, Rhode Island, Massachusetts, Delaware, and the District of Columbia; general commodities, between Clearfield, Pa., and Curwensville, Pa., subject to restrictions; and general commodities, with exceptions, between Clearfield, Pa., and Houtzdale and Sandy Ridge, Pa., subject to restrictions, and from Clearfield, Du Bois, and Philipsburg, Pa., to points in Clearfield, Centre, and Jefferson Counties, Pa., and Tyrone, Pa. John K. Reilly, Jr., Keystone Building, Clearfield, Pa. 16830 Attorney for applicants.

No. MC–FC–74352. By order of June 28, 1973, the Motor Carrier Board approved the transfer to Maldon L. Plank, doing business as Hauke Transit Line, Marshfield, Wis., of the operating rights in Certificate No. MC–128768 issued October 27, 1967, to Walter Hauke, doing business as Hauke Transit Line, Marshfield, Wis., authorizing the transportation of rafters and insulation used in the manufacture of mobile homes, from Marshfield, Wis., to points in the Upper Peninsula of Michigan and points in Minnesota. Nancy J. Johnson, 4506 Regent Street, Suite 100, Madison, Wis. Attorney for applicants.

No. MC–FC–74389. By order of June 26, 1973 the Motor Carrier Board approved the transfer to Curtin's Airfreight, Inc., P.O. Box 4084, San Rafael, Calif. 94903 of the operating rights in Certificate No. MC–128587 (Sub-No. 1) issued December 13, 1967, to Joseph Edgar Curtin, doing business as Curtin's Airfreight, P.O. Box 4084, San Rafael, Calif. 94903, authorizing the transportation of general commodities, with exceptions, between San Francisco International Airport, San Francisco, Calif., on the one hand, and, on the other, points in Marin County, Calif. and those in a specified part in Sonoma County, Calif. The service authorized herein is restricted to the transportation of traffic having a prior or subsequent movement by aircraft.

No. MC–FC–74431. By order of June 29, 1973, the Motor Carrier Board approved the transfer to Blue Motor Coach Co., Inc., Louisville, Ky., of Certificate No. MC–110265 issued November 8, 1971 to Kentucky Bus Lines, Inc., Louisville, Ky., authorizing the transportation of: Passengers and their baggage, and express and newspapers in the same vehicle, over specified regular routes, between named points in Kentucky. George M. Catlett, Attorney, 703 McClure Bldg., Frankfort, Ky. 40610.

No. MC–FC–74464. By order entered June 26, 1973 the Motor Carrier Board approved the transfer to Green Transfer & Storage Co., Portland, Ore. of the operating rights set forth in Certificate No. MC–135371, issued November 24, 1972, to Pacific Inland Transport Inc., (Internal Revenue Service—Successor in Interest), Spokane, Wash., authorizing the transportation of heavy machinery, building and road contractors' equipment and supplies, between points in Oregon (except Portland and points within its commercial zone as defined by the Commission) and Washington; and machinery, building and road contractors' equipment and supplies, the transportation of which require special equipment, between Portland, Oreg., on the one hand, and, on the other, points in Oregon and Washington. John G. McLaughlin, 620 Blue Cross Bldg., 100 S.W. Market St., Portland, Ore. 97201, attorney for applicants.

No. MC–FC–74497. By order of June 29, 1973, the Motor Carrier Board approved the transfer to Angelo Bolla, dba Bolla Freightlines, San Francisco, Calif., of Certificate of Registration No. MC–99980 (Sub-No. 1), issued July 7, 1972, to Svane and Company, a corporation, San Francisco, Calif., evidencing a right to engage in interstate or foreign commerce in the transportation of Property solely within the State of California. Robert M. Cole, Attorney, P.O. Box 250, Davis, Calif. 95616.

No. MC–FC–74523. By order of June 29, 1973 the Motor Carrier Board approved the transfer to B. R. Scholl & Sons, Inc., Perkasie, Bucks County, Pa., of Certificate No. MC–116503, and No. MC–116503 (Sub-No. 4), issued February 24, 1959, and August 17, 1966, respectively, to Benjamin R. Scholl, Perkasie, Pa., authorizing the transportation of: Coal, from points in Luzerne and Carbon Counties, Pa., to points in specified parts of Maryland and Delaware; calcium chloride, in bulk, in dump trucks, from Solvay, N.Y., to points in New Jersey (except points in seven named counties) and Pennsylvania; calcium chloride (dry), in bulk, from Solvay, N.Y., to points in Pennsylvania (except Towanda). Harry J. Liederbach, Attorney, 539 Street Road, Southampton, Pa. 18966.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 24]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

JULY 6, 1973.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 CFR 1042.4(c)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(c)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

NO. MC–730 (Deviation No. 41), PACIFIC INTERMOUNTAIN EXPRESS CO., P.O. Box 958, Oakland, Calif. 94604, filed June 18, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From St. Joseph, Mo., over Interstate Highway 29 to junction U.S. Highway 59, thence over U.S. Highway 59 to junction U.S. Highway 136, thence over U.S. Highway 136 to Auburn, Nebr., thence over U.S. Highway 73 to Omaha, Nebr., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: from St. Joseph, Mo., over U.S. Highway 36 to junction U.S. Highway 75 at or near Fairview, Kans., thence over U.S. Highway 75 to Omaha, Nebr., and return over the same route.

NO. MC–2542 (Deviation No. 16), ADLEY EXPRESS COMPANY, P.O. Box 7268, 10990 Roe Ave., Shawnee Mission, Kans. 66207, filed June 20, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Boston, Mass., over Interstate Highway 93 to junction U.S. Highway 3 near Woodstock, N.H., thence over U.S. Highway 3 approximately 13 miles to junction Interstate Highway 93, thence over Interstate Highway 93 to Littleton, N.H., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) from Boston, Mass., over U.S. Highway 1 to Portsmouth, N.H., thence over U.S. Highway 4 to junction New Hampshire Highway 16, thence over New Hampshire Highway 16 via Dover to Berlin, N.H., (2) from Berlin, N.H., over New Hampshire Highway 16 to Dover, N.H., thence over New Hampshire Highway 108 to the New Hampshire-Massachusetts State line, thence over Massachusetts Highway 108 to Harerhill, Mass., thence over Massachusetts Highway 125 to junction unnumbered highway southwest of North Andover, Mass., thence over Massachusetts Highway 28 to Somerville, Mass., thence over city streets to Cambridge, Mass., thence over irregular routes to points in the Boston, Mass., Commercial Zone, as defined by the Commission, (3) from Berlin, N.H., over New Hampshire Highway 16 to Gorham, N.H., thence over U.S. Highway 2 to Lunenburg, Vt., thence over unnumbered highway to the Vermont-New Hampshire State line, thence over unnumbered highway to Whitefield, N.H., thence over New Hampshire Highway 116 to Littleton, N.H., and return from Littleton over U.S. Highway 302 to junction U.S. Highway 3, thence over U.S. Highway 3 to Carroll, N.H., thence over New Hampshire Highway 115 to junction U.S. Highway 2, thence over U.S. Highway 2 via Jefferson Highland, N.H., to Gorham, N.H., thence over New Hampshire Highway 16 to Berlin, (also from Littleton over U.S. Highway 302 to Glen, N.H., thence over New Hampshire Highway 16 to Berlin), and (4) from Gorham, N.H., over U.S. Highway 2 to Lancaster, N.H., thence over U.S. Highway 3 to Whitefield, N.H., and return over the same routes.

NO. MC–65916 (Deviation No. 2), WARD TRUCKING CORP. 2nd Avenue and 7th St., Altoona, Pa. 16603, filed June 18, 1973. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From junction U.S. Highway 119 and 422 (near Indiana, Pa.), over U.S. Highway 422 to junction Pennsylvania Highway 8 (near Butler, Pa.), thence over Pennsylvania Highway 8 to junction Interstate Highway 80, and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over a pertinent service route as follows: From Johnstown, Pa., over Pennsylvania Highway 56 to junction U.S. Highway 119 (near Homer City), thence over U.S. Highway 119 to junction Pennsylvania Highway 36 (at Punxsutawney), thence over Pennsylvania Highway 36 to junction Interstate Highway 80 (near Brookville), thence over Interstate Highway 80 to junction Pennsylvania Highway 8 (near Barkeyville), thence over Pennsylvania Highway 8 to Barkeyville, Pa., and return over the same route.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 53]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

JULY 6, 1973.

The following publications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by the new Special Rule 1100.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable by the Commission.

MOTOR CARRIERS OF PROPERTY

SPECIAL REPUBLICATION NOTICE

Nos. MC–F–11436, MC–136343, and MC–134776 (Sub-No. 20)—related proceedings.

No. MC–F–11436—Application filed January 12, 1972 by MILTON TRANSPORTATION, INC., of Milton, Pa., to purchase the operating rights of MILTON TRUCKING, INC., of Milton, Pa., and for the acquisition of Ray B. Bowersox of control of such rights through the purchase;

V 38-132 JUL 11 73 XUM

No. MC-136343—Application filed January 11, 1972 by MILTON TRANSPORTATION, INC., for conversion and extension of the authority set forth in paragraphs 28 through 41 of the description of the authority in MC-136343. This corresponds to the contract carrier applications dismissed by the Commission as moot in No. MC-96098 (Sub-No. 55) and in No. MC-134776 (Sub-Nos. 3, 4, 5, 11, 12, 14, 15, 16 and 17) and considered to be superseded by No. MC-136343;

No. MC-134776 (Sub-No. 20)—Application filed June 22, 1972 by MILTON TRUCKING, INC. seeking common carrier extension—paper.

A Report and Order served April 4, 1973 on a Prehearing Conference by Administrative Law Judge Morton B. Margulies held February 13, 1973, requires that the matters encompassed in the three applications referenced immediately above be republished in the Federal Register in such a manner as would precisely and clearly apprise the public of the matters involved in each of the applications and their interrelations. The following republication indicates: (1) applicant's purchase and common control request; (2) all related authorities presently held by applicants and the corresponding conversion request; and (3) applicant's request for common carrier extension.

Applicants' representative: George A. Ilsen 69 Tonnele Avenue Jersey City, NJ 07306 (A) No. MC-F-11436. Authority sought for purchase by MILTON TRANSPORTATION, INC., Post Office Box 207, Milton, PA 17847, of the operating rights of MILTON TRUCKING, INC., Post Office Box 207, Milton, PA 17847, and for acquisition by RAY BOWERSOX, also of Milton, PA., of control of such rights through the purchase. Operating rights sought to be transferred: Foodstuffs (except in bulk) as a contract carrier over irregular routes from Milton, PA., to points in Connecticut, Massachusetts, Rhode Island, New Hampshire, Vermont, and Maine; pulpboard, from the plantsite of National Gypsum Co., near New Columbia, PA., to Portsmouth, NH., and points in Ohio, West Virginia, Virginia, Maryland, New York, New Jersey, Delaware, Connecticut, Massachusetts, and the District of Columbia; scrap paper and materials and supplies used in the manufacture and distribution of pulpboard, from points in the above named destination States and the District of Columbia, to the plantsite of National Gypsum Co., near New Columbia, PA., with restrictions. Vendee is authorized to operate as a contract carrier in Pennsylvania, New York, New Jersey, Maryland, Delaware, Ohio, Virginia, West Virginia, Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, Maine, Indiana, Illinois, Michigan, Iowa, Kentucky, Missouri, North Carolina, Tennessee, and the District of Columbia. Application has not been filed for temporary authority under section 210a (b). (B) No. MC-136343 filed January 11, 1972.

Applicant: MILTON TRANSPORTATION, INC. P.O. Box 207 Milton, PA 17847 (1) Present contract carrier authority of Milton Transportation, Inc. in No. MC-96098 authorizes transportation, in interstate or foreign commerce, over irregular routes, of *prepared food products*, from Milton, PA., to points in New York, New Jersey, Maryland, Delaware, Ohio, Virginia, West Virginia, and the District of Columbia, within 350 miles of Milton, limited to service to be performed under special and individual contracts with persons (as defined in section 203 (a) (1) of the Interstate Commerce Act) who are engaged in manufacturing or the distribution of such merchandise as is dealt in by food canning and processing plants, for the transportation of the commodities indicated and in the manner specified as follows: *Such merchandise* as is dealt in by food canning and processing plants, and in connection therewith, *equipment, materials, and supplies* used in the conduct of such business, from points in the above-specified states within 350 miles of Milton, PA., to Milton. Applicant seeks to convert the immediately above-described authority to common carrier authority in No. MC-136343 to authorize transportation, in interstate or foreign commerce, over irregular routes, of *prepared food products*, from the facilities of American Home Foods, Milton, PA., to points in New York, New Jersey, Maryland, Delaware, Ohio, West Virginia, Virginia, and the District of Columbia, within 350 miles of Milton, PA., and *such merchandise*, as is dealt in by food canning and processing plants, and in connection therewith, *equipment, materials, and supplies*, used in the conduct of such business, from points in the above specified states within 350 miles of Milton, PA., to Milton, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states;

(2) Present contract carrier authority of Milton Transportation, Inc. in No. MC-96098 authorizes transportation, in interstate or foreign commerce, over irregular routes, of *prepared food products*, from Milton, PA., to points in New York, New Jersey, Maryland, Delaware, Ohio, Virginia, West Virginia, and the District of Columbia, within 350 miles of Milton, limited to service to be performed under special and individual contracts with persons (as defined in section 203(a)(1) of the Interstate Commerce Act) who are engaged in manufacturing or the distribution of such merchandise as is dealt in by food canning and processing plants, for the transportation of the commodities indicated and in the manner specified as follows: *Such merchandise* as is dealt in by food canning and processing plants, and in connection therewith, *equipment, materials, and supplies* used in the conduct of such business, from points in the above-specified states within 350 miles of Milton, PA., to Milton. Applicant seeks to convert the immediately above-described authority to common carrier authority in No. MC-136343 to authorize transportation, in interstate or foreign commerce, over irregular routes, of prepared food products, from the facilities of the Great Atlantic & Pacific Tea Co., Inc., National Dairy Division, at Milton, PA., to points in New York, New Jersey, Maryland, Delaware, Ohio, Virginia, West Virginia and the District of Columbia, within 350 miles of Milton, PA. as follows: *Such merchandise*, as is dealt in by food canning and processing plants, and in connection therewith, *equipment, materials*, and *supplies*, used in the conduct of such business, from points in the above-specified states within 350 miles of Milton, PA., restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states.

(3) (a) Present contract carrier authority of Milton Transportation, Inc. in No. MC-96098 authorizes transportation, in interstate or foreign commerce, over irregular routes, of Salt, in containers, from Rittman and Morton, Ohio, to Philadephia and Scranton, PA., with no transportation for compensation on return except as otherwise authorized, limited to a transportation service to be performed, under a continuing contract, or contracts, with Morton Salt Company, of Philadelphia, PA.; *Salt*, from Silver Springs, NY., to points in Bradford, Cameron, Carbon, Clinton, Columbia, Elk, Lackawanna, Luzerne, Lycoming, Monroe, Montour, Northumberland, Pike, Schuylkill, Snyder, Sullivan, Susquehanna, Union, Wayne, and Wyoming Counties, PA., with no transportation for compensation on return except as otherwise authorized; *Salt*, in containers from Rittman and Morton, Ohio, to points in New Jersey and points in that part of Pennsylvania on, east and south of U.S. Highway 220 (except Philadelphia and Scranton, PA.) with no transportation for compensation on return except as otherwise authorized; *Salt*, in bulk, from Rittman and Morton, Ohio, to points in New Jersey, and points in that part of Pennsylvania east of and including points in McKean, Elk, Clearfield, Cambria, and Somerset Counties, with no transportation for compensation on return except as otherwise authorized; *Pepper*, in packages in mixed shipments with salt, from Silver Springs, NY., to points in Bradford, Cameron, Carbon, Clinton, Columbia, Elk, Lackawanna, Luzerne, Lycoming, Monroe, Montour, Northumberland, Pike, Schuylkill, Snyder, Sullivan, Susquehanna, Union, Wayne, and Wyoming Counties, PA., with no transportation for compensation on return except as otherwise authorized; and from Rittman, Ohio, to points in New Jersey, and points in that part of Pennsylvania on, east and south of U.S. Highway 220 (except Philadelphia and Scranton, PA.), with no transportation for compensation on return except as otherwise authorized; the operations authorized under the four commodity descriptions next above are limited to a transportation service to be performed, under a continuing contract, or contracts, with Morton Salt Company, Division of Morton International, Inc., of Chicago, IL., and/or Silver Springs, NY.; and (b) In Sub-No. 38- *Salt*, from the facilities of the Morton Salt Company, Division of Morton International, Inc., at Milo, NY to points in Virginia, Pennsylvania, Delaware, Maryland, New Jersey, and the District of Columbia, with no transportation for compensation on return except as otherwise authorized, limited to a transportation service to be performed, under a continuing contract, or contracts, with Morton Salt Company, Division of Morton International, Inc., of Chicago, IL. Applicant seeks to convert the immediately above-described authority to common carrier authority in No. MC-136343 to authorize transportation, in interstate or foreign commerce, over irregular routes, of *Salt*, in containers, from the facilities of Morton Salt Company at Rittman and Morton, Ohio to points in New Jersey and points in that part of Pennsylvania, on, east and south of U.S. Highway 220 with no transportation for compensation on return except as otherwise authorized, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states; *Salt*, in bulk, from the facilities of Morton Salt Company at Rittman and Morton, Ohio, to points in New Jersey and points in that part of Pennsylvania, east of and including points in McKean, Elk, Clearfield, Cambria, and Somerset Counties, with no transportation for compensation on return except as otherwise authorized, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states; *Salt* and *Pepper*, in packages in mixed shipments with salt, from the facilities of Morton Salt Company at Silver Springs, NY., to points in Bradford, Cameron, Carbon, Clinton, Columbia, Elk, Lackawanna, Luzerne, Lycoming, Monroe, Montour, Northumberland, Pike, Schuylkill, Snyder, Sullivan, Susquehanna, Union, Wayne, and Wyoming Counties, PA., with no transportation for compensation on return except as otherwise authorized, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states; *Salt*, from the facilities of Morton Salt Company, Division of Morton International, Inc., at Milo, NY to points in Virginia, Pennsylvania, Delaware, Maryland, New Jersey, and the District of Columbia, with no transportation for compensation on return except as otherwise authorized, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states.

(4) Present contract carrier authority of Milton Transportation, Inc. in No. MC-96098 authorizes transportation, in interstate or foreign commerce, over irregular routes, of *Petroleum and petroleum products* and *asphalt*, all in containers, from Claymont, Del., to the facilities of M. L. Clasters at Bellefonte, Bloomsburg, Lock Haven, Lewiston, Milton, Sunbury, and Williamsport, Pa., with no transportation for compensation on return except as otherwise authorized, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states; (5) Present contract carrier authority of Milton Transportation, Inc. in No. MC-96098 authorizes transportation, in interstate or foreign commerce, over irregular routes, of *Petroleum and petroleum products, antifreeze*, and *asphalt*, all in containers, from Bayonne, N.J., to Bellefonte, Bloomsburg, Lewiston, Lock Haven, Milton, Sunbury, and Williamsport, Pa., and *Empty Containers*, for the next above-specified commodities, from the next above-specified destination points to Bayonne, N.J. Applicant seeks to convert the immediately above-described authority to common carrier authority in No. MC-136343 to authorize transportation, in interstate or foreign commerce, over irregular routes, of *Petroleum and petroleum products, antifreeze*, and *asphalt*, all in containers, from the facilities of Texaco, Inc., at Bayonne, N.J. to Bellefonte, Bloomsburg, Lewiston, Lock Haven, Milton, Sunbury, and Williamsport, Pa., and *Empty Containers*, for the next above-specified commodities, from the next above-specified destination points to Bayonne, N.J., restricted to the transportation of shipments originating at the designated origin and destined to the designated points.

(6) (a) Present contract carrier authority of Milton Transportation, Inc. in No. MC-96098 authorizes transportation, in interstate or foreign commerce, over irregular routes, of *Printing paper*, from Urbana, Franklin, and Dayton, Ohio, to points in New York, New Jersey, Connecticut, and Pennsylvania, with no transportation for compensation on return except as otherwise authorized, and *Gummed paper sealing tape*, from Troy, Ohio to points in New York, New Jersey, Connecticut, and Pennsylvania, with no transportation for compensation on return except as otherwise authorized, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states.

(7) (a) Petition filed for additional shippers pending of Milton Transportation, Inc. in No. MC-96098 seeks transportation of *Printing paper*, from Urbana, Franklin, and Dayton, Ohio to points in New York, New Jersey, Connecticut, and Pennsylvania, with no transportation for compensation on return except as otherwise authorized; (b) Present contract carrier application of Milton Transportation, Inc. in No. MC-96098 Sub-No. 45 seeks transportation, in interstate or foreign commerce, over irregular routes, of *Paper*, from Stamford, Conn., to Urbana, Ohio, with no transportation for compensation on return except as otherwise authorized.

RESTRICTION: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with St. Regis Paper Company; and (c) Petition filed for additional shippers pending of Milton Transportation, Inc. in No. MC-96098 Sub-No. 46 seeks transportation of *Printing paper, gummed paper, gummed paper tape*, and *paper backed with aluminum foil*, from Troy, Dayton, Urbana, and Franklin, Ohio to points in Massachusetts, Rhode Island, Maryland, and the District of Columbia, with no transportation for compensation on return except as otherwise authorized, limited to a transportation service to be performed under a continuing contract, or contracts, with St. Regis Paper Company, of New York, N.Y.; Applicant seeks to convert the immediately above-described authority to common carrier authority in No. MC-136434 to authorize transportation, in interstate or foreign commerce, over irregular routes, of *Printing paper, gummed paper, and paper backed with aluminum foil*, from the facilities of St. Regis Paper Company at Troy, Ohio to points in Pennsylvania, New York, New Jersey, Connecticut, Massachusetts, Rhode Island, Maryland, and the District of Columbia, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states.

(7) (a) Petition filed for additional shippers pending of Milton Transportation, Inc. in No. MC-96098 seeks transportation of *Printing paper*, from Urbana, Franklin, and Dayton, Ohio to points in New York, New Jersey, Connecticut, and Pennsylvania, with no transportation for compensation on return except as otherwise authorized; (b) Present contract carrier application of Milton Transportation, Inc. in No. MC-96098 Sub-No. 45 seeks transportation, in interstate or foreign commerce, over irregular routes, of *Paper*, from Stamford, Conn., to Urbana, Ohio, with no transportation for compensation on return except as otherwise authorized.

RESTRICTION: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with St. Regis Paper Company; and (c) Petition filed for additional shippers pending of Milton Transportation, Inc. in No. MC-96098 Sub-No. 46 seeks transportation of *Printing paper, gummed paper, gummed paper tape*, and *paper backed with aluminum foil*, from Troy, Dayton, Urbana, and Franklin, Ohio to points in Massachusetts, Rhode Island, Maryland, and the District of Columbia, with no transportation for compensation on return except as otherwise authorized, limited to a transportation service to be performed under a continuing contract, or contracts, with St. Regis Paper Company, of New York, N.Y.; Applicant seeks to convert the immediately above-described authority to common carrier authority in No. MC-136434 to authorize transportation, in interstate or foreign commerce, over irregular routes, of *Printing paper, gummed paper, and paper backed with aluminum foil*, from the facilities of St. Regis Paper Company at Troy, Ohio to points in Pennsylvania, New York, New Jersey, Connecticut, Massachusetts, Rhode Island, Maryland, and the District of Columbia, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states.

(7) (a) Petition filed for additional shippers pending of Milton Transportation, Inc. in No. MC-96098 seeks transportation of *Printing paper*, from Urbana, Franklin, and Dayton, Ohio to points in New York, New Jersey, Connecticut, and Pennsylvania, with no transportation for compensation on return except as otherwise authorized; (b) Present contract carrier application of Milton Transportation, Inc. in No. MC-96098 Sub-No. 45 seeks transportation, in interstate or foreign commerce, over irregular routes, of *Paper*, from Stamford, Conn., to Urbana, Ohio, with no transportation for compensation on return except as otherwise authorized.

RESTRICTION: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with St. Regis Paper Company; and (c) Petition filed for additional shippers pending of Milton Transportation, Inc. in No. MC-96098 Sub-No. 46 seeks transportation of *Printing paper, gummed paper, gummed paper tape*, and *paper backed with aluminum foil*, from Troy, Dayton, Urbana, and Franklin, Ohio to points in Massachusetts, Rhode Island, Maryland, and the District of Columbia, with no transportation for compensation on return except as otherwise authorized, limited to a transportation service to be performed under a continuing contract, or contracts, with St. Regis Paper Company, of New York, N.Y.; Applicant seeks to convert the immediately above-described authority to common carrier authority in No. MC-136434 to authorize transportation, in interstate or foreign commerce, over irregular routes, of *Printing paper, gummed paper, and paper backed with aluminum foil*, from the facilities of St. Regis Paper Company at Troy, Ohio to points in Pennsylvania, New York, New Jersey, Connecticut, Massachusetts, Rhode Island, Maryland, and the District of Columbia, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states.

(7) (a) Petition filed for additional shippers pending of Milton Transportation, Inc. in No. MC-96098 seeks transportation of *Printing paper*, from Urbana, Franklin, and Dayton, Ohio to points in New York, New Jersey, Connecticut, and Pennsylvania, with no transportation for compensation on return except as otherwise authorized; (b) Present contract carrier application of Milton Transportation, Inc. in No. MC-96098 Sub-No. 45 seeks transportation, in interstate or foreign commerce, over irregular routes, of *Paper*, from Stamford, Conn., to Urbana, Ohio, with no transportation for compensation on return except as otherwise authorized.

RESTRICTION: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with St. Regis Paper Company; and (c) Petition filed for additional shippers pending of Milton Transportation, Inc. in No. MC-96098 Sub-No. 46 seeks transportation of *Printing paper, gummed paper, gummed paper tape*, and *paper backed with aluminum foil*, from Troy, Dayton, Urbana, and Franklin, Ohio to points in Massachusetts, Rhode Island, Maryland, and the District of Columbia, with no transportation for compensation on return except as otherwise authorized, limited to a transportation service to be performed under a continuing contract, or contracts, with St. Regis Paper Company, of New York, N.Y.; Applicant seeks to convert the immediately above-described authority to common carrier authority in No. MC-136434 to authorize transportation, in interstate or foreign commerce, over irregular routes, of *Printing paper, gummed paper, and paper backed with aluminum foil*, from the facilities of St. Regis Paper Company at Troy, Ohio to points in Pennsylvania, New York, New Jersey, Connecticut, Massachusetts, Rhode Island, Maryland, and the District of Columbia, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states.

(7) (a) Petition filed for additional shippers pending of Milton Transportation, Inc. in No. MC-96098 seeks transportation of *Printing paper*, from Urbana, Franklin, and Dayton, Ohio to points in New York, New Jersey, Connecticut, and Pennsylvania, with no transportation for compensation on return except as otherwise authorized; (b) Present contract carrier application of Milton Transportation, Inc. in No. MC-96098 Sub-No. 45 seeks transportation, in interstate or foreign commerce, over irregular routes, of *Paper*, from Stamford, Conn., to Urbana, Ohio, with no transportation for compensation on return except as otherwise authorized.

RESTRICTION: The operations authorized herein are limited to a transportation service to be performed, under a continuing contract, or contracts, with St. Regis Paper Company; and (c) Petition filed for additional shippers pending of Milton Transportation, Inc. in No. MC-96098 Sub-No. 46 seeks transportation of *Printing paper, gummed paper, gummed paper tape*, and *paper backed with aluminum foil*, from Troy, Dayton, Urbana, and Franklin, Ohio to points in Massachusetts, Rhode Island, Maryland, and the District of Columbia, with no transportation for compensation on return except as otherwise authorized, limited to a transportation service to be performed under a continuing contract, or contracts, with St. Regis Paper Company, of New York, N.Y.; Applicant seeks to convert the immediately above-described authority to common carrier authority in No. MC-136434 to authorize transportation, in interstate or foreign commerce, over irregular routes, of *Printing paper, gummed paper, and paper backed with aluminum foil*, from the facilities of St. Regis Paper Company at Troy, Ohio to points in Pennsylvania, New York, New Jersey, Connecticut, Massachusetts, Rhode Island, Maryland, and the District of Columbia, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states.

FEDERAL REGISTER, VOL. 38, NO. 132—WEDNESDAY, JULY 11, 1973

V 38-132 JUL 11 73 XUM

Jersey, Pennsylvania, Connecticut, Massachusetts, Rhode Island, Maryland, and the District of Columbia, with no transportation for compensation on return except as otherwise authorized, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states; *Printing paper*, for the account of Howard Paper Mills, Inc., over irregular routes, from Stamford, Connecticut, to Urbana, Ohio, restricted to the transportation of shipments originating at the designated origin and destined to the designated points; and *Paper*, for the account of Howard Paper Mills, Inc., from Stamford, Connecticut to Dayton, Ohio, restricted to the transportation of shipments originating at the designated origin and destined to the designated points.

(8) (a) Present contract carrier authority of Milton Transportation, Inc. in No. MC–96098 authorizes transportation, in interstate or foreign commerce, over irregular routes, of *Printing paper* (other than newsprint, not printed or imprinted), and *wrapping paper*, (other than oiled, waxed, or vegetable parchment, printed or imprinted), from the plantsite of Hammermill Paper Company, at Lock Haven, (Clinton County), PA. to points in New York (except Rochester and Buffalo, NY.), New Jersey, and Connecticut, with no transportation for compensation on return except as otherwise authorized, limited to a transportation service to be performed, under a continuing contract, or contracts, with the Hammermill Paper Company; *Paper scrap or waste* (no sensitized), *woodpulp*, not powdered, *cores*, *chocks*, and *canvas covers*, *machinery* and *machinery parts*, *papermill rolls*, *flour*, (cassava, sago, or tapioca), except in bulk, in tank vehicles, *oil and grease*, except in bulk in tank vehicles, and *chemicals*, *chemical products*, and *constituents* used in the manufacture of woodpulp and paper or the processing thereof, except in bulk, in tank vehicles, from points in New York, New Jersey, and Connecticut, to manufacturing plants of the New York and Pennsylvania Company, Inc., at Johnsonburg, Pa., and Hammermill Paper Company at Lock Haven, PA., with no transportation for compensation on return except as otherwise authorized, restricted against the transportation of commodities which, because of size, shape, or weight, require the use of special equipment to load, unload, or transport the same, and limited to a transportation service to be performed under a continuing contract, or contracts, with the following shippers: Penntech Papers Inc., Philadelphia, PA., and Hammermill Paper Company, of Erie, PA.; *Chemicals*, *chemical products*, and *constituents* used in the manufacture or processing of Paper and paper products, except commodities in bulk, from Marcus Hook, PA., and Claymont, Del., to Lock Haven, Castanea, and Johnsonburg, PA., with no transportation for compensation on return except as otherwise authorized; and (b) In Sub-No. 29-*Printing paper*, (except newsprint), from Lock Haven, PA., to points in Ohio, Massachusetts, Rhode Island, Vermont, New Hampshire, Maine, Indiana, Illinois, Michigan, Maryland, Virginia and the District of Columbia, with no transportation for compensation on return except as otherwise authorized, limited to a transportation service to be performed under a continuing contract, or contracts, with Hammermill Paper Company. Applicant seeks to convert the immediately above-described authority to common carrier authority in No. MC–136343 to authorize transportation, in interstate or foreign commerce, over irregular routes, of *Paper, paper products*, and *materials, equipment*, and *supplies*, used or useful in the manufacture and sale of paper products, (except commodities in bulk) between the facilities of Hammermill Paper Company, Lock Haven, PA., on the one hand, and, on the other, points in the states of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Maryland, Delaware, Virginia, Tennessee, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Kentucky, Ohio, Indiana, Illinois, Wisconsin, Michigan, New York (except Buffalo and Rochester, NY.), New Jersey, Connecticut, and the District of Columbia, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states.

(9) Present contract carrier authority of Milton Transportation, Inc. in No. MC–96098 Sub-No. 32 authorizes transportation, in interstate or foreign commerce, over irregular routes, of *Paper and paper products*, from the facilities of Penntech Papers, Inc., at Johnsonburg, PA., to points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maryland, Massachusetts, Michigan, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Rhode Island, Tennessee, Vermont, Virginia, West Virginia, and the District of Columbia; and *Machinery, equipment, materials*, and *supplies* used in the operation of papermills (except commodities in bulk and commodities the transportation of which because of size or weight requires the use of special equipment), from points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maryland, Massachusetts, Michigan, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Rhode Island, Tennessee, Vermont, Virginia, West Virginia, and the District of Columbia, to the facilities of Penntech Papers, Inc., at Johnsonburg, PA limited in (9) above to a transportation service to be performed, under a continuing contract or contracts with Penntech Papers, Inc., of Johnsonburg, PA. Applicant seeks to convert the immediately above-described authority to common carrier authority in No. MC–136343 to authorize transportation, in interstate or foreign commerce, over irregular routes, of *Paper and paper products*, from the facilities of Penntech Papers, Inc., at Johnsonburg, Pa., to points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maryland, Massachusetts, Michigan, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Rhode Island, Tennessee, Vermont, Virginia, West Virginia, and the District of Columbia; and *Machinery, equipment, materials* and *supplies* used in the operation of papermills (except commodities in bulk and commodities the transportation of which because of size and weight requires the use of special equipment), from points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maryland, Massachusetts, Michigan, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Rhode Island, Tennessee, Vermont, Virginia, West Virginia, and the District of Columbia, to the facilities of Penntech Papers, Inc., at Johnsonburg, PA., restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states.

(10) Present contract carrier authority of Milton Transportation, Inc. in No. MC–96098 Sub-No. 37 authorizes transportation, in interstate or foreign commerce, over irregular routes, of *Salt*, (except in bulk), from Akron, Ohio, to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, and West Virginia (except points in that part of West Virginia on and north of U.S. Highway 60), with no transportation for compensation on return except as otherwise authorized, limited to a transportation service to be performed, under a continuing contract, or contracts, with the Diamond Crystal Salt Co., of St. Clair, Michigan. Applicant seeks to convert the immediately above-described authority to common carrier authority in No. MC–136343 to authorize transportation, in interstate or foreign commerce, over irregular routes, of *Salt*, (except in bulk) from the facilities of Diamond Crystal Salt Co., at Akron, Ohio to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, and West Virginia, (except points in that part of West Virginia on and north of U.S. Highway 60) with no transportation for compensation on return except as otherwise authorized, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states; (11) Present contract carrier authority of Milton Transportation, Inc. in No. MC–96098 Sub-No. 39 authorizes transportation, in interstate or foreign commerce, over irregular routes, of *Containers* and *container closures*, from Milton, PA., to LaPorte, Inc., and South Bend, Ind., with no transportation for compensation on return except as otherwise authorized, limited to a transportation service to be performed, under a continuing contract, or contracts, with Continental Can Company, Inc. Applicant seeks to convert the immediately above-described authority to common carrier authority in No. 136343 to authorize transportation, in interstate or foreign commerce, over irregular routes, of *Container* and *container closures*, from the facilities of Continental Can Company, Inc., at Milton, PA., to points in LaPorte and South Bend, Ind., restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states.

(12) Present contract carrier authority of Milton Trucking, Inc. in No. MC–134776 Sub No. 2 authorizes transportation, in interstate or foreign commerce, over irregular routes, of *Foodstuffs* (except in bulk), from Milton, PA., to points in Connecticut, Massachusetts, Rhode Island, New Hampshire, Vermont, and Maine, with no transportation for compensation on return except as otherwise authorized; limited to a transportation service to be performed, under a continuing contract, or contracts, with American Home Products Corporation of New York, N.Y. Applicant seeks to convert the immediately above-described authority to common carrier authority in No. MC–136343 to authorize transportation, in interstate or foreign commerce, over irregular routes, of *Foodstuffs*, (except in bulk), from the facilities of American Home Foods, Division of American Home Products Corporation at Milton PA., to points in Connecticut, Massachusetts, Rhode Island, New Hampshire, Vermont, and Maine, with no transportation for compensation on return except as otherwise authorized, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states; (13) Present contract carrier authority of Milton Trucking, Inc. in No. MC–134776 Sub-No. 9 authorizes transportation, in interstate or foreign commerce, over irregular routes, of *Pulpboard*, from the plantsite of National Gypsum Company, near New Columbia, PA., to Portsmouth, NH., and points in Ohio, West Virginia, Virginia, Maryland, New York, New Jersey, Delaware, Connecticut, Massachusetts, and the District of Columbia; and *Scrap paper* and *materials* and *supplies* used in the manufacture and distribution of pulpboard, from points in the above named destination states and the District of Columbia, to the plantsite of National Gypsum Company, near New Columbia, PA., restricted against the transportation of chemicals, in bulk, from Bainbridge, NY., Sayreville, NJ., Point Pleasant, WV., Springfield, Mass., and points in Essex, Middlesex, Norfolk, and Suffolk Counties, Mass., to the above-named plantsite, and limited to a transportation service to be performed under a continuing contract, or contracts, with National Gypsum Company. Applicant seeks to convert the immediately above-described authority to common carrier authority in No. MC–136343 to authorize transportation, in interstate or foreign commerce, over irregular routes, of *Pulpboard*, from the facilities of National Gypsum Company, near New Columbia, PA., to Portsmouth, NH., and points in Ohio, West Virginia, Maryland, New York, New Jersey, Delaware, Connecticut, Massachusetts, Virginia, and the District of Columbia; and *Scrap paper* and *materials* and *supplies* used in the manufacture and distribution of pulpboard, from points in the above named destination states and Rhode Island to the plantsite of National Gypsum Company, near New Columbia, PA., restricted against the transportation of chemicals, in bulk, from Bainbridge, NY., Sayreville, NJ., Point Pleasant, WV., Springfield, MA., and points in Essex, Middlesex, Norfolk and Suffolk Counties, MA., to the above named plantsite, and further restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states. The common carrier extension requests immediately next are filed concurrently with the above-described conversion requests in No. MC–136343, by MILTON TRANSPORTATION, INC. Authority sought to operate as a common carrier, over irregular routes in interstate or foreign commerce, of:

(1) *Spheres, highway marking strip glass, ballotini and glass, crushed, ground* and *powdered*, from the facilities of Potters Industries, Inc., Cleveland, Ohio to points in Maryland, Pennsylvania, New York, Illinois, Indiana and Michigan;

(2) *Materials*, and *supplies* used in the manufacture and sale of glass spheres (except in bulk, in tank vehicles) from the above named states to the facilities of Potters Industries, Inc., Cleveland, Ohio, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states;

(3) *Spheres, highway marking strip glass, ballotini and glass, crushed ground* and *powdered*, from the facilities of Potters Industries, Inc., Carlstadt, New Jersey, to points in Maryland, Pennsylvania, Connecticut, Delaware, Massachusetts, New Hampshire, Rhode Island, Vermont, and North Carolina;

(4) *Materials and supplies* used in the manufacture and sale of glass spheres (except in bulk in tank vehicles) from the above named states to the facilities of Potters Industries, Inc., Carlstadt, New Jersey, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states;

(5) *Spheres, highway marking strip glass, ballotini and glass, crushed, ground* and *powdered*, from the facilities of Potters Industries, Inc., Apex, N.C. to points in Maryland, Pennsylvania, New York, and New Jersey;

(6) *Materials* and *supplies* used in the manufacture and sale of glass spheres (except in bulk, in tank vehicles) from the above named states to the facilities of Potters Industries, Inc., Apex, NC., restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states;

(7) *Chemicals* (except in bulk) for the account of Avis Chemical Co., Avis, PA. from Brooklyn, Niagara Falls, and Solvay, New York; Midland, Michigan; Barberton, Ohio; Belle, Charleston, and Nitro, West Virginia, to points in McKean, Elk, Cameron, Potter, Clinton, Clearfield, Center, Union, Snyder, Lycoming, Tioga, Bradford, Sullivan, Montour, Northumberland, Columbia, Wyoming, Lackawanna, Luzerne and Susquehanna Counties, PA., restricted to the transportation of shipments originating at the designated origin and destined to the designated counties;

(8) *Foodstuffs, confectioneries* (except in bulk), (a) from the facilities of Beech Nut, Inc., at Canajoharie, New York, to points in Pennsylvania, Maryland, Ohio, Indiana, and Michigan, and (b) from the facilities of Beech Nut, Inc., at Holland, Michigan, to the facilities of Beech Nut, Inc., at Canajoharie, New York, restricted in (a) and (b) above to the transportation of shipments originating at the designated origin and destined to the designated points;

(9) *Paper and paper articles*, from the facilities of Finch Pruyn & Co., Inc., at Glens Falls, New York, to points in Pennsylvania, Ohio, Indiana, Illinois, Michigan, Maryland, and the District of Columbia, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states;

(10) *Such commodities* as are sold, used, or dealt in by mail order business houses, between the facilities of Bevis Industries, Inc., and its subsidiaries at Baltic, Conn., Webster, Mass., and White Plains, NY., on the one hand, and, on the other, points in Ohio, Illinois, Indiana, Michigan, Wisconsin, Georgia and Texas, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states;

(11) *Foodstuffs*, canned or preserved, not cold packed or frozen, (a) from plantsites and storage facilities of Comstock Foods, Borden, Inc., Div., from Waterloo, Rushville, Egypt, Fairport, Red Creek, Newark, Lyons and Syracuse, NY., to points in Pennsylvania, Ohio, Indiana, Michigan, Maryland, District of Columbia, and Delaware, by trailers equipped with pallets, and (b) from the plansites and storage facilities of Comstock Foods, Borden, Inc., Div., in Crosswell, Edmore, Lexington and Saginaw, Michigan, to points in Pennsylvania, New York, New Jersey, Ohio, Maryland, District of Columbia, and Delaware, by trailers equipped with pallets, restricted in (a) and (b) above to the transportation of shipments originating at the designated origin and destined to the designated destination states;

(12) *Paper, paper bags* and *plastic bags*, between the facilities of Duro Paper Bag Manufacturing Co., and its subsidiaries at Covington, KY., and Ludlow, KY., on the one hand, and, on the other, points in Massachusetts, Connecticut, Rhode Island, New York, Pennsylvania, New Jersey, Maryland, Delaware, Ohio, Virginia, and the District of Columbia, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states. (C) No. MC–134776 (Sub No. 20) MILTON TRUCKING,

V 38 1 132 JUL 11 73 XUM

INC., Extension—Paper. Authority sought to operate as a common carrier, over irregular routes, in interstate or foreign commerce, of *Paper, paper products, and plastic products and equipment, materials and supplies* used or useful in the manufacture and sale of paper and plastic products (except commodities in bulk), between the U.S. Envelope Co., Williamsburg, PA., on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, New York, New Jersey, Maryland, Delaware, District of Columbia, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Ohio, Indiana, Illinois, Michigan, Kentucky and Tennessee, restricted to the transportation of shipments originating at the designated origin and destined to the designated destination states.

(D) GENERAL RESTRICTION: The separately stated authorities contained herein in the entire application shall not be tacked or joined one to another for the purpose of performing any through transportation service. Any repetition in the statement of authority granted herein shall not be construed as conferring more than one operating right. Note: Any interested person or persons desiring to participate in this proceeding and the carriers who have already entered appearances in opposition in this proceeding should file or refile protests to the granting of the requests in this proceeding within 30 days from the date of this publication in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed, and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. Special precaution should be taken by each protestant to indicate the precise segment or segments of the requests for authority it seeks to oppose, by referring to the appropriate character preceeding each segment as indicated in this FEDERAL REGISTER publication.

No. MC 3255 (Sub-No. 11) (REPUBLICATION) filed October 3, 1972, published in the FR issue of October 27, 1972, and republished this issue. Applicant: PEP TRUCKING CO., INC. 386 Henderson Street Jersey City, N.J. 07302 Applicant's representative: George A. Olsen 69 Tonnele Avenue Jersey City, N.J. 07306 A supplemental Order of the Commission, Operating Rights Board, dated June 1, 1973, and served July 2, 1973, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, of *flour*, in bulk, in tank vehicles, from Clifton and Jersey City, N.J., and the Brooklyn Eastern District Terminal at Brooklyn, N.Y., to Elmont, N.Y.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder, and that an appropriate certificate should be issued. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 60430 (Sub-No. 20) (REPUBLICATION) filed February 29, 1972, published in the FEDERAL REGISTER issue of April 6, 1972, and republished this issue. Applicant: FRIEDMAN'S EXPRESS, INC., 220 Conyngham Avenue Wilkes-Barre, Pa. 18702. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. An Order of the Commission, Review Board Number 1, dated June 14, 1973, and served June 27, 1973, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier*, by motor vehicle, over irregular routes, of *general commodities* (except articles of unusual value, household goods as defined by the Commission, classes A and B explosives, commodities in bulk, and those requiring special equipment) between points in that portion of the New York, N.Y., commercial zone as defined in *Commercial Zones and Terminal Areas*, 53 M.C.C. 451, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Interstate Commerce Act (the "exempt" zone), on the one hand, and, on the other, points in Suffolk County, N.Y.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; and that an appropriate certificate authorizing such operation should be granted. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition in intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

TRANSFER APPLICATIONS UNDER SECTION 212(b) OF THE ACT WHICH HAVE BEEN DESIGNATED FOR ORAL HEARING

No. MC–FC–74065. Riteway Transport, Inc., Phoenix, Ariz., transferee, and Padre Freight Lines, a corporation, Long Beach, Calif., transferor. The application was the subject of an order of the Commission, Motor Carrier Board, entered December 6, 1972, which approved and authorized the transfer of the operating rights of transferor in Certificate No. MC–121338 (Sub-No. 2) to transferee, Riteway Transport, Inc.

No. MC–FC–74299. Riteway Transport, Inc., Phoenix, Ariz., transferee, and Cibola Freight Lines, a corporation, Phoenix, Ariz., transferor. The application was the subject of an order of the Commission, Motor Carrier Board, entered March 13, 1973, which approved and authorized the transfer of the operating rights in Certificates Nos. MC–99142, MC–99142 (Sub-No. 1), and MC–99142 (Sub-No. 3) to transferee, Riteway Transport, Inc.

Upon consideration of the records in the above-numbered proceedings, and petitions for consideration of the subject orders above-referenced, a notice to the parties was entered in each proceeding under dates of January 13, and April 26, 1973, respectively, advising that such orders have been stayed pursuant to Section 17(8) of the Act, pending disposition of the petitions filed in each proceeding.

By order of Appellate Division 3, entered June 28, 1973, the approval orders of the Commission, Motor Carrier Board, entered in each proceeding on December 6, 1972 and March 13, 1973 have been vacated and set aside, and both proceedings, Nos. MC–FC–74065 and MC–FC–74299, have been assigned for oral hearing at a time and place to be hereafter fixed, primarily on the issue of the fitness of transferee, Riteway Transport, Inc., and the parties in control thereof to receive additional authority.

The Bureau of Enforcement has been directed to participate as a party in such proceedings.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers under Sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 C.F.R. 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC–F–11563. (Amendment) (ROSS TRUCK LINES, INC.—PURCHASE (PORTION)—ROBERT FOLTZ), published in the June 14, 1972, issue of the Federal Register, on page 11818. By petition filed July 2, 1973, for substitution of parties. KENNETH F. CROCKETT, receiver of the bankrupt estate, is being substituted in lieu of ROBERT LOUIS FOLTZ.

No. MC–F–11857. (2nd Correction) (MICROTRON INDUSTRIES, INC.—CONTROL—UFT TRANSPORT COMPANY), published in the May 9, 1973, issue of the Federal Register on Page 12190, and corrected in the June 6, 1973, issue of the Federal Register, on pages 14899 and 14900. Correction should have read: Between points in Angelina and Nacogdoches Counties, Tex., and points in New Mexico, Kansas (excluding Kansas City and points in its commercial zone as defined by the Commission), Missouri (excluding Kansas City and points in its commercial zone as defined by the Commission), Tennessee (excluding Memphis and points in its commercial zone as defined by the Commission, and points in Hamblen County), Mississippi (excluding Jackson, Natchez, Vicksburg, Gulfport, and points in their commercial zone as defined by the Commission), *and Oklahoma*.

No. MC–F–11901 (ALL-AMERICAN, INC.—PURCHASE (PORTION)—HANSON TRANSFER, INC.), published in the June 13, 1973, issue of the Federal Register on page 15571. Application filed June 27, 1973, for temporary authority under section 210a(b).

No. MC–F–11919. Authority sought for purchase by MORRISON MOTOR FREIGHT, INC., 1100 Jenkins Blvd., Akron, OH 44306, of the operating rights of ALL INDUSTRIAL CARTAGE COMPANY, 1945 W. 112th St., Cleveland, OH 44103, and for acquisition by MARMAC INSURANCE AGENCY, INC., HELKEN, INC., both of 135 S. La Salle St., Chicago, IL 60603, and DECATUR CARTAGE CO., WALTER F. MULLADY, both of 30 N. Michigan Ave., Chicago, IL 60602, of control of such rights through the purchase. Applicants' attorney: John P. McMahon, 100 E. Broad St., Columbus, OH 43215. Operating rights sought to be transferred: Under a certificate of registration, in Docket No. MC–97451 (Sub-No. 1), covering the transportation of property, as a common carrier, in interstate commerce, within the State of Ohio. Vendee is authorized to operate as a common carrier in Illinois, Indiana, Kansas, Missouri, New York, Ohio, and Pennsylvania. Application has been filed for temporary authority under section 210a(b). NOTE: MC–59728 (Sub-No. 25) is a directly related matter.

No. MC–F–11920. Authority sought for purchase by YALE TRANSPORT CORP., 100 Pennsylvania Ave., So. Kearny, NJ 07032, of the operating rights and property of JOSEPH LUCARELLI, TRUSTEE FOR TRIPLE "M" TRANSPORT CO., 6600 Blvd., E., West New York, NJ, and for acquisition by YALE EXPRESS SYSTEM, INC., also of So. Kearny, NJ 07032, of control of such rights and property through the purchase. Applicants' attorneys: David Axelrod, 39 S. LaSalle St., Chicago, IL 60603, Cerreto & La Penna, and Wm. J. Hanlon, both of 60 Park Place, Newark, NJ 07102, and Charles J. Williams, 47 Lincoln Park, Newark, NJ 07102. Operating rights sought to be transferred: *General commodities*, except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, alcoholic beverages, coke, coke breeze, coke dust, coke screenings, hard asphalt, liquid asphalt, liquid flux, linseed oil, vegetable and kindred oils, inedible vegetable oils, silks, tobacco products, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, as a *common carrier* over irregular routes, between points in Bergen, Essex, Hudson, Middlesex, Morris, Passaic, Somerset, and Union Counties, N.J., on the one hand, and, on the other, New York, N.Y., and points in Nassau, Suffolk, and Westchester Counties, N.Y. Vendee is authorized to operate as a *common carrier* in Connecticut, Maryland, Massachusetts and New Hampshire. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11921. Authority sought for purchase by DART TRANSIT COMPANY, 780 N. Prior St., St. Paul, MN 55104, of the operating rights of CHICAGO FREIGHT LINES, INC., P.O. Box 46362, Springdale OH 45246, and for acquisition by EARL O. OREN, ADELINE L. OREN, DONALD G. OREN, AND DIANNE O. KOUGHAN, all of 780 N. Prior St., St. Paul, MN 55104, of control of such rights through the purchase. Applicants' attorneys: James C. Hardman, 127 N. Dearborn St., Chicago, IL 60602, and A. Charles Tell, 100 E. Broad St., Columbus, OH 43215. Operating rights sought to be transferred: *Paper mill products and supplies*, as a *common carrier* over irregular routes, between Hamilton, Ohio, Hammond, Ind., and Chicago, Ill. Vendee is authorized to operate as a *common carrier* in Minnesota, Iowa, Wisconsin, North Dakota, South Dakota, Illinois, Michigan, Nebraska, Kansas, Missouri, Montana, Florida, Georgia, Indiana, Kentucky, Massachusetts, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Virginia, West Virginia, Maryland, New Hampshire, Connecticut, Delaware, Vermont and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11922. Authority sought for purchase by ECKLAR-MOORE EXPRESS, INC., 147 So. Forbes Rd., Lexington, KY 40505, of the operating rights and property of W. C. DAVENPORT, E. B. DAVENPORT AND J. A. DAVENPORT, doing business as DAVENPORT'S TRANSFER, 125 E. Broadway Harrodsburg, KY 40330, and for acquisition by GARRETT JOHNSON, WILLIAM H. TEATER, JOHN S. MARLIN, all of Lexington, KY 40505 and HARRY V. McCHESNEY, 605 Kingfisher Lane, Sarasota, FL 33577, of control of such rights and property through the purchase. Applicants' attorney: Robert H. Kinker, P.O. Box 464, Frankfort, KY 40601. Operating rights sought to be transferred: *General commodities*, excepting among others, dangerous explosives, household goods and commodities in bulk, as a *common carrier* over regular routes, between Louisville and Danville, Ky., serving all intermediate points between Graefenburg and Danville, including Graefenburg; and the off-route point of Bondville, Ky., between Perryville, and Burgin, Ky., serving to and from the intermediate points of Harrodsburg, and Nevada, Ky. Vendee is authorized to operate as a *common carrier* in Ohio and Kentucky. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11923. Authority sought for purchase by CROUSE CARTAGE COMPANY, P.O. Box 151, Carroll IA 51401, of the operating rights of MAX W. TUNKS AND MAXIE LEE TUNKS, doing business as CIRCLE M TRUCK LINE, P.O. Box 415, King City, MO 64463, and for acquisition by PAUL E. CROUSE, also of Carroll, IA 51401, of control of such rights through the purchase. Applicants' attorney: William S. Rosen, 630 Osborn Bldg., St. Paul, MN 55102. Operating rights sought to be transferred: Under a certificate of registration, in Docket No. MC–96969 (Sub-No. 2), covering the transportation of general commodities, as a common carrier, in interstate commerce, within the State of Missouri. Vendee is authorized to operate as a *common carrier* in Iowa, Nebraska, Missouri, Kansas, Indiana, Illinois, Michigan, Kentucky, Minnesota, North Dakota, Ohio and South Dakota. Application has been filed for temporary authority under section 210a(b). NOTE: MC–123389 (Sub-No. 16) is a matter directly related.

No. MC–F–11924. Authority sought for purchase by D'AGATA NATIONAL TRUCKING CO., 3222–40 So. 61st St., Philadelphia, PA 19153, of the operating rights of (B) D'AGATA TRANSPORTATION, INC., 1104 York Road, Cherry Hill, NJ 08034 and (BB) BEER TRANS, INC., 1064 2d St., Philadelphia, PA, and for acquisition by VINCENT D'AGATA, 805 Tasker St., Philadelphia, PA, of control of such rights through the purchase. Applicants' attorney: Leonard A. Jaskiewicz, 1730 M St., N.W., Washington, DC 20036. Operating rights sought to be transferred: (B) Malt beverages, as a *contract carrier* over irregular routes, from Latrobe, Pa., to points in New Jersey; *malt beverages*, in cans, bottles, and kegs, from Reading, Pa., to points in Connecticut, Massachusetts, New Hampshire, Rhode Island, and Vermont, with restrictions; (BB) *malt beverages*, as a *common carrier*, over irregular routes,

V 381132 JUL 11 73 XUM

from Philadelphia, Pa., to points in Delaware, Maryland, New Jersey, Virginia and the District of Columbia; *empty malt beverage containers* from points in Delaware, Maryland and New Jersey to Philadelphia, Pa.; *empty containers* and *returned shipments* of malt beverages, from points in Virginia and the District of Columbia, to Philadelphia, Pa. Vendee is authorized to operate as a *common carrier* in Maryland, Virginia, New York, Pennsylvania, Delaware, West Virginia, Ohio, New Jersey, Connecticut, Wisconsin, Massachusetts, Maine, New Hampshire, Vermont, Rhode Island, and the District of Columbia. Application has been filed for temporary authority under section 210a(b). NOTE: MC-118929 (Sub-No. 3) is a directly related matter.

F.D. No. 27423, Filed June 20, 1973 CHICAGO AND NORTH WESTERN TRANSPORTATION COMPANY, 400 West Madison Street, Chicago, Illinois 60606, represented by Mr. Stuart F. Gassner, of the same address, hereby gives notice that it filed with the Interstate Commerce Commission at Washington, D.C., an application for approval of an agreement authorizing trackage rights of the CNW over tracks of the Soo Line Railroad Company between Wisconsin Rapids and Nekoosa, Wisconsin, all in Wood County, Wisconsin, a distance of approximately 4.35 miles, beginning at milepost 0.6 and extending to milepost 3.6 and commencing again at milepost 4.6 and extending to milepost 6.1 (Soo Line mileposts 26.59–29.59 and 30.47–31.82). CNW and Soo Line currently maintain parallel tracks between Wisconsin Rapids and Nekoosa, Wisconsin. CNW alleges that no shippers or receivers will be adversely affected. The trackage rights to be operated lie between Wisconsin Rapids and Port Edwards and Port Edwards and Nekoosa. In the opinion of the applicant, the Commission's action requested, i.e., approval of the trackage rights, will not have any significant impact and will not significantly adversely affect the quality of the human environment. Rather applicant alleges that elimination of duplicate facilities will have a beneficial effect on the environment. In accordance with the Commission's regulations (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation-National Environmental Policy Act, 1969*, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present the statement shall include such information relating to the facts set forth in Ex Parte No. 55 (Sub-No. 4), supra, Part (b) (1)–(5), 340 I.C.C. 431, 461. The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission on later than 30 days from the date of first publication in the FEDERAL REGISTER.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

JULY 6, 1973.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

California Docket No. 53337 (AMENDMENT) filed June 18, 1973, published in the FR issue of June 7, 1972, and republished, as amended, this issue. Applicant: CALIFORNIA CARTAGE COMPANY, INC., 20021 Susana Road, Compton, Calif. 90221. Applicant's representative: Donald Murchison, 9454 Wilshire Blvd., Suite 400, Beverly Hills, Calif. 90212. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities*, (1) Between all points and places within the Los Angeles Basin Territory, as described in Note A. (2) Between all points and places within the San Diego Territory, as described in Note B. (3) Between the San Diego Territory and the Los Angeles Basin Territory, inclusive, serving all intermediate points on Interstate 5 and 15 and U.S. Highway 395, and all points within 15 miles of said highways, including all points in the Los Angeles Basin Territory. (4) Between all points and places in Paragraphs 1, 2 and 3 above, and Sacramento, inclusive, serving all intermediate points on Interstate 5 and State Highways 14, 58 and 99 and on U.S. Highway 101, Interstate 80 and State Highways 4 and 99, and all points within 15 miles of said highways, and including all points in the San Francisco Territory, as described in Note C. (5) Carrier may operate over all accessible public highways between all of said termini, intermediate and off route points, in combination, one with the other. (6) Through routes and joint rates may be established between any and all points described above and with other certificated carriers at convenient points of interchange. Applicant shall not transport any shipments of: Livestock, uncrated used household goods and office furniture, commodities requiring special equipment, commodities in bulk, articles of extraordinary value, dangerous explosives, and commodities injurious or contaminating to other lading. Note A: LOS ANGELES BASIN TERRITORY includes that area embraced by the following boundary:

Beginning at the point the Ventura County-Los Angeles County boundary line intersects the Pacific Ocean, thence northeasterly along said county line to the point it intersects State Highway No. 118, approximately two miles west of Chatsworth; easterly along State Highway No. 118 to Sepulveda Boulevard; northerly along Sepulveda Boulevard to Chatsworth Drive; northeasterly along Chatsworth Drive to the corporate boundary of the City of San Fernando; westerly and northerly along said corporate boundary to McClay Avenue; northeasterly along McClay Avenue and its prolongation to the Los Angeles National Forest boundary; southeasterly and easterly along the Angeles National Forest and San Bernardino National Forest boundary to the county road known as Mill Creek Road; westerly along Mill Creek Road to the county road 3.8 miles north of Yucaipa; southerly along said county road to and including the unincorporated community of Yucaipa; westerly along Redlands Boulevard to State Highway No. 99; northwesterly along State Highway No. 99 to the corporate boundary of the City of Redlands; westerly and northerly along said corporate boundary to Brookside Avenue; westerly along Brookside Avenue to Barton Avenue; westerly along Barton Avenue and its prolongation to Palm Avenue; westerly along Palm Avenue to La Cadena Drive; southwesterly along La Cadena Drive to Iowa Avenue; southerly along Iowa Avenue to U.S. Highway No. 60; southwesterly along U.S. Highways Nos. 60 and 395 to the county road approximately one mile north of Perris; easterly along said county road via Nuevo and Lakeview to the corporate boundary of the City of San Jacinto; easterly, southerly and westerly along said corporate boundary to San Jacinto Avenue; southerly along No. 74; westerly along State Highway No. 74 to the corporate boundary of the City of Hemet; southerly, westerly, and northerly along said corporate boundary to the right of way of The Atchison, Topeka & Santa Fe Railway Company; southwesterly along said right of way to Washington Avenue; southerly along Washington Avenue, through and including the unincorporated community of Winchester to Benton Road; westerly along Benton Road to the County Road intersecting U.S. Highway No. 395, 2.1 miles north of the unincorporated community of Temecula; southerly along said county road to U.S. Highway No. 395; southeasterly along U.S. Highway No. 395 to the Riverside County-San Diego County boundary line; westerly along said boundary line to the Orange County-San Diego County boundary line; southerly along said boundary line to the Pacific Ocean; northwesterly along the shoreline of the Pacific Ocean to point of beginning.

Note B: SAN DIEGO TERRITORY includes that area embraced by the following imaginary line starting at the northerly junction of U.S. Highways 101–E and 101–W (4 miles north of La Jolla); thence easterly to Miramar on U.S. Highway No. 395; thence southeasterly to Lakeside on the El Cajon-Romona Highway; thence southerly to Bostonia on U.S. Highway No. 80; thence southeasterly to Jamul on State Highway No. 94; thence due south to the International Boundary Line, west to the Pacific Ocean and north along the coast to point of beginning. Note C: SAN FRANCISCO TERRITORY includes all the City of San Jose and that area embraced by the following boundary: Beginning at the point the San Francisco-San Mateo County boundary line meets the Pacific Ocean; thence easterly along said boundary line to a point 1 mile west of U.S. Highway 101; southerly along an imaginary line 1 mile west of and paralleling U.S. Highway 101 to its intersection with Southern Pacific Company right of way at Arastradero Road; southeasterly along the Southern Pacific Company right of way to Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately 2 miles southwest from Simla to Permanente; easterly along Pollard Road to W. Parr Avenue; easterly along W. Parr Avenue to Capri Drive; southerly along Capri Drive to E. Parr Avenue; easterly along E. Parr Avenue to the Southern Pacific Company right of way; southerly along the Southern Pacific Company right of way to the Campbell-Los Gatos city limits; easterly along said limits and the prolongation thereof to the San Jose-Los Gatos Road; northeasterly along San Jose-Los Gatos Road to Foxworthy Avenue; easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to U.S. Highway 101; northwesterly along U.S. Highway 101 to Tully Road; northeasterly along Tully Road to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Highway 17 (Oakland Road); northerly along State Highway 17 to Warm Springs; northerly along the unnumbered highway via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard and Moraga Avenue to Estates Drive; westerly along Estates Drive, Harbord Drive and Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland boundary line; northerly along said boundary line to the campus boundary of the University of California; northerly and westerly along the campus boundary of the University of California to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to U.S. Highway 40 (San Pablo Avenue); northerly along U.S. Highway 40 to and including the City of Richmond; southwesterly along the highway extending from the City of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco Waterfront at the foot of Market Street; westerly along said waterfront and shore line to the Pacific Ocean; southerly along the shore line of the Pacific Ocean to point of beginning. Intrastate, interstate and foreign commerce authority sought. HEARING: Date, time and place not shown. Requests for procedural information should be addressed to the California Public Utilities Commission, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif., 94102, and should not be directed to the Interstate Commerce Commission.

By the Commission.

[F.D. 26241]

PENN CENTRAL TRANSPORTATION COMPANY REORGANIZATION

There being under consideration a plan of reorganization filed July 5, 1973, pursuant to the order of the United States District Court for the Eastern District of Pennsylvania, dated July 3, 1973, in proceeding No. 70-347, pending therein for reorganization of the Penn Central Transportation Company, debtor, under the provisions of section 77 of the Bankruptcy Act, as amended (11 USC 205), directing the trustees of the said debtor (Penn Central) to file with this Commission a plan of reorganization for the debtor and requesting that this Commission certify to the said court, by October 1, 1973, an approved plan for the reorganization of the debtor, or a preliminary step thereof; and a plan of reorganization of the said debtor filed June 27, 1973 by the Trustees of the property of the New York, New Haven and Hartford Railroad Company (also a debtor in reorganization under section 77 of the Bankruptcy Act, but at the same time a creditor of Penn Central); and

It appearing, that under the provisions of section 77(d) of the Bankruptcy Act this Commission must determine whether any such plan filed is prima facie impracticable, and the two plans thus far filed and their attendant circumstances make it appropriate that preliminary hearings be undertaken for such determination; and that the scope of the plans are such as to warrant a prehearing pursuant to Rule 68 of the Commission's General Rules of Practice;

It further appearing, that in order to make the preliminary determinations under the said section 77(d) and such other determinations as may be appropriate within the time limitations envisioned by the above-cited court order, expedited hearings and special procedures are necessary, and the matter should be assigned to an Administrative Law Judge for prehearing conference and hearing;

It further appearing, that due to the critical time element involved, the Commission's rules of practice relating to petitions for leave to intervene to become parties of record should be waived and all parties desiring to participate in the proceeding who appear at the prehearing conference should be granted leave to intervene without further filings with this Commission;

It further appearing, that the Penn Central Trustees' plan is in essence a plan for a shut down of the Penn Central railroad system before winter, phasing the cessation over a 10-week period beginning October 31, 1973, to be followed by a liquidation of the properties for the purpose of satisfying claims of the creditors (among which are the United States, State and local taxing authorities, employees, security holders and others); and the New Haven Trustee's plan provides for a structure which includes, among other things, separate corporations to operate passenger service in the area between Boston, Mass., and Washington, D.C., and rail freight service over a network of approximately 11,000 miles; to liquidate unutilized Penn Central properties, and to conduct an investment business;

It further appearing, that the plans involve a phasing, with general proposals and certain elements to be certified to the Reorganization Court by the Commission in the initial steps, while other elements are left for hearing, definition and approval in subsequent steps;

It further appearing, that section 77 (d) of the Bankruptcy Act authorizes the Commission to approve a plan "which may be different from any which has been proposed", and in view thereof, consideration should be given to the possibility of reorganization contemplating scaled-down operations (of 11,000 or 15,000 miles, as previously suggested by the Penn Central trustees, or of some other configuration) and further contemplation scaled-down tax claims and other debt;

It is ordered, That the Plan filed with the Commission July 5, 1973, by the Trustees of the property of Penn Central Transportation Company, Debtor, and the Plan filed June 27, 1973 by the Trustee of the property of The New York, New Haven and Hartford Railroad Company, Debtor, be, and they are, hereby

V 38-132 JUL 11 73 XUM

set down for pre-hearing conference in accordance with Rule 68 of the Commission's General Rules of Practice, on Monday, July 16, 1973, before an Administrative Law Judge, at 9:30 o'clock A.M. EDST at the offices of the Interstate Commerce Commission, Washington, D.C., for the purposes, among others as set out in said Rule 68, of crystallizing issues, establishing special procedures and schedules for additional hearings, exploring the feasibility and practicableness of the two plans, investigating possibilities for additional reorganization plans and determining, to the extent possible, questions regarding the kinds and amounts of evidence needed, determining issues arising out of the assumptions upon which the plans of the trustees are based, seeking agreement on special rules of evidence, and undertaking such other matters as the administrative law judge may deem appropriate, giving due regard to the time limitations envisioned in the above cited July 3, 1973, order of the Penn Central Reorganization Court.

It is further ordered, That the Commission's General Rules of Practice relating to intervention be, and they are hereby, waived, and all parties desiring to intervene for the purpose of becoming parties to this proceeding shall do so by entering their appearance at either the pre-hearing conference or at such time in the subsequent hearings as the Administrative Law Judge may determine; and that this Commission will issue an appropriate service list as soon as practicable after the hearings begin;

It is further ordered, That the due and timely execution of this Commission's function in this proceeding requires the omission of an initial decision by the Administrative Law Judge and that the record be certified to the Commission for the initial report.

It is further ordered, That the Secretary serve copies of this order and the attached notice in the manner provided in the Rules of Practice, upon the Debtor, the Trustees, all other parties before the Commission in this proceeding, the Governors of each State in which Penn Central Transportation Company operates, and the Mayor of the District of Columbia;

And it is further ordered, That the trustees of the debtor publish the said notice within 5 days from the date hereof in one or more daily newspapers of general circulation of the District of Columbia and each of the States in which the debtor operates and including the Wall Street Journal and the New York Times.

Dated at Washington, D.C., on this 6th day of July, 1973.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD,
Secretary.

[F.D. 26241]

PENN CENTRAL TRANSPORTATION COMPANY REORGANIZATION

The above entitled proceeding is assigned for prehearing conference on Monday, July 16, 1973, before an administrative law judge at 9:30 o'clock a.m., EDST at the office of the Interstate Commerce Commission at Washington, D.C.

The prehearing conference will be for the purposes set out in Rule 68 of the Commission's General Rules of Practice, including among others, the clarifying of issues necessary to determining the feasibility or the prima facie practicability of plans of reorganization filed, pursuant to the provisions of section 77(d) of the Bankruptcy Act, (11 U.S.C. 205), by the Trustees of the property of the Penn Central Transportation Company and the Trustee of the property of the New York, New Haven and Hartford Railroad Company, such determination, and others relating to the merits of the plans, to be made after a hearing upon a date and time to be later fixed.

The receipt of this notice and the accompanying order does not constitute permission to participate in the proceeding. However, the Commission's general rules of practice relating to intervention will be waived, so that persons wishing to become parties to this proceeding may seek intervention by entering their appearance at the prehearing conference, or, as the administrative law judge may deem appropriate, at the hearing to be later held.

Any person (other than a party of record in the proceeding) who wishes to be notified of the hearing schedule or any change in the time or place of the hearing (at his own expense if telegraphic notice becomes necessary) should promptly transmit request therefor to the Interstate Commerce Commission, Washington, D.C. 20423.

[Ex Parte No. 295]

TARIFF SCHEDULES

Increased Freight Rates and Charges, 1973, Nationwide

JULY 3, 1973.

The railroads have filed, on statutory notice, tariff schedules providing for a general increase in freight rates and charges. The tariff bears an effective date of July 29, 1973, but a supplement has been filed by the carriers postponing the effective date until August 13, 1973, in accordance with price stabilization requirements.

As stated in the Commission's Notice of June 11, 1973:

These tariffs will be received subject to protest, suspension or rejection. Protests to be considered in this connection must be received by the Commission twelve (12) days before the effective date as provided in the Commission's rules of practice. For the Commission's use, the original and 24 copies should be sent to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.[1] If any parties believe the considered proposal will significantly affect the quality of the human environment, they are invited to comment on this matter in their protests.

One copy of each protest shall be served upon the petitioning railroads, and, for this purpose, may be addressed to James L. Tapley, American Railroads Building, 1920 "L" Street, NW., Washington, D.C. 20036.[2]

[1] A lesser number of copies may be filed upon a showing of good cause.

[2] All parties able to do so shall send twenty-five (25) copies to the petitioning railroads.

Replies heretofore filed in response to the petition will be considered a part of the record in this proceeding, and the parties may rely thereon in lieu of filing protests in this matter.

In view of the notice previously accorded the parties and in order to provide flexibility, the Commission has determined that protests shall be filed twelve (12) days before the original effective date of the tariff, or on or before July 17, 1973.

The railroads have the right to reply to all protests and they are required to serve their replies promptly on the respective protestants. To receive consideration, such replies should be filed and served not later than July 20, 1973.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.73-14139 Filed 7-10-73;8:45 am]

COST OF LIVING COUNCIL

FOOD INDUSTRY WAGE AND SALARY COMMITTEE

Notice of Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770) notice is hereby given that the Food Industry Wage and Salary Committee, established under the authority of section 212(f) of the Economic Stabilization Act, as amended, section 4(a)(iv) of Executive Order 11695, and Cost of Living Council Order No. 14, will meet at 10:00 a.m., Wednesday, July 18, 1973, at 2025 M Street, NW., Washington, D.C.

The agenda will be a consideration of cases for decision, future wage policy and other business.

Since the above stated meeting will consist of discussions of cases for decision, future wage policy and other business, pursuant to authority granted me by Cost of Living Council Order 25, I have determined that the meeting would fall within exemption (5) of 5 U.S.C. 552(b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with the operation of the Committee.

Issued in Washington, D.C. on July 10, 1973.

HENRY H. PERRITT, Jr.,
Executive Secretary,
Cost of Living Council.

[FR Doc.73-14303 Filed 7-10-73;10:39 am]

COMMISSION ON CIVIL RIGHTS

OHIO STATE ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the United States Commission on Civil Rights, that a factfinding meeting of the Ohio State Advisory Committee will convene at 9:00 a.m. on July 13, 1973, in Room 2, State Office Building, 65 South Front Street, Columbus, Ohio 43215, and reconvene at 9:00 a.m. on July 14, 1973. This meeting shall be open to the public.

The purpose of this meeting shall be to collect information concerning legal developments constituting a denial of the equal protection of the laws under the Constitution because of race, color, religion, sex, or national origin which affect persons residing in the State of Ohio with special emphasis on the conditions in Ohio penal institutions as they relate to the civil rights of inmates; to appraise denial of equal protection of the laws under the Constitution because of race, color, religion, sex, or national origin as there pertain to Ohio penal institutions as they relate to the civil rights of inmates; and to disseminate information with respect to denials of the equal protection of the laws because of race, color, religion, sex, or national origin with respect to Ohio penal institutions and the civil rights of inmates of these institutions; and to related areas.

A planning meeting of the Ohio State Advisory Committee will convene at 10:00 a.m. on July 12, 1973, at the Christopher Inn, 300 East Broad Street, Columbus, Ohio 43215. Persons wishing to attend this meeting should contact the Committee Chairman, or the Midwestern Regional Office, Room 1428 at 219 South Dearborn Street, Chicago, Illinois 60604. The purpose of this meeting shall be to hold a final briefing session in preparation for the July 13–14, 1973, factfinding meeting on the Ohio penal institutions.

A closed or executive session of the Ohio State Advisory Committee will convene at 8:00 a.m. on July 13, 1973, and reconvene at 8:00 a.m. on July 14, 1973, in Room 2, State Office Building, 65 South Front Street, Columbus, Ohio 43215. At these sessions, Committee members will discuss matters which may tend to defame, degrade, or incriminate individuals and as such these sessions are not open to the public.

These meetings will be conducted pursuant to the rules and regulations of the Commission.

Dated at Washington, D.C., July 6, 1973.

ISAIAH T. CRESWELL, JR.,
Advisory Committee
Management Officer.

Office of Education

[45 CFR Part 167]

ADULT EDUCATION; SPECIAL PROJECTS AND TEACHER TRAINING UNDER ADULT EDUCATION ACT

Notice of Proposed Rule Making

In accordance with section 503 of the Education Amendments of 1972 (P.L. 92-318) and pursuant to the authority contained in section 309 of the Adult Education Act, as amended, 20 U.S.C. 1208, the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Title 45, Part 167 of the Code of Federal Regulations to read as set forth below. The Commissioner also proposes to establish guidelines for this program, which are set forth following the text of the proposed regulation.

1. *Program purpose.* Section 309 of the Adult Education Act provides for special experimental demonstration project grants and teacher training grants and contracts.

2. *Section 503 procedures and effect.* Section 503 of the Education Amendments of 1972 requires the Commissioner to study all rules, regulations, guidelines, or other published interpretations or orders issued by him or by the Secretary after June 30, 1965, in connection with or affecting the administration of Office of Education programs; to report to the Committee on Labor and Public Welfare of the Senate and the Committee on Education and Labor of the House of Representatives concerning such study; and to publish in the FEDERAL REGISTER such rules, regulations, guidelines, interpretations, and orders, with an opportunity for public hearing on the matters so published. The regulations and guidelines proposed below reflect the results of this study as it pertains to the programs under section 309 of the Adult Education Act. Upon publication of revised Part 167 and the proposed guidelines in final form, after comments and hearing, all preceding rules, regulations, guidelines, interpretations, and orders issued in connection with or affecting Part 167 (as amended by the General Provisions Regulations; see the notice of proposed rule making at 38 FR 10388) will be superseded effective thirty days after such publication.

3. *Effect of Office of Education general provisions regulation.* The proposed regulation differs from the current regulation in that provisions have been deleted relating to general fiscal and administrative matters which are presently covered in 45 CFR Part 167 and which will be covered in the future under the overall Office of Education general provisions regulation, published under notice of proposed rule making in the FEDERAL REGISTER at 38 FR 10386-10430, in connection with the same study under section 503 of the Education Amendments of 1972 of which this publication is a part. (Reference is made in particular to the provisions of proposed Part 100a of Title 45 CFR, containing general provisions for direct project assistance, which would be applicable to the programs under section 309 of the Adult Education Act.)

4. *Guidelines.* Guidelines for the programs have not previously been published in the FEDERAL REGISTER. The guidelines proposed below essentially contain recommendations and suggestions for program management and operation and are designed to incorporate all materials covered by section 503 of the Education Amendments of 1972 not otherwise reflected in the regulation. When finally published in the FEDERAL REGISTER in accordance with section 503(d), the guidelines will be stated separately in the general notice section of the FEDERAL REGISTER.

5. *Citations of legal authority.* As required by section 431(a) of the General Education Provisions Act (20 U.S.C. 1232 (a)) and section 503 of the Education Amendments of 1972, a citation of statutory or other legal authority for each section of the regulations and guidelines has been placed in parentheses on the line following the text of the section.

On occasion, a citation appears at the end of a subdivision of the section. In that case the citation is to all that appears in that section above the citation. When the citation appears only at the end of the section it applies to the entire section.

6. *Opportunity for public hearing.* Pursuant to section 503(c) of the Education Amendments of 1972, the Commissioner will provide interested parties an opportunity for a public hearing on these regulations and guidelines. The hearing will take place at the U.S. Office of Education on September 20, 1973, in the auditorium of the Regional Office Building Three (ROB-3) located at 7th and D Streets, SW., Washington, D.C. 20202, beginning at 10 a.m. The purpose of the hearing is to receive comments and suggestions on the published materials.

Interested parties may also submit written comments and recommendations to Room 5717 at the above address: Attention: Mr. Herbert C. Duffy, Chairman, Office of Education Task Force on Section 503. All relevant material received prior to the date of the hearing will be considered. Comments and suggestions submitted in writing will be available for review in the above office between the hours of 8 a.m. and 4:30 p.m., Monday through Friday of each week.

Parties interested in attending the hearing should notify the Office of Education at the above address, and are urged to submit a written copy of their comments with such notification. Each party planning to make oral comments at the hearing is urged to limit his presentation to a maximum of fifteen minutes.

(Catalog of Federal Domestic Assistance No. 13.401, Adult Education—Special Projects and No. 13.402, Adult Education—Teacher Education.)

Date: June 6, 1973.

JOHN OTTINA,
Acting U.S. Commissioner of Education.

Approved: June 27, 1973.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

PART 167—SPECIAL PROJECTS AND TEACHER TRAINING IN ADULT EDUCATION

Sec.
167.1 Applicability.
167.2 Definitions.
167.4 Eligible projects.
167.5 Eligible applicants.
167.6 Preapplications and applications for grants.
167.8 Special project criteria.
167.9 Teacher training project criteria.
167.10 Grantee contribution to special experimental demonstration projects.
167.12 Selection of participants for teacher training projects.
167.13 Duration of teacher training projects.
167.14 Program evaluation procedures.
167.15 Allowable costs.
167.16 Stipends and travel allowances for teacher training participants.
167.17 Reports.

AUTHORITY: Section 309 of the Adult Education Act, as amended, unless otherwise noted (84 Stat. 163; 20 U.S.C. 1201-1211).

§ 167.1 Applicability.

(a) The regulations in this part apply to grants by the Commission for special experimental demonstration projects in adult education under subsection (b), and adult education personnel training under subsection (c), of section 309 of the Adult Education Act. The Commissioner is also authorized to provide adult education personnel training (directly or by contract) under section 309(c).

(20 U.S.C. 1208)

(b) Assistance provided under this part is subject to applicable provisions contained in Subchapter A of this Chapter (relating to fiscal, administrative, property management and other matters).

(20 U.S.C. 1208)

CROSS-REFERENCE: The regulations in Part 166 apply to grants to States for adult basic education and adult education programs pursuant to section 304(b) of the Act.

§ 167.2 Definitions.

(a) The terms "adult," "adult education," "adult basic education," "Commissioner," "local educational agency," "State," "State educational agency" and "academic education" are defined in section 303 of the Act.

(b) As used in this part:

(1) "Act" means the Adult Education Act, as amended.

(20 U.S.C. 1201-1211)

(2) "Institution of higher education" means an educational institution in any State which—

(i) admits as regular students only individuals having a certificate of graduation from a high school, or the recognized equivalent of such a certificate;

(ii) is legally authorized within such State to provide a program of education beyond high school;

(iii) provides an educational program for which it awards a bachelor's degree, or provides not less than a two-year program which is acceptable for full credit toward such a degree, or offers a two-year program in engineering, mathematics, or the physical or biological sciences which is designed to prepare the student to work as a technician and at a semiprofessional level in engineering, scientific, or other technological fields which require the understanding and application of basic engineering, scientific, or mathematical principles or knowledge;

(iv) is a public or other nonprofit institution; and

(v) is accredited by a nationally recognized accrediting agency or association listed by the Commissioner pursuant to this paragraph or, if not so accredited, is an institution whose credits are accepted, on transfer, by not less than three institutions which are so accredited, for credit on the same basis as if transferred from an institution so accredited: Provided, however, that in the case of an institution offering a two-year program in engineering, mathematics, or the physical or biological sciences which is designed to prepare the student to work as a technician and at a semiprofessional level in engineering, scientific, or technological fields which requires the understanding and application of basic engineering, scientific or mathematical principles or knowledge, if the Commissioner determines that there is no nationally recognized accrediting agency or association qualified to accredit such institutions, he shall appoint an advisory committee, composed of persons specially qualified to evaluate training provided by such institutions, which shall prescribe the standards of content, scope, and quality which must be met in order to qualify such institutions to participate under this Act and shall also determine whether particular institutions meet such standards. For the purposes of this paragraph the Commissioner shall publish a list of nationally recognized accrediting agencies or associations which he determines to be reliable authority as to the quality of education or training offered.

(20 U.S.C. 881; 20 U.S.C. 1202(1))

§ 167.4 Eligible projects.

Funds available under section 309 of the Act may be used by the Commissioner for the following purposes:

(a) Grants for special experimental demonstration projects to be carried out in furtherance of the purposes of the Act, and which—

(1) involve the use of innovative methods, systems, materials or programs which the Commissioner determines may have national significance or may be of special value in promoting effective programs under the Act, or

(2) involve programs of adult education, carried out in cooperation with other Federal, federally assisted, State, or local programs which the Commissioner determines have unusual promise in promoting a comprehensive or coordinated approach to the problems of persons with educational deficiencies.

(b) Grants and contracts to provide training to persons engaged, or preparing to engage, as personnel in adult education programs designed to carry out the purposes of the Act.

(20 U.S.C. 1208)

§ 167.5 Eligible applicants.

(a) *Special projects.* The following categories of agencies and institutions are eligible for grants under this part for special experimental demonstration projects:

(1) Local educational agencies; and

(2) Other public or private nonprofit agencies, including educational television stations.

(20 U.S.C. 1208(b))

(b) *Teacher training.* The following categories of agencies and institutions are eligible for grants and contracts under this part for teacher training:

(1) Institutions of higher education;

(2) State educational agencies;

(3) Local educational agencies; and

(4) Other appropriate public or private nonprofit agencies and organizations.

(20 U.S.C. 1208(c))

(c) *Ineligible applicants.* The following are not eligible for any grants under this part:

(1) Individuals;

(2) Any school or department of divinity; and

(3) Institutions organized for profit.

(20 U.S.C. 1208, 1210)

§ 167.6 Preapplications and applications for grants.

(a) *General.* (1) Assistance under this part will be made available only upon submission of preapplications and applications in accordance with this section. A separate preapplication and application must be submitted for each proposed project, except as provided in § 167.6(b)(1). Preapplication and application forms may be obtained from the Division of Adult Education, Bureau of Occupational and Adult Education, U.S. Office of Education, Washington, D.C. 20202.

(2) Preapplications and applications for grants shall be submitted in accordance with procedures and forms contained in Attachment M of Office of Management and Budget (OMB) Circular No. A-102, as supplemented by the Commissioner.

(20 U.S.C. 1208; OMB Circular No. A-102)

(3) If an applicant wishes to have an application which was not approved reconsidered for approval during a subsequent fiscal year, a preapplication and application must be resubmitted.

(20 U.S.C. 1208)

(b) *Preapplications.* (1) Each applicant seeking initial support for a special experimental demonstration project or a teacher training project must submit a preapplication for Federal assistance. An applicant applying for support to continue an ongoing multi-year project need not resubmit a preapplication; however, such applicants must complete and submit the appropriate application for Federal assistance form in each year for which assistance is requested.

(2) Preapplications will be reviewed and rated in accordance with current priorities (which will be published periodically in the FEDERAL REGISTER) and the criteria described in §§ 167.8 and 167.9. The applicant will be notified of the results of such review in accordance with Attachment M of OMB Circular No. A-102.

(c) *Applications.* (1) Each applicant who submits a preapplication will be advised as to whether the submission of an application is recommended. Applications will be evaluated and, if approved, will be funded on the basis of current priorities (which will be published periodically in the FEDERAL REGISTER) and the criteria described in §§ 167.8 and 167.9. The number of grant awards will be determined by the availability of funds.

(2) Each application shall contain an assurance that no fees or charges will be collected from students as a condition of enrollment in, participation in, or completion of any training or instruction offered in the project.

(3) A local educational agency submitting an application shall attach a letter to such application providing evidence of cooperation with the State educational agency. Any applicant which is not a local educational agency shall attach a letter to such application describing the extent to which the proposed project has been discussed with appropriate local and State adult education officials.

(4) The fact that a particular application resulted in a grant in an earlier year provides no assurance that a later submission will result in a new grant.

(5) Applications requesting support for the continuation of an ongoing multi-year project will be reviewed (i) in the light of the availability of funds; (ii) to determine if the grantee has complied with the grant terms and conditions, the Act, and applicable regulations in order to decide whether continuation of the grant would be in the best interests of the government.

(20 U.S.C. 1208; OMB Circular No. A-102)

§ 167.8 Special project criteria.

In evaluating applications for special project grants, in addition to considering the factors stated in § 100a.26(b) of this Chapter, the Commissioner will give consideration to such factors as:

(a) Whether and to what extent the project involves the use of innovative

V 38 1 32
JUL 11 73
XUM

methods, systems, materials, or programs which may have national significance or be of special value in promoting effective programs under the Act;

(b) Whether and to what extent the project is to be carried out in cooperation with other federally assisted, State or local programs which have unusual promise in promoting a comprehensive or coordinated approach to the problems of persons with educational deficiencies;

(c) Whether and to what extent the project has unusual promise in establishing or improving adult education;

(d) Whether and to what extent the project is related to and is carried out in conjunction with appropriate teacher training, whether or not assisted under the Act;

(e) Whether and to what extent the project will result in the development of new materials and methods which may be of value in increasing the effectiveness of adult education programs.

(f) Whether and to what extent the project provides for cooperation and coordination with business and industry, labor and other agencies, institutions, and community resources in order to strengthen the project and prevent duplication of effort;

(g) Whether and to what extent the project provides for cooperation and continuation by the State; and

(h) Whether and to what extent the project will meet the needs of persons with particular educational deficiencies.

(20 U.S.C. 1208(b))

§ 167.9 Teacher training project criteria.

In evaluating applications for teacher training grants, in addition to considering the factors stated in § 100a.26(b) of this chapter, the Commissioner will consider such factors as:

(a) Whether and to what extent the project will include training in the utilization of innovative methods, systems, materials, or programs;

(b) Whether and to what extent the project will meet local needs for adult education personnel;

(c) Whether and to what extent the project can be expected to meet needs for adult education personnel beyond the geographic region in which the applicant is located;

(d) Whether and to what extent the applicant proposes to make periodic, systematic, and objective reviews and evaluations of the adult education personnel training project;

(e) Whether and to what extent the project is coordinated with any special experimental demonstration projects which may be operating in the geographic area served by the applicant;

(f) Whether and to what extent the project is coordinated with adult education programs being sponsored in the State in which the applicant is located or with any other State from which trainees are drawn or to which trainees may be expected to return;

(g) Whether and to what extent the project is to be carried out in cooperation with other federally-assisted State or local programs;

(h) Whether and to what extent the project provides for cooperation and coordination with business and industry, labor and other agencies, institutions, and community resources to strengthen the project and prevent duplication;

(i) Whether and to what extent the project provides for cooperation and continuation by the State; and

(j) Whether and to what extent the criteria for eligibility for participation in the project include, in addition to educational background, previous preparation and experience in adult education programs.

(20 U.S.C. 1208(c))

§ 167.10 Grantee contribution to special experimental demonstration projects.

Recipients of grants for special experimental demonstration projects will be required, whenever feasible, to contribute an amount equal to at least 10 percent of the cost of the project. The total amount of such required non-Federal contribution will be stated in the grant award document and will be determined on the basis of the resources of the grantee, the size and scope of the project and such factors bearing on either the cost of the project or the ability of the grant recipient to contribute to such projects as the Commissioner may determine to be relevant.

(20 U.S.C. 1208(b))

§ 167.12 Selection of participants for teacher training projects.

(a) The grantee shall establish its own criteria for admission to teacher training projects based on the terms and conditions of the grant award and the goals of the adult education program. Selection of participants will be the responsibility of the grantee. However, no person shall be declared ineligible to participate in the program solely for the reason that he or she does not possess an academic degree.

(b) The criteria to be used in the final selection of participants from among the applicants shall be clearly stated in the application. If academic credit will be given for participation in the project, this shall also be clearly stated in the application.

(20 U.S.C. 1208(c))

§ 167.13 Duration of teacher training projects.

Teacher training projects shall be not less than one week nor less than 40 hours of instruction in duration.

(20 U.S.C. 1208)

§ 167.14 Program evaluation procedures.

Each program or project proposal shall, where appropriate, as determined by the Commissioner, include an evaluation plan to be carried out by a third party for the purpose of evaluating the effectiveness of the program or project. If such plan is included, it should describe the steps by which the grantee will

(a) Determine the extent to which the objectives of the program or project have been accomplished;

(b) Determine what factors either enabled or precluded the accomplishment of these objectives; and

(c) Promote the inclusion of the successful aspects of the program or project into adult education programs supported with funds other than those provided under the grant.

(20 U.S.C. 1208)

§ 167.15 Allowable costs.

(a) Allowable costs shall be in accordance with § 100a.50 of this Chapter, and with the terms and conditions contained in the grant or contract award document.

(20 U.S.C. 1208)

(b) With respect to teacher training programs pursuant to section 309(c) of the Act, there may be included in direct costs for payments to training program participants only those allowances provided for in § 167.16.

(20 U.S.C. 1208(c))

§ 167.16 Stipends and travel allowances for teacher training participants.

(a) Subject to the conditions set forth therein, the grant award document may provide that teacher training participants will, upon application therefor, receive subsistence allowances from the grantee, which shall not exceed:

(1) The sum of $75 per week in the case of a training program lasting no longer than 8 weeks, and an amount to be fixed by the Commissioner in the case of a training project lasting longer than 8 weeks; plus

(2) The sum of $15 per week for each dependent of a trainee attending a training program lasting no longer than 8 weeks. If the training period exceeds 8 weeks, the amount of the dependency allowance must be in accordance with the grant terms and conditions and requirements established by the Commissioner. For purposes of this part, a dependent shall be deemed to be an individual who receives, or is treated for Federal income tax purposes as having received, one-half or more of his support from the trainee and is either (i) his spouse or (ii) a person who qualifies as a dependent for Federal income tax purposes.

(b) Any amounts received under any other Federal grant program (except veterans, widows, and war orphans' educational assistance under title 38, United States Code) shall be set off against the amount which a trainee would be otherwise eligible to receive under this program. A trainee shall not be precluded from receiving a loan that is made, insured, or reinsured under any Federal educational loan program; and neither the amount of such loan nor any Federal interest payment made during the period covered by his traineeship award shall be deducted from the amount a trainee is entitled to receive under this part.

(c) Allowances may also be paid for participant travel cost for one round trip between each participant's home and the place at which the training program is conducted. Such allowance shall not exceed 11 cents per mile by private transportation or the tourist air or coach rail rate by common carrier, but the total cost of travel by private conveyance may not exceed the common carrier cost of such travel.

(d) Participants will be paid such stipend and travel allowances by the grantee from funds provided for the support of the project.

(20 U.S.C. 1208(c); 26 U.S.C. 151; 38 U.S.C. 1781)

§ 167.17 Reports.

(a) *General.* The grantee shall submit reports in accordance with the regulations contained in this part and at 45 CFR 100a.279 and 100a.280 and shall submit such other reports as may be provided for in the grant or contract award document or as may be required by the Commissioner from time to time in order to carry out his responsibilities under the Act. All such reports and materials relating thereto shall be submitted to the Division of Adult Education, Bureau of Occupational and Adult Education, U.S. Office of Education, Washington, D.C. 20202. Appropriate forms, as described in this section, may be obtained from the same address.

(b) *Required reports.* The following reports must be submitted:

(1) *Performance reports.* Three copies of performance reports are required, in accordance with the schedule for submission of such reports contained in the grant or contract award document and in accordance with Attachment I of OMB Circular No. A-102. Such report shall include a brief description of the actual accomplishments during the reporting period and any unanticipated problems.

(2) *Financial status reports.* Financial status reports shall be submitted in accordance with OMB Circular No. A-102, Attachment H, and in accordance with the schedule for submission of such reports contained in the grant or contract award document.

(3) *Final project report.* (i) The final project report shall be submitted 90 days after the expiration or termination of the grant or contract. The grantee shall submit the required number of copies of such report, as specified in the grant or contract award document. (ii) Such report shall include (*a*) a final financial status report in accordance with Attachment H of OMB Circular No. A-102, and (*b*) a final performance report in accordance with Attachment I of OMB Circular No. A-102 and in sufficient detail to enable a reader to replicate the program. Such final performance report must include (*1*) a summary of findings, recommendations and conclusions; (2) a brief abstract, describing the methodology and operation of the program; (c) a final report of any instructional materials developed for use in the project; and (*d*) a description of any salable items developed as a result of the project.

(4) *Special reports.* (i) Special reports shall be submitted upon request from the Office of Education. (ii) The grantee shall issue appropriate press releases and announcements concerning the availability of Federal assistance under the Act. (iii) For teacher training projects, a brochure or circular must be developed by the grantee in order to provide potential participants with sufficient information to submit applications for participation in the project. Three copies of each such announcement shall be sent to the Division of Adult Education.

(5) *Independent evaluation.* The Division of Adult Education shall be provided with a copy of any independent evaluations of the project (including its operation, objectives and conclusions) or any studies of a similar nature, in accordance with the requirements contained in the grant or contract award document.

(20 U.S.C. 1208; OMB Circular No. A-102)

4.2 Preapplications for Federal assistance.
4.3 Applications for Federal assistance.

Appendix A—Checklist.

PART 1—INTRODUCTION

§ 1.1 Scope of guidelines.

(a) The guidelines contained in this document are recommendations and suggestions for meeting the legal requirements which apply to Federal assistance under section 309 of the Adult Education Act of 1966, as amended. The guidelines are not to be construed as requirements. However, where the guidelines set forth a permissible means of meeting a legal requirement, the guidelines may be relied upon.

(20 U.S.C. 1208; 113 Cong. Rec. 5936, 5939 (daily ed. May 23, 1967); *United States* v. *Jefferson County Board of Education*. 372 F. 2d 836, 857 (1966))

(b) Where a guideline is issued in connection with or affecting a provision in the regulations, the pertinent regulation will be cited after the citation of legal authority for the guideline, in the parentheses following the guideline. For example, if the legal authority for the guideline is section 309(b) of the Act (20 U.S.C. 1208(b)), and the guideline affects § 167.7 of the regulations (45 CFR 167.7(b)), the following citation will be placed on the line immediately following the guideline (20 U.S.C. 1208(b); 45 CFR 167.7). If no particular section of the regulations is affected, no citation to the Code of Federal Regulations (CFR) will be made.

(20 U.S.C. 1232(a))

§ 1.2 Applicable statutes and regulations.

Special experimental demonstration and teacher training projects are to be proposed and conducted in accordance with applicable Federal statutes and regulations. Pertinent provisions include the Adult Education Act (20 U.S.C. 1201-1211), the General Education Provisions Act (20 U.S.C. 1221 et seq.), the Adult Education Regulations (45 CFR Part 167), the General Provisions for Office of Education Programs (45 CFR Part 100), and Office of Management and Budget Circular No. A-102. Persons interested in initiating a project should familiarize themselves with the provisions of these documents before undertaking the preparation of a proposal.

(20 U.S.C. 1201-1211; 20 U.S.C. 1221 et seq.; 45 CFR Part 167; 45 CFR Part 100a; and OMB Circular No. A-102)

PART 2—TEACHER TRAINING PROJECTS

§ 2.1 Operation of teacher training projects.

(a) Support of participants. Teacher training participants may, upon application therefor, receive stipend and travel allowances from the grantee in accordance with the provisions set forth in the Regulations at 45 CFR 167.16.

(20 U.S.C. 1208(c); 45 CFR 167.16)

(b) *Payment of participants.* The estimated amount of grant funds available for stipends, dependency allowances, and travel will be stated in the budget contained in the grant or contract award document.

(20 U.S.C. 1208(c))

(c) *Academic credit.* Academic credit is often important to participants and to the development of the profession. However, the Office of Education does not require that credit be granted. In the case of college or university sponsorship, the Director of the project and the appropriate official of the institution may determine the amount of and the basis upon which academic credit is to be given. Some institutions may wish to allow full credit for participation in the program. In such cases, the project staff, working as a committee, may evaluate the progress of an individual and allow for credit accordingly.

(20 U.S.C. 1208(c); 45 CFR 167.12(b))

(d) *Applications for project participation.* Each grantee is responsible for

V 38-132
JUL 11 73
XUM

providing potential applicants of the teacher training program with participant application forms. In order to clarify this fact, the grantee may wish to include in all brochures, participant applications and other appropriate materials, a statement along the following lines:

Requests for application forms and other inquiries should be sent to the address listed below. [List address of grantee] Selection of participants will be the responsibility of the grantee. The Office of Education does not select the participants and does not provide information relating to deadlines or to the criteria for selection of participants by specific organizations.

(20 U.S.C. 1208(c); 45 CFR 167.12)

PART 3—ADMINISTRATIVE REQUIREMENTS

§ 3.1 Compliance with Civil Rights Act of 1964.

No application for Department of Health, Education, and Welfare assistance will be approved unless the applicant has on file with the Department an accepted assurance of compliance with the Civil Rights Act of 1964, in accordance with Section 100a.160 of the General Education Provision Regulations.

(42 U.S.C. 2000d; 45 CFR 100a.160, 100a.100)

§ 3.2 Grant award.

An applicant submitting an application which is approved for funding will be advised by receipt of a grant or contract award document upon completion of negotiations. The grant or contract award document will include an approved budget and terms and conditions which will be binding upon the grantee.

(20 U.S.C. 1208; 45 CFR 100a.40)

§ 3.3 Duration of projects.

The length of the project period should be determined on the basis of the length of time required to complete the project. An applicant may wish to phase the development of a proposed project by beginning with a planning or pilot period which will be followed by an operational period.

(a) Projects short term in nature are generally less than eighteen months in duration;

(b) Projects may be approved for multi-year support. Approval of such projects constitutes a commitment to fund the project in succeeding budget periods, subject to the availability of funds, only if the Commissioner determines that continued funding is in the best interest of the Government pursuant to § 167.6(c)(5) of the regulations. Projects approved for multi-year support are funded in annual increments which may be referred to as budget periods.

(20 U.S.C. 1208; 45 CFR 167.6, 167.13)

§ 3.4 Report requirements of grantee.

(a) All materials and reports relating thereto may be submitted to the Division of Adult Education, Bureau of Occupational and Adult Education, U.S. Office of Education, Washington, D.C. 20202.

(b) The reports required of the grantee are set forth in the regulations at section 167.17 and in OMB Circular No. A–102. Compliance with such requirements will be taken into consideration in any evaluation of the project.

(c) Final project report:

(1) *Content.* Because of the diversity of projects supported, it is not possible to prescribe the length nor the most desirable arrangement of content for a final report. Such reports must, however, comply with requirements contained in § 167.17(b)(3) of the regulations.

(2) *Abstract.* In most instances the abstract of the report should not exceed six hundred (600) words in length.

(3) *Format.* The final report should be duplicated on standard white paper (8½" x 11"), bound with an inexpensive, but durable, paper cover. Unless special binding is required, side stitching is recommended.

(20 U.S.C. 1208; 45 CFR 167.17; OMB Circular No. A–102)

§ 3.5 Publications and presentations.

In order to assist individuals in obtaining further information relating to the project, the following information may also be included: the title of the publication or presentation; the title by which the project is known; the name of the Project Director; the name and the complete address of the grantee; the U.S. Office of Education Grant Number; and acknowledgment of support under the Adult Education Act of 1966, as amended.

(20 U.S.C. 1208)

PART 4—PREPARATION OF PREAPPLICATIONS AND APPLICATIONS

§ 4.1 Procedures.

(a) *Forms.* Preapplication and application forms and other materials relating thereto may be obtained from the Division of Adult Education, Bureau of Occupational and Adult Education, U.S. Office of Education, Washington, D.C. 20202.

(b) *Submission of preapplications and applications.* One copy of the preapplication or application cover sheet should bear the signature(s) of the official(s) authorized to submit the proposal. On the remaining copies, the name(s) need only be typed.

(c) *When to submit preapplications and applications.* Preapplications (Exhibit M–1 of OMB Circular No. A–102 and its supplements) requesting Federal assistance for adult education projects may be submitted to the Office of Education at any time. However, the Commissioner may announce, through publication in the FEDERAL REGISTER, closing dates for receipt of preapplications and applications for consideration for support during a particular period.

(20 U.S.C. 1208; 45 CFR 167.6; OMB Circular No. A–102)

§ 4.2 Preapplications for Federal assistance.

(a) *Requirements.* As described in § 167.6 of the regulations, each applicant seeking initial support for a special experimental demonstration project or a teacher training project must submit a preapplication for Federal assistance. The preapplication form consists of the following four parts:

(1) *Part I—preapplication for Federal assistance.* The first part of the preapplication will be Part I of the preapplication for Federal assistance, as described on pages 1 and 2 of Exhibit M–1, Attachment M, OMB Circular No. A–102. This part will serve as the preapplication cover sheet and no other cover need be superimposed.

(2) *Part II—preapplication for Federal assistance.* The second part of the preliminary proposal will be Part II of the preapplication for Federal assistance, as described on pages 3 and 4 of Exhibit M–1, Attachment M, OMB Circular No. A–102. This part of the preapplication provides selected data regarding State and local coordination of the project, environmental impact, and target groups and individuals to be served by the proposed project.

(3) *Part III—preapplication for Federal assistance—project budget.* The third part of the preapplication will be Part III of the preapplication for Federal assistance, as described on pages 3 and 4 of Exhibit M–1 of Attachment M, OMB Circular No. A–102. This part of the preapplication provides estimates of the total amount of Federal funds requested for the project and proposed cost sharing, if any. If the application requests approval for a multi-year project, separate annual budget estimates should be provided for each year of the project.

(4) *Part IV—program narrative statement.* The fourth part of the preapplication will be Part IV of the preapplication for Federal assistance, as described on page 4 of Exhibit M–1 of Attachment M of OMB Circular No. A–102. This part of the preapplication provides a statement describing the project in sufficient detail to enable the reviewers to know what is planned at every stage and to make a tentative judgment as to the feasibility of the concept, the scope of the project and its methodology. The narrative description should also explain how each of the evaluation criteria which are set forth in the regulations (45 CFR 167.8 and 167.9) will be fulfilled by the project. The program narrative statement should be typewritten, double spaced on one side of standard size (8½" x 11" or 8" x 10½") unruled white paper.

(b) *Notice of preapplication review action.* Each applicant submitting a preapplication will be notified of the results of the review as set forth in § 167.6(c)(1) of the regulations. Those applicants who (based on the results of the preapplication review) are invited to submit a formal application will receive the required application for Federal assistance form along with the notice of the results of the preapplication review.

(20 U.S.C. 1208; 45 CFR 167.6, 45 CFR 100a.31; OMB Circular No. A–102)

§ 4.3 Applications for Federal assistance.

To be eligible for consideration for funding, each applicant must complete and submit the application for Federal assistance form as described in § 167.6 of the regulations.

The application for grant consists of the following five parts:

(a) *Part I—application for Federal assistance.* The first part of the application will be Part I of the application for Federal assistance form. A copy of the prescribed form and its instructions appears on pages 1 and 2 of Exhibit M–3, Attachment M, OMB Circular No. A–102. When completed, Part I will serve as the application cover sheet and no other cover need be superimposed.

(b) *Part II—project approval information.* The second part of the proposal will be Part II of the application for Federal assistance, as described on pages 3 and 4 of Exhibit M–3, Attachment M of OMB Circular No. A–102. This part of the application provides selected data on State and local coordination efforts, environmental impact, and target groups and individuals to be served by the project.

(c) *Part III—budget information.* The third part of the application will provide budget information regarding the project. A copy of the prescribed form and its instructions for Part III of the application appears on pages 5 through 8 of Exhibit M–3, Attachment M of OMB Circular No. A–102.

(d) *Part IV—program narrative statement.* The fourth part of the application will be Part IV of the application for Federal assistance form, as described on page 9 of Exhibit M–3, Attachment M, OMB Circular No. A–102.

For purposes of review, uniformity in presentation is important. Therefore, it is helpful if applicants organize their narrative statement as indicated in the instructions to Part IV.

(1) The merit of the application will be judged in large measure on the basis of the narrative description of the project. It is, therefore, important that the narrative statement contain all information required for an effective review. It should describe the project in sufficient detail to enable the reviewers to know what is planned at every stage and to make a tentative judgment as to the probable success of the proposed effort.

(2) The program narrative statement should be typewritten, double-spaced on one side of standard (8½" x 11" or 8" x 10½") unruled white paper.

(e) *Part V—assurances.* The fifth part of the application will be Part B of the application for Federal assistance, as described on page 10 of Exhibit M–3, Attachment M, OMB Circular No. A–102. This part should appear as the last page of the application.

(20 U.S.C. 1208; 45 CFR 167.6; OMB Circular No. A–102)

APPENDIX A

APPLICANT CHECKLIST

SPECIAL EXPERIMENTAL DEMONSTRATION PROJECTS AND TEACHER TRAINING PROJECTS IN ADULT EDUCATION

Before submitting a proposal under the provisions of Section 309 of the Adult Education Act, a review for inclusion of the following items is suggested:

1. If the proposal is for a special experimental demonstration project, it involves (1) the use of innovative methods, systems, materials, or programs which may have national significance or be of special value in promoting effective programs under this Act, or (2) programs of adult education, carried out in cooperation with other Federal, federally assisted, State, or local programs which have unusual promise in promoting a comprehensive or coordinated approach to the problems of persons with educational deficiencies.

2. If the proposal is for a teacher training project, it focuses on the provision of training for persons engaged, or preparing to engage, as personnel in adult education programs designed to carry out the purposes of this Act.

3. The program or procedures to be utilized appear to be practical and feasible for wide application in adult education.

4. Evidence of cooperation and coordination with the State educational agency has been provided.

PLAN OF OPERATION

1. The objectives and sub-objectives of the project are sharply defined, clearly stated, capable of being attained by the proposed procedures, and include a design for measurement.

2. The procedures for achieving the objectives are appropriate, technically sound, and explained in detail.

3. The proposal includes provisions for an adequate evaluation of the effectiveness of the project and for determining the extent to which the objectives are accomplished.

4. The proposal is internally consistent; it presents a direct, straight-line relationship between the objectives, the procedures, and the evaluation.

PERSONNEL AND FACILITIES

1. The person proposed as Project Director has a strong background of educational qualifications and relevant experience.

2. The proposed staff consists of individuals who are skilled and knowledgeable concerning the type of program represented in the proposal.

3. The proposal provides, where appropriate, for the use of outside consultants and for the involvement of specialists from disciplines other than education.

4. The facilities and equipment available for carrying out the program are adequate.

5. Any necessary cooperative use of the facilities of other schools, agencies, or organizations has been worked out in advance and such cooperation has been assured.

ECONOMIC EFFICIENCY

1. The budget is realistic and the budget items are related specifically to the procedures that are to be followed.

2. The estimated cost of the program is reasonable in relation to the anticipated results.

3. The proposal should provide for cost sharing, if applicable, to insure its continuation beyond the developmental phase.

Guide to Record Retention Requirements

[Revised as of January 1, 1973]

This useful reference tool is designed to keep businessmen and the general public informed concerning the many published requirements in Federal laws and regulations relating to record retention.

The 90-page "Guide" contains over 1,000 digests which tell the user (1) what type records must be kept, (2) who must keep them, and (3) how long they must be kept. Each digest carries a reference to the full text of the basic law or regulation providing for such retention.

The booklet's index, numbering over 2,200 items, lists for ready reference the categories of persons, companies, and products affected by Federal record retention requirements.

Price: $1.50

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

FREEZE REGULATIONS—
CLC issues Question and Answer Guidelines Nos. 16 and 17 ..... 18552, 18553
CLC amendments to protect persons filing complaints and to establish procedures for exemption applications .. 18551

EXPORTS—Commerce Department amendments on shipping tolerance for ferrous scrap and hardship licensing; effective 7–10–73 18555

ENVIRONMENTAL IMPACT—Environmental Quality Council synopsizes statements on various federal projects 18579

PESTICIDE—EPA establishes tolerance for insecticide used on eggs; effective 7–12–73 18548

DDT—EPA notice of application for exemption to use pesticide in Oregon 18582

MEDICARE—
HEW proposed rules for state plans; comments by 8–12–73 18615
HEW proposed rules for participating nursing homes; comments by 8–12–73 18619

VIRAL VACCINES—FDA proposes to clarify and update testing and potency requirements; comments by 9–11–73 .. 18556

ANIMAL DRUGS—FDA establishes tolerance for tablets used to treat cattle; effective 7–12–73 18545

EQUAL EMPLOYMENT CONSTRUCTION CONTRACTS—HUD eliminates state and local government exemptions from affirmative action programs; effective 8–13–73 18546

PUBLIC ASSISTANCE TO STRIKERS—HEW leaves matter up to States; effective 7–12–73 18549

STATE VOCATIONAL EDUCATION PROGRAMS—HEW proposes to include industrial arts and volunteer firemen training; comments by 8–13–73 18557

LOANS TO MEDICAL STUDENTS—HEW proposes rule changes including a maximum amount increase; comments by 8–12–73 18557

FLAMMABILITY OF AUTO INTERIORS—DOT proposes to subject entire "mattresses" to standards; comments by 8–13–73 18564

THE NATIONAL ARCHIVES

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER A—INCOME TAX

[T.D. 7281]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Stock Dividends

By a notice of proposed rule making appearing in the FEDERAL REGISTER for March 18, 1971 (36 FR 5221) and by a second notice of proposed rule making appearing in the FEDERAL REGISTER for March 8, 1972 (37 FR 4964) revising certain provisions of the first notice, amendments to the Income Tax Regulations (26 CFR Part 1) were proposed in order to conform such regulations to the provisions of section 305 of the Internal Revenue Code of 1954 as amended by section 421(a) of the Tax Reform Act of 1969 (83 Stat. 614) concerning the treatment of distributions of stock and stock rights. After consideration of all such relevant matters as were presented by interested persons regarding the rules proposed, the proposed amendments of the regulations except for certain changes of which the following are the most significant are adopted by this Treasury decision. In addition, the regulations under sections 306 and 368 of the Internal Revenue Code are amended by this Treasury decision in order to conform to section 305 as amended.

The final regulations expand the definition of reasonable redemption premium set forth in the first notice of proposed rule making. The proposed regulations provide that if preferred stock may be redeemed after a specified time at a price higher than its issue price, the difference between the redemption price and the issue price will be treated as being distributed over the period during which the stock cannot be called for redemption. However the rule in the proposed regulations does not apply to the extent the redemption premium (i.e., the amount the redemption price exceeds the issue price) is reasonable.

Under the expanded definition of the final regulations a redemption price will be considered reasonable if it is in the nature of a penalty for a premature redemption of the preferred stock, and if such premium does not exceed the amount the corporation would be required to pay for the right to make such premature redemptions under market conditions existing at the time of issuance. The final regulations do not change the "safe harbor rule" provided in the proposed regulations, i.e., that a redemption premium not in excess of 10 percent of the issue price of stock which is not redeemable for 5 years from the date of issue is considered reasonable.

It was considered necessary to define in this document the issue price of preferred stock in the case where such stock is distributed as a stock dividend on common stock. The issue price is defined (for purposes of determining whether the redemption premium of such stock is reasonable under § 1.305–5(b)) as the fair market value of the preferred stock immediately following its distribution as a stock dividend. The reason for making this revision is to make it clear that preferred stock distributed as a dividend on common stock has an issue price and is subject to the redemption premium provisions under §§ 1.305–5(b) and 1.305–7(a).

The final regulations add a new paragraph to the proposed regulations to explain in more detail the application of section 305(c) to recapitalizations.

Under this new paragraph, a recapitalization will result in a deemed distribution under section 305(c), if it is pursuant to a plan to periodically increase a shareholder's proportionate interest in the assets or earnings and profits of the corporation or if a shareholder owning stock with dividends in arrears exchanges his stock for other stock and, as a result, increases his proportionate interest. A rule is set forth in the final regulations which provides that where the fair market value or the liquidation preference, whichever is greater, of the stock received in exchange exceeds the issue price (or with respect to stock issued before July 12, 1973, the liquidation preference (not including dividends in arrears) if greater than the issue price) of the preferred stock surrendered, the amount of the excess shall be deemed under section 305(c) to be a distribution of stock on the preferred stock surrendered to which sections 305(b)(4) and 301 apply. However, the amount of the distribution shall not exceed the amount of the dividends in arrears on the preferred stock surrendered.

On March 18, 1971, a notice of proposed rule making to conform the Income Tax Regulations (26 CFR Part 1) to the provisions of section 305 of the Internal Revenue Code of 1954, as amended by section 421(a) of the Tax Reform Act of 1969 (83 Stat. 614), was published in the FEDERAL REGISTER (36 FR 5221). On March 8, 1972, a second notice of proposed rule making, which revised certain provisions of the first notice, was published in the FEDERAL REGISTER (37 FR 4964). After consideration of all such relevant matters as were presented by interested persons regarding the rules proposed, the following regulations are hereby adopted.

Section 1.30(c) of the regulations as hereby adopted supersedes § 13.10 of the temporary Income Tax Regulations under the Tax Reform Act of 1969 (T.D. 70–39) as published in the FEDERAL REGISTER for May 2, 1970 (35 FR 7012).

PARAGRAPH 1. Sections 1.305 through 1.305–3 are deleted and the following substituted therefor:

§ 1.305 Statutory provisions; distributions of stock and stock rights.

SEC. 305. *Distributions of stock and stock rights*—(a) *General rule.* Except as otherwise provided in this section, gross income does not include the amount of any distribution of the stock of a corporation made by such corporation to its shareholders with respect to its stock.

(b) *Exceptions.* Subsection (a) shall not apply to a distribution by a corporation of its stock, and the distribution shall be treated as a distribution of property to which section 301 applies—

(1) *Distributions in lieu of money.* If the distribution is at the election of any of the shareholders (whether exercised before or after the declaration thereof), payable either—

(A) In its stock, or

(B) In property.

(2) *Disproportionate distributions.* If the distribution (or a series of distributions of which such distribution is one) has the result of—

(A) The receipt of property by some shareholders, and

(B) An increase in the proportionate interests of other shareholders in the assets or earnings and profits of the corporation.

(3) *Distributions of common and preferred stock.* If the distribution (or a series of distributions of which such distribution is one) has the result of—

(A) The receipt of preferred stock by some common shareholders, and

(B) The receipt of common stock by other common shareholders.

(4) *Distributions on preferred stock.* If the distribution is with respect to perferred stock, other than an increase in the conversion ratio of convertible preferred stock made solely to take account of a stock dividend or stock split with respect to the stock into which such convertible stock is convertible.

(5) *Distributions of convertible preferred stock.* If the distribution is of convertible preferred stock, unless it is established to the satisfaction of the Secretary or his delegate that such distribution will not have the result described in paragraph (2).

(c) *Certain transactions treated as distributions.* For purposes of this section and section 301, the Secretary or his delegate shall prescribe regulations under which a change in conversion ratio, a change in redemption price, a difference between redemption price and issue price, a redemption which is treated as a distribution to which section 301 applies, or any transaction (including a recapitalization) having a similar effect on the interest of any shareholder

V 38-133 JUL 12 73 XUM

shall be treated as a distribution with respect to any shareholder whose proportionate interest in the earnings and profits or assets of the corporation is increased by such change, difference, redemption or similar transaction.

(d) *Definitions*—(1) *Rights to acquire stock.* For purposes of this section, the term "stock" includes rights to acquire such stock.

(2) *Shareholders.* For purposes of subsections (b) and (c), the term "shareholder" includes a holder of rights or of convertible securities.

(e) *Cross references.* For special rules—

(1) Relating to the receipt of stock and stock rights in corporate organizations and reorganizations, see part III (section 51 and following).

(2) In the case of a distribution which results in a gift, see section 2501 and following.

(3) In the case of a distribution which has the effect of the payment of compensation, see section 61(a)(1).

[Sec. 305 as amended by sec. 421(a), Tax Reform Act 1969 (83 Stat. 614)]

§ 1.305–1 Stock dividends.

(a) *In general.* Under section 305, a distribution made by a corporation to its shareholders in its stock or in rights to acquire its stock is not included in gross income except as provided in section 305(b) and the regulations promulgated under the authority of section 305(c). A distribution made by a corporation to its shareholders in its stock or rights to acquire its stock which would not otherwise be included in gross income by reason of section 305 shall not be so treated merely because such distribution was made out of Treasury stock or consisted of rights to acquire Treasury stock. See section 307 for rules as to basis of stock and stock rights acquired in a distribution.

(b) *Amount of distribution.* (1) In general, where a distribution of stock or rights to acquire stock of a corporation is treated as a distribution of property to which section 301 applies by reason of section 305(b), the amount of the distribution, in accordance with section 301(b) and § 1.301–1, is the fair market value of such stock or rights on the date of distribution. See example (1) of § 1.305–2(b).

(2) Where a corporation which regularly distributes its earnings and profits, such as a regulated investment company, declares a dividend pursuant to which the shareholders may elect to receive either money or stock of the distributing corporation of equivalent value, the amount of the distribution of the stock received by any shareholder electing to receive stock will be considered to equal the amount of the money which could have been received instead. See example (2) of § 1.305–2(b).

(3) For rules for determining the amount of the distribution where certain transactions, such as changes in conversion ratios or periodic redemptions, are treated as distributions under section 305 (c), see examples (6), (8), (9), and (15) of § 1.305–3 (e).

(c) *Adjustment in purchase price.* A transfer of stock (or rights to acquire stock) or an increase or decrease in the conversion ratio or redemption price of stock which represents an adjustment of the price to be paid by the distributing corporation in acquiring property (within the meaning of section 317(a)) is not within the purview of section 305 because it is not a distribution with respect to its stock. For example, assume that on January 1, 1970, pursuant to a reorganization, corporation X acquires all the stock of corporation Y solely in exchange for its convertible preferred class B stock. Under the terms of the class B stock, its conversion ratio is to be adjusted in 1976 under a formula based upon the earnings of corporation Y over the 6-year period ending on December 31, 1975. Such an adjustment in 1976 is not covered by section 305.

(d) *Definitions.* (1) For purposes of this section and §§ 1.305–2 through 1.305–7, the term "stock" includes rights or warrants to acquire such stock.

(2) For purposes of §§ 1.305–2 through 1.305–7, the term "shareholder" includes a holder of rights or warrants or a holder of convertible securities.

§ 1.305–2 Distributions in lieu of money.

(a) *In general.* Under section 305(b)(1), if any shareholder has the right to an election or option with respect to whether a distribution shall be made either in money or any other property, or in stock or rights to acquire stock of the distributing corporation, then, with respect to all shareholders, the distribution of stock or rights to acquire stock is treated as a distribution of property to which section 301 applies regardless of—

(1) Whether the distribution is actually made in whole or in part in stock or in stock rights;

(2) Whether the election or option is exercised or exercisable before or after the declaration of the distribution;

(3) Whether the declaration of the distribution provides that the distribution will be made in one medium unless the shareholder specifically requests payment in the other;

(4) Whether the election governing the nature of the distribution is provided in the declaration of the distribution or in the corporate charter or arises from the circumstances of the distribution; or

(5) Whether all or part of the shareholders have the election.

(b) *Examples.* The application of section 305(b)(1) may be illustrated by the following examples:

Example (1). (i) Corporation X declared a dividend payable in additional shares of its common stock to the holders of its outstanding common stock on the basis of two additional shares for each share held on the record date but with the provision that, at the election of any shareholder made within a specified period prior to the distribution date, he may receive one additional share for each share held on the record date plus $12 principal amount of securities of corporation Y owned by corporation X. The fair market value of the stock of corporation X on the distribution date was $10 per share. The fair market value of $12 principal amount of securities of corporation Y on the distribution date was $11 but such securities had a cost basis to corporation X of $9.

(ii) The distribution to all shareholders of one additional share of stock of corporation X (with respect to which no election applies) for each share outstanding is not a distribution to which section 301 applies.

(iii) The distribution of the second share of stock of corporation X to those shareholders who do not elect to receive securities of corporation Y is a distribution of property to which section 301 applies, whether such shareholders are individuals or corporations. The amount of the distribution to which section 301 applies is $10 per share of stock of corporation X held on the record date (the fair market value of the stock of corporation X on the distribution date).

(iv) The distribution of securities of corporation Y in lieu of the second share of stock of corporation X to the shareholders of corporation X whether individuals or corporations, who elect to receive such securities, is also a distribution of property to which section 301 applies.

(v) In the case of the individual shareholders of corporation X who elect to receive such securities, the amount of the distribution to which section 301 applies is $11 per share of stock of corporation X held on the record date (the fair market value of the $12 principal amount of securities of corporation Y on the distribution date).

(vi) In the case of the corporate shareholders of corporation X electing to receive such securities, the amount of the distribution to which section 301 applies is $9 per share of stock of corporation X held on the record date (the basis of the securities of corporation Y in the hands of corporation X).

Example (2). On January 10, 1970, corporation X, a regulated investment company, declared a dividend of $1 per share on its common stock payable on February 11, 1970, in cash or in stock of corporation X of equivalent value determined as of January 22, 1970, at the election of the shareholder made on or before January 22, 1970. The amount of the distribution to which section 301 applies is $1 per share whether the shareholder elects to take cash or stock and whether the shareholder is an individual or a corporation. Such amount will also be used in determining the dividend paid deduction of corporation X and the reduction in earnings and profits of corporation X.

§ 1.305–3 Disproportionate distributions.

(a) *In general.* Under section 305(b)(2), a distribution by a corporation of its stock or rights to acquire its stock is treated as a distribution of property to which section 301 applies if the distribution (or a series of distributions of which such distribution is one) has the result of (1) the receipt of money or other property by some shareholders, and (2) an increase in the proportionate interests of other shareholders in the assets or earnings and profits of the corporation. Thus, if a corporation has two classes of common stock outstanding and cash dividends are paid on one class and stock dividends are paid on the other class, the stock dividends are treated as distributions to which section 301 applies.

(b) *Special rules.* (1) As used in section 305(b)(2), the term "a series of distributions" encompasses all distributions of stock made or deemed made by a corporation which have the result of the receipt of cash or property by some shareholders and an increase in the proportionate interests of other shareholders.

(2) In order for a distribution of stock to be considered as one of a series of distributions it is not necessary that such distribution be pursuant to a plan to distribute cash or property to some shareholders and to increase the proportionate interests of other shareholders. It is sufficient if there is an actual or deemed distribution of stock (of which such distribution is one) and as a result of such distribution or distributions some shareholders receive cash or property and other shareholders increase their proportionate interests. For example, if a corporation pays quarterly stock dividends to one class of common shareholders and annual cash dividends to another class of common shareholders the quarterly stock dividends constitute a series of distributions of stock having the result of the receipt of cash or property by some shareholders and an increase in the proportionate interests of other shareholders. This is so whether or not the stock distributions and the cash distributions are steps in an overall plan or are independent and unrelated. Accordingly, all the quarterly stock dividends are distributions to which section 301 applies.

(3) There is no requirement that both elements of section 305(b)(2) (i.e., receipt of cash or property by some shareholders and an increase in proportionate interests of other shareholders) occur in the form of a distribution or series of distributions as long as the result of a distribution or distributions of stock is that some shareholders' proportionate interests increase and other shareholders in fact receive cash or property. Thus, there is no requirement that the shareholders receiving cash or property acquire the cash or property by way of a corporate distribution with respect to their shares, so long as they receive such cash or property in their capacity as shareholders, if there is a stock distribution which results in a change in the proportionate interests of some shareholders and other shareholders receive cash or property. However, in order for a distribution of property to meet the requirement of section 305(b)(2), such distribution must be made to a shareholder in his capacity as a shareholder, and must be a distribution to which section 301, 356 (a)(2), 871(a)(1)(A, 881(a)(1), 852(b), or 857(b) applies. For example if a corporation makes a stock distribution to its shareholders and, pursuant to a prearranged plan with such corporation, a related corporation purchases such stock from those shareholders who want cash, in a transaction to which section 301 applies by virtue of section 304, the requirements of section 305(b)(2) are satisfied. In addition, a distribution of property incident to an isolated redemption of stock (for example, pursuant to a tender offer) will not cause section 305(b)(2) to apply even though the redemption distribution is treated as a distribution of property to which section 301, 871(a)(1)(A), 881(a)(1), or 356(a)(2) applies.

(4) Where the receipt of cash or property occurs more than 36 months following a distribution or series of distributions of stock, or where a distribution or series of distributions of stock is made more than 36 months following the receipt of cash or property, such distribution or distributions will be presumed not to result in the receipt of cash or property by some shareholders and an increase in the proportionate interest of other shareholders, unless the receipt of cash or property and the distribution or series of distributions of stock are made pursuant to a plan. For example, if, pursuant to a plan, a corporation pays cash dividends to some shareholders on January 1, 1971 and increases the proportionate interests of other shareholders on March 1, 1974, such increases in proportionate interests are distributions to which section 301 applies.

(5) In determining whether a distribution or a series of distributions has the result of a disproportionate distribution, there shall be treated as outstanding stock of the distributing corporation (i) any right to acquire such stock (whether or not exercisable during the taxable year), and (ii) any security convertible into stock of the distributing corporation (whether or not convertible during the taxable year).

(6) In cases where there is more than one class of stock outstanding, each class of stock is to be considered separately in determining whether a shareholder has increased his proportionate interest in the assets or earnings and profits of a corporation. The individual shareholders of a class of stock will be deemed to have an increased interest if the class of stock as a whole has an increased interest in the corporation.

(c) *Distributions of cash in lieu of fractional shares.* (1) Section 305(b)(2) will not apply if—

(i) A corporation declares a dividend payable in stock of the corporation and distributes cash in lieu of fractional shares to which shareholders would otherwise be entitled, or

(ii) Upon a conversion of convertible stock or securities a corporation distributes cash in lieu of fractional shares to which shareholders would otherwise be entitled, provided the purpose of the distribution of cash is to save the corporation the trouble, expense, and inconvenience of issuing and transferring fractional shares (or scrip representing fractional shares), or issuing full shares representing the sum of fractional shares, and not to give any particular group of shareholders an increased interest in the assets or earnings and profits of the corporation. For purposes of paragraph (c)(1)(i) of this section, if the total amount of cash distributed in lieu of fractional shares is 5 percent or less of the total fair market value of the stock distributed (determined as of the date of declaration), the distribution shall be considered to be for such valid purpose.

(2) In a case to which subparagraph (1) of this paragraph applies, the transaction will be treated as though the fractional shares were distributed as part of the stock distribution and then were redeemed by the corporation. The treatment of the cash received by a shareholder will be determined under section 302.

(d) *Adjustment in conversion ratio.* (1)(i) Except as provided in subparagraph (2) of this paragraph, if a corporation has convertible stock or convertible securities outstanding (upon which it pays or is deemed to pay dividends or interest in money or other property) and distributes a stock dividend (or rights to acquire such stock) with respect to the stock into which the convertible stock or securities are convertible, an increase in proportionate interest in the assets or earnings and profits of the corporation by reason of such stock dividend shall be considered to have occurred unless a full adjustment in the conversion ratio or conversion price to reflect such stock dividend is made. Under certain circumstances, however, the application of an adjustment formula which in effect provides for a "credit" where stock is issued for consideration in excess of the conversion price may not satisfy the requirement for a "full adjustment." Thus, if under a "conversion price" antidilution formula the formula provides for a "credit" where stock is issued for consideration in excess of the conversion price (in effect as an offset against any decrease in the conversion price which would otherwise be required when stock is subsequently issued for consideration below the conversion price) there may still be an increase in proportionate interest by reason of a stock dividend after application of the formula, since any downward adjustment of the conversion price that would otherwise be required to reflect the stock dividend may be offset, in whole or in part, by the effect of prior sales made at prices above the conversion price. On the other hand, if there were no prior sales of stock above the conversion price then a full adjustment would occur upon the application of such an adjustment formula and there would be no change in proportionate interest. Similarly, if consideration is to be received in connection with the issuance of stock, such as in the case of a rights offering or a distribution of warrants, the fact that such consideration is taken into account in making the antidilution adjustment will not preclude a full adjustment. See paragraph (b) of the example in this subparagraph for a case where the application of an adjustment formula with a cumulative feature does not result in a full adjustment and where a change in proportionate interest therefore occurs. See paragraph (c) for a case where the application of an adjustment formula with a cumulative feature does result in a full adjustment and where no change

V 38 1133 JUL 12 73 XUM

in proportionate interest therefore occurs. See paragraph (*d*) for an application of an antidilution formula in the case of a rights offering. See paragraph (*e*) for a case where the application of a noncumulative type adjustment formula will in all cases prevent a change in proportionate interest from occurring in the case of a stock dividend, because of the omission of the cumulative feature.

(ii) The principles of this subparagraph may be illustrated by the following example.

Example. (*a*) Corporation S has two classes of securities outstanding, convertible debentures and common stock. At the time of issuance of the debentures the corporation had 100 shares of common stock outstanding. Each debenture is interest-paying and is convertible into common stock at a conversion price of $2. The debenture's conversion price is subject to reduction pursuant to the following formula:

(Number of common shares outstanding at date of issue of debentures times initial conversion price)
plus
(Consideration received upon issuance of additional common shares)
divided by
(Number of common shares outstanding at date of issue of debentures)
plus
(Number of additional common shares issued)

Under the formula, common stock dividends are treated as an issue of common stock for zero consideration. If the computation results in a figure which is less than the existing conversion price the conversion price is reduced. However, under the formula, the existing conversion price is never increased. The formula works upon a cumulative basis since the numerator includes the consideration received upon the issuance of all common shares subsequent to the issuance of the debentures, and the reduction effected by the formula because of a sale or issuance of common stock below the existing conversion price is thus limited by any prior sales made above the existing conversion price.

(*b*) In 1972 corporation S sells 100 common shares at $3 per share. In 1973 the corporation declares a stock dividend of 20 shares to all holders of common stock. Under the antidilution formula no adjustment will be made to the conversion price of the debentures to reflect the stock dividend to common stockholders since the prior sale of common stock in excess of the conversion price in 1972 offsets the reduction in the conversion price which would otherwise result, as follows:

$$100\times\$2+\$300\div100+120=\frac{\$500}{220}=\$2.27$$

Since $2.27 is greater than the existing conversion price of $2 no adjustment is required. As a result, there is an increase in proportionate interest of the common stockholders by reason of the stock dividend and the additional shares of common stock will be treated, pursuant to section 305(b)(2), as a distribution of property to which section 301 applies.

(*c*) Assume the same facts as above, but instead of selling 100 common shares at $3 per share in 1972, assume corporation S sold no shares. Application of the antidilution formula would give rise to an adjustment in the conversion price as follows:

$$100\times\$2+\$0\div100+20=\frac{\$200}{120}=\$1.67$$

The conversion price, being reduced from $2 to $1.67, fully reflects the stock dividend distributed to the common stockholders. Hence, the distribution of common stock is not treated under section 305(b)(2) as one to which section 301 applies because the distribution does not increase the proportionate interests of the common shareholders as a class.

(*d*) Corporation S distributes to its shareholders rights entitling the shareholders to purchase a total of 20 shares at $1 per share. Application of the antidilution formula would produce an adjustment in the conversion price as follows:

$$100\times\$2+20\times\$1\div100+20=\frac{\$220}{120}=\$1.83$$

The conversion price, being reduced from $2 to $1.83, fully reflects the distribution of rights to purchase stock at a price lower than the conversion price. Hence, the distribution of the rights is not treated under section 305(b)(2) as one to which section 301 applies because the distribution does not increase the proportionate interests of the common shareholders as a class.

(*e*) Assume the same facts as in (*b*) above, but instead of using a "conversion price" antidilution formula which operates on a cumulative basis, assume corporation S has employed a formula which operates as follows with respect to all stock dividends: The conversion price in effect at the opening of business on the day following the dividend record date is reduced by multiplying such conversion price by a fraction the numerator of which is the number of shares of common stock outstanding at the close of business on the record date and the denominator of which is the sum of such shares so outstanding and the number of shares constituting the stock dividend. Under such a formula the following adjustment would be made to the conversion price upon the declaration of a stock dividend of 20 shares in 1973:

$$200\div200+20=\frac{200}{220}\times\$2=\$1.82$$

The conversion price, being reduced from $2 to $1.82, fully reflects the stock dividend distributed to the common stockholders. Hence, the distribution of common stock is not treated under section 305(b)(2) as one to which section 301 applies because the distribution does not increase the proportionate interests of the common shareholders as a class.

(2) (i) A distributing corporation either must make the adjustment required by subparagraph (1) of this paragraph as of the date of the distribution of the stock dividend, or must elect (in the manner provided in subdivision (iii) of this subparagraph) to make such adjustment within the time provided in subdivision (ii) of this subparagraph.

(ii) If the distributing corporation elects to make such adjustment, such adjustment must be made no later than the earlier of (*a*) 3 years after the date of the stock dividend, or (*b*) that date as of which the aggregate stock dividens for which adjustment of the conversion ratio has not previously been made total at least 3 percent of the issued and outstanding stock with respect to which such stock dividends were distributed.

(iii) The election provided by subdivision (ii) of this subparagraph shall be made by filing with the income tax return for the taxable year during which the stock dividend is distributed—

(*a*) A statement that an adjustment will be made as provided by that subdivision, and

(*b*) A description of the antidilution provisions under which the adjustment will be made.

(3) Notwithstanding the preceding subparagraph, if a distribution has been made before July 12, 1973, and the adjustment required by subparagraph (1) or the election to make such adjustment was not made before such date, the adjustment or the election to make such adjustment, as the case may be, shall be considered valid if made no later than 15 days following the date of the first annual meeting of the shareholders after July 12, 1973, or July 12, 1974, whichever is earlier. If the election is made within such period, and, if the income tax return has been filed before the time of such election, the statement of adjustment and the description of the antidilution provisions required by subparagraph (2)(iii) shall be filed with the Internal Revenue Service Center with which the income tax return was filed.

(4) See § 1.305–7(b) for a discussion of antidilution adjustments in connection with the application of section 305(c) in conjunction with section 305(b).

(e) *Examples.* The application of section 305(b)(2) to distributions of stock and section 305(c) to deemed distributions of stock may be illustrated by the following examples:

Example (*1*). Corporation X is organized with two classes of common stock, class A and class B. Each share of stock is entitled to share equally in the assets and earnings and profits of the corporation. Dividends may be paid in stock or in cash on either class of stock without regard to the medium of payment of dividends on the other class. A dividend is declared on the class A stock payable in additional shares of class A stock and a dividend is declared on class B stock payable in cash. Since the class A shareholders as a class will have increased their proportionate interests in the assets and earnings and profits of the corporation and the class B shareholders will have received cash, the additional shares of class A stock are distributions of property to which section 301 applies. This is true even with respect to those shareholders who may own class A stock and class B stock in the same proportion.

Example (*2*). Corporation Y is organized with two classes of stock, class A common, and class B, which is nonconvertible and limited and preferred as to dividends. A dividend is declared upon the class A stock payable in additional shares of class A stock and a dividend is declared on the class B stock payable in cash. The distribution of class A stock is not one to which section 301 applies because the distribution does not increase the proportionate interests of the class A shareholders as a class.

Example (*3*). Corporation K is organized with two classes of stock, class A common, and class B, which is nonconvertible preferred stock. A dividend is declared upon the class A stock payable in shares of class B stock and a dividend is declared on the class B stock payable in cash. Since the class A shareholders as a class have an increased interest in the assets and earnings and profits of the corporation, the stock distribution is treated as a distribution to which section 301 applies. If, however, a dividend were declared upon the class A stock payable in a new class of preferred stock that is subordinated in all respects to the class B stock, the distribution would not increase the proportionate interests of the class A shareholders in the assets or earnings and profits of the corporation and would not be treated as a distribution to which section 301 applies.

Example (*4*). (i) Corporation W has one class of stock outstanding, class A common. The corporation also has outstanding interest paying securities convertible into class A common stock which have a fixed conversion ratio that is not subject to full adjustment in the event stock dividends or rights are distributed to the class A shareholders. Corporation W distributes to the class A shareholders rights to acquire additional shares of class A stock. During the year, interest is paid on the convertible securities.

(ii) The stock rights and convertible securities are considered to be outstanding stock of the corporation and the distribution increases the proportionate interests of the class A shareholders in the assets and earnings and profits of the corporation. Therefore, the distribution is treated as a distribution to which section 301 applies. The same result would follow if, instead of convertible securities, the corporation had outstanding convertible stock. If, however, the conversion ratio of the securities or stock were fully adjusted to reflect the distribution of rights to the class A shareholders, the rights to acquire class A stock would not increase the proportionate interests of the class A shareholders in the assets and earnings and profits of the corporation and would not be treated as a distribution to which section 301 applies.

Example (*5*). (i) Corporation S is organized with two classes of stock, class A common and class B convertible preferred. The class B is fully protected against dilution in the event of a stock dividend or stock split with respect to the class A stock; however, no adjustment in the conversion ratio is required to be made until the stock dividends equal 3 percent of the common stock issued and outstanding on the date of the first such stock dividend except that such adjustment must be made no later than 3 years after the date of the stock dividend. Cash dividends are paid annually on the class B stock.

(ii) Corporation S pays a 1 percent stock dividend on the class A stock in 1970. In 1971, another 1 percent stock dividend is paid and in 1972 another 1 percent stock dividend is paid. The conversion ratio of the class B stock is increased in 1972 to reflect the three stock dividends paid on the class A stock. The distributions of class A stock are not distributions to which section 301 applies because they do not increase the proportionate interests of the class A shareholders in the assets and earnings and profits of the corporation.

Example (*6*). (i) Corporation M is organized with two classes of stock outstanding, class A and class B. Each class B share may be converted, at the option of the holder, into class A shares. During the first year, the conversion ratio is one share of class A stock for each share of class B stock. At the beginning of each subsequent year, the conversion ratio is increased by 0.05 share of class A stock for each share of class B stock. Thus, during the second year, the conversion ratio would be 1.05 shares of class A stock for each share of class B stock, during the third year, the ratio would be 1.10 shares, etc.

(ii) M pays an annual cash dividend on the class A stock. At the beginning of the second year, when the conversion ratio is increased to 1.05 shares of class A stock for each share of class B stock, a distribution of 0.05 shares of class A stock is deemed made under section 305(c) with respect to each share of class B stock, since the proportionate interests of the class B shareholders in the assets or earnings and profits of M are increased and the transaction has the effect described in section 305(b)(2). Accordingly, sections 305(b)(2) and 301 apply to the transaction.

Example (*7*). (i) Corporation N has two classes of stock outstanding, class A and class B. Each class B share is convertible into class A stock. However, in accordance with a specified formula, the conversion ratio is decreased each time a cash dividend is paid on the class B stock to reflect the amount of the cash dividend. The conversion ratio is also adjusted in the event that cash dividends are paid on the class A stock to increase the number of class A shares into which the class B shares are convertible to compensate the class B shareholders for the cash dividend paid on the class A stock.

(ii) In 1972, a $1 cash dividend per share is declared and paid on the class B stock. On the date of payment, the conversion ratio of the class B stock is decreased. A distribution of stock is deemed made under section 305(c) to the class A shareholders, since the proportionate interest of the class A shareholders in the assets or earnings and profits of the corporation is increased and the transaction has the effect described in section 305(b)(2). Accordingly, sections 305(b)(2) and 301 apply to the transaction.

(iii) In the following year a cash dividend is paid on the class A stock and none is paid on the class B stock. The increase in conversion rights of the class B shares is deemed to be a distribution under section 305(c) to the class B shareholders since their proportionate interest in the assets or earnings and profits of the corporation is increased and since the transaction has the effect described in section 305(b)(2). Accordingly, sections 305(b)(2) and 301 apply to the transaction.

Example (*8*). Corporation T has 1,000 shares of stock outstanding. C owns 100 shares. Nine other shareholders each owns 100 shares. Pursuant to a plan for periodic redemptions, T redeems up to 5 percent of each shareholder's stock each year. During the year, each of the nine other shareholders has 5 shares of his stock redeemed for cash. Thus, C's proportionate interest in the assets and earnings and profits of T is increased. Assuming that the cash received by the nine other shareholders is taxable under section 301, C is deemed under section 305(c) to have received a distribution under section 305(b)(2) of 5.25 shares of T stock to which section 301 applies. The amount of C's distribution is measured by the fair market value of the number of shares which would have been distributed to C had the corporation sought to increase his interest by 0.47 percentage points (C owned 10 percent of the T stock immediately before the redemption and 10.47 percent immediately thereafter) and the other shareholders continued to hold 900 shares (i.e.,

(a) $\frac{100}{955}=10.47\%$ (percent of C's ownership after redemption);

(b) $\frac{100+x}{1000+x}=10.47\%$; $x=5.25$ (additional shares considered to be distributed to C)).

Since in computing the amount of additional shares deemed to be distributed to C the redemption of shares is disregarded, the redemption of shares will be similarly disregarded in determining the value of the stock of the corporation which is deemed to be distributed. Thus, in the example, 1,005.25 shares of stock are considered as outstanding after the redemption. The value of each share deemed to be distributed to C is then determined by dividing the 1,005.25 shares into the aggregate fair market value of the actual shares outstanding (955) after the redemption.

Example (*9*). (i) Corporation O has a stock redemption program under which, instead of paying out earnings and profits to its shareholders in the form of dividends, it redeems the stock of its shareholders up to a stated amount which is determined by the earnings and profits of the corporation. If the stock tendered for redemption exceeds the stated amount, the corporation redeems the stock on a pro rata basis up to the stated amount.

(ii) During the year corporation O offers to distribute $10,000 in redemption of its stock. At the time of the offering, corporation O has 1,000 shares outstanding of which E and F each owns 150 shares and G and H each owns 350 shares. The corporation redeems 15 shares from E and 35 shares from G, F and H continue to hold all of their stock.

(iii) F and H have increased their proportionate interests in the assets and earnings and profits of the corporation. Assuming that the cash E and G receive is taxable under section 301, F will be deemed under section 305(c) to have received a distribution under section 305(b)(2) of 16.66 shares of stock to which section 301 applies and H will be deemed under section 305(c) to have received a distribution under section 305(b)(2) of 38.86 shares of stock to which section 301 applies. The amount of the distribution to F and H is measured by the number of shares which would have been distributed to F and H had the corporation sought to increase the interest of F by 0.79 percentage points (F owned 15 percent of the stock immediately before the redemption and 15.79 percent immediately thereafter) and the interest of H by 1.84 percentage points (H owned 35 percent of the stock immediately before the redemption and 36.84 percent immediately thereafter) and E and G had continued to hold 150 shares and 350 shares, respectively (i.e.,

(a) $\frac{150}{950}+\frac{350}{950}=52.63\%$ (percent of F and H's ownership after redemption);

(b) $\frac{500+y}{1000+y}=52.63\%$; $y=55.52$ (additional shares considered to be distributed to F and H);

(c) (1) $\frac{150}{500}\times55.52=16.66$ (shares considered to be distributed to F);

(2) $\frac{350}{500}\times55.52=38.86$ (shares considered to be distributed to H)).

V 38 I 133 JUL 12 73 XUM

Since in computing the amount of additional shares deemed to be distributed to F and H the redemption of shares is disregarded, the redemption of shares will be similarly disregarded in determining the value of the stock of the corporation which is deemed to be distributed. Thus, in the example, 1,055.52 shares of stock are considered as outstanding after the redemption. The value of each share deemed to be distributed to F and H is then determined by dividing the 1,055.52 shares into the aggregate fair market value of the actual shares outstanding (950) after the redemption.

Example (10). Corporation P has 1,000 shares of stock outstanding. T owns 700 shares of the P stock and G owns 300 shares of the P stock. In a single and isolated redemption to which section 301 applies, the corporation redeems 150 shares of T's stock. Since this is an isolated redemption and is not a part of a periodic redemption plan, G is not treated as having received a deemed distribution under section 305(c) to which sections 305(b)(2) and 301 apply even though he has an increased proportionate interest in the assets and earnings and profits of the corporation.

Example (11). Corporation Q is a large corporation whose sole class of stock is widely held. However, the four largest shareholders are officers of the corporation and each owns 8 percent of the outstanding stock. In 1974, in a distribution to which section 301 applies, the corporation redeems 1.5 percent of the stock from each of the four largest shareholders in preparation for their retirement. From 1970 through 1974, the corporation distributes annual stock dividends to its shareholders. No other distributions were made to these shareholders. Since the 1974 redemptions are isolated and are not part of a plan for periodically redeeming the stock of the corporation, the shareholders receiving stock dividends will not be treated as having received a distribution under section 305(b)(2) even though they have an increased proportionate interest in the assets and earnings and profits of the corporation and whether or not the redemptions are treated as distributions to which section 301 applies.

Example (12). Corporation R has 2,000 shares of class A stock outstanding. Five shareholders own 300 shares each and five shareholders own 100 shares each. In preparation for the retirement of the five major shareholders, corporation R, in a single and isolated transaction, has a recapitalization in which each share of class A stock may be exchanged either for five shares of new class B nonconvertible preferred stock plus 0.4 share of new class C common stock, or for two shares of new class C common stock. As a result of the exchanges, each of the five major shareholders receives 1,500 shares of class B nonconvertible preferred stock and 120 shares of class C common stock. The remaining shareholders each receives 200 shares of class C common stock. None of the exchanges are within the purview of section 305.

Example (13). Corporation P is a widely-held company whose shares are listed for trading on a stock exchange. P distributes annual cash dividends to its shareholders. P purchases shares of its common stock directly from small stockholders (holders of record of 100 shares or less) or through brokers where the holders may not be known at the time of purchase. Where such purchases are made through brokers, they are pursuant to the rules and regulations of the Securities and Exchange Commission. The shares are purchased for the purpose of issuance to employee stock investment plans, to holders of convertible stock or debt, to holders of stock options, or for future acquisitions. Provided the purchases are not pursuant to a plan to increase the proportionate interest of some shareholders and distribute property to other shareholders, the remaining shareholders of P are not treated as having received a deemed distribution under section 305 to which section 305(b)(2) and 301 apply, even though they have an increased proportionate interest in the assets and earnings and profits of the corporation.

Example (14). Corporation U is a large manufacturing company whose products are sold through independent dealers. In order to assist individuals who lack capital to become dealers, the corporation has an established investment plan under which it provides 75 percent of the capital necessary to form a dealership corporation and the individual dealer provides the remaining 25 percent. Corporation U receives class A stock and a note representing its 75 percent interest. The individual dealer receives class B stock representing his 25 percent interest. The class B stock is nonvoting until all the class A shares are redeemed. At least 70 percent of the earnings and profits of the dealership corporation must be used each year to retire the note and to redeem the class A stock. The class A stock is redeemed at a fixed price. The individual dealer has no control over the redemption of stock and has no right to have his stock redeemed during the period the plan is in existence. U's investment is thus systematically eliminated and the individual becomes the sole owner of the dealership corporation. Since this type of plan is akin to a security arrangement, the redemptions of the class A stock will not be deemed under section 305 (c) as distributions taxable under sections 305 (b) (2) and 301 during the years in which the class A stock is redeemed.

Example (15). (i) Corporation V is organized with two classes of stock, class A common and class B convertible preferred. The class B stock is issued for $100 per share and is convertible into class A at a fixed ratio that is not subject to full adjustment in the event stock dividends or rights are distributed to the class A shareholders. The class B stock pays no dividends but it is redeemable in 10 years for $200. There are no facts to indicate that a call premium in excess of 10 percent of the issue price is reasonable. Under sections 305(c) and 305(b)(4), $90 of the redemption price (i.e., the excess of the redemption price over the sum of the issue price and a reasonable call premium) is deemed to be a distribution of preferred stock on preferred stock which is taxable as a distribution of property under section 301. This amount is considered to be distributed ratably over the 10-year period. During the year, the corporation declares a dividend on the class A stock payable in additional shares of class A stock.

(ii) The distribution on the class A stock is a distribution to which sections 305(b)(2) and 301 apply since it increases the proportionate interests of the class A shareholders in the assets and earnings and profits of the corporation and the class B stockholders have received property (i.e., a ratable share of the $90 excessive call premium deemed distributed pursuant to sections 305(c) and 305(b)(4) and taxable as a distribution of property under section 301). If, however, the conversion ratio of the class B stock were subject to full adjustment to reflect the distribution of stock to class A shareholders, the distribution of stock dividends on the class A stock would not increase the proportionate interests of the class A shareholders in the assets and earnings and profits of the corporation and such distribution would not be a distribution to which section 301 applies.

§ 1.305–4 Distributions of common and preferred stock.

(a) *In general.* Under section 305(b)(3), a distribution (or a series of distributions) by a corporation which results in the receipt of preferred stock whether or not convertible into common stock) by some common shareholders and the receipt of common stock by other common shareholders is treated as a distribution of property to which section 301 applies. For the meaning of the term "a series of distribution," see subparagraphs (1) through (6) of § 1.305–3(b).

(b) *Examples.* The application of section 305(b)(3) may be illustrated by the following examples:

Example (1). Corporation X is organized with two classes of common stock, class A and class B. Dividends may be paid in stock or in cash on either class of stock without regard to the medium of payment of dividends on the other class. A dividend is declared on the class A stock payable in additional shares of class A stock and a dividend is declared on class B stock payable in newly authorized class C stock which is nonconvertible and limited and preferred as to dividends. Both the distribution of class A shares and the distribution of new class C shares are distributions to which section 301 applies.

Example (2). Corporation Y is organized with one class of stock, class A common. During the year the corporation declares a dividend on the class A stock payable in newly authorized class B preferred stock which is convertible into class A stock no later than 6 months from the date of distribution at a price that is only slightly higher than the market price of class A stock on the date of distribution. Taking into account the dividend rate, redemption provisions, the marketability of the convertible stock, and the conversion price, it is reasonable to anticipate that within a relatively short period of time some shareholders will exercise their conversion rights and some will not. Since the distribution can reasonably be expected to result in the receipt of preferred stock by some common shareholders and the receipt of common stock by other common shareholders, the distribution is a distribution of property to which section 301 applies.

§ 1.305–5 Distributions on preferred stock.

(a) *In general.* Under section 305(b)(4), a distribution by a corporation of its stock (or rights to acquire its stock) made (or deemed made under section 305(c)) with respect to its preferred stock is treated as a distribution of property to which section 301 applies unless the distribution is made with respect to convertible preferred stock to take into account a stock dividend, stock split, or any similar event (such as the sale of stock at less than the fair market value pursuant to a rights offering) which would otherwise result in the dilution of the conversion right. For purposes of the preceding sentence, an adjustment in the conversion ratio of convertible preferred stock made solely to take into account the distribution by a closed end regulated investment company of a capital gain dividend with respect to the stock into which such stock is convertible shall not be considered a "similar event." The term "preferred stock" generally refers to stock which, in relation to other classes of stock outstanding, enjoys certain limited rights and privileges (generally associated with specified dividend and liquidation priorities) but does not participate in corporate growth to any significant extent. The distinguishing feature of "preferred stock" for the purposes of section 305(b)(4) is not its privileged position as such, but that such privileged position is limited, and that such stock does not participate in corporate growth to any significant extent. However, a right to participate which lacks substance will not prevent a class of stock from being treated as preferred stock. Thus, stock which enjoys a priority as to dividends and on liquidation but which is entitled to participate, over and above such priority, with another less privileged class of stock in earnings and profits and upon liquidation, may nevertheless be treated as preferred stock for purposes of section 305 if, taking into account all the facts and circumstances, it is reasonable to anticipate at the time a distribution is made (or is deemed to have been made) with respect to such stock that there is little or no likelihood of such stock actually participating in current and anticipated earnings and upon liquidation beyond its preferred interest. Among the facts and circumstances to be considered are the prior and anticipated earnings per share, the cash dividends per share, the book value per share, the extent of preference and of participation of each class, both absolutely and relative to each other, and any other facts which indicate whether or not the stock has a real and meaningful probability of actually participating in the earnings and growth of the corporation. The determination of whether stock is preferred for purposes of section 305 shall be made without regard to any right to convert such stock into another class of stock of the corporation. The term "preferred stock", however, does not include convertible debentures.

(b) *Redemption premium.* (1) If a corporation issues preferred stock which may be redeemed after a specified period of time at a price higher than the issue price, the difference will be considered under the authority of section 305(c) to be a distribution of additional stock on preferred stock which is constructively received by the shareholder over the period of time during which the preferred stock cannot be called for redemption.

(2) Subparagraph (1) of this paragraph shall not apply to the extent that the difference between issue price and redemption price is a reasonable redemption premium. A redemption premium will be considered reasonable if it is in the nature of a penalty for a premature redemption of the preferred stock and if such premium does not exceed the amount the corporation would be required to pay for the right to make such premature redemption under market conditions existing at the time of issuance. Such an amount can be established by comparing call premium rates on comparable stock paying comparable dividends. However, for purposes of this subparagraph, a redemption premium not in excess of 10 percent of the issue price on stock which is not redeemable for 5 years from the date of issue shall be considered reasonable.

(c) *Cross reference.* For rules for applying the purposes of section 305(b)(4) and 305(c) to recapitalizations, see § 1.305–7(c).

(d) *Examples.* The application of sections 305(b)(4) and 305(c) may be illustrated by the following examples:

Example (1). (i) Corporation T has outstanding 1,000 shares of $100 par 5-percent cumulative preferred stock and 10,000 shares of no-par common stock. The corporation is 4 years in arrears on dividends to the preferred shareholders. The issue price of the preferred stock is $100 per share. Pursuant to a recapitalization under section 368(a)(1)(E), the preferred shareholders exchange their preferred stock, including the right to dividend arrearages, on the basis of one old preferred share for 1.20 newly authorized class A preferred shares. Immediately following the recapitalization, the new class A shares are traded at $100 per share. The class A shares are entitled to a liquidation preference of $100. The preferred shareholders have increased their proportionate interest in the assets or earnings and profits of corporation T since the fair market value of 1.20 shares of class A preferred stock ($120) exceeds the issue price of the old preferred stock ($100). Accordingly, the preferred shareholders are deemed under section 305(c) to receive a distribution in the amount of $20 on each share of old preferred stock and the distribution is one to which sections 305(b)(4) and 301 apply.

(ii) The same result would occur if the fair market value of the common stock immediately following the recapitalization were $20 per share and each share of preferred stock were exchanged for one share of the new class A preferred stock and one share of common stock.

Example (2). Corporation A, a publicly held company whose stock is traded on a securities exchange (or in the over-the-counter market) has two classes of stock outstanding, common and cumulative preferred. Each share of preferred stock is convertible into .75 shares of common stock. There are no dividend arrearages. At the time of issue of the preferred stock, there was no plan or prearrangement by which it was to be exchanged for common stock. The issue price of the preferred stock is $100 per share. In order to retire the preferred stock, corporation A recapitalizes in a transaction to which section 368(a)(1)(E) applies and each share of preferred stock is exchanged for one share of common stock. Immediately after the recapitalization the common stock has a fair market value of $110 per share. Notwithstanding the fact that the fair market value of the common stock received in the exchange (determined immediately following the recapitalization) exceeds the issue price of the preferred stock surrendered, the recapitalization is not deemed under section 305(c) to result in a distribution to which sections 305(b)(4) and 301 apply since the recapitalization is not pursuant to a plan to periodically increase a shareholder's proportionate interest in the assets or earnings and profits and does not involve dividend arrearages.

Example (3). Corporation V is organized with two classes of stock, 1,000 shares of class A common and 1,000 shares of class B convertible preferred. Each share of class B stock may be converted into two shares of class A stock. Pursuant to a recapitalization under section 368(a)(1)(E), the 1,000 shares of class A stock are surrendered in exchange for 500 shares of new class A common and 500 shares of newly authorized class C common. The conversion right of class B stock is changed to one share of class A stock and one share of class C stock for each share of class B stock. The change in the conversion right is not deemed under section 305(c) to be a distribution on preferred stock to which sections 305(b)(4) and 301 apply.

Example (4). Corporation X issues preferred stock for $100 per share. The stock is redeemable in 5 years or any time thereafter for $110. The redemption price at no time exceeds 10 percent of the issue price. The difference between redemption price and issue price is not deemed under section 305(c) to be a distribution on preferred stock to which sections 305(b)(4) and 301 supply.

Example (5). Corporation W issues preferred stock for $100 per share. The stock pays no dividends but is redeemable at the end of 5 years for $185 with yearly increases thereafter of $15. There are no facts to indicate that a call premium in excess of $10 is reasonable. Since the difference between redemption price and issue price exceeds the reasonable call premium to the extent of $75 that amount is considered to be a distribution of additional stock on preferred stock which is constructively received over the 5-year period. Therefore, the shareholder is deemed under section 305 (c) to receive on the last day of each year during the 5-year period a distribution on his preferred stock in an amount equal to 15 percent of the issue price. Each $15 increase in the redemption price thereafter is considered to be a distribution on the preferred stock at the time each such increase becomes effective.

Example (6). Corporation A, a publicly held company whose stock is traded on a securities exchange (or in the over-the-counter market) has two classes of stock outstanding, common and preferred. The preferred stock is nonvoting and nonconvertible, limited and preferred as to dividends, and has a fixed liquidation preference. There are no dividend arrearages. At the time of issue of the preferred stock, there was no plan or prearrangement by which it was to be exchanged for common stock. In order to retire the preferred stock, corporation A recapitalizes in a transaction to which section 368(a)(1)(E) applies and the preferred stock is exchanged for common stock. The transaction is not deemed to be a distribution under section 305(c) and sections 305(b) and 301 do not apply to the transaction. The same result would follow if the preferred stock was exchanged in any reorganization described in section 3 (a)(1) for a new preferred stock having substantially the same market value and having no greater call premium or liquidation preference than the old preferred stock, whether the new preferred stock has voting rights or is convertible into common stock of corporation A at a fixed ratio subject to change solely to take account of stock dividends, stock splits, or similar transactions with respect to the stock into which the preferred stock is convertible.

Example (7). Corporation R has only common stock outstanding. Corporation R distributes to the common shareholders on a pro rata basis, newly authorized 2-percent preferred stock. Such stock has a par value of $100 per share and is redeemable at the end of 5 years for $105 per share. At the time of the distribution, the fair market value of the preferred stock is $50 per share. There are no facts to indicate that a call premium in excess of $5 is reasonable. Since the difference between redemption price and issue price (i.e., the fair market value of the

V 38-1133 JUL 12 73 XUM

preferred stock immediately following its distribution as a stock dividend) exceeds the reasonable call premium to the extent of $50, that amount is considered to be a distribution of additional stock on preferred stock which is constructively received over the 5-year period. Therefore, each shareholder is deemed under section 305(c) to receive each year during the 5-year period a distribution in the amount of $10 on his preferred stock to which sections 305(b)(4) and 301 apply.

Example (8). Corporation Q is organized with 10,000 shares of class A stock and 1,000 shares of class B stock. The terms of the class B stock require that the class B have a preference of $5 per share with respect to dividends and $100 per share with respect to liquidation. In addition, upon a distribution of $10 per share to the class A stock, class B participates equally in any additional dividends. The terms also provide that upon liquidation the class B stock participates equally after the class A stock receives $100 per share. Corporation Q has no accumulated earnings and profits. In 1971 it earned $10,000, the highest earnings in its history. The corporation is in an industry in which it is reasonable to anticipate a growth in earnings of 5 percent per year. In 1971 the book value of corporation Q's assets totalled $100,000. In that year the corporation paid a dividend of $5 per share to the class B stock and $.50 per share to the class A. In 1972 the corporation had no earnings and in lieu of a $5 dividend distributed one share of class B stock for each outstanding share of class B. No distribution was made to the class A stock. Since, in 1972, it was not reasonable to anticipate that the class B stock would participate in the current and anticipated earnings and growth of the corporation beyond its preferred interest, the class B stock is preferred stock and the distribution of class B shares to the class B shareholders is a distribution to which sections 305(b)(4) and 301 apply.

Example (9). Corporation P is organized with 10,000 shares of class A stock and 1,000 shares of class B stock. The terms of the class B stock require that the class B have a preference of $5 per share with respect to dividends and $100 per share with respect to liquidation. In addition, upon a distribution of $5 per share to the class A stock, class B participates equally in any additional dividends. The terms also provide that upon liquidation the class B stock participates equally after the class A receives $100 per share. Corporation P has accumulated earnings and profits of $100,000. In 1971 it earned $75,000. The corporation is in an industry in which it is reasonable to anticipate a growth in earnings of 10 percent per year. In 1971 the book value of corporation P's assets totalled $5 million. In that year the corporation paid a dividend of $5 per share to the class B stock, $5 per share to the class A stock, and it distributed an additional $1 per share to both class A and class B stock. In 1972 the corporation had earnings of $82,500. In that year it paid a dividend of $5 per share to the class B stock and $5 per share to the class A stock. In addition, the corporation declared stock dividends of one share of class B stock for every 10 outstanding shares of class B and one share of class A stock for every 10 outstanding shares of class A. Since, in 1972, it was reasonable to anticipate that both the class B stock and the class A stock would participate in the current and anticipated earnings and growth of the corporation beyond their preferred interests, neither class is preferred stock and the stock dividends are not distributions to which section 305(b)(4) applies.

§ 1.305–6 Distributions of convertible preferred.

(a) *In general.* (1) Under section 305(b)(5), a distribution by a corporation of its convertible preferred stock or rights to acquire such stock made or considered as made with respect to its stock is treated as a distribution of property to which section 301 applies unless the corporation establishes that such distribution will not result in a disproportionate distribution as described in § 1.305–3.

(2) The distribution of convertible preferred stock is likely to result in a disproportionate distribution when both of the following conditions exist: (i) The conversion right must be exercised within a relatively short period of time after the date of distribution of the stock; and (ii) taking into account such factors as the dividend rate, the redemption provisions, the marketability of the convertible stock, and the conversion price, it may be anticipated that some shareholders will exercise their conversion rights and some will not. On the other hand, where the conversion right may be exercised over a period of many years and the dividend rate is consistent with market conditions at the time of distribution of the stock, there is no basis for predicting at what time and the extent to which the stock will be converted and it is unlikely that a disproportionate distribution will result.

(b) *Examples.* The application of section 305(b)(5) may be illustrated by the following examples:

Example (1). Corporation Z is organized with one class of stock, class A common. During the year the corporation declares a dividend on the class A stock payable in newly authorized class B preferred stock which is convertible into class A stock for a period of 20 years from the date of issuance. Assuming dividend rates are normal in light of existing conditions so that there is no basis for predicting the extent to which the stock will be converted, the circumstances will ordinarily be sufficient to establish that a disproportionate distribution will not result since it is impossible to predict the extent to which the class B stock will be converted into class A stock. Accordingly, the distribution of class B stock is not one to which section 301 applies.

Example (2). Corporation X is organized with one class of stock, class A common. During the year the corporation declares a dividend on the class A stock payable in newly authorized redeemable class C preferred stock which is convertible into class A common stock no later than 4 months from the date of distribution at a price slightly higher than the market price of class A stock on the date of distribution. By prearrangement with corporation X, corporation Y, an insurance company, agrees to purchase class C stock from any shareholder who does not wish to convert. By reason of this prearrangement, it is anticipated that the shareholders will either sell the class C stock to the insurance company (which expects to retain the shares for investment purposes) or will convert. As a result, some of the shareholders exercise their conversion privilege and receive additional shares of class A stock, while other shareholders sell their class C stock to corporation Y and receive cash. The distribution is a distribution to which section 301 applies since it results in the receipt of property by some shareholders and an increase in the proportionate interests of other shareholders.

§ 1.305–7 Certain transactions treated as distributions.

(a) *In general.* Under section 305(c), a change in conversion ratio, a difference between redemption price and issue price, a redemption which is treated as a distribution to which section 301 applies, or any transaction (including a recapitalization) having a similar effect on the interest of any shareholder may be treated as a distribution with respect to any shareholder whose proportionate interest in the earnings and profits or assets of the corporation is increased by such change, difference, redemption, or similar transaction. In general, such change, difference, redemption, or similar transaction will be treated as a distribution to which sections 305(b) and 301 apply where—

(1) The proportionate interest of any shareholder in the earnings and profits or assets of the corporation deemed to have made such distribution is increased by such change, difference, redemption, or similar transaction; and

(2) Such distribution has the result described in paragraphs (2), (3), (4), or (5) of section 305(b).

Where such change, difference, redemption, or similar transaction is treated as a distribution under the provisions of this section, such distribution will be deemed made with respect to any shareholder whose interest in the earnings and profits or assets of the distributing corporation is increased thereby. Such distribution will be deemed to be a distribution of the stock of such corporation made by the corporation to such shareholder with respect to his stock. Depending upon the facts presented, the distribution may be deemed to be made in common or preferred stock. For example, where a redemption price in excess of a reasonable call premium exists with respect to a class of preferred stock and the other requirements of this section are also met, the distribution will be deemed made with respect to such preferred stock, in stock of the same class. Accordingly, the preferred shareholders are considered under sections 305(b)(4) and 305(c) to have received a distribution of preferred stock to which section 301 applies. See the examples in §§1.305–3(e) and 1.305–5(d) for further illustrations of the application of section 305(c).

(b) *Antidilution provisions.* (1) For purposes of applying section 305(c) in conjunction with section 305(b), a change in the conversion ratio or conversion price of convertible preferred stock (or securities), or in the exercise price of rights or warrants, made pursuant to a bona fide, reasonable, adjustment formula (including, but not limited to, either the so-called "market price" or "conversion price" type of formulas) which has the effect of preventing dilution of the interest of the holders of such stock (or securities) will not be considered to result in a deemed distribution of stock. An adjustment in the conversion ratio or price to compensate for cash or property distributions to other shareholders that are taxable under section 301, 356(a)(2), 871(a)(1)(A), 881(a)(1), 852(b), or 857(b) will not be considered as made pursuant to a bona fide adjustment formula.

(2) The principles of this paragraph may be illustrated by the following example:

Example. (i) Corporation U has two classes of stock outstanding, class A and class B. Each class B share is convertible into class A stock. In accordance with a bona fide, reasonable, antidilution provision, the conversion price is adjusted if the corporation transfers class A stock to anyone for a consideration that is below the conversion price.

(ii) The corporation sells class A stock to the public at the current market price but below the conversion price. Pursuant to the antidilution provision, the conversion price is adjusted downward. Such a change in conversion price will not be deemed to be a distribution under section 305(c) for the purposes of section 305(b).

(c) *Recapitalizations.* (1) A recapitalization (whether or not an isolated transaction) will be deemed to result in a distribution to which section 305(c) and this section apply if—

(i) It is pursuant to a plan to periodically increase a shareholder's proportionate interest in the assets or earnings and profits of the corporation, or

(ii) A shareholder owning preferred stock with dividends in arrears exchanges his stock for other stock and, as a result, increases his proportionate interest in the assets or earnings and profits of the corporation. An increase in a preferred shareholder's proportionate interest occurs in any case where the fair market value or the liquidation preference, whichever is greater, of the stock received in the exchange (determined immediately following the recapitalization), exceeds the issue price of the preferred stock surrendered.

(2) In a case to which subparagraph (1)(ii) of this paragraph applies, the amount of the distribution deemed under section 305(c) to result from the recapitalization is the lesser of (i) the amount by which the fair market value or the liquidation preference, whichever is greater, of the stock received in the exchange (determined immediately following the recapitalization) exceeds the issue price of the preferred stock surrendered, or (ii) the amount of the dividends in arrears.

(3) For purposes of applying subparagraphs (1) and (2) of this paragraph with respect to stock issued before July 12, 1973, the term "issue price of the preferred stock surrendered" shall mean the greater of the issue price or the liquidation preference (not including dividends in arrears) of the stock surrendered.

(4) For an illustration of the application of this paragraph, see example (12) of § 1.305–3(e) and examples (1), (2), (3), and (6) of § 1.305–5(d).

(5) For rules relating to redemption premiums on preferred stock, see § 1.305–5(b).

§ 1.305–8 Effective dates.

(a) *In general.* Section 421(b) of the Tax Reform Act of 1969 (83 Stat. 615) provides as follows:

(b) *Effective dates.* (1) Except as otherwise provided in this subsection, the amendment made by subsection (a) shall apply with respect to distributions (or deemed distributions) made after January 10, 1969, in taxable years ending after such date.

(2) (A) Section 305(b)(2) of the Internal Revenue Code of 1954 (as added by subsection (a)) shall not apply to a distribution (or deemed distribution) of stock made before January 1, 1991, with respect to stock (i) outstanding on January 10, 1969, (ii) issued pursuant to a contract binding on January 10, 1969, on the distributing corporation, (iii) which is additional stock of that class of stock which (as of January 10, 1969) had the largest fair market value of all classes of stock of the corporation (taking into account only stock outstanding on January 10, 1969, or issued pursuant to a contract binding on January 10, 1969), (iv) described in subparagraph (C)(iii), or (v) issued in a prior distribution described in clause (i), (ii), (iii), or (iv).

(B) Subparagraph (A) shall apply only if—

(i) The stock as to which there is a receipt of property was outstanding on January 10, 1969 (or was issued pursuant to a contract binding on January 10, 1969, on the distributing corporation), and

(ii) If such stock and any stock described in subparagraph (A)(i) were also outstanding on January 10, 1968, a distribution of property was made on or before January 10, 1969, with respect to such stock, and a distribution of stock was made on or before January 10, 1969, with respect to such stock described in subparagraph (A)(i).

(C) Subparagraph (A) shall cease to apply when at any time after October 9, 1969, the distributing corporation issues any of its stock (other than in a distribution of stock with respect to stock of the same class) which is not—

(i) Nonconvertible preferred stock,

(ii) Additional stock of that class of stock which meets the requirements of subparagraph (A)(iii), or

(iii) Preferred stock which is convertible into stock which meets the requirements of subparagraph (A)(iii) at a fixed conversion ratio which takes account of all stock dividends and stock splits with respect to the stock into which such convertible stock is convertible.

(D) For purposes of this paragraph, the term "stock" includes rights to acquire such stock.

(3) In cases to which Treasury Decision 6990 (promulgated January 10, 1969) would not have applied, in applying paragraphs (1) and (2) April 22, 1969, shall be substituted for January 10, 1969.

(4) Section 305(b)(4) of the Internal Revenue Code of 1954 (as added by subsection (a)) shall not apply to any distribution (or deemed distribution) with respect to preferred stock (including any increase in the conversation ratio of convertible stock) made before January 1, 1991, pursuant to the terms relating to the issuance of such stock which were in effect on January 10, 1969.

(5) With respect to distributions made or considered as made after January 10, 1969, in taxable years ending after such date, to the extent that the amendment made by subsection (a) does not apply by reason of paragraph (2), (3), or (4) of this subsection, section 305 of the Internal Revenue Code of 1954 (as in effect before the amendment made by subsection (a)) shall continue to apply.

(b) *Rules of application.* (1) The rules contained in section 421(b)(2) of the Tax Reform Act of 1969 (83 Stat. 615), hereinafter called "the Act", shall apply with respect to the application of section 305(b)(2), section 305(b)(3), and section 305(b)(5). Thus, for example, section 305(b)(5) of the Code will not apply to a distribution of convertible preferred stock made before January 1, 1991, with respect to stock outstanding on January 10, 1969 (or which was issued pursuant to a contract binding on the distributing corporation on January 10, 1969), provided the distribution is pursuant to the terms relating to the issuance of such stock which were in effect on January 10, 1969.

(2) (i) For purposes of section 421(b)(2)(A), (B)(i), and (C) of the Act, stock is considered as outstanding on January 10, 1969, if it could be acquired on such date or some future date by the exercise of a right or conversion privilege in existence on such date (including a right or conversion privilege with respect to stock issued pursuant to a contract binding, on January 10, 1969, on the distributing corporation). Thus, if on January 10, 1969, corporation X has outstanding 1,000 shares of class A common stock and 3,000 shares of class B common stock which are convertible on a one-to-one basis into class A stock, corporation X is considered for purposes of section 421(b)(2)(A), (B)(i), and (C) of the Act to have outstanding on January 10, 1969, 4,000 shares of class A stock (1,000 shares actually outstanding and 3,000 shares that could be acquired by the exercise of the conversion privilege contained in the class B stock) and 3,000 shares of class B stock.

(ii) For the purposes of section 421(b)(2)(A) (other than for the purpose of determining under section 421(b)(2)(A)(iii) that class of stock which as of January 10, 1969, had the largest fair market value of all classes of stock of the corporation), (B)(i), and (C) of the Act, stock will be considered as outstanding on January 10, 1969, if it is issued pursuant to a conversion privilege contained in stock issued, mediately or immediately, as a stock dividend with respect to stock outstanding on January 10, 1969.

(3) If, after applying subparagraph (2) of this paragraph, the class of stock which as of January 10, 1969, had the largest fair market value of all classes of stock of the corporation is a class of stock which is convertible into another class of nonconvertible stock, then for purposes of section 421(b)(2)(C)(ii) of the Act stock issued upon conversion of any such convertible stock (whether or

V 38 I 133 JUL 12 73 XUM

not outstanding on January 10, 1969) into stock of such other class shall be deemed to be stock which meets the requirements of section 421(b)(2)(A)(iii) of the Act.

(4) For purposes of section 421(b) of the Act, stock of a corporation held in its treasury will not be considered as outstanding and a distribution of such stock will be considered to be an issuance of such stock on the date of distribution. Stock of a parent corporation held by its subsidiary is not considered treasury stock.

(5) The following stock shall not be taken into account for purposes of applying section 421(b)(2)(B)(i) of the Act: (i) Stock issued after January 10, 1969, and before October 10, 1969 (other than stock which was issued pursuant to a contract binding on January 10, 1969, on the distributing corporation); (ii) stock described in section 421(b)(2)(C)(i), (ii), or (iii) of the Act; and (iii) stock issued, mediately or immediately, as a stock dividend with respect to stock of the same class outstanding on January 10, 1969. For example, if on June 1, 1970, corporation Y issues additional stock of that class of stock which as of January 10, 1969, had the largest fair market value of all classes of stock of the corporation, such additional stock will not be taken into account for the purpose of meeting the requirement under section 421(b)(2)(B)(i) of the Act that the stock as to which there is a receipt of property must have been outstanding on January 10, 1969, and thus subparagraph (A) of section 421(b)(2) of the Act will not, where otherwise applicable, cease to apply.

(6) Section 421(b)(2)(A) of the Act, if otherwise applicable, will not cease to apply if the distributing corporation issues after October 9, 1969, securities which are convertible into stock that meets the requirements of section 421(b)(2)(A)(iii) of the Act at a fixed conversion ratio which takes account of all stock dividends and stock splits with respect to the stock into which the securities are convertible.

(7) Under section 421(b)(4) of the Act, section 305(b)(4) does not apply to any distribution (or deemed distribution) by a corporation with respect to preferred stock made before January 1, 1991, if such distribution is pursuant to the terms relating to the issuance of such stock which were in effect on January 10, 1969. For example, if as of January 10, 1969, a corporation had followed the practice of paying stock dividends on preferred stock (or of periodically increasing the conversion ratio of convertible preferred stock) or if the preferred stock provided for a redemption price in excess of the issue price, then section 305(b)(4) would not apply to any distribution of stock made (or which would be considered made if section 305(b)(4) applied) before January 1, 1991, pursuant to such practice.

(8) If section 421(b)(2) is not applicable and, for that reason, a distribution (or deemed distribution) is treated as a distribution to which section 301 applies by virtue of the application of section 305(b)(2), (b)(3), or (b)(5), it is irrelevant that, by reason of the application of section 421(b)(4) of such Act, section 305(b)(4) is not applicable to the distribution.

§ 1.306–3 [Amended]

PAR. 2. Paragraph (c) of § 1.306–3 is amended by striking out all but the first sentence.

PAR. 3. Section 1.368–2 is amended by revising paragraph (e)(5) to read as follows:

§ 1.368–2 Definition of terms.

* * * * *

(e) * * *

(5) An exchange is made of an amount of a corporation's outstanding preferred stock with dividends in arrears for other stock of the corporation. However, if pursuant to such an exchange there is an increase in the proportionate interest of the preferred shareholders in the assets or earnings and profits of the corporation, then under § 1.305–7(c)(2), an amount equal to the lesser of (i) the amount by which the fair market value or liquidation preference, whichever is greater, of the stock received in the exchange (determined immediately following the recapitalization) exceeds the issue price of the preferred stock surrendered, or (ii) the amount of the dividends in arrears, shall be treated under section 305(c) as a deemed distribution to which sections 305(b)(4) and 301 apply.

* * * * *

PAR 4. Section 1.1036–1 is amended by revising the last sentence of paragraph (a) to read as follows:

§ 1.1036–1 Stock for stock of the same corporation.

(a) * * * See paragraph (e)(5) of § 1.368–2 for certain transactions which result in deemed distributions under section 305(c) to which sections 305(b)(4) and 301 apply.

* * * * *

(Sec. 305(c) (83 Stat. 614; 26 U.S.C. 305(c)) and section 7805 (68A Stat. 917; 26 U.S.C. 7805), Internal Revenue Code of 1954)

DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Approved: July 5, 1973.

FREDERIC W. HICKMAN,
Assistant Secretary of the Treasury.

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 72—TEXAS (SPLENETIC) FEVER IN CATTLE

Areas Quarantined

This amendment quarantines a portion of Webb County and additional portions of Nueces and Duval Counties in Texas because of the existence of splenetic or tick fever. This action is deemed necessary to prevent further spread of the disease. The restrictions pertaining to the interstate movement of cattle and certain materials from or through quarantined areas as contained in 9 CFR Part 72, as amended, will apply to the quarantined areas.

Pursuant to the provisions of sections 1–4 of the Act of March 3, 1905, as amended, sections 1 and 2 of the Act of February 2, 1903, as amended, sections 4–7 of the Act of May 29, 1884, as amended, and sections 3 and 11 of the Act of July 2, 1962 (21 U.S.C. 111–113, 115, 117, 120, 123–126, 134b, 134f), § 72.5 of Part 72, Title 9, Code of Federal Regulations which quarantines certain portions of Texas because of splenetic or tick fever in cattle, a contagious, infectious, and communicable disease, is hereby amended in the following respects:

In § 72.5, paragraph (i) is amended and a new paragraph (j) is added to read:

§ 72.5 Areas quarantined in Texas.

* * * * *

(i) That portion of Duval, Webb, Kleberg, McMullen, Nueces, Live Oak, and Jim Wells Counties bounded by a line

V 38 I 133 JUL 12 73 XUM

beginning at the junction of U.S. Highway 59 and State Highway 16 at Freer in Duval County; thence, following U.S. Highway 59 in a northeasterly direction to Farm Road 624 in McMullen County; thence, following Farm Road 624 in an easterly, then southeasterly direction to the Jim Wells-Nueces County line; thence, following the Jim Wells-Nueces County line in a southwesterly direction to an unnamed caliche county road which connects Farm Road 70 with the Jim Wells-Nueces County line; thence, following the unnamed caliche county road in an easterly direction to Farm Road 70 in Nueces County; thence, following Farm Road 70 in a southerly, then easterly direction to Farm to Market Road 1355; thence, following Farm to Market Road 1355 in a southerly direction to the northern city limits of the city of Kingsville in Kleberg County; thence, following the Kingsville City limits in a westerly, then southerly direction to State Highway 141; thence, following State Highway 141 in a northwesterly direction to U.S. Highway 281 in Jim Wells County; thence, following U.S. Highway 281 in a southwesterly direction to the Jim Wells-Brooks County line; thence, following the Jim Wells-Brooks County line in a westerly direction to the junction of the Brooks-Jim Wells-Duval County lines; thence, following the Brooks-Duval County line in a westerly direction to State Highway 339; thence, following State Highway 339 in a northwesterly direction to Farm to Market Road 2295, at Benavides in Duval County; thence, following Farm to Market Road 2295 in a westerly direction to State Highway 16; thence, following State Highway 16 in a northern direction for approximately 4 miles to the southeast corner of the Peters Ranch on the west side of State Highway 16; thence, following the south fence line of the Peters Ranch in a westerly direction for approximately 2 miles to the southeast corner of the Hamilton Ranch; thence, following the south fence line of the Hamilton Ranch in a westerly direction for approximately 2¾ miles to the southeast corner of the Viggo Gruy Perez Pasture; thence, following the southwest boundary of the Viggo Gruy Perez Pasture in a westerly, then northerly, then westerly, then northerly direction to the south fence boundary of the south pasture of the Peal Ranch; thence, following the south fence line of the south pasture of the Peal Ranch in a westerly direction to the Webb-Duval County line; thence, following the Webb-Duval County line in a northerly direction to the southeast corner of the north pasture of the Peal Ranch in Webb County; thence, following the fence line of the north pasture of the Peal Ranch in a westerly, then northerly, then easterly direction to the Webb-Duval County line; thence, following the Webb-Duval County line in a northern direction to to the north fence line of the north pasture of the Peal Ranch in Duval County; thence, following the north fence line of the north pasture of the Peal Ranch in an easterly direction for approximately 1¾ miles to the western boundary of the Duval Ranch; thence, following the western boundary of the Duval Ranch in a generally northeasterly direction for approximately 1¾ miles to the northeast corner of the north fence line of the Duval Ranch; thence, following the north fence line of the Duval Ranch in a southeasterly direction to the Jarita Pasture of the O. C. Deviller Ranch; thence, following the western, then northern, then eastern fence line of the Jarita Pasture of the O. C. Deviller Ranch in a generally southeasterly direction for approximately 4 miles to the northeast corner of the Dougherty Ranch; thence, following the northeast boundary of the Dougherty Ranch (north of the Burro and Pital Pastures) in a southerly direction for approximately 1¾ miles to State Highway 16; thence, following State Highway 16 in a northerly direction to its junction with U.S. Highway 59 at Freer in Duval County.

(j) That portion of *Neuces County* bounded by a line beginning at the junction of the San Fernando Creek and the southeast boundary fence of the Oliver Till Farm; thence, following the San Fernando Creek in a northwesterly direction to the southwest boundary of the Oliver Till Farm; thence, following the western boundary of the Oliver Till Farm in a northeasterly, then southeasterly direction to the northwest corner of the Gibson Farm; thence, following the northern boundary of the Gibson Farm in a southeasterly, then southwesterly direction to the northeastern boundary of the A & I Pasture; thence, following the eastern boundary of the A & I Pasture in a southwesterly direction to its junction with the southeastern boundary of the Oliver Till Farm; thence, following the south eastern boundary of the Oliver Till Farm in a southerly direction to its junction with the San Fernando Creek.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 115, 117, 120, 123–126, 134b, 134f; 37 FR 28464, 28477)

Effective date. The foregoing amendment shall become effective July 12, 1973.

The amendment imposes certain further restrictions necessary to prevent the interstate spread of Texas (splenetic) fever in cattle, and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 6th day of July, 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73–14207 Filed 7–11–73;8:45 am]

[Docket No. 73–521]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Areas Quarantined

This amendment quarantines portions of Hamilton and Tipton Counties in Indiana because of the existence of hog cholera. This action is deemed necessary to prevent further spread of the disease. The restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will apply to the quarantined areas.

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

In § 76.2, a new paragraph (e) (1) relating to the State of Indiana is added to read:

§ 76.2 Notice relating to existence of the contagious or vectors of hog cholera and other swine diseases; prohibition of movement of any hog cholera virus, exceptions; spread of disease through raw garbage; regulations; quarantines; eradication states; free states.

* * * * *

(e) * * *

(1) *Indiana.* The adjacent portions of Hamilton and Tipton Counties, bounded by a line beginning at the junction of State Highway 19 and the Jackson-Noblesville Township line in Hamilton County; thence, following the Jackson-Noblesville Township line in a westerly direction to the junction of the Jackson-Noblesville-Washington-Adams Township lines; thence, following the Adams-Washington Township line in a westerly direction to State Highway 38; thence, following State Highway 38 in a northwesterly direction to Jerkwater Road; thence, following Jerkwater Road in a northerly direction to Secondary Road 1100 W in Tipton County; thence, following Secondary Road 1100 W in a northerly direction to Secondary Road 400 S; thence, following Secondary Road 400 S in an easterly direction to Secondary Road 700 W; thence, following Secondary Road 700 W in a southerly direction to Secondary Road 450 S; thence, following Secondary Road 450 S in an easterly direction to Secondary Road 500 W; thence, following Secondary Road 500 W in a northerly direction to Secondary Road 400 S; thence, following Secondary Road 400 S in an easterly direction to State Highway 19; thence, following State Highway 19 in a southeasterly, then southerly direction to its junction with the Jackson-Noblesville Township line in Hamilton County.

* * * * *

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; sec. 1, 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f; 37 FR 28464, 28477.)

Effective date. The foregoing amendment shall become effective July 6, 1973.

The amendment imposes certain further restrictions necessary to prevent the interstate spread of hog cholera, and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 6th day of July, 1973.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

Title 12—Banks and Banking

CHAPTER III—FEDERAL DEPOSIT INSURANCE CORPORATION

SUBCHAPTER B—REGULATIONS AND STATEMENTS OF GENERAL POLICY

PART 329—INTEREST ON DEPOSITS

Penalty on Payment of Time Deposits Before Maturity

1. Section 329.4 of the rules and regulations of the Federal Deposit Insurance Corporation (12 CFR 329.4) provides that no time deposit may be paid before maturity except as authorized by paragraph (d) of that section. Paragraph (d) permits the payment of all or part of a time deposit prior to maturity only where the depositor signs a statement that he is in need of the funds in his deposit account and forfeits accrued and unpaid interest for a period of not less than three months on the amount withdrawn.

The Board of Directors of the Federal Deposit Insurance Corporation has decided to revise paragraph (d) so as to eliminate the requirement for a statement of need. Under the revision, an insured State nonmember bank may pay any time deposit prior to maturity so long as the rate of interest on the amount withdrawn does not exceed the maximum rate which the bank may pay on savings deposits on the date of withdrawal. In addition, the depositor must forfeit all interest on the amount withdrawn (calculated at the savings deposit rate) for a period of three months, or for the length of time the funds have been on deposit if less than three months.

The provisions regarding loans upon the security of time deposits which formerly appeared in paragraph (d) are now separately stated in a new paragraph (e).

2. Section 329.4 is amended by revising paragraph (d) and adding a new paragraph (e). As amended, § 329.4 reads as follows:

§ 329.4 Payment of time deposits before maturity.

* * * * *

(d) *Penalty on payment of time deposits before maturity.* In the event of withdrawal of all or any portion of a time deposit before the maturity thereof, the depositor may not receive interest from the date of deposit on the amount withdrawn at a rate in excess of the maximum rate which may be paid on savings deposits by the depository bank on the date of withdrawal under § 329.6(c) or § 329.7(b)(1), and the depositor shall forfeit all interest, calculated at such savings deposit rate, whether accrued and unpaid, or paid to or for the depositor's account, on the amount withdrawn for a period of three months or for the period since the date of the deposit, whichever is less. Where necessary to comply with this requirement, interest already paid to or for the account of the depositor shall be deducted from the amount requested by the depositor to be withdrawn.[11b]

(e) *Loans upon security of time deposits.* An insured nonmember bank may make a loan to the depositor upon the security of his time deposit. The rate of interest on such loan, however, shall be not less than 2 percent per annum in excess of the rate of interest on the time deposit.

(Sec. 9, 18(g), 64 Stat. 881–82, Pub. L. No. 93–63, sec. 1 (July 6, 1973); 12 U.S.C. 1819, 1828(g),)

3. The requirements of sections 553 (b) and (d) of Title 5, United States Code, and §§ 302.1, 302.2, and 302.5 of the rules and regulations of the Federal Deposit Insurance Corporation, with respect to notice, public participation, and deferred effective date were not followed in connection with this amendment because the Board found that the public interest compelled it to make the action immediately effective.

4. *Effective date.* The effective date of this amendment is July 1, 1973.

By order of the Board of Directors, July 5, 1973.

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] ALAN R. MILLER,
Executive Secretary.

[FR Doc.73–14150 Filed 7–11–73;8:45 am]

PART 329—INTEREST ON DEPOSITS

Maximum Rates of Interest

1. Sections 329.6 and 329.7 of the rules and regulations of the Federal Deposit Insurance Corporation (12 CFR 329.6 and 329.7) establish maximum interest rates that insured State nonmember banks (including FDIC-insured mutual savings banks) may pay on time and savings deposits.

The Board of Directors of the Federal Deposit Insurance Corporation has decided to amend §§ 329.6 and 329.7 by establishing new interest rate structures for consumer-type deposits in insured nonmember commercial and mutual savings banks. The amendments, effective July 1, 1973, (1) authorize insured nonmember banks to increase the maximum rate of interest they may pay on passbook savings deposits; (2) authorize insured nonmember banks to increase the maximum interest rates payable on most categories of time deposits; and (3) establish a new category of time deposits on which there is no interest rate ceiling. Deposits in this latter category must mature in not less than four years and must be in amounts of $1,000 or more.

2. Section 329.6 is amended to read as follows:

§ 329.6 Maximum rates of interest payable on time and savings deposits by insured nonmember banks other than insured nonmember mutual savings banks.[12]

(a) *Single maturity time deposits*—(1) *Deposits of $100,000 or more.* There is no maximum rate of interest presently prescribed on any single maturity time deposit of $100,000 or more.

(2) *Deposits of less than $100,000.* Except as provided in paragraph (a)(3) of this section, no insured nonmember bank shall pay interest on any single

[11b] This amendment applies to all time deposit contracts entered into after July 5, 1973 and to all existing time deposit contracts which are renewed or extended after such date: *Provided, however,* That any time deposit contract which is automatically renewed after July 5, 1973, without any change in the interest rate payable thereon or the maturity thereof, shall be subject instead to the restrictions in effect prior to this amendment which allowed withdrawal only in the event of need and required the forfeiture of not less than three months' accrued and unpaid interest. This amendment also applies to all existing time deposits upon which interest is paid on or after July 1, 1973 at a rate in excess of the maximum rate payable on such deposits as of June 30, 1973.

[12] The maximum rates of interest payable by insured nonmember banks on time and savings deposits as prescribed herein are not applicable to any deposit which is payable only at an office of an insured nonmember bank located outside of the States of the United States and the District of Columbia.

V 38 133 JUL 12 73 XUM

maturity time deposit of less than $100,000 at a rate in excess of the applicable rate under the following schedule:

Maturity	Maximum percent per annum
30 days or more but less than 90 days	5
90 days or more but less than 1 year	5½
1 year or more but less than 30 months	6
30 months or more	6½

(3) *Deposits of $1,000 or more with maturities of 4 years or more.* There is no maximum rate of interest presently prescribed on any single maturity time deposit of $1,000 or more with a maturity of 4 years or more.

(b) *Multiple maturity time deposits.* No insured nonmember bank shall pay interest on a multiple maturity time deposit at a rate in excess of the applicable rate under the following schedule:

Maturity intervals	Maximum percent per annum
30 days or more but less than 90 days	5
90 days or more but less than 1 year	5½
1 year or more but less than 30 months	6
30 months or more	6½

(c) *Savings deposits.* No insured nonmember bank shall pay interest at a rate in excess of 5 percent on any savings deposit.

3. Section 329.7 is amended to read as follows:

§ 329.7 Maximum rate of interest or dividends payable on deposits by insured nonmember mutual savings banks.[1]

(a) *Definition.* For the purposes of this section, the term "mutual savings bank" includes any mutual savings bank and any guaranty savings bank which operates in the State of New Hampshire substantially under and pursuant to the laws of that State pertaining to mutual savings banks so long as such guaranty savings bank does not engage in commercial banking.

(b) *Maximum rates payable—(1) General.* Except as provided in paragraphs (b) (2), (3), (4), and (5) of this section and paragraph (e) of this section, no insured nonmember mutual savings bank shall pay interest or dividends at a rate in excess of 5¼ percent per annum on any deposit. Section 329.3(b) relating to modification of deposit contracts to conform to regulations shall apply to insured nonmember mutual savings banks.

(2) *Single maturity time deposits of $100,000 or more.* There is no maximum rate of interest or dividends presently prescribed on any single maturity time deposit of $100,000 or more.

(3) *Single maturity time deposits of less than $100,000.* Except as provided in paragraph (b) (4) of this section, no insured nonmember mutual savings bank shall pay interest or dividends on any single maturity time deposit of less than $100,000 at a rate in excess of the applicable rate under the following schedule:

Maturity	Maximum percent per annum
90 days or more but less than 1 year	5¾
1 year or more but less than 30 months	6½
30 months or more	6¾

(4) *Single maturity time deposits of $1,000 or more with maturities of 4 years or more.* There is no maximum rate of interest presently prescribed on any single maturity time deposit of $1,000 or more with a maturity of 4 years or more.

(5) *Multiple maturity time deposits.* No insured nonmember mutual savings bank shall pay interest on a multiple maturity time deposit at a rate in excess of the applicable rate under the following schedule:

Maturity intervals	Maximum percent per annum
90 days or more but less than 1 year	5¾
1 year or more but less than 30 months	6½
30 months or more	6¾

(c) *Compounding interest.* In determining the maximum amount of interest or dividends permitted to be paid, the effects of compounding may be disregarded.

(d) *Grace periods in computing interest.* An insured nonmember mutual savings bank may pay interest or dividends on a deposit received during the first 10 calendar days of any calendar month at the applicable maximum rate prescribed in paragraph (b) of this section calculated from the first day of such calendar month until such deposit is withdrawn or otherwise ceases to constitute a deposit upon which interest or dividends are payable; and an insured nonmember mutual savings bank may pay interest or dividends on a deposit withdrawn during the last 3 business days of any calendar month ending a regular quarterly or semiannual or dividend period at the applicable maximum rate prescribed in paragraph (b) of this section calculated to the end of such calendar month.

(e) *Systematic savings account deposits in insured nonmember mutual savings banks in Massachusetts.* No insured nonmember mutual savings bank located in the Commonwealth of Massachusetts shall pay interest or dividends on any systematic savings account deposit, as defined in section 22B of chapter 168 of the General Laws of the Commonwealth of Massachusetts, at a rate in excess of the applicable rate under the following schedule:

Minimum period	Maximum percent per annum
48 months	5½
96 months	5¾

(f) *Time deposits.* The provisions of this Part 329 with respect to time deposits, except the provisions of § 329.6, shall apply to all such deposits in insured nonmember mutual savings banks.

(Sec. 9, 18(g), 64 Stat. 881–82, Pub. L. No. 93–63, § 1 (July 6, 1973); 12 U.S.C. 1819, 1828(g).)

4. The requirements of sections 553(b) and (d) of Title 5, United States Code, and §§ 302.1, 302.2, and 302.5 of the rules and regulations of the Federal Deposit Insurance Corporation, with respect to notice, public participation, and deferred effective date were not followed in connection with these amendments because the Board found that the public interest compelled it to make the action immediately effective.

5. *Effective date.* The effective date of the amendments is July 1, 1973.

By order of the Board of Directors, July 5, 1973.

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] ALAN R. MILLER,
Executive Secretary.

[FR Doc.73-14151 Filed 7-11-73;8:45 am]

[1] The maximum rates of interest payable by insured nonmember mutual savings banks as prescribed herein are not applicable to any deposit which is payable only at an office of an insured nonmember mutual savings bank located outside of the States of the United States and the District of Columbia.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 12987; Amdt. No. 872]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260–3, 8260–4, or 8260–5 and made a part of the public rulemaking dockets of the FAA in accordance with the procedures set forth in Amendment No. 97–696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ–405, 800 Independence Avenue, SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR–VOR/DME SIAPs, *effective August 23, 1973.*

Title 16—Commercial Practices

CHAPTER I—FEDERAL TRADE COMMISSION

SUBCHAPTER A—PROCEDURES AND RULES OF PRACTICE

PART 4—MISCELLANEOUS RULES

Records

The Commission announces the following amendment to Chapter I of Title 16 of the Code of Federal Regulations. This amendment which deals with records which may be obtained without charge upon request to the Secretary of the agency, is effective on July 12, 1973.

Section 4.9(c)(3) is revised to read as follows:

§ 4.9 Public records.

• • • • • •

(c) • • •

(3) Cease-and-desist orders and orders of divestiture, industry guides, digests of advisory opinions and compliance advice believed to be of interest to the public generally, and other administrative interpretations;

• • • • • •

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46)

By direction of the Commission dated July 3, 1973.

[SEAL] CHARLES A. TOBIN,
Secretary.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER C—DRUGS

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

PART 135g—TOLERANCES FOR RESIDUES OF NEW ANIMAL DRUGS IN FOOD

Sulfaethoxypyridazine

The Commissioner of Food and Drugs has evaluated a new animal drug appli-

V38-1333
JUL 12 73
XUM

cation (47-033V) filed by American Cyanamid Co., P.O. Box 400, Princeton, NJ 08540, proposing the safe and effective use of controlled release sulfaethoxypyridazine tablets for the treatment of cattle. The application is approved.

The tolerance for residues of sulfaethoxypyridazine in food is being revised to establish a negligible tolerance for residues of sulfaethoxypyridazine in the uncooked edible tissues of cattle.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135c and 135g are amended as follows:

1. Part 135c is amended in § 135c.14 by adding a new item 2. to Table 2 in paragraph (e) as follows:

§ 135c.14 Sulfaethoxypyridazine.

* * * * * *

(e) * * *

TABLE 2.—IN TABLETS

	Amount	Limitations	Indications for use
1. * * *	* * *	* * *	* * *
2. Sulfaethoxypyridazine	15 gram controlled release tablets.	For cattle; administer 100 milligrams per pound of body weight; do not treat within 16 days of slaughter; as sole source of sulfonamide; not for use in lactating dairy cows; Federal law restricts this drug to use by or on the order of a licensed veterinarian.	Treatment of foot rot and respiratory infections (shipping fever and pneumonia) caused by sulfonamide-susceptible pathogens (*E. coli*, streptococci, staphylococci, *Sphaerophorus necrophorus* and Gram-negative rods including *Pasteurella*); for use prophylactically in cattle during periods of stress for reducing losses due to sulfonamide sensitive disease conditions.

2. Part 135g is amended by revising § 135g.35 to read as follows:

§ 135g.35 Sulfaethoxypyridazine.

Tolerances for residues of sulfaethoxypyridazine in food are established as follows:

(a) Zero in the uncooked edible tissues of swine and in milk.

(b) 0.1 part per million (negligible residue) in uncooked edible tissues of cattle.

Effective date. This order shall be effective on July 11, 1973.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: July 3, 1973.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 73-140R]

PART 117—DRAWBRIDGE OPERATION REGULATIONS

Pascagoula River, Miss.

The amendment adds regulations for the U.S. 90 drawbridge across the Pascagoula River to permit overhaul of operating machinery. These regulations will begin on October 8, 1973 and end on January 4, 1974.

This rule is issued without notice of proposed rulemaking. The Coast Guard has found that good cause exists for taking this action on the basis that it would be contrary to the public interest to delay this work.

Accordingly, part 117 of title 33 of the Code of Federal Regulations is amended by adding the following statement to § 117.495 to read as follows:

§ 117.495 Pascagoula River, Mississippi U.S. 90 bridge.

* * * From October 8, 1973 through January 4, 1974 from 8:30 a.m. to 12:30 p.m. and 1:30 p.m. to 5:30 p.m., Mondays through Fridays except national holidays, the draw need not open for the passage of vessels.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Effective date. This revision shall be effective from October 8, 1973 through January 4, 1974.

Dated: July 5, 1973.

J. D. MCCANN,
Captain, U.S. Coast Guard, Acting Chief, Office of Marine Environment and Systems.

[FR Doc.73-14224 Filed 7-11-73;8:45 am]

Title 24—Housing and Urban Development

CHAPTER I—OFFICE OF ASSISTANT SECRETARY FOR EQUAL OPPORTUNITY, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—EMPLOYMENT AND BUSINESS OPPORTUNITY

[Docket No. R-73-111]

PART 130—EQUAL EMPLOYMENT OPPORTUNITY UNDER HUD CONTRACTS AND HUD ASSISTED CONSTRUCTION CONTRACTS

Contracts With State or Local Government

Pursuant to section 201 of Executive Order 11246 and 41 CFR 60-1.6(c) the Department is amending Equal Employment Opportunity regulations under 24 CFR Part 130. The amendment eliminates the exemption of State and local government educational institutions and medical facilities from the requirement of filing an annual compliance report and maintaining affirmative action programs. Unlike other State and local agencies, these institutions and facilities are required by the amendment to file annual compliance reports and maintain affirmative action programs when they participate in work under a HUD contract containing the equal opportunity clause.

In the FEDERAL REGISTER on January 19, 1973, at page 1932, the Department of Labor published a revision of the Office of Federal Contract Compliance regulations at 41 CFR 60-1.5(a)(4) to achieve the above result regarding all contracts under its jurisdiction. The HUD regulations affected here have, before the OFCC amendment, paralleled the scope of exemptions to State and local agencies under the OFCC regulations. The purpose of the Department in amending its regulation is to conform to the change in the OFCC regulation.

FHA contracts have been affected automatically by the OFCC amendment because the contents of the amended OFCC section are incorporated by reference in FHA regulations in § 200.425(d). Hence the present amendment has no effect on FHA contracts.

Because the Department of Labor regulations to which this amendment conforms have already been subjected to public comment before publication in their final form, and because the amendment was submitted to the Director of OFCC prior to issuance and approved as prescribed under 41 CFR § 60-1.6(c), comment and public procedure are unnecessary, and good cause exists for making these changes effective on August 13, 1973.

Paragraph (a)(4) of § 130.20 is amended to read as follows:

§ 130.20 Exemptions.

(a) * * *

(4) *Contracts with State or local governments.* The requirements of the equal opportunity clause in any contract or subcontract with a State or local government (or any agency, instrumentality or subdivision thereof) shall not be applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract or subcontract. In addition, any agency, instrumentality or subdivision of such government, except for educational institutions and medical facilities, is exempt from the requirements of filing the annual compliance report provided for by § 130.50 and maintaining a written affirmative action compliance program prescribed in §§ 130.30 and 130.35.

* * * * * *

(Sec. 201, Executive Order 11246, 30 FR 12319; 41 CFR 60-1.6(c))

Effective date. This amendment shall be effective August 13, 1973.

JAMES T. LYNN,
Secretary of Housing and Urban Development.

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-167]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

* * * * * * *

State	County	Location	Map No.	State map repository	Local map repository	Effective date of authorization of sale of flood insurance for area
* * *	* * *	* * *	* * *	* * *	* * *	* * *
Illinois	Cook	Glenwood, Village of.				July 9, 1973, Emerg.

Title 25—Indians

CHAPTER I—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

SUBCHAPTER L—LEASING AND PERMITTING

PART 132—PRESERVATION OF ANTIQUITIES

Issuance of Archeological Permits

The authority to issue regulations on Indian Affairs is vested in the Secretary of the Interior by 5 U.S.C. 301 and sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9).

Part 132, Subchapter L, Chapter I, of Title 25 of the Code of Federal Regulations is amended by revising §§ 132.2 and 132.5 and deleting § 132.4. This revision and deletion is being made to reflect the transfer of authority to grant archeological permits on Indian land from the Commissioner of Indian Affairs to the Director, National Park Service. The revision and deletion are made under the authority contained in sections 3 and 4 of the Act of June 8, 1906 (34 Stat. 225; 16 U.S.C. 432).

Amendment 95 to Secretarial Order 2508 revoked the delegation made to the Commissioner in section 13(k) of Secretarial Order 2508 of authority to grant archeological permits on Indian land. Amendment 95 was published on page 5514 of the March 16, 1972, FEDERAL REGISTER (37 FR 5514). Since the regulations are being revised to reflect the revocation of authority already made by the Secretary and currently in effect, advance notice and public procedure thereon are deemed unnecessary. Therefore, advance notice and public procedure are dispensed with under the exception provided in subsection (b)(B) of 5 U.S.C. 553 (1970).

Since the regulations are being revised to reflect the revocation of authority already in effect, the 30-day deferred effective date would only delay this revision unnecessarily. Therefore, the 30-day deferred effective date is dispensed with under the exception provided in subsection (d)(3) of 5 U.S.C. 553 (1970). Accordingly, these regulations will become effective on July 12, 1973.

Part 132 of Subchapter L, Chapter I, Title 25 of the Code of Federal Regulations is amended as follows:

1. Section 132.2 is revised to read as follows:

§ 132.2 Permits.

The Departmental Consulting Archeologist may grant permits for the examination of ruins, the excavation of archeligical sites, and the gathering of objects of antiquity on Indian tribal lands or on individually owned trust or restricted Indian lands. Permit application forms may be obtained from the Departmental Consulting Archeologist, National Park Service, Interior Building, Washington, D.C. 20240. Completed applications should be directed to the Departmental Consulting Archeologist who will grant permits to reputable museums, universities, colleges or other recognized scientific or educational institutions, or to their duly authorized agents, subject to the regulations in this Part and 43 CFR Part 3. Copies of these regulations will be attached to the permit. Permits may be granted only after obtaining the consent of the Indian landowners, who may impose special conditions for inclusion in the permit, and the concurrence of the Bureau of Indian Affairs official having immediate jurisdiction over the property. Said Bureau official should not permit any excavation or explorations except as granted to the holders of permits.

§ 132.4 [Deleted]

2. Section 132.4 is deleted from this Part.

3. Section 132.5 is revised to read as follows:

V38-1331
JUL 12 73
XUM

§ 132.5 **Restoration of land after work completed.**

After the work is completed, institutions and persons receiving permits for excavation shall restore the lands upon which they have worked to their customary condition, to the satisfaction of the Indian owners and the Bureau of Indian Affairs official having immediate jurisdiction over said lands.

JOHN C. WHITAKER,
Acting Secretary of the Interior.

JULY 5, 1973.

Title 39—Postal Service

CHAPTER I—U.S. POSTAL SERVICE

PART 145—PERMIT IMPRINTS

Revocation

Regulations dealing with the use of permit imprints are amended to state certain grounds for revocation of the permit. Accordingly, § 145.1 is amended on July 12, 1973, by the addition of paragraph (b) as follows:

§ 145.1 **Permit.**

* * * * *

(b) *Revocation.* The permit may be revoked if used in operating any unlawful scheme or enterprise, for non-use during any consecutive 12 months, or for any non-compliance with the regulations governing the use of permit imprints. The method of revoking a permit is described in § 144.2(c)(1) of this chapter.

(39 U.S.C. 401)

ROGER P. CRAIG,
Deputy General Counsel.

JULY 6, 1973.

[FR Doc.73-14225 Filed 7-11-73;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER E—PESTICIDE PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Carbaryl

A petition (PP 3F1330) was filed by Union Carbide Corp. 1730 Pennsylvania Avenue, NW., Washington DC 20006, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of an interim tolerance for residues of the insecticide carbaryl (1-naphthyl *N*-methylcarbamate) and its metabolite 1-naphthel, calculated as 1-naphthyl *N*-methylcarbamate, in eggs at 0.5 part per million.

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that:

1. The insecticide is useful for the purpose for which the interim tolerance is being established.

2. Residues of this insecticide in eggs will not exceed the proposed interim tolerance, and residues of this insecticide in the meat and fat of poultry will not exceed the established tolerance.

3. The tolerance established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs 408(d)(2), 68 Stat. 512; 21 U.S.C. 436a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038), Part 180 is amended as follows:

1. In § 180.169, by revising the last paragraph "Zero in eggs * * *" to read as follows:

§ 180.169 **Carbaryl; tolerances for residues.**

* * * * *

Zero in or on the grains of barley, oats, rye, and wheat.

2. In § 180.319, by revising the item "Carbaryl * * *" in the table to read as follows:

§ 180.319 **Interim tolerances.**

* * * * *

Substance	Use	Tolerance in parts per million	Raw agricultural commodity
* * *	* * *	* * *	* * *
Carbaryl (1-naphthyl *N*-methylcarbamate and its metabolite 1-naphthol, calculated as 1-naphthyl *N*-methylcarbamate).	Insecticide	0.5	Eggs and potatoes.
* * *	* * *	* * *	* * *

Any person who will be adversely affected by the foregoing order may at any time on or before August 13, 1973, file with the Hearing Clerk, Environmental Protection Agency, Room 3902A, 4th & M Streets, SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective July 11, 1973.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated July 6, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticides Programs.

Title 41—Public Contracts and Property Management

CHAPTER 5A—FEDERAL SUPPLY SERVICE, GENERAL SERVICES ADMINISTRATION

MISCELLANEOUS AMENDMENTS

This amendment (i) deletes from this chapter the instructions concerning price certifications, which are now prescribed in FPR Temporary Regulation 32, (ii) clarifies instructions for the distribution of amendments to solicitations when copies of the basic solicitation were furnished to a prospective bidder by the Business Service Center, and (iii) adds a notice to be included in solicitations to prospective bidders concerning copies of solicitations.

PART 5A–1—GENERAL

The table of contents for Part 5A–1 is amended to delete §§ 5A–1.321 thru 5A–1.321–8.

Subpart 5A–1.3—General Policies

Subpart 5A–1.3 is amended to delete §§ 5A–1.321 thru 5A–1.321–8.

PART 5A–2—PROCUREMENT BY FORMAL ADVERTISING

The table of contents for Part 5A–2 is amended to delete §§ 5A–2.203–72 and 5A–2.204, and to add the following new entry:

Sec.
5A–2.203–70 Solicitation Copies clause.

Subpart 5A–2.2—Solicitation of Bids

1. Section 5A–2.203–1 is amended as follows:

§ 5A–2.203–1 **Mailing or delivering to prospective bidders.**

* * * * *

(d) Prior to mailing or otherwise furnishing solicitations to prospective bidders, procuring activities shall prepare a handlist of all active bidders; i.e., current contractors and bidders that responded to recent similar solicitations. The names on this handlist shall be checked against the bidders mailing list printout to see whether these names are also listed on the printout. If not, action shall be taken in accordance with § 5A–76.306(i)(2).

(e) Addressees on the bidders mailing list printout shall be furnished one copy of the solicitation. Active bidders (see paragraph (d) of this section) shall be furnished complete bid sets (normally, and unless otherwise justified, three copies of the solicitation of which two are to be submitted with the bid and one to be retained for the bidder's own record). Where active bidders are also listed in the bidders mailing list printout, procuring activities shall void this printout label or take such other actions necessary to ensure that active bidders will not receive BOTH the single copy of the solicitation AND the complete bid set, but only the latter. Procuring activities shall manually prepare the required gummed addressed labels or addressed envelopes for the active bidders and furnish them to the local printing and distribution activity.

(f) A complete bid set will be mailed or otherwise furnished by the Business Service Centers to prospective bidders who request bid sets in response to announcements such as in the Commerce Business Daily. Procuring activities shall respond expeditiously to all requests from Business Service Centers for required solicitation copies.

(g) All solicitations for offers shall contain the Solicitation Copies clause set forth in § 5A–2.203–70.

(h) Contracting officers are responsible for ensuring that all amendments to solicitations and related notices are furnished promptly to addressees which were previously furnished solicitations by the contracting officer and by the Business Service Center (see § 5–2.204).

2. Section 5A–2.203–70 is added as follows:

§ 5A–2.203–70 **Soliciation Copies clause.**

The following clause shall be included in all solicitations for offers:

SOLICITATION COPIES

To reduce costs, only a single copy of this solicitation is mailed to addressees on our bidders mailing list, except active bidders who are being furnished a complete bid set. Active bidders are bidders who responded to previous similar solicitations from this office. If you did not receive this solicitation in more than one copy and you wish to bid, *you must submit your bid in the original and one copy* by the date specified in the solicitation. You may reproduce the required additional copies yourself, provided they are complete in every respect, or you may obtain them from ----------

•Enter address of local Business Service Center or other address, as indicated by the issuing office.

§§ 5A–2.203–72 and 5A–2.204 [Deleted]

3. Sections 5A–2.203–72 and 5A–2.204 are deleted.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5–1.101(c))

Effective date. These regulations are effective on the date shown below.

COST OR PRICING DATA

The following change implements the instructions in FPR 1–3.807–3, concerning requirements for cost or pricing data.

PART 5A–3—PROCUREMENT BY NEGOTIATION

Subpart 5A–3.8—Price Negotiation Policies and Techniques

Section 5A–3.807–3 is revised as follows:

§ 5A–3.807–3 **Requirements for cost or pricing data.**

(a) When contract pricing is to be based on established catalog or market prices of commercial items sold in substantial quantities to the general public, contracting officer shall include in solicitations the "Basis for Price Negotiation Provision" prescribed in § 5A–73.121(a) in the format prescribed in § 5A–76.313. However, when this format is used in solicitations for other than multiple-award Federal Supply Schedule contracts, it must be appropriately modified to delete material pertinent only to multi-award contracts.

(b) Whenever a contractor refuses to provide cost or pricing data, the matter shall be referred to the Assistant Commissioner for Procurement (FP). (See §§ 1–3.807–3(b) and 1–3.807–6.)

PART 5A–73—FEDERAL SUPPLY SCHEDULE PROGRAM

Subpart 5A–73.1—Production and Maintenance

Section 5A–73.121(a) is amended as follows:

§ 5A–73.121 **Basis for price negotiation of multiple award schedule contracts.**

(a) The following provisions shall be included in all solicitations for multiple-award schedule contracts. (See § 5A–3.807–3 for use of this provision in other than multiple-award solicitations where prices are based on established catalog or market prices.)

* * * * *

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5–1.101(c))

Effective date. These regulations are effective on the date shown below.

Title 45—Public Welfare

CHAPTER II—SOCIAL AND REHABILITATION SERVICE (ASSISTANCE PROGRAMS), DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 233—COVERAGE AND CONDITIONS OF ELIGIBILITY IN FINANCIAL ASSISTANCE PROGRAMS

Dependent Children of Unemployed Fathers

Notice of proposed regulations regarding the definition of unemployed father in the program of Aid to Families with Dependent Children was published in the FEDERAL REGISTER of January 3, 1973 (38 FR 49). The notice presented two alternatives relating to the inclusion of fathers who are on strike or otherwise disqualified for unemployment compensation:

A: Give States option as to including or excluding;

B: Establish hours of work as the sole criterion, thus precluding exclusion of strikers otherwise eligible.

Thousands of comments were received, coming from all States. As could be expected, most of the responses were from management and labor; there were also many from private citizens and a number from Congressmen.

It is apparent from these comments that no one solution is going to satisfy all those who wrote. There was a fully predictable, although relatively close, division.

After consideration of the conflicting views presented, the Department has adopted alternative "A", leaving the States free to determine whether or not those on strike qualify for AFDC–UF. This is the only course fully consistent with the "New Federalism" policies of this Administration. This permits States wide flexibility in the administration of Federal/State programs, so that they may determine the best course of action in the light of their individual situations and varying circumstances. A Federal mandate either to include or exclude strikers would be undue interference with States' decisions on the extent of the program. If such a mandate is desired it should be set by Congress through the customary legislative process. Accordingly, alternative "A" is considered the acceptable alternative and is reflected in the amended regulation.

Section 233.100(a)(1), Chapter II, Title 45 of the Code of Federal Regulations is revised to read as follows:

§ 233.100 **Dependent children of unemployed fathers.**

(a) *Requirements for State plans.* * * *

(1) Include a definition of an employed father which shall apply only to families determined to be needy in accordance with the provisions in § 233.20 of this chapter. Such definition must include any father who:

(i) Is employed less than 100 hours a month; or

V38-133 JUL 12 73 XUM

(ii) Exceeds that standard for a particular month, if his work is intermittent and the excess is of a temporary nature as evidenced by the fact that he was under the 100-hour standard for the prior 2 months and is expected to be under the standard during the next month;

except that, at the option of the State, such definition need not include a father whose unemployment results from participation in a labor dispute or who is unemployed by reason of conduct or circumstances which result or would result in disqualification for unemployment compensation under the State's unemployment compensation law.

• • • • • •

(Sec. 1102, 49 Stat. 647 (42 U.S.C. 1302))

Effective date. The regulations in this section shall be effective on July 12, 1973.

Dated: July 6, 1973.

JAMES S. DWIGHT, JR.,

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[FCC 73-743]

PART 0—COMMISSION ORGANIZATION

Authentication of Licensing Documents by Commission Seal Only

Order. In the matter of amendment of Part 0 of the Commission's rules to provide for authentication of licensing documents by Commission seal only.

The purpose of this order is to delete from the rules the statement that the signature of the Secretary appears on license forms issued by the Commission. Effective July 1, 1973, such forms have been authenticated solely by the seal of the Commission and by the signature of an official of the issuing bureau or office, when such a signature is required on the authorizing document. To avoid application processing delays, the Commission will continue to use forms bearing the signature of the former Secretary of the Commission until new forms are available.

Accordingly, Part 0 of the Commission's rules is amended to reflect this change. Authority for the attached amendment is contained in sections 4(i) and 303(r) of Communications Act of 1934, as amended. Because the amendment relates to internal Commission organization and internal procedure, the prior notice and effective date provisions of section 4 of the Administrative Procedures Act (5 U.S.C. 553) do not apply.

In view of the foregoing: *It is ordered*, Effective July 1, 1973, That Part 0 of the rules and regulations is amended as set forth below.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: July 6, 1973.

Released: July 10, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Acting Secretary.

Part 0 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

Section 0.204(c)(6) is revised to read:

§ 0.204 The exercise of delegated authority.

• • • • • •

(c) • • •

(6) With the exception of license forms requiring the signature of an appropriate official of the issuing bureau or office, license forms bear only the seal of the Commission.

CHAPTER II—NATIONAL MARINE FISHERIES SERVICE, NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER F—AID TO FISHERIES

PART 258—FISHERMEN'S PROTECTIVE ACT PROCEDURES

Provision for Fees

Section 7 of the Fishermen's Protective Act, as amended, (22 U.S.C. 1971–1977) authorizes, among other things, the Secretary of Commerce to from time to time establish by regulation fees which shall be paid by the owners of vessels entering into agreements under section 7 of the Act. These fees are credited to the Fishermen's Guarantee Fund and used to carry out the provisions of section 7 of the Act. Section 7 of the Act guarantees to the owners of vessels entering into agreements payment of certain costs and losses resulting from the seizure of a vessel of the United States by a foreign country on the basis of rights or claims in territorial waters or the high seas which are not recognized by the United States.

Regulations governing administration of section 7 of the Act, Fishermen's Protective Act Procedures (50 CFR Part 258), have annually established fees based on anticipated claims projected from prior experience. The purpose of the following amendment to § 258.5 of Fishermen's Protective Act Procedures is to establish fees for the present agreement year (July 1, 1973, through June 30, 1974). Although fees for the present agreement year are now being established without an increase above those previously established for the last agreement year, such an increase is being considered (presently, only for tuna vessels) and the fees now being established may be adjusted upward in the near future. Such an increase is being considered because the number of seizures of vessels owned by agreement holders during the last agreement year was higher than during any other agreement year since inception of the Fishermen's Guarantee Fund. When and if such an adjustment occurs, all parties will be notified and the adjusted fees will be payable in accordance with § 258.5(c) of Fishermen's Protective Act Procedures.

All parties whose agreements for the last agreement year were extended through June 30, 1974, by Amendment Number 2 must submit their fees in accordance with § 258.5(b) of the following amendment. Failure to do so will result in termination of those Agreements in accordance with the terms and conditions of Amendment Number 2.

This amendment relates to matters which are exempt from the rule making requirements of the Administrative Procedures Act (5 U.S.C. 553). In addition, the amendment makes no substantive change in the program's conduct. This amendment is hereby adopted and will become effective on July 12, 1973.

Section 258.5 of Fishermen's Protective Act Procedures (50 CFR Part 258) is hereby amended by deleting the present section and substituting therefor the following:

§ 258.5 Fees.

(a) The fees are established to provide for payment of the administrative costs and at least one-third of the estimated claims to be paid from the fund. They are set on the basis of anticipated losses and prior experience. The fees may be adjusted from time to time by amendment to this part at any time, after appropriate notice, in order to meet the requirements of the Act.

(b) Fees to be paid by applicants for, or holders of, guarantee agreements executed (by amendment or otherwise) for the period beginning July 1, 1973, and terminating June 30, 1974, shall be as follows: For each vessel, $60 plus $1.80 per gross ton as listed on the vessel's document (fractions of a ton are not included). Although fees are due on July 1, 1973, all parties holding guarantee agreements as of July 1, 1973, (by amendment or otherwise) for the period terminating June 30, 1974, shall have until August 1, 1973, (midnight, local time) to pay the fees established herein.

(c) No return of a fee or portion of a fee will be made after a guarantee agreement is executed by the Secretary. Failure to pay increased fees within 30 days of adjustment shall constitute a basis for termination of the guarantee agreement.

(d) A guarantee agreement may, with the consent of the Secretary, be assigned to a new owner of a vessel if the ownership of the vessel is transferred during the period in which the agreement is in force.

Dated: July 6, 1973.

By order of the Director, National Marine Fisheries Service, National Oceanic and Atmospheric Administration.

ROBERT W. SCHONING,
Acting Director.

[FR Doc.73-14161 Filed 7-11-73;8:45 am]

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 140—COST OF LIVING COUNCIL FREEZE REGULATIONS

Procedures for Requesting Exemptions and Exceptions

The purpose of these amendments is to add Subpart H to Part 140 of Chapter I of Title 6 of the Code of Federal Regulations to set forth procedural regulations for seeking exceptions or exemptions from the freeze regulations. In addition, § 140.40 is amended to provide that it is a violation to take retaliatory action against any person who exercises his rights under the Economic Stabilization Act. Subpart F is amended to add a new section which provides that a District Director of Internal Revenue may refer to the Attorney General any matter involving noncompliance with a remedial order. Technical and clarifying amendments have been made in §§ 140.1, 140.42 and 140.56.

Prior to this amendment, § 140.1(d) provided that the Cost of Living Council Phase II procedures as set forth in Part 105 of Chapter I of Title 6 of the Code of Federal Regulations govern the submission of a request for an exception or an exemption. This amendment adds a Subpart H which sets forth procedures for initial requests for exception and exemption from the provisions of Part 140 and reconsideration of denials or partial denials of such requests. Exceptions and exemptions are granted for purposes of preventing or correcting serious hardship or gross inequity which results from application of the freeze regulations. A person will not be considered to have exhausted his administrative remedies until he has filed a request for reconsideration of a denial of an exemption or exception. The mandatory reconsideration requirement differs from the Part 105 procedures where a person whose request for exemption was denied in whole or in part could either request reconsideration or wait 30 days and seek judicial review of the Council's action.

All requests for exemption or exception are initiated pursuant to Part 401 of Chapter IV of Title 6 of the Code of Federal Regulations, which requires that requests be filed with the appropriate District Director of Internal Revenue. The initial action on all such requests will be by the Special Freeze Group of the Cost of Living Council. After consideration of the request, the Special Freeze Group will issue a decision in writing including the basis therefor directed to the person filing the request.

The particulars of the procedures for initial requests and reconsiderations are set forth in Subpart H.

Because the purpose of these regulations is to provide immediate guidance as to Cost of Living Council decisions, the Council finds that publication in accordance with normal rulemaking procedure is impracticable and that good cause exists for making these regulations effective in less than 30 days. Interested persons may submit comments regarding these regulations. Communications should be addressed to the Office of General Counsel, Cost of Living Council, Special Freeze Group, Washington, D.C. 20508.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 93-28, 87 Stat. 27; E.O. 11723, 38 FR 15765; Cost of Living Council Order No. 30, 38 FR 16267)

In consideration of the foregoing, Part 140 of Chapter I of Title 6, Code of Federal Regulations is amended as follows, effective July 10, 1973.

Issued in Washington, D.C., on July 10, 1973.

JAMES W. MCLANE,
Director, Special Freeze Group.

Part 140 of Chapter I of Title 6 of the Code of Federal Regulations is amended as follows:

1. Paragraph (d) of § 140.1 of Title 6 of the Code of Federal Regulations is amended to read as follows:

§ 140.1 Purpose and scope.

• • • • • •

(d) The Cost of Living Council may permit any exceptions or exemptions that it considers appropriate with respect to the requirements prescribed in this part. Requests for exceptions or exemptions from the requirements of this Part shall be submitted in accordance with the provisions of Subpart H of this part.

• • • • • •

2. Subpart E is amended in § 140.40 to add a new paragraph (b) to read as follows:

§ 140.40 Violations.

• • • • • •

(b) No person may take retaliatory action against any other person who files or manifests an intent to file a complaint of alleged violation of, or who otherwise exercises any rights conferred by, the Economic Stabilization Act of 1970, as amended, any provision of this part, or any order issued under this part. For the purposes of this paragraph, "retaliatory action" includes any refusal to continue to sell or lease, any reduction in quantity of services or products customarily available for sale or lease, any violation of privacy, any form of harassment, or any inducement of others to retaliate.

3. Subpart E is further amended in § 140.42 to read as follows:

§ 140.42 Injunctions and other relief.

Notwithstanding any other provision of this Part, whenever it appears to the Council that any person has engaged, is engaged, or is about to engage in any acts or practices which constitute particularly flagrant violations of any order or regulation issued under this title, the Council may immediately request the Attorney General to bring an action in the appropriate district court of the United States to enjoin such acts or practices. The relief sought may include a mandatory injunction commanding any person to comply with any such order or regulation and restitution of moneys received in violation of any such order or regulation.

4. Subpart F of Part 140 of Title 6 of the Code of Federal Regulations is amended in § 140.56 to read as follows:

§ 140.56 Who may request modifications or rescission of an order issued under § 140.55.

The person to whom an order is issued under § 140.55, other than an order issued after temporary suspension of an order pursuant to § 140.60(c), may file a request for modification or rescission of that order.

5. Subpart F of Part 140 of Title 6 of the Code of Federal Regulations is further amended to add a new § 140.61 to read as follows:

§ 140.61 Noncompliance.

If the recipient of a remedial order fails to comply with the terms and conditions of any order or regulation issued under this Part, the District Director may refer the matter to the Attorney General for the initiation of proceedings in a U.S. District Court pursuant to section 208 or section 209 of the Act.

6. Part 140 of Title 6 of the Code of Federal Regulations is amended to add a new Subpart H to read as follows:

Subpart H—Procedures—Exceptions and Exemptions

Sec.
140.80 Purpose and scope.
140.81 Initiation of request.
140.82 Initial action by Council.
140.83 Reconsideration requests.
140.84 Hearing.
140.85 Decision by Council.

AUTHORITY: Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 93-28, 87 Stat. 27; E.O. 11723, 38

V 38-133 JUL 12 73 XUM

FR 15765; Cost of Living Council Order No. 30, 38 FR 16267.

Subpart H—Procedures—Exceptions and Exemptions

§ 140.80 Purpose and scope.

(a) This part establishes procedures for initial actions on requests for exceptions and exemptions from the provisions of Part 140 of this Title and reconsideration of denials of such requests in whole or in part.

(b) An exception or exemption will be granted by the Council for purposes of preventing or correcting a serious hardship or a gross inequity resulting from application of Part 140 of this Title.

(c) The Council will not consider that an applicant has exhausted his administrative remedies upon a request for an exception or an exemption until it has filed a request for reconsideration under § 140.83 and final action thereon has been taken by the Council under § 140.85.

§ 140.81 Initiation of request.

Requests for exceptions and exemptions are initiated pursuant to Subpart D of Part 401 of this Title.

§ 140.82 Initial action by Council.

Initial action on a request for an exception or exemption will be taken by the Council. After considering the record, the Council will issue a decision in writing including the basis therefor directed to the person filing the request for exception or exemption.

(a) If the Council grants a request for an exception or exemption, it will serve upon the applicant a copy of its decision.

(b) If the Council refuses to grant an exception or exemption, in whole or in part, it will—

(1) Serve upon the applicant a copy of its decision;

(2) Advise him that he may request reconsideration of the Council's denial pursuant to the provisions of § 140.83 of this Title.

§ 140.83 Reconsideration requests.

(a) *Who may file request.* Any person whose request for an exception or exemption was denied by the Council pursuant to § 140.82(b) in whole or in part may request reconsideration.

(b) *Where to file request.* A request for reconsideration shall be filed with the Special Freeze Group, Cost of Living Council, 2025 M Street, N.W., Washington, D.C. 20508.

(c) *When to file.* A request for reconsideration must be filed within 30 days of service of the decision refusing to grant the exception or exemption in whole or in part.

(d) *Contents of request.* A request for reconsideration shall—

(1) Be in writing and signed by appellant;

(2) Be designated clearly as a request for reconsideration;

(3) Contain a concise statement of the grounds for reconsideration and the requested relief;

(4) Be accompanied by briefs, if any; and

(5) Be marked on the outside of the envelope: "Reconsideration."

(e) *Review by council.* (1) The Council will reconsider its decision and order denying an exception or exemption in whole or in part if a request for reconsideration:

(i) Is made by a person whose request for exception or exemption was denied by the Council in whole or in part:

(ii) It is timely: and

(iii) Makes a prima facie showing that the Council's initial action was erroneous in fact or in law.

(2) The Council may summarily dismiss a request for reconsideration which is not timely or which was filed by a person other than the one whose request for exception, or exemption was denied in whole or in part.

(3) The Council may summarily dismiss a request for reconsideration which fails to make a prima facie showing that the Council's initial action was erroneous in fact or in law, in which case it will notify the appellant of its action. Such appellant may seek judicial review under the Act.

(4) When a petition for reconsideration meets the requirements set forth in paragraph (e)(1) of this section, the Council will proceed in accordance with §§ 140.84 and 140.85.

(5) The Council on its own motion may consider any additional evidence that it deems relevant and which in its opinion the party did not have a reasonable opportunity to present previously.

§ 140.84 Hearing.

(a) If the Council in its discretion deems that a hearing is advisable, it will, as expeditiously as possible after receiving the request for reconsideration, direct that a hearing be held before a Hearing Officer, or where the Council deems it appropriate, before the Council in the first instance.

(b) When a hearing has been directed in accordance with paragraph (a) of this section, it will be conducted not less than 10 days after written notice has been served on the appellant, at such time and place as the Council may direct.

(c) When a hearing is conducted in accordance with this Section, the appellant may present oral argument and submit such additional documentary evidence as the Hearing Officer allows.

(d) Where administratively feasible, within 10 days after the close of the hearing, the Hearing Officer will submit to the Council a report and any recommendation he deems appropriate with respect to the appellant's request for reconsideration.

§ 140.85 Decision by Council.

When administratively feasible, within 30 days of receipt of a request for reconsideration or within 30 days of a Hearing Officer's report when a hearing has been directed, the Council will issue a decision in writing including the basis therefor directed to the person filing the request for reconsideration.

(a) If the Council grants the reconsideration requested, it will serve upon the applicant a copy of its decision.

(b) If the Council refuses to grant the reconsideration requested, in whole or in part, it will—

(1) Serve upon the applicant a copy of its decision;

(2) Advise him that he has exhausted his administrative remedies.

PART 140—COST OF LIVING COUNCIL FREEZE REGULATIONS

Special Freeze Group Questions and Answers No. 17

These "Questions and Answers", which are issued by the Cost of Living Council's Freeze Group, are designed to provide immediate guidance in understanding and applying the new freeze regulations (Part 140 of Title 6 of the Code of Federal Regulations). To achieve the broadest publication, these are hereby added to Appendix A of Part 140. Since they provide guidance of general applicability and are subject to clarification, revision or revocation, they do not constitute legal rulings with respect to specific fact situations.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 93-28, 87 Stat. 27; E.O. 11723, 38 FR 15765; Cost of Living Council Order No. 30, 38 FR 16267)

Issued in Washington, D.C., on July 9, 1973.

ANDREW T. H. MUNROE,
General Counsel,
Special Freeze Group.

Appendix A of Part 140 is amended by adding the following:

SPECIAL FREEZE GROUP

QUESTIONS AND ANSWERS

No. 17

1. Q. A, a brick manufacturer, has had a long term contract to supply B, a builder, with 100% of B's brick requirements at 5¢/brick from July 1, 1972, to June 30, 1973. A's freeze price for bricks to all other purchasers is 7¢/brick. None of the other purchasers has a long term contract, but many of these customers have been purchasing their entire supply of bricks from A, and buy the same quantity B buys. A has notified B that, effective July 1, 1973, A will supply B with 50% of his requirement under a new contract at the 5¢ price. The remaining 50% will be sold to B in over the counter transactions at the price of 7¢. May A lawfully charge B 7¢/brick in over the counter transactions?

A. No. B is a separate class of purchaser for purposes of the freeze regulations because he took deliveries under a long term contract with a fixed price during the freeze base period. A is not required to renew the old contract with B, but he may not transfer B to another class of purchaser which has a higher freeze price in order to avoid the freeze price rules. As long as A continues to supply B during the freeze, whether by contract or over the counter, A may charge no higher than 5¢/brick.

2. Q. Since May 1, 1973, a hardware store has sold lead pipe according to a fixed, 3-step pricing formula. In the first step, a price is found on a pricing table which contains 100 prices based on 10 length sizes and 10 diameter sizes of the product offered. The price of each size is based on weight times a uniform price per pound for lead pipe. After the price is determined according to the desired length and diameter, it is multiplied by a grade factor (both a superior quality "A" and a standard quality "B" is offered). Finally, a quantity discount is offered for high-volume purchases.

Q. All sales of lead pipe were made under this 3-step pricing formula during the freeze base period including at least one high-volume and one regular volume transaction in both the quality "A" and "B" categories, but the store did not have a transaction in each, of the 400 different pricing categories possible under the formula. May the formula be used to determine freeze prices for all sizes, grades, and quantities offered or only for those for which a transaction occurred during the freeze base period?

A. The formula establishes freeze prices for all sizes, grades and quantities of lead pipe offered during the freeze base period. The freeze price is the highest price at or above which at least 10% of the items were priced in transactions with the class of purchaser concerned during the freeze base period. The class of purchaser is determined according to customary price differentials, and this includes price distinctions based on quality (Step 2) and volume (Step 3). In this case, there are no customary price differentials involved in Step 1 because the same over-all unit price per pound is charged. The pricing formula used creates price differentials in only four different categories. Therefore, only four classes of purchaser exist. Because transactions occurred with each of the four classes of purchasers during the freeze base period, freeze prices were established for all items priced under the formula. Since there were no price changes during the freeze base period for any of these classes of purchasers, the 10% transactions test is met.

3. Q. During the freeze base period, a manufacturer sold product X to a retailer with a promotional allowance of 10¢ per item to compensate the retailer for local advertising of the product. The retailer also reduced the price of product X 10¢ to his customers during this time but was not reimbursed for this reduction. When the retailer ceased advertising product X during the freeze, the manufacturer raised his price 10¢ to reflect the elimination of the promotional allowance in accordance with the Answers Sheet No. 4. May the retailer now also increase the price to his customers by 10¢?

A. No. The freeze price includes a special sale, deal or allowance in effect during the freeze base period. The manufacturer in this example is permitted to eliminate its promotional allowance on the basis that it is no longer receiving in exchange services of value equal to the allowance. The ultimate consumer has not been performing any promotional service such as providing advertising material or facilities for the retailer. Therefore, the retailer's sale price to the consumer may not be increased during the period of the freeze.

4. Q. Does the exemption for the sale of agricultural products which retain their original physical form and have not yet been processed apply to mixed plant seeds and to seedlings for planting?

A. Yes.

5. Q. Company A sells 10 categories of screws at different prices which are not determined by formula pricing. On June 1 Company A put a 5% price increase in effect for all 10 categories of screws. During the period June 1 through June 8 Company A sold screws from 6 of the 10 categories, but had no sales of screws in the other 4 categories. May Company A sell all of its screws at the higher announced prices since the screws are similar commodities or must the firm calculate a freeze price for each category of screws?

A. Freeze prices must be calculated for each sale of a commodity to each class of purchaser. A class of purchaser is composed of all purchasers to whom a person has charged a comparable price for comparable property or service during the freeze base period pursuant to customary price differentials between these purchasers and other purchasers. Customary price differentials include price distinctions based on a discount, allowance, add-on, premium, and an extra based on a difference in volume, grade, quality, or location or type of purchaser, or a term or condition of sale or delivery.

Because each category of screws is sold at a different price not determined by formula pricing, a customary price differential exists between purchasers buying one category of screw and purchasers who buy another category. Therefore, each category of screw is sold to a separate class of purchaser and Company A must calculate a freeze price for each category. For the four categories which were not sold during the June 1 through June 8 period, Company A must calculate the freeze price by going back in 7-day time blocks until there was a sale in each of the categories.

6. Q. During the freeze, a wheat grower sells his wheat to a grain storage concern which in turn sells the wheat to an export terminal operator. The latter exports some of the wheat and sells the rest to a domestic flour miller. Which of these transactions are exempt?

A. All of them. Under the raw agricultural products exemption, all sales of agricultural products which retain their original physical form and have not been processed, other than those products sold for ultimate consumption in their original physical form, are exempt. This includes the first, second and any subsequent sales in a chain of market transactions involving the same raw agricultural product.

6. A. For agricultural products which are of a type sold for ultimate consumption in their original physical form, such as tomatoes and apples, only the first sale is exempt. Wheat, however, is not a product of this type.

The export sale of the wheat is exempt under both the raw agricultural products exemption and the export exemption.

7. Q. A firm had been selling its product in the Northeast and on April 1, 1973, it began marketing its product in the Southwest. At the time of entering the Southwest market the firm decided to offer a 3% discount for four months to purchasers in the Southwest in order to test the Southwest's market demand for its product. The product has been well received in the Southwest, and pursuant to its original plan the firm wishes to eliminate its 3% discount on July 15, 1973. May the firm raise the prices 3% in the Southwest during the freeze?

A. No. The freeze price rule provides that no person may charge to any class of purchaser a price for any commodity which exceeds the freeze price charged in transactions with the same class of purchaser during the freeze base period. The purchasers in the Southwest would be a separate class of purchaser because the firm has implemented a customary price differential of 3% between purchasers in the Northeast and purchasers in the Southwest based on the location and type of purchasers (old versus new). The price charged customers in the Southwest during the freeze base period is the freeze price for the Southwest. The fact that there was a 3% discount for market testing in the Southwest during the freeze base period does not permit the firm to increase the prices at the time when the firm planned to discontinue the discount. The definition of freeze price specifically provides that in computing the freeze price a seller may not exclude any temporary special sale, deal or allowance in effect during the freeze base period.

8. Q. A farmer grows peanuts. He delivers and sells them to a peanut sheller who takes title to the nuts. The sheller then shells the peanuts and sells them to manufacturers. Is the sale of the shelled peanuts from the sheller to the manufacturer subject to the freeze?

A. No. Shelling is not considered a processing activity for the purpose of the raw agricultural products exemption. Roasting or salting, however, is a processing activity and the sale of roasted or salted peanuts is subject to the freeze.

9. Q. A firm in the mail order business wishes to print and mail during the freeze a catalog for the 1973 Christmas season. How should such a retailer price the items in his catalog?

A. Prices for goods sold after the freeze will be subject to the rules of Phase IV. Whenever an order is received for shipment after the freeze for goods priced in the catalog higher than the price permitted under Phase IV, the firm may charge no more than the Phase IV price, and if payment is included with the order, must refund to the purchaser the difference between the listed price and the Phase IV price. Firms preparing such catalogs are encouraged to include a prominent statement of this requirement.

10. Q. May U.S. flag vessels increase their shipping rates to foreign customers during the freeze?

A. Yes. The carriage service provided by a U.S. flag vessel to a foreign purchaser is considered an export of a service and is therefore exempt from the freeze. The sale of the service to a foreign purchaser is considered an export whether or not the sale takes place through a U.S. agent. Transactions between U.S. ocean carriers and U.S. purchasers are not exports of services and, therefore, are fully subject to the freeze.

PART 140—COST OF LIVING COUNCIL FREEZE REGULATIONS

Special Freeze Group Questions and Answers No. 16

These "Questions and Answers", which are issued by the Cost of Living Council's Freeze Group, are designed to provide immediate guidance in understanding and applying the new freeze regulations (Part 140 of Title 6 of the Code of Federal Regulations). To achieve the broadest publication, these are hereby added to Appendix A of Part 140. Since they provide guidance of general applicability and are subject to clarification, revision or revocation, they do not constitute legal rulings with respect to specific fact situations.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 93-28, 87 Stat. 27; E.O. 11723, 38 FR 15765; Cost of Living Council Order No. 30, 38 FR 16267)

Issued in Washington, D.C., on July 5, 1973.

ANDREW T. H. MUNROE,
General Counsel,
Special Freeze Group.

V 38 I 133 JUL 12 73 XUM

Appendix A of Part 140 is amended by adding the following:

SPECIAL FREEZE GROUP

QUESTIONS AND ANSWERS

No. 16

The following is a list of questions asked most frequently by consumers about obtaining freeze price information and freeze price posting requirements.

1. Q. Are all stores, regardless of size, obligated to provide information on their freeze prices?

A. Yes, as of 11:59 pm, e.s.t., June 24, 1973, *every* seller of goods or services (retailer, wholesaler, manufacturer, and service organization), regardless of size of the business, must provide freeze prices, or ceiling prices, for its products or services. There are no exemptions in the freeze for small businesses.

2. Q. How can I obtain freeze price information?

A. In every place of business, you should see a prominent sign measuring no less than 22" by 28" which tells you how to obtain freeze price information.

3. Q. Does the seller have to tell me the freeze price on the spot?

A. With the exception of certain large food retailers who have more stringent requirements, any seller of goods or services must provide the customer with a Freeze Price Information Request Form. This form must have provisions for the item, the price, the style number, the department, and the requesting customer's name and address. The seller then has 48 hours in which to forward the freeze price information to the customer by mail.

4. Q. How do requirements for the large food retailers differ?

A. Any food retail outlet owned by a firm which derives $25 million or more in food sales must comply with a requirement to post, in each department, a sign announcing the availability and location of a freeze price inspection list within the department. This list must show the freeze price for the 40 items in that department which had the highest dollar sales during the last fiscal year ending prior to June 13, 1973, *or*, those items which accounted for at least 50 percent of the total dollar sales of the department—whichever is less. In addition, the store must have Freeze Price Information Request Forms available for freeze price requests on items not included in the inspection lists.

Note: These stores have the option instead to maintain one centrally located list of freeze prices for all of their items and to post a sign announcing the availability and location of this list.

5. Q. Do sellers of meat have special posting regulations?

A. Yes. Retail sellers of meat must comply with Phase III regulations to post the ceiling price for meat items available for sale. This list must be posted in a prominent place where the majority of meat items are sold. (Note: meat ceiling prices are determined in accordance with Phase III meat ceiling price regulations effective 9 pm, e.s.t., March 29, 1973.)

6. Q. What if I do not see a freeze price information sign or I receive no response to requests for information?

A. If you see no sign, or if a seller either refuses or is unable to give you freeze price information, contact your nearest local IRS office with your complaint.

7. Q. What if I suspect that the freeze price I am quoted is higher than it should be?

A. Again, file a complaint with your nearest local IRS office.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Valencia Orange Reg. 440]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period July 13–19, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

§ 908.740 Valencia Orange Regulation 440.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this regulation to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges is generally steady.

Prices f.o.b. averaged $3.13 per carton on a sales volume of 453 carlots during the week ended July 5, 1973, compared with $3.16 per carton on sales of 513 carlots a week earlier.

Track and rolling supplies at 273 cars were down 30 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 10, 1973.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period July 13, 1973, through July 19, 1973, are hereby fixed as follows:

(i) District 1: 94,000 cartons;

(ii) District 2: 385,000 cartons;

(iii) District 3: 71,000 cartons.

(2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 11, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division Agricultural Marketing Service.

[FR Doc.73-14420 Filed 7-11-73;12:24 pm]

PART 922—APRICOTS GROWN IN DESIGNATED COUNTIES IN WASHINGTON

Expenses and Rate of Assessment

This document states that the expenses of the Washington Apricot Marketing Committee for the 1973–74 season will be $3,311, and, to obtain such funds, prescribes a rate of assessment of $2.00 per ton, payable by each handler.

On June 22, 1973, notice of proposed rule making was published in the FEDERAL REGISTER (38 FR 16363) regarding proposed expenses and the related rate of assessment for the period April 1, 1973, through March 31, 1974, pursuant to the marketing agreement, as amended, and Order No. 922, as amended (7 CFR Part 922), regulating the handling of apricots grown in designated counties in Washington. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The notice afforded interested persons until July 6, 1973, to submit written data, views, or arguments in connection with said proposals. None were received. After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Washington Apricot Marketing Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 922.213 Expenses and rate of assessment.

(a) *Expense.* Expenses that are reasonable and likely to be incurred by the Washington Apricot Marketing Committee during the period April 1, 1973, through March 31, 1974, will amount to $3,311.

(b) *Rate of assessment.* The rate of assessment for said period, payable by each handler in accordance with § 922.41, is fixed at $2.00 per ton of apricots.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of apricots grown in designated counties in Washington are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable apricots handled during the aforesaid period; and (3) such period began on April 1, 1973 and said rate of assessment will automatically apply to all such apricots beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 9, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 15—Commerce and Foreign Trade

CHAPTER III—DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER B—EXPORT REGULATIONS

[13th Gen. Rev., Export Regs., Amdt. 64]

PART 377—SHORT SUPPLY CONTROLS

Hardship Licensing and Increase of Shipping Tolerance for Ferrous Scrap

Hardship licensing of exports of commodities subject to validated licensing requirements under Part 377; increase of shipping tolerance allowance for exports of ferrous scrap.

Section 377.4(d) and Supplement No. 1 to Part 377 are amended and a new § 377.5 is established, to read as set forth below.

Effective date: July 10, 1973.

RAUER H. MEYER,
Director, Office of Export Control.

I. *Licensing of Hardship Situations.* Notwithstanding the terms of the validated licensing requirements imposed under Part 377 of the Export Regulations, in cases of special hardship, the Office of Export Control may issue validated licenses for exports of any of the commodities listed in Supplement No. 1 to Part 377.

II. *Increase Shipping Tolerance Allowance for Exports of Ferrous Scrap.* The FEDERAL REGISTER issuance of July 3, 1973, which established a licensing system for exports of ferrous scrap, reduced the shipping tolerance allowance for licenses issued thereunder to 2½ percent. This allowance is now increased to 5 percent.

Accordingly, § 377.4(d) and Supplement No. 1 to Part 377 are amended and a new § 377.5 is established, to read as set forth below.

1. In § 377.4, paragraph (d) is amended to read as follows:

§ 377.4 Ferrous scrap.

* * * * *

(d) Section 386.7(b)(1) of the Export Control Regulations states, in part, that commodities listed in Supplement No. 1 to Part 377 are subject to the tolerance set forth in Part 377. Shipping tolerances applicable to the commodities subject to the requirements of this § 377.4(d) are accordingly shown in Supplement No. 1 to Part 377.

2. A new § 377.5 is established to read as follows.

§ 377.5 Hardships.

A U.S. exporter who believes the provisions of this Part 377 work a unique hardship on his operations may file a request for an exception to or waiver of any of its provisions. The request shall be by letter and shall be submitted with the related export license application. In the event the application is already on file in the Office of Export Control, the request shall cite the applicant's reference number (Item 6 on Form FC–419) and BEWT Case Number, if known. The letter should explain in full the circumstances that the exporter believes justify the exception or waiver.

3. Supplement No. 1 to Part 377 is amended by revising the shipping tolerance allowances to read as follows:

Supplement No. 1 to Part 377

Supplement No. 1—Commodities Subject to Short Supply Quota Controls

Schedule B Number	*Ferrous Scrap* *Commodity Description*	*Shipping Tolerance Allowance*
282.0010	No. 1 heavy-melting steel scrap, except stainless	5%
282.0020	No. 2 heavy-melting steel scrap, except stainless	5%
282.0030	No. 1 bundles steel scrap, except stainless	5%
282.0040	No. 2 bundles steel scrap, except stainless	5%
282.0050	Borings, shoveling and turnings, iron or steel, except stainless	5%
282.0060	Stainless steel scrap	5%
282.0065	Shredded steel scrap	5%
282.0078	Other steel scrap, including tin-plated and terne-plate	5%
282.0080	Iron scrap, except borings, shoveling and turnings	5%
282.0090	Rerolling material of iron or steel	5%

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF LABOR

Office of the Secretary

[29 CFR Part 29]

LABOR STANDARDS FOR THE REGISTRATION OF APPRENTICESHIP PROGRAMS

Extension of Time for Comments

In FR Doc. 73-10435, 38 FR 13894, May 25, 1973, the deadline for written data, views, and arguments was stated as June 25, 1973.

An additional period is allowed for comments. Accordingly, interested persons may submit written data, views, and arguments to the Secretary of Labor, U.S. Department of Labor, Washington, D.C. 20210, on or before July 25, 1973.

Dated at Washington, D.C., July 6, 1973.

PETER J. BRENNAN,
Secretary of Labor.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 273]

BIOLOGICAL PRODUCTS

Proposal Regarding Testing and Potency Requirements for Poliovirus Vaccine, Live, Oral

The Commissioner of Food and Drugs is proposing revisions in certain of the biological products regulations that appear under Subpart B—Additional Standards for Viral Vaccines as they pertain to Poliovirus Vaccine, Live, Oral. The proposal concerns amendments to four sections of the regulations, §§ 273.1024(b)(2), 273.1025, 273.1026(c) and 273.1027 (21 CFR 273.1024, 273.1025, 273.1026, and 273.1027). The intent of the proposal is to clarify some of the testing and potency requirements and to incorporate knowledge gained in this field since the present regulations were promulgated. The proposed revision of the current regulations deletes reference to 50 percent end-point titration calculation ($TCID_{50}$) to clearly allow performance of the Test for virus titer and Potency test using either $TCID_{50}$ or a plaque test and provide for the subparagraph on *Dose* to include infectivity as measured by $TCID_{50}$ and plaque tests.

As presently worded, § 273.1024(b) appears to restrict testing to a $TCID_{50}$ titration system even though the subparagraph does allow for a test of demonstrated equivalent sensitivity. The new language in the proposed revision clearly permits other tests such as the test for virus titer using either $TCID_{50}$ or a plaque test. In addition, it includes a statement to assure that the requirement for performing a parallel test on the reference virus is not interpreted as a means of adjusting the titer of the lot of poliovirus vaccine but is intended to validate the test system.

The proposed revision of § 273.1025 is intended, as with the Test for virus titer, to clearly reflect provision for other tests and assure there is no improper use of parallel reference titration results. In a further change, the final sentence concerning concentration of each type of live virus contained in a lot of vaccine has been deleted from this section and requirements as to how vaccines shall be constituted relative to infectivity titer has been set forth under § 273.1026(c).

The Commissioner proposes to revise § 273.1026(c) to broaden the statement on required concentration of virus for monovalent and trivalent vaccines so as to provide for infectivity titer limits as measured by $TCID_{50}$ or a plaque test. In addition, he proposes to establish a lower limit of potency for Type 1 Virus.

Since sufficient data and experience have been accumulated to indicate that tests for the measurement of neutralizing antibody may be of variable sensitivity, there is little need to specify certain required antibody levels in order to determine the antigenicity of the vaccine. Thus, the Commissioner proposes to amend § 273.1027 to eliminate the requirement that type specific neutralizing antibody must rise from less than 1:4 before vaccine treatment to 1:16 or greater after treatment in a specified percentage of individuals. Based upon data submitted by each manufacturer requesting licensure and comparative testing by the Food and Drug Administration, it is the intent of the Commissioner to establish the requisite antibody levels indicating seroconversion which must be met by the manufacturer.

Therefore, pursuant to provisions of the Public Health Service Act (sec. 351, 58 Stat. 702 as amended; 42 U.S.C. 262) and under authority delegated to him (21 CFR 2.120) the Commissioner proposes to amend Part 273 (21 CFR Part 273) as follows:

1. By revising § 273.1024(b)(2) to read as follows:

§ 273.1024 Test for safety.

* * * * *

(b) * * *

(2) *Test for virus titer.* The concentration of living virus in each monovalent virus pool or lot expressed as infectivity titer/ml for cell cultures shall be determined using the Reference Poliovirus, Live, Attenuated of the same type as a control. A titration of the monovalent virus pool or lot shall not constitute a valid test unless the titration of the reference virus when tested in parallel is within ± 0.5 $\log_{10}$ of its established titer. The titration of the parallel reference is intended to validate the test system and shall not be used to adjust the titer of the lot under test.

* * * * *

2. By revising § 273.1025 to read as follows:

§ 273.1025 Potency test.

The virus content expressed as infectivity titer/ml for cell cultures shall constitute the potency measurement. The accuracy and validity of the titration used to determine the concentration of live virus in the lot tested shall be confirmed by performing the titration with a Reference Poliovirus, Live, Attenuated of the appropriate type. The reference titration, when tested in parallel, shall be ± 0.5 $\log_{10}$ of its established titer, and shall not be used to adjust the titer of the lot under test.

3. By revising § 273.1026(c) to read as follows:

§ 273.1026 General requirements.

* * * * *

(c) *Dose.* Each monovalent vaccine shall be constituted to have an infectivity titer of not less than $10^{6.0}$ nor greater than $10^{6.9}$ per human dose. The human dose of vaccines containing all three virus types shall be constituted to have infectivity titers in the final container material of $10^{6.0}$ to $10^{6.4}$ for Type I, $10^{5.8}$ to $10^{6.3}$ for Type II, and $10^{6.3}$ to $10^{7.3}$ for Type III.

4. By revising § 273.1027 to read as follows:

§ 273.1027 Clinical trials to qualify for license.

To qualify for license, the antigenicity of the vaccine shall have been determined by clinical trials of adequate statistical design. Such clinical trials shall be conducted with five consecutive lots of poliovirus vaccine which have been manufactured by the same methods, each of which has shown satisfactory results in all prescribed tests. Type specific neutralizing antibody shall be induced in 80 percent or more of susceptibles when administered orally as a single dose, or in 90 percent or more of susceptibles when administered orally after a series of doses. A separate clinical trial shall

have been conducted for each monovalent and each polyvalent vaccine for which a license application is made.

Interested persons may, on or before September 10, 1973, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during regular business hours, Monday through Friday.

Dated: July 5, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

Office of Education

[45 CFR Part 102]

STATE VOCATIONAL EDUCATION PROGRAMS—INDUSTRIAL ARTS, VOLUNTEER FIREMEN

Notice of Proposed Rule Making

Pursuant to the authority contained in the Vocational Education Act of 1963, 82 Stat. 1064-1091 as amended (20 U.S.C. 1241 to 1391), notice is hereby given that the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Part 102 of Title 45 of the Code of Federal Regulations by revising §§ 102.3 and 102.4 as set forth below. The proposed revisions are made for the purpose of implementing the amendments made by section 202 (a) and (b) of Public Law 92-318 which add industrial arts education to the definition of vocational education and include volunteer firemen in those programs designed to prepare individuals for gainful employment.

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed revisions to the Commissioner of Education. Attention: Deputy Commissioner, Bureau of Occupational and Adult Education, U.S. Office of Education, Room 5130, Seventh and D Streets, SW., Washington, D.C. 20202. Comments received in response to this notice will be available for public inspection at the above office on Mondays through Fridays between 8:30 a.m. and 4:30 p.m., E.d.t. All relevant material received on or before August 13, 1973, will be considered.

(Catalog of Federal Domestic Assistance Nos. 13.493, 13.496-13.502, Vocational Education)

Dated: June 18, 1973.

JOHN OTTINA,
Acting U.S. Commissioner of Education.

Approved: July 9, 1973.

CASPAR W. WEINBERGER,
Secretary, Health, Education, and Welfare.

Part 102 of Title 45 of the Code of Federal Regulations is amended as follows:

1. Section 102.3 is amended by adding a new paragraph (q) and redesignating current paragraphs (q) through (aa) as (r) through (bb). New paragraph (q) is amended to read as follows:

§ 102.3 Definitions.

* * * * *

(q) "Industrial arts education programs" means those education programs (1) which pertain to the body of related subject matter, or related courses, organized for the development of understanding about the technical, consumer, occupational, recreational, organizational, managerial, social, historical, and cultural aspects of industry and technology including learning experiences involving activities such as experimenting, designing, constructing, evaluating, and using tools, machines, materials, and processes which provide opportunities for creativity and problem solving; and (2) which the Commissioner has determined, pursuant to § 102.4(b)(5), will accomplish or facilitate one or more of the purposes of the first sentence of section 108(1) of the Act.

(20 U.S.C. 1248(1))

2. Section 102.4 is amended by revising paragraph (b)(1)(i), by adding new paragraphs (b)(5) and (b)(6), by adding a new paragraph (j) and by redesignating current paragraph (j) as paragraph (k), as follows:

§ 102.4 Vocational instruction.

* * * * *

(b) *Objective of instruction.* (1) Vocational instruction shall be designed to—

(i) Prepare individuals for gainful employment, including volunteer firemen, as semiskilled or skilled workers or technicians or semiprofessionals in recognized occupations and in new or emerging occupations, or

* * * * *

(5) Industrial arts education instructional programs with the objectives specified in subparagraph (1) of this paragraph shall be designed to:

(i) Assist individuals in the making of informed and meaningful occupational choices in industry and technology. In order to accomplish or facilitate this purpose, such programs shall:

(*a*) Provide occupational information and instruction pertaining to a broad range of occupations, including training requisites, working conditions, salaries or wages, and other relevant information;

(*b*) Provide exploratory experiences in shops, laboratories, and observations in business or industry to acquaint students with jobs in the occupations included in this purpose;

(*c*) Provide guidance and counseling for students enrolled in the industrial arts program under § 102.4(b)(5) of this part to assist them in making informed and meaningful choices in selected occupational fields; and

(*d*) Employ industrial arts teachers who have qualifications as provided in the State plan pursuant to § 102.38; or

(ii) Prepare individuals for enrollment in advanced or highly skilled vocational and technical education programs. In order to accomplish or facilitate this purpose, such programs shall:

(*a*) Provide individuals with occupational information and exploratory experience to meet the specific requirements for enrollment in such programs;

(*b*) Provide occupational information and exploratory experiences directly related to current practices in industry; and

(*c*) Be conducted in an institution approved by the State Board of Vocational Education and by industrial arts teachers and guidance and counseling personnel who have qualifications as provided in the State plan pursuant to § 102.38.

(6) Instruction for volunteer firemen with the objectives specified in paragraph (b)(1)(i) of this section, whether or not such firemen are paid for services performed, shall include instruction of the type described in subparagraph (2) of this paragraph.

(20 U.S.C. 1248(1))

(j) *Industrial arts youth organizations.* Industrial arts education programs may provide for students to participate in club activities as an integral part of the instruction which are offered as indicated by § 102.4 and which are supervised by industrial arts personnel.

(20 U.S.C. 1248(1))

Public Health Service

[42 CFR Part 57]

HEALTH PROFESSIONS STUDENT LOANS

Notice of Proposed Rule Making

Sections 740 and 744 of the Public Health Service Act authorize the Secretary of Health, Education, and Welfare to enter into agreements with health professions schools for the establishment of student loan funds from which loans are to be made to their students.

Notice is hereby given that the Director, National Institutes of Health, with the approval of the Secretary of Health, Education, and Welfare, proposes to adopt the following regulations set forth in tentative form below.

The proposed regulations would implement four major statutory changes made by section 105 of the Comprehensive Health Manpower Training Act of 1971 (P.L. 92-157): (1) An increase in the maximum amount of loan to a student for any academic year to $3,500; (2) an elimination of the five year tolling limitation for advanced professional training for those loans made after November 17, 1971; (3) a provision whereby an individual is eligible for repayment of a percentage of his educational loans if

V 38 I 133 JUL 12 73 XUM

he signs an agreement with the Secretary to practice for at least two years in an area designated as having a shortage of and need for persons trained in his profession; and (4) a new provision whereby the Secretary may repay all or any portion of an individual's educational loans when he determines that the individual has failed his studies leading to the first professional degree and is not expected to resume such studies within two years, is in exceptionally needy circumstances and comes from a low-income or disadvantaged family. There are also several technical and clarifying changes.

Written comments concerning the proposed regulations are invited from interested persons. Inquiries may be addressed and data, views and arguments relating to the proposed regulations may be presented in writing, in triplicate, to Associate Director (Program Implementation), Bureau of Health Manpower Education, National Institutes of Health, Building 31, Room 5 C 12, 9000 Rockville Pike, Bethesda, MD 20014. All comments received in response to this notice will be available for public inspection at the Office of Grants Policy, Bureau of Health Manpower Education, National Institutes of Health, Building 31, Room 5 B 36, 9000 Rockville Pike, Bethesda, MD 20014, on weekdays (Federal holidays excepted) between the hours of 8:30 a.m. and 5:00 p.m. All relevant material received on or before August 13, 1973, will be considered.

It is therefore proposed to repeal Subpart C of Part 57 and to substitute in lieu thereof a new Subpart C as set forth below.

Dated: February 12, 1973.

JOHN F. SHERMAN,
Acting Director,
National Institutes of Health.

Approved: July 9, 1973.

CASPAR W. WEINBERGER,
Secretary.

Amend Part 57 as follows:

(1) Revise Subpart C of the table of contents to read as follows:

Subpart C—Health Professions Student Loans

Sec.
57.201 Applicability.
57.202 Definitions.
57.203 Eligibility of schools.
57.204 Application by school.
57.205 Agreement for Federal Capital Contributions and Federal Capital Loans
57.206 Allotment and payment of Federal Capital Contributions and Federal Capital Loans.
57.207 Federal Capital Loan Promissory Note.
57.208 Health Professions Student Loan Funds.
57.209 Nondiscrimination.
57.210 Eligibility and selection of health professions student loan recipients.
57.211 Maximum amount of health professions student loan.
57.212 Evidence of student indebtedness—promissory note; security.
57.213 Payment of health professions student loans.
57.214 Repayment and collection of health professions student loans.
57.215 Cancellation of health professions student loans for disability and death.
57.216 Repayment or cancellation of loans for practice.
57.217 Repayment of loans made subsequent to November 17, 1971, for failure to complete course of study.
57.218 Records, reports, inspection and audit.
57.219 Additional conditions.
57.220 Noncompliance.

AUTHORITY: Sec. 215, 58 Stat. 690; as amended, 42 U.S.C. 216.

(2) Revise Subpart C to read as follows:

Subpart C—Health Professions Student Loans

§ 57.201 Applicability.

The regulations of this subpart are applicable to Federal Capital Contributions and Federal Capital Loans made by the Secretary to public or other nonprofit health professions schools under Subpart I of Part C of Title VII of the Public Health Service Act (42 U.S.C. 294–294f), and to loans made to students by such schools pursuant thereto.

§ 57.202 Definitions.

As used in this subpart, the following terms shall have the following meanings:

(a) "Act" means the Public Health Service Act, as amended.

(b) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

(c) "School" means a public or other nonprofit school of medicine, dentistry, osteopathy, optometry, podiatry, pharmacy, or veterinary medicine which provides a course of study, or a portion thereof, which leads respectively to a degree of doctor of medicine, doctor of dental surgery or an equivalent degree, doctor of osteopathy, doctor of optometry or an equivalent degree, doctor of podiatry or an equivalent degree, bachelor of science in pharmacy or an equivalent degree, or doctor of veterinary medicine or an equivalent degree, and which is accredited as provided in section 721(b)(1)(B) of the Act.

(d) "State" means a State, the District of Columbia, Puerto Rico or the Virgin Islands.

(e) "Health Professions Student Loan Fund or Funds" means a fund established at a school pursuant to Subpart I of Part C of Title VII of the Act, either with Federal Capital Contributions together with Institutional Capital Contributions, or with Federal Capital Loans. Where a school receives monies from both methods of payment, reference is made to Funds.

(f) "Federal Capital Contribution" means the capital portion allotted by the Secretary to a school for deposit in a Health Professions Student Loan Fund pursuant to section 742 of the Act.

(g) "Institutional Capital Contribution" means the money provided by a school, in an amount not less than one-ninth of the Federal Capital Contribution, and deposited in a Health Professions Student Loan Fund.

(h) "Federal Capital Loan" means a loan made by the Secretary to a school pursuant to section 744(a) of the Act, the proceeds of which are to be deposited by such school in a Health Professions Student Loan Fund.

(i) "Health professions student loan" means the amount of money advanced to a student by a school from a Health Professions Student Loan Fund under a properly executed promissory note.

(j) "Educational loan" means a health professions student loan as defined in paragraph (i) of this section or the amount of money provided to a student under any other bona fide loan which the Secretary determines was reasonably necessary for meeting the student's costs of attending a school of medicine, osteopathy, dentistry, veterinary medicine, optometry, pharmacy, or podiatry, taking into account the tuition, fees, books, equipment, living expenses and such other expenses as the Secretary determines were reasonably necessary to enable an individual to attend such school.

(k) "Full-time student" means a student who is enrolled in a school and pursuing a course of study which constitutes a full-time academic workload, as determined by the school, leading to a degree specified in paragraph (c) of this section.

(l) "Date upon which a student ceases to be a full-time student" means the first day of the month which is nearest to the date upon which he ceases to be a full-time student as defined in paragraph (k) of this section.

(m) "Academic year" means the traditional, approximately 9-month September to June annual session. For the purpose of computing academic year equivalents for students who, during a 12-month period, attend for a longer period than the traditional academic year, the academic year will be considered to be of 9 months' duration.

(n) "Fiscal year" means the Federal fiscal year commencing on the first day of July and ending on the 30th day of June.

(o) "Permanently and totally disabled" means the inability to engage in any substantial gainful activity because of a medically determinable impairment, which impairment is expected to continue for a long and indefinite period of time, or to result in death.

(p) "Uniformed service" means the Army, Navy, Air Force, Marine Corps, Coast Guard, National Ocean Survey, and the U.S. Public Health Service.

(q) "National of the United States" means (1) a citizen of the United States or (2) a person who, though not a citizen of the United States, owes permanent allegiance to the United States (8 U.S.C. 1101(a)(22)).

(r) "State health authority" means the Director of the agency responsible for administering or supervising the administration of the State plan for health services under section 314(d) of the Act.

§ 57.203 Eligibility of schools.

To be eligible for a Federal Capital Contribution or a Federal Capital Loan under this subpart, the applicant school shall meet the applicable requirements of section 740(a) and 744(a) of the Act.

§ 57.204 Application by school.

(a) Each school desiring a Federal Capital Contribution or a Federal Capital Loan under the Act shall submit an application in such form and at such time as the Secretary may require.[1] The application shall be executed by an official authorized to act for the applicant school and to assume on behalf of the applicant school the obligations imposed by the terms and conditions of any Federal Capital Contribution or Federal Capital Loan, including the regulations of this subpart.

(b) Each application shall be reviewed to determine institutional eligibility and the reasonableness of the amount of Federal support requested. When necessary to these ends, the Secretary may require the submission of additional data.

§ 57.205 Agreements for Federal Capital Contributions and Federal Capital Loans.

(a) *Federal capital contribution agreements.* No application for a Federal Capital Contribution shall be approved unless there is in effect an agreement between the Secretary and the applicant school for Federal Capital Contributions pursuant to section 740 of the Act.

(b) *Federal capital loan agreements.* No application for a Federal Capital Loan shall be approved unless there is in effect an agreement between the Secretary and the applicant school for Federal Capital Loans containing the terms required by section 744(b) of the Act and such additional terms and conditions, consistent with the applicable provisions of section 740 of the Act, as the Secretary deems appropriate.

§ 57.206 Allotment and payment of Federal Capital Contributions and Federal Capital Loans.

(a) *Annual allotment.* At a time determined by him, the Secretary shall make allotments to each school with which he has entered into an agreement pursuant to § 57.205. If the total of the amounts requested for any fiscal year by all schools for Federal Capital Contributions and Federal Capital Loans exceeds the amount of Federal funds determined by the Secretary at the time of such allotment to be available for such purposes for such fiscal year, the allotment to each such school, whether in the form of Federal Capital Contributions or Federal Capital Loans or a combination of both, shall be reduced to whichever of the following is the smaller: (1) The amount requested in the application or (2) An amount which bears the same ratio to the total amount of Federal funds determined by the Secretary at the time of such allotment to be available for such fiscal year for the Health Professions Student Loan Program as the number of full-time students estimated by the Secretary to be enrolled in such school bears to the estimated total number of full-time students in all such schools during such year. Amounts remaining after such allotment shall be reallotted in accordance with subparagraph (2) of this paragraph among schools whose applications requested more than the amounts so allotted to them, but with such adjustments as may be necessary to prevent the total allotted to any school from exceeding the total requested by it.

(b) *Supplementary allotment from revolving fund only.* From funds which become available during any fiscal year for payment to schools from the revolving fund established by section 744(a) of the Act after the allotments pursuant to paragraph (a) of this section for such fiscal year have been made, the Secretary may, in his discretion and at such time as he shall determine, make supplementary allotments to schools with which he has Federal Capital Loan Agreements and whose requests for funds for such fiscal year exceed the amounts allotted to them pursuant to paragraph (a) of this section. If the total need for supplementary funds exceeds the amounts determined by the Secretary to be available for supplementary allotments, the supplementary allotment to each school shall be reduced to whichever of the following is the smaller: (1) The supplementary amount requested or (2) an amount which bears the same ratio to the amount determined by the Secretary to be available for supplementary allotment as the number of full-time students estimated by the Secretary to be enrolled in such school bears to the estimated total number of full-time students enrolled for such year in all schools which request supplementary allotments. Any amounts remaining after such supplementary allotment may be allotted among schools in such manner as the Secretary determines will best carry out the purposes of the Act.

(c) *Payment.* The allotment of Federal Capital Contributions and/or Federal Capital Loans to a school shall be paid in such amounts, at such times, and in such installments as will not result in unnecessary accumulation of money in any Health Professions Student Loan Fund.

§ 57.207 Federal Capital Loan Promissory Note.

Each Federal Capital Loan shall be made subject to the terms of a promissory note which shall be executed by an authorized official on behalf of the borrowing school. Each such note shall include such terms with respect to the payment of interest and the repayment of principal as are consistent with the provisions of section 744 of the Act, and shall include such other terms as the Secretary finds reasonably necessary to protect the financial interests of the United States and to promote the purposes of the applicable provisions of the Act.

§ 57.208 Health Professions Student Loan Funds.

(a) *Funds established with Federal Capital Contributions.* Any fund established by a school with Federal Capital Contributions shall be deposited and carried in a special account of such school. There shall be in such fund at all times monies representing the Institutional Capital Contribution, equal to at least one-ninth of the amount of the balance of the Federal Capital Contributions in such fund.

(1) Except for funds transferred as provided for in subparagraph (2) of this paragraph, such fund shall be used by such school only for (i) health professions student loans to full-time students; (ii) capital distribution as provided in section 743 of the Act or as agreed to by the school and the Secretary; and (iii) costs of litigation and, to the extent specifically approved by the Secretary, other collection costs that are in excess of the usual expenses incurred in the collection of health professions student loans.

(2) Not to exceed 20 per centum of the amount paid to any such school from the appropriation for any fiscal year for Federal Capital Contributions may be transferred to the sums available to the school for scholarship awards under section 780 of the Act, to be used for the same purpose as such sums: *Provided, however,* That where the Secretary finds in a particular case that a school has demonstrated an unusual need for scholarship funds, he may approve the transfer of an amount in excess of 20 per centum of the amount so paid. In the case of any transfer pursuant to this subparagraph, the proportionate amount of the Institutional Capital Contribution (i.e., one-ninth of the amount so transferred) may be withdrawn by the school from such fund.

(b) *Funds established with Federal Capital Loans.* Any funds established by a school with Federal Capital Loans shall be deposited and carried in a special account of such school, and shall be used by such school only for (1) health professions student loans to fulltime students; (2) repayments of principal and interest on Federal Capital Loans; and (3) costs of litigation and, to the extent specifically approved by the Secretary, other collection costs that are in excess of the usual expenses incurred in the collection of health professions student loans.

§ 57.209 Nondiscrimination.

(a) No eligible applicant shall be denied a health professions student loan on the grounds of sex or creed.

(b) Attention is called to the requirements of section 799A of the Act and the regulations issued by the Secretary pursuant thereto (45 CFR Part 83), which together provide that the Secretary may not enter into a contract under Title VII of the Act with any

[1] Applications and instructions are available from the Division of Physician and Health Professions Education, Bureau of Health Manpower Education, National Institutes of Health, Building 31, 9000 Rockville Pike, Bethesda, MD 20014.

V 38 - 133 JUL 12 73 XUM

entity unless he receives satisfactory assurances that the entity will not discriminate on the basis of sex in the admission of individuals to its training programs.

(c) Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252; 42 U.S.C. 2000d et seq.) which provides that no person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI, which is applicable to Federal Capital Contributions and Federal Capital Loans made under Subpart I of Part C, Title VII of the Act, has been issued by the Secretary with the approval of the President (45 CFR Part 80).

§ 57.210 Eligibility and selection of health professions student loan recipients.

(a) *Eligibility.* Health professions student loans from any fund may be made only to students who are:

(1) Nationals of the United States or permanent residents of the Trust Territory of the Pacific Islands or who are in the United States, Puerto Rico, the Virgin Islands, or Guam for other than temporary purposes and intend to become permanent residents thereof.

(2) Enrolled, or accepted for enrollment in the school as full-time students; and

(3) In need of the amount of the loan to pursue a full-time course of study at the school.

(b) *Selection of health professions student loan recipients and determination of need.* It shall be the responsibility of the school to select qualified applicants and to make a reasonable determinations of need. In determining whether a student is in need of a health professions student loan to pursue a full-time course of study at the school, the school shall take into consideration:

(1) The financial resources available to the student; and

(2) The costs reasonably necessary for the student's attendance at the school, including any special needs and obligations which directly affect the student's ability to attend the school on a full-time basis.

(c) *Records of approval or disapproval.* The records of the school shall indicate the basis for approval or disapproval of all or any part of each student application for a health professions student loan.

§ 57.211 Maximum amount of health professions student loan.

Effective on November 18, 1971, the total of the health professions student loans made from the Fund or Funds to any student for an academic year may not exceed $3,500. The maximum amount loaned during a 12-month period to any student enrolled in a school which provides a course of study longer than the 9-month academic year may be proportionately increased.

§ 57.212 Evidence of student indebtedness—promissory note; security.

(a) *Evidence of indebtedness—promissory note.* Each health professions student loan to a student from any Fund or Funds shall be evidenced by a promissory note, executed by the student borrower in such form as shall be approved by the Secretary.

(1) Any substantive deviations from the promissory note form so approved shall be made only pursuant to approval by the Secretary prior to the making of any loan evidenced thereby, except that a school which elects to require security or endorsement in cases permitted under paragraph (b) of this section may include a provision reflecting such election without prior approval.

(2) Each promissory note shall include a provision stating that the loan evidenced thereby shall bear interest, on the unpaid balance of such loan, computed only for periods during which repayment of the loan is required, at the rate of 3 percent per year.

(3) A copy of each executed note shall be supplied by the school to the student maker thereof.

(b) *Security.* Neither security nor endorsement shall be required except that if the borrower is a minor and if under the applicable State law the note executed by him would not create a binding obligation, then the school is permitted to require security or endorsement.

§ 57.213 Payment of health professions student loans.

(a) Health professions student loans from any Fund or Funds shall be paid to or on behalf of student borrowers in such installments as are deemed appropriate by the school, except that no school shall pay to or on behalf of any borrower more during any given installment period (e.g., semester, term, or quarter) than the school determines he needs for such period.

(b) No payment shall be made from any Fund or Funds to or on behalf of any student borrower if at the time of such payment such borrower is not a full-time student as defined in § 57.202(k).

§ 57.214 Repayment and collection of health professions student loans.

(a) *Repayment of health professions student loans.* Subject to the provisions of this paragraph any health professions student loan, including interest accrued thereon, shall be repayable in equal or graduated periodic installments in amounts calculated on the basis of a 10-year repayment period. Except as otherwise provided in this paragraph, repayment of all such loans made after June 30, 1969, shall begin 1 year after the student ceases to be a full-time student.

(1) When a borrower, within such 1-year period, reenters the same or another school as a full-time student, the date upon which interest accrual and the repayment period begin shall be related to and determined by the date on which he last ceases to be a full-time student at any such school.

(2) The following periods shall be excluded from the 10-year repayment period: (i) All periods of up to a total of 3 years of active duty performed by the borrower as a member of a uniformed service; (ii) all periods of up to a total of 3 years of service as a volunteer under the Peace Corps Act; and (iii) all periods of advanced professional training: *Provided*, That, with respect to health professions student loans made prior to November 18, 1971, but subsequent to June 30, 1969, such periods of advanced training may not exceed a total of 5 years: *Provided further*, That, with respect to student loans made before July 1, 1969, all periods up to a total of 5 years of advanced professional training after June 30, 1969, may be excluded from such repayment period where so agreed by the school which made the loan and the Secretary, except that in no such case may the total of the periods of advanced professional training so excluded from the repayment period and the period between the date on which the borrower ceases to be a full-time student and the date on which, under the terms of the promissory note evidencing such loan, the repayment period is to begin, exceed 6 years. For purposes of this subdivision advanced professional training shall include only (i) internship and residency programs or (ii) full-time training beyond the first professional degree of at least 1 academic year which is provided by an accredited institution or an affiliate thereof, and which will advance the borrower's knowledge of and strengthen his skills in the health profession for the study of which he received the loan.

(3) Each student borrower may (subject to the provisions of paragraph (b)(3) of this section) choose the repayment schedule which he prefers from those in use by the school and approved by the Secretary, but a student borrower may, at his option and without penalty, prepay all or part of the principal and accrued interest at any time.

(b) *Collection of health professions student loans.* (1) Each school at which a Fund is established shall exercise due diligence in the collection of all health professions student loans due the Fund. The school shall use such collection practices as are generally accepted among institutions of higher education and which are at least as extensive and effective as those used in the collection of other student loan accounts due the school.

(2) With respect to any health professions student loan made after June 30, 1969, the school may assess a charge for failure of the borrower to pay all or any part of an installment when it is due, and, in the case of a borrower who is entitled to deferment benefits under section 741(c) of the Act, or cancellation benefits or repayment under section 741(f) of the Act for any failure to file timely and satisfactory evidence of such entitlement. The amount of such charge may not exceed $1 for the first month or part of a month by which such installment or evidence is late and $2 for each such month or part of a month thereafter. The school may elect to add the amount of such charge to the principal amount of the loan as of the first day after the day on which such installment or evidence was due, or to make the amount of the charge payable to the school not later than the due date of the next installment after receipt by the borrower of notice of the assessment of the charge.

(3) With respect to any health professions student loan made after June 30, 1969, the school may provide that during the repayment period of such loan, payments of principal and interest by the borrower with respect to all the outstanding loans made to him from any Health Professions Student Loan Fund shall be at a rate equal to not less than $15 per month.

§ 57.215 Cancellation of health professions student loans for disability and death.

(a) *Permanent and total disability.* Determinations as to whether or not a student borrower is entitled to a cancellation of indebtedness in accordance with section 741(d) of the Act on the basis of permanent and total disability as defined in § 57.202(o) shall be made by the Secretary on the recommendation of the school to whose fund the borrower is indebted, supported by such medical certifications as the Secretary may require relating to the borrower's disability.

(b) *Death.* The determination as to whether or not a student borrower is entitled to a cancellation of indebtedness in accordance with section 741(d) of the Act because of the death of the borrower shall be made by the school to which the borrower is indebted on the basis of a certification of death or such other official proof as is conclusive under State law.

§ 57.216 Repayment or cancellation of loans for practice.

(a) *Practicing in a shortage area.* (1) Subject to the provisions of section 741(f) of the Act and of this paragraph, any person who has obtained a degree specified in § 57.202(c) and who obtained any educational loan as defined in § 57.202(j), and who enters into an agreement with the Secretary to spend all or substantially all of his professional time (as a member of the National Health Service Corps or otherwise) for a period of at least two consecutive years practicing his profession in, and helping to meet the need for professional services of the population of an area in a State designated under section 329(b) of the Act, or otherwise determined by the Secretary, after consultation with the State health authority, to have a shortage of and need for persons trained in his profession, is entitled to have a portion of such loan repaid by the Secretary as follows:

(i) Upon completion by the borrower of the first year of practice as specified in the agreement, the Secretary shall pay 30 percent of the principal of, and the interest on, each such loan which was unpaid as of the date the borrower began such practice.

(ii) Upon completion by the borrower of the second year of such practice the Secretary shall pay another 30 percent of the principal of, and the interest on, each such loan which was unpaid as of the date the borrower began such practice.

(iii) Upon completion by the borrower of a third year of such practice, the Secretary shall pay another 25 percent of the principal of, and interest on, each such loan which was unpaid as of the date the borrower began such practice.

(2) Notwithstanding the requirement in subparagraph (1) of this paragraph of completion of such practice, the Secretary shall, on or before the due date thereof, pay any loan or loan installment which may fall due within the period of practice for which the borrower is eligible to receive such payments. Such payments will be contingent upon a declaration by the borrower at such time and in such manner as the Secretary may prescribe that the borrower is then engaged in practice eligible for such payments and will continue to be so engaged for the period required (in the absence of this paragraph) to entitle the borrower to have such payments made: *Provided*, That not more than 85 percent of the principal of any such loan which was unpaid on the date the borrower began such practice shall be paid by the Secretary pursuant to this paragraph.

(3) A borrower who fails to complete two years of practice pursuant to the agreement entered into with the Secretary shall be liable to reimburse the Secretary for any payments made pursuant to such agreement.

(4) A borrower who fails to complete a third year of practice shall be liable to reimburse the Secretary for any payments made pursuant to subparagraph (2) of this paragraph in consideration of such practice.

(5) In accordance with section 741(f) of the Act, an area in a State, other than one designated under section 329(b) of the Act, may be determined by the Secretary, after consultation with the State health authority, to have a shortage of and need for persons trained in the health professions, based upon consideration of, among other pertinent factors: (i) The latest reliable statistical data available to him regarding numbers of health professions practitioners and the population to be served by such practitioners; (ii) inaccessibility of medical services to the residents of the area; and (iii) particular local health problems. A list of areas in which practice will qualify a borrower for repayment under this paragraph shall be promulgated periodically by the Secretary and published in the Federal Register together with the methodology used in determining such areas.

(b) *Continuation of provisions for cancellation of loans made prior to November 18, 1971.*—(1) *Practicing in a shortage area.* Any person who obtained prior to November 18, 1971, one or more loans from a Fund or Funds established under Part C of Title VII of the Act, and who engages in the practice of medicine, dentistry, optometry, or osteopathy in an area having a shortage of and need for physicians (M.D. and D.O.), dentists, or optometrists and whose practice is certified by the State health authority (as designated for purposes of section 314(d) of the Public Health Service Act) as helping to meet the shortage of and need for such professional services, shall be entitled, upon compliance with the statute, regulations, and instruction, to have a portion of such loans canceled as follows: 10 per centum of the total of such loans (plus accrued interest on such amount) which is unpaid as of the date that such person's professional services begin in such area, for each year of such practice thereafter, up to 50 per centum of the total of such unpaid amount, plus accrued interest thereon.

(i) For purposes of subparagraph (1) of this paragraph, the State health authority may designate as areas in the State in which there is a shortage of and need for physicians, dentists, or optometrists any county (or established comparable political subdivision in those States in which there are no counties) in which the ratio of practicing physicians, dentists, or optometrists, respectively, to the most recent available estimated population in the county is lower than the following ratios:

Physicians (M.D. and D.O.)	1:1,500
Dentists	1:3,000
Optometrists	1:15,000

Provided, That the State health authority may, with the approval of the Secretary, designate as shortage areas: (a) Geographical areas other than counties where he finds that the use of another classification of areas of the State will better reflect the health manpower needs of the State as related to particular administrative, geographical, or other factors, and (b) those counties or other geographical, areas in which the ratio of such professional personnel to population is equal to or greater than the ratios specified above in special circumstances such as (1) inaccessibility of medical services to the residents of the area, (2) age or incapacity of professionals rendering service, and (3) particular local health problems.

(ii) For purposes of subparagraph (1) of this paragraph, in determining whether the practice of a physician, dentist, or optometrist in a shortage area helps to meet the shortage of and need for such professional services in the area, the State health authority shall take into consideration the amount of time which the practitioner devotes to serving the health needs of persons living in the area; the extent to which his services are generally available to residents of the area; and such other factors as will permit the State health authority to determine that the physician, dentist, or optometrist is substantially helping to

V 38 1 133 JUL 12 73 XUM

meet the shortage of and need for professional services for residents of the area.

(iii) For purposes of subparagraph (1) of this paragraph, a year of practice in a shortage area means any 12-month period of continuous practice (*a*) after the date the person begins practice in such area if the area is at that time designated as an area in which there is a shortage of and need for physicians, dentists, or optometrists, or (*b*) after the date the area is designated a shortage area if the area was so designated subsequent to the date that such person began practicing in such area: *Provided*, That, when an area's designation is changed, after a practitioner would otherwise be eligible for cancellation of a portion of his loan by practicing in such area, so that such area is no longer a shortage area, such change in designation shall not affect the eligibility of such practitioner to have a portion of his loan canceled for any year in which he continues to practice his profession in such area.

(iv) For the purposes of subparagraph (1) of this paragraph, the State health authority shall certify to the Secretary in such form and at such times as the Secretary may prescribe: (*a*) The areas of his State which he has determined to be shortage areas and (*b*) the names of loan recipients whose practice in such areas he has determined helps to meet the shortage of and need for the designated area in accordance with physicians, dentists, or optometrists in the criteria prescribed in this paragraph.

(v) A list of areas in which practice will qualify borrowers for cancellation under the provisions of this paragraph will be promulgated by the Secretary and published in the FEDERAL REGISTER.

(2) *Practicing in a rural shortage area characterized by low family income.* Any person who obtained prior to November 18, 1971, one or more loans from a C of Title VII of the Act and who en-Fund or Funds established under Part gages in the practice of medicine, dentistry, optometry, or osteopathy in an area which has been determined by the Secretary pursuant to this paragraph to be a rural shortage area characterized by low family income, and whose practice is certified by the State health authority pursuant to subparagraph (1) of this paragraph as helping to meet the shortage of and need for such professional services, shall be entitled, upon compliance with the statute, regulations, and instructions, to have a portion of such loans canceled as follows: 15 per centum of the total of such loans (plus accrued interest on such amount) which is unpaid as of the date that such person's professional services begin in such area, for each year of such practice thereafter, up to 100 per centum of the total of such unpaid amount (plus accrued interest thereon).

(i) For purposes of subparagraph (2) of this paragraph, the Secretary, after consultation with the appropriate State health authority, may determine an area to be arural shortage area characterized by low family income if the area has been designated as a shortage area pursuant to subparagraph (1) of this paragraph and is an area in which (*a*) at least 50 per centum of the total population is rural (as determined in accordance with the most recent available data of the U.S. Bureau of the Census), or there is no municipality of more than 10,000 population, and (*b*) at least 30 per centum of all persons have an income of less than 125 per centum of the poverty level as determined in accordance with the most recent available data of the U.S. Bureau of the Census.

(3) Nothing in this paragraph shall be construed to prevent any person from entering into an agreement with the Secretary under section 741(f) of the Act, as amended by the Comprehensive Health Manpower Training Act of 1971 (P.L. 92–157), as provided in paragraph (a) of this section.

§ 57.217 Repayment of loans made subsequent to November 17, 1971 for failure to complete program of study.

In the event the Secretary undertakes to repay educational loans pursuant to section 741(*l*) of the Act, he shall utilize the following criteria in making his determination as to each applicant's eligibility:

(a) An applicant will be considered to have failed to complete the course of study leading to his first professional degree for which an eligible educational loan was made upon certification by a health professions school that the individual ceased to be enrolled in such school subsequent to November 17, 1971;

(b) An applicant will be considered to be in exceptionally needy circumstances if, upon comparison of the income and other financial resources of the applicant with his expenses and financial obligations, the Secretary determines that repayment of such loan would constitute a serious economic burden on the applicant. In making such determination the Secretary shall take into consideration the net financial assets of the applicant and the relationship of the income available to the applicant to the low-income levels published annually by the Secretary pursuant to paragraph (c) of this section;

(c) An applicant will be considered to be from a low-income family if the applicant comes from a family with an annual income below a level based on low-income thresholds by family size published by the U.S. Bureau of the Census, adjusted annually for changes in the Consumer Price Index and multiplied by a factor to be determined by the Secretary for adaptation to this program, and the family has no substantial net financial assets. Such factor and income levels as adjusted will be published annually by the Secretary in the FEDERAL REGISTER.

(d) An applicant will be considered to be from a disadvantaged family if the individual comes from a family in which the annual income minus unusual expenses which contribute to the economic burdens borne by the family does not exceed the low-income levels published by the Secretary pursuant to paragraph (c) of this section and the family has no substantial net financial assets;

(e) An applicant will be considered as not having resumed his health professions studies within two years following the date the individual ceased to be a student upon a certification so stating from the applicant; and

(f) An applicant will be considered as not reasonably expected to resume his health professions studies within two years following the date upon which he terminated such studies based upon consideration of the reasons for the applicant's failure to complete these studies, taking into account such factors as academic, medical, or financial difficulties.

Provided however, That the Secretary shall only repay educational loans made subsequent to November 17, 1971.

§ 57.218 Records, reports, inspection and audit.

(a) *Records and reports.* (1) Each Federal Capital Contribution and Federal Capital Loan shall be subject to the condition that the school shall maintain such records, and file with the Secretary such reports relating to the operation of its Health Professions Student Loan Fund or Funds, as the Secretary may find necessary to carry out the purposes of the Act and the regulations. Where any school has both a Fund established with Federal Capital Contributions and a Fund established with Federal Capital Loans, records shall be kept separately for each Fund. All records shall be retained until such time as agreed upon with the Secretary that there is no further need for retention.

(2) The following individual student records not related to the operation of the Fund or Funds must be retained for five years after the individual student has ceased to be a full-time student:

(i) Approved and disapproved student applications for assistance;

(ii) Documentation of the financial need of applicants;

(iii) Reasons for approval or disapproval of applications; and

(iv) Such other records as the Secretary may prescribe.

Such individual student records may be destroyed at the end of such five-year period, except that in all cases where questions have arisen as a result of Federal audit, such records shall be retained until resolution of all such questions.

(b) *Inspection and audit.* Any application for a Federal Capital Contribution or a Federal Capital Loan shall constitute the consent of the applicant school to inspection and fiscal audit by the Secretary and the Comptroller General of the United States or any of their duly authorized representatives of the fiscal and other records of the applicant school which relate to such Contribution or Loan.

§ 57.219 Additional conditions.

The Secretary may with respect to any agreement entered into with any school pursuant to § 57.205, impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the purposes of the agreement, the interest of the public health or the conservation of funds awarded.

§ 57.220 Noncompliance.

Whenever the Secretary finds that a participating school has failed to comply with the applicable provisions of the Act or the regulations of this subpart, he may, on reasonable notice to the school withhold further payments of Federal Capital Contributions or Federal Capital Loans, and take such other action, including the termination of any agreement, as he finds necessary to carry out the purposes of the applicable provisions of the Act and regulations. In such case no further expenditures shall be made from the Health Professions Student Loan Fund or Funds involved until the Secretary determines that there is no longer any such failure of compliance.

[FR Doc.73–14231 Filed 7–11–73;8:45 am]

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 117]

[CGD 73–139P]

COOPER RIVER, S.C.

Proposed Drawbridge Operation Regulations

At the request of the Seaboard Coast Line Railroad, the Coast Guard is considering amending the regulations for its bridge across the Cooper River near Cordesville to require that the draw open on signal from 7 a.m. to 12 noon and from 1 p.m. to 4 p.m. The present requirement is that the draw open on signal from 8 a.m. to 4 p.m. This change is being considered because of an increase in vessel traffic between 7 a.m. and 8 a.m. and fewer requests for openings between 12 noon and 1 a.m.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Seventh Coast Guard District, Room 1018, Federal Building, 51 S.W. 1st Avenue, Miami, Florida, 33130. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Seventh Coast Guard District.

The Commander, Seventh Coast Guard District, will forward any comments received before August 14, 1973, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by revising subparagraph (17) of paragraph (g) of § 117.245 to read as follows:

§ 117.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.

* * * * *

(g) * * *

(17) Cooper River, S.C., Seaboard Coast Line Railroad bridge near Cordesville. The draw shall open on signal from 7 a.m. to 12 noon and from 1 p.m. to 4 p.m. At all other times the draw shall open on signal if at least 24 hours notice is given.

* * * * *

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05–1(c)(4))

Dated: July 5, 1973.

J. D. MCCANN,
Captain, U.S. Coast Guard, Acting Chief, Office of Marine Environment and Systems.

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 73–WA–3]

HOUSTON, TEXAS, TERMINAL CONTROL AREA

Proposed Adoption

The Federal Aviation Administration (FAA) is considering the adoption of a Group II Terminal Control Area (TCA) for Houston, Tex. Rules for the control and segregation of all aircraft operated within terminal control areas are contained in Part 91, §§ 91.70 and 91.90 of the Federal Aviation Regulations. Further information concerning flight within TCAs is contained in FAA Advisory Circular 91–30, Terminal Control Areas (TCAs), dated 6/11/70.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Tex. 76101. All communications received within 60 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue, S.W., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The establishment of terminal control areas at 22 large hub airports was proposed in Notice 69–41 and supplemental notices thereto, and adopted on May 20, 1970 (35 FR 7782), to create a safer environment in those congested terminal areas. The need for TCAs has been well established, and a priority implementation schedule has been developed which is based on the air traffic congestion at each location, the capability of the terminal air traffic control facility to provide separation service to VFR aircraft, the experience gained from earlier established TCAs, and the publication dates of associated aeronautical charts.

The issue of whether or not to establish a TCA at each of the specified locations was decided as a result of Notice 69–41 and is not within the scope of this Notice. This Notice is intended to produce the input necessary to design an appropriate airspace configuration that can provide the safest environment with the least impact on the airspace users. TCAs have now been designated at all Group I locations, and this Notice proposes a configuration for a Group II TCA at Houston, Tex.

On January 31, 1973, the Federal Aviation Administration held an FAA/Industry meeting in Houston, Tex., with representatives of airspace user groups to consider their operational requirements. The proposal contained herein reflects a revision to the TCA configuration presented at the meeting.

The proposed TCA floor in the vicinity of David Hooks Airport has been adjusted to allow earlier turn-ons to the ILS course for aircraft landing to the east at Houston Intercontinental Airport. This revised configuration has been coordinated with the owners of the David Hooks Airport.

In consideration of the foregoing and for reasons stated in Docket No. 9880 (35 FR 7782), it is proposed to amend Part 71 of the Federal Aviation Regulations by adding the following to § 71.401(b) Group II Terminal Control Areas.

HOUSTON, TEX., TERMINAL CONTROL AREA

Primary Airport. Houston Intercontinental Airport. (Lat. 29°59'08"N., Long. 95°20'46" W.)

Boundaries. Humble VORTAC (IAH) (Lat. 29°57'24"N., Long. 95°20'44"W.)

1. *Area A.* That airspace extending upward from the surface to and including 7,000 feet MSL, within 8-miles of the IAH VORTAC excluding that airspace within and underlying Area D, hereinafter described.

2. *Area B.* That airspace extending upward from 1,800 feet MSL to and including 7,000

V 38-133 JUL 12 73 XUM

feet MSL, within a 15-mile radius of the IAH VORTAC, excluding Area A, previously described, that airspace within and underlying Areas C and D described hereinafter and that airspace south of an east-west line extending from the IAH VORTAC 124°T (117°M) radial 20-mile DME point to the IAH VORTAC 232°T (225°M) radial 20-mile DME point.

3. *Area C.* That airspace northwest of IAH extending from 3,000 feet MSL to and including 7,000 feet MSL, bounded on the northeast by the IAH VORTAC 312°T (305°M) radial, on the east by the 8-mile DME arc of the IAH VORTAC, on the south by a line 2 miles north of and parallel to the IAH Runway 8L centerline extended, and on the west by the 15-mile DME arc of the IAH VORTAC.

4. *Area D.* That airspace extending upward from 4,000 feet MSL to and including 7,000 feet MSL between the 15 and 20-mile radii of the IAH VORTAC and that airspace southwest of the IAH VORTAC bounded on the east by the 7-mile DME arc of the IAH VORTAC, on the southeast by the 214°T (207°M) radial of the IAH VORTAC, on the west by the 15-mile DME arc of the IAH VORTAC, and on the north by the 257°T (250°M) radial of the IAH VORTAC. Excluding that airspace within a 2-mile radius of Lakeside Airport (Lat. 29°49'02"N., Long. 95°40'29"W.) and that airspace south of an east-west line extending from the IAH VORTAC 124°T (117°M) radial 20-mile DME point to the IAH VORTAC 232°T (225°M) radial 20-mile DME point.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on July 5, 1973.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

National Highway Traffic Safety Administration

[49 CFR Part 571]

[Docket No. 3-3; Notice 7]

FLAMMABILITY OF INTERIOR MATERIALS

Proposed Covered Components

This notice proposes an amendment of the list of components that must meet the requirements of Motor Vehicle Safety Standard No. 302, "Flammability of Interior Materials" (49 CFR 571.302), substituting "mattresses" for "mattress covers" in Paragraph S4.1 of the standard.

The enumeration of "mattress covers" as a component subject to the requirements of Standard 302 is inconsistent with the naming of similar components such as "seat backs" and "seat cushions". Since a procedure has been established in the standard for testing any materials within one-half inch of the surface (with amendments proposed on May 10, 1973, 38 FR 12934), it appears desirable to apply this procedure to mattresses, and not just their covers, in the same manner that it is applied to components such as seat cushions.

In light of the above, it is proposed that S4.1 of Motor Vehicle Safety Standard No. 302, 49 CFR 571.302, be amended by substituting "mattresses" for "mattress covers".

Interested persons are invited to submit comments on the proposed amendment. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5221, 400 Seventh Street, SW., Washington, D.C. 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered, and will be available for examination in the docket at the address above, both before and after the closing date. To the extent possible, comments filed after the closing date will also be considered by the Administration. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The Administration will continue to file relevant material, as it becomes available, in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new materials.

Comment closing date: August 13, 1973.

Proposed effective date: September 1, 1973.

(Secs. 103, 119, Public Law 89-563, 80 Stat. 718, 15 U.S.C. 1392, 1407; delegations of authority at 38 FR 12147)

Issued on July 3, 1973.

JAMES E. WILSON,
Associate Administrator, Traffic Safety Programs.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 18979; FCC 73-695]

TELEVISION BROADCAST STATIONS IN KERRVILLE-FREDERICKSBURG, TEXAS

Proposed Table of Assignments; Terminating Proceeding

Memorandum opinion and order terminating proceeding. In the matter of amendment § 73.606(b), *Table of assignments*, Television Broadcast Stations. (Kerrville - Fredericksburg, Texas), Docket No. 18979, RM-1387.

1. The Commission has before it for consideration the petition for reconsideration filed by United-Tecon, a joint venture, on July 20, 1972, directed against the Commission's Report and Order released on June 13, 1972, (FCC 72-504, 35 F.C.C. 2d 510) and published at 37 FR 16554, August 16, 1972, which denied the United-Tecon request for the assignment of Channel 2 to Kerrville-Fredericksburg, Texas, as a hyphenated assignment. An opposition to the petition for reconsideration was filed by Kingstip Communications, Inc., licensee of UHF Station KHFI-TV, Austin, Texas.

2. The United-Tecon proposal assumed the use of a highly directionalized antenna with a maximum to minimum radiation ratio in the horizontal plane of 60 dB in order to minimize impact on UHF service in nearby areas. The maximum ratio permitted for VHF stations under § 73.685(e) of the Rules is 10 dB, so that use of such an antenna would have required a waiver. In the Report and Order, the Commission observed that it could not evaluate the antenna proposal with specificity until it was before it in the application stage; that there was no assurance that the petitioner would be the successful applicant for the channel if it was assigned; that in the past the greatest deviation that had been permitted by waiver of § 73.685(e) was 39.4 dB; that United-Tecon stated its proposed directional antenna was based on test facility measurements; that such measurements were acceptable under ordinary conditions but unacceptable for the great deviation proposed and that the only proof of the proposal would be by measurement under actual operating conditions; that since this could not be done the proposal was an unreasonable one and the requested waiver would be denied; and hence, since the proposal was not technically feasible, the requested channel assignment would not be made.

3. Although the decision turned on lack of technical feasibility, the Commission also treated the "UHF impact" issue and was of the opinion that economic factors would likely cause the operation of a Channel 2 station in Kerrville-Fredericksburg to be marginal at best. It indicated that there was a likelihood that the operator of such a station would seek to modify its highly directional operation to an omnidirectional one in order to gain additional revenues, and that a significant impact on UHF development in Austin (which has one VHF and two UHF stations) and possibly in other nearby areas might result from this.

4. United-Tecon, in its petition for reconsideration, contends (1) that the Commission's holding with respect to the request for waiver of § 73.685(e) was wholly inconsistent with the relevant facts, and (2) the Commission's "dictum" with respect to UHF impact totally ignores the facts that should be controlling on that question.

5. Specifically, United-Tecon claims that the Commission's finding with respect to the waiver of § 73.685(e) was based on two premises:

(a) That "the greatest deviation thus far permitted by waiver of § 73.685(e) has been 39.4 db • • •" and

(b) That the measurements of a test antenna, "while acceptable under ordinary conditions, cannot be relied on where • • • a vast departure from (the Commission's) rule is involved."

United-Tecon asserts that the first determination as to the size of the departure from the permissible dB ratio is factually incorrect, because the WWVU-TV antenna (Morgantown, West Virginia) has a maximum to minimum ratio of 46 dB, and the KZAZ(TV) antenna (Nogales, Arizona) has a ratio of 56.5 dB.[1] It then avers that the latter two suppressions are "clearly well within the current state of the art," and that such departures have been authorized and are being employed by operating stations.

6. As to the Commission's finding that reliance cannot be placed on the measurements of a test antenna, United-Tecon contends that it flies in the face of the basic laws of science, because the validity of measurement data does not turn on the question of whether the data being measured falls within the parameters of a rule (or a minor departure therefrom). United-Tecon then contends that, assuming the validity premise to be true, it does not mean that its proposal cannot be effectuated. After construction, it claims, the operation can be measured by recognized techniques to insure that the specified radiation is not being exceeded. Thus, it is contended that the waiver of § 73.685(e) should have been granted.

7. Concerning the "UHF impact" question, United-Tecon contends that such impact must be judged on its directionalized proposal and not in the context of an assumed omnidirectional operation. Secondly, it is contended that the Commission ignored the fact that the three Austin stations have primary network affiliations which assure their viability.

8. United-Tecon points out that the Commission conceded that there is a need for television service at Kerrville-Fredericksburg and that Channel 2 is available for assignment there. It strongly urges the Commission to take into account the fact that the two Austin UHF stations are network affiliated and this factor is far more important than exclusion of VHF competition. Finally, it points out that the Commission, in accordance with the WCOV case,[2] must balance its UHF impact policy against competing policies and that the Court noted that the policy is not to be looked upon as an inflexible across-the-board barrier to a VHF assignment. Based on the foregoing, United-Tecon concludes that its proposed assignment should be made rather than waste the VHF frequency since the need for television service has been shown.

9. The Kingstip opposition states that the holdings in the Commission's Report and Order were eminently reasonable with regard to the two technical grounds that United-Tecon set forth in its Petition for Reconsideration and which it contends were not a sound basis for denying the waiver. Kingstip notes that of two waivers of § 73.685(e) heretofore granted for over 40 dB ratio, neither was as great as 60 dB, and most waivers have been for less than 40 dB. It also notes that scale model measurements are inconclusive in such critical situations. Kingstip also states that the Commission's assessment of the facts concerning UHF impact was reasonable because the Commission necessarily had to consider the economic viability of the proposed VHF station.

10. The Commission has considered the petition for reconsideration filed by United-Tecon and is of the opinion that its Report and Order should be reaffirmed. The Commission has carefully analyzed the waivers granted for UHF Station WWVU-TV and VHF Station KZAZ (TV) and has concluded that, based on best available data, the WWVU-TV ratio is 30 dB and the KZAZ(TV) ratio is 46 dB. The permissible ratios for UHF and VHF stations as contained in § 73.685(e) are 15 dB and 10 dB respectively; thus the respective departures are 15 dB (WWVU-TV) and 36 dB (KZAZ(TV)). The departure in this case would be 50 dB, which is a much more significant departure because the radiated signal multiplies much greater than as in an arithmetic progression as the size of the departure from the ratios permitted by the rules increases. To illustrate the latter principle, the magnitude of the departure of the rules is that departures of 15, 36 and 50 dB represent multiplying the allowed radiated signal intensity by factors of 6, 63 and 316, respectively. As to the United-Tecon contention that rejection of scale model data flies full in the face of the basic laws of science, all that need be said is that the Commission must satisfy itself that such an antenna suppression ratio can be maintained. Where a departure is so great, as here, such data are inconclusive.

11. The WCOV case, which is cited by United-Tecon, involved a situation whereby a VHF station was expanding its Grade B contour so that it involved a 3 percent increase in Grade B overlap. The Commission found that this increase in overlap was minimal, the station expanding its radiation was a weaker station (much weaker than WCOV, the complaining UHF station), the two stations had different network affiliations, and that although the complaining UHF station had suffered losses in the past, it was now in fairly stable financial condition. Based on these circumstances, the Commission found that there was not sufficient adverse impact on UHF Station WCOV to invoke the UHF impact policy. The Court affirmed the Commission's finding stating: "The UHF impact doctrine is, of course, a creation of the Commission and the Commission is free to give it such weight as it chooses, provided it is not arbitrary or irrational • • •" (citing WLVA, Inc. v. F.C.C., 459 F. 2d 1286 (1972)). In its consideration of the UHF impact question as it affected the Austin UHF stations, the Commission necessarily had to consider the possible economic viability of the proposed highly suppressed Channel 2 operation at Kerrville-Fredericksburg, Texas. Past history of small market television stations is such that when those operations face financial difficulties that result in a marginal or a loss condition, the stations will seek to serve new areas. Directionalized television antennas can be modified for omnidirectional operation with relative ease and low expense especially when such an eventuality is taken into account prior to fabrication. A licensee on Channel 2 at Kerrville-Fredericksburg would be no exception to this possibility if it became apparent that survival could be achieved only by changing to omnidirectional to serve the city of Austin. Thus, based on the factors presented in this case, the Commission's action was reasonable and in no way arbitrary or irrational.

12. In view of the foregoing: *It is ordered*, That the petition for reconsideration of the Report and Order in this proceeding (Docket No. 18979) is denied.

13. *It is further ordered*, That the termination of this proceeding is affirmed.

Adopted: June 27, 1973.

Released: July 6, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[3]
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.73-14220 Filed 7-11-73;8:45 am]

[1] This claim was originally made in the reply pleading filed by United-Tecon on February 9, 1971. A further analysis of the claim does indicate that we had previously authorized a departure of 46 dB for the KZAZ antenna, as more fully set forth in paragraph 10, infra.

[2] WCOV, Inc. v. F.C.C., 464 F. 2d 812 (1972).

[3] Chairman Burch abstaining from voting; Commissioner Johnson dissenting; Commissioners H. Rex Lee, Reid, and Wiley concurring in the result.

FEDERAL RESERVE SYSTEM

[12 CFR Part 225]

[Reg. Y]

BANK HOLDING COMPANIES

Nonbanking Activities

The Board of Governors is considering further implementation of its regulatory authority under section 4(c)(8) of the Bank Holding Company Act to permit bank holding companies to perform management consulting services for nonaffiliated banks. Such activities are of the type presently performed through correspondent banking relationships. The proposal would permit such activities to be performed by a nonbank subsidiary of a holding company or the holding company directly, would require explicit pricing for such services, and would foster competition for such services.

In the proposal, the Board takes into account the possibility that the management consulting arrangement involved could be used as a device to control a bank that is not part of the same holding company system, contrary to the purposes of the Act. In order to guard against such a result, such services would not be permitted to be furnished to a

V38-133 JUL 12 73 XUM

non-affiliated bank if the bank holding company or any of its subsidiaries owned or controlled any equity securities in such bank, or any officer, director, or employee of the bank holding company or any of its subsidiaries serves at the same time in a similar capacity with the recipient bank. Such conditions are minimum safeguards only and in an appropriate case the rebuttable presumption of control specified in § 225.2(b)(3) of Regulation Y may still be applied. Further, in order to minimize possible conflicts of interests, a consultant company furnishing services pursuant to this authority would be required to disclose to each potential client bank the names of banks with which the consultant is affiliated and the names of all other client banks located in the same market area as the client bank.

The Board has previously determined that, except for general management consulting services that are expressly authorized by statute to be furnished by bank holding companies to its affiliates, a bank holding company may not engage in general management consulting. (12 CFR 225.126; 1972 Federal Reserve Bulletin 571.) The present proposal relates to the furnishing of management consulting services to non-affiliated banks and arises, in part, from a pending application by The Citizens & Southern Corporation, Charleston, South Carolina, for permission to perform for non-affiliated banks, through a proposed subsidiary, Bank Management Advisory Services, Inc., Charleston, South Carolina, management consulting services of a type similar to that which would be authorized by the proposed regulation. Thus, the proposed amendment is limited to management consulting services for non-affiliated banks and does not contemplate the furnishing of such services by a bank holding company to unaffiliated, non-banking companies. The proposed bank management consulting activity and the application of The Citizens & Southern Corporation are subject to the procedures of § 225.4(b) of Regulation Y.

Accordingly, the Board proposes to amend § 225.4(a) of Regulation Y to permit bank holding companies, subject to the procedures of § 225.4(b), to perform management consulting services for banks only. The text of the proposed amendment reads as follows:

§ 225.4 Nonbanking activities.

(a) *Activities closely related to banking or managing or controlling banks.* * * * The following activities have been determined by the Board to be a proper incident thereto:

* * * * * *

(11) providing management consulting services for non-affiliated banks, including, but not limited to, site planning and evaluation, advice regarding bank mergers and the establishment of new branches, personnel recruitment and training, marketing, capital adequacy and planning, accounting procedures, investment advice (as authorized in paragraph (a)(5) of this section), and computer operations: *Provided*, That (i) neither the bank holding company nor any of its subsidiaries own or control any equity securities in the client bank; (ii) no officer, director, or employee of the bank holding company or any of its subsidiaries serves as an officer, director, or employee of the client bank; (iii) the services are performed on an explicit fee basis without regard to correspondent balances maintained by the client bank at any subsidiary bank of the bank holding company; and (iv) disclosure is made to each potential client bank of (*a*) the names of all banks which are affiliates of the consulting company and (*b*) the names of all other client banks located in the same market area as the client bank.

* * * * * *

To aid in the consideration of these matters by the Board, interested persons are invited to submit relevant data, views, or argument. Any such material should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than July 31, 1973. Such material will be made available for inspection and copying upon request except as provided in section 261.6(a) of the Board's Rules Regarding Availability of Information. The application of The Citizens and Southern Corporation may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Richmond.

Board of Governors of the Federal Reserve System, June 18, 1973.

[SEAL] CHESTER B. FELDBERG,
Assistant Secretary of the Board.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

GRANTING OF RELIEF

Notice is hereby given that pursuant to 18 U.S.C., section 925(c) the following named persons have been granted relief from disabilities imposed by Federal laws with respect to the acquisition, transfer, receipt, shipment, or possession of firearms incurred by reason of their convictions of crimes punishable by imprisonment for a term exceeding one year.

It has been established to my satisfaction that the circumstances regarding the convictions and each applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief will not be contrary to the public interest.

Adkins, George C., Route 1, Box 125, Fultondale, Alabama, convicted on June 10, 1936, in the United States District Court for the Northern District of Alabama, and on September 18, 1939, in the Alabama Circuit Court, Jefferson County, Birmingham, Alabama.

Apostolo, Albert P., 5 Mastick Court, Alameda, California, convicted on June 20, 1969, by the Alameda County Superior Court, California.

Bara, Martin D., 1208 East Third Street, Austin, Texas, convicted on March 21, 1940, November 3, 1943, February 2, 1954, and August 8, 1960, in the Superior Court of the State of California in and for the County of Los Angeles.

Barnette, Sidney Atmar, P.O. Box 190, Granbury, Texas, convicted on November 5, 1962, in District Court Lubbock County, Texas.

Bentley, Ephriam, 136 North Second Street, Saginaw, Michigan, convicted on April 26, 1954, by the Oakland County Circuit Court, Michigan.

Broadus, Harry K., 20444 Washburn Street, Detroit, Michigan, convicted on or about September 30, 1931, in General Court of Justice, Superior Court Division, Mecklenburg County, North Carolina.

Brown, James R., 1010 South Wayside #712, Houston, Texas, convicted on March 28, 1969, by the Criminal District Court, Hannis County, Texas, and on January 24, 1969, by the Criminal District Court, Jefferson County, Texas.

Campbell, William D., 11609 Scottwood Avenue, Cleveland, Ohio, convicted June 26, 1957, in Recorders Court for the City of Detroit, Detroit, Michigan.

Doyle, Dennis C., 1700 Glendon Road, Salem, Virginia, convicted on July 2, 1964, by the Roanoke County Court, Roanoke County, Virginia.

Dupris, Joseph W., Jr., West 1204 Alice Avenue, Spokane, Washington, convicted on June 12, 1970, in the Superior Court of the State of Washington for Whitman County.

Edwards, George, 8065 Central Avenue, Detroit, Michigan, convicted on April 13, 1938, in the Recorders Court for the City of Detroit, Michigan.

English, James J., 3401 Gaviota Avenue, Long Beach, California, convicted on April 26, 1941, in the District Court of Howard County, Texas.

Epperson, James W., 523 Jackson Street, Bristol, Tennessee, convicted on February 1, 1937, in the United States District Court, Western Division, Virginia.

Gullett, John A., 830 Glastonbury Road, Apartment 309, Nashville, Tennessee, convicted on February 28, 1969, United States District Court for the Middle District of Florida.

Hamilton, Louis E., 3031 W. Acapulco Lane, Phoenix, Arizona, convicted on July 29, 1969, in Superior Court, Maricopa County, Arizona.

Harris, Harold A., 4148 West Church, Springfield, Missouri, convicted on or about October 31, 1941, in McDonald County, Missouri, February 22, 1943, in the Circuit Court of Wright County, Missouri, December 5, 1945, in the Circuit Court of Atchison County, Missouri, October 13, 1955, in the Greene County, Missouri, Circuit Court, and on July 6, 1955, in the Polk County, Missouri, Circuit Court.

Hostetler, Duane H., 438 South Illinois Street, Wichita, Kansas, convicted on October 10, 1955, in District Court, Harper City, Kansas.

Howard, Warren L., 6520 Fourth Avenue, N.W., Seattle, Washington, convicted on June 7, 1932, in the Superior Court for the State of Washington for the County of King, on September 8, 1933, in the Circuit Court of the State of Oregon in and for the County of Coos, and on January 9, 1935, in Superior Court of the State of Washington in and for the County of Pierce.

Hurst, Joseph D., Route 1, Box 213, Lot E, Portsmouth, Virginia, convicted on May 27, 1963, in the Court of Hustings, Portsmouth, Virginia.

Isbell, John T., 103 7th Place North East, Arab, Alabama, convicted on or about November 24, 1959, in the United States District Court for the Middle Division of the Northern District of Alabama, and on January 26, 1960, in the Marshall County, Alabama, Circuit Court, Albertville Division.

Jayroe, Richard S., 1808 Nelva Street, Waco, Texas, convicted on June 30, 1969, in the 54th District Court of McLennan County, Texas.

Jones, Wiley F., Route 4, Box 406A, Snohomish, Washington, convicted on October 21, 1966, in the Superior Court for the State of Washington, King County.

Lee, William F., Jr., 3930 Madrid Avenue, Dayton, Ohio, convicted on December 7, 1965, in the Montgomery County Common Pleas Court (Criminal Division), Dayton, Ohio.

Lenz, Joseph J., 121 Benzel Avenue South, Madelia, Minnesota, convicted on February 23, 1971, in the 5th District Court, Blue Earth County, Minnesota.

Lobban, Jimmy R., Route 1, Box 318, Mabank, Texas, convicted on January 6, 1970, in the United States District Court for the Northern District of Oklahoma.

Marshall, Robert E., Sr., 981 East 100th Place, Chicago, Illinois, convicted on January 26, 1948, in the United States District Court, Western District of Tennessee.

DEBT MANAGEMENT ADVISORY COMMITTEES

Notice of Meetings

Notice is hereby given, pursuant to section 10 of Public Law 92–463, that meetings will be held in Washington on July 24 and 25, 1973, of the following debt management advisory committees:

American Bankers Association, Government Borrowing Committee.

Securities Industry Association, Government Securities and Federal Agencies Committee.

The agenda for the meetings will include briefings for the advisory committees by Treasury staff on current debt management problems on July 24, separate deliberations by the two committees on July 24, and separate reports to the Secretary of the Treasury and Treasury staff on the morning of July 25.

A determination as required by section 10(d) of the Act has been made that these meetings are concerned with matters listed in section 552(b) of title 5 of the United States Code, and that the meetings will not be open to the public.

[SEAL] PAUL A. VOLCKER,
Under Secretary for Monetary Affairs.

ADVISORY GROUP ON ELECTRON DEVICES

Notice of Advisory Committee Meeting

The Department of Defense Advisory Group on Electron Devices (Working Group on Lasers) will meet in closed session at the Stanford Research Institute, Menlo Park, California, August 6–7, 1973.

The purpose of the DoD Advisory Group on Electron Devices is to provide the Director of Defense Research and Engineering and the Military Departments with advice and recommendations on the conduct of economical and effective Research and Development programs in the field of electron devices, e.g., lasers, radar tubes, transistors, infrared sensors, etc. The group is also the vehicle for interservice coordination of planned R&D efforts.

In accordance with Public Law 92–463, section 10d, the Director of Defense Research and Engineering has determined, on February 28, 1973, that the meetings of the Advisory Group are matters which fall within policies analogous to those recognized in section 552(b) of Title 5 of the United States Code and that the public interest requires such activities to be withheld from disclosure insofar as the requirements of Subsection (a)(1) and Subsection (b) of section 10, Public Law 92–463 are concerned.

MAURICE W. ROCHE,
Director, Correspondence and Directives Division, OASD (Comptroller).

MOOSE CREEK PLANNING UNIT

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Multiple Use Plan—Moose Creek Planning Unit, Forest Service Report Number USDA–FS–FES (Adm) 73–4.

The environmental statement concerns implementation of a revised Multiple Use Plan for the Moose Creek Planning Unit, Sula Ranger District, Bitterroot National Forest, in Ravalli County, Montana. About 20,000 acres of National Forest lands are impacted, of which approximately 15,700 acres are currently roadless and essentially undeveloped. The plan is intended to provide the District Ranger with more detailed management guidance for the unit. The unit is zoned into eight subunits (management units) of similar resource problems and potential, with key value(s) identified in each subunit.

This final environmental statement was filed with CEQ July 3, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Building, Room 3230
12th St. & Independence Ave., SW.
Washington, D.C. 20250

USDA, Forest Service
Northern Region
Federal Building, Room 3077
Missoula, Montana 59801

USDA, Forest Service
Bitterroot National Forest
316 North Third Street
Hamilton, Montana 59840

A limited number of single copies are available upon request to:

Orville L. Daniels, Forest Supervisor
Bitterroot National Forest
316 North Third Street
Hamilton, Montana 59840

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151. Please refer to the name and number of the environmental statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

PHILIP L. THORNTON,
Deputy Chief, Forest Service.

[Docket No. Sub-B-50]

PAN-ALASKA FISHERIES, INC.

Supplementary Notice of Hearing

JULY 9, 1973.

Pan-Alaska Fisheries, Inc., has applied for permission to transfer the operations of the 267.4' registered length Royal Sea (ex Seafreeze Pacific), constructed with the aid of a fishing vessel construction-differential subsidy, from the fishery for bottomfish, hake and herring in the North Pacific Ocean and the freezing and transportation of salmon in the North Pacific Ocean to the fishery for bottomfish, hake and herring in the North Pacific Ocean and the freezing and transportation of salmon in the North Pacific Ocean and the catching, processing and transporting of snow crab (Tanner crab) in the Bering Sea.

Notice is hereby given pursuant to the provisions of the U.S. Fishing Fleet Improvement Act (Public Law 88-498) and Notice and Hearing on Subsidies (50 CFR Part 257) that a hearing on the above entitled matter will be held on August 13, 1973, at 10 a.m., e.d.s.t., in the Penthouse of Page Building 1,, 2001 Wisconsin Avenue, N.W., Washington, D.C. Any person desiring to intervene must file a petition of intervention with the Director, National Marine Fisheries Service, as prescribed in 50 CFR Part 257 at least 10 days prior to the date set for the hearing. If a petition of intervention is granted, the place of the hearing may be changed to a field location. Telegraphic notice will be given to the parties in the event of such a change along with the new location.

The foregoing notice supersedes a notice on this same subject which appeared in 38 FR 16925, dated June 27, 1973.

ROBERT W. SCHONING,
Acting Director.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

OFFICE OF ASSISTANT SECRETARY FOR HEALTH

Statement of Organization, Functions and Delegations of Authority

In the statement of organization, functions, and delegations of authority of the Department, Chapter 1N, entitled Office of the Assistant Secretary for Health (38 FR 7271-72), should be deleted and the following statement added:

Section 1N.00 Mission.—The Assistant Secretary for Health is the principal advisor and assistant to the Secretary on health policy and all health-related activities in the Department. He is responsible for the direction of the health agencies of the Department, for providing leadership and policy guidance for health-related activities throughout the Department and for maintaining relationships with other governmental and private agencies concerned with health.

Section 1N.10 Organization.—The Office of the Assistant Secretary for Health consists of the following principal operating components:

1. *General Functions*
   Office of Administrative Management
   Office of Policy Development and Planning
   Office of Program Operations
   Office of Regional Operations
2. *Special Functions*
   Regional Health Administrators
   Executive Secretariat
   Office of Public Affairs
   Office of Professional Standards Review
   Office of International Health
   Office of Population Affairs
   Office of Drug Abuse Prevention
   Office of Nursing Home Affairs

Section 1N.20 Functions. A. The Assistant Secretary for Health: (1) Directs the activities of the Public Health Service and its several operating agencies; and (2) as the Secretary's principal advisor on health, provides leadership and guidance on all health and health-related activities, including research and development; education and training; organization financing and delivery of health care services; and problems of public and environmental health. In addition, he is responsible for the direction of nursing home affairs throughout the Department; the coordination of drug abuse activities throughout the Department which includes providing the principal point of contact within the Department with the Special Action Office for Drug Abuse Prevention; and exercising specialized responsibilities in the areas of population affairs, international health, and transportation and disposition of certain hazardous materials. He coordinates the health and health-related functions of the Department with those of other Federal agencies and provides advice and assistance on health matters to such agencies as requested.

B. The principal components of the Office of the Assistant Secretary for Health, operating under the general direction and supervision of the Assistant Secretary, have the following functions and responsibilities:

1. *General Functions.* a. *Office of Administrative Management.* The Director of the Office of Administrative Management advises and assists the Assistant Secretary for Health and the Executive Officer on internal management priorities and policies.

Develops health-wide policy and provides leadership and coordination of agency activities in the area of financial management, contracts and grants, personnel management, organization, management systems and studies, operational planning, administrative services, ADP management and facilities management.

Participates in program and legislative planning and analyzes program operations, in collaboration with the Assistant Secretary for Health staff and agencies, to identify management implications and to ensure responsible administrative planning.

Provides leadership and review of agency administrative management activities for the purpose of assuring compliance with laws, regulations, procedures, sound management policies, and Health-wide management policies, goals and plans.

Furnishes selected supporting and staff services in fiscal management, personnel management, management analysis, and administrative services.

Provides selected centralized common services, including service provided on a fee-for-service basis as authorized by law.

Serves as the principal liaison with the Office of the Secretary, the health agencies, and other government agencies on administrative management activities and as appropriate represents the Assistant Secretary for Health.

(1) *Administrative Services Center.* For the agencies located in and around the Parklawn Building, the Director of the Administrative Service Center plans, coordinates, and administers the provision of technical and administrative services.

Provides administrative operations, such as general services, procurement support, library services, and building and facilities services.

V 38 1133 JUL 12 73 XUM

Provides administrative support to accomplish these functions and serves as liaison with GSA and other components within the Department for technical and administrative services related to the health agencies.

(2) *Office of Organization and Management Systems.* The Director of the Office of Organization and Management Systems serves as the principal advisor on all Health organization and management activities.

Develops and disseminates Health-wide policies for organization, computer, and management systems and evaluates or directs the review of agency management systems, procedures and activities.

Serves as the focal point for coordinating agency management activities with the Office of the Secretary and other Federal agencies and offices.

Provides leadership and direction for the development and implementation of (a) agency cross-servicing arrangements (b) compatible organization, computer and management systems, and (c) procedures designed to improve efficiency and economy of operations in the Health establishment.

Fosters the efficient management of Health manpower through a manpower utilization program.

(3) *Office of Personnel Management.* The Director of Personnel Management is the principal advisor in Health for personnel management and training activities.

Develops personnel management objectives for Health activities and the policies and standards necessary to advance these objectives; and provides leadership and direction for coordinated personnel management programs embracing the Commissioned Corps and Civil Service personnel in Health activities.

Plans, develops, and administers the Commissioned Corps personnel system; provides centralized operating personnel services for the health agencies located at Parklawn; and conducts evaluation studies of all Health Personnel activities to assure performance in accordance with standards and policies established by the Public Health Service, the Department, and the Civil Service Commission.

Coordinates the personnel management activities of the Health agencies with the Department, the Civil Service Commission, the Office of Management and Budget, the Department of Defense, the Veterans Administration, and the Congress on matters of common concern.

(4) *Office of Resource Management.* The Director of the Office of Resource Management serves as principal resource within the Public Health Service on all phases of financial management inherent in the operation of the Health agencies; plans, directs, coordinates, and evaluates financial management activities for the Health agencies to assure effective utilization and control of management resources; formulates policies for, and makes the official fiscal allocation of, resources for Health activities in accordance with priorities based on program goals and objectives; directs an integrated operational planning process for Health activities; serves as focal point for overall policy and fiscal management of contracts and grants activities; provides leadership and direction to the Health agencies for the development of resource management systems; monitors financial, operational planning, and contracts and grants programs of Health activities to assure a coordinated effort toward achieving the goals and objectives established by the Assistant Secretary for Health; serves as principal resource within the Department on all phases of facility management inherent in the operation of the Health agencies; furnishes consultant services to program officials on health facility needs; and maintains liaison with the Office of the Secretary on resource management activities.

b. *Office of Policy Development and Planning.* The Director of the Office of Policy Development and Planning serves as the principal advisor to the Assistant Secretary for Health concerning the development of a national health policy and strategy.

Directs or conducts the health policy development and research, planning, and program evaluation activities of the Public Health Service.

Provides guidance for policy analysis and research, planning, and program evaluation activities within the health agencies and with respect to health and health-related issues.

(1) *Office of Planning and Evaluation.* The Director of the Office of Planning and Evaluation provides staff advice on matters of national policy planning and evaluation of health programs in the Department of Health, Education, and Welfare.

Conceives and directs a process of planning leading to development of national and Departmental policies and strategies for Health.

Manages and oversees the total program planning process, developing forward plans for resource allocation decisions in cooperation with health agencies and the Office of Regional Operations.

Cordinates implementation of forward plans and budgets consistent with health policies in cooperation with the Office of Administrative Management, the Office of Regional Operations, and other staff offices.

Assures a continuing evaluation of health program goals, policies, and operations by health agencies and the Office of Regional Operations by providing general guidance, assistance where necessary, and review of general plans and strategies for consistency with overall policy.

Conducts special program evaluations which are of particular relevance to the Assistant Secretary for Health and which impact on national health policies.

Provides liaison with all health agencies to assure adoption of standardized data elements and formats for reporting.

(2) *Office of Policy Analysis and Research.* The Director of the Office of Policy Analysis and Research provides indepth analytical and research capability in health and related fields in order to conduct, support, manage, and oversee policy analyses and research, thus developing and facilitating policy formulation and decisions.

Directs and conducts analyses of health policy issues, including cost/benefit analyses of health policy alternatives.

Develops and oversees execution of the Department's health services research plan.

Coordinates and directs interagency research and experimentation in health services.

Provides analyses of current and prospective developments and findings from research which may impact health policies.

Maintains liaison with the National Center for Health Services Research and Development and with other public and private health services research programs and policy institutes.

c. *Office of Program Operations.* The Director of the Office of Program Operations serves as the principal advisor to the Assistant Secretary for Health concerning resolution of operating problems, monitoring implementation of program policies and objectives, and coordination of legislative activities.

Analyzes medical and scientific implication of both current and proposed health policies and programs to (a) determine and recommend need for changes; (b) interpret interaction of health components and HEW officials; and (c) review and recommend approval of new or revised regulations.

Coordinates and reviews Congressional correspondence, reports, legislative initiatives, and Congressional testimony.

Coordinates committee management activities for Health.

Provides a focal point for public interaction in such areas as patent appeals, freedom of information, special interest groups, environmental health and health and scientific liaison.

Serves as a focus for the Department's responsibilities relating to hazardous materials.

Plans systems to determine data intelligence requirements and utilizes data input from the agencies and Office of Regional Operations for program coordination.

Responds to special requests from the health agencies for consultative assistance relating to aspects of national health and scientific policy.

Analyzes the medical and scientific aspects of Health programs, assessing the implications of current policies and priorities and provides advice on findings.

(1) *Office of Policy Coordination and Review.* The Director of the Office of Policy Coordination and Review resolves problems and issues identified in the process of reviewing operating matters and tracking selected program objectives.

Appraises selected health activities for mission effectiveness, including interagency policy reviews to streamline operations.

Provides leadership to the health agencies in implementing specific policies and new legislative initiatives and monitors results.

Reviews and approves program statistical reports prepared by the agencies and the Office of Regional Operations for the Office of the Secretary, other Federal agencies, and the Congress.

Reviews and clears new or revised regulations.

Provides final clearance for responses to Congressional correspondence, and assures responsiveness and conformance to established policies and objectives.

(2) *Office of Legislative Coordination.* The Director of the Office of Legislative Coordination reviews and assists in the presentation of testimony on proposed legislative matters for Congressional hearings.

Serves as a consultant on legislative activities of the Health agencies.

Participates with the Assistant Secretary for Legislation and health agencies in the formulation of a position on selected legislative proposals.

Develops policies for and reviews agency reports requested by the Congress.

(3) *Office of Health Liaison.* The Director of the Office of Health Liaison maintains liaison with allied health and environmental groups within the elements of the Department, with other Departments, and with major health organizations.

Provides medical-managerial talent to represent the Assistant Secretary for Health at appropriate health and health-related meetings in the governmental and private sectors.

Provides health policy and procedures for the establishment, operation, appointment thereto, and termination of Public Advisory Committees, and reviews agency activity in this area.

Serves as a focal point for public interaction in such areas as patent and freedom of information appeals.

(4) *Office of Special Health Projects.* The Director of the Office of Special Health Projects provides a small cadre of medical-managerial talent to stimulate, plan, and direct highly significant special studies of discrete health and scientific problems which cut across organizational lines and require the direction and coordination of DHEW-wide resources and efforts.

Evaluates selected data from the health agencies, utilizing special task forces made up of agency representatives and/or outside experts and consultants.

Recommends new health and scientific initiatives and approaches.

Serves as a focus for the Office's responsibilities relating to the health implications of environmental health factors working, as necessary, with representatives of other departments and interested groups.

d. *Office of Regional Operations.* The Director of the Office of Regional Operations serves as the principal staff advisor to the Assistant Secretary for Health on matters pertaining to the operation of Regional Offices.

Participates in the development of, and is responsible for interpreting and ensuring implementation of health programs, policies, and operational guidelines to the Regions.

Provides an overview of the interrelated activities of the health agencies conducted at the regional level and assures avoidance of program duplication and overlap.

Resolves policy problems and priorities among regions and between regional offices, headquarters agencies, Assistant Secretary for Health staff, and the Office of the Secretary.

Reviews and approves operating plans, budgets, and staffing requirements, and allocates funds and position to regional offices to assure compliance with national plans and strategy.

Evaluates the overall management performance and resources capabilities of the regional offices.

Initiates actions, in cooperation with Office of the Assistant Secretary for Health staff and the health agencies, to develop training activities and career development programs for regional personnel.

Establishes and implements a Regional Office reporting and management information system.

Works with the staff offices in the Assistant Secretary for Health and the health agencies to insure Regional Office input and participation in policy planning and budget formulation.

Serves as the focal point for managing health-wide decentralization activities.

(1) *Office of Management Assistance.* The Director of the Office of Management Assistance serves as the focal point for assisting Regional Health Administrators in the provision of day-to-day administrative support for resolving special problems in the areas of budget, fiscal, personnel, and other administrative services.

Works with health personnel in Regional Offices, staff of the Regional Directors, the Office of Administrative Management, and the Office of Deputy Under Secretary for Regional Affairs to identify and provide solutions to administrative needs and problems of Regional Offices.

Advises and assists Regional Offices in improving their management capability for organizing, directing and evaluating Regional operations.

Participates in the evaluation of Regional Offices with special emphasis on management capability and performance.

(2) *Office of Planning and Resource Allocation.* The Director of the Office of Planning and Resource Allocation coordinates the development of planning guidelines for regional operations.

Reviews and recommends approval of regional plans, budget, and staffing proposals in light of national health plans and strategies determined by the Assistant Secretary for Health and the health agencies.

Establishes and implements a regional office reporting and management information system.

Allocates funds and positions to regional offices.

Monitors regional office performance in meeting established goals, recommends corrective action as needed, and assists in the implementation of recommended action.

Identifies and initiates, in cooperation with staff offices of the Assistant Secretary for Health and the health agencies, actions to meet training and career development needs of regional personnel.

(3) *Office of Regional Program Implementation.* The Director of the Office of Regional Program Implementation exercises prime responsibility for assuring that regional office operational policy is established in accordance with national priorities and objectives.

Serves as the focal point within the Office of Regional Operations for review and coordination of all health policy statements which will affect Regional programs, assuring that proposed policies are consistent with both national priorities and regional needs and capabilities.

Cooperates with health agency program officials in development and interpretation of program guidelines and priority directives to Regional Offices.

For new and emerging program efforts, especially those involving several health agencies, assembles and directs *ad hoc* task forces to develop recommended policy statements for the Assistant Secretary for Health relating to Regional Office implementation.

Based on knowledge of regional operations, identifies need for new or revised policy statements and recommends appropriate action.

Works with staff offices in the Office of the Assistant Secretary for Health and the Health Agencies to insure continual Regional Office input and participation in policy development and to insure avoidance of program duplication and overlap.

Participates in evaluation of Regional Office performance.

2. *Special Functions.* a. *Regional Health Administrators.* Each Regional Health Administrator is responsible for directing all Regional Office health programs and activities in order to assure a coordinated regional effort in tune with national policies and State and local needs with their region.

Interprets national policies and guidelines, establishes regional goals and objectives, monitors progress and accomplishments, and evaluates and redirects the regional effort accordingly.

Develops the overall regional budget proposal (funds and positions) based on national priorities and regional work plans.

Determines types of personnel needed, recruits and selects, and evaluates performance of regional staff.

V 38 I 133 JUL 12 73 XUM

Cooperates with the Regional Director in coordinating health programs with other Department of Health, Education, and Welfare programs and with programs of other agencies impacting upon the needs of people.

Awards health grants and contracts in accord with national policies and guidelines and State and local needs.

b. *Executive Secretariat.* The Executive Secretariat has responsibility for reporting on meetings of the Assistant Secretary for Health and following up on action items that result from these meetings; for developing meeting agendas and minutes; for correspondence policies, processing, followup and clearance; and for maintaining Health files.

Assigns, controls, coordinates, follows-up, and provides substantive review of the Office of the Assistant Secretary for Health communications, including memoranda, reports, staff papers, as well as priority correspondence addressed to the President, the Secretary, the Assistant Secretary, and the Surgeon General, and letters from members of Congress.

Establishes procedures for the preparation and management of written communications involving the Office of the Assistant Secretary for Health.

Prepares replies to correspondence when appropriate.

Manages system of rapid communication between the Office of the Assistant Secretary for Health and the health agencies; in collaboration with both groups, produces the Weekly Activity Report to the Secretary and other reports, such as a weekly Current Issues List for the Assistant Secretary and key staff.

Maintains the official files of the Assistant Secretary for Health.

c. *Office of Public Affairs.* The Director of the Office of Public Affairs advises and assists the Assistant Secretary for Health on communications with the various publics served by the Public Health Service, and coordinates the public affairs activities of the five health agencies with policy directives of the Assistant Secretary for Health, and with the overall public affairs policies of the Department of Health, Education, and Welfare.

d. *Office of Professional Standards Review.* The Director of the Office of Professional Standards Review serves as the Department's focal point for managing professional standards review organization (PSRO) activities and directs and coordinates PSRO activities in both the health and non-health agencies.

e. *Office of International Health.* The Director of the Office of International Health provides assistance and guidance on, and coordinates, the international health activities of the Department.

Prepares analyses of selected international health policies and programs for the Department of State.

Maintains liaison with international institutions and organizations and other departments and agencies on international health matters.

Arranges international technical assistance in the health field at the request of other departments and agencies.

f. *Office of Population Affairs.* The Deputy Assistant Secretary for Population Affairs advises on programs of national importance in the fields of population dynamics, fertility, sterility, and family planning and directs population and family planning activities within the five health agencies of the Department.

g. *Office of Drug Abuse Prevention.* The Special Assistant for Drug Abuse Prevention serves as the principal Departmental contact with the Special Action Office for Drug Abuse Prevention, receiving, referring, and following up on all major Special Action Office for Drug Abuse Prevention requests.

Coordinates all intra-DHEW staff work on major drug abuse issues and, with the Assistant Secretary for Health, brings directly to the attention of the Secretary major issues requiring Secretarial decision.

h. *Office of Nursing Home Affairs.* The Director of the Office of Nursing Home Affairs serves as the Departmental focal point for managing nursing home affairs and directs and coordinates nursing home activities in both the health and non-health agencies.

. . . . . .

Dated: July 3, 1973.

CASPAR W. WEINBERGER,
Secretary, Health Education and Welfare.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[Docket No. NFD-105]

VERMONT

Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11725 of June 27, 1973; and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-73-238; and by virtue of the Act of December 31, 1970, entitled "Disaster Relief Act of 1970" (84 Stat. 1744), as amended by Public Law 92-209 (85 Stat. 742); notice is hereby given that on July 6, 1973, the President declared a major disaster as follows:

I have determined that the damage in certain areas of the State of Vermont from severe storms, flooding, and landslides, beginning about June 26, 1973, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 91-606. I therefore declare that such a major disaster exists in the State of Vermont. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11725, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-73-238, to administer the Disaster Relief Act of 1970 (Public Law 91-606, as amended), I hereby appoint Mr. John F. Sullivan, HUD Region 1, to act as the Federal Coordinating Officer to perform the duties specified by section 201 of that Act for this disaster.

I do hereby determine the following areas in the State of Vermont to have been adversely affected by this declared major disaster:

The Counties of:

Addison	Lamoille
Bennington	Orange
Caledonia	Orleans
Chittenden	Rutland
Essex	Washington
Franklin	Windham
Grande Isle	Windsor

Dated: July 9, 1973.

(Catalog of Federal Domestic Assistance Program No. 50.002, Disaster Assistance)

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

ARIZONA

Notice of Proposed Action Plan

The Arizona Highway Department has submitted to the Federal Highway Administration of the U.S. Department of Transportation a proposed Action Plan as required by Policy and Procedure Memorandum 90-4 issued on September 21, 1972. The Action Plan outlines the organizational relationships, the assignments of responsibility, and the procedures to be used by the State to assure that economic, social and environmental effects are fully considered in developing highway projects and that final decisions on highway projects are made in the best overall public interest, taking into consideration: (1) Needs for fast, safe and efficient transportation; (2) public services; and (3) costs of eliminating or minimizing adverse effects.

The proposed Action Plan is available for public review at the following locations:

1. Arizona Highway Department
206 South 17th Avenue
Phoenix, Arizona 85007
2. Arizona Division Office
3500 North Central Avenue, Suite 201
Phoenix, Arizona 85012
3. Federal Highway Administration, Region 9
450 Golden Gate Avenue, Box 36096
San Francisco, California 94102
4. U.S. Department of Transportation
Federal Highway Administration
Environmental Development Division
Nassif Building, Room 3246
400 7th Street S.W.
Washington, D.C. 20590

Comments from interested groups and the public on the proposed Action Plan are invited. Comments should be sent to the FHWA Regional Office shown above before August 6, 1973.

Issued on July 5, 1973.

NORBERT T. TIEMANN,
Federal Highway Administrator.

Hazardous Materials Regulations Board

SPECIAL PERMITS

Notice of Issuance

Pursuant to Docket No. HM-1, rulemaking procedures of the Hazardous Materials Regulations Board, issued May 22, 1968 (33 FR 8277) 49 CFR Part 170, following is a list of new DOT Special Permits upon which Board action was completed during June 1973:

Special Permit No.	Issued to—Subject	Mode or Modes of Transportation
6731	The U.S. Department of Defense, Washington, D.C., to ship chemical kits containing minute quantities of various hazardous materials.	Highway, Cargo-only Aircraft
6733	Shippers registered with this Board to ship solid methane and solid ammonia in a cryogen cooler overpacked in a non-DOT specification container.	Highway, Cargo-only Aircraft
6754	Eaton Corporation, Troy, Mich., to ship a compressed inert gas mixture in non-refillable, welded, steel pressure vessels (toroidal shaped).	Highway, Rail Cargo-only Aircraft, Cargo Vessel
6765	Shippers registered with this Board to ship liquefied helium & liquefied hydrogen in an insulated, containerized portable tank.	Highway, Cargo Vessel
6769	Shippers registered with this Board to ship trifluoromethane in insulated DOT Specification MC-331 cargo tanks, and DOT Specification 105A600W tank cars.	Highway, Rail

V 38 1333 JUL 12 73 XUM

Special Permit No.	Issued to—Subject	Mode or Modes of Transportation
6770	BASF Wyandotte Corp., Parsippany, N.J., to ship certain flammable liquids in, foreign-made non-DOT specification open-head steel drums equal to DOT-17H drums.	Highway Rail Cargo Vessel
6771	Shippers registered with this Board to ship large quantities of radioactive materials, n.o.s. in the Suntac Waste Shipping Container Model No. SN-1.	Highway, Rail Cargo Vessel
6772	Shippers registered with this Board to ship certain corrosive liquids, and poisonous liquids, in inside glass or plastic bottles not exceeding 1-gallon capacity overpacked in a DOT Specification 17H steel drum.	Highway
6773	Shippers registered with this Board to ship vinylidene fluoride in DOT Specification 105A600W tank cars.	Rail
6774	Shippers registered with this Board to ship helium in non-DOT specification cylinders complying with DOT Specification 3HT except as otherwise provided.	Highway
6775	Shippers registered with this Board to ship certain Class II poisonous liquids (organic phosphate compounds and mixtures thereof) in MC-331 tank motor vehicles via private carriage.	Highway
6776	Shippers registered with this Board to ship helium in an inside non-DOT specification welded cylinder having a maximum capacity of 60 cubic inches.	Highway, Rail Cargo-only Aircraft.
6777	Shippers registered with this Board to ship liquefied hydrogen in non-DOT specification insulated, steel portable tank.	Highway

ALAN I. ROBERTS,
Secretary.

ATOMIC ENERGY COMMISSION

[Docket Nos. 50-400, 50-402, 50-403]

CAROLINA POWER & LIGHT CO.

Notice of Hearing

Take notice, that pursuant to the Atomic Energy Commission's "Notice of Hearing on Application for Construction Permits" dated September 21, 1972 (37 FR 20,344) and in accordance with the Commission's rules of practice (10 CFR Part 2), a public hearing will be held commencing at 10:00 a.m. e.d.t. August 6, 1973 in Courtroom 2, U.S. District Court, 7th Floor, New Federal Building, 310 New Bern Avenue, Raleigh, North Carolina 27611.

This evidentiary hearing before an Atomic Safety and Licensing Board designated by the U.S. Atomic Energy Commission is for the purpose of considering the application of the Carolina Power and Light Company (the Applicant) for construction permits for four pressurized water nuclear reactors, described as the Shearon Harris Nuclear Power Plant, Units 1, 2, 3 and 4, each of which is designed for initial operation at 2775 thermal megawatts and 915 megawatts electric. The proposed facilities would be located on the Applicant's site approximately 20 miles southwest of Raleigh, North Carolina, in Wake and Chatham Counties.

The Atomic Safety and Licensing Board (Board) to hear the evidence in this proceeding was designated by the Atomic Energy Commission in a notice published in the FEDERAL REGISTER on November 18, 1972, 37 FR 24,697.

There have been two prehearing conferences held in this proceeding, a Special Prehearing Conference on January 30, 1973 and a regular Prehearing Conference on July 2, 1973, at which times key issues were identified, matters in controversy were determined, and stipulations, scheduling and other procedural matters were discussed with attorneys for all the parties.

This evidentiary hearing will concern the radiological health and safety matters and environmental matters set forth in the Commission's September 21, 1972 Notice of Hearing, supra, and the specific contentions or matters in controversy identified in the Board's Special Prehearing Conference Orders dated February 14 and February 26, 1973.

The hearing will continue daily from 9:30 a.m. to 5:00 p.m. the week of August 6-11, 1973, including Saturday, if necessary to complete the proceedings. Monday's session (August 6) will commence at 10:00 a.m. e.d.t. Persons making limited appearances will be heard early on the first day of the hearing. Limited appearance statements may also be presented in writing, without the necessity of personality appearing at the hearing itself, and all such statements will be seriously considered by the Board. Such written limited appearances may be mailed to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attn: Chief, Public Proceedings Branch.

All interested members of the public are invited to attend the hearing.

Issued at Washington, D.C., this 6th day of July 1973.

It is so ordered.

For the Atomic Safety and Licensing Board.

THOMAS W. REILLY,
Chairman.

[FR Doc.73-14190 Filed 7-11-73;8:45 am]

CIVIL AERONAUTICS BOARD

[Docket 25595; Order 73-7-21]

CONTINENTAL AIR LINES, INC.

Order of Approval To Engage in Capacity Reduction Discussions in Specific Markets

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 6th day of July 1973.

Continental Air Lines requests authorization to engage in intercarrier discussions looking towards an agreement on mutual capacity limitations in the Chicago-Los Angeles and Chicago-Denver markets.[1] The cities of Chicago and Denver, and American, Trans World, United, Braniff and Frontier have filed answers.

Upon consideration of the pleadings and other relevant facts, we have decided to authorize the discussions requested by Continental for the same reasons as those advanced in prior, related proceedings.[2] Among the matters that we have previously emphasized[3] is the potentially favorable effect of capacity agreements on fuel conservation (and, consequently, the environment). We remind the carriers of the Board's previous statement that "capacity agreements should provide for both a reasonable schedule spread and flights properly timed to accommodate the needs of the markets concerned." Order 73-4-98 at page 5. While the desirability of building flexibility into any ensuing agreement is self-evident, nevertheless we feel that the agreement should directly in terms demonstrate its accommodation to these criteria.

We have also considered requiring the submission of certain additional information as suggested in the comments by one of the respondents.[4] The Board's staff representative will submit, and make publicly available at the first discussion session, service segment data for each carrier in the instant markets for the two most recent calendar years in respect to passenger, cargo, and mail data. The purpose of such data is to facilitate an evaluation of the possible impact any agreement resulting from the capacity reduction discussions approved herein may have on the affected communities, the public, and other carriers party to the discussions.

In addition, United Air Lines has expressed concern in a related proceeding[5] with regard to the lack of authority of some carrier representatives and their inability to make commitments as to their company's position during capacity reduction meetings. With this in mind, we urge all participating carriers to these discussions to select responsible representatives with the authority to establish the positions of their companies.[6]

Accordingly, it is ordered, That: 1. The application for approval of discussions regarding capacity reductions in the below-specified city-pairs,[7] be and it hereby is approved subject to the following conditions:

(a) Discussions shall be held in Washington, D.C., the hour and date of such meetings to be determined by the carriers. A notice of such meetings shall be served upon the Civil Aeronautics Board and the persons stated in ordering paragraph 2 at least three business days prior to such meetings;

(b) Participation in the discussion shall be limited to carriers certificated to provide single-plane scheduled service in the market under discussion;

(c) Representatives of the Civil Aeronautics Board and any other local, state or Federal Government Agency; civic, trade, or consumer association, group or representative; or air carrier expressing an interest shall be permitted to attend and view the discussions as observers;

(d) A full transcript shall be maintained of all meetings, at the expense of the carriers, and two copies of said transcript shall be filed with the Board within three days after the conclusion of each day's meeting, and shall be available for purchase by any person;

(e) Any agreement reached as a result of the discussions authorized herein shall be filed with the Board for approval under section 412 of the Act within seven days of consummation thereof, accompanied by an explanatory statement and a statement of justification, and shall be served on the persons listed in ordering paragraph 2 within the same period; *Provided,* That no agreement shall be implemented without having been previously approved by the Board;

(f) Comments pertaining to any agreements filed pursuant to subparagraph (e) shall be filed within 14 days from the date of the filing of such agreements with the Board;

(g) Comments in reply to any previously filed document authorized to be filed in paragraphs (e) and (f) shall be filed within ten days of the date of filing of such document;

(h) The relief granted herein shall expire within 90 days of the date of this order and may be revoked or amended at any time in the discretion of the Board;

(i) This authorization does not extend to discussions of rates, fares, charges, or inflight or other services pertaining to air transportation; and

(j) The Board's staff representative will submit, and make publicly available at the first discussion session, service segment data for each carrier for the city-pairs authorized herein for the two most recent calendar years.[8]

2. Copies of this order shall be served on the Departments of Defense, Justice and Transportation; the U.S. Postal Service; the Cities of Chicago, Denver and Los Angeles; all certificated and supplemental air carriers; the Environmental Defense Fund; and ALPA; and

3. To the extent not granted herein, all outstanding requests be and they hereby are dismissed.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.73-14241 Filed 7-11-73;8:45 am]

[1] Capacity reduction discussions and resultant agreements have been previously approved by the Board, see Order 73-4-98, April 24, 1973, and previous orders referred to therein. American Airlines, Continental Air Lines, Trans World Airlines, and United Air Lines serve Chicago-Los Angeles; Continental Air Lines, Trans World Airlines and United Air Lines serve Chicago-Denver.

[2] See Order 73-4-98. With regard to the Chicago-Denver market we note that in 1972 Approximately 971,000 passengers were carried by carriers with an average load factor for this market of 49.9 percent.

[3] Order 73-4-98.

[4] The City of Chicago has requested that civic parties to be affected by capacity reduction discussions be served with segment traffic data for the two most recent calendar years.

[5] See application of Trans World Airlines, Docket 25604.

[6] Frontier's request to establish procedural safeguards to protect non-agreement markets from operation of excessive capacity is more appropriately dealt with in the context of the Board's review of any resulting agreement.

[7] The authorized city-pairs are: Chicago-Los Angeles and Chicago-Denver.

[8] The data will include by month the following: passengers on board, available seat miles, revenue passengers, revenue passenger miles, load factor and number of departures.

[Dockets 22670 and 22500; Order 73-7-20]

LOS ANGELES AIRWAYS, INC.

Order Concerning Applications for Continuation of Temporary Suspension of Service and for Exemption Authority

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 6th day of July, 1973.

By Order 70-12-146, dated December 28, 1970, Los Angeles Airways, Inc. (LAA) was authorized to temporarily suspend service on its route 84 for a period of one year. By Order 72-2-79, dated February 22, 1972, LAA was authorized to continue its suspension of service ". . . for two years or until sixty days after final Board action in the *Golden West/Los Angeles Airways Acquisition Agreement*, Docket 23652, whichever occurs first." By Order 73-3-20, dated March 8, 1973, the Board dismissed the application at issue in Docket 23652.

On May 4, 1973, LAA filed an application requesting continuation of its temporary suspension of service for an indefinite period.[1] In support of its request, the carrier states, inter alia, that it is presently in bankruptcy pursuant to Chapter XI of the Bankruptcy Act; that its affairs are subject to the jurisdiction of the United States District Court for the Central District of California; that counsel for the debtor LAA is under Court instructions to file a plan of arrangement with creditors on or before June 4, 1973, with hearings to be held subsequent thereto; and that it would be an undue burden on LAA to submit periodic applications to the Board for extension of its suspension authority.

The City of Newport Beach, California, filed a response to LAA's application in which it states that it neither supports nor opposes that application, but wishes the record to reflect that the LAA terminal point in Newport Beach has been abandoned and the lease therefor terminated by order of the United States District Court on March 24, 1972.

Upon consideration of the pleadings and all relevant facts, we have decided to deny LAA's application for further suspension authority and will order that LAA shall resume service in conformity with the terms and conditions of its certificate within ninety days from the date of this order. LAA filed a petition under Chapter XI of the Bankruptcy Act on October 6, 1970, and its Court-appointed receiver determined the following day that its operations had to be suspended. No scheduled route service has been provided by LAA since that time. Further, in seeking the extension of its suspension authority in 1972, LAA stated that it was unable to resume operations, and in Order 72-2-79, in granting an extension, we referred to the carrier's "financial and operational difficulties." There is still no sign that LAA will be able to resume operations in the near future. Against this background, serious questions are raised as to the necessity and desirability of continuing the effectiveness of LAA's certificate. Consequently, finding that such action is required in the public interest, we shall deny LAA's application for an indefinite extension of its suspension authority and order that it shall resume service over route 84 in conformity with the terms and conditions of its certificate within ninety days from the effective date of this order. We are hereby instituting an investigation, to be set down for hearing after the expiration of the ninety-day period, for the purpose of determining whether, if operations are not resumed within the ninety-day period, LAA's authority should be suspended, or whether the Board should direct that LAA's certificate cease to be effective under § 401(f) of the Act[2], or whether some

[1] The carrier also invoked the continuation of authority clause of 5 U.S.C. § 558(c) and requested a waiver of the timeliness requirements of Sec. 377.10 of the Board's Special Regulations. By Order 73-5-39, dated May 8, 1973, LAA was granted the requested waiver, thus continuing the suspension authority granted by Order 72-2-79 pending the Board's final determination of the instant application on the merits.

[2] Section 401(f) of the Federal Aviation Act and section 205.10 of the Board's Economic Regulations provide, in part, that if, for a period of ninety days, any service authorized by a certificate is not operated, the Board may, by order entered after notice and hearing, direct that such certificate shall thereupon cease to be effective to the extent of such service.

V 38 I 133 JUL 12 73 XUM

other appropriate action (including revocation under § 401(g)) should be taken by the Board.[3]

Accordingly, it is ordered, that: 1. The period beginning with the effective date of this order and terminating October 4, 1973, be and it hereby is designated as the period within which Los Angeles Airways, Inc. shall resume service over route 84 in accordance with the authorization contained in its certificate of public convenience and necessity;

2. An investigation, to be set for hearing at a time and place to be hereafter designated, be and it hereby is instituted to determine whether, in the event that Los Angeles Airways, Inc. does not resume service in accordance with the terms of paragraph "1", above, the Board shall (a) grant temporary suspension of Los Angeles Airways, Inc.'s authority on route 84; or (b) direct that Los Angeles Airways, Inc.'s certificate of public convenience and necessity for route 84 shall cease to be effective under section 401(f) of the Act or shall be revoked under section 401(g).

3. The investigation instituted by paragraph "2" above should also determine whether the application by Los Angeles Airways, Inc., in Docket 22500, for renewal of the "area" exemption authority granted in Order E–22798 and amended in Order 69–4–82, should be renewed, and Docket 22500 be and it hereby is consolidated with Docket 22670;

4. Los Angeles Airways, Inc. and its receiver in bankruptcy are hereby made parties to such proceeding;

5. The application of Los Angeles Airways, Inc., in Docket 22670, for continuation of temporary suspension be and it hereby is denied;

6. Copies of this order shall be served on Los Angeles Airways, Inc., its receiver in bankruptcy, and the Mayor of the City of Newport Beach.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.73-14240 Filed 7-11-73;8:45 am]

[3] On August 24, 1970, LAA filed, in Docket 22500, an application requesting that the "area" exemption authority granted to it in Order E–22798, dated October 25, 1965, and amended in Order 69–4–82, dated April 17, 1969, be renewed for an indefinite period, or for such other period as may be deemed appropriate by the Board. The requested exemption would continue LAA's authority to engage in air transportation within a 50-mile radius of the Post Office Terminal Annex Building in downtown Los Angeles, California, and between such points and the additional point San Bernardino, California. An answer in opposition to LAA's application was filed by Golden West Airlines, Inc. LAA filed a reply to Golden West's answer. We have decided, in view of our action herein, that it would be appropriate to include the question of the renewal of LAA's area exemption in the investigation which we shall order instituted.

CIVIL SERVICE COMMISSION

DEPARTMENT OF JUSTICE

Grant of Authority To Make a Noncareer Executive Assignment

COST OF LIVING COUNCIL

[Order No. 15F]

COMMISSIONER OF INTERNAL REVENUE

Delegation of Compliance Functions

Pursuant to the authority delegated to the Director by the Cost of Living Council Order Number 14 (38 FR 1489, January 12, 1973) it is hereby ordered as follows:

1. There is hereby delegated to the Commissioner of the Internal Revenue, subject to the policy guidance and direction of the Director of the Cost of Living Council, the authority to

(a) Compromise civil penalties with respect to late filing of Form CLC–2 by price recordkeeping firms, due June 30, 1973, as required by § 130.9(b);

(b) Compromise civil penalties with respect to late filing of Form CLC–2 by price reporting firms, due June 21, 1973, as required by § 130.21 in those cases referred to the Internal Revenue Service by the Associate Director for Operations, Cost of Living Council.

2. The Commissioner may redelegate to any official of the Internal Revenue Service the authority under this order.

3. The authority hereby delegated is in addition to the authority delegated to the Commissioner by previous Council Orders.

Issued in Washington, D.C., on July 9, 1973.

WILLIAM N. WALKER,
Acting Deputy Director,
Cost of Living Council.

[FR Doc.73-14230 Filed 7-9-73;3:14 pm]

[Order No. 15E]

COMMISSIONER OF INTERNAL REVENUE

Delegation of Authority

Pursuant to the authority delegated to the Director by the Cost of Living Council Order Number 14 (38 FR 1489, January 12, 1973) it is hereby ordered as follows:

1. There is hereby delegated to the Commissioner of the Internal Revenue, subject to the policy guidance and direction of the Director of the Cost of Living Council, the authority to perform the following compliance functions with respect to profit margin violations by price Category III firms (as defined in 6 CFR 101.15(a)) for the last fiscal year ending before January 11, 1973:

a. Review cases referred by the Cost of Living Council to determine whether there has been any violation of any regulation, decision or order issued under Chapter III of Title 6 of the Code of Federal Regulations;

b. Determine the appropriate corrective action to be taken with respect to each such violation; and

c. Issue appropriate determinations, findings, and orders necessary to correct each such violation.

2. The Commissioner may redelegate to any official of the Internal Revenue Service any authority under this Order.

3. The authority hereby delegated is in addition to the authority delegated to the Commissioner by previous Council Orders.

Issued in Washington, D.C., on July 6, 1973.

WILLIAM N. WALKER,
Acting Deputy Director,
Cost of Living Council.

Forest Service

Draft *Date*
Multiple-Use Plan, Bitterroot National Forest 06/05

Montana
County: Ravalli
The proposed action is the implementation of a revised multiple use plan for the Skalkaho-Gird and Sleeping Child Planning Units of the Bitterroot National Forest. A total of 121,820 acres of National Forest land will be affected. The plan calls for unroaded management of 17,880 acres, roaded management of 83,940 acres and timber harvesting. Impacts stemming from the project are: increased siltation and water pollution caused by logging and road construction; reduction of domestic livestock grazing on the unit; loss of or increased danger to fish and wildlife habitat (especially to deer and elk populations); and increased air pollution. (83 pages)

(ELR ORDER # 30951) (NTIS ORDER # EIS 73 0951D)

Gee Creek Eastern Wilderness, Cherokee N.F. 06/15
Tennessee
County: Polk
Proposed is the designation of 1,069 acres of the Cherokee National Forest in Polk County, Tennessee as the Gee Creek Eastern Wilderness, a unit of the Eastern Wilderness Preservation System. Increased recreation will probably result in sanitary and littering problems. (21 pages)

(ELR ORDER # 31011) (NTIS ORDER # EIS 73 1011D)

Weyerhaeuser Company—Gifford Pinchot N.F. 06/05
Washington
County: several
The statement is concerned with the proposed land ownership adjustment plan between Weyerhaeuser and the Forest Service. Three exchanges are involved. Weyerhaeuser is offering 11,569 acres of its land to the Forest Service in exchange for 11,847 acres of National Forest Lands. The exchange will consolidate public and private lands. Adverse impacts of the exchanges are: reduction in Forest Service annual sell of board; loss of 84 jobs affecting 311 families; extensive logging by Weyerhaeuser on the lands they will own; and loss of lands which outdoor groups have proposed be included in a National Monument. (43 pages)

(ELR ORDER # 30952) (NTIS ORDER # EIS 73 0952D)

Final *Date*
Kirkwood Winter Sports Complex, El Dorado N.F. 06/28
California
County: Alpine Amador El Dorado
The statement refers to the proposed development of the Kirkwood Winter Sports Complex in the forest. The development will include 13 ski lifts, a day lodge, support facilities, and commercial and residential construction to accommodate 2,500 living units (including some year round units). Some wildlife habitat will be lost; species particularly affected will be the pine marten and the Columbian black-tailed deer. Major impact will be upon soil, water qualities, and aesthetics. (201 pages)

COMMENTS MADE BY: EPA DOI COE HEW (ELR ORDER # 91080) (NTIS ORDER # EIS 73 1080F)

St. Louis Peaks, Arapahoe National Forest 06/27
Colorado
County: Grand Clear Creek
The statement considers land use management of the St. Louis Peaks roadless area of the Arapahoe National Forest. Being considered is the development for key resources of 8,000 of 21,000 acres. Included would be the construction of roads. Also involved is the construction of a 115 kV transmission line from Henderson East to Portal Substation. The line will provide the necessary reliability for mining and milling molybdenum. There will be disruption of scenic values, and an adverse impact to air, water, and noise qualilevels. (96 pages)

Draft *Date*
Mush Creek Watershed 06/27
Alabama
County: Dallas Lowndes
Proposed is the development of a watershed protection project. Included are land treatment measures and floodwater retarding structures. Flood protection will be provided on 3,062 acres of flood plain lands. Approximately 1,450 acres of forest land will be converted to agricultural use with concommitant effect to wildlife; 614 acres will be committed to flood pools. (22 pages)

V38 I133 JUL 12 73 XUM

(ELR ORDER # 31062) (NTIS ORDER # EIS 73 1062D)
Crawford Creek, Little Sioux River 06/27
Iowa
County: Ida
Proposed is a protection project in Crawford Creek Subwatershed, Little Sioux River Watershed. Approximately 1020 acres will be protected from gully erosion; floodwater damage will be reduced by 90 % on 45 acres; sediment will be reduced; a 250 acre public area will be created. Crop production will be lost on 246.7 acres; pasture production will be lost on 24.4 acres. One hundred and twenty-five acres of land and 5.9 miles of ephemeral stream channel (including 3.5 miles of wildlife travel lanes), will be inundated. (19 pages)

(ELR ORDER # 31061) (NTIS ORDER # EIS 73 1061D)
North Fork Nolin River Watershed 06/25
Kentucky
County: Larue
Proposed is a watershed protection project on the 34,610 acre watershed. Project features include land treatment measures, two single purpose structures and two multiple purpose structures. The project is intended to reduce erosion and sedimentation, and provide flood control protection, water supply, and recreation opportunities. Adverse impact will include 840 acres committed to project measures, 7 miles of inundated stream, and relocation of five families and two farms. (25 pages)

(ELR ORDER # 31053) (NTIS OREDR # EIS 73 1053D)
Final *Date*
Pennsylvania
County: Luzerne
The statement refers to the watershed protection and flood protection project for the 50,880 acre watershed. Land treatment measures will be used on 11,500 acres in order to control erosion and reduce stream sedimentation; special measures will be used on 360 severely eroded acres, an 830 acre recreation acres of land, along with 28 residences, 3 lake will be created. Approximately 3500 farms, and 2 businesses will be acquired for the project. Five miles of trout stream and 830 acres of wildlife habitat will be inundated. (49 pages)

Colorado
The statement refers to a proposed project of the Upper Thompson Sanitation District, near Estes Park. Intercepter Sewers would be constructed in the major subdrainages of the Big Thompson River above Olympus Dam. Sewage would be transported to a proposed tertiary treatment plant to be located on lands administered by the Bureau of Reclamation. Effluent would be discharged to the Big Thompson River below Olympus Dam. There will be construction disruption. Population growth will significantly change the character of the area and cause localized pressures on use of Rocky Mountain National Park and Roosevelt National Forest.

Treatment Facility, City of Santa Cruz 06/26
California
The statement refers to the proposed consolidation and expansion of existing waste water treatment facilities. The capacity of the treatment plant of the City of Santa Cruz will be expanded from 7 to 21 MGD; the existing plant at East Cliff will be abandoned; the flows from East Cliff and Capitola Sanitation Districts will be diverted to the enlarged plant. Discharge to Monterey Bay will be eliminated; discharge at Point Santa Cruz will increase. (290 pages) COMMENTS MADE BY: DOC DOD DOI

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 11227, etc.; FCC 73R-247]

CITY OF NEW YORK MUNICIPAL BROADCASTING SYSTEM (WNYC) AND MIDWEST RADIO-TELEVISION, INC. (WCCO)

Memorandum Opinion and Order Enlarging Issues

In regard applications of City of New York Municipal Broadcasting System (WNYC) New York, New York, Docket No. 11227, Filed No. BSSA-266, for special service authorization to operate additional hours from 6 A.M. (EST) to sunrise, New York, New York, and from sunset, Minneapolis, Minnesota; City of New York Municipal Broadcasting System (WNYC), New York, New York, Docket No. 17588, File No. BP-16148; Midwest Radio-Television, Inc. (WCCO), Minneapolis, Minnesota, Docket No. 19403, File No. BP-19151, for construction permits.

1. Before the Review Board is a petition to enlarge issues,[1] filed January 24, 1973, by Midwest Radio-Television, Inc. (WCCO), requesting the addition of the following issues against the City of New York Municipal Broadcasting System (WNYC):

(a) To determine whether the transmitter site proposed by the City of New York Municipal Broadcasting System is actually available to it.

(b) To determine whether the City of New York Municipal Broadcasting System has failed to keep its application current as required by § 1.65 of the Commission's rules.

(c) To determine whether the City of New York Municipal Broadcasting System has misrepresented its proposal for the location of its antenna site to the Commission, to the public, or to any other official, government agency, body or representative.[2]

2. In March, 1964, WNYC filed an application to move from its present antenna site to a 50-acre portion of the Seaview Hospital Grounds on Staten Island in order to increase power and to accommodate a six-tower directional array. WCCO contends that during a November 14, 1972, hearing session, public witnesses made certain disclosures which indicate that the antenna site proposed by WNYC is not available for that use and that WNYC has failed to keep the Commission fully and accurately apprised of the status of its proposed site.[3] In support of its request for a site availability issue, WCCO first alleges that on April 24, 1970, New York City (City) leased a part of the proposed antenna site at Seaview to the Jewish Community Center (Center) for a campsite and other recreational purposes for a 75-year term. According to petitioner, the lease contains a covenant for quiet enjoyment which would prohibit the necessary encroachment of the proposed ground system on the Center's property.[4] Second, WCCO notes that in June, 1970, the City leased its hospitals and facilities to the New York City Health and Hospital Corporation, including the remainder of WNYC's proposed site, for an indefinite term. Petitioner asserts that according to its enabling statutes,[5] the directors of the Hospital Corporation must approve every disposition of the corporation's real estate, and that no such approval has yet been given with respect to WNYC's proposed antenna site.[6] Finally, noting that the New York City Site Selection Board is responsible for selecting sites for all capital projects of the City, petitioner alleges that in the almost nine years since its application was filed, WNYC has not obtained Site Selection Board approval of the Seaview property for its proposed antenna site.[7] In view of these actions by the City, which WCCO alleges are inconsistent with WNYC's proposal, petitioner asserts that it is incumbent upon WNYC to offer something more than mere assurances from the applicant that the site will be available. Petitioner cites WATR, Inc., 28 FCC 2d 501, 21 RR 2d 675 (1971) in support of its request. As a related matter, WCCO argues that since WNYC has failed to report these developments which, it contends, consttiute "a substantial change as to • • • [a] • • • matter which may be of decisional significance • • •", a § 1.65 issue is warranted. Finally, in support of its contention that WNYC has not been prosecuting its antenna site proposal in good faith, WCCO argues that the City's conveyance of its antenna site to non-City organizations without any reservation of use for WNYC is not consistent with a continuing intent to use the property for WNYC's site. Moreover, petitioner claims that certain City officials have been representing to City governing bodies and to the public that the City was not committed to the use of the Seaview site and might actually use another.[8] These representations, petitioner contends, give rise to a serious question whether the licensee "has misrepresented its proposal for the location of its antenna site to the Commission or to any other official governmental agency, body or representative" and an appropriate issue is therefore warranted.[9]

3. The Broadcast Bureau first contends that WCCO's petition is grossly untimely, that good cause for the late filing has not been shown, and consequently, that WCCO has not met the test enunciated in The Edgefield-Saluda Radio Co., supra. With respect to the merits of the request for a site availability issue, the Bureau is of the opinion that approval by the site Selection Board and/or the Board of Estimate is roughly analogous to seeking approval from the local zoning authority and, absent some specific information that either Board has denied WNYC authority to use the property, the request for a site availability issue should be denied, citing Edward G. Atsinger, III, 29 FCC 2d 443, 21 RR 2d 1039 (1971). Moreover, giving due consideration to the local opposition to the use of the site, the Bureau contends that

[1] First published at 37 FR 28211, December 21, 1972.

[2] Also before the Board for consideration are: (a) Broadcast Bureau's comments, filed February 2, 1973; (b) opposition, filed February 6, 1973, by WNYC; and (c) reply, filed February 16, 1973, by WCCO.

[3] The Board is constrained to point out that WCCO's petition is predicated, in large part, on facts which have been available for a considerable length of time. However, in view of the serious nature of the allegations raised by the petitioner, the requests for additional issues will, nevertheless, be examined on their merits. See The Edgefield-Saluda Radio Co. (WJES), 5 FCC 2d 148, 8 RR 2d 611 (1966).

[4] Although it would have been preferable for petitioner to have submitted copies of the leases in question, the Board will consider the sections relied upon by petitioner since they are quoted and are not disputed.

[5] Petitioner refers to, but does not quote Hospital Corporation Law, § 7385.6, 7387.4.

[6] The Board of Estimate must also consent to the transfer of the proposed antenna site from the Hospital Corporation to WNYC.

[7] In this regard, petitioner relies upon hearsay information alleging that the Chairman of the Site Selection Board stated at the Site Selection Board hearing in October, 1972, that the Board had not approved the Seaview site for the WNYC antenna system. This information represents unacceptable hearsay which does not conform to the requirements of § 1.229(c) of the rules.

[8] In support of this contention, petitioner submits the testimony of Mrs. Bokert (who is connected with the PTA of Wagner High School located adjacent to the proposed site), in which she states that Deputy Mayor Morrison explained in a letter addressed to her that the WNYC proposal "was not really predicated upon this particular site"; a statement of Norman Redlich, Corporation Counsel and Counsel to WNYC, to the City's Board of Estimate on April 20, 1972, which includes the following, "Now as to the specific location of the tower in the event we win our proceeding before the FCC, I think as I said, while it is in the Borough of Richmond, the question of specific location is one that will have to await future determination"; and the statement of Mr. Garelik, President of the City Council, which provides in pertinent part, "I was assured by the Administration at that time that this in no way committed the City to any one specific site and that it was a formality needed to prevent the FCC from foreclosing consideration of the application."

[9] In support, WCCO cites Eastern Broadcasting System, Inc., FCC 62-133, 22 RR 961, 962 (1962); cf. Fine Music, Inc., 8 FCC 2d 123, 9 RR 2d 1273 (1967).

V 38 I 133 JUL 12 73 XUM

the mere fact that difficulty might be encountered in obtaining either Site Selection Board or Board of Estimate approval is not a sufficient basis for enlarging the issues.[10] Similarly, the Bureau believes that there is little basis for questioning whether WNYC has kept the Commission fully informed of significant and material changes in conditions and circumstances relating to the proposed antenna site because WNYC has been and is still actively prosecuting its application for the Seaview site. Finally, the Bureau argues that the allegations relating to statements allegedly made by City officials lack the supporting documentation required by § 1.229(c) and, therefore, cannot support the requested enlargement.[11]

4. In its opposition, WNYC first contends that WCCO's petition to enlarge is untimely and without merit. In support of its claim that there is reasonable assurance that the Seaview site is available to it, applicant submits an affidavit of Ira Duchan, Commissioner of Real Estate of the City of New York and Deputy Administrator of the Municipal Service Administration, which attests to the fact that the leases entered into with the Jewish Center and the Hospital Corporation are not irreversible. WNYC also submits an affidavit of Norman Redlich, Corporation Counsel of the City of New York, in which he states that the City has the power to regain those portions of the proposed site leased to the Center and the Hospital Corporation through purchase, condemnation or otherwise whenever required for a public or municipal use or purpose. Additionally, applicant contends that none of the events relied upon by WCCO in its petition are of decisional significance because they would not preclude construction of the proposed WNYC facility at that site.[12] Finally, in response to the request for a misrepresentation issue, WNYC asserts that, contrary to WCCO's assertion, the testimony of public witnesses clearly shows the intention of the City to construct on the Seaview site. In this regard, applicant charges that Deputy Mayor Morrison never made the statement attributed to him by Mrs. Bokert, but rather said just the opposite of what Mrs. Bokert claims he said.[13] Furthermore, applicant argues that WCCO's reliance upon the representation by Norman Redlich before the Board of Estimate on April 20, 1972, is likewise without merit to show lack of good faith; as explained by Redlich in an attached affidavit, although he was generally familiar with the facts of the WNYC application at the time he made the statement, he was not apprised of the particular day-to-day developments, and his statement to the Board was simply a reference to the fact that the WNYC transmitter site would have to be approved by the Site Selection Board. Finally, WNYC submits the affidavit of Sheldon Hoffman, Director of the City of New York Municipal Broadcasting System, who attests to WNYC's firm intention to construct the facility at the Seaview site, if the construction permit is granted. In view of the foregoing, the applicant concludes that no misrepresentation by City officials has been or can be shown by WCCO.

5. In reply, WCCO alleges that in view of the leases executed by the City and the Jewish Center and Hospital Corporation, the Center and Hospital—and not the City—have the right to the immediate and future use of the WNYC site. Even assuming the leases may be reversible, petitioner contends that there is no showing that they will be reversed; thus, there is no showing that the City has taken the internal steps necessary which would indicate that it would exercise its alleged power to acquire interests in property by purchase, condemnation or otherwise under these circumstances.[14]

In this connection, petitioner alleges that there is a substantial question as to whether the City can condemn the lease to the Jewish Center in view of the express covenant for quiet enjoyment contained in the lease; and in addition, that the only mention in the lease of "condemnation" is in reference to a "body having a power of eminent domain superior to that of the landlord [the City]". Moreover, WCCO notes, the City agreed to subordinate its fee to any leasehold mortgage by the Center. Finally, petitioner notes the heavy financial burdens and protracted length of time which would necessarily be involved in acquiring property by condemnation. Given the above, petitioner contends with respect to the § 1.65 issue, that WNYC failed to report matters of "decisional significance" concerning the availability of its site. Finally, with regard to the misrepresentation issue, petitioner asserts that Mr. Redlich's statements before the Board of Estimate had a plain factual meaning beyond legal advice that the Seaview site required Site Selection Board approval; the plain meaning was that though the site would be on Staten Island, the specific location was not yet fixed and would "await future determination."[15]

6. It is well established that the Commission will not attempt to prejudge actions pertaining to land planning which are within the jurisdiction of local authorities, absent a showing indicating that the applicant will be unable to obtain approval of proposed site plans from local authorities.[16] Accordingly, but for the leases executed between the City and the Hospital Corporation and the Jewish Community Center, the Board would refrain from adding an issue inquiring into whether WNYC could obtain appropriate City approval for its proposed site. In the Board's view, however, WCCO has raised a substantial question as to whether the City has entered into leasehold agreements which may be impediments to utilization of the proposed site by WNYC.[17] Thus, there is no indication that there is a provision in the Hospital Corporation lease which provides for repossession of the proposed site,[18] or a letter from the Hospital Corporation indicating an intention to discuss the retransfer of the property leased to that organization,[19] or some other indication that the Hospital Corporation would have no objection to restoring possession of the property to the City. Nor is it clear from the pleadings that the City can condemn a portion of the property leased to the Jewish Community Center, especially in view of the provisions of the lease cited by WCCO. Moreover, even assuming there was no question concerning the City's right to condemn property leased to the Center (or to the Hospital Corporation), condemnation necessarily presents problems of time and expense that could very well be pertinent to the availability of the site. Therefore, under the circumstances as presented, we believe that there is sufficient doubt as to whether reasonable assurance exists as to the availability of WNYC's proposed site to warrant enlargement of the issues as requested by the petitioner. In view of this conclusion, WNYC's failure to report the City's alienation of its proposed site warrants addition of a § 1.65 issue. Finally, the Board believes that petitioner's allegations are inadequate to support addition of the requested misrepresentation issue. Aside from the fact that WCCO's allegations in this regard do not comport with the provisions of § 1.229(c) requiring affidavits of a person or persons having personal knowledge of the facts alleged,[20] there is no basis for assuming that the statements made by City officials to which WCCO refers are more than the expression of individual opinion. See Edward G. Atsinger, III, supra. Finally, we have no reason to doubt the sworn affidavit of Mr. Redlich explaining what he meant in his statement to the Board of Estimate concerning the proposed site. Therefore, we are unable to conclude that a serious question has been raised warranting a misrepresentation issue against WNYC.

7. *Accordingly, it is ordered*, That the petition to enlarge issues filed January 24, 1973, is granted to the extent indicated below, and is denied in all other respects; and

8. *It is further ordered*, That the issues in this proceeding are enlarged by the addition of the following issues:

(a) To determine whether the City of New York Municipal Broadcasting System, has reasonable assurance of the availability of its proposed transmitter site.

(b) To determine whether the City of New York Municipal Broadcasting System has kept the Commission fully informed of significant and material changes in conditions and circumstances relating to its proposed antenna site and, if not, the effect thereof on the basic or comparative qualifications of the applicant to be a Commission licensee.

9. *It is further ordered*, That the burden of proceeding with the introduction of the evidence and the burden of proof under issue (a) added herein shall be on the City of New York Municipal Broadcasting System; and that the burden of proceeding with the introduction of evidence under issue (b) added herein shall be upon Midwest Radio-Television, Inc., and the burden of proof under issue (b) shall be upon the City of New York Municipal Broadcasting System.

Adopted: July 2, 1973.

Released: July 9, 1973.

[Docket No. 19568, 19569; FCC73R-248]

LEXINGTON COUNTY BROADCASTERS, INC. AND WILLIAM D. HUNT

Memorandum Opinion and Order Enlarging Issues

In regard to applications of Lexington County Broadcasters, Inc. Cayce, South Carolina Docket No. 19568, File No. BPH-7605, and William D. Hunt, Cayce, South Carolina Docket No. 19569, File No. BPH-7658, for construction permits.

1. This proceeding involves the mutually exclusive applications of Lexington County Broadcasters, Inc. (Lexington County) and William D. Hunt (Hunt) for authorization to construct a new FM broadcast station in Cayce, South Carolina (38 FR 8554). It was designated for a comparative hearing by Order, released August 15, 1972.[1] Now before the Review Board is a petition to enlarge issues, filed by Hunt on December 11, 1972, requesting the addition of issues to determine whether Lexington County, as licensee of standard broadcast Station WCAY, Cayce, South Carolina, has misrepresented its commercialization and news practices in its renewal applications for Station WCAY, and whether it has complied with the fairness doctrine and personal attack rule in connection with the operation of that station.[2]

TIMELINESS

2. Hunt concedes that his petition is filed late, but contends that good cause exists to warrant its acceptance. In support, petitioner maintains that a "substantial portion" of the materials supporting his petition consist of Station WCAY's program logs which were not obtained by petitioner until November 24, 1972, "after no small resistance from Lexington."[3] The Broadcast Bureau contends that the petition should be accepted and considered on its merits for the reasons set forth by petitioner and also because of the public interest considerations underlying the allegations in the petition. Lexington County opposes the petition, arguing that good cause does not exist for its acceptance because the petition is predicated upon information that was available to petitioner before the period specified by § 1.229(b) of the Rules expired. In reply, Hunt acknowledges that some of the information contained in his petition was available prior to the expiration of the time for filing the instant request, but contends that the program logs provide evidence necessary to support his petition. The Board believes that the data contained in the program log is essential to petitioner's request.[4] Though untimely, the request was filed within a reasonable time after petitioner obtained WCAY's program logs. In these circumstances, good cause exists for consideration of the petition on the merits. Cf. United Television Co., Inc. (WFAN-TV), 33 FCC 2d 424, 23 RR 2d 644 (1972); Folkways Broadcasting Co., Inc., 27 FCC 2d 619, 21 RR 2d 163 (1971).

MISREPRESENTATION OF COMMERCIALIZATION AND NEWS PRACTICES

3. In support of petitioner's request for the addition of an issue to determine whether Lexington County made misrepresentations to the Commission regarding its commercialization practices, Hunt asserts that copies of WCAY program logs[5] and tape transcriptions of WCAY programming in 1972[6] reveal discrepancies between the station's promises regarding its commercial practices and its performance. Petitioner notes that Lexington County proposed in WCAY's 1969 license renewal application to restrict its commercial broadcasting for the 1969–72 period to a maximum of 30 percent of its broadcast time between 6:00 a.m. and 6:00 p.m., and 25 percent during all broadcast hours. Petitioner maintains that Lexington County stated in this application that it would not exceed its proposed maximum level of commercialization of 22 minutes an hour and that excesses would not occur during any more than 5 percent of the hours in any week. Petitioner contends that, in spite of this representation, WCAY engaged in excessive commercialization on six of the 12 days for which it had program logs during this renewal period. Specifically, Hunt contends that WCAY broadcast more than 18 commercial minutes per hour during 21 one-hour broadcast periods between 6:00 a.m. and 6:00 p.m., which represents 13.2 percent of the hourly segments in the logs for this period. Hunt contends, moreover, that WCAY broadcast more than 20 minutes of commercials during eight of these 21 one-hour segments, and more than 22 minutes during one of these segments. In addition, petitioner asserts, tape recordings of WCAY's programming during specified dates in 1972 disclose that WCAY broadcast in excess of 18 minutes of commercials during five one-hour segments, four of these containing in excess of 22 commercial minutes. Regarding WCAY's 1966–69 renewal period, petitioner notes that Lexington County proposed in WCAY's 1966 renewal application to broadcast commercial matter during only 31.7 percent of all broadcast hours and that the applicant had stated

[10] Citing John Hutton Corp., 27 FCC 2d 214, 20 RR 2d 1159 (1971); Lester H. Allen, 20 FCC 2d 478, 17 RR 2d 914 (1969); and HGR Broadcasting Co., 3 FCC 2d 658, 6 RR 2d 1698 (1966).

[11] In this connection, the Bureau submits the letter sent to Mrs. Bokert from Deputy Mayor Morrison which directly controverts Mrs. Bokert's statement.

[12] In this connection, WNYC argues that considering the long pendency of this proceeding, interim utilization of this land for public purposes can hardly be deemed unreasonable.

[13] In support thereof, WNYC also attaches a copy of the letter that Deputy Mayor Morrison sent Mrs. Bokert and which formed the basis for Mrs. Bokert's testimony.

[14] WCCO argues that the functions of the Site Selection Board and Board of Estimates may not be characterized as local intragovernmental actions, roughly analogous to local zoning authorities; rather than being quasi-judicial bodies, the two city agencies are legislative and political in character, petitioner asserts.

[15] Petitioner concedes that Mrs. Bokert's testimony was in error in ascribing the Deputy Mayor's reassurance that Seaview would not be used in a letter she received from him; however, WCCO attaches to its reply an affidavit by Mrs. Bokert allegedly showing that her understanding was based on a conference with the Deputy Mayor.

[21] Board Member Nelson not participating.

[1] The Order issued by the Chief of the Broadcast Bureau, acting under delegated authority of the Commission, was published in the Federal Register on August 19, 1972, 37 FR 16820.

[2] Also before the Review Board are: (a) The Broadcast Bureau's comments, filed January 9, 1973; (b) reply to (a) by Hunt, filed January 19, 1973; (c) opposition by Lexington County, filed February 1, 1973; and (d) reply to (c) by Hunt, filed February 13, 1973.

[3] Initially, petitioner requested these logs in a motion for the production of documents, filed September 1, 1972. Their production was ordered by the Administrative Law Judge in an oral Order issued October 25, 1972. A petition by Lexington County for leave to appeal or modify that Order was denied by Memorandum Opinion and Order, FCC 72M-1401, released November 10, 1972.

[4] See paras. 3 and 8, *infra*.

[5] The WCAY program logs upon which Hunt bases the arguments in his petition are the composite week logs from 1967 to 1971, consisting of fourteen days of program logs in 1967–1969, and twelve days of program logs in 1970 and 1971. However, petitioner only submitted two days of program logs with his enlargement request.

[6] The recorded portions of WCAY programming, transcripts of which were attached to the petition along with a supporting affidavit, were recorded on June 30 and July 6, 7 and 22, 1972.

V38-133-L JUL 12 73 XUM

that the maximum amount of commercial matter WCAY would broadcast in any one-hour segment would be 19 minutes. However, Hunt contends, the program logs in his possession reveal that during this period WCAY broadcast more than 19 commercial minutes during 31 one-hour segments. In addition, petitioner contends, nine of these hourly segments contained more than 22 minutes of commercial broadcasts. In support of his request regarding the purported misrepresentation by Lexington County of WCAY's news broadcasting, petitioner notes that Lexington County proposed during WCAY's 1969–72 renewal period to devote 15 percent of WCAY's news to matters local in content, and that it proposed to devote during WCAY's 1966–69 renewal period one-half of the total news coverage to local and regional news. Petitioner maintains that, in spite of these representations, there is no indication from the program logs in Hunt's possession that any local or regional news was broadcast by WCAY during this period.

4. The Broadcast Bureau supports addition of the requested issues conditioned upon Hunt's submission of all the logs in his possession together with an affidavit of a person who has examined them. As additional support for enlargement, the Bureau notes that, in a letter dated November 8, 1972, the Commission requested a full explanation from Lexington County of discrepancies between Station WCAY's proposed commercial policy and the station's practices which were revealed in its 1972 renewal application. In reply, Hunt submits a copy of all WCAY program logs in his possession as well as a supporting affidavit. The affidavit modifies slightly the original allegations, stating that the WCAY program log of September 12, 1967, indicates that 8½ minutes of local news was broadcast that day.

5. In opposition, Lexington County contends that the affidavits which were furnished by petitioner do not satisfy the requirements of § 1.229(c) because they only verify the accuracy of the transcription of WCAY program recordings and not the tapes themselves. With specific regard to alleged overcommercialization, Lexington County contends that spot checks of one of the daily program logs relied upon by petitioner (December 13, 1968) reveal five errors in petitioner's calculations of commercial time broadcast by WCAY. Furthermore, Lexington County contends that there were only occasional departures from its "self-imposed" hourly commercial limits; that it stayed well within the bounds of its overall commercial limits;[7] that it has disclosed to the Commission all variances between its commercial broadcast proposals and its actual performance during the composite week; that its commercial policy was adopted in good faith and modified only when necessary to serve the public interest by providing local merchants an opportunity to promote sales when most advertising time had been purchased in advance; and that it has taken affirmative steps to eliminate any further departures from its hourly commercial limits.[8] Lexington County also denies that any misrepresentations were made in WCAY's 1966 and 1969 renewal applications in connection with the amount of local and regional news it intended to broadcast. Lexington County maintains that the 15 percent figure in WCAY's 1969 renewal application represents an estimate of the amount of local news broadcast during the 1966–69 period, not an estimate of local and regional news to be carried during the next renewal period. Furthermore, Lexington County contends that petitioner fails to take into account WCAY's broadcast of weather reports which may, it maintains, be classified as news. The general absence of separate logging notations, it asserts, results, not from the fact that the station did not cover such matter, but from the fact that past coverage of local and regional news was often interspersed in regularly scheduled programs.[9] Lexington County concludes that no misrepresentation issue is warranted.

6. In reply, Hunt asserts that there is no basis for the objective by Lexington County that petitioner has not furnished an affidavit verifying the accuracy of the tapes when it is apparent from the tapes themselves that they are recordings of WCAY programming, and when the transcripts of the tapes have been verified. Furthermore, petitioner contends, calculations by Lexington County of its commercial broadcasts on December 13, 1968, were erroneous because they failed to account for the commercials broadcast during the network news programs which WCAY aired.[10] Petitioner disputes Lexington County's argument that WCAY stayed well within the bounds of its overall commercial limits since Lexington County's promises in its renewal applications were framed in terms of the amount of advertising to be broadcast in each one-hour segment. Petitioner also argues that Lexington County does not adequately explain in its opposition the absence of notations in its program logs indicating the broadcast of local and regional news and notes that Lexington County's assertions concerning its practice of interspersing local and regional news in other programs was made without specifying the frequency of such broadcasts. Finally, petitioner contends, Lexington County fails to provide supporting affidavits from persons who provide the station with the "Hot-Line" phone tips.

7. In the opinion of the Review Board, although Hunt has adequately verified the materials underlying the allegations in the petition, he has not raised a substantial question of misrepresentation by Lexington County of WCAY's commercialization and news broadcast practices. With respect to commercialization, the Board finds no support for Hunt's allegations that statements made in WCAY's renewal applications concerning such practices were intended to mislead the Commission. Lexington County disclaims such intent and the affidavit of its president explains the variations between the proposed and actual amounts of commercial time in terms of errors in judgment, as well as the need to modify its proposals in order to serve its community. This explanation is not inherently improbable and any intent to misrepresent is further belied by the fact that WCAY operated well within its overall commercial limits. In these circumstances, we will not add a misrepresentation of commercialization practices issue. See Southern Broadcasting Co. (WGHP–TV), 31 FCC 2d 661, 22 RR 2d 929 (1971). Cf. Chicago Federation of Labor, and Industrial Union Council, 38 FCC 2d 417, 25 RR 2d 1147 (1972). Likewise, Hunt has not adequately substantiated his claim that the news estimates contained in WCAY's renewal applications represented wilfull misstatements of the licensee's intentions. However, the apparent variances between the amounts of local and regional news and the amounts of commercial matter promised in the applications, and that actually programmed, are significant and raise a serious question as to the reliability of Lexington County's present proposal. While a licensee's prerogative to exercise flexibility and discretion in its programming is well established, a licensee retains the duty to substantially carry out the programming policies embodied in its renewal proposal or, in the alternative, justify substantial variations to the Commission. KORK, Inc., 31 FCC 85, 21 RR 781 (1961). Such justification is not present here. Although Lexington County asserts that WCAY has remained faithful to its news programming proposals contained in these renewal applications, it has not specifically shown that WCAY's programming logs support its position or that WCAY has carried the percentages of local and regional news it proposed. Moreover, whether the statement made by Lexington County in its 1969 renewal application concerning news broadcasts was intended as a proposal for programming during the renewal period or as a comment concerning WCAY's performance during 1966–1969 is unclear and must be explored at the hearing as well. Finally, Lexington County concedes that it broadcast more commercial matter than it had proposed, and in some instances the amount of commercial matter broadcast substantially exceeded the specific amount proposed. While neither the alleged discrepancy in local news nor commercial matter, standing alone, would be sufficient to raise a substantial question as to Lexington County's qualifications, the Board is of the view that, considered together, they do raise such a question thereby warranting an evidentiary inquiry. Therefore, the Board will add an issue to determine whether the Commission can rely upon Lexington County to operate the FM station as proposed. See Southern Broadcasting Co. (WGHP–TV), 26 FCC 2d 998, 20 RR 2d 689 (1970); Regal Broadcasting Corp. (WHRL–FM), 14 FCC 2d 845, 14 RR 2d 407 (1968).

FAIRNESS DOCTRINE AND PERSONAL ATTACK RULE VIOLATIONS

8. In support of his request for the addition of an issue to determine whether Lexington County has complied with the fairness doctrine and personal attack rule in connection with the operation of Station WCAY, petitioner cites portions of four WCAY broadcasts recorded during June and July, 1972, which dealt with capital punishment, the food stamp program, proposals for the value-added tax, and the flying of the Confederate flag.[11] Petitioner contends that only one side of each of these "plainly controversial" topics was ever presented, and notes that none of the WCAY program logs in his possession contain any indication that discussion programs or editorials were ever broadcast by WCAY which may have presented opposing viewpoints. Petitioner concludes that "[w]hile it is not within Hunt's power to establish conclusively that WCAY never broadcast any viewpoints opposing those of Mr. Dekel's on controversial issues, nonetheless, the logs and tapes in his possession serve as an adequate threshhold demonstration that Lexington has violated its Fairness obligation." The alleged personal attack violation arose, petitioner contends, out of WCAY's failure to comply with § 73.123(a) of the Commission's rules[12] following a comment made by Mr. Dekel during the broadcast of the program concerning the flying of the Confederate flag in which he referred to the American Civil Liberties Union (ACLU), as a "known Communist outfit" having "Communist ties" going back many years. In support, petitioner furnishes a copy of an affidavit signed by the president and the executive secretary of the ACLU of South Carolina stating that that organization has not received a transcript of the statements allegedly made during the broadcast or an offer to respond to those statements.

9. The Bureau contends that petitioner has not adequately established that Lexington County violated the fairness doctrine, even if it is assumed that the four broadcasts cited dealt with controversial issues of public importance. The Bureau notes that the logs relied upon by petitioner to show that WCAY had only presented one side of controversial issues of public importance predate the broadcasts referred to in the petition by more than a year; and, even if petitioner had program logs for the periods subsequent to the broadcasts, nothing in these logs would indicate whether WCAY ever presented views contrasting Mr. Dekel's. The Bureau contends that the fairness doctrine only requires that the licensee offer a reasonable opportunity for presentation of contrasting views and that there is evidence from the transcripts of WCAY recordings of at least one such offer being made. Regarding the alleged broadcast of the personal attack, the Bureau argues that, even if WCAY did not comply with the personal attack rule, the addition of an issue would be unwarranted because petitioner fails to show that the attack was more than an isolated incident. Lexington County agrees with the Bureau and adds that it has never received complaints that WCAY's programming on any issue was one-sided and unfair. Furthermore, Lexington County contends, it is its policy to make time available to responsible spokesmen to express views on the air opposing those of Station WCAY and that such offers have been made on the "Friendly Ben Show". Lexington County also states that the WCAY management was totally unaware of the purported personal attack at the time it allegedly occurred and that the WCAY staff "has been warned that any violation of § 73.123 is cause for dismissal."

10. In reply to the Bureau, Petitioner maintains that adoption of the Bureau's position would excuse Lexington County's "shadow compliance" with the fairness doctrine and would significantly dilute that doctrine. Hunt maintains that, by using the only means available at his disposal (WCAY program logs) to document his allegations, he has made a sufficient showing to warrant the addition of the requested issue, and that it would be unfair to require petitioner to prove with certainty that WCAY never presented contrasting views. Petitioner also contends that the alleged personal attack broadcast by WCAY should not be considered as an isolated incident because the personal attack rule is a part of the fairness doctrine, which petitioner maintains Lexington County has also violated. In response to Lexington County, Hunt submits copies of three complaints which the Commission has received concerning Station WCAY and contends that these complaints demonstrate that WCAY makes no provision for the broadcast of opposing views.[14] Petitioner also maintains that it "defies common sense" to think that the only instance of a personal attack broadcast on WCAY occurred during the short time when Hunt monitored the station's programming, and that it may be presumed that other such attacks have occurred frequently. Finally, petitioner argues that Ben Dekel's invitations for contrasting viewpoints "effectively intimidates the public and chills any desire to oppose Mr. Dekel on his own program * * *."

11. The Review Board will not add an issue to determine whether Lexington County has complied with the fairness doctrine and personal attack rule in connection with WCAY's operation. First, petitioner's showing that WCAY has presented only one side of controversial issues of public importance is inadequate. Although broadcasters are required to provide a reasonable opportunity for each side of such issues to be presented, the Commission requires the complainant, inter alia, to set forth reasonable grounds for concluding that the licensee in his overall programming has not attempted to present opposing views on the issues presented. Applicability of the Fairness Doctrine in Handling of Controversial Issues of Public Importance, 40 FCC 598, 2 RR 2d 1901 (1964). It is the policy of the Commission that fairness doctrine complainants assume the burden of coming forward with evidence which will show a basis for the complaint. The Meredith Corp., 37 FCC 2d 551, 25 RR 2d 428 (1972); Federation of Citizens Association of the District of Columbia, 21 FCC 2d 12, 17 RR 2d 1113 (1969). Here, petitioner's attempt to show that WCAY did not include in its programming views opposing those presented on the "Friendly Ben Show", and did not afford the opportunity for the presentation of opposing views on that or other shows, is insufficient to justify the addition of the issue. There is no substantiation or logic to the charge that offers made during the "Friendly Ben Show" inviting contrasting views were in fact intimidating, nor is there any evidence from the three complaints attached to petitioner's reply pleading to show that WCAY does not broadcast opposing views. With regard to the alleged personal attack, even accepting that such a personal attack was made against the ACLU during a WCAY broadcast, and although there is no indication that WCAY complied with the provisions of § 73.123

[7] In this regard, Lexington County contends that it proposed in the WCAY renewal applications to limit broadcast of commercials during WCAY's 1966 renewal period to no more than 31.7 percent of the station's total programming each week, and to no more than 30 percent of the weekly programming during the 1969 renewal period. Lexington County maintains that composite week figures for 1969 and 1972 indicate that for the earlier period only 16.5 percent of WCAY's total programming contained commercial matter, and that this rate rose to only 20.9 percent during the latter period.

[8] In an affidavit attached to the opposition, J. Olin Tice, Jr., president of Lexington County, states that Lexington County proposed a more flexible commercialization proposal in WCAY's 1972 renewal application in order to avoid miscalculations in the future.

[9] Lexington County contends that WCAY periodically broadcasts telephone reports from the Cayce police and fire departments and "Hot-Line" phone tips from listeners. Lexington County also submits that two regular broadcast programs, Bulletin Board and Lexington Show, often cover material "readily classifiable" as news.

[10] Petitioner attaches to his pleading Exhibit 6 of WCAY's 1969 renewal application consisting of the Mutual Network logs for the 1968 composite week, and contends that these logs reveal that 1½ to 2 minutes of commercials were broadcast during each network news broadcast.

[11] The broadcasts petitioner refers to were part of the "Friendly Ben Show" hosted by Mr. Ben Dekel every weekday from 6–9 a.m. on WCAY.

[12] Section 73.123(a) of the rules provides that if a personal attack is made during presentation of views on a controversial issue of public importance, the licensee shall within one week thereof notify the person so attacked of the date, time and identification of the broadcast, provide a script or tape of the attack, and offer a reasonable opportunity to respond over the licensee's facilities.

[14] All three complaints concerned the "Friendly Ben Show". The first concerned a broadcast purportedly racist in content which the complainant found offensive; the second concerned WCAY's failure to air a public service announcement prepared by a federal agency; and the third concerned broadcasts allegedly encouraging disobedience to laws.

V 38 I 133 JUL 12 73 XUM

(a) of the Rules afterwards, petitioner has failed to substantiate his contention that "other such attacks have frequently occurred." Because there is no indication that the violation was anything other than an isolated incident, and in light of the fact that Lexington County has warned the staff of WCAY that such acts are grounds for their dismissal, the addition of this issue is not warranted.[16] Cf. Regal Broadcasting Corp., 27 FCC 2d 694, 21 RR 2d 61 (1971).

12. *Accordingly, it is ordered*, That the petition to enlarge issues, filed December 11, 1972, by William D. Hunt, is granted to the extent indicated below, and is denied in all other respects; and

13. *It is further ordered*, That the issues in this proceeding are enlarged to include the following:

To determine the extent to which Station WCAY, Cayce, South Carolina, licensed to Lexington County Broadcasters, Inc. has in operation deviated from proposals made in its 1966 and 1969 renewal applications concerning its commercial and news practices and the effect of such deviation on the requisite and comparative qualifications of Lexington County Broadcasters, Inc. to be a Commission licensee.

14. *It is further ordered*, That the burden of proceeding with the introduction of evidence and the burden of proof under the issue added herein shall be on Lexington County Broadcasters, Inc.

Adopted: July 2, 1973.

Released: July 9, 1973.

FEDERAL COMMUNICATIONS COMMISSION,[17]
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

[FR Doc.73-14222 Filed 7-11-73;8:45 am]

FEDERAL POWER COMMISSION

[Docket No. CI73-691]

ATLANTIC RICHFIELD CO.

Order Setting Matter for Formal Hearing, Permitting Intervention, Prescribing Procedures and Fixing Date of Hearing

JULY 2, 1973.

On April 15, 1971, the Commission, acting pursuant to the authority of the Natural Gas Act, as amended, particularly sections 4, 5, 7, 8, 10, and 16 thereof (52 Stat. 822, 823, 824, 825, 826, 830; 56 U.S.C. section 717c, section 717d, section 717f, section 717g, section 717i, and section 717), issued Order 431 promulgating a Statement of General Policy with respect to the establishment of measures to be taken for the protection of as reliable and adequate service as present natural gas supplies and capacities will permit.

Atlantic Richfield Company (Arco) has filed, in the above-entitled Docket No. CI73-691, an application, pursuant to section 7(c) of the Natural Gas Act and Order No. 431 in Docket No. R-418, for a limited-term certificate of public convenience and necessity with pre-granted abandonment, authorizing the operation of certain facilities for the sale of emergency gas to Trunkline Gas Company (Trunkline).

The limited-term certificate application provides that Arco sell approximately 75,000 Mcf per day for a term of six (6) months. The contractually agreed rate is 50.0¢ at 14.65 psia, subject to upward Btu adjustment from a base of 1000 Btu's.

In Order 431, the Commission amended Part 2, Subchapter A, General Rules, Chapter I, Title 18 of the Code of Federal Regulations by adding a new § 2.70, which reads:

(3) The Commission recognizing that additional short-term gas purchases may still be necessary to meet the 1971-1972 demands, will continue the emergency measures referred to earlier for the stated 60-day period. If the emergency purchases are to extend beyond the 60-day period, paragraph 12 in the Notice issued by the Commission on July 17, 1970, in Docket No. R-389A should be utilized (35 FR 11638). The Commission will consider if the pipeline demonstrates emergency need • • •

Paragraph 12 of R-389A provided, in part, that applicants, requesting certificates for sales of natural gas in excess of the ceiling or guideline rate, shall state the grounds for claiming that the present or future public convenience and necessity requires issuance of a certificate on the terms proposed in the application.

The application in this proceeding represents a sizeable volume of gas potentially available to the interstate market. It is of critical importance that interstate pipelines procure emergency supplies of gas to avoid disruption of service to consumers; nevertheless, we must determine whether the rate to be paid serves the public convenience and necessity. It is therefore necessary that this application be set for public hearing and expeditious determination. The hearing will be held to allow presentation, cross-examination, and rebuttal of evidence by any participant. This evidence should be directed to the issue of whether the present or future public convenience and necessity requires issuance of a limited-term certificate on the terms proposed in that application.

Pursuant to the notice of the instant application, Trunkline Gas Company filed a petition to intervene.

The Commission finds.

(1) Good cause exists to set for formal hearing the application for a limited-term certificate herein.

(2) It may be in the public interest to permit Trunkline Gas Company, which filed a timely petition, to intervene in this proceeding.

The Commission orders.

(A) The application for limited-term certificate for sale of natural gas filed in Docket No. CI73-691 is hereby set for hearing.

(B) Pursuant to the authority contained in and subject to the authority conferred upon the Federal Power Commission by the Natural Gas Act, including particularly sections 7, 15, and 16, and the Commission's rules and regulations under that Act, a public hearing shall be held commencing July 19, 1973, at 10:00 a.m., e.d.t. at a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, concerning whether the present or future convenience and necessity requires the issuance of a limited-term certificate for the sale of natural gas on the terms proposed in this application and whether the issuance of said certificate should be conditioned in any way.

(C) Trunkline Gas Company of America is hereby permitted to become an intervenor, subject to the rules and regulations of the Commission: *Provided, however*, That participation of such intervenor shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene: *And, provided, further*, That the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order of the Commission entered in these proceedings.

(D) The applicant seeking the limited-term certificate and the proposed purchaser, Trunkline, shall, on or before July 10, 1973, file with the Commission and serve on all parties to this proceeding, including Commission Staff, all testimony to be sponsored in support of the instant application.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. E-7803]

CONSUMERS POWER CO.

Order Modifying Prior Order

JULY 2, 1973.

Consumers Power Company (Consumers), on June 4, 1973, filed a motion for reconsideration of the Commission's order issued herein on May 22, 1973, and a supplement to the motion on June 12, 1973. In the May 22 order we granted a request by the Cities/Coops group[1]: *And provided*, That the anticompetitive issues raised in this proceeding be tried in advance of the other issues, but that the Administrative Law Judge issue a single initial decision in this proceeding based upon the entire evidentiary record. The procedural dates as to other issues had been extended by Notice of the Secretary issued on May 4, 1973.

Consumer's bases its motion for reconsideration on the fact that they intend to present evidence on the anticompetitive aspects of this proceeding and our order separating this issue for early consideration does not allow them sufficient time to proceed with their own discovery and evidentiary presentation in this matter.

We also note that in a Cities/Coops' letter to all parties accompanying their testimony on this issue filed June 5, 1973, the intervenors state that they intend to put "additional testimony concerning anticompetitive, as well as other rate issues, • • • with our cost-of-service presentation." Furthermore, from their response to Consumers' motion, which Cities/Coops filed on June 14, 1973, it is apparent that Cities/Coops seeks only to litigate the "price squeeze" issue in the early phase of the hearing.

Since our order separating the anticompetitive aspects of this proceeding for early hearing was designed to provide a full and complete hearing on the entire anticompetitive issue, and since neither Consumers nor Cities/Coops appear able to go forward with this issue at that hearing, we shall amend our order of May 22, 1973, to provide for trial of the anticompetitive issue together with the other issues in accordance with the procedural dates contained in the Notice of the Secretary, issued May 4, 1973. This will give all parties the opportunity to present full and complete evidence on the anticompetitive issue as well as all other issues at the same hearing.

The Commission finds.

Good cause has been shown to amend our order of May 22, 1973, as hereinafter set forth.

The Commission orders.

(A) Consumer's Motion for Reconsideration filed on June 4, 1973, is hereby granted.

(B) The revised schedule of procedural dates for *all* issues in this proceeding is as follows:

Staff Testimony July 24, 1973
Intervenor's Testimony August 8, 1973
Prehearing Conference August 22, 1973
Applicant's Rebuttal September 12, 1973
Hearing September 19, 1973

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14021 Filed 7-10-73;8:45 am]

[Docket No. CI73-918]

STEPHENS PRODUCTION CO.

Notice of Application

JULY 3, 1973.

Take notice that on June 22, 1973, Stephens Production Company (Applicant), 115 North 12th Street, Fort Smith, Arkansas 72901, filed in Docket No. CI73-918 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas in interstate commerce to the Arkansas Louisiana Gas Company from the Mathers Ranch Field, Hemphill County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 75,000 Mcf of gas for one year at 45.0 cents per Mcf at 14.65 psia within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before July 19, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14020 Filed 7-10-73;8:45 am]

[Docket No. RP72-98]

TEXAS EASTERN TRANSMISSION CORP.

Order Rejecting Stipulation and Agreement and Remanding for Further Proceedings

JUNE 28, 1973.

On April 13, 1973, the Presiding Administrative Law Judge in this proceeding certified to the Commission for its consideration a Revised Stipulation and Agreement proposing to settle the issues in this proceeding, together with statements of the parties with respect to such Agreement, all of which were made a part of the record at a hearing held on April 11, 1973. This Revised Stipulation and Agreement is essentially the same as the Original Stipulation and Agreement which had been previously certified to us and which we remanded to the Presiding Administrative Law Judge by our order issued March 5, 1973, except for a provision which permits the tracking of advance payments and an increase in the commodity charge to reflect increased curtailments anticipated for the year commencing in March 1973.

While the revised rates reflect an increase in the commodity component of 2.6¢ per Mcf over that those now in effect subject to refund,[3] the evidence submitted in support of such rates indicates that the revenue resulting from the zone commodity charges falls short of that which would result from the application of unmodified Seaboard[4] rates by approximately $28,125,000.

In our March 5, 1973, remand order we stated:

In our order in this docket issued August 9, 1972, Accepting Revised Tariff Sheets With Conditions, we stated that we intended to review our pricing mechanism of Texas Eastern, including cost classification, allocation and rate design in Docket No. RP72-98. The arguments advanced by counsel and testimony presented on the record by witnesses in this proceeding in support of the settlement rate design has not convinced us that the proposed rate design is just and reasonable and in the public interest, or that any departure from the principles enunciated in Opinion No. 600-A[4] is warranted. Accordingly we shall remand the proceeding to the Administrative Law Judge for further proceedings with encouragement to the parties to reopen discussions which may lead to the Agreement, modified to reflect, in the design of rates, classification of costs in accordance with the unmodified Seaboard method.

The rates contained in the Revised Stipulation and Agreement now before us are not in conformity with that instruction and the record as made before the Presiding Judge on remand has not convinced us that the rate design therein contained is just and reasonable and in the public interest or that any departure from unmodified Seaboard rates is warranted. Further we note that while the Revised Stipulation and Agreement provides for a trial of the rate design issue if the Commission finds the settlement design unacceptable, the parties have stipulated that such rate design as the Commission may find appropriate after hearing and final decision may be effective prospectively only. In the interim Texas Eastern would continue to sell gas based on modified Seaboard rates.

---

[16] The circumstances surrounding Lexington County's alleged violation of Section 73.123(a) of the Rules, however, may, upon a prima facie showing to the Judge of "unusually poor" past broadcast record, be investigated in connection with WCAY's past programming during the comparative phase of the hearing.

[17] Board Member Nelson not participating. Board Member Berkemeyer dissenting in part and voting to add requested issue on fairness and personal attack. Board Member Kessler dissenting in part and voting to add a comparative issue only with respect to over-commercialization.

[1] The Cities of Bay City, Charlevoix, Coldwater, Harbor Springs, Hillsdale, Marshall, Petoskey, St. Louis and Union City, The Village of Chelsea and the Northern Michigan Electric Cooperative, Inc., The Southeastern Michigan Rural Electric Cooperative, Inc., and the Wolverine Electric Cooperative, Inc.

[3] The increase in commodity component results in a decrease in the demand component of the rate of 82¢ per Mcf below that in the currently effective rates.

[4] Atlantic Seaboard Corp., et al., 11 FPC 43 (1952).

[4] El Paso Natural Gas Company, —— FPC ——, Opinion No. 600-A, Docket No. RP69-6, et al., issued May 8, 1972.

V 381333
JUL 12 73
XUM

We strongly disapprove of further delay in the establishment of unmodified Seaboard rates. The settlement procedure proposed would frustrate implementation of a rate design which we have already found to be the minimum acceptable. (See Michigan-Wisconsin Pipe Line Company, order issued April 10, 1973, in Docket No. RP72-118). Acceptance of the proposed procedure would allow continuation of a tilted rate design which serves to encourage off peak industrial sales of gas at less than compensatory Seaboard rate levels. For the aforestated reasons, we find the propsed settlement rate design unacceptable and we shall remand the proceeding to the Presiding Judge for trial. In this connection, we reiterate the caveat in our August 9, 1972, order setting this case for hearing that "to the extent that the commodity component of Texas Eastern's two part rates and its straight rates claimed in Docket No. RP72-98 do not recover fully allocated costs, as may be determined after hearing and decision therein, Texas Eastern may be required to absorb the impact of any undercollection under these rates as may have occurred."

Further, we note that the record before us is devoid of any evidence with respect to the propriety of the conjunctive billing practices on the Texas Eastern system. We intend to review and reevaluate the merits of conjunctive billing as it relates to Texas Eastern and request the parties including our Staff to address themselves to this issue in the remanded proceedings.

Because the test period utilized in the rate increase filing was the twelve months ended September 30, 1971, as adjusted, we will afford the parties an opportunity to substitute actual data for any estimates which may have been utilized in such test period and submit evidence on the issue of conjunctive billing. Accordingly, we will establish procedural dates for the service of evidence and provide a date for hearing.

The Commission finds.

For the reasons stated above, the Revised Stipulation and Agreement as certified to us on April 13, 1973, by the Presiding Administrative Law Judge, may not be in the public interest and should be remanded to the Presiding Judge as hereinafter provided.

The Commission orders.

(A) The aforesaid Stipulation and Agreement is hereby rejected and the subject docket is hereby remanded to the Presiding Judge for further proceedings consistent with this order.

(B) Evidence of actual experience during the test period and evidence on conjunctive billing which the parties may desire that the Presiding Judge and the Commission consider in determining just and reasonable rates for Texas Eastern shall be filed pursuant to the following schedule:

1. Texas Eastern, on or before August 1, 1973.
2. Commission Staff and Intervenors on or before August 21, 1973.
3. Texas Eastern's Rebuttal Evidence, on or before September 5, 1973.

(C) A hearing with respect to this matter shall be held commencing at 10:00 a.m., (e.d.t.), on September 18, 1973, in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. at which time such evidence, subject to proper motions, shall be made a part of the record and immediately be subject to cross examination.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

NATIONAL POWER SURVEY; TECHNICAL ADVISORY COMMITTEE ON RESEARCH AND DEVELOPMENT TASK FORCE ON ENVIRONMENTAL RESEARCH

Agenda of Meeting

Sixth Meeting of the Technical Advisory Committee on Research and Development Task Force on Environmental Research to be held at the Federal Power Commission Offices Union Center Plaza Building 825 North Capitol Street, N.E. Washington, D.C.; 1:00 p.m., July 19, 1973, Room 5200.

1. Meeting called to order by FPC Coordinating Representative.
2. Approval of minutes of previous meeting.
3. Objectives and purposes of meeting.
A. Review and Discussion of Second Drafts of Report
1. Energy Production, Conversion and Transmission
2. Control Technology
3. Health Welfare & Ecology
4. Transportation Process
5. Instrumentation
6. Monitoring
7. Implementation Research
8. Long Term Environmental Studies
B. Assignments for Final Editing
C. Other Business
D. Date of next meeting (if needed).
4. Adjournment

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee—which statements, if in written form, may be filed before or after the meeting, or, if oral, at the time and in the manner permitted by the committee.

KENNETH F. PLUMB,
Secretary.

FIRST & MERCHANTS CORP.

Proposed Acquisition of Security-Atlantic Life Insurance Company

First & Merchants Corporation, Richmond, Virginia, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Security-Atlantic Life Insurance Company, Phoenix, Arizona, a proposed new company. Notice of the application was published on May 24, 1973 in the Richmond Times-Dispatch, a newspaper circulated in Richmond, Virginia, and on May 26, 1973 in the Arizona Republic and Phoenix Gazette, a newspaper circulated in Phoenix, Arizona.

Applicant states that the proposed subsidiary would engage de novo in the business of reinsuring credit life and credit accident and health insurance risks on certain credit customers of Applicant's banking and non-banking subsidiaries.

Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Richmond.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than July 26, 1973.

Board of Governors of the Federal Reserve System, June 29, 1973.

FULTON NATIONAL CORP.

Proposed Acquisition of Assets of Martin & Bazzel Insurance Agency, Inc.

Fulton National Corporation, Atlanta, Georgia, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire certain insurance renewal premiums and rights related thereto of Martin & Bazzel Insurance Agency, Inc., Atlanta, Georgia. Notice of the application was published on March 1, 1973 in the Atlanta Journal, a newspaper circulated in Atlanta, Georgia.

Applicant proposes to engage in certain insurance agency activities by virtue of the proposed acquisition. Martin & Bazzel Insurance Agency, Inc. previously served the mortgage loan customers of Martin and Bazzel, Inc. (a mortgage banking corporation purchased by Applicant's banking subsidiary) by acting as insurance agent with respect to homeowners, builders risk, and fire and extended coverage related to mortgages owned or serviced by Martin & Bazzel, Inc. Certain insurance agency activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." V38-133 JUL 12 73 XUM

MIDWESTERN FINANCIAL CORP.

Order Granting Determination Under Bank Holding Company Act

In the matter of the request by Midwestern Financial Corporation, Denver, Colorado ("MFC"), for a determination pursuant to section 2(g)(3) of the Bank Holding Company Act of 1956, as amended.

MFC, a bank holding company within the meaning of section 2(a) of the Bank Holding Company Act of 1956 (12 U.S.C. 1841(a)), by virtue of its ownership of 98.7 percent of the issued and outstanding voting shares of The First National Bank in Golden, Golden, Colorado ("Bank"), seeks to terminate said status as a bank holding company as a result of transferring all of its shares of Bank to First Golden Bancorporation, Golden, Colorado ("FGB").[1]

MFC seeks a determination pursuant to section 2(g)(3) of the Bank Holding Company Act of 1956, as amended, that notwithstanding an interlocking director relationship between MFC and FGB, MFC will not be capable of controlling the transferee of the shares of the aforementioned Bank. Mr. John L. Tracy, Chairman of the Board of Directors of MFC, is also a Director of FGB.

Under the provisions of section 2(g)(3) of the Act (12 U.S.C. 1841(g)(3)), shares transferred after January 1, 1966, by any bank holding company to a transferee that has one or more officers, directors, trustees, or beneficiaries in common with or subject to control by the transferor, are deemed to be indirectly owned or controlled by the transferor unless the Board of Governors of the Federal Reserve System, after opportunity for hearing, determines that the transferor is not in fact capable of controlling the transferee.

MFC has submitted to the Board documentary evidence to support its contention that MFC does not in fact control FGB.

Notice of an opportunity for hearing with respect to MFC's request for a determination under section 2(g)(3) was published in the FEDERAL REGISTER on May 14, 1973 (38 FR 12628). The time provided for requesting a hearing expired on June 4, 1973. No such request has been received by the Board, nor has any evidence been received to show that MFC is in fact capable of controlling FGB.

It is hereby determined that MFC is not in fact capable of controlling FGB. This determination is based upon the evidence of record in this matter, including (1) a certified copy of a resolution passed by the Board of Directors of MFC on June 4, 1973, to the effect that MFC does not now and will not in the future control or attempt to control, or exert or attempt to exert a controlling influence over, FGB through the common directorship of Mr. John L. Tracy, and that Mr. Tracy was not selected by the Board of Directors of MFC or otherwise on behalf of MFC, to represent MFC's interest on the FGB Board of Directors; (2) an affidavit of May 22, 1973, by Mr. Tracy stating, in essence, that in acting as a director of FGB, he is not acting pursuant to any agreement of understanding with or under any instructions from MFC, that he will not be reporting to MFC the actions taken at directors' meeting of FGB, that he will not be reporting to FGB the actions taken at directors' meetings of MFC, that in acting in his capacity as director of FGB he is not and will not be subject to control by MFC; and (3) a letter of May 23, 1973, from Counsel for MFC containing an analysis of the legal and factual implications of potential corporate control arising from the subject interlocking directorate, and a statement that there are no contractual restrictions on the transferability of FGB and MFC shares and there is no tying of FGB and MFC shares for sale purposes.

Accordingly, it is ordered, That the request of MFC for a determination pursuant to section 2(g)(3) be and hereby is granted.

By order of the Board of Governors, acting through its General Counsel, pursuant to delegated authority (12 CFR 265.2), June 22, 1973.

[SEAL] CHESTER B. FELDBERG,
Assistant Secretary of the Board.

[FR Doc.73-14171 Filed 7-11-73;8:45 am]

OLD KENT FINANCIAL CORP.

Order Approving Acquisition of Bank

Old Kent Financial Corporation, Grand Rapids, Michigan, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares of the successor by merger to the First National Bank of Cadillac, Cadillac, Michigan ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls one bank with deposits of $636 million, representing 2.7 percent of the total deposits in commercial banks in Michigan, and is the seventh largest banking organization in the State.[1] Consummation of the proposed acquisition of Bank, with deposits of $14.4 million, would neither significantly increase Applicant's share of commercial bank deposits in Michigan nor result in any significant increase in concentration of banking resources in any section of the State.

Bank is the smaller of two banks headquartered in Cadillac and the third largest of four banking organizations on the basis of deposits within the Cadillac area. Bank's sole office[2] is located approximately 100 miles from the nearest office of any of Applicant's present or proposed banking subsidiaries.[3] There is no meaningful competition between Bank and any of Applicant's present or proposed banking subsidiaries, nor does it appear likely that such competition will develop in the future in light of distances involved and Michigan's restrictive branching laws.

In connection with its review of the proposal herein, the Board's attention has been called to the fact that Applicant intends to withdraw Bank from membership in the Federal Reserve System. In its Order of January 5, 1973, approving the application of Hamilton Bancshares, Inc. to acquire voting shares of Hardeman County Savings Bank (1973 Federal Reserve *Bulletin* 109), the Board expressed concern over the practice of large holding companies converting subsidiary banks from member to nonmember status, thereby shunning their public responsibilities to be a part of and to support the policies of the nation's central bank. The Board wishes to reaffirm its earlier views on this practice which it considers to be a matter of some concern. The question of whether the Board should recommend to Congress that membership in the Federal Reserve System be required for subsidiary banks of bank holding companies remains under active study.

The financial and managerial resources of Applicant, its subsidiary bank and Bank are satisfactory and support approval of the application, particularly in view of Applicant's commitment to increase the capital accounts of Bank by $425 thousand. Applicant also proposes to assist Bank in providing new or improved services with respect to such areas as commercial lending, trust services, and mortgage lending. While it appears that the banking needs of the area are being adequately served, the improved and expanded services would provide customers with an additional alternative source of such services. Considerations relating to the convenience and needs of the communities involved are thus regarded as consistent with approval. It is the Board's judgment that the proposed transaction is, on balance, in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above.[4] The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,[5] effective June 27, 1973.

[SEAL] CHESTER B. FELDBERG,
Assistant Secretary of the Board.

[FR Doc.73-14166 Filed 7-11-73;8:45 am]

[1] FGB has filed an application for approval of the Board to become a bank holding company, pursuant to section 3(a)(1) of the Bank Holding Company Act of 1956.

[1] Banking data are as of June 30, 1972, adjusted to reflect holding company formations and acquisitions approved through April 30, 1973.

[2] Bank is in the process of building a drive-in office.

[3] Applicant has a pending application before the Board to acquire Peoples State Bank of Holland, Holland, Michigan.

[4] Concurring Statement of Governor Bucher filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of Chicago.

[5] Voting for this action: Chairman Burns and Governors Mitchell, Brimmer, Bucher, and Holland. Absent and not voting: Governors Daane and Sheehan.

PANNATIONAL GROUP INC.

Order Approving Acquisition of Bank

PanNational Group Inc., El Paso, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent of the voting shares (less directors' qualifying shares) of Metro Bank of Dallas, Dallas, Texas.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant[1] is the thirteenth largest bank holding company in the State of Texas and controls two banks with aggregate deposits of $294 million, or less than one percent of total deposits in commercial banks in the State. (All banking data are as of December 31, 1972.) Bank ranks 50th among 110 commercial banks in the Dallas RMA and controls approximately $18 million in deposits. Consummation of the proposal would not change Applicant's rank in the State, nor result in a significant increase in the concentration of banking resources.

None of Applicant's subsidiary banks is located in the Dallas RMA. Applicant's closest subsidiary to Bank is 636 miles away and there is no significant existing competition between Bank and any of Applicant's subsidiaries. Consummation of the proposal is not likely to have any adverse effect on existing competition, nor any adverse effect on competing banks. On the facts of record, notably Texas' restrictions against branching, the numerous banking alternatives available in the Dallas market, and the sizes of other banks in the areas intervening between Bank and Applicant's subsidiaries, the consummation of the proposal herein is unlikely to foreclose any significant potential competition between Bank and any of Applicant's subsidiaries. Affiliation with Applicant may enable Bank to compete more effectively with the larger banks in the market. On the basis of the record before it, the Board concludes that consummation of the proposal would not have an adverse effect on competition in any relevant area.

The financial and managerial resources and future prospects of Applicant and its subsidiaries appear generally satisfactory. Bank has had certain past problems, including frequent management changes, heavy loan losses, strain on its capital account, an excessive volume of classified assets, and a suit by the SEC. Under new management dating from 1972, Bank has improved its asset position, even though further improvement in capital, depth of management and overall condition of Bank are desirable. Consummation of the proposal should enable Applicant to serve as a source of capital and provide managerial strength to Bank for growth and for service to the relevant area. Considerations relating to the banking factors weigh in favor of approval. Although there is no evidence that the needs of the Dallas RMA are not well served, considerations relating to convenience and needs of the community are consistent with approval. It is the Board's judgment that the proposed transaction is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[2] effective June 28, 1973.

[SEAL] CHESTER B. FELDBERG,
Assistant Secretary of the Board.

[FR Doc.73-14172 Filed 7-11-73;8:45 am]

[1] In connection with PanNational's 3(a)(1) application of February 29, 1972, the Board ordered that divestiture of PanNational's 28.4 per cent interest in Charles Bassett Inc. (a nonbanking subsidiary engaged in shopping center development) take place within two years. Applicant has advised that divestiture of Charles Bassett, as well as Applicant's approximate 10 per cent interest in Darbyshire Steel, Inc. (acquired through loan foreclosure in 1972) will take place by February 1974.

[2] Voting for this action: Chairman Burns and Governors Mitchell, Daane, Brimmer, Sheehan, Bucher and Holland.

PHILADELPHIA NATIONAL CORP.

Proposed Retention of Colonial Associates, Inc.

Philadelphia National Corporation (formerly PNB Corporation) Philadelphia, Pennsylvania has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to retain voting shares of Colonial Associates, Inc., Sherman Oaks, California. Notice of the application was published on April 19, 1973 in the Van Nuys News and Valley Green Sheet, a newspaper circulated in Van Nuys News and has been published or is in the process of publication in newspapers of general circulation in Walnut Creek, California; Covina, California; Atlanta, Georgia; San Jose, California; Phoenix, Arizona; Sacramento, California; Santa Ana, California; Reno, Nevada; San Diego, California; Inglewood, California; Tucson, Arizona; Monterey, California; and Sherman Oaks, California. The proposed subsidiary maintains an office in each enumerated community. Applicant states that the proposed subsidiary would engage in the activity of origination of residential mortgage loans for re-sale to certain of its affiliates. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or grains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Philadelphia.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than July 24, 1973.

Board of Governors of the Federal Reserve System, June 27, 1973.

[SEAL] CHESTER B. FELDBERG,
Assistant Secretary of the Board.

PHILADELPHIA NATIONAL CORP.

Proposed Acquisition of Colonial Mortgage Service Company and Colonial Mortgage Service Co. of California

Philadelphia National Corporation (formerly PNB Corporation), Philadelphia, Pennsylvania, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8))

V38-1333
JUL 12 73
XUM

and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Colonial Mortgage Service Company and of Colonial Mortgage Service Co. of California, both of Philadelphia, Pennsylvania. The shares to be acquired are presently owned by the Philadelphia National Bank, Philadelphia, Pennsylvania, a wholly-owned (except for directors' qualifying shares) subsidiary of Philadelphia National Corporation. Notice of the applications has been published or is in the process of publication in newspapers of general circulation in Philadelphia, Pennsylvania; Pittsburgh, Pennsylvania; Columbus, Ohio; Walnut Creek, California; Kensington, Maryland; York, Pennsylvania; Wilmington, Delaware; Haddonfield, New Jersey; Denver, Colorado; San Diego, California; Atlanta, Georgia; and Sherman Oaks, California. One or the other of the proposed subsidiaries maintains an office in each enumerated community.

Applicant states that the proposed subsidiaries would engage in the activities of originating, selling, and servicing mortgage loans and generally conducting a mortgage banking business. Colonial Advisers, Inc., a subsidiary of Colonial Mortgage Service Company, engages in the provision of investment advice and management to PNB Mortgage and Realty Investors, a publicly-owned real estate investment trust. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The applications may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Philadelphia.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than July 24, 1973.

Board of Governors of the Federal Reserve System, June 27, 1973.

[SEAL] CHESTER B. FELDBERG,
Assistant Secretary of the Board.

TRINITY DEVELOPMENT CO.

Formation of Bank Holding Company

Trinity Development Company, Liberty, Texas, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 22.9 percent of the voting shares of The First Liberty National Bank, Liberty, Texas, a bank in which Trinity Development Company already holds 22.9 percent of the voting shares. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank to be received not later than July 18, 1973.

Board of Governors of the Federal Reserve System, June 29, 1973.

SECURITIES AND EXCHANGE COMMISSION

[811-2369]

CARDINAL INCOME SECURITIES, INC.

Notice of Filing of Application for Order Declaring That Company Has Ceased To Be an Investment Company

Notice is hereby given that Cardinal Income Securities, Inc. ("Applicant"), One Jefferson First Union Plaza, Room 1200, Charlotte, North Carolina 28202, a Maryland corporation registered as a closed-end diversified management investment company under the Investment Company Act of 1940 ("Act"), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations set forth therein, which are summarized below.

On March 30, 1973, Applicant filed a Notification of Registration on Form N-8A pursuant to Section 8(a) of the Act. On that same date, Applicant also filed a Registration Statement on Form N-8B-1 pursuant to Section 8(b) of the Act, and a Registration Statement on Form S-4 pursuant to the Securities Act of 1933 ("1933 Act"). Applicant's 1933 Act Registration Statement has never been declared effective and Applicant has requested that the Registration Statement be withdrawn.

Applicant represents, among other things, that it has no shareholders, no assets, and due to adverse market conditions it does not now intend to offer or sell any of its securities to the public.

Section 3(c)(1) of the Act excepts from the definition of "investment company" any issuer whose outstanding securities are beneficially owned by not more than 100 persons and which is not making and does not presently propose to make a public offering of its securities.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than July 30, 1973, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after that date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application may be issued by the Commission upon the basis of the information stated in said application, unless an order for a hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Recording Secretary.

[FR Doc.73-14178 Filed 7-11-73;8:45 am]

[811-1626]

COMMODORE GROWTH FUND, INC.

Notice of Filing of Application Pursuant to Order Declaring That Company Has Ceased To Be an Investment Company

Notice is hereby given that Commodore Growth Fund, Inc. ("Applicant"), 1200 Washington Building, Tacoma, Washington 98402, a Washington corporation registered as an open-end diversified management investment company under the Investment Company Act of 1940 ("Act"), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations as set forth therein which are summarized below.

Applicant registered under the Act on March 22, 1968, by filing a Form N-8A Notification of Registration under the name of Great Republic Growth Fund, Inc. Its name was changed on October 29, 1971. A Registration Statement under the Securities Act of 1933 on Form S-5 and Pre-Effective and Post-Effective Amendments thereto registering the shares of common stock of Applicant sold to the public have been filed and in due course ordered or declared effective.

The Applicant represents that at a meeting of its Board of Directors held on December 18, 1972, the Board determined unanimously, after considering the various options available to the Applicant, that it was in the best interests of its stockholders to liquidate and dissolve the Applicant. At that same meeting the Board suspended the further offering of shares of the Applicant. On February 16, 1973, the stockholders voted in favor of liquidation and dissolution, and the initial procedural and substantive steps have been taken to dissolve the Applicant.

The Applicant further represents, among other things, that on March 9, 1973, the first (and probably only) liquidating dividend in the amount of $4.87 per share, which dividend was equal to the net asset value per share as of the close of business on March 9, 1973, was distributed to the shareholders of record. It is the intention of the Board of Directors of the Applicant, and its investment adviser, to maintain the corporate existence of the Applicant only so long as is necessary to complete those steps incident to the formal dissolution of the Corporation.

Section 3(c)(1) of the Act excepts from the definition of "investment company" any issuer whose outstanding securities are beneficially owned by not more than 100 persons and which is not making and does not presently propose to make a public offering of its securities.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than July 30, 1973 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application may be issued by the Commission upon the basis of the information stated in said application, unless an order for a hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] SHIRLEY E. HOLLIS,
Recording Secretary.

[FR Doc.73-14179 Filed 7-11-73;8:45 am]

SMALL BUSINESS ADMINISTRATION

[Delegation of Authority 12-A; Rev. 1]

DEPUTY ASSOCIATE ADMINISTRATOR FOR FINANCE, ET AL

Redelegation on Financial Assistance

Delegation of Authority No. 12-A (37 FR 24715) is superseded by Delegation of Authority No. 12-A (Revision 1). Revision 1 reflects proper delegations of authority emanating from the Associate Administrator for Finance and Investment rather than from the previous organizational title which became nonexistent effective as of February 2, 1973, the date the Civil Service Commission approved the change. (38 FR 3187)

This document also (1) provides for the redelegation of authority relating to claims owed to sureties on defaulted surety bond guarantees (I.F.8.b and I.H.4.b) as well as all other authorities previously redelegated by Delegation of Authority No. 12-A; and (2) revised I.A.1 to reflect appropriate change of title.

Delegation of Authority No. 12-A (Revision 1) reads as follows:

I. Pursuant to the authority delegated by the Administrator to the Associate Administrator for Finance and Investment in Delegation of Authority No. 12 (38 FR 13063), as amended (38 FR 16001), the following authority is hereby delegated to the specific positions as indicated herein:

A. *Deputy Associate Administrator for Finance.* 1. To perform any and all acts which I, as Associate Administrator for Finance and Investment, am authorized to perform under the aforementioned Delegation of Authority within the financial assistance program.

B. *Director, Office of Financing.* 1. To approve or decline business, economic opportunity, and all types of disaster loan applications, including reconsiderations thereof, and to execute authorizations and amendments pertaining to such loans.

2. To cancel, reinstate, modify and amend authorizations for fully or partially undisbursed loans.

3. To determine eligibility of business, economic opportunity, and all types of disaster loan applicants.

C. *Chief, Program Operations Division.* 1. To approve or decline business, economic opportunity, and all types of disaster loan applications, including reconsiderations thereof, and to execute authorizations and amendments pertaining to such loans.

2. To cancel, reinstate, modify and amend authorizations for fully or partially undisbursed loans.

3. To determine eligibility of business, economic opportunity, and all types of disaster loan applicants.

D. *Director, Office of Loan Administration.* 1. To take all necessary action in connection with the servicing, administration, collection and liquidation of all loans, other obligations and acquired property, with the exception of those loans classified as in litigation, but is not authorized:

(a) To sell any primary obligation or other evidence of indebtedness, exclusive of property acquired, owed to the Agency for a sum less than the total amount due thereon.

(b) To accept or reject a compromise settlement of an indebtedness owed to the Agency for a sum less than the total amount due thereon.

(c) To deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the initiation of suit for recovery from a participating bank under any alleged violation of a participation or guaranty agreement.

2. To take all necessary actions in connection with the liquidation of SBIC's and EDA loans for the Department of Commerce.

3. To take all necessary actions in connection with the servicing (financial aspects) of certificates of competency and, as appropriate, financial aspects of contracts let by SBA under Section 8(a) of the Small Business Act, as amended.

E. *Chiefs, Operations Assistance Division and Program and Systems Division.* 1. To take all necessary action in connection with the servicing, collection or liquidation of fully disbursed loans not in litigation and other obligations and acquired property within all loan programs of the Small Business Administration, but is not authorized:

a. To sell any primary obligation or other evidence of indebtedness, exclusive of property acquired, owed to the Agency for a sum less than the total amount due thereon.

b. To accept or reject a compromise settlement of an indebtedness owed to the Agency for a sum less than the total amount due thereon.

c. To deny liability of the Small Business Administration under the terms of

V 38 133 JUL 12 73 XUM

a participation or guaranty agreement, or the initiation of suit for recovery from a participating bank under any alleged violation of a participation or guaranty agreement.

2. To take all necessary actions in connection with the liquidation of SBIC's and EDA loans for the Department of Commerce.

3. To take all necessary actions in connection with the servicing (financial aspects) of certificates of competency and, as appropriate, financial aspects of contracts let by SBA under section 8(a) of the Small Business Act, as amended.

F. *Director, Office of Community Development.* 1. To approve or decline development company (sections 501 and 502) loan applications, including reconsiderations thereof, and to execute authorizations and modifications pertaining to such loans.

2. To cancel, reinstate, modify and amend authorizations for fully undisbursed loans.

3. To determine eligibility of development company loan lease guarantee, and surety bond applicants.

4. To approve or decline applications for the guarantee of the payment of rents under a lease where aggregate rentals do not exceed the lesser of $15,000 per month or $2,500,000 over the term guaranteed.

5. To enter into reinsurance agreements with participating insurance companies and to modify and revise the same whenever necessary.

6. To approve or decline applications for reinsured guarantees received from participating insurance companies for the payment of rents under a lease where the SBA share of such participation does not exceed the lesser of $15,000 per month or $2,500,000 over the term guaranteed.

7. To approve the investment of moneys in the Lease Guarantee revolving fund not needed for the payment of current operating expenses for the payment of claims arising under the Lease Guarantee program, in bonds or other obligations guaranteed as to principal and interest by the United States.

8. a. To guarantee sureties of small business against portions of losses resulting from the breach of bid, payment or performance bonds on contracts up to $500,000.

b. To approve or decline all claim reimbursement requests from participating surety companies on contract defaults bonded with SBA guarantees.

9. To make size determinations for the purpose of the lease guarantee and surety bond programs.

G. *Chief, Development Company Loan Division.* 1. To approve or decline development company (sections 501 and 502) loan applications, including reconsiderations thereof, and to execute authorizations and modifications pertaining to such loans.

2. To cancel, reinstate, modify and amend authorizations for fully undisbursed loans.

3. To determine eligibility of development company loan applicants.

H. *Chief, Underwriting Division.* 1. To approve or decline applications for the guarantee of the payment of rents under a lease where aggregate rentals do not exceed the lesser of $15,000 per month or $2,500,000 over the term guaranteed.

2. To enter into reinsurance agreements with participating insurance companies and to modify and revise the same whenever necessary.

3. To approve or decline applicants for reinsured guarantees received from participating insurancee companies for the payment of rents under a lease where the SBA share of such participation does not exceed the lesser of $15,000 per month or $2,500,000 over the term guaranteed.

4. a. To guarantee sureties of small business against portions of losses resulting from the breach of bid, payment of performance bonds on contracts up to $500,000.

b. To approve or decline all claim reimbursement requests from participating surety companies on contract defaults bonded with SBA guarantees.

5. To determine eligibility of lease guaranty and surety bond applicants.

I. *Central Office Claims Review Committee.* 1. This committee shall consist of the Director, Office of Loan Administration, acting as chairman; Director, Office of Financing; and Associate General Counsel, Office of Litigation.

2. This committee shall meet and consider reasonable and properly supported compromise proposals and make the final decision to accept or reject such proposals, provided the decision of the committee is unanimous.

II. The authority delegated herein may not be redelegated.

III. All authority delegated herein may be exercised by any Small Business Administration employee designated as acting in that position.

Effective date: February 2, 1973.

DAVID A. WOLLARD,
Associate Administrator for Finance and Investment.

[Declaration of Disaster Loan Area 999]

VIRGINIA

Declaration of Disaster Loan Area

Whereas, it has been reported that during the month of May 1973, because of the effects of a certain disaster, damage resulted to residences and business property located in the State of Virginia;

Whereas, the Small Business Administration has investigations of conditions in the areas affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act, as amended;

Now, therefore, as Acting Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in Roanoke City, Roanoke County, Pulaski County, and Giles County in the State of Virginia suffered damage or destruction resulting from flooding caused by extreme heavy rains occurring May 27 and May 28, 1973. Applications will be processed under the provisions of Public Law 93-24.

OFFICE

Small Business Administration
District Office
Federal Building, Room 3015
400 North Eighth Street
Richmond, Virginia 23240

2. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to

Dated: July 2, 1973.

ANTHONY G. CHASE,
Acting Administrator.

[License Application No. 02/02-5300]

KESER CAPITAL CORP.

Notice of Application for a License as a Small Business Investment Company

An application for a license to operate as a small business investment company under the provisions of section 301(d) of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.), has been filed by Keser Capital Corporation (applicant) with the Small Business Administration (SBA) pursuant to 13 CFR 107.102 (1973).

The officers and directors of the applicant are as follows:

Charles Kofman, President, General Manager, Director, 1551 47th Street, Brooklyn, New York 11219.
Chani Kofman, Secretary-Treasurer, Director, 1551 47th Street, Brooklyn, New York 11219.
Isaac Pinter, Director, 4910 15th Avenue, Brooklyn, New York 11219.

The applicant, a New York corporation, with its principal place of business located at 745 Fifth Avenue, New York, New York 10022, will begin operations with a combined paid-in capital and paid-in surplus of $525,000, derived from the sale of 5,250 shares of common stock to Charles Kofman.

According to the company's stated investment policy, its investments will be made solely in small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose participation in the free enterprise system is hampered because of social or economic disadvantages.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed owner and management, and the probability of successful operation of the applicant under that management, including adequate profitability and financial soundness in accordance with the Small Business Investment Act and the SBA Rules and Regulations.

Any person may, on or before July 27, 1973, submit to SBA written comments on the proposed licensee. Any such communication should be addressed to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 L Street, NW, Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in New York City.

Dated: July 3, 1973.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

INTERSTATE COMMERCE COMMISSION

[Notice 294]

ASSIGNMENT OF HEARINGS

JULY 9, 1973.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 108207 Sub 364, Frozen Food Express, Inc., now assigned August 8, 1973, at Dallas, Tex., will be held in Room 5A15-17, Federal Office Building, 1100 Commerce Street.
FD 26241, Penn Central Transportation Company Reorganization, now being assigned pre-hearing conference July 16, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.
MC-127042 Sub 111, Hagen, Inc., application dismissed.
MC 138213, Redi Lease Co., now being assigned hearing September 10, 1973, at St. Louis, Mo., in a hearing room to be later designated.
MC 107515 Sub 820, Refrigerated Transport Co., Inc., now being assigned hearing September 12, 1973, at St. Louis, Mo. in a hearing room to be later designated.
MC 127042 Sub 102, Hagen, Inc., now being assigned continued hearing September 17, 1973, at St. Louis, Mo., in a hearing room to be later designated.
MC 87720 Sub 131, Bass Transportation Co., Inc., now being assigned hearing September 19, 1973, at St. Louis, Mo., in a hearing room to be later designated.

[Notice 90]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JULY 3, 1973.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67, (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

[Notice No. 54]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

JULY 6, 1973.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by special rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

No. MC 2229 (Sub-No. 177) filed May 14, 1973 Applicant: RED BALL MOTOR FREIGHT, INC. 3177 Irving Blvd. P.O. Box 47407 Dallas, Tex. 75247 Applicant's representative: Douglas Anderson (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, household goods as defined by the Commission, commodities in bulk and commodities which because of size or weight require the use of special equipment), Between Fort Smith, Ark. and Shreveport, La., as an alternate route for operating convenience only in connection with applicant's regular-route operations serving Texarkana, Tex. for the purpose of joinder only: From Fort Smith, Ark., over U.S. Highway 71 to Shreveport, La., and return over the same route. Note: If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex. or Washington, D.C.

No. MC 2860 (Sub-No. 123) filed May 7, 1973 Applicant: NATIONAL FREIGHT, INC. 57 West Park Avenue Vineland, N.J. 08360 Applicant's representative: W. Randall Tye 1500 Candler Building Atlanta, Ga. 30303 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fibrous glass products and materials; plastic products and materials; asphalt and asbestos and asphalt and asbestos products; and materials, supplies and equipment* used in the production and installation of the commodities named above, in straight or mixed shipments, between the plant site of Owens-Corning Fiberglas Corporation at or near Fairburn, Ga., and points in Arkansas. Note: Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga. or Washington, D.C.

No. MC 3854 (Sub-No. 23) filed May 14, 1973 Applicant: BURTON LINES, INC. P.O. Box 11306 East Durham, Station Durham, N.C. 27703 Applicant's representative: Edward G. Villalon 1032 Pennsylvania Building Pennsylvania Ave. & 13th St., N.W. Washington, D.C. 20004 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Composition board, particle board and plywood, accessories, materials and supplies* used in the sale and installation thereof, from points in Calhoun County, Fla., to points in the United States in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas, including the District of Columbia; and (2) *materials, supplies and accessories* used in the manufacture and installation of the commodities in (1) above from the destination points specified in part (1) above to the plant and warehouse sites of Abitibi Corporation in Calhoun County, Fla., restricted in (1) and (2) above against the transportation of commodities in bulk. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich., or Washington, D.C.

No. MC 5227 (Sub-No. 6) (CLARIFICATION) filed April 5, 1973, published in FEDERAL REGISTER issue May 24, 1973 and republished as clarified this issue. Applicant: ECONOMY MOVERS, INC. P.O. Box 201 Mead, Nebr. 68041 Applicant's representative: Gailyn L. Larsen P.O. Box 80806 521 So. 14th Street Lincoln, Nebr. 68501 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Agricultural implements, pumps, water systems, component parts for water systems, tanks, and towers, and parts for agricultural implements and pumps*, between Beatrice, Nebr., Springfield, Mo., Morton, Ill. and Amarillo, Tex., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii); (2) *Equipment, materials and supplies* used in the manufacture or distribution of the above-named commodities (except commodities in bulk), from points in the United States, (except Alaska and Hawaii), to Beatrice, Nebr., Springfield, Mo., Morton, Ill., and Amarillo, Tex.; and (3) *Experimental and show display agricultural implements, pumps, water systems, component parts for water systems tanks and towers, and parts for agricultural implements, and pumps*, between points in the United States (except Alaska and Hawaii). Note: The purpose of this republication is to show that tacking possibilities exist with applicant's existing commodity authority of contractor's equipment, machinery and supplies at points in Colorado, Kansas or Iowa to provide a through service to the destination states named herein. If a hearing is deemed necessary, applicant requests it be held at Lincoln or Omaha, Nebr.

No. MC 6607 (Sub-No. 12) filed May 11, 1973 Applicant: J. J. MINNEHAN, INC. P.O. Box 433 Scarborough, Maine 04074 Applicant's representative: Frederick T. O'Sullivan 622 Lowell Street Peabody, Mass. 01960 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Corn products and blends of corn products with other sweeteners*, in bulk, in tank vehicles, from Boston, Mass., to points in New Hampshire, Vermont, Rhode Island, that part of Maine bounded by a line beginning at the New Hampshire-Maine State line and extending in an easterly direction along U.S. Highway 2 to Norridgewock, Maine, thence in a northerly direction along Alternate U.S. Highway 201 to junction U.S. Highway 201, thence along U.S. Highway 201 to Bingham, Maine, thence in an easterly direction along Maine Highway 16 through Milo and La Grange, Maine, to junction Maine Highway 43, thence along the western shore of the Penobscot River and the Penobscot Bay to the Atlantic Ocean, thence in a southwesterly direction along the Atlantic Ocean to the Maine-New Hampshire State line, and thence along the Maine-New Hampshire State line to the point of beginning, including points on the above-described boundary lines, and that part of Connecticut on and east of a line beginnning at the Connecticut-Massachusetts State line and extending in a southerly direction along Connecticut Highway 159 to Hartford, Conn., thence in a southerly direction along Interstate Highway 91 to the intersection of Interstate Highway 91 and U.S. Highway 5, thence in a southerly direction along U.S. Highway 5 to New Haven, Conn.; and (2) *sugar and blends of sugar with other sweeteners*, from Boston, Mass., to points in the destination areas described in (1) above, under contract with Amstar Corporation, Revere Sugar Refinery, and Boston Molasses Co., Div. SU Crest Corporation. Note: If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 11220 (Sub-No. 131) filed May 11, 1973 Applicant: GORDONS TRANSPORTS, INC. 185 West McLemore Ave. P.O. Box 59 Memphis, Tenn. 38101 Applicant's representative: W. F. Goodwin (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except automobiles setup on wheels, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), Between Chicago, Ill. and Indianapolis, Ind. as an alternate route for operating convenience only in connection with applicant's regular-route operations and serving Indianapolis, Ind. for the purpose of joinder only: From Chicago over Interstate Highway 94 to junction Interstate Highway 65 near Gary, Ind., thence over Interstate Highway 65 to Indianapolis and return over the same route. RESTRICTION: The authority described above is restricted to the transportation of traffic moving from, to or through points in Tennessee. Note: Applicant states that the purpose of this application is to enable applicant to operate over interstate highways for the entire distance between Chicago and Indianapolis in connection with the transportation of traffic moving from, to or through Tennessee. Note: If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn. or Washington, D.C.

No. MC 14702 (Sub-No. 51) filed May 23, 1973 Applicant: OHIO FAST FREIGHT, INC. P.O. Box 808 Warren, Ohio 44482 Applicant's representative: Paul F. Beery 88 East Broad Street, Suite 1660 Columbus, Ohio 43215 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum and aluminum articles*, (except commodities in bulk), between the plantsite of Reynolds Metal Company at or near Rooseveltown, N.Y., on the one hand, and, on the other, points in Indiana, the lower Peninsula of Michigan, and the Chicago, Illinois Commercial Zone. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 22182 (Sub-No. 22) (CORRECTION) filed May 4, 1973. Published in the FEDERAL REGISTER issue of June 21, 1973, and republished as corrected this issue. Applicant: NU-CAR CARRIERS, INC. 950 Haverford Road P.O. Box 172 Bryn Mawr, Pa. 19010 Applicant's representative: Gerald K. Gimmel 805 McLachlen Bank Building 666 Eleventh Street, N.W. Washington, D.C. 20001 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Motor vehicles*, in secondary movements, from points in the Norfolk, Va., and Portsmouth, Va., Commercial Zones, to points in Kentucky and Tennessee, restricted to the transportation of traffic originating at the plant sites and facilities of Toyo Kogyo Company located in Japan, and Ford of Europe Incorporated located in England, Germany, and Italy. Note: The purpose of this republication is to indicate applicant's plant site restriction which was previously published in error. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 30319 (Sub-No. 141) filed May 7, 1973 Applicant: SOUTHERN PACIFIC TRANSPORT COMPANY OF TEXAS AND LOUISIANA, a Corporation 7600 South Central Expressway Dallas, Tex. 75216 Applicant's representative: Lloyd M. Roach 1517 West Front Street Tyler, Tex. 75701 Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, (except those of unusual value, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment), Between Del Rio, Tex. and junction of U.S. Highway 277 and Texas Highway 131 (approximately five miles south of Normandy, Tex.), as an alternate route for operating convenience only in connection with applicant's regular-route operations, serving no intermediate points: From Del Rio, Tex., over U.S. Highway 277 to junction Texas Highway 131 and return over the same route. Note: If a hearing is deemed necessary, applicant requests it be held at Dallas, or Houston, Tex.

No. MC 30844 (Sub-No. 463) (AMENDMENT) filed April 30, 1973, published in the FEDERAL REGISTER issue of June 7, 1973, and republished as amended this issue. Applicant: KROBLIN REFRIGERATED XPRESS, INC. 2125 Commercial Street P. O. Box 5000 Waterloo, Iowa 50702 Applicant's representative: Truman A. Stockton The 1650 Grant Street Bldg. Denver, Colo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products, and articles distributed by meat packing houses* as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from Waterloo, and Columbus Junction, Iowa to points in Missouri on and north of U.S. Highway 40 (except Joplin and Kansas City), and points in Oklahoma (except Henrietta, Muskogee, Oklahoma City, Okmulgee, and Tulsa). Note: The purpose of this republication is to indicate that applicant seeks to perform operations to points in Missouri on and north of U.S. Highway 40, rather than south of U.S. Highway 40. Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa, or Washington, D.C.

No. MC 33641 (Sub-No. 102) filed June 7, 1973 Applicant: IML FREIGHT, INC. 2175 South 3270 West Salt Lake City, Utah 80217 Applicant's representative: Carl L. Steiner 39 South La Salle Street Chicago, Ill. 60603 Authority sought to operate as a *common carrier*, by motor

[1] Copies of special rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

V 38-133 JUL 12 73 XUM

vehicle, over regular routes, transporting: *General commodities*, (except those of unusual value, Classes A & B explosives, household goods as defined by the Commission, commodities in bulk, (other than grain and livestock feed), and commodities requiring special equipment), serving the plant site of Pacific International Freeport Center, located in Tooele County, Utah, as an off route point in connection with carrier's regular-route operations. Note: If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah.

No. MC 35320 (Sub-No. 138) filed May 29, 1973 Applicant: T.I.M.E.–DC, INC. 2598-74th Street P.O. Box 2550 Lubbock, Tex. 79408 Applicant's representative: Robert D. Schuler One Woodward Avenue—Suite 1700 Detroit, Mich. 48226 Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plant site and facilities of Niedermeyer-Martin Co. at or near Ridgefield, Wash., as an off-route point in connection with carrier's otherwise authorized regular route operations to and from Portland, Oreg. Note: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either San Francisco, Calif., Seattle, Wash. or Portland, Oreg.

No. MC 52657 (Sub-No. 706) filed May 29, 1973 Applicant: ARCO AUTO CARRIERS, INC. 2140 West 79th Street Chicago, Ill. 60620 Applicant's representative: A. J. Bieberstein 121 West Doty Street Madison, Wis. 53703 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Hoists and cranes*, (2) *refuse containers and packers*, and (3) *materials, supplies, and parts* (except commodities in bulk), used in the manufacture, assembly, and servicing of the commodities in (1) and (2) above, when moving in mixed loads with such commodities, from Richmond, Va., to points in the United States, including Alaska (but excluding Hawaii). Note: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states no duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Richmond, Va.

No. MC 52657 (Sub-No. 707) filed June 11, 1973 Applicant: ARCO AUTO CARRIERS, INC. 2140 West 79th Street Chicago, Ill. 60620 Applicant's representative: A. J. Bieberstein 121 West Doty Street Madison, Wis. 53703 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Motor vehicle bodies, hoists including freight gates, lift gates, tail gates, winches, packers, compactors, and containers*, and (2) *materials, supplies* (except commodities in bulk), *and parts* used in the manufacture, assembly or servicing of commodities described in (1) above, when moving with such commodities, (a) from points in Union Township (Licking County), Ohio, to points in the United States, including Alaska, (but excluding Hawaii), and (b) from Enterprise, Ala., to points in Union Township (Licking County), Ohio. Note: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states no duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 52709 (Sub-No. 319) (CORRECTION) filed March 28, 1973, and published in the FEDERAL REGISTER issue of June 1, 1973, and republished as corrected, this issue. Applicant: RINGSBY TRUCK LINES INC. P.O. Box 192 5773 South Prince Street Littleton, Colo. 80120 Applicant's representative: J. Maurice Andren P.O. Box 1631 Rapid City, S. Dak. 57701 Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment), Between Sioux City, Iowa and Chicago, Ill., serving the intermediate points of Freeport and Rockford, Ill. for purposes of joinder or interchange only: From Sioux City, Iowa over U.S. Highway 20 to Chicago, Ill. and return over the same route. Note: The purpose of this republication is to correct: (1) *regular routes*, in lieu of irregular routes; (2) eliminate the restriction in the commodity description "and those injurious or contaminating to other lading"; and (3) properly set forth the route description as indicated above. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 52883 (Sub-No. 3) filed May 11, 1973 Applicant: TAKIN BROTHERS TRANSFER AND STORAGE COMPANY, a Corporation 326 Sycamore Street Waterloo, Iowa 50703 Applicant's representative: Robert L. Marsch (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Unaccompanied baggage and household goods*, between points in Iowa, restricted to the transportation of shipments moving in interstate commerce. Note: Applicant states that the requested authority can be tacked to serve points between Waterloo, Iowa, and points within 35 miles thereof, on the one hand, and, on the other, points in Illinois, Indiana, Kansas, North Dakota, Michigan, Minnesota, Missouri, Nebraska, Ohio, South Dakota and Wisconsin. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill. or Washington, D.C.

No. MC 73165 (Sub-No. 327) filed June 12, 1973 Applicant: EAGLE MOTOR LINES, INC. 830 North 33rd Street, P.O. Box 11086 Birmingham, Ala. 35202. Applicant's representative: Robert M. Pearce P.O. Box E Bowling Green, Ky. 42101 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum billets, blooms, ingots, pigs, and slabs, and non ferrous metals* for recycling purposes, from the plantsite of Culp Smelting & Refining Co. at or near Steele, Ala., to points in Arkansas, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Missouri, North Carolina, Ohio, Oklahoma, South Carolina, Tennessee, Texas, Virginia, West Virginia, and Wisconsin. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala.

No. MC 74321 (Sub-No. 81) filed May 23, 1973 Applicant: B. F. WALKER, INC. 650 - 17th Street Denver, Colo. 80202 Applicant's representative: Richard P. Kissinger (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Refractories*, from the plantsites of H. K. Porter Company, Inc., located at Wellsville, Hammondsville, and Irondale, Ohio, to points in Illinois, Indiana and Kentucky. Note: Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Pittsburgh, Pa. or Washington, D.C.

No. MC 78228 (Sub-No. 41) filed May 24, 1973 Applicant: J MILLER EXPRESS, INC. 152 Wabash Street Pittsburgh, Pa. 15220 Applicant's representative: Henry M. Wick, Jr. 2310 Grant Building Pittsburgh, Pa. 15219 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles* as defined by the Commission, from the plant site of H.K. Porter Company, Inc., at Huntington, W. Va., to points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maryland, Massachusetts, Michigan, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Vermont, Virginia, and West Virginia. Note: Common control was approved in MC–F–11070. Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or Pittsburgh, Pa.

No. MC 78228 (Sub-No. 42) filed May 24, 1973 Applicant: J MILLER EXPRESS, INC. 152 Wabash Street Pittsburgh, Pa. 15220 Applicant's representative: Henry M. Wick, Jr. 2310 Grant Building Pittsburgh, Pa. 15219 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Refractories*, from the plantsite of Universal Refractory Co.

at or near Wampum and Greenville, Pa., to points in Illinois, Indiana, Kentucky, Maryland, Michigan, New York, Ohio, Pennsylvania, and West Virginia. Note: Common control was approved in MC–F–11070. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no *present* intention to tack, and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or Pittsburgh, Pa.

No. MC 100666 (Sub-No. 246) filed May 24, 1973 Applicant: MELTON TRUCK LINES, INC. P.O. Box 7666 Shreveport, La. 71107 Applicant's representative: Wilburn L. Williamson 3535 N.W. 58th 280 National Foundation Life Bldg. Oklahoma City, Okla. 73112 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic pipe, tubing, conduit, mouldings, valves and fittings, compounds joint sealer, bonding cement, primer, coating, thinner, vinyl building products and accessories and hand tools* used in the installation of such products, from Louisville, Ky., to points in the United States (except Alaska and Hawaii). Note: Applicant states that the requested authority can be tacked with its existing authority but in no instance would it permit service to territory which it cannot already serve. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky.

No. MC 106398 (Sub-No. 664) filed May 21, 1973 Applicant: NATIONAL TRAILER CONVOY, INC. 1925 National Plaza Tulsa, Okla. 74151 Applicant's representative: Irvin Tull (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plywood, composition board, molding and accessories* used in the installation thereof, from Chesapeake, Va., to points in South Carolina, Georgia, and Florida. Note: Common control may be involved. Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 108449 (Sub-No. 355) filed May 21, 1973. Applicant: INDIANHEAD TRUCK LINE, INC., 1947 West County Road C, St. Paul, Minn. 55113. Applicant's representative: W. A. Myllenbeck (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Potato products and frozen potatoes*, from the plant site of the Western Potato Service, Inc., at or near Grand Forks, N. Dak., to points in Kentucky, Maryland, North Carolina, New Jersey, New York, Pennsylvania, South Carolina, Tennessee, Virginia and West Virginia; and (2) *materials, supplies, and equipment* used in the manufacture, processing and distribution of potato products, from points in Illinois, Indiana, Iowa, Kansas, Kentucky, Maryland, Michigan, Minnesota, Missouri, Nebraska, New Jersey, North Carolina, New York, Ohio, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia and Wisconsin to the plant site of the Western Potato Service, Inc., at or near Grand Forks, N. Dak. Note: Common control may be involved. Applicant states the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at St. Paul, Minn., or Chicago, Ill.

No. MC 108676 (Sub-No. 53) filed May 23, 1973. Applicant: A. J. METLER HAULING & RIGGING, INC. 117 Chicamauga Ave., N.E., Knoxville, Tenn. 37917. Applicant's representative: Carl U. Hurst, P.O. Box E, Bowling Green, Ky. 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Commodities*, the transportation which, because of size or weight, requires the use of special equipment or special handling, and, when moving in connection therewith, *related commodities*, the transportation which, because of size or weight, does not require the use of special equipment or special handling, and (2) *self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts and supplies* moving in connection therewith, between Knoxville, Tenn., and points within 75 miles of Knoxville, on the one hand, and, on the other, points in Alabama, Georgia, Kentucky, North Carolina, South Carolina, Tennessee, and Virginia. Note: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no *present* intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Knoxville or Nashville, Tenn.

No. MC 109124 (Sub-No. 16) (CORRECTION) filed April 9, 1973, published in the FEDERAL REGISTER issue of June 1, 1973, and republished, as corrected, this issue. Applicant: SENTLE TRUCKING CORPORATION 210 Alexis Road Toledo, Ohio 43612 Applicant's representative: John M. Nader P.O. Box E Bowling Green, Ky. 42101 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Urethane, urethane products, roofing and roofing materials, insulation materials, composition board, and gypsum products, and materials* used in the installation thereof, from the plant site of the Celotex Corporation located in Lockland (Cincinnati), Ohio, to points in the Lower Peninsula of Michigan; those in Indiana on and north of a line beginning at the intersection of Interstate Highway 70 with the Indiana-Ohio State Boundary Line; thence along Interstate Highway 74 to Indianapolis, and thence along Interstate Highway 74 to the Indiana-Illinois State Boundary Line; those in Illinois on, north, and east of Interstate Highway 74; those in Pennsylvania on and north of a line beginning at the Pennsylvania-West Virginia State Boundary Line and extending along U.S. Highway 40 to its intersection with the Pennsylvania-Maryland State Boundary Line, thence eastward along the Pennsylvania-Maryland State Boundary Line to its intersection with U.S. Highway 219, thence northward along U.S. Highway 219 to the Pennsylvania-New York Boundary Line; and those in New York on and west of a line beginning at the New York-Pennsylvania State Boundary Line and extending northward along U.S. Highway 219 to its intersection with U.S. Highway 20, thence northward along U.S. Highway 20 to its intersection with New York Highway 78, and thence along New York Highway 78 to Lake Ontario. Note: The purpose of this republication is to indicate the territorial description in which applicant seeks to perform the requested operations, which was inadvertantly previously published in error. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Cincinnati, Ohio.

No. MC 111375 (Sub-No. 69) filed May 14, 1973 Applicant: PIRKLE REFRIGERATED FREIGHT LINES, INC. P.O. Box 3358 Madison, Wis. 53704 Applicant's representative: Charles E. Dye (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs, food ingredients, and advertising material and specialties, and related equipment and supplies*, when moving with foodstuffs and food ingredients, from points in California, to points in Illinois, Indiana, Iowa, Ohio, Michigan, Minnesota and Wisconsin; and (2) *returned and rejected shipments* of the above-described commodities, from the destination States named in (1) above to points in California. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Los Angeles or San Francisco, Calif.

No. MC 111401 (Sub-No. 389) filed June 7, 1973 Applicant: GROENDYKE TRANSPORT, INC. 2510 Rock Island Boulevard P.O. Box 632 Enid, Okla. 73701 Applicant's representative: Alvin J. Melklejohn, Jr. Suite 1600 Lincoln Center 1660 Lincoln Center Denver, Colo. 80203 Authority sought to operate as a *common carrier*, by motor vehicle, over

V 38-133 JUL 12 73 XUM

irregular routes, transporting: *Chemicals*, in bulk, from the plant site of Commercial Solvents Corporation at Sterlington, La., to points in Alabama, Arizona, Arkansas, California, Colorado, Idaho, Iowa, Kansas, Louisiana, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Tennessee, Texas, Utah, Washington and Wyoming, restricted to traffic originating at the above named plant site. Note: Applicant states that the requested authority can be tacked with its existing authority, but indicates that it has no *present* intention to tack, and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 111729 (Sub-No. 386) filed May 2, 1973 Applicant: PUROLATOR COURIER CORP. 2 Nevada Drive Lake Success, N.Y. 11040 Applicant's representative: Russell S. Bernhard 1625 K Street, N.W. Washington, D.C. 20423 Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Business papers, records, audit and accounting media of all kinds, and advertising material* moving therewith; (a) between Philadelphia, Pa. and Greenwich, Conn.; (b) between New York, N.Y. and York, Pa.; (c) between Brazil and Frankfort, Ind., on the one hand, and, on the other, Champaign and Danville, Ill.; (d) between Valparaiso, Ind., on the one hand, and, on the other, points in Berrien, Cass, Kalamazoo, St. Joseph and Van Buren Counties, Mich.; and Cook, Iroquois, Kankakee, and Will Counties, Ill.; (e) between Peoria, Ill., on the one hand, and, on the other, Milwaukee and Madison, Wis.; (f) between Louisville, Ky., on the one hand, and on the other, Nashville, Tenn.; (g) between Mishawaka, Ind., on the one hand, and, on the other, Port Clinton, Ohio; (h) between Newark, Del., on the one hand, and, on the other, Baltimore, Md.; District of Columbia; points in Delaware, Montgomery, and Philadelphia Counties, Pa.; Essex and Morris Counties, N.J.; Arlington, Fairfax, Loudoun, and Prince William Counties, Va.; (2) *business papers, records, audit and accounting media of all kinds, engineering drawings, and specifications, and small industrial parts* moving therewith, restricted against the transportation of packages or articles weighing in the aggregate more than 50 lbs. from one consignor to one consignee on any one day, between Angola, Ind., on the one hand, and, on the other, Cleveland, Milan, and Napoleon, Ohio; Detroit, Mich.; and Chicago, Ill.; (3) *business papers, records, audit and accounting media of all kinds, and business machines, office equipment and accessories* thereto, limited to articles and packages not to exceed 50 lbs. from one consignor to one consignee on any one day, between Fort Wayne, Ind., on the one hand, and, on the other, Quincy, Mich., and St. Louis, Mo. Note: Applicant holds contract carrier authority in MC 112750 and Subs, therefore dual operations may be involved. Common control may also be involved. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no *present* intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass. or Washington, D.C.

No. MC 114045 (Sub-No. 383) filed May 11, 1973. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Dallas, Tex. 75222. Applicant's representative: J. B. Stuart (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Candy and confectionery*, frozen and other than frozen, in vehicles equipped with mechanical refrigeration, from Downingtown, (Chester County), Pa., to points in California and Texas. Note: Common control was approved in MC–F–8619. Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or Philadelphia, Pa.

No. MC 114045 (Sub-No. 384) filed May 11, 1973. Applicant: TRANS-COLD EXPRESS, INC., P.O. Box 5842, Dallas, Tex. 75222 Applicant's representative: J. B. Stuart (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen bakery goods*, in vehicles equipped with mechanical refrigeration, from King of Prussia, (Montgomery County), Pa., to points in California. Note: Common control was approved in MC–F–8619. Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or Philadelphia, Pa.

No. MC 114106 (Sub-No. 99) filed May 14, 1973 Applicant: MAYBELLE TRANSPORT COMPANY a Corporation P.O. Box 849 Lexington, N.C. 27292 Applicant's representative: Russell E. Stone P.O. Box 90408 Nashville, Tenn. 37209 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt*, in bulk, from Charlotte, N.C., to points in Georgia, South Carolina, and Virginia. Note: Applicant holds contract carrier authority under MC 115176 and Subs, therefore dual operations may be involved. Common control may also be involved. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention of tacking and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or Philadelphia, Pa.

No. MC 112963 (Sub-No. 40) filed May 18, 1973. Applicant: ROY BROS., INC., 764 Boston Road, Pinehurst, Mass. 01866. Applicant's representative: Leonard E. Murphy (same address as applicant) Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, between points in New York (except those in the New York, N.Y. Commercial Zone), on the one hand, and, on the other, points in Connecticut, Massachusetts, New Hampshire, Rhode Island, Vermont and Maine. Note: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no *present* intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or Philadelphia, Pa.

No. MC 114211 (Sub-No. 200) filed May 24, 1973 Applicant: WARREN TRANSPORT, INC. 324 Manhard Street

Waterloo, Iowa 50704 Applicant's representative: Daniel Sullivan 327 South La Salle St. Chicago, Ill. 60604 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1)(a) *Self-propelled vehicles*, (b) *equipment, materials and supplies* designed for use in conjunction with self-propelled vehicles (except tank semi-trailers) and (c) *parts and attachments* for the commodities named in (a) and (b) above; from points in Genesee County, N.Y., to points in the United States (except Alaska and Hawaii); and (2) *materials, equipment and supplies* used in the manufacture, sale or distribution of the commodities described in (1)(a) thru (c) above (except commodities in bulk), from points in the United States (except Alaska and Hawaii) to points in Genesee County, N.Y. Note: Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill. or Washington, D.C.

No. MC 114211 (Sub-No. 201) filed May 25, 1973 Applicant: WARREN TRANSPORT, INC. 324 Manhard St. P.O. Box 420 Waterloo, Iowa 50704 Applicant's representative: Daniel Sullivan 327 South La Salle Chicago, Ill. 60604 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cooling towers and fluid coolers, parts for cooling towers and fluid coolers, and lumber*, from points in Sonoma County, Calif., to points in the United States (except Alaska and Hawaii), and (2) *materials, equipment and supplies* used or useful in the manufacture, sale or distribution of the commodities in (1) above (except commodities in bulk), from points in the United States (except Alaska and Hawaii) to points in Sonoma County, Calif. Note: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Applicant further states no duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 114552 (Sub-No. 80) filed May 14, 1973 Applicant: SENN TRUCKING COMPANY, a Corporation P.O. Drawer 220 Newberry, S.C. 29108 Applicant's representative: William P. V 38-133 JUL 12 73 XUM

Bessemer, Mich., to points in the United States in and east of the States of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma and Texas. Note: Applicant states that the requested authority can be tacked with its existing authority, but indicates that it has no *present* intention to tack and therefore does not indicate the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 133114 (Sub.-No. 3) filed April 27, 1973 Applicant: UNITED TOWING SERVICE, INC. 11530 Ryerson Avenue Downey, Calif. 90241 Applicant's representative: Eldon M. Johnson 650 California Street, Suite 2808 San Francisco, Calif. 94108 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wrecked or disabled motor vehicles* (except passenger automobiles or trailers designed to be drawn by passenger vehicles), *and replacement vehicles for wrecked or disabled motor vehicles*, in truckaway service, between points south of the northern-most boundary lines of San Luis Obispo, Kern and San Bernardino, Counties, Calif. (except points in Los Angeles and Orange Counties), and points in Arizona, on the one hand, and, on the other, points in Arizona, Colorado, Nevada, New Mexico, Texas and Utah. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

No. MC 133119 (Sub-No. 19) filed May 11, 1973 Applicant: HEYL TRUCK LINES, INC. 235 Mill Street Akron, Iowa 51001 Applicant's representative: A. J. Swanson 521 So. 14th Street P. O. Box 80806 Lincoln, Nebr. 68501 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meats, meat products and meat byproducts and articles distributed by meat packinghouses* (except hides and commodities in bulk), (a) from Schuyler and Fremont, Nebr., and Spencer, Cherokee, and Hartley, Iowa, to the ports of entry on the International Boundary line between the United States and Canada, located in Montana, North Dakota, Minnesota, Michigan, and New York, restricted to traffic originating at the facilities of or utilized by Spencer Foods, Inc. at or near the above origins and restricted to traffic moving in foreign commerce; (b) from the facilities of Missouri Beef Packers, Inc., at or near Boise, Idaho; Phelps City, Mo.; Friona and Plainview, Tex., to the ports of entry on the International Boundary line between the United States and Canada, located in Montana, North Dakota, Minnesota, Michigan, and New York, restricted to traffic moving in foreign commerce; and (c) from Dakota City, Omaha, and West Point, Nebr.; Wichita and Emporia, Kans.; LeMars, Ft. Dodge, Denison, Mason City, and Cherokee, Iowa; Luverne and Worthington, Minn.; to the ports of entry on the International Boundary line between the United States and Canada, located in Montana, North Dakota, and Minnesota, restricted to traffic originating at the facilities of or utilized by Iowa Beef Processors, Inc., and restricted to traffic moving in foreign commerce; and (2) *Meats, meat products and meat byproducts* (except commodities in bulk), from Fargo and West Fargo, N. Dak.; Sioux City, Iowa; Omaha, Nebr.; and Rock Island County, Ill., to the ports of entry on the International Boundary line between the United States and Canada located in Michigan and New York, restricted to traffic moving in foreign commerce. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Sioux City, Iowa.

No. MC 133478 (Sub-No. 8) (AMENDMENT) filed April 26, 1973, published in the FEDERAL REGISTER issue June 14, 1973, and republished, as amended, this issue. Applicant: HEARIN TRANSPORTATION, INC. 8565 SW Beaverton-Hillsdale Highway Portland, Oreg. 97225 Applicant's representative: Nick I. Goyak 404 Oregon National Building 610 S.W. Alder Street Portland, Oreg. 97205 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lumber, plywood, particleboard, and wood beams*, between points in Oregon, Washington and California, under a continuing contract with Hearin Forest Industries, Inc.; and (2) *particleboard*, from Albany, Oreg., to Santa Ana, Calif., under a contract with Hearin Products, a division of D. G. Shelter Products, Inc. Note: The purpose of this republication is to extend the scope of authority originally requested to include Part (2). If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg. or Seattle, Wash.

No. MC 133689 (Sub-No. 27) (AMENDMENT) filed May 10, 1973, published in the FEDERAL REGISTER issue of June 21, 1973, and republished as amended this issue. Applicant: OVERLAND EXPRESS, INC. 651 1st Street, S.W. P.O. Box 2667 New Brighton, Minn. 55112 Applicant's representative: Daniel C. Sullivan 327 South La Salle Street Chicago, Ill. 60604 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses, and, in connection therewith, *equipment, materials*, and *supplies* used in the conduct of such businesses (except commodities in bulk), from Johnathon Industrial Park at or near Chaska, Minn., and the plantsites and storage facilities of Super-Valu Stores, Inc. at Minneapolis-St. Paul, Minn. and points in their Commercial Zone, to Bismarck, N. Dak. Note: The purpose of this republication is to clarify applicant's origin point which was originally filed in error. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no *present* intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Applicant holds a motor contract carrier permit in No. MC-76025 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Minneapolis, Minn.

No. MC 135751 (Sub-No. 5) filed May 13, 1973. Applicant: ATLANTIC CARRIERS, INC., P.O. Box 284, Atlantic, Iowa 50022. Applicant's representative: Thomas E. Leahy, Jr., 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, (1) from Shenandoah, Iowa, to Wooster, Ohio; and (2) from Shenandoah, Iowa to Corsicana, Tex., under contract with Farmaster Division, The Wickes Corporation, Shenandoah, Iowa. Note: If a hearing is deemed necessary, applicant requests it be held at either (1) Kansas City, Mo.; (2) Minneapolis, Minn.; or (3) Chicago, Ill.

No. MC 136343 (Sub-No. 13) filed May 25, 1973 Applicant: MILTON TRANSPORTATION, INC. P.O. Box 207 Milton, Pa. 17847 Applicant's representative: George A. Olsen 69 Tonnele Avenue Jersey City, N.J. 07306 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper, paper products, and paper equipment, materials and supplies* used or useful in the manufacture and sale of paper and plastic products (except commodities in bulk), between the facilities of U.S. Co., at or near Williamsburg, Pa., on the one hand, and, on the other, points in Georgia, New York, New Jersey, Connecticut, Massachusetts, Rhode Island, Maine, New Hampshire, Vermont, Maryland, Virginia, Delaware, Ohio, Indiana, Illinois, Michigan, Kentucky, Tennessee, Iowa, Nebraska, Missouri, West Virginia, North Carolina, South Carolina, Florida, Alabama, Mississippi, and the District of Columbia. Note: Common control may be involved. Applicant holds contract carrier authority under MC 96098 and subs thereunder, therefore dual operations may be involved also. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 136453 (Sub-No. 2) filed January 18, 1973 Applicant: MARTIN TRANSIT, INC. Rural Route 30 and Walnut Street Rock Falls, Ill. 61071 Applicant's representative: William J. Boyd 29 South LaSalle Street Chicago, Ill. 60603 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: ***Meats, meat products, and meat by-products,*** *and articles distributed by meat packinghouses*, as described in sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from Sterling, Ill., to Chicago, Ill., restricted to the transportation of traffic having an immediately subsequent movement by rail to destinations outside of Illinois under a continuing contract with Armour Food Company at Phoenix, Ariz. Note: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 136753 (Sub-No. 2) filed May 21, 1973 Applicant: EASTERN WASHINGTON DISTRIBUTING CO., INC. 1208 North First Street Yakima, Wash. 98901 Applicant's representative: Philip G. Skofstad 3076 E. Burnside Portland, Oreg. 97214 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wine*, from points in the Chicago, Ill., Commercial Zone, to points in Washington; and (2) *spoiled or refused shipments of wine*, from points in Washington to points in the Chicago, Ill., Commercial Zone. Note: If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg.

No. MC 136786 (Sub-No. 6) filed May 18, 1973 Applicant: ROBCO TRANSPORTATION INC. 3033 Excelsior Blvd. Minneapolis, Minn. 55416 Applicant's representative: Val M. Higgins 1000 1st National Bank Bldg. Minneapolis, Minn. 55402 Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed-by meat packinghouses*, from Albert Lea, Minn., to points in Georgia, Tennessee, North Carolina and South Carolina, restricted to traffic originating at the plantsite and storage facilities of Wilson & Company, Albert Lea, Minn. and destined to the named destination states. Note: Common control was approved in MC-F-11576. Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla. or St. Paul, Minn.

No. MC 138106 (Sub-No. 1) filed May 15, 1973 Applicant: TIDWELL MOTOR CARRIERS, INC. Route 5 Haleyville, Ala. 35565 Applicant's representative: E. Stephen Heisley 805 McLachlen Bank Building 666 Eleventh St., N.W. Washington, D.C. 20001 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Trailers*, designed to be drawn by passenger automobiles, in initial movements, and *buildings*, in sections, when moving on their own undercarriages, and *modular homes*, when moving on their own or removable undercarriages, from points in Tippah County, Miss., Rowan County, N.C., Midland County, Tex., and Madison County, Ala., to points in the United States, (including Alaska, but excluding Hawaii); and (2) *returned, disabled, wrecked, and repossessed trailers*, designed to be drawn by passenger automobiles, *buildings*, in sections, when moving on their own undercarriages, and *modular homes*, when moving on their own or removable undercarriages, from points in the United States, (including Alaska, but excluding Hawaii), to points in Tippah County, Miss., Rowan County, N.C., Midland County, Tex., and Madison County, Ala. RESTRICTIONS: (a) The operations authorized in (1) above are restricted to the transportation of traffic originating at the facilities and plantsites of Tidwell Industries, Inc., its divisions, and/or subsidiaries located in the named counties; and (b) the operations in (2) above are restricted to the transportation of traffic destined to the plantsites and facilities of Tidwell Industries, Inc., its divisions and/or subsidiaries located in the named counties, and (c) the operations authorized in (1) and (2) above are restricted to the transportation of traffic moving under a continuing contract or contracts with Tidwell Industries, Inc., its divisions and/or subsidiaries. Note: If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala.

No. MC 138229 (Sub-No. 2) (CORRECTION) filed April 13, 1973, published in the FEDERAL REGISTER issue of May 24, 1973, and republished as corrected this issue. Applicant: P & M TRANSPORT, INC. P.O. Box 518 Morrisville, Vt. 05661 Applicant's representative: John P. Monte 61 Summer St. Barre, Vt. 05641 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Talc, talc tailings and asphalt filler*, in bags and in bulk, (1) from Johnson, Vt., to Burlington and St. Johnsbury, Vt., restricted to traffic having prior or subsequent out-of-state movement by rail, under contract with Eastern Magnesia Talc Company; and (2) from Johnson, Vt., to points in the United States (excluding Hawaii and Alaska) west and south of points in the area bounded as described below: Beginning at a point on the Pennsylvania-New York State line where said line intersects Lake Erie; thence southerly and easterly along the border of Pennsylvania and New York to the intersection of the New York-Pennsylvania State line with U.S. Highway 15 at Lawrenceville, Pa.; thence southerly along U.S. Highway 15 to Harrisburg, Pa. (excluding Erie County and Harrisburg, Pa.); thence southerly along Interstate Highway 83 to its intersection with the Pennsylvania-Maryland State line; thence easterly on the Maryland-Pennsylvania State line to its intersection with the Delaware State line; thence southerly and easterly along the Maryland-Delaware State line to its intersection with the shores of the Atlantic Ocean, under contract with Eastern Magnesia Talc Company. Note: The purpose of this republication is to clarify applicant's requested territorial description. If a hearing is deemed necessary, applicant requests it be held at Montpelier, Vt. or Boston, Mass.

No. MC 138398 (Sub-No. 2) filed May 28, 1973 Applicant: CHARTER EXPRESS, INC. 1959 E. Turner Street P.O. Box 3772 Springfield, Mo. 65804 Applicant's representative: Warren H. Sapp Suite 910 Fairfax Building 101 W. 11th Street Kansas City, Mo. 64105 Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Earthenware*, from Dundee, Monmouth and Morton, Ill.; East Liverpool and Wellsville, Ohio; York, Pa.; and Clarksburg, W. MEDICAL ASSISTANCE PROGRAM

Standards and Provider Certification

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare. The proposed regulations implement sections 239, 246 and 249A of P.L. 92-603, Social Security Amendments of 1972. These provisions relate to Medicaid State plan requirements concerning standard-setting for participating institutions, use of State licensing agencies for certain functions, uniform standards for skilled nursing facilities under Medicare and Medicaid, and certification of skilled nursing facilities under Medicaid. The regulations also conform the Medicaid certification process for intermediate care facilities with that for skilled nursing facilities.

Until these regulations are issued in final form, the provisions of 45 CFR 249.10(b)(4)(i) and 249.33 will continue to apply with respect to skilled nursing facilities, except that provider agreements may be executed in accordance with the new provisions of § 249.33(a)(5)(iv)(B)(2) of the proposed regulations with respect to skilled nursing facilities completing the second of two successive agreements under certification provisions in effect prior to July 1, 1973. In addition, the provisions of proposed 20 CFR 405.1121(c), Independent Medical Evaluation and (e) Institutional Planning, are effective immediately since these are statutory requirements.

Prior to the adoption of the proposed regulations, consideration will be given to any comments, suggestions, or objections thereto which are submitted in writing to the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, 330 Independence Avenue, S.W., Washington, D.C. 20201 on or before August 13, 1973. Comments received will be available for public inspection in Room 5121 of the Department's offices at 301 C Street, S.W., Washington, D.C. on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (area code 202-963-7361).

Dated: June 29, 1973.

JAMES S. DWIGHT, Jr.,
Administrator, Social and Rehabilitation Service.

Approved: July 5, 1973.

CASPAR W. WEINBERGER,
Secretary.

PART 205—GENERAL ADMINISTRATION—PUBLIC ASSISTANCE PROGRAMS

Chapter II, Title 45, Code of Federal Regulations is amended as set forth below.

1. Section 205.190 is amended by revising the introductory words to paragraph (a) to read as set forth below, and by deleting the reference to medical assistance in paragraph (a)(2)(i), and the last sentence of paragraph (a)(2):

§ 205.190 Standard-setting authority for institutions.

(a) *State plan requirements.* If a State plan under title I, X, XIV, or XVI, of the Social Security Act includes aid or assistance to individuals in institutions as defined in § 233.60(b)(1) and (2) of this chapter, the plan must:

(1) Provide for the designation of a State authority or authorities which shall be responsible for establishing and maintaining standards for such institutions;

(2) Provide that the State agency will keep on file and make available to the Social and Rehabilitation Service upon request:

(i) A listing of the types or kinds of institutions in which an individual may receive financial assistance;

(ii) A record naming the State authority(ies) responsible for establishing and maintaining standards for such types of institutions;

(iii) The standards to be utilized by such State authority(ies) for approval or licensing of institutions including, to the extent applicable, standards related to the following factors:

(*a*) Health (continuing physician and nursing services, dietary standards, drug controls, and accident prevention);

(*b*) Human treatment;

(*c*) Sanitation;

(*d*) Types of construction;

(*e*) Physical facilities, including space and accommodations per person;

(*f*) Fire and safety;

(*g*) Staffing, in number and qualifications, related to the purposes and scope of services of the institution;

(*h*) Patient records;

(*i*) Admission procedures;

(*j*) Administrative and fiscal records;

(*k*) The control by the individual, or his guardian or protective payee, of the individual's personal affairs.

* * * * *

PART 249—SERVICES AND PAYMENT IN MEDICAL ASSISTANCE PROGRAMS

2. Section 249.33 is revised to read as follows:

§ 249.33 Standards for payment for skilled nursing facility and intermediate care facility services.

(a) *State plan requirements.* A State plan for medical assistance under title XIX of the Social Security Act must:

(1) Provide that the single State agency will, prior to execution of an agreement with any facility for provision of skilled nursing facility services and making payments under the plan obtain certification from:

(i) The agency designated pursuant to § 250.100(c) of this chapter that the facility meets the standards set forth under section 1861(j) of the Act; or

(ii) The Secretary, pursuant to section 1910 of the Act, that the facility has been determined to qualify as a skilled nursing facility under title XVIII of the Act; or

(iii) The Secretary, pursuant to section 1905 of the Act, in the case of a facility located in the State on an Indian reservation that it meets the requirements of section 1861(j) of the Act.

(2) Provide that the single State agency will, prior to execution of an agreement with any facility (including hospitals and skilled nursing facilities) for provision of intermediate care facility services and making payments under the plan, obtain certification from the agency designated pursuant to § 250.100(c) of this chapter that the facility meets the conditions set forth under § 249.10(b)(15); except that in the case of an intermediate care facility determined to have deficiencies under the requirements for environment and sanitation (§ 249.12(a)(11)[1] or § 249.13(a)(5) and (8)(v)[1] or of the Life Safety Code (§ 249.12(a)(13)[1] or § 249.13(a)(3)[1]) it may be recognized for certification as an itermediate care facility over a period not exceeding 2 years following the date of such determination provided that:

(i) The institution submits a written plan of correction acceptable to the survey agency which contains:

(A) The specific steps that it will take to meet all such requirements; and

(B) A timetable not exceeding 2 years from the date of the initial certification after publication of these regulations detailing the corrective steps to be taken and when correction of deficiencies will be accomplished;

(ii) The survey agency makes a finding that the facility potentially can meet such requirements through the corrective steps and they can be completed during the 2 year allowable period of time;

(iii) During the period allowed for corrections, the institution is in compliance with existing State fire safety and sanitation codes and regulations;

(iv) The institution is surveyed by qualified personnel at least semiannually until corrections are completed and the survey agency finds on the basis of such surveys that the institution has in fact made substantial effort and progress in its plan of correction as evidenced by supporting documentation, signed contracts and/or work orders, and a written justification of such findings is maintained on file; and

(v) At the completion of the period allowed for corrections, the intermediate care facility is in full compliance with the Life Safety Code (NFPA, 21st Edition 1967), and the requirements for environment and sanitation set forth under § 249.12(a)(11) or § 249.13(a)(5) and (8)(v), except for any provisions waived in accordance with § 249.12 or § 249.13.

(3) Provide that any intermediate care facility receiving payments under the plan must supply to the licensing agency

[1] Not published as final rule. Proposal published at 38 FR 5974, March 5, 1973.

of the State full and complete information, and promptly report any changes which would affect the current accuracy of such information, as to the identity,

(i) Of each person having (directly or indirectly) an ownership interest of 10 percent or more in such facility,

(ii) In case a facility is organized as a corporation, of each officer and director of the corporation, and

(iii) In case a facility is organized as a partnership, of each partner;

Certification by the State licensing agency or the Secretary, as provided for in subparagraphs (1) and (2) of this paragraph shall be regarded as final evidence that the facility so certified meets the standards and requirements except that the single State agency may, for good cause based on adequate and documented evidence, elect not to execute a contract or cancel a contract for participation by a facility certified under the State plan.

(4) Provide that the survey agency designated pursuant to § 250.100(c) of this chapter will:

(i) Review information contained in medical review and independent professional review team inspections made pursuant to State plan provisions under section 1902(a)(26) and (31) of the Social Security Act;

(ii) Review statements obtained from each facility setting forth (from payroll records) the average numbers and types of personnel (in full-time equivalents) on each shift during at least 1 week of each quarter, such week to be selected by the survey agency and to occur irregularly in each quarter of the year;

(iii) Evaluate such reports and statements and take appropriate action to achieve compliance or withdraw certification as appropriate; and

(iv) Perform, with qualified personnel, on-site inspections at least once during the term of a provider agreement or more frequently if there is a question of compliance.

(5) Provide that the single State agency agreement with a facility for payments under the plan may not exceed a period of one year and that the effective date of such agreement may not be earlier than the date of certification. Notwithstanding the provisions of the previous sentence, the single State agency may extend such term for a period not exceeding two months where the survey agency has notified the single State agency in writing prior to the expiration of a provider agreement that the health and safety of the patients will not be jeopardized thereby, and that such extension is necessary to prevent irreparable harm to such facility or hardship to the individuals being funrished items or services or that it is impracticable within such provider agreement period to determine whether such facility is complying with the provisions and requirements under the program. Execution of an agremeent shall be contingent upon certification in accordance with the provisions of paragraph (a)(1) and (2) of this section and subject to the following conditions and exclusions:

(i) In the case of skilled nursing facilities not in compliance with all standards set forth under section 1861(j) of the Social Security Act, or in the case of intermediate care facilities not in compliance with all standards set forth under sections 1905(c) and (d) of the Act, the single State agency may enter into a provider agreement if:

(A) The deficiencies noted, individually or in combination, do not jeopardize the health and safety of patients and a written justification of such a finding is maintained on file by the survey agency; and

(B) The facility provides in writing a plan of correction acceptable to the survey agency;

(ii) In the case of a public institution (or distinct part thereof) for the mentally retarded or persons with related conditions, the single State agency will, prior to the execution of an agreement for the provision of intermediate care facility services, obtain a written agreement from the State or political subdivision responsible for the operation of such public institution that the non-Federal expenditures in any calendar quarter prior to January 1, 1975, with respect to services furnished to patients in such institution (or distinct part thereof) in the State will not, because of payments made under the plan, be reduced below the average amount expended for such services in such institution in the four quarters immediately preceding the quarter in which the State in which such institution is located elected to make such services available under its approved plan;

(iii) In the case of a skilled nursing facility not in compliance with all of the standards set forth under section 1861(j) of the Act or in the case of an intermediate care facility not in compliance with all of the standards set forth under sections 1905(c) and (d) of the Act, the term of an agreement shall be for the period of certification recognized by the survey agency; however, based upon such adequate and documented factors as medical review of independent professional review team reports, certification data, the nature of deficiencies and the degree of progress displayed by the facility in correcting prior deficiencies, the single State agency may elect to execute a provider agreement for:

(A) A term related to a facility's plan of correction; or

(B) The full certification period recognized by the survey agency but subject to a provision for automatic cancellation 60 days following the scheduled date for correction(s) unless the survey agency finds and notifies the State agency that all required corrections have been satisfactorily completed, or unless the survey agency finds and notifies the State agency that, on the basis of documented evidence derived from a survey, the facility has made substantial progress in correcting such deficiencies and has resubmitted in writing a new plan of correction acceptable to the survey agency. Such notification is to be made a part of the contract and the facility so notified.

(iv) No second provider agreement under the condition specified in paragraph (a)(5)(i) of this section may be executed if:

(A) The standard found deficient was in compliance during the previous certification period, except where the survey agency has made a determination based upon documented evidence that the facility despite intensive efforts or for reasons beyond its control was unable to maintain compliance and despite the deficiency(ies) the facility is making the best use of its resources to render adequate care; or

(B) The standards found deficient are the same as those which occasioned the prior agreement, except:

(*1*) In a case where a facility can document to the State survey agency's satisfaction that it achieved compliance with a previously unmet standard during the period of certification but for reasons beyond its control and despite, in the judgment of the survey agency, a good faith effort to maintain compliance with the standard, was again out of compliance by the time of the next survey; or

(*2*) In the case of a skilled nursing facility completing the second of two successive agreements under provisions for certification in effect prior to July 1, 1973 and having the same deficiency(ies) which occasioned the two agreements, the survey agency will review the performance of such facility (which may be limited to a review of the documentation of record) in providing safe and adequate patient care and in progressing toward correction of such deficiency(ies). On the basis of its evaluation, the survey agency will advise the single State agency that:

(*i*) No provider agreement may be executed with such facility,

(*ii*) A new provider agreement may be executed for a period related to the time required to correct such deficiencies, but not to exceed six months; or

(*iii*) A new provider agreement may be executed for a period of twelve months but subject to a provision for automatic cancellation 60 days following the scheduled date for correction unless the survey agency finds and notifies the State agency that all required corrections have been satisfactorily completed. If the facility continues to be out of compliance with the same standard(s) at the end of the term of the agreement, a new agreement may not be executed.

(v) Notwithstanding the foregoing provisions, in the case of skilled nursing facilities certified under the provisions of title XVIII of the Social Security Act, the term of an agreement shall be subject to the same terms and conditions and coterminous with the period of approval of eligibility specified by the Secretary pursuant to that title.

V 38 1 133 JUL 12 73 XUM

(vi) Upon notification that an agreement with a facility under title XVIII of the Act has been terminated or cancelled, the single State agency will take appropriate action to terminate the facility's participation under the plan. A facility whose agreement has been cancelled or otherwise terminated may not be issued another agreement until the reasons which cause the cancellation or termination have been removed and reasonable assurance provided the survey agency that they will not recur.

For the purposes of this subparagraph (5), waivers granted pursuant to section 1902(a)(28) of the Act or § 249.12 or § 249.13 are not considered deficiencies.

(6) Provide that facilities which do not qualify under this section are not recognized as skilled nursing facilities or intermediate care facilities for purposes of payment under title XIX of the Act.

(b) *Federal financial participation.* (1) Federal financial participation is available at 75 percentum in expenditures of the single State agency for compensation (or training) of its skilled professional medical personnel and staff directly supporting such personnel, which are necessary to carry out these regulations.

(2) Federal financial participation at applicable rates is also available for the single State agency to enter into a written contract (under the supervision of the Medical Assistance Unit) with the survey agency designated pursuant to § 250.100(c) of this chapter as necessary to carry out its responsibilities under these regulations. Such Federal financial participation is available only for those expenditures of the survey agency which are not attributable to the overall cost of meeting responsibilities under State law and regulations for establishing and maintaining standards but which are necessary and proper for carrying out these regulations.

PART 250—ADMINISTRATION OF MEDICAL ASSISTANCE PROGRAMS

3. A new § 250.100 is added to Part 250 as set forth below:

§ 250.100 Establishment and maintenance of State and Federal standards.

State plan requirements. A State plan for medical assistance under title XIX of the Social Security Act must:

(a) Provide for the designation of the State health agency or other appropriate State medical agency (whichever is utilized by the Secretary for purposes of title XVIII of the Act as specified in the first sentence of section 1864(a) of the Act) as the State authority responsible for establishing and maintaining health standards for private or public institutions, excluding Christian Science sanatoria operated or listed and certified by the First Church of Christ Scientist, Boston, Massachusetts, in which recipients of medical assistance under the plan may receive care and services. The State plan must describe these standards and such standards must be kept on file and made available to the Social and Rehabilitation Service upon request;

(b) Provide for the designation of the single State agency or other appropriate State authority or authorities which shall be responsible for establishing and maintaining standards other than those relating to health for public and private institutions in which recipients of medical assistance under the plan may receive care or services. The State plan must describe these standards and such standards must be kept on file and made available to the Social and Rehabilitation Service upon request; and

(c) Provide that the agency referred to in paragraph (a) of this section or such other State agency as is responsible for licensing health institutions in the State will, in accordance with a written agreement (or other written formal arrangement) with the single State agency, determine whether institutions and agencies, excluding Christian Science sanatoria operated or listed and certified by the First Church of Christ Scientist, Boston, Massachusetts, meet the requirements for participation in the program as set forth elsewhere in this chapter; and that the staff of the agency making such determinations is the same staff responsible for such determinations for institutions or agencies participating under title XVIII or, if the State elects to employ different staff, a written justification is submitted for approval by the Secretary that such election is consistent with economy and efficiency of administration. Written agreements (or other written formal arrangements) between the single State agency and the agency in the State responsible for licensing, for purposes of this paragraph, must specify and provide:

(1) The Federal standards and the forms, methods and procedures to be used in determining provider eligibility and certification under the program;

(2) That copies of reports and inspections are completed by inspectors surveying the premises with notations indicating whether each requirement for which inspection is made is or is not satisfied, with documentation of deficiencies; and

(3) That all information and reports used in determining whether Federal requirements for participating are maintained on file access by the Department of Health, Education, and Welfare, and the single State agency as may be necessary to meet other requirements under the plan and for purposes consistent with that agency's effective administration of the program.

V38-133 JUL 12 73 XUM

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration

[20 CFR Part 405]

FEDERAL HEALTH INSURANCE FOR THE AGED

Skilled Nursing Facilities

The proposed amendments to regulations set forth herein principally:

(1) Provide a common set of standards for skilled nursing facilities under titles XVIII (Medicare) and XIX (Medicaid) of the Social Security Act and a single policy for determining compliance with the standards; and also implement provisions of the Social Security Amendments of 1972 (P.L. 92-603) affecting skilled nursing facilities relating to institutional planning, time limited agreements, and the furnishing of social services;

(2) Set out the basic provisions for implementing the provider agreement provisions of the Social Security Amendments of 1972 and additional guidelines relating to provider agreement responsibilities (20 CFR 405.601 et seq.) under the provisions of section 1866 of the Social Security Act; and

(3) Set forth proposed modifications in the provider appeals procedures (20 CFR 405.1501 et seq.) which relate specifically to skilled nursing facilities.

Prior to the final adoption of the proposed amendments to the regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue SW., Washington, D.C. 20201, on or before August 13, 1973.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue SW., Washington, D.C. 20201.

During the period from July 1, 1973, to the date the proposed regulations are published in final in the FEDERAL REGISTER, the existing regulations in Subpart K of Social Security Administration regulations No. 5, "Conditions of Participation; Extended Care Facilities" (20 CFR 405.1101-405.1137) will be applicable. In addition, during the same period, conditions of participation set forth in § 405.1121, paragraphs (a), (c), and (e) of this document, required by P.L. 92-603 will also be applicable.

The proposed amendments are to be issued under the authority contained in sections 1102, 1814, 1861, 1863, 1865, 1866, 1871, 49 Stat. 647, as amended, 79 Stat. 294, as amended, 79 Stat. 313-327, as amended, 79 Stat. 331; 42 U.S.C. 1302, 1395 et seq.

(Catalog of Federal Domestic Assistance Program No. 13.800, Health Insurance for the Aged—Hospital Insurance)

Dated: June 29, 1973.

ARTHUR E. HESS,
Acting Commissioner of Social Security.

Approved: July 5, 1973.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

Regulations No. 5 of the Social Security Administration, as amended (20 CFR Part 405), are further amended as set forth below:

Subpart F—Agreements, Elections, Contracts, Nominations, and Notices

1. The heading for Subpart F is revised to read as set forth above.

§ 405.601, 405.602 [Amended]

2. In §§ 405.601 and 405.602, the words "extended care facility" are revised to read "skilled nursing facility."

3. A new § 405.604 is added to read as follows:

§ 405.604 Term agreements with skilled nursing facilities.

Effective with respect to provider agreements accepted for filing on or after October 30, 1972, an agreement with a skilled nursing facility shall be for a specified term and such term will be determined by the Secretary in the following manner—

(a) (1) The term of an agreement may be for a period of 12 full calendar months where the facility is found to be in compliance with all standards contained in Subpart K or Regulations No. 5.

(2) Where the facility is not in compliance with all standards contained in Subpart K of Regulations No. 5 the term of an agreement may:

(i) Be restricted to a term corresponding to the full period of time (not to exceed 12 full calendar months) specified in a written plan which the Secretary has approved providing for the correction of deficiencies in its qualification in meeting the requirements for participation; or

(ii) Provide a conditional term of 12 full months, subject to an automatic cancellation clause that the agreement will terminate on a predetermined date which shall be no later than the 60th day following the end of the time period specified for the correction of deficiencies unless the Secretary determines that all required corrections have been satisfactorily completed or that the facility has made substantial effort and progress in correcting such deficiencies and has resubmitted in writing a plan of correction acceptable to the Secretary.

(b) (1) Where the Secretary determines that the health and safety of program beneficiaries will not be jeopardized thereby, the term of an agreement may be extended for a period of 2 full calendar months, if the Secretary finds that such extension is necessary to:

(i) Prevent irreparable harm to such facility, or

(ii) Prevent hardship to the program beneficiaries being furnished items and services by such facility; or

(2) If the Secretary finds it impracticable within such term to determine whether such facility is complying with the provisions of the Act and regulations issued thereunder.

(c) (1) Except as provided in paragraph (b) of this section, the term of an agreement may not be extended and such agreement shall terminate at the end of its specified term and will not be automatically renewable from term to term. In the case of the termination of an agreement which has been automatically cancelled, the "end of its specified term" shall be the end of the calendar date on which such cancellation is effective.

(2) The termination of an agreement under the conditions described in this section shall not be a termination of the agreement by the Secretary pursuant to the provisions discussed in § 405.614. A determination by the Secretary not to accept such facility for participation following the end of such term will be an initial determination relating to the facility's qualifications as a provider of services for the period immediately following such term and the facility shall be entitled to a hearing with respect to such determination. (See Subpart O of this part.)

(3) Where the Secretary determines that he will not accept an agreement with a skilled nursing facility for the period immediately following the end of the term of such facility's existing agreement, the Secretary shall give notice of such determination to the facility and the public at least 30 days before the end of such term. Each notice by the Secretary shall state the reasons for such determination, the effective date for the termination of the existing agreement, and the applicability of such termination as it relates to the services of the facility.

(d) Notwithstanding the preceding provisions of this section, an agreement filed by an extended care facility (now defined as a skilled nursing facility) which was accepted by the Secretary prior to October 30, 1972, and which was in effect on such date, shall be for a specified term ending at the close of December 31, 1973.

4. Section 405.605 is revised to read as follows:

§ 405.605 Provider of services; scope of term.

As used in section 1866 of the Act and this Part 405, the term "provider of services" (or "provider") refers only to a hospital, a skilled nursing facility, or a home health agency (see Subparts J, K, and L of this part) and, for the limited purposes of furnishing outpatient physical therapy services or speech pathology,

a clinic, rehabilitation agency, or public health agency (see Subpart Q of this part).

5. Section 405.606 is amended by revising paragraph (b), and adding a new paragraph (c) to read as follows:

§ 405.606 Acceptance of provider as a participant.

* * * * *

(b) If the provider wishes to participate in the program, both copies of the agreement must be signed by an authorized official of the organization and filed with the Secretary and, upon acceptance for filing by the Secretary, a copy of such agreement shall be returned to the provider with the Secretary's written notice of acceptance. Such notice shall indicate the date on which the agreement was signed by the authorized official of the provider and the date on which the agreement was accepted by the Secretary; specify the effective date of the agreement; and, in the case of an agreement filed by a skilled nursing facility, the term of such agreement as determined in accordance with the provisions of § 405.604.

(c) The participation of a hospital, skilled nursing facility, or home health agency which voluntarily files an agreement to participate in the health insurance program contemplates that such hospital, facility, or agency will accept program beneficiaries for care and treatment. If a participating hospital, facility, or agency has any restrictions on the types of services it will make available and/or the type of health conditions that it will accept, or has any other criteria relating to the acceptance of persons for care and treatment, it is expected that such restrictions or criteria, if made applicable to program beneficiaries, will be applied in the same manner in which they are applied to all other persons seeking care and treatment by such hospital, facility, or agency. A provider's admission policies and practices that are inconsistent with the provider agreement objectives set forth in this paragraph (c) may be the basis for termination of participation by the Secretary pursuant to § 405.614(a)(1).

6. Paragraph (a) of § 405.613 is revised to read as follows:

§ 405.613 Termination by provider of services.

(a) A provider may terminate a section 1866 agreement (and in the case of a skilled nursing facility, prior to the end of the specified term of such agreement—see § 405.604) by filing with the Secretary a written notice of its intention to terminate such agreement. The notice of intent to terminate should state the date for the termination of the agreement (the date must be the first day of a month). The Secretary may accept the termination date stated in the notice or he may set a different date. If the notice of termination does not specify the date for the termination of the agreement, the date is to be set by the Secretary. However, if the termination date is set by the Secretary, such date shall not be more than 6 months from the date the notice is filed. In addition to giving notice to the Secretary, the provider should also give at least 15 days notice to the public by publishing in one or more local newspapers a statement of the date of termination of the provider agreement with the Secretary. The notice also should inform the public of the applicability of termination (see § 405.615) as it relates to services of the provider.

* * * * *

7. Paragraph (a) of § 405.614 is revised to read as follows:

§ 405.614 Termination by the Secretary.

(a) *Cause for termination.* The Secretary may terminate an agreement (and in the case of a skilled nursing facility, prior to the end of the specified term of such agreement—see § 405.604) if the Secretary determines that the provider of services:

(1) Is not complying substantially with the provisions of title XVIII and this Part 405, or with the provisions of the agreement entered into pursuant to § 405.606; or

(2) No longer meets the appropriate conditions of participation necessary to qualify as a hospital (see Subpart J of this part), skilled nursing facility (see Subpart K of this part), or home health agency (see Subpart L of this part), as the case may be; or

(3) Fails to furnish information as the Secretary finds to be necessary for a determination as to whether payments are due or were due under this Part 405 and the amounts thereof; or

(4) Refuses to permit examination of its fiscal or other records by, or on behalf of, the Secretary as may be necessary for verification of information furnished as a basis for payment under the health insurance benefits program.

* * * * *

8. Paragraph (a) of § 405.615 is revised to read as follows:

§ 405.615 Applicability of termination.

A termination of an agreement under the conditions described in § 405.613 or § 405.614 shall be applicable:

(a) In the case of inpatient hospital services (including inpatient tuberculosis hospital services and inpatient psychiatric hospital services), or posthospital extended care services furnished to any individual after the effective date of such termination, except that, payment may be made for up to 30 days with respect to such services furnished to any individual who was admitted to the hospital or skilled nursing facility prior to the effective date of the termination.

* * * * *

9. Section 405.616 is amended to read as follows:

§ 405.616 Reinstatement of provider as participant after termination.

(a) Subject to the provisions of paragraph (b) of this section, where an agreement between a provider of services and the Secretary is terminated by the Secretary under the conditions described in § 405.614, such institution or agency may not file another agreement to participate in the health insurance benefits program unless the Secretary finds that the reason for the termination of the prior agreement has been removed and that there is reasonable assurance that it will not recur.

(b) Where an agreement between a provider of services and the Secretary is terminated under conditions described in § 405.604, § 405.613, or § 405.614, such institution or agency may not file another agreement to participate in the health insurance benefits program unless the Secretary finds that such institution or agency has fulfilled (or has made arrangements satisfactory to the Secretary to fulfill) all of the contractual and statutory responsibilities of its prior agreement with the Secretary.

Subpart K—Conditions of Participation; Skilled Nursing Facilities

10. Subpart K is amended by revising the heading as set forth above and §§ 405.1101 and 405.1120 through 405.1137 to read as follows:

Sec.

405.1101 Definitions.
* * * * *
405.1120 Compliance with Federal, State, and local laws.
405.1121 Governing body and management.
405.1122 Patient care policies.
405.1123 Physician services.
405.1124 Nursing services.
405.1125 Dietetic services.
405.1126 Specialized restorative services.
405.1127 Pharmaceutical services.
405.1128 Laboratory and radiologic services.
405.1129 Dental services.
405.1130 Social services.
405.1131 Patient activities.
405.1132 Medical records.
405.1133 Transfer agreement.
405.1134 Physical environment.
405.1135 Environmental services.
405.1136 Disaster preparedness.
405.1137 Utilization reviews.

§ 405.1101 Definitions.

As used in this subpart, the following definitions apply:

(a) *Administrator of skilled nursing facility.* A person who:

(1) Is licensed as required by State law; or

(2) If the State does not have a Medicaid program, and has no licensure requirement, is a high school graduate (or equivalent), has completed courses in administration or management approved by the appropriate State agency, and has 1 year of supervisory management experience in a skilled nursing facility or related health program; or

(3) If the administrator of a hospital-based distinct part skilled nursing facility, meets the requirements of § 405.1021 (f), Subpart J of this Part 405.

(b) *Approved drugs and biologicals.* Only such drugs and biologicals as are:

(1) In the case of Medicare:

(i) Included (or approved for inclusion) in the United States Pharmacopoeia, National Formulary, or United States Homeopathic Pharmacopoeia; or

V 38 I 133 JUL 12 73 XUM

(ii) Included (or approved for inclusion) in AMA Drug Evaluations or Accepted Dental Therapeutics, except for any drugs and biologicals unfavorably evaluated therein; or

(iii) Not included (nor approved for inclusion) in the compendia listed in partgraphs (a) and (b) of this section, may be considered approved if such drugs:

(*a*) Were furnished to the patient during his prior hospitalization, and

(*b*) Were approved for use during a prior hospitalization by the hospital's pharmacy and drug therapeutics committee (or equivalent), and

(*c*) Are required for the continuing treatment of the patient in the facility.

(2) In the case of Medicaid, included in a listing approved by the State Title XIX agency.

Drugs and biologicals (including identical, similar, or related drugs and biologicals) for both the Medicare and Medicaid programs are not considered approved if the Food and Drug Administration has made an initial determination published in the Federal Register that there is a lack of substantial evidence of effectiveness for all indications, except that drugs and biologicals may be considered approved and their administration found reasonable and necessary where they are contained on the list filed by the Food and Drug Administration with the United States District Court for the District of Columbia and which therefore may remain on the market pending completion of scientific studies to determine effectiveness because there is a compelling justification of the medical need for the drug; or Lack substantial evidence of efficacy but are used in the pursuit of approved clinical research projects.

(c) *Charge nurse.* A person who is licensed by the State in which practicing as a:

(1) Registered nurse; or

(2) Practical (vocational) nurse who:

(i) Is a graduate of a State-approved school of practical (vocational) nursing; or

(ii) Has 2 years of appropriate experience following licensure by waiver as a practical (vocational) nurse, and has achieved a satisfactory grade on a proficiency examination conducted, approved, or sponsored by the U.S. Public Health Service, except that such determinations of proficiency will not apply with respect to persons initially licensed by a State or seeking initial qualifications as a practical (vocational) nurse after December 31, 1977, and

(3) Is experienced in nursing service administration and supervision and in areas such as rehabilitative or geriatric nursing, or acquires such preparation through formal staff development programs.

In the case of skilled nursing facility services in an institution for the mentally retarded or in an institution for those with mental diseases, or a distinct part thereof, a person licensed in another category of health care discipline who has special training in the care of such patients may serve as charge nurse provided that such person is licensed in such category by the State following completion of a course of training which included at least the number of classroom and practice hours in all the nursing subjects included in the program of a State-approved school of practical (vocational) nursing, as evidenced by a report on comparison of the courses in the respective curricula to the State agency by the agency(ies) of the State responsible for the licensure of such personnel. (An institution primarily engaged in the care of the mentally retarded or an institution primarily engaged in the treatment of mental diseases, cannot qualify as a participating skilled nursing facility under Medicare.)

(d) *Controlled drugs.* Drugs subject to the Comprehensive Drug Abuse Prevention and Control Act of 1970 (P.L. 91-513).

(e) *Dietetic service supervisor.* A qualified dietitian; or a graduate of a dietetic technician or dietetic assistant training program approved by the American Dietetic Association; or a graduate of another course that provided 90 or more hours of classroom instruction in food service supervision and has experience as a supervisor in a health care institution with consultation from a dietitian.

(f) *Dietician.* A person who:

(1) Meets the requirements for registration by the American Dietetic Association; or

(2) Has a baccalaureate degree with major studies in food and nutrition, dietetics, or food service management, has 1 year of supervisory experience in the dietetic service of a health care institution, and participates annually in continuing dietetic education.

(g) *Director of nursing services.* A registered nurse who is licensed by the State in which practicing, and has 1 year of additional education or experience in nursing service administration, as well as additional education or experience in such areas as rehabilitation or geriatric nursing.

(h) *Drug administration.* An act in which a single dose of a prescribed drug or biological is given to a patient by an authorized person in accordance with all laws and regulations governing such acts. The complete act of administration entails removing an individual dose from a previously dispensed, properly labeled container (including a unit dose container) verifying it with the physician's orders, giving the individual dose to the proper patient, and recording the time and dose given.

(i) *Drug dispensing.* An act entailing the interpretation of an order for a drug or biological and, pursuant to that order, the proper selection, measuring, labeling, packaging, and issuance of the drug or biological for a patient or for a service unit of the facility.

(j) *Licensed nursing personnel.* Registered nurses or practical (vocational) nurses licensed by the State in which practicing.

(k) *Medical record administrator.* A person who:

(1) Is a registered record administrator (RRA), or an accredited record technician (ART), designations obtained by satisfactory completion of a qualifying examination given by the American Medical Record Association; or

(2) Is a graduate of a school of medical record science that is accredited jointly by the Council on Medical Education of the American Medical Association and the American Medical Record Association.

(l) *Occupational therapist.* A person who:

(1) Is a graduate of an occupational therapy curriculum accredited jointly by the Council on Medical Education of the American Medical Association and the American Occupational Therapy Association; or

(2) Is eligible for the National Registration Examination of the American Occupational Therapy Association; or

(3) Has 2 years of appropriate experience as an occupational therapist, and has achieved a satisfactory grade on a proficiency examination conducted, approved, or sponsored by the U.S. Public Health Service, except that such determinations of proficiency will not apply with respect to persons initially licensed by a State or seeking initial qualifications as an occupational therapist after December 31, 1977.

(m) *Occupational therapy assistant.* A person who:

(1) Meets the requirements for certification as an occupational therapy assistant established by the American Occupational Therapy Association; or

(2) Has 2 years of appropriate experience as an occupational therapy assistant, and has achieved a satisfactory grade on a proficiency examination conducted, approved, or sponsored by the U.S. Public Health Service, except that such determinations of proficiency will not apply with respect to persons initially licensed by a State or seeking initial qualification as an occupational therapy assistant after December 31, 1977.

(n) *Patient activities coordinator.* A person who:

(1) Is a therapeutic recreation specialist qualified at least by way of definitions in paragraph (v) (4) or (5) of this section; or

(2) Has completed 36 hours (within a 3-month period) of a curriculum designed specifically to train patient activities coordinators; or

(3) Has 2 years of experience in a social or recreational program, within the last 5 years, 1 year of which was full-time in a patient activities program in a health care setting; or

(4) Is a qualified occupational therapist or occupational therapy assistant.

(o) *Pharmacist.* A person who:

(1) Is licensed as a pharmacist by the State in which practicing, and

(2) Has training or experience in the specailized functions of institutional pharmacy, such as residencies in hospital pharmacy, seminars on hospital pharmacy, and related training programs.

(p) *Physical therapist.* A person who is licensed as a physical therapist by the State in which practicing, and

(1) Has graduated from a physical therapy curriculum approved by the American Physical Therapy Association, or by the Council on Medical Education and Hospitals of the American Medical Association, or jointly by the Council on Medical Education of the American Medical Association and the American Physical Therapy Association; or

(2) Prior to January 1, 1966, was admitted to membership by the American Physical Therapy Association, or was admitted to registration by the American Registry of Physical Therapists, or has graduated from a physical therapy curriculum in a 4-year college or university approved by a State department of education; or

(3) Has 2 years of appropriate experience as a physical therapist, and has achieved a satisfactory grade on a proficiency examination conducted, approved, or sponsored by the U.S. Public Health Service except that such determinations of proficiency will not apply with respect to persons initially licensed by a State or seeking qualification as a physical therapist after December 31, 1977; or

(4) Has licensed or registered prior to January 1, 1966, and prior to January 1, 1970, had 15 years of full-time experience in the treatment of illness or injury through the practice of physical therapy in which services were rendered under the order and direction of attending and referring physicians; or

(5) If trained outside the United States, was graduated since 1928 from a physical therapy curriculum approved in the country in which the curriculum was located and in which there is a member organization of the World Confederation for Physical Therapy, meets the requirements for membership in a member organization of the World Confederation for Physical Therapy, has 1 year of experience under the supervision of an active member of the American Physical Therapy Association, and has successfully completed a qualifying examination as prescribed by the American Physical Therapy Association.

(q) *Physical therapist assistant.* A person who is licensed as a physical therapist assistant, if applicable, by the State in which practicing, and

(1) Has graduated from a 2-year college-level program approved by the American Physical Therapy Association; or

(2) Has 2 years of appropirate experience as a physical thrapist assistant, and has achieved a satisfactory grade on a proficiency examination conducted, approved, or sponsored by the U.S. Public Health Service, except that such determinations of proficiency will not apply with respect to persons initially licensed by a State or seeking initial qualification as a physical therapist assistant after December 31, 1977.

(r) *Social worker.* A person who is a graduate of a school of social work accredited by the Council on Social Work Education, and has 1 year of social work experience in a health care setting.

(s) *Speech pathologist or audiologist.* A person who:

(1) Meets the education and experience requirements for a Certificate of Clinical Competence in the appropriate area (speech pathology or audiology) granted by the American Speech and Hearing Association; or

(2) Meets the educational requirements for certification, and is in the process of accumulating the supervised experience required for certification.

(t) *Supervision.* Authoritative procedural guidance by a qualified person for the accomplishment of a function or activity with initial direction and periodic inspection of the actual act of accomplishing the function or activity. Unless otherwise stated in regulations, the supervisor must be on the premises if the person does not meet assistant-level qualifications specified in these conditions.

(u) *Therapeutic recreation specialist.* A person who is licensed or registered, if applicable, by the State in which practicing, and

(1) Meets the requirements for registration or certification of competency in therapeutic recreation from a national or State professional recreation society; or

(2) Possesses a masters degree, with a major in therapeutic recreation or in a general recreation or allied field (music, drama, physical education, psychology), and has 6 months of full-time experience in a therapeutic recreation program; or

(3) Possesses a baccalaureate degree, with a major in therapeutic recreation including a supervised internship, a general recreation major and has 1 year of full-time experience in a therapeutic recreation program, or an allied field major and has 2 years of full-time experience in a therapeutic recreation program; or

(4) Possesses an associate of arts degree, with a major in recreation and has 3 years of supervised full-time experience in a therapeutic recreation program, or an allied field major and has 4 years of supervised full-time experience in a therapeutic recreation program; or

(5) Has 2 years of supervised full-time experience in a therapeutic recreation program in a health care setting, and has 60 hours of specialized training in therapeutic recreation techniques.

§ 405.1120 Condition of participation—compliance with Federal State, and local laws.

The skilled nursing facility is in compliance with applicable Federal, State, and local laws and regulations.

(a) *Standard: Licensure.* The facility, in any State in which State or applicable local law provides for licensing of facilities of this nature:

(1) Is licensed pursuant to such law; or

(2) If not subject to licensure, is approved by the agency of the State or locality responsible for licensing skilled nursing facilities as meeting the standards established for such licensing, and

(3) Except that a facility which formerly met fully such licensure requirements, but is currently determined not to meet fully all such requirements, may be recognized for a period specified by the State standard-setting authority.

(b) *Standard: Licensure or registration of personnel.* Staff of the facility are licensed or registered in accordance with applicable laws.

(c) *Standard: Conformity with other Federal, State, and local laws.* The facility is in conformity with all Federal, State, and local laws relating to fire and safety, sanitation, communicable and reportable diseases, post-mortem procedures, and other relevant health and safety requirements.

Italicized sections of conditions of participation and standards are statutory, and the facility must be in full compliance with them.

§ 405.1121 Condition of participation—governing body and management.

The skilled nursing facility has an effective governing body, or designated persons so functioning, with full legal authority and responsibility for the operation of the facility. The governing body adopts and enforces rules and regulations relative to health care and safety of patients, to the protection of their personal and property rights, and to the general operation of the facility. The governing body develops a written institutional plan that reflects the operating budget and capital expenditures plan.

(a) *Standard: Disclosure of ownership.* The facility supplies full and complete information to the survey agency as to the identity (1) of each person who has any direct or indirect ownership interest of 10 per centum or more in such skilled nursing facility or who is the owner (in whole or in part) of any mortgage, deed of trust, note, or other obligation secured (in whole or in part) by such skilled nursing facility or any of the property or assets of such skilled nursing facility, (2) in case a skilled nursing facility is organized as a corporation, of each officer and director of the corporation, and (3) in case a skilled nursing facility is organized as a partnership, of each partner; and promptly reports any changes which would affect the current accuracy of the information so required to be supplied.

(b) *Standard: Bylaws.* The governing body adopts effective administrative and patient care policies and bylaws governing the operation of the facility, in accordance with legal requirements. Such bylaws are in writing, dated, and made available to all members of the governing body which ensures that they are operational, and reviews and revises them as necessary.

(c) *Standard: Independent medical evaluation.* The governing body cooperates in an effective program which provides for a regular program of independ-

FEDERAL REGISTER, VOL. 38, NO. 133—THURSDAY, JULY 12, 1973

V 38 I 133 JUL 12 73 XUM

ent medical evaluation and audit of the patients in the facility to the extent required by the programs in which the facility participates (including medical evaluation of each patient's need for skilled nursing facility care at least annually).

(d) *Standard: Administrator.* The governing body appoints a full-time qualified administrator who is responsible for the overall management of the facility, enforces the rules and regulations relative to the level of health care and safety of patients, and to the protection of their personal and property rights, and plans, organizes, and directs those responsibilities delegated to him by the governing body. Through meetings and periodic reports, the administrator maintains ongoing liaison among the governing body, medical and nursing staffs, and other professional and supervisory staff of the facility, and studies and acts upon recommendations made by the utilization review and other committees.

(e) *Standard: Institutional planning.* The institutional plan:

(1) Provides for an annual operating budget which includes all anticipated income and expenses related to items which would, under generally accepted accounting principles, be considered income and expense items (except that nothing in this paragraph shall require that there be prepared, in connection with any budget, an item-by-item identification of the components of each type of anticipated expenditure or income);

(2) Provides for a capital expenditures plan for at least a 3-year period (including the year to which the operating budget described in paragraph (1) of this section is applicable) which includes and identifies in detail the anticipated sources of financing for, and the objectives of, each anticipated expenditure in excess of $100,000 related to the acquisition of land, the improvement of land, buildings, and equipment, and the replacement, modernization, and expansion of the buildings and equipment which would, under generally accepted accounting principles, be considered capital items;

(3) Provides for review and updating at least annually; and

(4) Is prepared, under the direction of the governing body of the institution, by a committee consisting of representatives of the governing body, the administrative staff, and the organized medical staff (if any) of the institution.

(f) *Standard: Personnel policies and procedures.* The governing body, through the administrator, is responsible for implementing and maintaining written personnel policies and procedures that support sound patient care and personnel practices. Personnel records are current and available for each employee and contain sufficient information to support placement in the position to which assigned. Written policies for control of communicable disease are in effect to ensure that employees with symptoms or signs of communicable disease or infected skin lesions are not permitted to work, and that a safe and sanitary environment for patients and personnel exists and incidents and accidents to patients and personnel are reviewed to identify health and safety hazards. Employees are provided, or referred for, periodic health examinations, and treated, or referred for treatment, as necessary.

(g) *Standard: Staff development.* An ongoing educational program is planned and conducted for the development and improvement of skills of all the facility's personnel, including training related to problems and needs of the aged and disabled. Each employee receives appropriate orientation to the facility and its policies, and to his position and duties. Inservice training includes at least prevention and control of infections, fire prevention and safety, accident prevention, confidentiality of patient information, and preservation of patient dignity, including protection of his privacy and personal property rights. Records are maintained which indicate the content of, and attendance at, such staff development programs.

(h) *Standard: Use of outside resources.* If the facility does not employ a qualified professional person to render a specific service to be provided by the facility, there are arrangements for such a service through a written agreement with an outside resource—a person or agency that will render direct service to patients or act as a consultant. The responsibilities, functions, and objectives, and the terms of agreement, including financial arrangements and charges, of each such outside resource are delineated in writing and signed by an authorized representative of the facility and the person or the agency providing the service. The financial arrangements provide that the outside resource bill the facility for covered services (either Part A or B for Medicare beneficiaries) rendered directly to the patient, and that receipt of payment from the program(s) to the facility for the services discharges the liability of beneficiary or any other person to pay for the services. The outside resource, when acting as a consultant, apprises the administrator of recommendations, plans for implementation, and continuing assessment through dated, signed reports, which are retained by the administrator for follow-up action and evaluation of performance. (See requirement under each service—§§ 405.1125 through 405.1132.)

(i) *Standard: Notification of changes in patient status.* The facility has appropriate written policies and procedures relating to notification of the patient's attending physician and other responsible persons in the event of significant change in the patient's physical, mental, or emotional status, or patient charges, billings, and related administrative matters. Except in a medical emergency, a patient is not transferred or discharged, nor is treatment altered radically without consultation with the patient or, if he is incompetent, without prior notification of next of kin or sponsor.

§ 405.1122 Condition of participation—patient care policies.

The skilled nursing facility has written policies to govern the continuing skilled nursing care and related medical or other services provided.

(a) *Standard: Development and review of patient care policies.* The facility has policies, which are developed with the advice of (and with provision for review of such policies from time to time, but at least annually, by) a group of professional personnel including one or more physicians and one or more registered nurses, to govern the skilled nursing care and related medical or other services it provides. The policies, which are available to admitting physicians and sponsoring agencies, reflect awareness of, and provision for, meeting the total medical and psychosocial needs of patients, including discharge planning and the protection of their personal and property rights. Medical records and minutes of staff and committee meetings reflect that patient care is being rendered in accordance with the written patient care policies, and that utilization review committee recommendations regarding the policies are reviewed and necessary steps taken to ensure compliance.

(b) *Standard: Execution of patient care policies.* The facility has a physician, a registered nurse, or a medical staff responsible for the execution of such policies. If the responsibility for day-to-day execution of patient care policies has been delegated to a registered nurse, the facility makes available an advisory physician from whom she or he receives medical guidance.

§ 405.1123 Conditions of participation—physician services.

Patients in need of skilled nursing or rehabilitative care are admitted to the facility only upon the recommendation of a physician, and they remain under the care of a physician.

(a) *Standard: Medical findings and physicians' orders at time of admission.* There is made available to the facility, prior to or at the time of admission, patient information which includes current medical findings, diagnoses, rehabilitation potential, a summary of the course of prior treatment, and orders from a physician for immediate care of the patient.

(b) *Standard: Patient supervision by physician.* The facility has a requirement that the health care of every patient must be under the supervision of a physician who, based on a medical evaluation of the patient's immediate and long-term needs, prescribes a planned regimen of total patient care. The patient's total program of care (including medications and treatments) is reviewed and revised by the attending physician at least once every 30 days, or more often as needed by the patient, and a progress note is written and signed by the physician at the time of each visit. All of the physician's orders are signed by the physician.

(c) *Standard: physician visits.* Each patient is seen by a physician at least every 30 days, or more often as needed, except that, after 90 days following admission, this requirement may be deemed to be met in those specific instances where the attending physician has furnished adequate medical justification in the patient's medical record for an alternative schedule of visits, and provided that (1) the facility notifies the State Medicaid agency, when appropriate, and (2) the utilization review committee or medical review team has promptly reevaluated such patient's need for monthly physician visits as well as his continued need for skilled nursing facility services.

(d) *Standard. Availability of physicians for emergency patient care.* The facility has written procedures, available at each nurses station, that provide for having a physician available to furnish necessary medical care in case of emergency.

§ 405.1124 Condition of participation—nursing services.

The skilled nursing facility provides 24-hour service by licensed nurses, including the services of a registered nurse at least during the day tour of duty 5 days a week. There is an organized nursing service with a sufficient number of qualified nursing personnel to meet the total nursing needs of all patients.

(a) *Standard: Director of nursing services.* The director of nursing services is a qualified registered nurse employed full-time who has administrative authority, responsibility, and accountability for the functions and activities of the nursing services staff, and serves only one facility in this capacity. If the director of nursing services has other institutional responsibilities, a qualified registered nurse serves as her assistant so that there is the equivalent of a full-time director of nursing services on duty each day. The director of nursing services is responsible for the development and maintenance of nursing service objectives, standards of nursing practice, nursing policy and procedure manuals, written job descriptions for each level of nursing personnel, methods for coordination of nursing services with other patient services, and for recommending the number and levels of nursing personnel to be employed.

(b) *Standard: Charge nurse.* A registered nurse, or a qualified licensed practical nurse, is designated as charge nurse by the director of nursing services for each tour of duty, and is responsible for each tour of duty. The director of nursing services does not serve as charge nurse in a facility with an average daily occupancy of 50 or more patients. The charge nurse delegates responsibility to nursing personnel for the direct nursing care of specific patients during each tour of duty, on the basis of staff qualifications, size and physical layout of the facility, characteristics of the patient load, and the emotional, social, and nursing care needs of patients.

(c) *Standard: Twenty-four-hour nursing service.* The facility provides 24-hour nursing service which is sufficient to meet nursing needs in accordance with the policies developed as provided in § 405.1122(a) on patient care policies. The policies ensure that each patient receives treatments, medications, and diet as prescribed, and restorative nursing care as needed; receives proper care to prevent decubitus ulcers and deformities, and is kept comfortable, clean, well-groomed, and protected from accident and injury; and encouraged, assisted, and trained in self-care and group activities. Nursing personnel, including at least one registered nurse on the day tour of duty 5 days a week, licensed practical nurses, nurse aides, orderlies, and ward clerks, are assigned duties consistent with their education and experience, and based on the characteristics of the patient load and the kinds of nursing skills needed to provide care to the patients. Weekly time schedules are maintained and indicate the number and classification of nursing personnel, including relief personnel, who worked on each unit for each tour of duty.

(d) *Standard: Patient care plan.* In coordination with the other patient care services to be provided, a written patient care plan for each patient is developed and maintained by the nursing service consonant with the attending physician's plan of medical care, and is implemented upon admission. The plan indicates care to be given and goals to be accomplished and who is to give each element of care. The patient care plan is reviewed, evaluated, and updated as necessary by all professional personnel involved in the care of the patient.

(e) *Standard: Restorative nursing care.* The facility has an active program of restorative nursing care which is an integral part of nursing service and is directed toward assisting each patient to achieve and maintain an optimal level of self care and independence. Restorative nursing care services are performed and recorded daily.

(f) *Standard: Supervision of patient nutrition.* Nursing personnel are aware of the nutritional needs and food and fluid intake of patients and assist promptly where necessary in the feeding of patients. A procedure is established to inform the dietetic service of physicians' diet orders and of patients' dietetic problems. Food and fluid intake of patients is observed, and deviations from normal are recorded and reported to the charge nurse and the physician.

(g) *Standard: Administration of drugs.* Drugs are administered in compliance with State and local laws. Procedures are established to ensure that drugs are checked against physicians' orders, that the patient is identified prior to administration of a drug, and that each patient has an individual medication record and that the dose of drug administered to that patient is properly recorded therein by the person who administers the drug. Drugs and biologicals are administered as soon as possible after doses are prepared, and are administered by the same licensed person who prepared the doses for administration.

(h) *Standard: Conformance with physicians' drug orders.* Drugs are administered in accordance with written orders of the attending physician. Drugs, not specifically limited as to time or number of doses when ordered, are controlled by automatic stop orders or other methods in accordance with written policies. Physicians' oral orders for drugs are given only to a licensed nurse, pharmacist, or physician and are immediately recorded and signed. (Oral orders for Schedule II drugs are permitted only in the case of a bona fide emergency situation.) Such orders are countersigned by the attending physician within 48 hours. The attending physician is notified of an automatic stop order prior to the last dose so that he may decide if the prescription is to be renewed.

(i) *Standard: Storage of drugs and biologicals.* Drugs and biologicals in all areas of the facility are securely stored and maintained. Procedures for storing and disposing of drugs and biologicals are established by the pharmaceutical services committee. All drugs and biologicals, including those that require refrigeration, are stored in locked compartments, and only authorized personnel have access to the keys. Separately locked, permanently affixed compartments are provided for storage of controlled drugs listed in Schedule II in the Comprehensive Drug Abuse Prevention & Control Act of 1970, and other drugs subject to abuse, except under single unit package drug distribution systems in which the quantity stored is minimal and a missing dose can be readily detected. An emergency medication kit approved by the pharmaceutical services committee is kept readily available.

§ 405.1125 Condition of participation—dietetic services.

The skilled nursing facility provides a hygienic dietetic service that meets the daily nutritional needs of patients, ensures that special dietary needs are met, and provides palatable and attractive meals. A facility that has a contract with an outside food management company may be found to be in compliance with this condition provided the facility and/or company meets all the standards listed herein.

(a) *Standard: Staffing.* Overall supervisory responsibility for the dietetic service is assigned to a full-time qualified dietetic service supervisor. If the dietetic service supervisor is not a qualified dietitian he functions with frequent, regularly scheduled consultation from a person so qualified. (See § 405.1121(h).) In addition, the facility employs sufficient supportive personnel competent to carry out the functions of the dietetic service. Food service personnel are on duty daily over a period of 12 or more hours. If consultant dietetic services are used, the consultant's visits are at appropriate times, and of sufficient duration and frequency to provide continuing liaison with medical and nursing staffs, advice to the administrator, patient counseling, guidance to the supervisor and staff of the dietetic service, approval of all menus, and participation in development or revision of

V 38-133 JUL 12 73 XUM

dietetic policies and procedures and in planning and conducting inservice education programs.

(b) *Standard: Menus and nutritional adequacy.* Menus are planned and followed to meet nutritional needs of patients in accordance with physicians' orders and, to the extent medically possible, in accordance with the recommended dietary allowances of the Food and Nutrition Board of the National Research Council, National Academy of Sciences.

(c) *Standard: Therapeutic diets.* Therapeutic diets are prescribed by the attending physician. Therapeutic menus are planned in writing, and prepared and served as ordered, with supervision or consultation from the dietitian and advice from the physician whenever necessary. A current therapeutic diet manual, approved jointly by the dietitian and medical staff, is readily available to attending physicians and nursing and dietetic service personnel.

(d) *Standard: Frequency of meals.* At least three meals or their equivalent are served daily, at regular times, with not more than a 14-hour span between substantial evening meal and breakfast. To the extent medically possible, bedtime nourishments are offered routinely to all patients.

(e) *Standard: Preparation and service of food.* Foods are prepared by methods that conserve nutritive value, flavor, and appearance, and are attractively served at the proper temperatures and in a form to meet individual needs. If a patient refuses food served, appropriate substitutes of similar nutritive value are offered.

(f) *Standard: Hygiene of staff.* Dietetic service personnel are free of communicable diseases and practice hygienic food-handling techniques. (See § 405.1121 (f).)

(g) *Standard: Sanitary conditions.* Food is procured from sources approved or considered satisfactory by Federal, State or local authorities, and stored, prepared, distributed, and served under sanitary conditions. Waste is disposed of properly. Written reports of inspections by State and local health authorities are on file at the facility, with notation made of action taken by the facility to comply with any recommendations.

§ 405.1126 Condition of participation—specialized restorative services.

In addition to restorative nursing (§ 405.1124(e)), the skilled nursing facility provides, or arranges for, under written agreement, specialized restorative services by qualified personnel (i.e., physical therapy, speech pathology and audiology, and occupational therapy) as needed by patients to improve and maintain functioning. These services are provided upon the written order of the patient's attending physician. Safe and adequate space and equipment are available, commensurate with the services offered. If the facility does not offer such services directly, it does not admit nor retain patients in need of this care unless provision is made for such services under arrangement with qualified outside resources under which the facility assumes professional and financial responsibilities for the services rendered. (See § 405.1121(k).)

(a) *Standard: Organization and staffing.* Specialized restorative services are provided, in accordance with accepted professional practices, by qualified therapists or by qualified assistants or other supportive personnel under the supervision of qualified therapists. Written administrative and patient care policies and procedures are developed for restorative services by appropriate therapists and representatives of the medical, administrative, and nursing staffs.

(b) *Standard: Plan of care.* Restorative services are provided under a written plan of care, initiated by the attending physician and developed in consultation with appropriate therapist(s) and the nursing service. Therapy is provided only upon written orders of the attending physician. A report of the patient's progress is communicated to the attending physician within 2 weeks of the initiation of specialized restorative services. The patient's progress is thereafter reviewed regularly, and the plan of restorative care is reevaluated as necessary, but at least every 30 days, by the physician and the therapist(s).

(c) *Standard: Documentation of services.* The physician's orders, the plan of restorative care, services rendered, evaluations of progress, and other pertinent information are recorded in the patient's medical record, and are dated and signed by the physician ordering the service and the person who provided the service.

(d) *Standard: Qualifying to provide outpatient physical therapy services.* If the facility provides outpatient physical therapy services, it meets the applicable health and safety regulations pertaining to such services as are included in Sub-Part Q of this Part.

§ 405.1127 Condition of participation—pharmaceutical services.

The skilled nursing facility provides appropriate methods and procedures for the dispensing and administering of drugs and biologicals. Whether drugs and biologicals are obtained from community or institutional pharmacists or stocked by the facility, the facility is responsible for providing such drugs and biologicals for its patients, insofar as they are covered under the programs, and for ensuring that pharmaceutical services are provided in accordance with accepted professional principles and appropriate Federal, State, and local laws.

(a) *Standard: Supervision of services.* The pharmaceutical services are under the general supervision of a professionally competent staff for developing, coordinating, and supervising all pharmaceutical services. The pharmacist (if not a full-time employee) devotes a sufficient number of hours during a regularly scheduled visit to carry out these responsibilities. The pharmacist reviews the drug regimen of each patient at least monthly, and reports any irregularities to the attending physician. The pharmacist submits a written report on the status of the facility's pharmaceutical service and staff performance at least quarterly.

(b) *Standard: Control and accountability.* The pharmaceutical service has procedures for control and accountability of all drugs and biologicals throughout the facility. Only approved drugs and biologicals are used in the facility, and are dispensed in compliance with Federal and State laws. Records of receipt and disposition of all controlled drugs are maintained in sufficient detail to enable an accurate reconciliation. The pharmacist determines that drug records are in order and that an account of all controlled drugs is maintained and reconciled.

(c) *Standard: Labeling of drugs and biologicals.* The labeling of drugs and biologicals is based on currently accepted professional principles, and includes the appropriate accessory and cautionary instructions, as well as the expiration date when applicable.

(d) *Standard: Pharmaceutical services committee.* A pharmaceutical services committee (or its equivalent) develops written policies and procedures for safe and effective drug therapy, distribution, control, and use. The committee is comprised of at least the pharmacist and one physician. The committee oversees pharmaceutical service in the facility, makes recommendations for improvement, and monitors the service to ensure its accuracy and adequacy.

§ 405.1128 Condition of participation—laboratory and radiologic services.

The skilled nursing facility has provision for promptly obtaining required laboratory, X-ray, and other diagnostic services.

(a) *Standard: Provision for services.* If the facility provides its own laboratory and X-ray services, these meet the applicable conditions established for certification of hospitals that are contained in §§ 405.1028 and 405.1029. If the facility itself does not provide such services, arrangements are made for obtaining these services from a physician's office, a participating hospital or skilled nursing facility, or a portable X-ray supplier or independent laboratory which is approved to provide these services under the program. All such services are provided only on the orders of the attending physician, who is notified promptly of the findings. Signed and dated reports of a clinical laboratory, X-ray, and other diagnostic services are filed with the patient's medical record.

(b) *Standard: Blood and blood products.* Blood handling and storage facilities are safe, adequate, and properly supervised. If the facility itself provides for maintaining and transfusing blood and blood products, they meet the conditions established for certification of hospitals that are contained in § 405.1028(j). If the facility does not provide its own facilities but does provide transfusion services alone, it meets at least the requirements of § 405.1028(j)(1), (3), (4), (6) and (9).

§ 405.1129 Condition of participation—dental services.

The skilled nursing facility has satisfactory arrangements to assist patients to obtain routine and emergency dental care (See § 405.1121(h).) (The basic Hospital Insurance Program does not cover the services of a dentist in a skilled nursing facility in connection with the care, treatment, filling, removal, or replacement of teeth or structures supporting the teeth; and only certain oral surgery is included in the Supplemental Medical Insurance Program.)

(a) *Standard: Advisory dentist.* An advisory dentist participates in the staff development program for nursing and other appropriate personnel and recommends oral hygiene policies and practices for the care of patients.

(b) *Standard: Arrangements for outside services.* The facility has a cooperative agreement with a dental service, and maintains a list of dentists in the community for patients who do not have a private dentist. The facility assists the patient, if neecssary, in arranging for transportation to and from the dentist's office.

§ 405.1130 Condition of participation—social services.

The skilled nursing facility has satisfactory arrangements for identifying the medically related social and emotional needs of the patient. It is not mandatory that the skilled nursing facility itself provide social services in order to participate in the program. If the facility does not provide social services, it has procedures for referring patients in need of social services to appropriate social agencies. If social services are offered by the facility, they are provided under a clearly defined plan, by qualified persons, to assist each patient to adjust to the social and emotional aspects of his illness, treatment, and stay in the facility.

(a) *Standard: Social service functions.* The medically related social and emotional needs of the patient are identified and services provided to meet them, either by qualified staff of the facility, or by referral, based on established procedures, to appropriate social agencies. If financial assistance is indicated, arrangements are made promptly for referral to an appropriate agency. The patient and his family or responsible person are fully informed of the patent's personal and property rights.

(b) *Standard: Staffing.* If the facility offers social services, a member of the staff of the facility is designated as responsible for social services. If the designated person is not qualified social worker, the facility has a written agreement with a qualified social worker or recognized social agency for consultation and assistance on a regularly scheduled basis. (See § 405.1121(h).) The social service also has sufficient supportive personnel to meet patient needs. Facilities are adequate for social service personnel, easily accessible to patients and medical and other staff, and ensure privacy for interviews.

(c) *Standard: Records and confidentiality of social data.* Records of pertinent social data about personal and family problems medically related to the patient's illness and care, and of action taken to meet his needs, are maintained in the patient's medical record. If social services are provided by an outside resource, a record is maintained of each referral to such resource. Policies and procedures are established for ensuring the confidentiality of all patients' social information.

§ 405.1131 Condition of participation—patient activities.

The skilled nursing facility provides for an activities program, appropriate to the needs and interests of each patient, to encourage self care, resumption of normal activities, and maintenance of an optimal level of psychosocial functioning.

(a) *Standard: Provision for patient activity.* A member of the facility's staff is designated as responsible for the patient activities program. If he is not a qualified patient activities coordinator, he functions with frequent, regularly scheduled consultation from a person so qualified. (See § 405.1121(h).)

(b) *Standard: Patient activities program.* Provision is made for an ongoing program of meaningful activities appropriate to the needs and interests of patients, designed to promote opportunities for engaging in normal pursuits, and approved by the patient's attending physician as not in conflict with the treatment plan. The activities are designed to promote the physical, social, and mental well-being of the patients.

§ 405.1132 Condition of participation—Medical records.

The facility maintains clinical (medical) records on all patients in accordance with accepted professional standards and practices. The medical record service has sufficient staff, facilities, and equipment to provide medical records that are completely and accurately documented, readily accessible, and systematically organized to facilitate retrieving and compiling information.

(a) *Standard: Staffing.* Overall supervisory responsibility for the medical record service is assigned to a full-time employee of the facility. The facility also employs sufficient supportive personnel competent to carry out the functions of the medical record service. If the medical record supervisor is not a qualified medical record administrator, this person functions with consultation from a person so qualified. (See § 405.1121(h).)

(b) *Standard: Protection of medical record information.* The facility safeguards medical record information against loss, destruction, or unauthorized use.

(c) *Standard: Content.* The medical record contains sufficient information to identify the patient clearly, to justify the diagnosis and treatment, and to document the results accurately. All medical records contain the following general categories of data: Documented evidence of assessment of the needs of the patient, of establishment of an appropriate plan of treatment, and of the care and services provided; authentication of hospital diagnoses (discharge summary, report from patient's attending physician, or transfer form), identification data and consent forms, medical and nursing history of patient, report of physical examination(s), diagnostic and therapeutic orders, observations and progress notes, reports of treatments and clinical findings, and discharge summary including final diagnosis and prognosis.

(d) *Standard: Physician documentation.* Only physicians enter or authenticate in medical records opinions that require medical judgment (in accordance with medical staff bylaws, rules, and regulations, if applicable). Each physician signs his entries into the medical record.

(e) *Standard: Completion of records and centralization of reports.* Current medical records and those of discharged patients are completed promptly. All clinical information pertaining to a patient's stay is centralized in the patient's medical record.

(f) *Standard: Retention and preservation.* Medical records are retained for a period of time not less than that determined by the respective State statute, the statute of limitations in the State, or 5 years in the absence of a State statute.

(g) *Standard: Indexes.* Patients' medical records are indexed according to name of patient and final diagnoses to facilitate acquisition of statistical medical information and retrieval of records for research or administrative action.

(h) *Standard: Location and facilities.* The facility maintains adequate facilities and equipment, conveniently located, to provide efficient processing of medical records (reviewing, indexing, filing, and prompt retrieval).

§ 405.1133 Condition of participation—Transfer agreement.

The skilled nursing facility has in effect a transfer agreement with one or more hospitals approved for participation under the programs, which provides the basis for effective working arrangements under which inpatient hospital care or other hospital services are available promptly to the facility's patients when needed. (A facility that has been unable to establish a transfer agreement with the hospital(s) in the community or service area after documented attempts to do so is considered to have such an agreement in effect.)

(a) *Standard: Patient transfer.* A hospital and a skilled nursing facility shall be considered to have a transfer agreement in effect if, by reason of a written agreement between them or (in case the two institutions are under common control) by reason of a written undertaking by the person or body which controls them, there is reasonable assurance that:

(1) Transfer of patients will be effected between the hospital and the skilled nursing facility, ensuring timely admission, whenever such transfer is medically appropriate as determined by the attending physician; and

V 38-133 JUL 12 73 XUM

(2) There will be interchange of medical and other information necessary or useful in the care and treatment of individuals transferred between the institutions, or in determining whether such individuals can be adequately cared for otherwise than in either of such institutions.

Any skilled nursing facility which does not have such agreement in effect, but which is found by a State agency (of the State in which such facility is situated) with which an agreement under section 1864 is in effect (or, in the case of a State in which no such agency has an agreement under 1864, by the Secretary) to have attempted in good faith to enter into such an agreement with a hospital sufficiently close to the facility to make feasible the transfer between them of patients and the information referred to in paragraph (a)(2) of this section, shall be considered to have such an agreement in effect if and for so long as such agency (or the Secretary, as the case may be) finds that to do so is in the public interest and essential to assuring skilled nursing facility services for persons in the community who are eligible for payments with respect to such services under the programs.

§ 405.1134 Condition of participation—Physical environment.

The skilled nursing facility is constructed, equipped, and maintained to protect the health and safety of patients, personnel, and the public.

(a) *Standard: Life safety from fire.* The skilled nursing facility meets such provisions of the Life Safety Code of the National Fire Protection Association (21st Edition, 1967) as are applicable to nursing homes; except that, in consideration of a recommendation by the State survey agency, the Secretary may waive, for such periods as deemed appropriate, specific provisions of such Code which, if rigidly applied, would result in unreasonable hardship upon a skilled nursing facility, but only if such waiver will not adversely affect the health and safety of the patients; and except that the provisions of such Code shall not apply in any State if the Secretary finds, in accordance with applicable provisions of section 1861 of the Social Security Act, that in such State there is in effect a fire and safety code, imposed by State law, which adequately protects patients in skilled nursing facilities. Where the State agency has permitted by waiver the participation of an existing facility of two or more stories which is not of at least 2-hour fire resistive construction, blind, nonambulatory, or physically handicapped patients are not housed above the street level floor unless the facility is of 1-hour protected noncombustible construction (as defined in National Fire Protection Association Standard No. 220), fully sprinklered 1-hour protected ordinary construction, or fully sprinklered 1-hour protected woodframe construction. Nonflammable medical gas systems, such as oxygen and nitrous oxide, installed in the facility comply with applicable provisions of National Fire Protection Association Standard No. 56B (Standard for the Use of Inhalation Therapy) 1968 and National Fire Protection Association Standard No. 56F (Nonflammable Medical Gas Systems) 1970.

(b) *Standard: Emergency power.* The facility provides an emergency source of electricity necessary to protect the health and safety of patients in the event the normal electrical supply is interrupted. The emergency electrical power system must supply power adequate at least for lighting in all means of egress; equipment to maintain fire detection, alarm, and extinguishing systems; and life support systems. Where life support systems are used, emergency electrical service is provided by an emergency generator located on the premises.

(c) *Standard: Facilities for physically handicapped.* The facility is accessible to, and functional for, patients, personnel, and the public. All necessary accommodations are made to meet the needs of persons with semiambulatory disabilities, sight and hearing disabilities, disabilities of coordination, as well as other disabilities, in accordance with the American National Standards Institute (ANSI) Standard No. A117.1, American Standard Specifications for Making Buildings and Facilities Accessible to, and Usable by, the Physically Handicapped.

(d) *Standard: Nursing unit.* Each nursing unit has at least the following basic service areas: Nurses station, storage and preparation area(s) for drugs and biologicals, and utility and storage rooms that are adequate in size, conveniently located, and well lighted to facilitate staff functioning. The nurses station is equipped to register patients' calls through a communication system.

(e) *Standard: Patient rooms and toilet facilities.* Patient rooms are designed and equipped for adequate nursing care and the comfort and privacy of patients, and have no more than four beds. Single patient rooms measure at least 100 square feet, and multipatient rooms provide a minimum of 80 square feet per bed. Each room is equipped with, or is conveniently located near, adequate toilet and bathing facilities. Each room has direct access to a corridor and outside exposure, with the floor at or above grade level.

(f) *Standard: Facilities for special care.* Provision is made for isolating patients as necessary in single rooms ventilated to the outside, with private toilet and handwashing facilities. Procedures in aseptic and isolation techniques are established in writing and followed by all personnel. Such areas are identified by appropriate precautionary signs.

(g) *Standard: Dining and patient activities rooms.* The facility provides one or more attractively furnished rooms of adequate size designated for patient dining and for patient activities. These areas are well-lighted and well-ventilated. If a multipurpose room is used for dining and patient activities, there is sufficient space to accommodate all activities and prevent their interference with each other.

(h) *Standard: Kitchen and dietetic service areas.* The facility has kitchen and dietetic service areas adequate to meet food service needs. These areas are properly ventilated, and arranged and equipped for sanitary refrigeration, storage, preparation, and serving of food as well as for dish and utensil cleaning and refuse storage and removal.

(i) *Standard: Other environmental considerations.* The facility provides a functional, sanitary, and comfortable environment for patients, personnel, and the public. Provision is made for adequate and comfortable lighting levels in all areas, limitation of sounds at comfort levels, maintaining a temperature of at least 75° F., procedures to ensure water to all essential areas in the event of loss of normal water supply, and adequate ventilation through windows or mechanical means or a combination of both.

§ 405.1135 Condition of participation—Environmental services.

The skilled nursing facility establishes an infection control committee of representative professional staff with responsibility for overall infection control in the facility. All necessary housekeeping and maintenance services are provided to maintain a sanitary and comfortable environment and to help prevent the development and transmission of infection.

(a) *Standard: Infection control committee.* The infection control committee, composed of members of the medical and nursing staffs, administration, and other services, establishes policies and procedures for investigating, controlling, and preventing infections in the facility, and monitors staff performance to ensure that the policies and procedures are executed.

(b) *Standard: Aseptic and isolation techniques.* Written effective procedures in aseptic and isolation techniques are followed by all personnel.

(c) *Standard: Housekeeping.* The facility employs sufficient housekeeping personnel and provides all necessary equipment to maintain a safe, clean, orderly, and attractive interior. Nursing personnel are not assigned housekeeping duties.

(d) *Standard: Linen.* The facility has available at all times a quantity of linen essential for proper care and comfort of patients. Linens are handled, stored, processed, and transported in such a manner as to prevent the spread of infection.

(e) *Standard: Pest control.* The facility is maintained free from insects and rodents through operation of a pest control program.

(f) *Standard: Maintenance of equipment, building, and grounds.* The facility establishes a written preventive maintenance program to ensure that equipment is operative and that the interior and exterior of the building are clean, orderly, and attractive. All essential mechanical, electrical, and patient care equipment is maintained in safe operating condition.

§ 405.1136 Condition of participation—disaster preparedness.

The skilled nursing facility has a written plan, periodically rehearsed, with procedures to be followed in the event of an internal or external disaster and for the care of casualties (patients and personnel) arising from such disasters.

(a) *Standard: Disaster plan.* The facility has an acceptable written plan in operation, with procedures to be followed in the event of fire, explosion, or other disaster. The plan is developed and maintained with the assistance of qualified fire, safety, and other appropriate experts, and includes procedures for prompt transfer of casualties and records, instructions regarding the location and use of alarm systems and signals and of fire-fighting equipment, information regarding methods of containing fire, procedures for notification of appropriate persons, specifications of evacuation routes and procedures, and frequency of fire drills.

(b) *Standard: Staff training and drills.* All employees are trained, as part of their employment orientation, in all aspects of preparedness for any disaster. The disaster program includes orientation and ongoing training and drills for all personnel in all procedures so that each employee promptly and correctly carries out his specific role in case of a disaster. (See § 405.1121(g).)

§ 405.1137 Condition of participation—utilization review.

The skilled nursing facility carries out utilization review of the services provided in the facility at least to inpatients who are entitled to benefits under the program(s). Utilization review has as its overall objectives both the maintenance of high quality patient care and assurance of appropriate and efficient utilization of facility services. The Secretary may waive the requirements of this section upon demonstration by the Medicaid single State agency that it has in operation utilization review procedures that are more effective than those required by this section.

(a) *Standard: Written plan of utilization review activity.* The facility has a written, currently applicable utilization review plan, approved by the governing body and the medical director or organized medical staff (if applicable), which includes at least the following: (1) procedures for medical care evaluation studies, and for dissemination and followup of study findings and committee recommendations; (2) definition of the period(s) of extended duration and procedures for review of individual cases of extended duration; (3) a method for identifying patients other than by name (e.g., medical record number); and (4) provision for maintaining written records of committee activities.

(b) *Standard: Composition and organization of utilization review committee.* The committee or group responsible for utilization review is composed of two or more physicians and, optionally, other professional personnel. All medical determinations are made by the physician members of the committee. The committee may be one or more staff committees within the facility, a group outside the facility which is established by the local medical or osteopathic society and some or all of the hospitals and skilled nursing facilities in the locality, or a group established in a manner approved by the Secretary; or, if required by the Secretary, a utilization review mechanism carried out by the State Medicaid agency as provided in section 1903(i)(4) of the Social Security Act. No physician committee member has a financial interest, direct or indirect, in the facility unless the Secretary finds that the financial interest held by such physician is not significant and presents no conflict of interest, or, for an interim period of time, utilization review cannot be made in any alternative manner because of the nonavailability of other physicians to serve as members of the committee. No physician reviews any case in which he was professionally involved.

(c) *Standard: Medical care evaluation studies.* Medical care evaluation studies are performed to insure the medical necessity of services, and to promote the most effective and efficient use of available health facilities and services consistent with patient needs. Studies, which could include assessment of findings resulting from periodic medical review, emphasize identification and analysis of patterns of patient care and changes indicated to maintain consistent high quality of services. Each medical care evaluation study (whether medical or administrative in emphasis) identifies and analyzes factors related to the patient care rendered in the facility, and serves as the basis for recommendations for change beneficial to patients, staff, the facility, and the community. Studies, on a sample or other basis, include but need not be limited to, admissions, durations of stay, and professional services (including drugs and biologicals) furnished. At least one study is in progress at any given time.

(d) *Standard: Review of cases of extended duration.* Periodic review is made of each current inpatient skilled nursing facility beneficiary case of continuous extended duration, the length of which is defined in the utilization review plan, to determine whether further inpatient stay is necessary. Reviews may also be applied to patients not covered by the program, and/or to cases where duration of stay has not yet reached the definition(s) of extended duration. The plan may specify a different number of days for different diagnostic classes of cases, or may use the same number of days for all cases. In any event, the period(s) specified bears a reasonable relationship to current average length-of-stay statistics, and in no event exceeds 21 days from admission. In cases for which advance approval of payment has been made, the period(s) of extended duration may be defined as that period for which payment has been approved. If the initial review of a case indicates that the patient needs further inpatient stay, subsequent reviews for medical necessity are made no more than 30 days later and every 30 days thereafter. A review is made and a final determination regarding the patient's further care is reached no later than 7 days following the time period specified as the period of extended duration in the utilization review plan.

(e) *Standard: Admission or further stay not medically necessary.* Final determination regarding the necessity for admission or for further stay, including stay beyond the period of extended duration, is limited to physician members of the committee, and may be made by the full physician complement, a subcommittee, or a single committee physician. When a single committee physician has decided that admission is not medically necessary or is inappropriate, or that further stay is no longer medically necessary, further concurrence is obtained as specified in the plan (to include at least a second committee physician when possible) within the 7-day period. If committee members determine, from an extended duration review or a medical care evaluation study, that further stay is not medically necessary, the attending physician is consulted or given the opportunity for consultation, and notification is made in writing within 48 hours by the committee to the administration, the attending physician, and the patient or his representative.

(f) *Standard: Administrative responsibilities.* The administrative staff of the facility is kept directly and fully informed of committee activities to facilitate support and assistance. The administrator studies and acts upon recommendations made by the committee, coordinating such functions with appropriate staff members.

(g) *Standard: Utilization review records.* Written records of committee activities are maintained. Appropriate reports, signed by the committee chairman, are made regularly to the medical staff, administrative staff, governing body, and sponsors (if any). Minutes of each committee meeting are maintained and include at least:

(1) Name of committee;

(2) Date and duration of meeting;

(3) Names of committee members present and absent;

(4) Description of activities presently in progress to satisfy the requirements for medical care evaluation studies, including the subject and reason for study, dates of commencement and expected completion, summary of studies completed since the last meeting, conclusions, and followup on implementation of recommendations made from previous studies; and

(5) Summary of extended duration cases reviewed, including the number of cases, case identification numbers, admission and review dates, and decisions reached, including the basis for each determination and action taken for each case not approved for extended care.

V 38 I 133 JUL 12 73 XUM

Subpart O—Providers of Services, Independent Laboratories, and Suppliers of Portable X-ray Services; Determinations and Appeals Procedures

11. Section 405.1501 is revised to read as follows:

§ 405.1501 Providers of services, emergency service hospitals, independent laboratories, and suppliers of portable X-ray services; determinations and appeals procedures.

(a) The provisions contained in this Subpart O shall govern the procedure for making and reviewing determinations with respect to whether an institution, facility, agency, or clinic is a provider of services (i.e., a hospital, skilled nursing facility, home health agency, or for purposes of furnishing outpatient physical therapy services, a clinic, rehabilitation agency, or public health agency) within the meaning of title XVIII of the Social Security Act and Subparts J, K, L, or Q of this Part, as appropriate; whether an institution is a hospital, as such term is included in section 1861(e) for purposes of sections 1814(d) and 1835(b) of the Act (see § 405.152(a)(1)), qualified to elect to claim payment for all emergency hospital services furnished in a calendar year (see § 405.658); the termination of the Secretary's agreement with a provider of services for cause (see § 405.614); whether an institution continues to remain in compliance with the qualifications for claiming emergency service reimbursement for a calendar year under the provisions of sections 1814(d) and 1835(b) of the Act; and whether an independent laboratory or supplier of portable X-ray services meets the appropriate conditions for coverage of its services (see Subparts M and N of this Part).

(b) Any institution, facility, agency, or clinic dissatisfied with an initial determination (see § 405.1502) that it does not qualify as a provider of services may request a reconsideration of that determination (see § 405.1510). If dissatisfied with the reconsidered determination, or with an initial determination terminating the Secretary's agreement with it for cause, an institution, facility, agency, or clinic is entitled to a hearing thereon and, if dissatisfied with the Secretary's final decision after such hearing, to Appeals Council review and then judicial review of such decision (see § 405.1530 et seq.).

(c) Any independent laboratory or supplier of portable X-ray services which is dissatisfied with an initial determination (see § 405.1502) that its services do not meet the condition for coverage (see Subparts M and N of this Part 405) may request a reconsideration of that determination (§ 405.1510). If dissatisfied with the reconsidered determination or where a determination had been made that an independent laboratory's or portable X-ray supplier's services met the respective conditions for coverage, with an initial determination thereafter that its services no longer meet the respective conditions for coverage, a laboratory or portable X-ray supplier may request a hearing thereon (see § 405.1530), and if dissatisfied with the decision of the hearing examiner may request Appeals Council review. A laboratory or portable X-ray supplier is not entitled to judicial review of the Secretary's final decision after such hearing and review.

(d) To be a participating provider of services, eligible for payment, a provider must be in compliance with Title VI of the Civil Rights Act of 1964 and must enter into an agreement with the Secretary under section 1866 of the Social Security Act (see Subpart F of this Part 405). The provisions of this Subpart O do not govern in any respect the adjudication of issues related to the compliance of an institution or agency with Title VI of the Civil Rights Act of 1964, or the implementing regulation (45 CFR Part 80) issued by the Secretary of Health, Education, and Welfare.

(e) Any institution which is dissatisfied with an initial determination (see § 405.1502) that it does not qualify to elect to claim payment for all emergency hospital services furnished in a calendar year, may request a reconsideration of that determination (see § 405.1510). If dissatisfied with the reconsidered determination, or where the institution's election to claim payment for all such services furnished in a calendar year has been accepted for filing, with an initial determination thereafter of its failure to remain in compliance with the qualifications for claiming such payments for such calendar year, the institution is entitled to a hearing thereon and, if dissatisfied with the Secretary's final decision after such hearing, to Appeals Council review and then judicial review of such decision (see § 405.1530 et seq.).

§§ 405.1502, 405.1510, 405.1513, 405.1514, 405.1515, 405.1518, 405.1542 [Amended]

12. In §§ 405.1502, 405.1510, 405.1513, 405.1514, 405.1515, 405.1518, and 405.1542 (a), the word "Administration" is changed to "Secretary."

13. Paragraph (b) of § 405.1502 is amended by revising subparagraph (2) to read as follows:

§ 405.1502 Initial determinations.

The Secretary will make findings, setting forth the pertinent facts and conclusions, and an initial determination with respect to:

* * * * *

(b) * * *

(2) Whether an independent laboratory or supplier of portable X-ray services continues to meet the appropriate conditions for coverage of its services; and

* * * * *

14. Section 405.1503 is revised to read as follows:

§ 405.1503 Notice of initial determination.

Written notice of an initial determination (see § 405.1502) with respect to whether an institution, facility, agency, or clinic is or is not a provider; or with respect to whether an institution is or is not a hospital for purposes of the emergency service reimbursement provisions of sections 1814(d) and 1835(b) of the Act; or with respect to the termination of an agreement for cause; or with respect to whether an institution continues to remain in compliance with the qualifications for claiming emergency services reimbursement for a calendar year under the provisions of sections 1814(d) and 1835(b) of the Act; or with respect to whether an independent laboratory or supplier of portable X-ray services meets the appropriate conditions for coverage of its services (see Subparts M and N of this Part 405) will be mailed to the institution, facility, agency, clinic, laboratory, or portable X-ray supplier (see §§ 405.1510 and 405.1530).

15. Section 405.1505 is revised to read as follows:

§ 405.1505 Administrative actions which are not initial determinations.

(a) The finding that an institution, facility, agency or clinic determined to be a provider has deficiencies with respect to one or more conditions of participation, or that an independent laboratory or supplier of portable X-ray services, determined to be in substantial compliance with the conditions, has deficiencies with respect to one or more conditions for coverage of services of independent laboratories or suppliers of portable X-ray services.

(b) The finding that an institution, facility, or agency does not meet the conditions for participation as set out in Subparts J, K, or L of this Part, as appropriate, but only where such institution, facility, or agency is nevertheless approved as a provider of services on the basis of a special access certification.

(c) The finding that the services of a laboratory are covered under the health insurance program because the laboratory is not independent of a hospital for purposes of section 1861(s) (10) and (11) of the Act and the laboratory meets the health and safety standards prescribed for such laboratories.

(d) The finding that laboratory services are physician's services for the reason that the laboratory is being maintained primarily for the physician's patients, and such physician's services are covered under the supplementary medical insurance program.

(e) The refusal by the Secretary to accept for filing an agreement submitted by an institution, facility, agency, or clinic under the terms of section 1866 of the Social Security Act where such institution, facility, agency, or clinic:

(1) Is not in compliance with the provisions of Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.); or

(2) Has been adjudged insolvent or bankrupt under appropriate State or Federal law or with respect to which a court proceeding to make such a judgment is pending under such law.

(f) The finding that, pursuant to § 405.616, a provider may not file another agreement, where such provider's agreement has been terminated under the conditions described in §§ 405.604, 405.613, or 405.614.

(g) The finding that an institution is not a hospital for purposes of the emergency service reimbursement provisions of sections 1814(d) and 1835(b) of the Act, if such findings are not made in accordance with the provisions of §§ 405.1502(d) (1) or (2) and 405.1503.

(h) The refusal to accept for filing an election submitted by an institution to claim payment for all emergency hospital services furnished in a calendar year (see § 405.658), where such institution has previously charged an individual or other person for emergency hospital services furnished to the individual in such calendar year.

(i) The refusal to accept for filing an election submitted by an institution to claim payment for all emergency hospital services furnished in a calendar year.

(j) The finding that, pursuant to § 405.659, an institution is not eligible to file an election to claim emergency services reimbursement after its failure to continue to comply.

16. Paragraph (b) of § 405.1511 is revised to read as follows:

§ 405.1511 Time and place of filing request for reconsideration.

* * * * *

(b) The request for consideration must be filed within 6 months after the date of the mailing of the notice of the initial determination unless the time for filing is extended as provided in § 405.1518. The request is to be filed with the Secretary or with an employee of the Department of Health, Education, and Welfare authorized to accept such requests at a place other than such office. A request for reconsideration which has been timely filed with the State agency that performed the survey and certification function will be considered to have been filed with the Secretary.

17. Section 405.1519 is revised to read as follows:

§ 405.1519 Revision of initial or reconsidered determination.

Except in the case of a determination that an institution, facility, agency, or clinic qualifies as a provider of services, or that an institution qualifies to elect to claim payment for all emergency hospital services furnished in a calendar year, an initial or reconsidered determination which is otherwise final under § 405.1504 or § 405.1517 may be reopened by the Secretary upon his own motion within 12 months after the date of the notice of the initial determination (see § 405.1503). Notice of the reopening of a determination and any revision thereof shall be given to the institution, facility, agency, clinic, laboratory, or portable X-ray supplier which was a party to the determination (see § 405.1520).

18. Section 405.1531 is revised to read as follows:

§ 405.1531 Filing a request for a hearing; time and manner of filing.

The request for a hearing shall be made in writing, signed by a proper official of the institution, facility, agency, clinic, laboratory, or portable X-ray supplier concerned and filed at an office of the Department of Health, Education, and Welfare or with an Administrative Law Judge (formerly called "hearing examiner") or the Appeals Council of the Bureau of Hearings and Appeals. The request must be filed within 6 months after the date on which written notice of an initial determination provided for in § 405.1502(b)(2), (c), or (d)(2), or a reconsidered or revised determination is mailed to the institution, facility, agency, clinic, laboratory, or portable X-ray supplier (see §§ 405.1503, 405.1516, and 405.1520), except where the time is extended for "good cause" (see § 405.1569).

19. Section 405.1532 is revised to read as follows:

§ 405.1532 Parties to the hearing.

The parties to the hearing shall be the institution, facility, agency, clinic, laboratory, or portable X-ray supplier which was a party to the prior determination (see §§ 405.1502(b)(2), (c), and (d)(2), 405.1514, and 405.1519) and the Bureau of Health Insurance as representing the Secretary. The Bureau of Health Insurance shall be represented at the hearing (see § 405.1543).

§§ 405.1537, 405.1545 [Amended]

20. In §§ 405.1537 and 405.1545, the words "Bureau of Health Insurance" are changed to "Secretary."

21. Paragraph (b) of § 405.1542 is revised to read as follows:

§ 405.1542 Hearing on new issues.

* * * * *

(b) On the application of either party, or on his own motion, in lieu of considering any new issue to the manner described in the preceding paragraph, the Administrative Law Judge may remand the case for consideration of the new issue and, where appropriate, a determination. Where necessary the Administrative Law Judge may direct that the case be returned to him for further proceedings. See also § 405.1560.

22. Section 405.1544 is revised to read as follows:

§ 405.1544 Subpoenas.

When reasonably necessary for the full presentation of a case, the Administrative Law Judge may upon his own motion, or upon the request of a party to the hearing, issue subpoenas for the attendance and testimony of witnesses and for the production of books, records, correspondence, papers, or other documents which are relevant and material to any matter in issue at the hearing. A party which desires the issuance of a subpoena shall, not less than 5 days prior to the time fixed for a hearing, file with the Administrative Law Judge a written request therefor, designating the witnesses or documents to be produced, and describing the address and location thereof with sufficient particularity to permit such witnesses or documents to be found. The request for a subpoena shall state the pertinent facts which the party expects to establish by such witnesses or documents and whether such facts could be established by other evidence without the use of a subpoena. A subpoena issued under the provisions of this section shall be issued in the name of the Secretary who shall pay the cost of the issuance and the fees and the mileage of any witnesses so subpoenaed, as provided in section 205(d) of the Act.

23. Section 405.1550 is revised to read as follows:

§ 405.1550 Waiver of right to appear and present evidence.

If the institution, facility, agency, clinic, laboratory, or portable X-ray supplier waives its right to appear before the Administrative Law Judge and present testimony, it shall not be necessary for the Administrative Law Judge to give notice of and conduct an oral hearing. A waiver of this right shall be made in writing and filed with the Administrative Law Judge. A waiver may be withdrawn by an institution, facility, agency, clinic, laboratory, or portable X-ray supplier, for good cause shown, at any time prior to the mailing of notice of the decision in the case. Even though an institution, facility, agency, clinic, laboratory, or portable X-ray supplier has filed a waiver of a hearing before an Administrative Law Judge, the Administrative Law Judge may nevertheless give notice of a time and place and conduct a hearing if he believes that testimony of the representatives of the institution, facility, agency, clinic, laboratory, or portable X-ray supplier or other persons is needed to clarify the facts in issue, or on a showing of good cause by the Bureau of Health Insurance as representing the Secretary of the need to present oral evidence. When such a waiver has been filed and no testimony received, the Administrative Law Judge shall make a record of the relevant written evidence, including applications, written statements, certificates, affidavits, reports, and other documents which were considered in connection with the initial, reconsidered, or revised determination (see §§ 405.1502, 405.1514, and 405.1519), and whatever additional relevant and material evidence was submitted by the parties for consideration by the Administrative Law Judge. Any additional evidence submitted by either party shall be furnished to the other party and that party shall be given a reasonable opportunity to submit further evidence in rebuttal. The parties may submit briefs or other written statements of evidence and/or proposed findings of fact or conclusions of law, copies of which shall be sent in accordance with § 405.1595. After the Administrative Law Judge sets the case for oral hearing and gives notice of the time and place set for the hearing, the request for hearing shall be dismissed in accordance with § 405.1552 where the institution, facility, agency, clinic, laboratory, or portable X-ray supplier fails to appear without good cause.

24. Section 405.1560 is revised to read as follows:

§ 405.1560 Remand by the Administrative Law Judge.

At the request of the Bureau of Health Insurance representing the Secretary and with the written or on-the-record concurrence of the other party to the hear-

V 38 I 133
JUL 12 73
XUM

ing, the Administrative Law Judge may remand any case properly before him for a determination satisfactory to such other party. Such remand may be made at any time after the request for hearing and before mailing of the notice of decision.

25. Section 405.1563 is revised to read as follows:

§ 405.1563 Action by the Appeals Council on request for review.

The review or denial of the Administrative Law Judge's decision shall be conducted by a panel of at least two members of the Appeals Council designated by the Chairman or Deputy Chairman and one person from the U.S. Public Health Service designated by the Surgeon General, Public Health Service, Department of Health, Education, and Welfare, or his delegate. Except as provided in § 405.1568, the Appeals Council shall review the Administrative Law Judge's decision or dismissal where an institution, facility, agency, clinic, laboratory, or portable X-ray supplier, files a request for review. The Appeals Council may dismiss, deny or grant a request for review filed by the Bureau of Health Insurance as representing the Secretary. If the review is granted, the Appeals Council may either modify, affirm, or reverse the Administrative Law Judge's decision. Notice of the action by the Appeals Council shall be mailed to the institution, facility, agency, clinic, laboratory, or portable X-ray supplier and the Bureau of Health Insurance.

§§ 405.1590, 405.1591 [Amended]

26. In §§ 405.1590 and 405.1591, the words "Social Security Administration" are changed to "Secretary."

Subpart T—Certification Procedure for Providers and Suppliers of Services

27. Subpart T is added to read as follows:

Sec.
405.1901 The certification process.
405.1902 Certification by State Agency.
405.1903 Documentation of findings.
405.1904 Periodic certification of compliance and approval.
405.1905 Certification of noncompliance.
405.1906 Determining compliance.
405.1907 Providers or suppliers with deficiencies.
405.1908 Special requirements applicable to skilled nursing facilities with deficiencies.
405.1909 Special requirements applicable to independent laboratories.
405.1910 Special hospital certification.

AUTHORITY: Secs. 1102, 1814, 1861, 1865, 1866, 1871, 49 Stat. 647, as amended, 79 Stat. 249, as amended, 79 Stat. 313–327, as amended, 79 Stat. 331; 42 U.S.C. 1302, 1395 et seq.

§ 405.1901 The certification process.

(a) A prospective provider or supplier of services which meets the applicable statutory definitions contained in section 1861 (e), (f), (g), (j), (o), (p) (4), (s) (3) or (s) (10) of the Social Security Act and which is found to be in compliance with each of the conditions where applicable prescribed by the Secretary may agree to become a provider or supplier of services upon acceptance by the Secretary. Health and safety requirement prescribed by the Secretary are set forth in the conditions of participation for hospitals, skilled nursing facilities, home health agencies, rehabilitation agencies, clinics, and public health agencies (see Subparts J, K, L, and (Q), and in the conditions for coverage of independent laboratories and portable X-ray suppliers (see Subparts M and N).

(b) Hospitals currently accredited by the Joint Commission on Accreditation of Hospitals or by the American Osteopathic Association are deemed to meet all of the conditions of participation, except the requirements for utilization review as described in section 1861(e)(6) of the Act and any standard promulgated by the Secretary which is higher than the requirements for accreditation as specified in section 1861(e)(9) of the Act, and, in the case of tuberculosis and psychiatric hospitals, the additional staffing and medical records requirements considered necessary for the provision of intensive care. Notwithstanding that a hospital is accredited by the Joint Commission on Accreditation of Hospitals or the American Osteopathic Association, it may be subject to a survey by State and/or Federal survey personnel. In such cases a copy of the latest JCAH or AOA survey report will be released to the Secretary (on a confidential basis) with the hospital's concurrence. If the hospital declines to authorize such release, it will lose its deemed status and will be subject to the regular State agency survey procedure. Such surveys will be conducted on a sample basis to validate the JCAH and AOA accreditation process or in response to substantial allegations or evidence of a condition adverse to the health and safety of patients in an accredited hospital. If such a survey reveals noncompliance with one or more statutory or regulatory requirements, the hospital must come into compliance with the Health Insurance for the Aged and Disability Program requirements.

(c) The Secretary may, at the request of a State, approve higher health and safety requirements for that State. Also, where a State or political subdivision imposes higher requirements as a condition for the purchase of health services under a State plan approved under titles I, XVI, or XIX of the Social Security Act, the Secretary is required to impose like requirements as a condition to the payment for services under title XVIII in such institutions or agencies in the State or subdivision.

(d) Attention is invited to the requirements of title VI of the Civil Rights Act of 1964 (78 Stat. 252; P.L. 88–352) which provides that no person in the United States shall, on the ground of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity receiving Federal financial assistance (section 601), and to the implementing regulations issued by the Secretary of Health, Education, and Welfare with the approval of the President (45 CFR Part 80).

§ 405.1902 Certification by State agency.

(a) Section 1864(a) of the Social Security Act provides that the services of State agencies, operating under agreements with the Secretary, will be used by the Secretary in determining whether providers or prospective providers meet the conditions of participation or suppliers meet the conditions for coverage. Pursuant to these agreements, State agencies will survey each provider and supplier and certify to the Secretary as to whether they are found to be in compliance with the conditions of participation and/or coverage.

(b) In the case of skilled nursing facilities completing the second of two successive agreements of provisions for certification in effect under title XIX prior to July 1, 1973, and having the same deficiencies which occasioned the two agreements, the State survey agency will review the performance of such facility (which may be limited to a review of the documentation of record) in providing safe and adequate patient care and in completing correction of deficiencies. On the basis of such evaluation, the State survey agency will recommend to the Secretary that:

(1) Termination proceedings under title XVIII should be initiated; or

(2) Recertification issued by the Secretary should be continued for a period of up to 6 months from the date of the expiration of the second 6-month agreement under title XIX, by which time the facility must have corrected the standards that have been out of compliance through two such successive agreements; or

(3) Recertification issued by the Secretary should be continued for a period of no longer than 12 months from the date of the last title XVIII recertification subject to a cancellation clause that the certification will expire on a predetermined date which is no later than the 60th day following the end of the time period specified for the correction of deficiencies, unless the Secretary has determined all standards out of compliance though two such successive agreements have been corrected.

(c) The certifications by the State agency represent recommendations to the Secretary. The Secretary, on the basis of such certifications by the State agency will determine whether a provider or supplier is eligible to participate in the Health Insurance for the Aged Program. Notice of determination of eligibility or noneligibility will be sent to the provider or supplier.

§ 405.1903 Documentation of findings.

(a) The findings of the State agency with respect to each of the conditions of participation or conditions for coverage shall be adequately documented. Where the State agency certifies to the Secretary that a provider or supplier is not in compliance with the conditions, such documentation includes, in addition to the description of the specific deficiencies which resulted in the agency's recommendation, a report of all consultation which has been undertaken in an effort to assist the provider or supplier to comply with the conditions, a report of the provider's or supplier's responses with respect to the consultation, and the State agency's assessment of the prospects for such improvements as to enable the provider or supplier to achieve compliance with the conditions within a reasonable period of time. (See § 405.1907.)

(b) If a provider or supplier is certified by the State agency as in compliance with the conditions or as meeting the requirements for special certification (see § 405.1910), with deficiencies not adversely affecting the health and safety of patients, the following information will be incorporated into the finding:

(1) A statement of the deficiencies which were found, and

(2) A description of further action which is required to remove the deficiencies, and

(3) A time-phased plan of correction developed by the provider and supplier and concurred with by the State agency, and

(4) A scheduled time for a resurvey of the institution or agency to be conducted by the State agency within 90 days following the completion of the survey.

(c) If, on the basis of the State certification, the Secretary determines that the provider or supplier is eligible to participate, the information described in paragraph (b) of this section will be incorporated into a notice of eligibility to the provider or supplier.

§ 405.1904 Periodic certification of compliance and approval.

(a) Initial certifications and recertifications by the State agency to the effect that a provider or supplier is in compliance with all the conditions of participation will be for a period of 12 months. (See paragraph (b) of this section for periods of certification applicable to skilled nursing facilities.) State agencies. State agencies may visit or resurvey providers or suppliers more frequently where necessary to evaluate correction of deficiencies, ascertain continued compliance, or to accommodate to periodic or cyclical survey programs. A State finding and certification to the Secretary that a provider or supplier is no longer in compliance will supersede the State's previous certification.

(b) Periods of certification and approval applicable to skilled nursing facilities. A certification of a skilled nursing facility shall be for a period of up to 12 months, subject to the provision that any agreement filed by a skilled nursing facility with the Secretary under section 1866 of the Social Security Act and accepted by him prior to October 30, 1972, shall be deemed to be for a specified period ending December 31, 1973. A certification for less than 12 months may be issued in appropriate situations, based on such factors as the nature of deficiencies which may exist and the degree of progress achieved in correcting prior deficiencies. An agreement with a skilled nursing facility may, at the option of the Secretary, also be subject to automatic cancellation based upon a failure to correct deficiencies. (See § 405.604.) (See § 405.1908 where a standard is not met during the period of a certification.)

§ 405.1905 Certification of noncompliance.

(a) The State agency will certify that a provider or supplier is not or is no longer in compliance with the conditions of participation or conditions for coverage where the deficencies are of such character as to substantially limit the provider's or supplier's capacity to render adequate care or which adversely affect the health and safety of patients, or

(b) If it is determined by the Secretary that an institution or agency is not in compliance with the conditions of participation or that an institution or agency is no longer in compliance and the participation agreement is terminated under the conditions described in § 405.614, the institution or agency has the right to request that the determination be reviewed.

§ 405.1906 Determining compliance.

The decision as to whether there is compliance with a particular condition of participation or condition for coverage will depend upon the manner and degree to which the provider or supplier satisfies the various requirements contained in the standards applicable to such condition. Evaluation of a provider's performance against these standards will enable the State survey agency to document the nature and extent of deficiencies, if any, with respect to a particular function, and to assess the need for improvement in relation to the prescribed conditions.

§ 405.1907 Providers or suppliers with deficiencies.

(a) If a provider or supplier is found to be deficient with respect to one or more of the standards in the conditions of participation or conditions for coverage, it may participate in or be covered under the Health Insurance for the Aged Program only if the facility has submitted an acceptable plan of correction for achieving compliance within a reasonable period of time acceptable to the Secretary. The existing deficiencies must not be of such character as to seriously limit the capacity of the provider to render adequate care or to adversely affect the health and safety of patients. (See § 405.1908 for special requirements applicable to skilled nursing facilities.)

(b) If it is determined during a survey that a provider or supplier is not in compliance with one or more of the standards, it will be granted a reasonable time to achieve compliance. The amount of time will depend upon the nature of the deficiency and the State survey agency's judgment as to the capabilities of the facility to provide adequate and safe care. Ordinarily a provider or supplier will be expected to take the steps needed to achieve compliance within 60 days of being notified of the deficiencies but the State survey agency may recommend that additional time be granted by the Secretary in individual situations, if in its judgment it is not reasonable to expect compliance within 60 days, e.g., a facility must obtain the approval of its governing body, or engage in competitive bidding.

§ 405.1908 Special requirements applicable to skilled nursing facilities with deficiencies.

(a) Where the facility is not in compliance with all standards contained in Subpart K of Regulations 5, the period of certification shall:

(1) Be restricted to a period corresponding to the full period of time (not to exceed 12 full calendar months) specified in a written plan which the Secretary has approved providing for the correction of deficiencies in its qualifications in meeting the requirements for participation; or

(2) Provide a conditional period of 12 full months, subject to an automatic cancellation clause, the certification will expire on a predetermined date which is no later than the 60th day following the end of the time period specified for the correction of deficiencies unless the Secretary determines that all required corrections have been satisfactorily completed or that the facility has made substantial effort and progress in correcting such deficiencies and has resubmitted in writing a plan of correction acceptable to the Secretary.

(b) If the facility continues to be out of compliance with the same standard(s) at the end of the term of the agreement, a new agreement may not be executed.

(c) When an agreement with a skilled nursing facility is terminated at the end of its specified term (including the automatic cancellation of agreement), see § 405.604(c) for public notice and the right to request review.

(d) If the latest survey discloses that a skilled nursing facility that had standards out of compliance during the last survey is no longer in compliance with a standard that was previously met, a new period of certification may be approved only if, in the judgment of the Secretary, the new deficiency(ies) has occurred:

(1) Despite adequately documented intensive efforts or for reasons beyond its control, the skilled nursing facility was unable to maintain compliance and

(2) Despite the deficiency the facility is making the best use of its resources to render adequate care.

(e) If a skilled nursing facility can document to the State's satisfaction that it achieved compliance with a previously unmet standard during the period of certification but for reasons beyond its control, e.g., loss of key staff member, was found out of compliance by the time of the next survey, this may be treated as a

V 38 1 133 JUL 12 73 XUM

new deficiency instead of a carry-over deficiency unless in the judgment of the Secretary the facility did not make a good faith effort to maintain compliance with the standard.

§ 405.1909 Special requirements applicable to independent laboratories.

(a) The services of a qualified independent laboratory for which reimbursement may be made under the supplementary medical insurance program relate only to diagnostic tests performed in an independent laboratory as defined in § 405.1311(a). Diagnostic laboratory tests for purposes of section 1861(s) (10) and (11) of the Act and for purposes of this Subpart T shall include only those clinical and anatomical pathology diagnostic tests and procedures defined in § 405.1311(b). Diagnostic tests furnished by out-of-hospital physicians whose primary practice is directly attending patients and/or consultation as defined in § 405.1311(f), even though conducted partly through diagnostic procedures, are considered physicians' services rather than clinical laboratory services.

(b) A laboratory that requests an initial certification, or recertification by reason of a change in a director, but which meets all other requirements of Subpart M, except whose directory qualifies solely under the provisions of § 405.1312(b)(4) can be certified provided such laboratory requests approval based on such director's qualifications no later than 1 year following the date of publication of these regulations.

(c) Independent laboratories previously found in compliance, but which have had their approval revoked in total or in a specialty or subspecialty because of unsatisfactory performance in proficiency testing, may subsequently be certified by the State agency and determined by the Secretary to be in compliance with the conditions where:

(1) After a 6-month period, an appraisal of the laboratory's performance in a proficiency testing program as defined in § 405.1311(c) reflects satisfactory test results on at least two sets of specimens, or

(2) After a 3-month period, the State agency's assessment of the laboratory's performance in examining proficiency test samples, analyzed during at least two State agency onsite visits, establishes the laboratory's competency.

(d) A laboratory which meets the requirements of § 405.1907 or paragraph (c) of this section may continue to be certified by the State agency and determined by the Secretary to be in compliance with these conditions where it (1) timely reports a change in ownership, location, directors or supervisors, or (2) it permits a State agency to conduct an onsite visit or survey at any time during the laboratory's regular hours of operations.

§ 405.1910 Special hospital certification.

(a) *General.* Where, by reason of factors such as isolated location or absence of sufficient facilities in an area, the failure to approve a hospital would seriously limit the access of beneficiaries to needed inpatient care, a hospital may under special conditions and upon recommendation by the State agency, be approved by the Secretary as a provider of services. Such approvals will be granted only when there are no deficiencies of such character and seriousness as to place health and safety of individuals in jeopardy. A hospital receiving this special approval shall furnish information showing the extent to which it is making the best use of its resources to improve its quality of care.

(b) *Minimum compliance requirements.* Each case will have to be decided on its individual merits, and while the degree and extent of compliance will vary, the institution must, as a minimum, meet all of the statutory conditions in section 1861(e)(1)–(8), in addition to meeting such other requirements as the Secretary finds necessary under section 1861(e)(9) except for emergency services by a nonparticipating hospital (see Subpart D of these regulations). (For further information relating to the exception in section 1861(e)(5) of the Act, see paragraph (b) of this section.)

(c) *Waiver of 24-hour registered nurse requirement.* For a period ending January 1, 1976, the Secretary is authorized to waive the requirement contained in section 1861(e)(5) that a hospital must provide 24-hour nursing service rendered or supervised by a registered nurse. Such a waiver may be granted for any 1-year period upon acceptance by the Secretary of findings adequately documented and certified by the State agency, that the following criteria are met:

(1) The hospital complies with all other requirements for special certification outlined above.

(2) At least one registered nurse is employed full-time and sufficient other registered nurses are employed to assure that the day tour of duty is covered by a registered nurse 7 days a week.

(3) The hospital has in charge, on all tours of duty not covered by a registered nurse, a licensed practical (vocational) nurse who is a graduate of a State-approved school of practical (vocational) nursing or one who has passed a proficiency examination when such examinations are available and approved by the Secretary. Until such time as this examination is available, waivered licensed practical (vocational) nurses may serve as charge nurses.

(4) The hospital is located in a rural area and the supply of hospital services in such area is not sufficient to meet the needs of individuals residing therein and the failure to qualify as a participating hospital would seriously reduce the availability of such services to such individuals.

(5) The hospital has made and continues to make a good faith effort to comply with section 1861(e)(5), but such compliance is impeded by the lack of qualified nursing personnel in such area.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM

[Reg. Q]

PART 217—INTEREST ON DEPOSITS

Early Withdrawals

The Board of Governors has amended its rules on the payment of time deposits by member banks prior to maturity. Formerly, a time deposit could be paid before maturity only in an emergency where it was necessary to prevent great hardship to the depositor. Under the new rules, a member bank is permitted to pay a time deposit before maturity, but in such event the bank can pay interest on the amount withdrawn at a rate not to exceed the maximum rate prescribed for a savings deposit during the period the funds have remained on deposit, less three months.

Effective immediately, the Board has amended § 217.4(d) of its Regulation Q (12 CFR Part 217) to read as follows:

§ 217.4 Payment of time deposits before maturity.

* * * * *

(d) *Penalty for early withdrawals.* Where a time deposit, or any portion thereof, is paid before maturity, a member bank may pay interest on the amount withdrawn at a rate not to exceed that currently prescribed in § 217.7 for a savings deposit: *Provided*, That the depositor shall forfeit three months of interest payable at such rate. If, however, the amount withdrawn has remained on deposit for three months or less, all interest shall be forfeited. Where necessary to comply with the requirements of this paragraph, any interest already paid to or for the account of the depositor shall be deducted from the amount requested to be withdrawn.

* * * * *

There was no notice, public participation, and deferred effective date with respect to this amendment because such procedure would result in delay that would be contrary to the public interest and serve no useful purpose. See § 262.2(e) of the Board's rules of procedure, 12 CFR 262.2(e).

By order of the Board of Governors, July 5, 1973.

[SEAL] CHESTER B. FELDBERG, *Secretary of the Board.*

[FR Doc.73-14328 Filed 7-12-73;8:45 am]

[REG. Q]

PART 217—INTEREST ON DEPOSITS

Maximum Rates of Interest

The Board of Governors has increased the maximum rates of interest that a member bank may pay on time and savings deposits. The Board also suspended, for the time being, the limitations on the rates of interest which may be paid by a member bank on a single maturity time deposit of $1,000 or more with a maturity of 4 years or more. Both actions were taken pursuant to the Board's authority under section 19 of the Federal Reserve Act to prescribe rules governing the payment of interest on deposits in member banks.

There was no notice, public participation, and deferred effective date with respect to this amendment because such procedure would result in delay that would be contrary to the public interest and serve no useful purpose. See § 262.2 (e) of the Board's rules of procedure, 12 CFR 262.2(e).

Effective July 1, 1973, § 217.7 of the Board's Regulation Q is amended to read as follows.

§ 217.7 Maximum rates of interest payable by member banks on time and savings deposits.

Pursuant to the provisions of section 19 of the Federal Reserve Act and § 217.3, the Board of Governors of the Federal Reserve System hereby prescribes the following maximum rates [1] of interest per annum payable by member banks of the Federal Reserve System on time and savings deposits:

(a) *Single maturity time deposits.*—(1) *Deposits of $100,000 or more.* There is no maximum rate of interest presently prescribed on any single maturity time deposit of $100,000 or more.

(2) *Deposits of less than $100,000.* Except as provided in subparagraph (3) of this paragraph, no member bank shall pay interest on any single maturity time deposit of less than $100,000 at a rate in excess of the applicable rate under the following schedule:

Maturity	Maximum per cent
30 days or more but less than 90 days	5
90 days or more but less than 1 year	5½
1 year or more but less than 30 months	6
30 months or more	6½

(3) *Deposits of $1,000 or more with maturities of 4 years or more.* There is no maximum rate of interest presently prescribed on any single maturity time deposit of $1,000 or more with a maturity of 4 years or more.

(b) *Multiple maturity time deposits.* No member bank shall pay interest on a multiple maturity time deposit at a rate in excess of the applicable rate under the following schedule:

Maturity intervals	Maximum per cent
30 days or more but less than 90 days	5
90 days or more but less than 1 year	5½
1 year or more but less than 30 months	6
30 months or more	6½

(c) *Savings deposits.* No member bank shall pay interest at a rate in excess of 5 per cent on any savings deposit.

By order of the Board of Governors, July 5, 1973.

[SEAL] CHESTER B. FELDBERG, *Secretary of the Board.*

[FR Doc.73-14329 Filed 7-12-73;8:45 am]

[1] The limitations on rates of interest payable by member banks of the Federal Reserve System on time and savings deposits, as prescribed herein, are not applicable to any deposit which is payable only at an office of a member bank located outside the States of the United States and the District of Columbia.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 73-NE-8; Amdt. 39-1687]

PART 39—AIRWORTHINESS DIRECTIVES

Pratt & Whitney Model JT3D Engines

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring the inspection of the turbine nozzle case on JT3D engines for missing lugs within 1,000 hours time in service and at 1,000 hour intervals thereafter was published on page 7812 of the FEDERAL REGISTER for March 26, 1973 (38 FR 7812).

Interested persons have been afforded an opportunity to participate in the making of the amendment. One comment was received which, while concurring with the initial 1,000 hour inspection, objected to the required repetitive inspection at 1,000 hour intervals on the basis that the one confirmed failure at 1,100 hours was insufficient justification for a repetitive inspection interval of less than 1,500 hours. The Federal Aviation Administration does not

V38-134-JUL 13 73 XUM

agree. In addition to the data available to the agency at the time of the publishing of the Notice, there have been two additional confirmed lug failures with time in service of less than 1,500 hours. In view of the additional incidents as well as the other data previously relied on in formulating the Notice, the Federal Aviation Administration is of the opinion that the 1,000 hour repetitive inspection interval must be retained in the AD to assure continued airworthiness of the JT3D engines.

The same commentator also suggested that the AD provide for adjustment of repetitive inspection intervals based upon unique operating procedures, inspection procedures and other factors, subject to approval of the FAA. This suggestion is considered to have merit and an additional paragraph providing for such adjustment has been added to the AD. Finally, it was requested that the AD provide for ferry flights in accordance with § 21.197 of the Federal Aviation Regulations since adequate engine operating restrictions can be established to assure that such operation is not hazardous. The agency does not consider that a specific reference in the AD is a legal prerequisite for such ferry operation. Rather, all procedures and requirements are outlined in § 21.197 and the ferry flights referred in the comment may be legally conducted under the authority of that section provided there is compliance with all of its requirements.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new Airworthiness Directive:

PRATT & WHITNEY—Applies to all JT3D-1, JT3D-1-MC6, JT3D-1-MC7, JT3D-3 and JT3D-3B model engines containing turbine nozzle case Part Numbers 399065, 436859, 570618, 626669, 669047, 694937, 694938, 399197, 694935 and 691326 incorporating vented 2nd stage outer airseals.

Compliance required as follows:

To preclude possible turbine blade or disc failures resulting from turbine case lug failures, inspect the turbine nozzle case for missing lugs by performing Ultrasonic, Isotope or Visual inspection at the time intervals specified below.

First inspection, 1,000 hours time in service after the effective date of this AD unless already accomplished.

(a) If there are no missing lugs, repeat the inspection every 1,000 hours time in service thereafter.

(b) If one lug is found missing, repeat the inspection every 100 hours time in service.

(c) If two or three lugs are found missing, remove the engine within the next 50 hours time in service.

(d) If four or more lugs are missing, remove from service immediately.

Turbine cases may be repaired in accordance with the procedures outlined in the Overhaul Manual, Section 72-51-2, or replaced.

Upon submission of substantiating data through an FAA Maintenance Inspector, the Chief, Engineering and Manufacturing Branch, FAA, New England Region, may adjust the compliance time.

NOTE: Pratt & Whitney Service Bulletin 3993, or later FAA approved revisions pertain to this same subject.

This amendment becomes effective August 18, 1973.

(Secs. 313(a), 601 and 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421 and 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Burlington, Massachusetts, on July 6, 1973.

FERRIS J. HOWLAND,
Director,
New England Region.

[FR Doc 73-14401 Filed 7-12-73;8:45 am]

[Airspace Docket No. 72-AL-17]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On March 13, 1973, a notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 6831) stating that the Federal Aviation Administration proposed amendments to Part 71 of the Federal Aviation Regulations that would amend the Dillingham, Alaska, control zone and transition area.

Interested persons were afforded an opportunity to participate in the proposed rulemaking through the submission of comments. Two comments were received, and both objected to the proposed enlargement of the control zone extensions.

As a result of these comments, a re-evaluation of the applied instrument approach airspace criteria was conducted. It was determined that adjustments were possible to the proposed control zone and transition area extension widths as follows:

The width of the north and south control zone extensions can be reduced from the proposed 7 miles to 4 miles. The width of the north and south 700-foot transition areas can be reduced from the proposed 8 and 7 miles to 5 and 4 miles respectively.

Since these changes are minor in nature and will reduce the burden on the public, further notice and public procedure hereon are unnecessary. Therefore, in consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective 0901 G.m.t. September 13, 1973, as hereinafter set forth.

1. In § 71.171 (38 FR 351) the Dillingham, Alaska, control zone is amended to read:

DILLINGHAM, ALASKA

Within a 5-mile radius of the Dillingham Airport (latitude 59°02'30" N, longitude 158°30'28"W); within 2 miles each side of the Dillingham VORTAC 025° radial extending from the 5-mile radius zone to 13.5 miles northeast of the Dillingham VORTAC and within 2 miles each side of the Dillingham VORTAC 205° radial extending from the 5-mile radius zone to 9 miles southwest of the VORTAC. This control zone is effective during the specific dates and times established in advance by Notice to Airmen. The effective date and time will thereafter be continuously published in the U.S. Government Flight Information Publication, Supplement Alaska.

2. In § 71.181 (38 FR 435) the Dillingham transition area is amended to read:

DILLINGHAM, ALASKA

That airspace extending upward from 700 feet above the surface within an 8.5 mile radius of the Dillingham Airport (latitude 59°02'30"N, longitude 158°30'28"W); and that airspace within 2.5 miles each side of the Dillingham VORTAC 025° radial extending from the 8.5 mile radius zone to 15.5 miles northeast of the VORTAC and within 2 miles each side of the Dillingham VORTAC 205° radial extending from the 8.5 mile radius zone to 9 miles southwest of the VORTAC; and that airspace extending upward from 1,200 feet above the surface within 4.5 miles northwest and 9.5 miles southeast of the Dillingham VORTAC 025° and 205° radials extending from 23 miles northeast to 18.5 miles southwest of the VORTAC and within an 18 mile radius of the Dillingham VORTAC extending clockwise from the 056° radial to the 173° radial of the VORTAC.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Anchorage, Alaska on July 6, 1973.

THOMAS J. CRESWELL,
Director, Alaskan Region.

[FR Doc.73-14278 Filed 7-12-73;8:45 am]

[Airspace Docket No. 73-AL-4]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On March 2, 1973, a Notice of proposed rule making was published in the FEDERAL REGISTER (38 FR 5657) stating that the Federal Aviation Administration proposed amendments to Part 71 of the Federal Aviation Regulations that would amend the Iliamna, Alaska, control zone and transition area.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. No comments were received.

Therefore, in consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective 0901 G.m.t. September 13, 1973, as hereinafter set forth.

1. In § 71.171 (38 F.R. 351) the Iliamna, Alaska, control zone is amended to read:

ILIAMNA, ALASKA

Within a 5-mile radius of the Iliamna Airport (latitude 59°45'12" N, longitude 154°-54'54" W); and within 2.5 miles each side of the 209° bearing from the Iliamna RBN, extending from the 5-mile radius zone to 9.5 miles southwest of the RBN. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the U.S. Government Flight Information Publication, Supplement Alaska.

2. In § 71.181 (38 FR 435) the Iliamna transition area is amended to read:

ILIAMNA, ALASKA

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Iliamna Airport (latitude 59°45'12" N, longitude 154°54'54" W); and within 2.5 miles each side of the 209° bearing from the Iliamna RBN, extending from the 5-mile radius area to 9.5 miles southwest of the RBN; and that airspace extending upward from 1,200 feet above the surface within 5.5 miles northwest and 9.5 miles southeast of the 029° and 209° bearings from the Iliamna RBN, extending from 7 miles northeast to 18.5 miles southwest of the RBN.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Anchorage, Alaska, on July 6, 1973.

THOMAS J. CRESWELL,
Director, Alaskan Region.

[FR Doc.73-14280 Filed 7-12-73;8:45 am]

[Airspace Docket No. 73-AL-15]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Redesignation of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to redesignate the Yakataga, Alaska, transition area.

This action is based on the need to convert the Yakataga low frequency range to a nondirectional radio beacon. The Yakataga RR is currently advertised as unreliable because of shifting courses and multiple course signals. Reliable repairs are impracticable since standard parts are no longer available.

Furthermore, on March 1, 1971, the Federal Aviation Administration issued a notice under Aeronautical Study No. 71-AL-18NR, proposing to convert all four-course radio ranges in Alaska to nondirectional radio beacons. No objections were received.

For reasons stated above, the Yakataga low frequency range will be permanently converted to a nondirectional radio beacon effective August 16, 1973.

Since this amendment involves a change only in the type of navigational aid on which the airspace is described and makes no change to the current airspace configuration, notice and public procedure hereon are unnecessary. However, in order to allow sufficient time to make appropriate changes to aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing Part 71 of the Federal Aviation Regulations is amended effective 0901 G.m.t., August 16, 1973, as hereinafter set forth.

In § 71.181 (38 FR 435) the Yakataga transition area is redesignated as follows:

YAKATAGA, ALASKA

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Yakataga airport (latitude 60°04' 57" N, longitude 142°29'30" W); within 2 miles each side of the 242° bearing from the Yakataga RBN, extending from the 5-mile radius area to the INT of the 242° bearing from Yakataga RBN and the east course of the Hinchinbrook, Alaska, RR; and that airspace extending upward from 1,200 feet above the surface within 5 miles northwest and 8 miles southeast of the Yakataga RBN 242° bearing, extending from 7 miles northeast to 13 miles southwest of the INT of the 242° bearing from the Yakataga RBN and east course of the Hinchinbrook, Alaska, RR; within 5 miles each side of the Yakataga RBN 152° bearing extending from the RBN to the INT of the 152° bearing from the Yakataga RBN and the west course of the Yakutat, Alaska, RR.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Anchorage, Alaska, on July 6, 1973.

THOMAS J. CRESWELL,
Director, Alaskan Region.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 72 Stat. 1717 secs. 2–5, 54 Stat. 1128–1130, 15 U.S.C. 45, 70, 68) [Cease and desist order, Felco Sports Products, Inc., et al., New York, N.Y., Docket No. C-2413, June 8, 1973]

In the Matter of Felco Sports Products, Inc., a corporation, Felco Athletic wear Company, Inc., a corporation and Hatillo Apparel Corporation, a corporation, and Nathan Katz, individually and as an officer of said corporation.

Consent order requiring three affiliated manufacturers of athletic and recreational apparel in New York City, and Hatillo, Puerto Rico, among other things to cease misrepresenting the fiber content of their prdoucts and to run a retraction in their catalogs concerning the garments that were deceptively advertised.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It Is Ordered, That respondents Felco Sports Products, Inc., a corporation, Felco Athletic Wear Company, Inc., a corporation, and Hatillo Apparel Corporation, a corporation, that successors and assigns, and their officers, and Nathan Katz, individually and as an officer of said corporations, and respondents' representatives, agents, and employees, directly or through any corporation, subsidiary, division or any other device, in connection with the introduction, delivery for introduction, manufacture for introduction, sale, advertising or offering for sale in commerce, or the transportation or causing to be transported in commerce, or the importation into the United States of any textile fiber product; or in connection with the sale, offering for sale, advertising, delivery, transportation or causing to be transported, of any textile product, which has been advertised or offered for sale in commerce; and in connection with the sale, offering for sale, advertising delivery, transportation or causing to be transported, after shipment in commerce of any textile fiber product, whether in its original state or contained in other textile fiber products, as the terms "commerce" and "textile fiber product" are defined in the Textile Fiber Products Identification Act, do forthwith cease and desist from:

A. Misbranding textile fiber products by:

1. Failing to affix labels to such textile fiber products showing in a clear, legible and conspicuous manner each element of information required to be disclosed by section 4(b) of the Textile Fiber Products Indentification Act.

2. Failing to affix labels showing the respective fiber content and other required information to samples, swatches or specimens of textile fiber products

V 38 I 134 JUL 13 73 XUM

subject to the aforementioned Act which are used to promote or effect sales of such textile fiber products.

3. Failing to set forth separately and distinctly the fiber content of any linings, interlinings, fillings or paddings if incorporated in the textile fiber products for warmth rather than for structural purposes, or if any express or implied representations are made as to their fiber content.

B. Failing to maintain and preserve proper records of fiber content of textile fiber products manufactured by respondents, as required by section 6(a) of the Textile Fiber Products Identification Act and Rule 39 of the regulations promulgated thereunder.

It Is Further Ordered, That respondents Felco Sports Products, Inc., a corporation, Felco Athletic Wear Company, Inc., a corporation, Hatillo Apparel Corporation, a corporation their successors and assigns, and their officers, and Nathan Katz, individually and as an officer of said corporations, and respondents' representatives, agents and employees, directly or through any corporation, subsidiary division or other device, in connection with the introduction, manufacture for introduction into commerce, or the offering for sale, sale, transportation, distribution, delivery for shipment or shipment in commerce, of wool products, as "commerce" and "wool product" are defined in the Wool Products Labeling Act of 1939, do forthwith cease and desist from misbranding such products by:

1. Falsely and deceptively stamping, tagging, labeling, or otherwise identifying such products as to the character or amount of the constituent fibers contained therein.

2. Failing to securely affix to, or place on, each such product a stamp, tag, label, or other means of identification showing in a clear and conspicuous manner each element of information required to be disclosed by section 4(a)(2) of the Wool Products Labeling Act of 1939.

It Is Further Ordered, That respondents Felco Sports Products, Inc., a corporation, Felco Athletic Wear Company, Inc., a corporation, Hatillo Apparel Corporation, a corporation, their successors and assigns, and their officers, and Nathan Katz, individually and as an officer of said corporations, and respondents' representatives, agents and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale or distribution of coats, or other products, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from falsely and deceptively advertising or misrepresenting in any manner, or by any means the character or amount of constituent fibers contained in such products.

It is Further Ordered, That respondents shall publish in their catalogs distributed over the twelve month period from the effective date of this order a retraction on the same pages, or in the same portions of the catalogs as will appear the textile fiber products previously deceptively advertised in the catalogs, or if the previously deceptively advertised textile fiber products do not appear in said catalogs then the retraction shall appear on the same pages or in the same portions of the catalogs as are advertised similar products as that of the previously deceptively advertised textile fiber products, or if no similar products are advertised then in a part or portion of the catalogs of at least equal prominence to the part or section of the catalogs where the deceptively advertised textile fiber products had been previously deceptively advertised, in print of equal size and prominence as that of the original false, misleading and deceptive advertisements; and said retraction shall include a statement that identifies the deceptively advertised fiber products, sets forth that these fiber products were previously misleading and deceptively advertised by the respondents as all wool or as all wool melton, and accurately describes what the true fiber content of these products were at the time they were misleadingly and deceptively advertised.

It Is Further Ordered, That respondents shall send by registered mail a copy of this order to each of their customers who have purchased any of the above misleadingly and deceptively advertised fiber products during the three year period prior to the effective date of this order.

It Is Further Ordered, That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondent, such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of this order.

It Is Further Ordered, That the respondent corporations shall forthwith distribute a copy of this order to each of their operating divisions.

It is Further Ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It Is Further Ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have compiled with this order.

Issued: June 8, 1973.

By the Commission.

[SEAL] CHARLES A. TOBIN, *Secretary.*

[Docket No. 8874o]

PART 13—PROHIBITED TRADE PRACTICES

Corning Glass Works

Subpart—Aiding, assisting and abetting unfair or unlawful act or practice: § 13.290 *Aiding, assisting and abettng unfair or unlawful act or practice;* Subpart—Combining or conspiring: § 13.425 *To enforce or bring about resale price maintenance;* Subpart—Enforcing dealings or payments wrongfully: § 13.1045 *Enforcing dealings or payments wrongfully;* Subpart—Maintaining resale prices: § 13.1115 *Black listing;* § 13.1125 *Combination;* § 13.1130 *Contracts and agreements;* § 13.1145 *Discrimination;* § 13.1145–20 Distributive channels and outlets generally; § 13.1155 *Price schedules and announcements;* § 13.1160 *Refusal to sell.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Corning Glass Works, Corning, New York, Docket 8874o, June 5, 1973]

In the Matter of Corning Glass Works, a corporation.

Order and opinion requiring a Corning, New York manufacturer, advertiser, seller and distributor of Pyrex, Corning Ware, and Corelle Livingware brands of glass household products for food preparation, serving, and storage, among other things, in connection with any fair trade programs of those products to cease illegal price-fixing and refusal-to-deal activities. The respondent is also required to abrogate Wholesaler Fair Trade Contracts where resale is in free trade jurisdictions, and to abrogate fair trade contracts with retailers in signer-only states which were obtained by wholesalers in free trade states subject to the illegal boycott provision.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That, except for Paragraph 1 (p. 3 of the Initial Decision) and that the last two sentences of Paragraph 16 (p. 14), the Findings of Fact contained in the Initial Decision up to and including Paragraph 17 are adopted as Findings of Fact of the Commission as supplemented by the findings and conclusions contained in the accompanying Opinion.

It is further ordered, That the remainder of the Initial Decision, except for Paragraph I of the Conclusions which is hereby adopted, be vacated and the appeal of complaint counsel be granted as to Count II of the complain. Counts III and V are dismissed for the reasons set forth in the accompanying Opinion.

In accordance with the stipulation of the parties filed October 17, 1972, Counts I and IV need not be litigated, but the relief proposed as to these counts, as well as Count II, shall be entered.

Accordingly, the following cease-and-desist order is hereby entered:

Order. I. *It is ordered*, That Respondent, Corning Glass Works, a corporation, directly or indirectly, through its officers, agents, representatives, employees, subsidiaries, successors, licensees, or assigns, or through any reseller or any other corporate or other device, in connection with the manufacturer, advertising, offering for sale, sale, or distribution, in commerce, as "commerce" is defined in the Federal Trade Commission Act, of Pyrex, Corning Ware, and Corelle brand commodities, or of any other commodity which bears, or the label or container of which bears, any other trade-mark, brand, or name owned by Respondent, with respect to which commodity Respondent has now established, or in the future may establish, any fair trade program, shall forthwith cease and desist from:

1. Maintaining or enforcing any existing understanding, contract, or agreement, or entering into, maintaining, or enforcing any future understanding, contract, or agreement, with any reseller located within, or applicable to resales occurring within, any state which is, or henceforth shall become, a free trade state [1]—

(a) Which contains any provision which establishes, is intended to establish, or may be construed by the reseller to establish, any stipulated or minimum price at which resales shall be made; or which contains any circumstance or condition under which any such provision shall become applicable to any resale; or

(b) Which contains any provision which restricts, is intended to restrict, or may be construed by the reseller to restrict, the reseller's right to deal with any customer, whether for subsequent resale or otherwise, in any state; or which otherwise imposes, is intended to impose, or may be construed by the reseller to impose, any qualification, precondition, or other limitation or said right; or which contains any circumstance or condition under which any such provision shall become applicable to any resale.

2. Maintaining or enforcing any existing understanding, contract, or agreement, or entering into, maintaining, or enforcing any future understanding, contract or agreement, with any reseller located within any state which is, or henceforth shall become a free trade state, which requires, is intended to require, or may be construed by the reseller to require, as a precondition to any resale or as a qualification or other limitation on the right to resell, that said reseller—

(a) Obtain from any customer or potential customer in any state any understanding, contract, or agreement by which said customer or potential customer agrees with Respondent to maintain the fair trade price of the commodity to be resold; or

(b) Refuse to deal with any customer or potential customer in any state unless such customer or potential customer has agreed to maintain the fair trade price of the commodity to be resold.

3. (a) Circulating to any free trade state reseller any list ("blacklist") of retailers who have advertised, offered for sale, or sold any of Respondent's fair traded commodities at less than the fair trade prices established therefor, or who have not signed a fair trade contract, or whose retailer contracts have been terminated; or in any other manner communicating the names of such retailers to any free trade state resellers; or (b) taking any other action which is intended to, or which may in fact, prevent or have a tendency to prevent any retailer from obtaining any such commodity: *Provided, however*, That nothing in (b) of this subparagraph 3 shall apply to any action taken by virtue of the breach of a signed contract, lawfully obtained and entered into pursuant to a fair trade law which is valid as of the time of both the breach and the action taken; or to any action taken to enforce any right against a nonsigner created by a fair trade law or provision thereof which is enforceable as of the time of the action taken.

4. Imposing, by refusing to deal, termination, or any other unilateral action, or by contract, combination or conspiracy, any limitation, qualification, or precondition not expressly permitted by sections 5(a)(2) and 5(a)(3) of the Federal Trade Commission Act, on any reseller's right or ability to purchase or sell any fair traded commodity—

(a) Where the purpose or effect thereof is, or is likely to be, adherence to resale prices or any course of conduct established, required, or suggested by Respondent, by any reseller whose resale prices or conduct are not, or cannot be, lawfully controlled by Respondent; or

(b) Where the purpose or effect thereof is, or is likely to be, the unavailability, through normal channels of distribution, of Respondent's commodities to, or any discrimination with respect thereto against, any such reseller due to his failure or unwillingness to adhere to said resale prices or course of conduct.

5. Suggesting, for three (3) years from the date on which this order becomes final, or upon a showing by Respondent pursuant to a petition filed after two (2) years from said date, that price competition in the resale of its goods has been created, any resale price whatsoever, by price list, discount schedule, invoicing procedure, prepricing of commodities or their containers, or by any other means, to any reseller whose resale prices are not or cannot lawfully be controlled by Respondent in the manner prescribed by law and this order.

II. *It is further ordered*, That Respondent, directly or indirectly, through its officers, agents, representatives, employees, subsidiaries, successors, licensees, or assigns, or through any reseller or any other corporate or other device, in connection with the manufacture, advertising, offering for sale, sale, or distribution, in commerce, as "commerce" is defined in the Federal Trade Commission Act, of any commodity, shall forthwith cease and desist from entering into, maintaining, or enforcing any contract, combination or conspiracy which imposes any limitation, qualification, or precondition not expressly permitted by applicable state law and granted immunity by section 5(a)(2) of the Federal Trade Commission Act, on any reseller—

1. Where the purpose or effect thereof is, or is likely to be, adherence to resale prices or any course of conduct established, required, or suggested by Respondent, by any reseller whose resale prices or conduct are not, or cannot be lawfully controller by Respondent; or

2. Where the purpose or effect thereof is, or is likely to be, the unavailability through normal channels of distribution of Respondent's commodities to, or any discrimination with respect thereto against, any such reseller due to his failure or unwillingness to adhere to said resale prices or course of conduct.

III. *It is further ordered*, That Respondent shall:

1. Forthwith upon this order becoming final, mail or deliver, and obtain signed receipts for, copies of this order to—

(a) Every reseller who was either under fair trade contract on March 1, 1971 or who was placed under such contract thereafter, and to whom neither subparagraph 1(b) nor 1(c) of this Paragraph III applies;

(b) Every reseller whose fair trade contract has been terminated by Respondent since January 1, 1966; and

(c) Every reseller whose name has appeared on any blacklist since January 1, 1966.

2. Within sixty (60) days from the date on which this order becomes final, and every three (3) months for a period of two (2) years thereafter, mail or deliver, and obtain signed receipts for, notices, in forms submitted to and approved by the Commission prior to mailing or delivery, which clearly inform—

(a) All resellers in free trade states to whom subparagraph 1(a) of this Paragraph III applies—

(i) That all provisions of their contracts relating to fair trade are (or in the case of subsequent notices, have been) cancelled;

(ii) That such provisions cannot lawfully, nor will they therefore, be enforced;

(iii) That said free trade state resellers may and are encouraged to sell Respondent's goods to any customer at such price as may be individually determined by each such reseller;

(iv) That said free trade state resellers may and are encouraged to sell Respondent's goods to any customer, whether for subsequent resale or otherwise, without restriction or precondition, and irrespective of whether the customer is located within, or may resell the goods within, any fair trade state;

(v) That the exercise by said free trade state resellers of any of their rights previously subject to the fair trade provisions of Respondent's fair trade contracts shall in no way prejudice said resellers' ability

[1] The definitions of terms contained in Part I.A. of the Commission's Opinion in this matter shall apply to this order.

V 38 134 JUL 13 73 XUM

to obtain or to continue to obtain Respondent's merchandise; and

(vi) That any free trade state reseller who believes that Respondent is violating any provision of this order, either directly or indirectly (through its wholesalers or otherwise), should set forth the facts and circumstances believed relevant and submit them to

Assistant Director,
Division of Compliance,
Bureau of Competition,
Federal Trade Commission,
Washington, D.C. 20580

(b) All retailers in signer-only states to whom subparagraph 1(a) of this Paragraph III applies, and whose retailer contracts were submitted by any free trade state wholesaler at a time when the submitting wholesaler's contract with Respondent contained any provision which required said wholesaler to deal only with resellers who had agreed with Respondent to maintain Respondent's fair trade prices—

(i) That all provisions of their retailer contracts relating to fair trade are (or in the case of subsequent notices, have been) cancelled;

(ii) That with respect to all resales of Respondent's goods made since the date on which this order became final, said retailers have been deemed non-signers of Respondent's retailer contracts, and that unless and until any of said retailers re-execute retailer contracts they shall continue to be so deemed;

(iii) That said retailers are under no legal duty to re-enter into such agreements, and that their failure to do so will in no way prejudice said retailers' ability to obtain or to continue to obtain Respondent's merchandise;

(iv) That unless and until said retailers enter into new retailer contracts, said retailers may, and are encouraged to, sell Respondent's merchandise to any customer and at such prices as may be individually determined by each such non-signer retailer;

(v) That no resellers in any free trade state may be required to refuse to deal with any other reseller due to the other reseller's failure or unwillingness to sign any fair trade contract; and that no free trade state wholesaler or retailer is now directly or indirectly required to refuse to deal with any customer in any state; and

(vi) That any non-signer retailer in any signer-only state who places an order for Respondent's goods with any free trade state reseller which is not filled due to the retailer's failure or unwillingness to become a signer of a retailer contract, or due to the retailer's having advertised, offered for sale, or sold such goods at less than the stipulated or minimum fair trade price, should immediately notify Respondent in writing of the name and address of the free trade state reseller so refusing to deal;

(vii) Each of the notices required to be mailed or delivered by this subparagraph 2 shall be accompanied by a list of the names and addresses (arranged by state) of all free trade state wholesalers of Respondent's goods. Said list shall contain a clear and conspicuous statement that all wholesalers listed therein are free to sell to any retailer in any state without qualification, limitation or precondition;

(viii) Upon the voluntary re-execution of a retailer contract pursuant to Paragraph IV. 3. of this order by any retailer to whom this subparagraph 2(b), applies, the further mailing or delivery of notices to said retailer pursuant to this subparagraph shall not be required; and upon such re-execution, said retailer shall be given the notice required by Paragraph IV. 2. of this order.

3. Within sixty (60) days from the date on which, by virtue of any legislative or judicial action, any fair trade state (which is a fair trade state on the date this Order becomes final) becomes a free trade state, and every three (3) months for a period of two (2) years thereafter, mail or deliver, and obtain a signed receipt for, the notices required by subparagraph 2(a) of this Paragraph III.

4. Within sixty (60) days from the date on which this Order becomes final and every month for a period of six (6) months thereafter, mail or deliver, and obtain a signed receipt for, the wholesaler list described in subparagraph 2(b)(vii) of this Paragraph III, and a notice, in a form submitted to and approved by the Commission prior to mailing or delivery, which clearly informs all retailers to whom either subparagraph 1(b) or 1(c) of this Paragraph III applies that they are free to and are encouraged to submit their orders for Respondent's merchandise to any wholesaler of their choosing whose name appears on the accompanying list; that they need not sign any retailer contract in order to obtain such merchandise from any of said wholesalers; that none of Respondent's wholesalers appearing on said list lawfully may be required to refuse to deal with any of said retailers because of their failure or unwillingness to sign a retailer contract or because of any past or future advertising, offering for sale, or sale of Respondent's merchandise at less than the stipulated or minimum fair trade price; and that Respondent should be notified immediately in writing of any listed wholesaler so refusing to deal.

5. Within sixty (60) days from the date on which this order becomes final, mail or deliver, and obtain a signed receipt for, a written offer of reinstatement to—

(a) Any free trade state wholesaler who was terminated by Respondent since January 1, 1966 for failure to comply with the refusal-to-deal provision of his wholesaler contract, and

(b) Any free trade state wholesaler who was terminated by Respondent since January 1, 1966 for failure to comply with the resale price maintenance provision of his wholesaler contract;

and reinstate forthwith, any such wholesaler who within thirty (30) days thereafter requests reinstatement. Said offer of reinstatement shall be accompanied by a copy of this Order and any notice which would have been required to be sent to such wholesaler under subparagraph 2(a) of this Paragraph III had no termination occurred.

6. Immediately upon receipt, take such action as is necessary to ensure correction of all complaints received pursuant to any provision of this Paragraph III, and retain such complaints and records of all corrective action taken thereon for a period of five years from the date on which each complaint is received. Reports of said complaints and of corrective action shall be included in reports to the Commission required by Paragraph VI. 1. of this order.

IV. *It is further ordered,* That Respondent shall:

1. Fully acquaint all appropriate present and future personnel with the provisions and requirements of this Order.

2. Mail or deliver to all future resellers, and obtain a signed receipt for, a copy of this order, together with an appropriate notice in a form submitted to and approved by the Commission prior to its use explaining the limitations hereby imposed on Respondent's resale price maintenance programs and contracts.

3. Revise the fair trade provisions of its wholesaler and retailer contracts to conform with the requirements and intent of this order and submit said revised contracts to and obtain the approval of the Commission prior to their use; and neither execute nor obtain the execution of any new fair trade contract or provision thereof which is required to be cancelled by this order on any contract or form which has not been submitted to and approved by the Commission pursuant to this subparagraph. 3. In no event, however, shall any new fair trade agreement be obtained by or on behalf of Respondent from any signer-only state retailer to whom subparagraph 2(b) of Paragraph III applies, before thirty (30) days following the second mailing or delivery of notices required by said subparagraph.

V. *It is further ordered,* That except as may be required by Paragraph III.2 (b) and 3, this order shall not be construed to apply to any provision of any fair trade contract which Respondent now has or may enter into with resellers located in states which were or are at the time of the making of such contract fair trade states, which requires said resellers to refuse to deal with non-signer retailers in any fair trade state, or which requires said resellers to enter into or obtain resale price maintenance agreements with their vendee retailers in fair trade states as a precondition to resales to said retailers: *Provided, however,* That nothing in this order shall be construed to permit Respondent to engage in any conduct prohibited by, or otherwise relieve Respondent of any of its obligations under, any of the Antitrust Acts, the Federal Trade Commission Act, or any State law, now or hereafter in effect as such Acts and State laws have been or may be enacted, amended, repealed or construed.

VI. *It is further ordered,* That Respondent shall:

1. Within sixty (60) days from the date on which this order becomes final, and annually each year for a period of five (5) years thereafter, submit to the Commission a written report setting forth in full detail the manner in which Respondent is complying with each requirement of this order, accompanied by such documents, forms, contracts, receipts, or other material as is necessary to constitute proof that Respondent is in full and faithful compliance herewith.

2. Notify the Commission at least ninety (90) days in advance of any proposed change in its method of sale or distribution of fair traded commodities or in its contracts or agreements relating thereto.

3. Notify the Commission at least thirty (30) days prior to any proposed change in the corporation such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of this Order.

4. Retain all receipts required to be obtained by this order for a period of five (5) years from the date of each said receipt.

Issued: June 5, 1973.

By direction of the Commission.[1]

[Docket No. C-2412]

PART 13—PROHIBITED TRADE PRACTICES

Ladzin Novelty Co., Inc., and Seymour Ladzin

Subpart—Importing, manufacturing, selling or transporting flammable wear: § 13.1060 *Importing, manufacturing, selling or transporting flammable wear.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 67 Stat. 111, as amended; 15 U.S.C. 45, 1191) [Cease and desist order, Ladzin Novelty Co., Inc., et al., New York, N.Y., Docket No. C-2412, June 4, 1973]

In the matter of Ladzin Novelty Co., Inc., a Corporation, and Seymour Ladzin, Individually and as an Officer of said Corporation

Consent order prohibiting a New York City manufacturer and distributor of feather fabrics from marketing products which fail to conform to an applicable standard of flammability or regulation established, amended, or continued in effect pursuant to the provisions of the Flammable Fabrics Act, as amended.

[1] Statement filed as part of the original document.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondent Ladzin Novelty Co., Inc., a corporation, its successors and assigns and its officers, and Seymour Ladzin, individually and as an officer of said corporation, and respondents' agents, representatives and employees directly or through any corporation, subsidiary, division or other device, do forthwith cease and desist from the importation, manufacture for sale, sale, offering for sale, shipment, distribution, transportation, or causing to be transported of feather fabrics or any other similar feather products of a highly flammable nature, in commerce, as "commerce" is defined in the Federal Trade Commission Act, unless such feather fabrics or other similar feather products conform to the Commercial Standard promulgated by the Secretary of Commerce effective January 30, 1954, and identified as "Flammability of Clothing Textiles, Commercial Standard 191–53" when tested under the conditions and in the manner prescribed by such Standard except that the position of the stop cord described in Paragraph 4.2.7 of the Standard shall be modified by raising said stop cord 1.5 centimeters above the top of the thread guides used in tests under Commercial Standard 191–53. In the event, however, that respondents import, manufacture for sale, sell, offer for sale, ship, distribute, and transport or cause to be transported any product subject to an applicable standard of flammability established, amended, or continued in effect pursuant to the provisions of the Flammable Fabrics Act, as amended, said products must conform to the said applicable standard rather than Commercial Standard 191–53 as modified.

It is further ordered, That respondents notify all of their customers who have purchased or to whom have been delivered the products which gave rise to this complaint, of the flammable nature of said products and effect the recall of said products from such customers.

It is further ordered, That the respondents herein either process the products which gave rise to the complaint so as to bring them into conformance with the first paragraph of this Order, or destroy said products.

It is further ordered, That respondents herein shall, within ten (10) days after service upon them of this Order, file with the Commission a special report in writing setting forth the respondents' intentions as to compliance with this Order. This special report shall also advise the Commission fully and specifically concerning (1) the identity of the products which gave rise to the complaint, (2) the identity of the purchasers of said products, (3) the amount of said products on hand and in the channels of commerce, (4) any action taken and any further actions proposed to be taken to notify customers of the flammability of said products and effect the recall of said products from customers, and of the results thereof, (5) any disposition of said products since April, 1970 and (6) any action taken or proposed to be taken to bring said products into conformance with the first paragraph of this order, or to destroy said products, and the results of such action. Respondents will submit with their report samples of not less than six feet in length of each color and style of their current inventory of feather fabrics.

It is further ordered, That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may effect compliance obligations arising out of the order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered. That the respondents herein shall within sixty (60) days after service upon them of this Order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: June 4, 1973.

By the Commission.

deceptive inducements, to purchase or deal: § 13.1980 *Guarantee, in general.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Francis Ford, Inc., et al., Portland, Oregon, Docket C-2409, May 29, 1973]

In the Matter of Francis Ford, Inc., a corporation, and William T. Murphree, and C. Edwin Francis, individually and as officers of said corporation.

Consent order requiring a Portland, Oregon automobile dealership, among other things to cease representing that its Lifetime Warranty is free; misrepresenting their guarantees; misrepresenting used motor vehicles as new; misrepresenting the particular accessories, equipment or features available on sale priced new motor vehicles; failing to refund deposits; and preparing final contracts in different terms than agreed to by the customer.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It Is Ordered, That respondents Francis Ford, Inc., a corporation, its successors and assigns, and its officers, and William T. Murphree and C. Edwin Francis, individually and as officers, and respondents' agents, representatives, and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the advertising, offering for sale, sale or distribution of automobiles, pickup trucks or other products, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist, orally or in any other manner, directly or by implication, from:

1. Representing that respondents' Lifetime Warranty or any other new car warranty offered in addition to the manufacturer's warranty is free;

2. Representing that any of respondents' motor vehicles are guaranteed unless the nature and extent of the guarantee, the identity of the guarantor, and the manner in which the guarantor will perform thereunder are clearly and conspicuously disclosed in immediate conjunction therewith; provided that this inhibition shall not apply to advertisements which merely advise the availability of a manufacturer's new car warranty;

3. Failing to clearly and conspicuously disclose that a used motor vehicle available for sale at a specified price is not new; representing that a used motor vehicle is new;

4. Representing that a new motor vehicle available for sale at a specified price possesses particular accessories, equipment, or features for the specified price when such motor vehicle is not so equipped for the specified price;

5. Failing to clearly and conspicuously disclose that a new motor vehicle of a particular type or description advertised for sale at a specified price is a one-of-a-kind item; failing to disclose respondents' inventory stock number for such motor vehicle;

It Is Further Ordered, That respondents forthwith cease and desist from:

1. Failing to return the prospective customer's deposit immediately upon his request, if requested prior to consummation of the sale;

2. Failing to provide a prospective customer with a receipt or written notice at the time he makes a deposit. The following statement shall be included on the face of said receipt or written notice in clear and conspicuous terms:

NOTICE

This deposit does not consummate a sale or obligate you to purchase an automobile from Francis Ford. In the event you decide not to purchase from Francis Ford, you are entitled to an immediate refund of your deposit.

It Is Further Ordered, That respondents forthwith cease and desist from preparing the final retail installment contract in terms different from those previously agreed to by the customer; or misrepresenting, in any manner, either before or after the consummation of the sale, the amount of the sale price or trade-in allowance or the amount of finance charge to be imposed in a related credit transaction.

It Is Further Ordered, That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in the offering for sale or sale of any product, or in any aspect of preparation, creation, or placing of advertising, and that respondents secure a signed statement acknowledging the receipt of said order from each such person.

It Is Further Ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent, such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of this order.

It Is Further Ordered, That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment, provided that with respect to C. Edwin Francis, notification shall only be required if he becomes affiliated with a new automobile dealership or other seller of automobiles. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which they are engaged as well as a description of their duties and responsibilities.

It Is Further Ordered, That respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

Issued: May 29, 1973.

By the Commission.

[Docket Nos. C-1897, C-1898]

PART 13—PROHIBITED TRADE PRACTICES

McDonald's Corp., et al.

(Sec 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 15 U.S.C. 45) [Order reopening proceedings, McDonald's Corporation, et al., D'Arcy Advertising Company, et al., Docket C-1897, Docket C-1898, June 5, 1973] with separate concurring statement by Commissioners Dixon and Jones]

In the Matter of McDonald's Corporation and McDonald's System, Inc., corporations. In the Matter of D'Arcy Advertising Company, a corporation, et al.

Order reopening proceedings, vacating and setting side orders to cease and desist, 78 F.T.C. 606 and 616 (36 F.R. 11,289 and 11,284) and dismissing proceedings against a major chain of hamburger restaurants and its advertising agency which charged them with unfair methods of competition and unfair and deceptive acts and practices in their use of a "sweepstakes" sales promotion device.

The order reopening proceedings, setting aside cease and desist orders and ruling petition to stay, is as follows:

ORDER REOPENING PROCEEDINGS, SETTING ASIDE CEASE AND DESIST ORDERS AND RULING ON PETITION TO STAY

McDonald's Corporation and McDonald's System, Inc. by a petition filed on March 26, 1973, and D'Arcy-MacManus & Masius, Inc., successor to D'Arcy Advertising Company by a petition filed on March 29, 1973, request, pursuant to § 3.72(b)(2) of the Commission's rules of practice, that the Commission reopen these proceedings and set aside the orders to cease and desist against them which have become final.

Respondent D'Arcy-McManus & Masius, Inc., has also filed a petition to stay all further requests for compliance reports pending the Commission's consideration of its petition.

The Acting Director of the Bureau of Consumer Protection and complaint counsel have filed answers to the petitions to reopen. In the answers, it is stated that complaint counsel joins with respondents in urging that the orders to cease and desist be set aside by the Commission.

The two cases have been consolidated by the Commission for the purpose of ruling on the petitions. The basis for the requests to reopen the proceedings and set aside the cease and desist orders is the Commission's action in D. L. Blair Corp., 3 Trade Reg. Rep. ¶ 20,223 (D. 8837, 1973). There, the Commission after the hearing and initial decision by the Administrative Law Judge, concluded that the facts did not demonstrate a violation of section 5 of the Federal Trade Commission Act. Respondents in the instant proceedings were participants in the same activities involved in the D. L. Blair Corp., matter and were initially named in the complaint. The respondents, however, instead of litigating the allegations in the complaint signed consent agreements which resulted in the cease and desist orders.

In view of the decision in the D. L. Blair Corp. matter and the identity of the facts as they relate to respondents, it is determined by the Commission that it is not in the public interest to continue the orders here. Accordingly,

It is ordered, That the proceedings be, and they hereby are, reopened and the orders to cease and desist heretofore entered in these matters be, and they hereby are, vacated and set aside and the proceedings be, and they hereby are, dismissed.

It Is Further Ordered, That the petition by respondent D'Arcy-MacManus & Masius, Inc., to stay any further requests to file compliance reports is dismissed as moot.

Issued: June 5, 1973.

By the Commission.[1]

[Docket No. 8779]

PART 13—PROHIBITED TRADE PRACTICES

Papercraft Corp.

Subpart—Acquiring corporate stock or assets: § 13.5 *Acquiring corporate stock or assets.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 7, 38 Stat. 731, as amended; 15 U.S.C. 18) [Modified order, The Papercraft Corporation, Pittsburgh, Penn., Docket 8779, June 6, 1973]

In the Matter of The Papercraft Corporation, a Corporation

Order modifying an earlier order dated June 30, 1971, 36 FR 15662, 78 F.T.C. 1352, as modified September 9, 1971, 70 F.T.C. 420, which required a major manufacturer and distributor of gift wrapping paper and ribbons with headquarters in Pittsburgh, Penn., to divest itself of an acquired gift wrapping firm, by deleting Paragraph IX of the modified order which prohibited the divesting company from selling to any direct customers of the divested company for a three-year period.

[1] Commissioners Dixon and Jones concurring and issuing a statement, which is filed as part of the original document.

The modified order to cease and desist, including further order requiring report of compliance, is as follows:

Respondent having filed in the United States Court of Appeals for the Seventh Circuit a petition to review the order to cease and desist issued herein on June 30, 1971, and modified by the Commission on September 9, 1971; and the Court on January 25, 1973, having rendered its decision, and on February 22, 1973, having entered its final order affirming and enforcing the Commission's order with modification by the deletion of paragraph IX; and the time in which to file a petition for certiorari having expired without either party having filed such a petition;

Now therefore, it is ordered, That the aforesaid order to cease and desist be modified, in accordance with said final order of the Court of Appeals, to read as follows:

I. *It Is Ordered*, That respondent, The Papercraft Corporation, a corporation, and its officers, directors, agents, representatives, employees, subsidiaries, affiliates, successors and assigns, within six (6) months from the date of service upon it of this order, shall divest, absolutely and in good faith, subject to the approval of the Federal Trade Commission, all assets, properties, rights and privileges, tangible and intangible, including, but not limited to, all plants, equipment, machinery, inventory, customer lists, trade names, trademarks and goodwill, acquired by The Papercraft Corporation as a result of its acquisition of CPS Industries, Inc., together with all additions and improvements thereto, of whatever description, made since the acquisition.

II. *It is further ordered*, That none of the assets, properties, rights or privileges described in paragraph I of this Order shall by such divestiture be transferred, directly or indirectly, to any person who is at the time of the divestiture an officer, director, employee, or agent of, or under the control or direction of, respondent or any of respondent's subsidiary or affiliated corporations, or owns or controls, directly or indirectly, more than one (1) percent of the outstanding shares of The Papercraft Corporation, or to anyone who is not approved in advance by the Federal Trade Commission.

III. If respondent divests the assets, properties, rights and privileges, described in paragraph I of this Order, to a new corporation or corporations, the stock of each of which is wholly owned by The Papercraft Corporation, and if respondent then distributes all of the stock in said corporation or corporations to the stockholders of The Papercraft Corporation, in proportion to their holdings of The Papercraft Corporation stock, then paragraph II of this order shall be inapplicable, and the following paragraphs IV and V shall take force and effect in its stead.

IV. No person who is an officer, director, or executive employee of The Papercraft Corporation, or who owns or controls, directly or indirectly, more than one (1) percent of the stock of The Papercraft Corporation, shall be an officer, director or executive employee of any new corporation or corporations described in paragraph III, or shall own or control, directly or indirectly, more than one (1) percent of the stock of any new corporation or corporations described in paragraph III.

V. Any person who must sell or dispose of a stock interest in The Papercraft Corporation or the new corporation or corporations, described in paragraph III, in order to comply with paragraph IV of this Order may do so within six (6) months after the date on which distribution of the stock of the said corporation or corporations is made to stockholders of The Papercraft Corporation.

VI. *It Is Further Ordered*, That no method, plan or agreement of divestiture to comply with this Order shall be adopted or implemented by respondent save upon such terms and conditions as shall first be approved by the Federal Trade Commission.

VII. *It Is Further Ordered*, That pending divestiture, respondent shall not make or permit any deterioration in any of the plants, machinery, buildings, equipment or other property or assets of the company to be divested which may impair its present capacity or market value, unless such capacity or value is restored prior to divestiture.

VIII. *It Is Further Ordered*, That for a period of ten (10) years from the date of service of this Order upon it respondent shall not acquire, directly or indirectly, through subsidiaries, joint ventures or otherwise, without the prior approval of the Federal Trade Commission, the whole or any part of the stock, share capital or assets of any concern engaged in the manufacture, production, sale or distribution of any decorative gift wrap product, nor shall respondent enter into any arrangement with any such concern by which respondent obtains the market share, in whole or in part, of such concern.

IX. As used in this Order, the acquisition of assets includes any arrangement by The Papercraft Corporation with any other party, pursuant to which such other party discontinues manufacturing any of the products described in paragraph VIII of this Order under a brand name or label owned by such other party and thereafter distributes any of said products under any of Papercraft's brand names or labels.

X. As used in this order, the word "person" shall include all members of the immediate family of the individual specified and shall include corporations, partnerships, associations and other legal entities as well as natural persons.

Issued: June 6, 1973.

By the Commission.

PART 13—PROHIBITED TRADE PRACTICES

Russ Vento Chevrolet, Inc., et al.

Subpart—Advertising falsely or misleadingly: § 13.73 *Formal regulatory and statutory requirements;* 13.73–92 Truth in Lending Act; § 13.155 *Prices;* 13.155–95 Terms and conditions; 13.155–95(a) Truth in Lending Act; Subpart—Misrepresenting oneself and goods—Goods: § 13.1623 *Formal regulatory and statutory requirements;* 13.1623–95 Truth in Lending Act; Subpart—Misrepresenting oneself and goods—Prices: § 13.1823 *Terms and conditions;* 13.1823–20 Truth in Lending Act: Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements;* 13.1852–75 Truth in Lending Act; § 13.1905 *Terms and conditions;* 13.1905–60 Truth in Lending Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 82 Stat. 146, 147; 15 U.S.C. 45, 1601–1605) [Cease and desist order, Russ Vento Chevrolet, Inc., Denver, Colorado, Docket C-2410, May 31, 1973]

In the Matter of Russ Vento Chevrolet, Inc., a corporation, and Russ Vento, individually and as an officer of said corporation, and Robert J. Hall, individually and as general sales manager of said corporation.

Consent order requiring a Denver, Colorado, new and used car and motor home vehicle dealer, among other things to cease violating the Truth in Lending Act by failing to disclose to consumers, in connection with the extension of consumer credit, such information as required by Regulation Z of the said Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondent Russ Vento Chevrolet, Inc., a corporation, and its officers, and Russ Vento, individually and as an officer of said corporation, and Robert J. Hall, individually and as general sales manager of said corporation, trading under said corporate name or under any trade name or names, their successors and assigns, and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the arrangement, extension, or advertisement of consumer credit in connection with the sale of automobiles, motor homes, campers, travel trailers, or other products or services, as "advertisement" and "consumer credit" are defined in regulation Z (12 CFR Part 226) of the Truth in Lending Act (P.L. 90–321, 15 U.S.C. 1601 *et seq.*), do forthwith cease and desist from:

1. Representing, directly or by implication, in any advertisement, as "advertisement" is defined in regulation Z, the amount of the downpayment required or that no downpayment is required, the amount of any installment payment, the dollar amount of any finance charge, the number of installments or the period of repayment, or that there is no charge for credit, unless all of the following items are stated in terminology prescribed under § 226.8 of Regulation Z:

a. The cash price;

b. The amount of the downpayment required or that no downpayment is required, as applicable;

c. The number, amount, and due dates or period of payments scheduled to repay the indebtedness if the credit is extended;

d. The amount of the finance charge expressed as an annual percentage rate, and

e. The deferred payment price.

2. Failing to print the term "annual percentage rate" more conspicuously than other terminology required by Regulation Z, when that term is required to be used by Regulation Z.

3. Failing, in any consumer credit transaction or advertisement, to make all the disclosures determined in accordance with §§ 226.4 and 226.5 of Regulation Z, in the manner, form and amount required by §§ 226.6, 226.7, 226.8, 226.9 and 226.10 of Regulation Z.

4. Failing to deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in any aspect of preparation, creation, and placing of advertising, all persons engaged in reviewing the legal sufficiency of advertising, and all present and future agencies engaged in preparation, creation, and placing of advertising on behalf of respondents, and failing to secure from each such person or agency a signed statement acknowledging receipt of said order.

It Is Further Ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of the order.

It Is Further Ordered, That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which they are engaged as well as a description of their duties and responsibilities.

It Is Further Ordered, That respondents shall, within sixty (60) days after service upon them of this order, file, individually, with the Commission, a report in writing, setting forth in detail the manner and form in which each of them has complied with this order.

Issued: May 31, 1973.

PART 13—PROHIBITED TRADE PRACTICES

Sales Marketing Services, Inc., et al.

Subpart—Discriminating in price under Sec. 2, Clayton Act—payment or acceptance of commission, brokerage or other compensation: § 13.800 *Buyer's agents;* § 13.810 *Buyer's corporate or other agent;* § 13.820 *Direct buyers.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 2, 49, Stat. 1526; 15 U.S.C. 13) [Cease and desist order, Sales Marketing Services, Inc., et al., New Orleans, La., Docket C-2411, May 31, 1973]

In the Matter of Sales Marketing Services, Inc., a corporation, Nat Friedler and Richard B. Kaufman, Sr., individually and as officers of Sales Marketing Services, Inc., Kitchenaides, Inc. a corporation, Nat Friedler and Richard B. Kaufman, Sr., individually and as officers of Kitchenaides, Inc.

Consent order prohibiting a broker of nonfood grocery products and a wholesaler of these items in New Orleans, La., from receiving unlawful brokerage payments.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It Is Ordered, That respondents Sales Marketing Services, Inc., a corporation, its successors and assigns, and its officers and Nat Friedler and Richard B. Kaufman, Sr., individually and as officers of Sales Marketing Services, Inc., and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division, or other device, in or in connection with the purchase or sale of nonfood products in commerce, as "commerce" is defined in the Clayton Act, do forthwith cease and desist from:

Receiving or accepting, directly or indirectly, from any seller, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, upon or in connection with any purchase of nonfood products for respondents' own account or where respondents are the agent, representative or intermediary acting for, or in behalf of, or subject to the direct or indirect control of, any buyer.

It Is Further Ordered, That Kitchenaides, Inc., a corporation, its successors and assigns, and its officers and Nat Friedler and Richard B. Kaufman, Sr., individually and as officers of Kitchenaides, Inc., and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division, or other device, in or in connection with the purchase or sale of nonfood products in commerce, as "commerce" is defined in the Clayton Act, as amended, do forthwith cease and desist from:

1. Receiving or accepting, directly or indirectly, anything of value from Sales Marketing Services, Inc., or any other broker, in connection with the purchase of nonfood products, when such broker, agent, representative or intermediary is receiving or accepting anything of value as a commission, brokerage or other compensation, or any allowance or discount in lieu thereof from the seller while acting for or in behalf of or subject to the direct or indirect control of the respondents.

2. Receiving or accepting, directly or indirectly, from any seller, anything of value as a commission, brokerage or other compensation, or any allowance or discount in lieu thereof, upon or in connection with any purchase of nonfood products for respondents' own account.

It Is Further Ordered, That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondents such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporations which may affect compliance obligations arising out of the order.

It Is Further Ordered, That the respondent corporations shall forthwith distribute a copy of this order to each of their operating divisions.

It Is Further Ordered, That the respondents herein shall, within sixty (60) days after service upon them, of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: May 31, 1973.

PART 13—PROHIBITED TRADE PRACTICES

Sonotone Corp.

Subpart—Dealing on exclusive and tying basis: § 13.670 *Dealing on exclusive and tying basis;* 13.670–20 Federal Trade Commission Act; Subpart—Delaying or withholding corrections, adjustments or action owed: § 13.675 *Delaying or withholding corrections, adjustments or action owed;* § 13.677 *Delaying or failing to deliver goods;* Subpart—Enforcing dealings or payments wrongfully; § 13.1045 *Enforcing dealings or payments wrongfully;* Subpart—Maintaining resale prices: § 13.1130 *Contracts and agreements;* § 13.1155 *Price schedules and announcements;* § 13.1160 *Refusal to sell.*

(Sec. 6, Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Sonotone Corporation, Elmsford, New York, Docket C-2414, June 19, 1973]

In the Matter of Sonotone Corporation, a corporation.

Consent order requiring an Elmsford, New York, manufacturer, distributor, and repairer of hearing aids, among other things to cease imposing customer and territorial restrictions and exclusive dealing requirements on its dealers; price-fixing activities; requiring its dealers to furnish names and addresses of customers; and failing to include and deliver any express product warranty.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

I. *It is ordered,* That respondent Sonotone Corporation, and its subsidiaries, divisions, affiliates, successors, assigns, officers, directors, agents, representatives and employees, directly or indirectly, or through any corporate or other device, in connection with the manufacturing, distribution, advertising, offering for sale, sale or repair of its own brand name or trademark hearing aids, or related products, in commerce as "commerce" is defined in the Federal Trade Commission Act, shall forthwith cease and desist from:

1. Entering into, maintaining, preserving, or enforcing by refusal to sell or repair, setting of sales quota or equivalent thereof, termination or threat thereof, communicated expectation or request, or in any other manner, any arrangement or method of doing business with a dealer of hearing aids and/or accessories which has the purpose or effect of precluding or preventing a dealer from selling the product of one or more other hearing aid manufacturers;

2. Refusing to make available promptly upon request

(a) A hearing aid, accessory or any written materials necessary to fit and sell such hearing aid or accessory, to any dealer engaged in the sale of hearing aids, if respondent makes such products available to any other dealer located within 100 miles of the requesting dealer, or

(b) A repair or replacement part or any written materials necessary to repair or replace such hearing aid, to any person engaged in the repair of hearing aids when requested for such purpose, if respondent makes repair or replacement parts available to any dealer for such purpose;

Provided, however, That if no other provision of this Order is violated thereby:

(1) Respondent may require as a condition to the availability directly from it of any of its products that the dealer or person referred to in 2(a) or (b) above has received instruction or met standards necessary for the fitting, servicing and/or repairing of respondent's hearing aids which are required at that time of all then existing dealers of respondent's products or all persons then engaged in the repair of respondent's products, so long as such instruction, if made available to any dealer or person, is made available by respondent on reasonable terms and conditions to all dealers or persons wanting to deal in or repair respondent's product,

(2) Respondent may refuse to make available directly from it any of its products to any dealer or person if such requesting dealer or person is able promptly to obtain the product from another dealer or distributor at respondent's price to dealers for a single unit plus a reasonable handling charge, and

(3) Respondent may refuse to make available directly from it any of its products to any dealer or person on other grounds related to that dealer's or person's professional competence or ethical conduct, so long as such refusals are uniformly made where such grounds exist;

3. Entering into, maintaining, preserving, or enforcing, by refusal to sell or repair, setting of sales quota or equivalent thereof, termination or threat thereof, communicated expectation or request, report of sale, warranty limitation, use of names or addresses of a dealer's customers, or in any other manner, any arrangement or method of doing business which has the purpose or effect of restricting or limiting

(a) The territory or area in which a dealer of respondent's hearing aids advertises, offers for sale, sells or repairs such products, or

(b) The persons with whom a dealer of respondent's hearing aids deals;

4. Failing to return any hearing aid submitted to respondent for repair directly to the person who submitted such product for repair, unless otherwise instructed in writing by such person;

5. Fixing, establishing, stabilizing, maintaining or suggesting the prices at which a dealer of respondent's hearing aids may or shall advertise, offer for sale, or sell to the public, or a person repairing respondent's hearing aid may repair, such products: *Provided, however,* That nothing in this Order shall prohibit respondent after ten years from the date of entry of this Order from exercising any lawful rights it may then have under the Miller-Tydings Act, 50 Stat. 693 (1937) and the McGuire Act, 66 Stat. 632 (1952) with respect to hearing aids;

6. Requiring that a dealer participating in respondent's cooperative advertising program must not state or imply, in such cooperative advertisements, that the dealer also deals in other brands of hearing aids: *Provided, however,* That respondent may continue to prohibit in such cooperative advertisement the stating of other brand names of hearing aids;

7. Requiring that a dealer of the respondent's hearing aids submit to respondent any name or address of any customer of such dealer, or maintaining, using, publishing or disseminating for any purpose any name or address of any customer of a dealer of the respondent's hearing aids obtained from such dealer after the date of this order without securing a prior written consent of such dealer for such purpose;

8. Preventing any dealer from using respondent's product (brand) name in connection with the advertising, offering for sale, sale or repair of any of respondent's products, except that respondent may protect its rights in such name recognized at law;

V 38-134 JUL 13 73 XUM

9. Failing to include and deliver with any of respondent's hearing aids sold by respondent any express product warranty for such product provided by respondent to the user.

II. *It Is Further Ordered*, That respondent shall:

(a) Forthwith distribute a copy of this order to each of its operating divisions, to its present corporate officers and to its present sales and repair personnel, and shall secure from each such officer, employee or other person, a signed statement acknowledging receipt of said order;

(b) Within thirty (30) days after service upon it of this Order, distribute a copy of the letter appended to this Order and made a part hereof as Appendix A to each of its existing hearing aid dealers and to every person known to be engaged in the repair of respondent's products;

(c) Within sixty (60) days after service upon it of this Order, place a full-page advertisement in a trade journal or publication with circulation among hearing aid dealers, which advertisement shall clearly and conspicuously disclose the provisions of Part I of this Order;

(d) Within one hundred and twenty (120) days after service upon it of this Order, file with the Commission a report, in writing, setting forth in detail the manner and form in which it has complied with this order, including a list of all dealers and other persons on whom it has served a copy of Appendix A, and a copy of the publication which includes respondent's advertisement required by this Order;

(e) For a period of ten (10) years from the date hereof establish and maintain a file of all records referring or relating to respondent's refusal to sell to any hearing aid dealer, or person engaged in the business of repairing hearing aids, which file must contain a record of a communication to such dealers or persons explaining respondent's refusal to sell, and which file will be made available for Commission inspection on reasonable notice and annually, for a period of five (5) years from the date hereof, submit a report to the Commission listing the names of all dealers or persons with whom respondent has refused to deal over the preceding year, a description of the reason for the refusal, and the date of the refusal;

(f) Notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, or any other change in the corporation which may affect compliance obligations arising out of this Order.

Issued: June 19, 1973.

By the Commission.

[SEAL] CHARLES A. TOBIN,
Secretary.

APPENDIX A

(LETTER TO HEARING AID DEALERS)

(Official Stationery of Sonotone Corporation)

Dear

Sonotone Corporation has entered into a consent order agreement with the Federal Trade Commission which obligates the company not to impose various restrictions upon dealers or to engage in certain other practices. This agreement is for settlement purposes only and does not constitute an admission by the company that it has engaged in any unlawful conduct.

A copy of the pertinent provisions of the consent order is enclosed for your careful examination. If in the future you believe that any of its terms have been violated, the details may be reported in writing to:

Federal Trade Commission,
Bureau of Competition,
Washington, D.C. 20580

Under the consent order Sonotone can, and expects to, continue to deal with you as the dealer in your area to whom we look for effective sales, service and promotion of our products. In addition, we invite you to serve as a distributor of Sonotone products to other hearing aid dealers. Under the consent order, Sonotone is obliged to sell directly to other qualified dealers only if they are unable to purchase Sonotone products from a dealer such as yourself promptly and at a price which does not exceed Sonotone's price to dealers for a single unit plus a reasonable handling charge.[1]

We look forward to continuing our association with you consistent with the letter and spirit of the consent order agreement.

Very truly yours,

(Name),
President,
Sonotone Corporation.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Louisiana Plan

On May 31, 1972 (37 FR 10842), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved, with specified exceptions, State plans for implementation of the national ambient air quality standards. That portion of the Louisiana State Implementation Plan that applies to the review of new sources and modifications was not approved. The plan did not contain legally enforceable procedures to prevent construction or modification of a source which would interfere with attainment or maintenance of the national standards as required by 40 CFR 51.18. Thus, Federal regulations were proposed on June 14, 1972 (37 FR 11826) and promulgated on October 28, 1972 (37 FR 23085) to correct this deficiency. On April 17, 1973, Louisiana held a public hearing and adopted a regulation to meet the requirements of 40 CFR 51.18. This information was submitted to EPA by Governor Edwards on April 25, 1973. The Administrator has determined that the supplemental submission meets the requirements of 40 CFR 51.18; thus, the previous disapproval is revoked below.

This approval action is effective on July 13, 1973. The agency finds that good cause exists for not publishing the actions as a notice of proposed rulemaking and for making them effective immediately upon publication for the following reasons:

1. The implementation plan provisions were adopted in accordance with procedural requirements of State and Federal law, which provided for adequate public participation through notice and public hearings and comments, and further participation is unnecessary and impracticable.

2. Immediate effectiveness of the actions enable the sources involved to proceed with certainty in conducting their affairs, and persons wishing to seek judicial review of the actions may do so without delay.

(42 U.S.C. 1857c-5)

Dated: July 10, 1973.

ROBERT W. FRI,
Acting Administrator,
Environmental Protection Agency.

Subpart T—Louisiana

1. In § 52.970, paragraph (c) is revised to read as follows:

§ 52.970 Identification of plan.

* * * * * * *

(c) Supplemental information was submitted on:

(1) February 28, and May 8, 1972, by the Louisiana Air Control Commission, and

(2) July 17, 1972, April 25, 1973.

§ 52.976 [Revoked]

2. Section 52.976 is revoked.

SUBCHAPTER E—PESTICIDE PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Carbaryl

Correction

In FR Doc. 73-13026 appearing at page 17003 in the issue of Thursday, June 28, 1973, in the second complete paragraph in the third column, the last five lines should read as follows: "5 parts per million in or on filberts (hazelnuts) * * *" and (2) by adding a new paragraph after the paragraph "5 parts per million in or on corn * * *" as follows:".

[1] The foregoing paragraph may be omitted at respondent's option.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-168]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

[Docket No. FI-170]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding, a purpose which is accomplished pursuant to statute by denying subsidized flood insurance to structures thereafter built within such areas. The practice of issuing proposed identifications for comment or of delaying effective dates would tend to frustrate this purpose by permitting imprudent or unscrupulous builders to start construction within such hazardous areas before the official identification became final, thus increasing the communities' aggregate exposure to loss of life and property and the agency's financial exposure to flood losses, both of which are contrary to the statutory purposes of the program. Accordingly, the Department is not providing for public comment in issuing this amendment and it will become effective on July 13, 1973. Section 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

Title 39—Postal Service

CHAPTER I—U.S. POSTAL SERVICE

PART 126—MAIL ADDRESSED TO MILITARY POST OFFICES OVERSEAS

Miscellaneous Amendments

Regulations as to mail addressed to military post offices overseas are amended to reflect increased weight limits for SAM (space available mail) and airlift service for certain second class publications mailed outside the 48 contiguous states. In addition, a roster of military post offices is amended to reflect openings and closings as well as changes in the conditions applicable to mail addressed thereto.

Accordingly, the following amendments are effective on July 13, 1973.

1. Paragraph (e)(2) and (4) of § 126.1 is amended to read as follows:

§ 126.1 Preparation and mailing.

* * * * * *

(e) * * *

(2) Parcels of any class paid at surface postage rates not exceeding the weight and size limits in (e)(2)(i) and (ii) of this section are airlifted to, from or between overseas military post offices outside the 48 contiguous States. These parcels must be marked with the large letters SAM (space available mail) on the address side, preferably below the postage and above the name of the addressee. Postal employees will place these letters on all such parcels at the time of acceptance.

(i) When mailed from the 48 contiguous States, the weight and size limits are not more than 15 pounds in weight and not more than 60 inches in length and girth combined.

(ii) When mailed from an APO or FPO outside the 48 contiguous States, the weight and size limits are not more than 70 pounds in weight and not more than 100 inches in length and girth combined.

* * * * * *

(4) Second class publications published once each week or more frequently and featuring principally current news of interest to members of the Armed Forces and the general public, which are mailed at or addressed to any Armed Forces post office outside the 48 contiguous States, will be given the airlift service provided in paragraph (e)(2) or this section.

3. Section 126.2 is amended to read as follows:

126.2 CONDITIONS PRESCRIBED BY THE DEFENSE DEPARTMENT APPLICABLE TO MAIL ADDRESSED TO CERTAIN MILITARY POST OFFICES OVERSEAS

FOOTNOTES

A. No mail of any class may contain securities or currency. Precious metals in their raw, unmanufactured state are also prohibited. Official shipments are exempt from these restrictions.

B. Customs Declaration form required, except that prepaid mail from a contractor, addressed to a military post office, may bear a Customs Declaration (Form 2966) but must be endorsed "Contents For Official Use—Exempt from Customs Regulations." Official mail from Government agencies DOES NOT require customs declaration or exemption endorsement.

C. Parcels are liable for customs duty and/or purchase tax unless they are bona fide gifts, personal use intended for military personnel or their dependents. With respect to a parcel meet these requirements, the mailer should place a certificate similar to the following on the customs form under the heading—"Description of Contents": "Certified to be bona fide gift, personal effects or items for personal use of military personnel and dependents thereof."

D. Cigarettes and other tobacco products prohibited.

E. Coffee prohibited.

F. Mail may not contain: 1. Medicines or vaccines not conforming to French laws. 2. Noxious, filthy articles, and publications prohibited on account of their political character or immoral contents.

G. Mail of all classes may not contain firearms of any type. See definition of firearms in 124.5.

H. No mail of any class may contain privately-owned weapons addressed to an individual.

I. To be printed at a later date.

J. Meats, including preserved meats, whether hermetically sealed or not, are prohibited.

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 2; Amdt. 7-7]

PART 7—PUBLIC AVAILABILITY OF INFORMATION

Document Inspection Facility

The purpose of this amendment to Part 7 is to indicate that records of the Office of the Secretary are available from the Director of Public Affairs (formerly, the Assistant Secretary for Public Affairs), and to describe in greater detail the document inspection facility for the Office of the Secretary.

Since this amendment relates to Departmental management, procedures, and practices, notice and public procedure there on are unnecessary, and it may be made effective in fewer than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, effective on July 13, 1973, Appendix A of Part 7 of Title 49, Code of Federal Regulations, is amended as follows:

1. Paragraph 2 is revised to read as follows:

2. *Document inspection facility.* The document inspection facility for the Office of the Secretary is maintained by the Director of Public Affairs, Room 10106, Nassif Building, 400 Seventh Street, SW., Washington, D.C. This facility is open to the public from 9:00 a.m. to 5:30 p.m. local time, Monday through Friday except Federal holidays.

2. The first clause of paragraph 3 is revised to read as follows:

3. *Records available at the document inspection facility.* The following records are available at the document inspection facility:

• • • • •

3. The first sentence of paragraph 4 is revised to read as follows:

4. *Requests for identifiable records under Subpart E of this part.* Each person desiring to inspect a record, or to obtain a copy thereof, must submit his request in writing to the Director of Public Affairs, Department of Transportation, 400 Seventh Street, SW., Washington, D.C. 20590.

• • • • •

(Sec. 9(e), Department of Transportation Act, 49 U.S.C. 1657(e); sec. 1.59(m) of the regulations, Office of the Secretary of Transportation, 49 CFR 1.59(m))

Issued in Washington, D.C., on July 9, 1973.

JOHN W. BARNUM,
General Counsel.

[FR Doc.73-14285 Filed 7-12-73;8:45 am]

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Fifth Rev. S. O. 1043]

PART 1033—CAR SERVICE

Regulations for Return of Hopper Cars

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 3d day of July, 1973.

It appearing, that an acute shortage of hopper cars exists in certain sections of the country; that shippers are being deprived of hopper cars required for loading coal, resulting in an emergency, forcing curtailment of their operations, and thus creating great economic loss and reduced employment of their personnel; that coal stockpiles of several utility companies are being depleted; that hopper cars, after being unloaded, are being appropriated and being retained in services for which they have not been designated by the car owners; that present regulations and practices with respect to the use, supply, control, movement, distribution, exchange, interchange, and return of hopper cars are ineffective. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1043 Service Order No. 1043.

(a) Regulations for return of hopper cars: Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service:

(1) Exclude from all loading and return to owner empty, either via the reverse of the service route or direct, as agreed to by the owner, all hopper cars owned by the following railroads:

The Baltimore and Ohio Railroad Company
Reporting marks: B&O
Bessemer and Lake Erie Railroad Company
Reporting marks: B&LE.
The Chesapeake and Ohio Railway Company
Reporting marks: C&O
Louisville and Nashville Railroad Company
Reporting marks: L&N, NC, and MON
Norfolk and Western Railway Company
Reporting marks: N&W, NKP, P&WV, VGN, and WAB
Penn Central Transportation Company, George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., Trustees
Reporting marks: PRR, PC, NYC, NH, B&A, BWC, P&E, and TOC
The Pittsburgh and Lake Erie Railroad Company
Reporting marks: P&LE[1]

(2) Carriers named in paragraph (1) above are prohibited from loading all hopper cars foreign to their lines and must return such cars to the owner, either via the reverse of the service route or direct, as agreed to by the owner.

(3) The following companies will be considered as one railroad in the application of paragraphs (a)(1) and (b) of this section: [1]

Penn Central Transportation Company
George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., Trustees
The Pittsburgh and Lake Erie Railroad Company

(b) For the purpose of improving car utilization and the efficiency of railroad operations, or alleviating inequities or hardships, modifications may be authorized by the Chief Transportation Officer of the car owner, or by R. D. Pfahler, Director, Bureau of Operations, Interstate Commerce Commission. Modifications authorized by the car owner must be confirmed in writing to W. H. Van Slyke, Chairman, Car Service Division, Association of American Railroads, Washington, D.C., for submission to, and approval by, R. D. Pfahler.

(c) No common carrier by railroad subject to the Interstate Commerce Act shall accept from shipper any loaded hopper car, described in this order, contrary to the provisions of the order.

(d) The term hopper cars, as used in this order, means freight cars having a mechanical designation "HD", "HM", "HK", or "HT" in the Official Railway Equipment Register, I.C.C. R.E.R. No. 387 issued by W. J. Trezise, or reissues thereof.

(e) Application: The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

[1] Addition.

V 38 I 134 JUL 13 73 XUM

(f) Effective date: This order shall become effective at 12:01 a.m., July 3, 1973.

(g) Expiration date: The provisions of this order shall expire at 11:59 p.m., December 31, 1973, unless otherwise modified, changed or suspended by order of this Commission.

(Secs. 1, 12, 15 and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15 and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2).)

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and per diem agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT S. OSWALD,
Secretary.

[FR Doc.73-14358 Filed 7-12-73;8:45 am]

[Corrected Third Rev. Se. O. 1121]

PART 1033—CAR SERVICE
Demurrage and Free Time at Ports

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 27th day of June 1973.

It appearing, that an acute shortage of covered hopper cars, gondola cars, and boxcars exists throughout the country; that certain carriers are unable to furnish an adequate supply of these cars to shippers located on their lines; that these shortages of covered hopper cars, gondola cars, and boxcars are impeding both the domestic and export movement of agricultural, mineral, forest, and manufactured products and other commodities; that certain existing tariff rules and regulations provide excessive free-time periods for loading or unloading at ports, and demurrage, detention or storage rates at levels below those applicable to domestic freight; that such rules, regulations, and demurrage, detention or storage rates are ineffective in securing prompt release of cars held at the ports. It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1121 Service Order No. 1121.

(a) *Demurrage and free time at ports.* Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service.

(1) *Application.* (i) The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(ii) This order shall apply to all freight cars which are listed in the Official Railway Equipment Register, I.C.C. R.E.R. 387, issued by W. J. Trezise, or successive issues thereof, as having one of the mechanical designations shown on pages 1154 and 1155 under the headings:

Class "X"—Box Car Type—All Class "X" except "XT."
Class "G"—Gondola Car Type—All Class "G" except "GW."
Class "L"—Special Car Type—"LC", "LO", "LU", only.

(iii) This order shall apply to all freight cars described herein which are held by or for shippers, consignees, or their designated agents, at ocean, Great Lakes, or river ports; or at any station outside of such ports because of any condition attributable to the shipper, consignee, or his designated agent, and regardless of whether moved on rates designated as export or as rail-water, or moved on rates also applicable to other traffic.

(iv) Ocean, Great Lakes, or river ports are hereby defined as being any station at which shipments are transferred between rail carriers and water carriers, whether by direct car-vessel transfer or by intermediate handling through a port elevator, wharf, dock, or warehouse capable of both the loading and unloading of rail cars and the loading and unloading of vessels.

(v) Multiple-car shipments are hereby defined as shipments made under tariff provisions specifically requiring the loading of two or more cars in order to qualify for the rate.

(vi) Constructive placement is hereby defined as the holding of a car by the carrier because of the inability of the consignee or shipper to receive it.

(vii) The terms "loading", "unloading", and "forwarding directions" as defined in Demurrage Rule 2, Item 905 of General Car Demurrage Tariff 4–J, I.C.C. H–59, issued by B. B. Maurer, supplements thereto, or reissues thereof, shall apply to cars subject to this order.

(viii) The term "holidays" means holidays as listed in Item 25 of General Car Demurrage Tariff 4–J, I.C.C. H–59, issued by B. B. Maurer, supplements thereto, or reissues thereof.

(ix) Exception: Exceptions to this order may be authorized to carriers by the Railroad Service Board. Request for exceptions must be submitted in writing to R. D. Pfahler, Chairman, Railroad Service Board, Interstate Commerce Commission, Washington, D.C. 20423. Each such request must specifically identify the type of cars for which an exemption is desired and must clearly state the reasons why such cars cannot be utilized in other services.

(x) Exception: This order shall not apply to cars of Mexican ownerships held at Texas Gulf ports.

(xi) Exception: This order shall not apply to emergency relief supplies, other than bulk grain or soybeans, when billed to an agency of the United States Government.

(2) *Free Time.* (i) Not more than a total of 72 hours' free time, excluding Saturdays, Sundays, and holidays, shall be allowed for loading or unloading freight cars described in paragraph (a) (1) (ii) of this section at ocean, Great Lakes, or river ports with freight requiring transfer between rail and water carriers, either direct or though port elevators, wharves, docks, or warehouses.

(ii) When freight cars described in paragraph (a) (1) (ii) of this section are held by rail carriers at any point outside the port because of any condition attributable to the shipper or consignee, the combined total of the free time allowed at the port and at the point where cars are held shall not exceed 72 hours, excluding Saturdays, Sundays, and holidays.

(iii) If the maximum free time authorized in applicable tariffs is less than the 72-hour period described in paragraph (a) (2) (i) of this section, the free-time periods provided in such tariffs shall apply.

(3) *Demurrage, detention, or storage charges—cars not subject to average demurrage basis.*[1] (i) After the expiration of the free-time period described in paragraph (a) (2) of this section, or without free-time allowance when none is provided, demurrage charges shall be assessed at the following rates, until car is released:

$10.00 per car per day, or fraction of a day, for each of the first two days.
$20.00 per car per day, or fraction of a day, for each of the next two days.
$30.00 per car per day, or fraction of a day, for each of the next two days.
$50.00 per car per day, or fraction of a day, for each subsequent day.

(ii) Except as provided in Demurrage Rule 6, Section B of General Car Demurrage Tariff 4–J, I.C.C. H–59, the applicable demurrage charges provided herein will accrue on all Saturdays, Sundays, and holidays subsequent to the free time, or without free time when none is provided, including a Saturday, Sunday, or holiday immediately following the day on which the last day of free time begins, provided such last day of free time begins to run at or before 7:00 a.m. or expires at or before 11:59 p.m., of the day immediately prior to the Saturday, Sunday, or holiday.

(4) *Cars Subject to Average Demurrage Basis.* (i) One credit will be allowed for each car released before the expiration of the first twenty-four (24) hours of free time. After the expiration of the free time (or the adjusted free time if provided in applicable tariffs), one debit per car per day, or fraction of a day, will be charged for each of the first two days. In no case shall more than one credit be allowed on any one car, and in no case shall more than four credits be applied in cancellation of debits accruing on any one car. When a car has accrued two debits, a charge of $20.00 per car per day, or fraction of a day, will be made for each of the next two days, $30.00 per car per day, or fraction of a day, for each of the next two days, and $50.00 per car per day, or fraction of a day, for all subsequent detention. In computing time under this rule, all Saturdays, Sundays, and holidays will be counted after the free time, including a Saturday, Sunday, or holiday immediately following the day on which the last day of free time begins.

[1] Correction.

(ii) Credits earned on cars held for loading shall not be used in offsetting debits accruing on cars held for unloading, nor shall credits earned on cars held for unloading be used in offsetting debits accruing on cars held for loading.

Credits earned on cars loaded and unloaded in intraplant switching service shall not be used to offset debits accruing on cars handled in other services; nor shall credits earned on cars handled in other services be used to offset debits accruing on cars loaded and unloaded in intraplant switching service.

NOTE: The term "intraplant switching service" will be applied as defined in the applicable tariffs, and will include cars of grains, seeds, or soybeans, handled in "set-back service."

(iii) Credits cannot be earned by private cars subject to Rule 1, Section B, Paragraph 4(a) of General Car Demurrage Tariff 4–J, I.C.C. H–59, issued by B. B. Maurer, supplements thereto, or reissues thereof or to similar rules in other tariffs, but debits charged on such cars while under constructive placement may be offset by credits earned on other cars.

(iv) At end of the calendar month the total number of applicable cerdits will be deducted from the total number of debits at the ratio of two credits for one debit, and $10.00 per debit will be charged for the remainder. (See Note.) If the total number of debits are offset by credits through deduction at the above ratio of two credits for one debit, no charge will be made for the detention of the cars except as otherwise provided herein for detention beyond the second debit day, and no payment will be made on account of such excess of credits; nor shall the credits in excess of the debits of any one month be considered in computing the average detention for another month.

NOTE: For the purpose of applying paragraph (a) (4) (iv) of this section, when an odd number of credits is earned, one of such credits will be disregarded in the computation.

(v) Records of detention and computation of demurrage charges on cars subject to this order shall be separate from records of detention and computation of demurrage charges on cars not subject to this order.

(5) If the demurrage, detention, or storage rates authorized in the applicable tariffs are greater than those described herein, such higher rates shall apply.

(6) Existing tariff rules requiring the placement or release, as a unit, of all cars in a multiple-car shipment shall remain in effect.

(7) The demurrage, detention, or storage rates provided herein shall supersede all published storage charges expressed in cents per hundred-weight, per bushel, or other unit of measure, for all freight held at ports in cars in excess of the free-time periods provided herein.

(8) *Notices of arrival, constructive placement, etc.* (i) Existing tariff provisions defining constructive placement and establishing the requirements for the placement, adjustment of run-arounds, the giving of arrival or constructive placement notice on freight destined for unloading or trans-shipment at the ports shall apply.

(ii) If no such rules with respect to arrival, run-around, or constructive placement are published in the applicable tariffs, the rules published in General Car Demurrage Tariff 4–J, I.C.C. H–59, issued by B. B. Maurer, supplements thereto, or reissues thereof, shall apply.

(b) *Rules and regulations suspended.* The operation of all rules and regulations, including rates, rules, and free-time periods granted by authority of Part I, Section 22 of the Interstate Commerce Act, insofar as they conflict with the provisions of this order, is hereby suspended.

(c) *Effective date.* This order shall become effective at 7:00 a.m., July 1, 1973.

(d) *Expiration date.* This order shall expire at 6:59 a.m., October 1, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), and 17(2).)

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

Title 7—Agriculture

CHAPTER IV—FEDERAL CROP INSURANCE CORPORATION, DEPARTMENT OF AGRICULTURE

PART 401—FEDERAL CROP INSURANCE
1969 and Succeeding Years

APPENDIX; DISCONTINUATION OF INSURANCE IN COUNTIES PREVIOUSLY DESIGNATED FOR WHEAT CROP INSURANCE

Correction

In FR Doc. 73–13314 appearing on page 17437 in the issue for Monday, July 2, 1973, in the list of counties in Mississippi, insert "De Soto".

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING ((AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 594]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA
Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period July 15–21, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.894 Lemon Regulation 594.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated

V38-134 JUL 13 73 XUM

in the order. The committee further reports the demand for lemons is strong for first grade fruit and is somewhat weaker for second grade fruit. Demand for 165's and smaller continues strong while being steady on 140's. Markets and auctions are generally adequately supplied for both this week and next, and hot, humid weather in the East is helping clear auction markets of considerable poor condition fruit. Average f.o.b. price was $5.04 per carton the week ended July 7, 1973, compared to $5.29 per carton the previous week. Track and rolling supplies at 215 cars were down 57 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 10, 1973.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period July 15, 1973, through July 21, 1973, is hereby fixed at 300,000 cartons.

(2) As used in this section, "handled," and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 12, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-14512 Filed 7-12-73;11:24 am]

PART 911—LIMES GROWN IN FLORIDA

Limitation of Handling

This regulation fixes the quantity of Florida limes that may be shipped to fresh market during the weekly regulation period July 15–July 21, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 911. The quantity of limes so fixed was arrived at after consideration of the total available supply of Florida limes, the quantity currently available for market, lime prices, and the relationship of season average returns to the parity price for Florida limes.

§ 911.404 Lime Regulation 4.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911; 37 FR 10497), regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Florida Lime Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such limes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of limes that may be marketed during the ensuing week stems from the production and marketing situation confronting the Florida lime industry.

(i) The committee has submitted its recommendation with respect to the quantity of limes which it deems advisable to be handled during the succeeding week. Such recommendation results from consideration of the factors enumerated in the order. The committee further reports the fresh market demand for limes appears to be stabilizing following two weeks of decline in prices. Prices currently range $1.35 to $1.55 per 10 pound container. Fresh shipments for the weeks ended July 7, 1973, and June 30, 1973, were 15,815 bushels and 35,113 bushels, respectively.

(ii) Having considered the recommendation and information submitted by the committee, and other available information the Secretary finds that the quantity of limes which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Florida limes, and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation has been submitted by the committee, however, the Secretary has modified the recommendation to provide for the shipment of a greater quantity of limes, retaining the same effective date, and such information is being disseminated among handlers of such limes; it is necessary, in order to effectuate the declared policy of the act; to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on July 10, 1973.

(b) *Order.* (1) The quantity of limes grown in Florida which may be handled during the period July 15, 1973, through July 21, 1973, is hereby fixed at 24,600 bushels.

(2) As used in this section, "handled" and "limes" have the same meaning as when used in said amended marketing agreement and order, and "bushel" means 55 pounds of limes.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 12, 1973.

CHARLES R BRADDER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-14513 Filed 7-12-73;11:25 am]

PART 921—FRESH PEACHES GROWN IN DESIGNATED COUNTIES IN WASHINGTON

Expenses and Rate of Assessment for Fiscal 1973–74

This document fixes the expenses of the Washington Fresh Peach Marketing Committee for the 1973–74 season at $7,790 and prescribes that handlers pay $0.80 per ton to defray such expenses.

Notice was published in the June 19, 1973, issue of the FEDERAL REGISTER (38 FR 15969) that consideration was being given to proposals regarding the expenses and the fixing of the rate of assessment for the fiscal period ending March 31, 1974, under the marketing agreement, as amended, and Order No. 921, as amended (7 CFR Part 921), regulating the handling of fresh peaches grown in designated counties in Washington, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Washington Fresh Peach Marketing Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 921.213 Expenses and rate of assessment.

(a) *Expenses.* The expenses that are reasonable and likely to be incurred by the Washington Fresh Peach Marketing Committee, during the fiscal period beginning April 1, 1973, and ending March 31, 1974, will amount to $7,790;

(b) *Rate of assessment.* The rate of assessment, payable by each handler in accordance with § 921.41 is fixed at eighty cents ($0.80) per ton of fresh peaches; and

(c) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of peaches grown in the designated counties of Washington are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment fixed shall be applicable to all assessable fresh peaches from the beginning of such period; and (3) such period began on April 1, 1973, and the rate of assessment herein fixed will automatically apply to all assessable fresh peaches beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 10, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

PART 923—SWEET CHERRIES GROWN IN DESIGNATED COUNTIES IN WASHINGTON

Expenses and Rate of Assessment

On June 27, 1973, notice of proposed rule making was published in the FEDERAL REGISTER (38 FR 16878) regarding proposed expenses and the related rate of assessment for the period April 1, 1973, through March 31, 1974, pursuant to the marketing agreement and Order No. 923 (7 CFR Part 923) regulating the handling of sweet cherries grown in designated counties in Washington. This notice allowed interested persons 9 days during which they could submit written data, views, or arguments pertaining to the proposals. None were submitted. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Washington Cherry Marketing Committee (established pursuant to said marketing agreement and order), it is hereby found and determined that:

§ 923.213 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Washington Cherry Marketing Committee during the period April 1, 1973, through March 31, 1974, will amount to $17,681.

(b) *Rate of Assessment.* The rate of assessment for said period, payable by each handler in accordance with § 923.41, is fixed at $0.90 per ton of sweet cherries.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of the current crop of sweet cherries grown in the designated counties in Washington are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment herein fixed shall be applicable to all assessable cherries handled during the aforesaid period; and (3) such period began on April 1, 1973, and said rate of assessment will automatically apply to all such cherries beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: July 10, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[CCC Grain Price Support Regulations, 1973 Crop Soybean Supp.]

PART 1421—GRAIN AND SIMILARLY HANDLED COMMODITIES

Subpart—1973 Crop Soybean Loan and Purchase Program

Correction

In FR Doc. 73–11985 appearing at page 15826 of the issue for Monday, June 18, 1973, the following changes should be made in § 1421.393:

1. In § 1421.393(a) under "Wisconsin", "Ozaukei" should read "Ozaukee".

2. In § 1421.393(b), "12.3 through 13.0" should read "12.8 through 13.0".

PART 1464—TOBACCO

Subpart A—Tobacco Loan Program

1973 CROP—FLUE-CURED TOBACCO, ADVANCE SCHEDULE

On June 8, 1973, there was published in the FEDERAL REGISTER (38 FR 15081) a notice of proposed rule making setting forth the proposed price support advance rates for 1973-crop flue-cured tobacco. Interested parties were given the opportunity to submit, not later than July 8, 1973, data, views and recommendations regarding the advance rates.

No unfavorable comments have been received, and the proposed advance rates are hereby adopted without change and are set forth below. The material previously appearing under § 1464.16 remains applicable to the crop to which it refers.

Effective date: July 13, 1973.

Signed at Washington, D.C., on July 9, 1973.

GLENN A. WEIR,
Acting Executive Vice President, Commodity Credit Corporation.

§ 1464.16 1973 crop—flue-cured tobacco, types 11–14, advance schedule.[1]

[Dollars per hundred pounds, farm sales weight]

[FR Doc.73-14312 Filed 7-12-73;8:45 am]

Title 23—Highways

CHAPTER II—HIGHWAY SAFETY PROGRAM STANDARDS, DEPARTMENT OF TRANSPORTATION

[Docket No. 72-29; Notice 3]

PART 1230—HIGHWAY SAFETY PROGRAM STANDARDS—APPLICABILITY TO FEDERALLY ADMINISTERED AREAS

In a notice of proposed rulemaking published on October 26, 1972 (37 FR 22876), the National Highway Traffic Safety Administration and the Federal Highway Administration requested public comment on a proposal to apply the highway safety program standards published in 23 CFR Ch. II to federally administered areas where a Federal department or agency controls the highways or supervises traffic operations. The purpose of this notice is to issue a new 23 CFR Part 1230, Highway Safety Program Standards—Applicability to Federally Administered Areas.

Comments were received from most of the land-holding Federal agencies, generally indicating that compliance with the highway safety program standards presents only budgetary problems. There were, however, several comments from agencies discussing particular program difficulties relating to their activities, which, taken together, highlight the need for flexibility in implementation of this aspect of the national highway safety program. For example, the Forest Service, Department of Agriculture, pointed out legislative restrictions established in its 1897 Act, providing that administration of and jurisdiction over persons within the National Forests remain with the States. The Department of Defense also raised questions relating to the applicability of Standard No. 7, Traffic Courts, to unit commanders' on base authority under the Uniform Code of Military Justice.

Several private organizations and States also commented on the proposal, generally expressing support. These comments, too, pointed out particular problems relating to the specific program efforts of the agencies. Logging and paper companies, for example, raised questions about the applicability of the proposal to private roads and existing property rights. Concern was also expressed about the possible impact of applying the highway safety program standards on environmental and recreational needs in the park system, the National Forest System and the National Wildlife Refuge System.

There are 141 Federal agencies, each of which has statutory responsibilities and substantive programs that interface with the Highway Safety Act in a large variety of ways. It is not the intent of the proposal to interfere with the statutory responsibilities of the various Federal agencies, or to cause unnecessarily detrimental impacts on the environment in natural and historic areas. However, the legislative history of the Highway Safety Act clearly establishes the mandate of the Act to attack highway safety problems on all of the Nation's highways. The stated purposes and requirements of this Act should be read in conjunction with the other statutory proscriptions.

It is believed, therefore, that the best way to ensure a meaningful implementation of the highway safety program standards in federally administered areas is to review the standards on a program-by-program basis with each agency. For this reason the new part will establish the basic principle that the standards apply to federally administered areas, and impose reporting and program planning requirements. Details of the interaction of specific programs with specific standards will be covered in the planning and review process. Clarification of standard requirements and technical assistance will be available through the staff offices of the FHWA and NHTSA. It is expected that guidelines for submission and review of planning documents will be issued within 180 days of the effective date of this part. The guidelines will include requirements for review of the environmental impact in preparing programs. In view of this intention to clarify the program specifics at a later date, it is the judgment of the FHWA and the NHTSA that no significant environmental impact will directly result from issuance of this notice.

A few agencies have raised a question as to the meaning given to the phrase "open to public travel." This language is based on the indication in the legislative history that the Act is designed to develop programs for protecting the traveling public from the hazards of traffic crashes on the Nation's highways. "Open to public travel" is therefore intended to cover highways and road systems that are open to travel by the general public. It is not intended to apply to roads where access to the general public is restricted, although a requirement for identification to gain access to a road would not necessarily exclude it from the public road category. For example, on military bases, roads on firing ranges where members of the public are not permitted would not be included, but roads on the base where dependents, visitors and other members of the public are permitted access would be included. The process of submission and review of plans required by the new part is designed to resolve the question of what roads are open to public travel as it relates to specific programs.

Some agencies also raised questions about the need for various reports, arguing that a Comprehensive Plan and Annual Report would be sufficient to provide the Department with information to review compliance of the agencies with the standards. The FHWA and NHTSA recognize the need to keep reports and paperwork to a minimum. It has been determined, therefore, that a Comprehensive Plan should be submitted by each agency, detailing its planned efforts for implementing the highway safety program standards in their jurisdictions. An Annual Report reviewing the year's accomplishments would also be submitted. The requirement for submission of an Annual Work Program has been deleted.

In consideration of the foregoing, 23 CFR Ch. II is amended by adding a new Part 1230—Highway Safety Program Standards—Applicability to Federally Administered Areas, in Subchapter B, to read as set forth below.

Effective date: August 15, 1973.

Issued on: July 6, 1973.

NORBERT T. TIEMANN,
Administrator, Federal Highway Administration.

JAMES E. WILSON,
Associate Administrator, Traffic Safety Programs, National Highway Traffic Safety Administration.

Sec.
1230.1 Scope.
1230.2 Purpose.
1230.3 Applicability.
1230.4 Requirements.

AUTHORITY: 23 U.S.C. 402, 38 FR 12147, 49 CFR 1.48.

§ 1230.1 Scope.

This part establishes requirements for implementation by Federal departments or agencies of highway safety program standards set out in this chapter, in federally administered areas where a Federal department or agency controls highways open to public travel or supervises traffic operations.

§ 1230.2 Purpose.

The purpose of this part is to ensure that uniform standards established to regulate highway safety activities apply uniformly throughout the United States to those highways and activities administered by a Federal agency.

§ 1230.3 Applicability.

Pursuant to 23 U.S.C. 402, the highway safety program standards set forth in this chapter are applicable to Federal departments and agencies that control highways open to public travel within federally administered areas or supervise traffic operations on such highways, to the extent that they engage in activities covered by the highway safety program standards set out in this chapter.

§ 1230.4 Requirements.

(a) Each department or agency shall implement the highway safety program standards, to the extent that they are relevant to the activities of the department or agency. Implementation activities shall include but not be limited to:

(1) In cooperation with the FHWA and NHTSA, review of the department's or agency's activities to determine which are covered by the highway safety program standards.

(2) Review of the current status of those activities with regard to the relevant requirements of the standards.

(3) Development, submission to the FHWA and NHTSA, and periodic updating and implementation of a multiyear Comprehensive Plan for highway safety in accordance with the highway safety program standards.

(b) Each department or agency shall submit annually to the Secretary of Transportation a comprehensive report on the administration of its highway safety program for the preceding calendar year. The report shall be suitable for inclusion in the report to the President for transmittal to the Congress as required by section 202(a) of the Highway Safety Act of 1966 (P.L. 89-564), and shall include but not be limited to:

(1) Thorough statistical data on fatal, injury and property damage accidents which occurred within its federally administered area.

(2) The scope of observance of applicable Federal standards.

(3) The effectiveness of its highway safety programs.

Title 9—Animals and Animal Products

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE (MEAT AND POULTRY PRODUCTS INSPECTION), DEPARTMENT OF AGRICULTURE

SUBCHAPTER A—MANDATORY MEAT INSPECTION

PART 314—HANDLING AND DISPOSAL OF CONDEMNED OR OTHER INEDIBLE PRODUCTS AT OFFICIAL ESTABLISHMENTS

Issuance of Permits To Obtain Scientific and Research Specimens

Pursuant to the authority contained in the Federal Meat Inspection Act (21 U.S.C. 601 *et seq.*), the references to the name "area supervisor" in § 314.9 are changed to "inspector in charge."

(Sec. 21, 34 Stat. 1264, as amended, 21 U.S.C. 621; 37 FR 28464, 28477)

This docket will amend the regulations to place the issuance of the permit for removal of biological and scientific specimens at the plant level. Prior to the reorganization, this permit (MP-403-10) was issued by the officer in charge who, in most cases, was located in close proximity to the plant. Following the reorganization, the regulations were amended en masse to require the area supervisor to issue the permit. Since this permit is valid only for a specified establishment, good cause is found for authorizing the inspector in charge at each plant to issue this permit. Such permits that are issued would be reviewed by the circuit supervisor.

These amendments are organizational in nature. They do not substantially affect any member of the public. Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure concerning the amendment are impracticable and unnecessary, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

The foregoing amendment shall become effective July 13, 1973.

Done at Washington, D.C., on: July 6, 1973.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-14260 Filed 7-12-73;8:45 am]

Title 30—Mineral Resources

CHAPTER I—BUREAU OF MINES, DEPARTMENT OF THE INTERIOR

SUBCHAPTER N—METAL AND NONMETALLIC MINE HEALTH AND SAFETY

SUBCHAPTER O—COAL MINE HEALTH AND SAFETY

MINING ENFORCEMENT AND SAFETY ADMINISTRATION

By Order No. 2953 the Secretary of the Interior established within the Department of the Interior the Mining Enforcement and Safety Administration (MESA) and made it responsible for administering certain functions under the Federal Coal Mine Health and Safety Act of 1969 (P.L. 91-173, 30 U.S.C. 801-960 (1970)) and the Federal Metal and Nonmetallic Mine Safety Act (P.L. 89-577, 30 U.S.C. 721-740 (1970)). Order No. 2953 transferred from the Bureau of Mines to the Mining Enforcement and Safety Administration the functions of mine health and safety, assessment and compliance, and education and training. The functions of energy, metallurgical and mining research and development, mine health and safety research, and mineral supply are retained in the Bureau of Mines. In order to provide for necessary changes in nomenclature to conform to the foregoing Secretarial Order, Subchapters N and O of Chapter I, Title 30, Code of Federal Regulations, are hereby amended, as set forth below.

As the amendments relate to matters of internal Department organization and practice, the prior notice and public procedure provisions of 5 U.S.C. section 553 are inapplicable.

The amendments shall be effective on July 16, 1973.

JULY 10, 1973.

JOHN C. WHITAKER,
Acting Secretary of the Interior.

(Federal Metal and Nonmetallic Mine Safety Act (P.L. 89-577, 30 U.S.C. 721-740) and Sec. 508, Federal Coal Mine Health and Safety Act of 1969 (P.L. 91-173, 30 U.S.C. 957))

PART 55—HEALTH AND SAFETY STANDARDS—METAL AND NONMETALLIC OPEN PIT MINES

Part 55 of Chapter I of Title 30 of the Code of Federal Regulations is amended as follows:

§§ 55.2, 55.3-13, 55.4-4, 55.4-24, 55.5-5, 55.6-94, 55.6-94, 55.6-100, 55.12-47, 55.13-32, 55.24-1, 55.24-2, 55.24-5, 55.24-6, 55.24-7 [Amended]

1. In the sections specified below, the words "Bureau of Mines" are deleted wherever they appear and the words "Mining Enforcement and Safety Administration" are substituted therefor:

PART 70—MANDATORY HEALTH STANDARDS—UNDERGROUND COAL MINES

Part 70 of Chapter I of Title 30, Code of Federal Regulations is amended as follows:

§ 70.204 [Deleted]

1. Section 70.204 is deleted in its entirety.

§§ 70.223, 70.261, 70.271, 70.504–2, 70.510 [Amended]

2. In §§ 70.223, 70.261, 70.271, 70.504–2 and 70.510(b)(2) the term "Bureau of Mines" is deleted and the term "Mining Enforcement and Safety Administration" is substituted therefor.

§ 70.260 [Amended]

3. In § 70.260(a), the words "Pittsburgh Field Health Group, Bureau of Mines" are deleted and the words "Pittsburgh Health and Safety Technical Support Center, Mining Enforcement and Safety Administration" are substituted therefor.

4. Section 70.272 is revised to read as follows:

§ 70.272 Report and certification of conditions in active mine workings.

Each operator of a coal mine shall, on or before June 30, 1970, and annually thereafter on the anniversary date of each initial report and certification, report and certify to the Secretary the conditions relative to dust control which exist in the active workings of all mines operated. Such reports shall be submitted on Mining Enforcement and Safety Administration Form No. 6–1497. Report forms may be obtained from any Coal Mine Health and Safety District Office of the Mining Enforcement and Safety Administration. Reports shall be submitted to the District Manager of the Coal Health and Safety District in which the mine is located.

§§ 70.305–1, 70.400–1, 70.505 [Amended]

5. In §§ 70.305–1, 70.400–1, 70.505, the words "or the Mining Enforcement and Safety Administration" are inserted immediately after the words "approved by the Bureau of Mines."

§ 70.504 [Amended]

6. In § 70.504 the term "Director, Bureau of Mines" is deleted and the term "Administrator, Mining Enforcement and Safety Administration" is substituted therefor.

§ 70.504–1 [Amended]

7. In § 70.504–1 the terms "Bureau of Mines" and "Bureau" are deleted and the terms "Mining Enforcement and Safety Administration" and "Administration" are respectively substituted therefor.

§§ 70.507, 70.508, 70.509 [Amended]

8. In §§ 70.507, 70.508, and 70.509, the address "Assistant Director, Coal Mine Health and Safety, Bureau of Mines, Department of the Interior, Washington, D.C. 20240" is deleted and the address "Division of Automatic Data Processing, Mining Enforcement and Safety Administration, Building 53, Denver Federal Center, Denver, Colo. 80225" is substituted therefor, and the words "Bureau of Mines" are deleted and the words "Mining Enforcement and Safety Administration" substituted therefor.

§ 70.510 [Amended]

9. In § 70.510(b)(3) the words "Assistant Director, Coal Mine Health and Safety, Bureau of Mines" are deleted and the words "Assistant Administrator, Coal Mine Health and Safety, Mining Enforcement and Safety Administration" are substituted therefor.

PART 71—MANDATORY HEALTH STANDARDS—SURFACE WORK AREAS OF UNDERGROUND COAL MINES AND SURFACE COAL MINES

Part 71 of Chapter I, Title 30, Code of Federal Regulations is amended as follows:

§§ 71.200, 71.402, 71.500 [Amended]

1. In §§ 71.200, 71.402, and 71.500 the words "Bureau of Mines" are deleted and the words "Mining Enforcement and Safety Administration" are substituted therefor.

§ 71.111 [Amended]

2. In § 71.111 the words "Pittsburgh Field Health Group, Bureau of Mines" are deleted and the words "Pittsburgh Health and Safety Technical Support Center, Mining Enforcement and Safety Administration" are substituted therefor.

PART 75—MANDATORY SAFETY STANDARDS—UNDERGROUND COAL MINES

Part 75 of Chapter I, Title 30, Code of Federal Regulations is amended as follows:

§§ 75.100, 75.150, 75.155, 75.301–7, 75.301–8, 75.303–2, 75.503–1, 75.517–2, 75.1103–2, 75.1712–6, 75.1721, 75.1800, 75.1801, 75.1802, 75.1803, 75.1804, 75.1805, 75.1807 [Amended]

1. In the sections specified below, the words "Bureau of Mines" are deleted wherever they appear and the words "Mining Enforcement and Safety Administration" are substituted therefor.

§§ 75.151, 75.1703–1, 75.1714–1 [Amended]

2. In §§ 75.151, 75.1703–1, and 75.1714–1 the words "or the Mining Enforcement and Safety Administration" are inserted after the words "approved by the Bureau of Mines."

§ 75.153 [Amended]

3. In § 75.153(e) the word "Bureau" is deleted and replaced by the word "Administration."

§ 75.506 [Amended]

4. In § 75.506(a) the words "or the Mining Enforcement and Safety Administration" are inserted immediately after the words "Bureau of Mines" in line 7 thereof.

§§ 75.523–1, 75.1710–1 [Amended]

5. In §§ 75.523–1(c) and 75.1710–1(f) the words "Assistant Director—Technical Support, Bureau of Mines" are deleted and the words "Assistant Administrator—Technical Support, Mining Enforcement and Safety Administration" are substituted therefor.

§§ 75.803–3, 75.902–3 [Amended]

6. Sections 75.803–3 and 75.902–3 are deleted entirely.

§ 75.1107–17 [Amended]

7. In § 75.1107–17 the words "or the Mining Enforcement and Safety Administration" are inserted immediately after the words "Bureau of Mines" in line 6 thereof; and the words "Bureau of Mines" in line 11 thereof are deleted and the words "Mining Enforcement and Safety Administration" are substituted therefor.

PART 77—MANDATORY SAFETY STANDARDS, SURFACE COAL MINES AND SURFACE WORK AREAS OF UNDERGROUND COAL MINES

Part 77, Chapter I, Title 30, Code of Federal Regulations is amended as follows:

§§ 77.100, 77.101, 77.102, 77.103, 77.105, 77.413, 77.1000–1, 77.1108–1, 77.1303, 77.1900, 77.1902–1, 77.1914 [Amended]

1. In the sections specified below, the term "Bureau of Mines" is deleted wherever it appears and the term "Mining Enforcement and Safety Administration" is substituted therefor.

Title 31—Money and Finance: Treasury

CHAPTER I—MONETARY OFFICES, DEPARTMENT OF THE TREASURY

PART 51—FISCAL ASSISTANCE TO STATE AND LOCAL GOVERNMENTS

Miscellaneous Amendments

Pursuant to the authority vested in the Secretary of the Treasury by the State and Local Fiscal Assistance Act of 1972 (Title I, Public Law 92-512), approved October 20, 1972, the Department of the Treasury hereby amends the regulations in Part 51 of Subtitle B of Title 31, Code of Federal Regulations, effective April 5, 1973 (38 FR 9132) for the entitlement period beginning January 1, 1973, and for entitlement periods subsequent thereto.

These amendments are intended primarily to clarify the language of certain provisions of the regulations. Because the purpose of these amendments is to provide immediate guidance to the states and local units of governments as to procedures applicable after December 31, 1972, in order that the requirements of the Act be complied with, it is hereby found impracticable to issue these amendments with notice and public procedure thereon under 5 U.S.C. 553(b), or subject to the effective date limitation of 5 U.S.C. 553(d).

The foregoing amendments are issued under authority of the State and Local Fiscal Assistance Act of 1972 (Title I, Public Law 92-512) and Treasury Department Order No. 224, dated January 26, 1973 (38 FR 3342). These amendments shall become effective when filed with the Federal Register and are applicable to entitlement periods beginning on or after January 1, 1973.

[SEAL] GRAHAM W. WATT,
Director,
Office of Revenue Sharing.

Approved July 11, 1973.

EDWARD C. SCHMULTS,
General Counsel.

Section 51.3 is amended to read as follows:

§ 51.3 Procedure for effecting compliance.

(a) *In general.* If the Secretary determines that a recipient government has failed to comply substantially with any provision of this part, and after giving reasonable notice and opportunity for a hearing to the Governor of the State or the chief executive officer of the unit of local government pursuant to Subpart F of this part, the Secretary shall notify the recipient government that if it fails to take corrective action within 60 days from the date of receipt of such notification further payments to it will be withheld for the remainder of the entitlement period and for any subsequent entitlement period until such time as the Secretary is satisfied that appropriate corrective action has been taken and that there will no longer be any failure to comply. Until he is satisfied, the Secretary shall make no further payments of such amounts.

(b) *Determination to delay payment.* Whenever the Secretary determines that a recipient government has failed to comply with the communication requirement period until such time as the ment of entitlement funds to such recipient. A determination to delay payment of entitlement funds shall not be subject to the procedure set forth in paragraph (a) of this section and shall be in effect only for such time as is necessary to effect compliance.

The first sentence of § 51.5 is amended to read as follows:

§ 51.5 Transfer of funds to secondary recipients.

Those prohibitions and restrictions set forth in subpart D of this part which are applicable to a recipient government's entitlement funds continue to be applicable to such funds if they are transferred to another governmental unit or private organization. • • •

§ 51.11 [Amended]

The second sentence of § 51.11(b) is amended by deleting the words "and the balance of the trust fund as of the date of the report's submission" and inserting a period after the word "period". As amended, the second sentence of § 51.11 (b) reads: "Such report also shall state any interest earned on entitlement funds during the period."

The third sentence of § 51.11(b) is amended by adding the phrase "including its balance" after the word "fund". As amended, the third sentence of § 51.11 (b) reads: "Such reports shall show the status of the trust fund including its balance as of June 30 and shall be filed with the Secretary on or before September 1 of each calendar year."

Section 51.24(a) is amended to read as follows:

§ 51.24 Waiver of entitlement; nondelivery of checks; insufficient data.

(a) *Waiver.* Any unit of local government may waive its entitlement for any entitlement period: *Provided,* The chief executive officer with the consent of the governing body of such unit notifies the Secretary that the entitlement payments for a past, current, or the next beginning entitlement period are being waived. In the event that an entitlement payment is returned or a notice of waiver is executed which is not in accordance with this procedure, the chief executive officer will be so notified by the Secretary and, unless the attempted waiver is rescinded within 30 days of the date of such notice, it shall be given effect. However, in no event will a notice of waiver be given effect for an entitlement period which is subsequent to the next beginning entitlement period. The entitlement waived shall be added to and shall become a part of the entitlement of the next highest unit of government eligible to receive entitlement funds in that State in which the unit of government waiving entitlement is located. However, if the governing body of an Indian tribe or Alaskan native village waives its entitlement for any period, the rules relating to distributions within county areas (pursuant to section 108(b)(4) of the Act) are to apply to the distribution within a county area as if such tribe or village were not in existence for that period. A waiver of entitlement by a unit of local government or Indian tribe or Alaskan native village shall be deemed irrevocable for the entitlement period or periods to which it relates.

• • • • • •

Paragraph (a) of § 51.25 is amended by deleting the second sentence and inserting a new sentence, and the second

sentence of paragraph (b) is revised, all to read as set forth below.

§ 51.25 Reservation of funds and adjustment of entitlement.

(a) • • • Such reserve shall be known as the Obligated Adjustment Reserve and amounts remaining in that reserve will accumulate until the liabilities of the Trust Fund are discharged or sufficiently diminished to permit an allocation to recipient governments. • • •

(b) • • • In such case the Secretary may demand that the funds received by the recipient government in excess of its entitlement be immediately repaid to the Trust Fund of the Department of the Treasury.

The final sentence of § 51.26(a) is amended by inserting the phrase "debt proceeds and" after the word "including." As amended, the final sentence of § 51.26(a) reads:

§ 51.26 State must maintain transfers to local government.

(a) • • •

• • • The phrase "own sources" means all sources of State revenue (including debt proceeds and the State's revenue sharing entitlement funds) but excluding intergovernmental revenues received from the Federal government.

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 20]

MIGRATORY BIRD HUNTING

Notice of Proposed Rule Making

By notice of proposed rulemaking published in the FEDERAL REGISTER of April 25, 1973 (38 FR 10208), it was proposed to revise and restructure subchapter B of Chapter One of this title.

It is determined that § 20.21(i)(2), as previously proposed should be further revised. The revision of § 20.21(i)(2) which is being proposed at this time would change the language of the baiting regulation with respect to hunting doves.

Enforcement of the baiting regulation for doves has been a recurring problem for years. The wording of the regulation contributes to the problem. The difficulty seems to arise from the phrase "valid agricultural operations or procedures" in the regulation. The validity of agricultural operations varies by time and geography presenting a very difficult problem of definition. The situation at present is very difficult for both the hunter and enforcement personnel.

It is desirable to make the definition of illegal baiting as clear as possible. Accordingly, it is proposed to revise subpart C, § 20.21(i)(2) as proposed in the FEDERAL REGISTER of April 25, 1973, as follows:

Subpart C—Taking

§ 20.21 Hunting methods.

* * * * *

(i) * * *

(2) The taking of all migratory game birds, except waterfowl, on or over any lands where shelled, shucked, or unshucked corn, wheat or other grain, salt, or other feed has been distributed or scattered as the result of *bona fide* agricultural operations or procedures, or as a result of manipulation of a crop or other feed on the land where grown for wildlife management purposes: Provided, that manipulation for wildlife management purposes does not include the distributing or scattering of grain or other feed once it has been removed from or stored on the field where grown.

Interested persons are invited to submit written comments, suggestions, or objections, concerning the proposed amendments, to the Director, Bureau of Sport Fisheries and Wildlife, U.S. Department of the Interior, Washington, D.C. 20240. Comments received by August 10, 1973, will be considered.

(Migratory Bird Treaty Act, Section 3, 40 Stat. 755 (16 U.S.C. 704))

F. V. SCHMIDT,
Acting Director, Bureau of Sport Fisheries and Wildlife.

FRESH PRUNES GROWN IN DESIGNATED COUNTIES IN IDAHO AND IN MALHEUR COUNTY, OREGON

Proposed Expenses and Rate of Assessment for Fiscal 1973–74 and Carryover of Unexpended Funds

This notice states that the anticipated expenses of the Idaho-Malheur County, Oregon, Fresh Prune Marketing committee for the 1973–74 season will amount to $5,180. The proposed rate of assessment is ½ cent per 30-pound carton or equivalent quantity of prunes.

Consideration is being given to the following proposals submitted by the Idaho-Malheur County, Oregon, Fresh Prune Marketing Committee, established under the marketing agreement and Order No. 925 (7 CFR Part 925), regulating the handling of fresh prunes grown in designated counties in Idaho and Malheur County, Oregon, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

§ 925.213 Expenses, rate of assessment, and carryover of unexpended funds.

(a) Expenses that are reasonable and likely to be incurred by the Idaho-Malheur County, Oregon, Fresh Prune Marketing Committee, during the period July 1, 1973, through June 30, 1974, will amount to $5,180.

(b) That there be fixed, at $0.005 per one-half bushel 30-pound container or equivalent quantity of fresh prunes when in other containers or in bulk, the rate of assessment payable by each handler in accordance with § 925.41 of the aforesaid marketing agreement and order.

(c) That unexpanded assessment funds, in excess of expenses incurred during the fiscal period ended June 30, 1973, be carried over as a reserve in accordance with the applicable provisions of §§ 925.42 and 925.203 of said marketing agreement and order.

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposals should file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than July 23, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: July 10, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[7 CFR Part 946]

IRISH POTATOES GROWN IN WASHINGTON

Limitation of Handling

Consideration is being given to the issuance of the handling regulation, hereinafter set forth, which was recommended by the State of Washington Potato Committee, established pursuant to Marketing Agreement No. 113 and Order No. 946, both as amended (7 CFR Part 946). This marketing order program regulates the handling of Irish potatoes grown in the State of Washington and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

The recommendations of the committee reflect its appraisal of the composition of the 1973 crop of Washington potatoes and of the marketing prospects for this season. The grade, size, cleanliness and maturity requirements provided herein, which are the same as those currently in effect (37 FR 13699) through July 31, 1973, are necessary to prevent potatoes of lesser maturities, low quality, or undesirable sizes from being distributed in fresh market channels. They will also provide consumers with good quality potatoes consistent with the overall quality of the crop.

Exceptions are provided to certain of these requirements to recognize special situations in which such requirements would be inappropriate or unreasonable.

Shipments may be made to certain special purpose outlets without regard to minimum grade, size, cleanliness, and maturity requirements provided that safeguards are used to prevent such potatoes from reaching unauthorized outlets. Seed is so exempted because requirements for this outlet differ greatly from those for fresh market. Shipments for use as livestock feed are likewise exempt. Potatoes grown in the production area may be shipped without regard to the aforesaid requirements to specified locations in Morrow and Umatilla Counties, Oregon, for grading and storing. Since no purpose would be served by regulating potatoes used for charity purposes, such shipments are exempt. Exemption of potatoes for most processing uses is mandatory under the legislative authority for this part and therefore shipments to processing outlets are unregulated.

Export requirements differ materially, on occasion, from domestic market requirements. In commercial prepeeling, operators remove the surface defects from potatoes which would be undesirable for the tablestock market, and smaller sizes are acceptable. For these reasons potatoes for export and prepeeling are provided with different requirements.

All persons who desire to submit written data, views, or arguments in connection with this proposal may file the same, in quadruplicate, with the Hearing Clerk, Room 112–A, not later than July 18, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)). The proposal is as follows:

§ 946.328 Handling regulation.

During the period August 1, 1973, through July 31, 1974, no person shall handle any lot of potatoes unless such potatoes meet the requirements of paragraphs (a), (b), (c) and (g) of this section or unless such potatoes are handled in accordance with paragraphs (d) through (f) of this section.

(a) *Minimum quality requirements.*—(1) *Grade—All varieties*—U.S. No. 2, or better grade.

(2) *Size*—(i) *Round varieties.* 1⅞ inches minimum diameter.

(ii) *Long varieties.* 2 inches minimum diameter or 4 ounces minimum weight.

(3) *Cleanliness.* All varieties—at least "fairly clean."

(b) *Minimum maturity requirements*—(1) *Round and White Rose varieties.* Not more than "moderately skinned."

(2) *Other Long varieties (including but not limited to Russet Burbank and Norgold).* Not more than "slightly skinned."

(c) *Pack.* Potatoes packed in 50 pound cartons shall be U.S. No. 1, or better grade.

(d) *Special purpose shipments.* The minimum grade, size, cleanliness, maturity, and pack requirements set forth in paragraphs (a), (b) and (c) of this section shall not be applicable to shipments of potatoes for any of the following purposes:

(1) Livestock feed;
(2) Charity;
(3) Export;
(4) Seed;
(5) Prepeeling;
(6) Canning, freezing, and "other processing" as hereinafter defined; or
(7) Grading or storing at any specific location in Morrow and Umatilla Counties in the State of Oregon.

Shipments of potatoes for the purposes specified in paragraph (d) (1), (2), (4), (5), (6), and (7) of this section shall be exempt from inspection requirements specified in paragraph (g) of this section and shipments specified in paragraph (d) (1), (2), (4), and (6) of this section shall be exempt from assessment requirements specified in § 946.41. *Provided:* That shipments pursuant to paragraph (d)(7) of this section shall comply with inspection requirements of (e)(2) of this section.

(e) *Safeguards.* (1) Handlers desiring to make shipments of potatoes for export or prepeeling shall:

(i) Notify the committee of intent to ship potatoes by applying on forms furnished by the committee for a certificate applicable to such special purpose shipments;

(ii) Prepare on forms furnished by the committee a special purpose shipment report on each such shipment. The handler shall forward copies of each such special purpose shipment report to the committee office and to the receiver with instructions to the receiver that he sign and return a copy to the committee office. Failure of the handler or receiver to report such shipments by promptly signing and returning the applicable special purpose shipment report to the committee office shall be cause for cancellation of such handler's certificate applicable to such special purpose shipments and/or the receiver's eligibility to receive further shipments pursuant to such certificate. Upon cancellation of such certificate, the handler may appeal to the committee for reconsideration. Such appeal shall be in writing.

(iii) Before diverting any such special purpose shipment from the receiver of record as previously furnished to the committee by the handler such handler shall submit to the committee a revised special purpose shipment report.

(2) Handlers desiring to make shipments for grading or storing at any specified location in Morrow and Umatilla Counties in the State of Oregon shall:

(i) Notify the committee of intent to so ship potatoes by applying on forms furnished by the committee for a certificate applicable to such special purpose shipment. Upon receiving such application, the committee shall supply to the handler the appropriate certificate after it has determined that adequate facilities exist to accommodate such shipments and that such potatoes will be used only for authorized purposes;

(ii) If reshipment is for any purpose other than as specified in paragraph (d) of this section, each handler desiring to make reshipment of potatoes which have been graded or stored shall, prior to reshipment, cause each such shipment to be inspected by an authorized representative of the Federal-State Inspection Service. Such shipments must comply with the minimum grade, size, cleanliness, maturity, and pack requirements specified in paragraphs (a), (b), and (c) of this section.

(iii) If reshipment is for any of the purposes specified in paragraph (d) of this section, each handler making reshipment of potatoes which have been graded or stored shall do so in accordance with the applicable safeguard requirements specified in paragraph (e) of this section.

(3) Each person desiring to transport potatoes for grading or storing to points in District No. 5 or to Spokane County in District No. 1 shall apply to the committee for and obtain a special purpose certificate authorizing such movement.

(4) Each handler making shipments of potatoes for canning, freezing, or "other processing" pursuant to paragraph (d) of this section shall:

(i) First apply to the committee for and obtain a Certificate of Privilege to make shipments for processing;

(ii) Make shipments only to those firms whose names appear on the committee's list of manufacturers of potato products;

(iii) Upon request by the committee, furnish reports of each shipment pursuant to the applicable Certificate of Privilege;

(iv) Mail to the office of the committee a copy of the bill of lading for each Certificate of Privilege shipment promptly after the date of shipment;

(v) Bill each shipment directly to the applicable processor.

(5) Each receiver of potatoes for processing pursuant to paragraph (d) of this section shall:

(i) Complete and return an application form for consideration of approval as a manufacturer of potato products.

(ii) Certify to the committee and to the Secretary that potatoes received from the production area for processing will be used for such purpose and will not be placed in fresh market channels;

(iii) Report on shipments received as the committee may require and the Secretary approve.

(f) *Minimum quantity exception.* Each handler may ship up to, but not to exceed 5 hundredweight of potatoes any day without regard to the inspection and assessment requirements of this part, but this exception shall not apply to any shipment over 5 hundredweight of potatoes.

(g) *Inspection.* Except when relieved by paragraphs (d) or (f) of this section, no handler may handle any potatoes regulated hereunder unless an appropriate inspection certificate has been issued by an authorized representative of the Federal-State Inspection Service with respect thereto and the certificate is valid at the time of shipment.

(h) *Definitions.* The terms "U.S. No. 2," "fairly clean," "slightly skinned" and "moderately skinned" shall have the same meaning as when used in the United States Standards for Grades of

V 38-134 JUL 13 73 XUM

Potatoes (§§ 51.1540–51.1566 of this title (37 FR 2745)), including the tolerances set forth therin. The term "prepeeling" means potatoes which are clean, sound, fresh tubers prepared commercially in the prepeeling plant by washing, removal of the outer skin or peel, trimming, and sorting preparatory to sale in one or more of the styles of peeled potatoes described in § 52.2422 (United States Standards for Grades of Peeled Potatoes §§ 52.2421–52.2433 of this title). The term "other processing" has the same meaning as the term appearing in the act and includes, but is not restricted to, potatoes for dehydration, chips, shoestrings, starch and flour. It includes the application of heat or cold to such an extent that the natural form or stability of the commodity undergoes a susbtantial change. The act of peeling, cooling, slicing, or dicing or the application of material to prevent oxidation does not constitute "other processing." Other terms used in this section have the same meaning as when used in the marketing agreement, as amended and this part.

(i) *Applicability to imports.* Pursuant to § 8e of the act and § 980.1 "Import regulations" (7 CFR 980.1), Irish potatoes of the red skinned round type imported during the months of July and August in the effective period of this section shall meet the minimum grade, size, quality and maturity requirements for round varieties specified in paragraphs (a) and (b) of this section.

Dated: July 9, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[7 CFR Part 947]

IRISH POTATOES GROWN IN MODOC AND SISKIYOU COUNTIES IN CALIFORNIA AND IN ALL COUNTIES IN OREGON EXCEPT MALHEUR COUNTY

Proposed Expenses, Rate of Assessment and Late Payment Charges

Consideration is being given to the approval of proposed expenses and a proposed rate of assessment as hereinafter set forth which were recommended by the Oregon-California Potato Committee, established pursuant to Marketing Agreement No. 114, as amended, and Order No. 947, as amended (7 CFR Part 947).

This marketing order program regulates the handling of Irish potatoes grown in Modoc and Siskiyou Counties in California and in all counties in Oregon, except Malheur County, and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

All persons who desire to submit written data, views, or arguments in connection with these proposals may file the same in quadruplicate with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than July 30, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)). The proposals are as follows:

§ 947.326 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred during the fiscal period ending June 30, 1974, by the Oregon-California Potato Committee for its maintenance and functioning, and for such purposes as the Secretary determines to be appropriate, will amount to $37,181.

(b) The rate of assessment to be paid by each handler in accordance with the Marketing Agreement and this part shall be one-half of one cent ($0.005) per hundredweight of potatoes handled by him as the first handler thereof during said fiscal period: *Provided*, That seed potatoes and potatoes for canning, freezing and "other processing" as defined in the amendment to the act (P.L. 91–196) shall be exempt.

(c) In accordance with the provisions of § 947.41, late payment charges of $1.00 per month or one percent per month, whichever is greater, shall be charged on the unpaid balance for each past-due account. An account is past-due 60 days after the billing date.

(d) Unexpended income in excess of expenses for the fiscal period ending June 30, 1974, may be carried over as a reserve.

(e) Terms used in this section have the same meaning as when used in said marketing agreement and this part.

Dated: July 10, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

IRISH POTATOES GROWN IN COLORADO

Proposed Expenses and Rate of Assessment

Consideration is being given to the approval of the expenses and rate of assessment, hereinafter set forth, which were recommended by the Area Committee for Area No. 3 established pursuant to Marketing Agreement No. 97 and Order No. 948, both as amended (7 CFR Part 948).

This marketing order program regulates the handling of Irish potatoes grown in the State of Colorado and is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

All persons who desire to submit written exceptions, views, or arguments in connection with these proposals may file the same in quadruplicate with the Hearing Clerk, Room 112–A, United States Department of Agriculture, Washington, D.C. 20250, before August 13, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The proposals are as follows:

§ 948.270 Expenses and rate of assessment.

(a) The reasonable expenses that are likely to be incurred by the Area Committee for Area No. 3 to enable such committee to perform its functions, pursuant to the provisions of Marketing Agreement No. 97, as amended, and this part, during the fiscal period ending June 30, 1974, will amount to $3,625.00.

(b) The rate of assessment to be paid by each handler pursuant to Marketing Agreement No. 97, as amended, and this part, shall be $0.007 per hundredweight of potatoes grown in Area No. 3 handled by him as the first handler thereof during said fiscal period.

(c) Unexpended income in excess of expenses for the fiscal period ending June 30, 1974, may be carried over as a reserve.

(d) Terms used in this section shall have the same meaning as when used in Marketing Agreement No. 97, as amended, and this part.

Dated: July 10, 1973.

CHARLES R. BRADER,
Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[7 CFR Part 1030]

[Docket No. AO 361-A8]

MILK IN THE CHICAGO REGIONAL MARKETING AREA

Decision on Proposed Amendments to Marketing Agreement and to Order

A public hearing was held upon proposed amendments to the marketing agreement and the order regulating the handling of milk in the Chicago Regional marketing area. The hearing was held, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice (7 CFR Part 900), at Madison, Wisconsin, April 11–12, 1973, pursuant to notice thereof issued on March 29, (38 F.R. 8518).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Regulatory Programs, on June 12, 1973 (38 FR 15730) filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the recommended decision are hereby approved and adopted and are set forth in full herein, subject to the following modifications:

1. Under Issue 1(b), "Pool plant performance requirements for supply plants", paragraph six is revised, and one new paragraph is added following paragraph six.

2. Issue 4(a), "Limits on diversion of producer milk", is revised in its entirety.

3. Issue 6, "Emergency action", is revised in its entirety.

The material issues on the record relate to:

1. Pool plant performance requirements for supply plants.
2. Dairy farmer for other markets.
3. Receipt of producer milk at a reload facility.
4. Limits on diversion of producer milk.
5. Location adjustments to producers.
6. Emergency action.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *Pool plant performance requirements for supply plants.*—The provisions of the order pertaining to supply plant performance requirements should be modified as follows:

(i) The minimum amount of Grade A milk receipts from dairy farmers that a supply plant must ship to pool distributing plants to qualify as a pool plant should be not less than 40 percent during the months of September, October, and November and 30 percent in all other months. However, any plant that is a pool plant during each of the months of August through December, need ship only 20 percent during each of the following months of January, February, and March and such plant shall retain its pool plant status for each of the following months of April through July irrespective of whether any shipments are made during such months.

(ii) Each supply plant in a unit must ship at least 20 percent of its Grade A receipts to distributing plants during each of the months of September, October, and November, 15 percent of such receipts during each of the months of August and December, and 10 percent of such receipts during each of the months of January, February, and March. If for any month a plant does not meet the individual shipping percentage, that plant shall be excluded from the unit and shall not be pooled. The unit as a whole must meet the shipping requirements established for individual plants not in a unit.

(iii) For the purpose of measuring a supply plant's shipping performance, milk or skim milk that is transferred during the month from a distributing plant to a pool supply plant or to a nonpool plant as Class II milk (except transfers of receipts of producer milk from the distributing plant on Saturdays and holidays), shall be deducted from the qualifying shipments to such distributing plant.

A supply plant presently qualifies for pooling by shipping 35 percent of its Grade A receipts to pool distributing plants during September, October, and November, 25 percent in August, and 30 percent in all other months. A supply plant that demonstrates its association with the market during the period of seasonally low production by qualifying during each of the months of August through December, may retain pool plant status during the following 7 months of January through July regardless of shipments.

Individual plants in a unit under the current order are not required to ship any specific volume of milk as long as the unit as a whole meets the shipping requirements established for individual plants not in a unit.

The current order also provides that only that volume of milk transferred from a distributing plant back to a pool supply plant or nonpool plant on the same day of receipt from a supply plant will be "netted out" in determining such supply plant's shipping performance.

The recommended changes set forth above were proposed by a group of operating cooperatives serving the Federal order 30 market. Witnesses for these associations testified that they were experiencing difficulty in obtaining needed milk supplies from supply plants for fluid use in the Chicago metropolitan segment of the market. Sufficient quantities of milk are being produced in the milkshed, but such milk is not all being made available for fluid uses. Witnesses contended that production decreases last fall and the increased demand for milk going into cheese has made the operators of supply plants reluctant to give up milk for fluid use, since they find it more profitable to put milk into cheese at the Class II price, and draw from the pool the difference between the blend and the Class II price, than to ship milk for fluid uses.

Proponents stated that this has been a problem for many months but has become particularly acute beginning with the month of January when supply plants that had been pool plants since the prior August are not required by the order to ship any milk for pooling purposes through the month of July.

While other plants and units have shipped very little milk or none at all, their plants have shipped 100 percent of their supplies on certain days of each week for several months. Many orders for milk by distributing plant operators have not been adequately or timely fulfilled because of proponents' inability to obtain needed additional supplies of milk from other supply plants.

Proponents contended that in order to correct the problem and make the milk available for fluid uses not only should the shipping percentages be increased and the performance period required for gaining automatic pool plant status be extended through January, February, and March, but also each plant participating in a unit should be required to ship some milk to the market if it is to be identified with the market and share in the marketwide proceeds.

(a) If a supply plant shares in the market's Class I proceeds, it should be required to perform to the needs of the market. If it does not ship milk when it is needed, it is not fulfilling a true supply plant function even though it may be meeting the minimum requirements specified in the order. In such case the performance requirements of the order should be set so as to induce delivery of sufficient milk to meet the needs of the market. It is reasonable that the burden of supplying the fluid market be borne equitably by all supply plants that are entitled to share in the proceeds resulting from Class I sales.

Few markets rely on shipments from supply plants to the extent that distributing plants in the Chicago metropolitan area do. While distributing plants in the Wisconsin segment of this marketing area receive only about 35–40 percent of their milk from supply plants, distributors in the densely populated Chicago metropolitan segment of the marketing area depend on supply plants for 70–80 percent of their fluid milk requirements. During the months of August through December 1972, distributing plants in the Chicago metropolitan area received about 739 million pounds of milk from supply plants, while all other distributing plants in the market received only about 292 million pounds through supply plants.

Consequently, the primary purpose of a supply plant in this market is to stand ready to ship qualified milk to handlers in the Chicago metropolitan segment of the marketing area when needed. If it cannot or does not wish to supply such milk, then it should not share in the Class I proceeds of this market. To share in the returns of this market without making milk available to handlers for fluid use when needed dissipates the returns from the Class I sales in the market to the point that the resultant price to producers is not competitive with alternative market outlet prices, thus inhibiting the function of the Class I price to attract an adequate supply of milk for fluid use.

Supply plant shipping requirements are necessary to insure that sufficient volumes of supply plant milk will be made available to handlers for fluid (Class I) use and serve as a means of identifying those plants (producers) that are actually serving the market. If these percentage requirements are set too high, some plants (and producers) that have been regular suppliers of the market will not be able to meet the requirements and thus not be pooled. Dairy farmers delivering milk to such plants would not be assured of a share in the proceeds of the market on the same basis as producers delivering milk to pool plants. Consequently, such milk supplies might not be available in the next low production season when such supplies may be needed.

If the percentage requirements are too low, as in the present case, milk can be easily attached to the pool and share in the proceeds of such, but insufficient, quantities of milk will be made available for fluid use since very little will be required to be shipped for pooling purposes. This is particularly true when the alter-

V 38-134 JUL 13 73 XUM

native market, cheese, is demanding more milk as it is at the present time.

Shipping percentages must be changed as conditions in the marketing area change. On the basis of a May 31, 1972 hearing record the supply plant shipping percentages applicable during August through November were decreased 5 percentage points to maintain pool status for the increasing volume of receipts at pool supply plants at that time that was expected to prevail also for the ensuing fall and winter months. However, as a result of bad weather and crop conditions, the production level declined in the fall of 1972 and the actual percentage of supply plant milk shipped by proponents to handlers for fluid use each month was from 4 to 10 percentage points higher than projected. For the months of August 1972 through March 1973, proponent cooperative supply plants shipped the following respective percentages of their receipts to distributing plants: 35.7, 43.1, 47, 51, 44.5, 44.7, 41.3, and 36.8. With the new lower shipping requirements, however, other plants needed to ship only the minimum and many supply plants actually put most of their milk (100 percent in January, February, and March) through their manufacturing facilities while still sharing in the returns of the marketwide pool.

In conjunction with the above is the added factor of a definite decrease in shipments of milk direct from farms to distributing plants in the Chicago metropolitan area. From August 1972 through February 1973, direct shipments from farms to plants located within 70 miles of Chicago decreased in amounts ranging from 10 to 17 million pounds per month as compared to the same months a year earlier. With a fairly steady demand, Chicago metropolitan area distributing plants had to draw more of their supplies from supply plants.

For the market as a whole the proportion of pool supply plant milk shipped to pool distributing plants during the months of August through December 1972, averaged as follows: August, 37.7 percent; September, 43.4 percent; October, 45.7 percent; November, 47.9 percent; and December, 42.2 percent. While the shipping percentages adopted herein are somewhat less than those that prevailed for the corresponding months of last year, these percentages along with the additional shipping requirements placed on individual plants in units as discussed below should bring forth an adequate supply of milk for fluid uses.

In addition to increasing the supply plant shipping percentages during the months of shortest production, the performance period for obtaining automatic pool plant status should be extended from the current August to December period to include January, February, and March. Distributing plants in the Chicago metropolitan segment of the market continue to rely heavily on shipments from supply plants during these months. Shipments from supply plants during January, February, and March of this year to distributing plants serving Chicago decreased less than 5 percent from the immediately preceding October, November, and December. In contrast, such shipments to all other distributing plants under the order decreased 59 percent during the same period.

The proportion of pool supply plant receipts shipped to all distributing plants during January, February, and March 1972, and January and February of this year averaged almost 33 percent. In this circumstance, a shipping requirement of as much as 30 percent would provide little flexibility in the level of shipping percentages as among supply plants, since all such plants would have to ship at about such minimum level in order for all of them to be able to pool.

During the months of January through March average daily production of milk increases seasonally from the lowest level in November to the peak level in May or June. In such circumstance, those supply plants serving Chicago metropolitan area distributing plants will likely begin to have more milk receipts than are needed to serve the fluid milk requirements of such distributing pants. Some such supply plants are located closer to Chicago than others. Thus, it would be possible to realize some savings in milk transfer costs if the needed milk shipments were obtained first from the closer-in supply plants. To accommodate this, the minimum supply plant shipping requirements would need to be somewhat below 30 percent, yet the unit pooling provision tends to accommodate this situation for those handlers operating two or more supply plants. Not all supply plants in the distant zones are included in units. Accordingly, it is appropriate to set the minimum shipping requirement significantly below the 33-percent average level of shipments from all supply plants during these months in the past 2 years.

It is concluded that a shipping requirement of 20 percent, as proposed, in each of the months of January, February, and March should be a reasonable standard since it would tend to allow for some flexibility in the shipping percentage among supply plants, yet still insure that milk is being made available to distributing plants serving the city of Chicago.

(b) Two or more supply plants can form a unit under order 30 and, as such, no specific shipping requirements need apply to any individual plant within the unit. The only shipping requirement is that the unit as a whole meet the percentages prescribed in the order for individual plants not in a unit. This provision was adopted in the order basically to accommodate efficiency in the assembly and processing of milk supplies associated with the market.

It is now clear that this provision allows excessive volumes of milk that are never intended for shipment to the fluid market to attach to the pool and share in pool proceeds. For example, in October 1972, one of the low production months, 37 plants having over 48 million pounds of milk shipped only 500,000 pounds to distributing plants not serving the city of Chicago, and made no shipments to plants serving Chicago. With respect to supply plants serving distributing plants with distribution in the city of Chicago, seven other supply plants shipped only 6.5 million of the 48 million pounds at these plants in October 1972. This is only token performance and is not fulfilling the role of supplying milk when the milk is needed. While many of these plants were qualifying in a unit by shipping as little as 1 percent, or even none, of their receipts, other plants were taking up the slack by shipping 40–70 percent of their receipts.

If plants in a unit are to be considered as serving the needs of the fluid market and thereby eligible to associate milk with the pool, they should be required individually to meet some minimum performance standard. Once again, setting such standard too low would serve no useful purpose and would continue, to an extent, the free-ride aspect of the current provisions. Yet, too high a shipping percentage would tend to require all plants in a unit to perform at the same level and would completely negate the purpose of the unit pooling provisions.

Consequently, it is reasonable to require each plant in a unit to ship each month at least half of the amount required of plants not in a unit provided the unit as a whole meets the minimum shipping requirements established for individual plants outside units.

There is a provision currently in the order, sometimes referred to as the "call" provision, under which the Director of the Dairy Division may increase or decrease the August through December supply plant shipping percentage figures up to 10 percent. Conforming changes should be made to this provision to include the January through March period and to specify that the shipping requirements of individual plants within a unit shall not exceed 50 percent of the requirements for plants not in a unit.

In their exceptions to the recommended decision, a group of proprietary operators of manufacturing plants objected to the shipping requirements adopted for individual plants within a unit on the basis that such requirements were unnecessary and would cause uneconomic movements of milk. On demonstration that milk shipped pursuant to these requirements is excessive and unnecessary, the Director of the Dairy Division, by use of the call provision mentioned above, is authorized to decrease the minimum shipping percentage by up to 10 points, including that for plants in a unit, during the months of January, February and March as well as for other months. This should provide sufficient flexibility in the requirements to avoid uneconomic movements.

The provisions relating to unit pooling should be further amended to provide that a plant must be a pool plant before it may be included in a unit. Under the current provision a handler or cooperative establishing a unit must notify the market administrator prior to August 1 each year of the plants to be included in the unit. In practice some plants have been included in units even

though they were not put in operation until some later date during the month of August. In such circumstance, the plant did not perform a supply plant function for the complete August through December qualifying period. Moreover, such practice creates an administrative problem for the market administrator in checking on whether the plant actually is functioning as such in the month of August.

Certain cooperatives proposed that a plant be required to be a pool plant before it is included in a unit. Such proposal should be adopted to assure that a newly added plant performs for the entire August–March period. If it so performs, it will be accorded automatic pool plant status for the following months of April–July.

A proposal to permit two or more proprietary handlers to form a unit on the basis of a written contractual agreement between them should not be adopted.

Under the current order provisions plants operated by proprietary handlers may be formed into a unit only if such plants are owned or fully leased by the operator establishing the unit. Cooperative associations, however, nave the additional option of forming a unit on the basis of a written contractual agreement obligating each plant of the unit to ship milk as directed by the agreement.

An association of cheesemakers proposed that two or more proprietary handlers be permitted to form a unit on the basis of a contractual agreement in order that they may pool supply plants on the same basis as cooperatives.

The establishment of a supply plant unit system by contractual arrangement was purposely limited to cooperatives when the unit pooling system was promulgated. Cooperative associations as a group have incentive to make their milk supplies available for Class I use since it is this market outlet that enhances the blend price to be paid to producers. On the other hand, proprietary operators have their primary interest in using milk in those products that return them the greatest net margin irrespective of the class of use.

Currently, certain Class II uses obviously provide a greater net margin than Class I use since many supply plant operators are reluctant to make milk available for Class I use. Because of this it is found necessary to tighten up the unit pooling option in an effort to assure that sufficient milk supplies will be made available for fluid use. Proponents offered no testimony to indicate that the proposal was designed to, or would, facilitate their making more milk available for fluid use. In these circumstances it is concluded that the proposal would not contribute to orderly marketing and therefore is denied.

(c) For the purpose of measuring actual shipping performance by a supply plant, only "net" receipts at a distributing plant from a supply plant (i.e., receipts less any Class II transfers from the distribution plant) should be counted.

Exception should be made, however, for a distributing plant that has direct receipts of producer milk to transfer such producer milk as necessary to manufacturing outlets on Saturdays and holidays, without such transfers being subtracted from shipments by supply plants during other days of the month.

On evidence that some supply plants were shipping only for the purpose of pool plant qualification and in so doing were "back-hauling" milk for Class II disposition, the order was amended in 1971 to "net out" receipts at a distributing plant from supply plants any shipments back from the distributing plant to supply plants (or to nonpool plants) on the same day. The purpose of the amendment was to discourage such back-hauling practices.

In practice the amendment is being circumvented, however. Milk may be brought into a distributing plant shortly before midnight on one day and be shipped back to the supply plant or to a nonpool plant for Class II use shortly after midnight. While the provisions of the order may not be violated by such practice, the intent of the provisions is circumvented.

Milk moved in this manner obviously is not intended to be used by the operator of the distributing plant to meet his Class I needs. Milk is so moved only for the purpose of qualifying the supply plant as a pool plant. The operator of such supply (manufacturing) plant thus is enabled to obtain supplies of milk for strictly manufacturing purposes at the Class II price and draw the blend price from the pool for payment to producers. The blend price to all producers is thereby lowered by the presence of milk in the pool that is, in effect, predestined for manufacturing use.

The order should be amended as set forth herein to provide that basically all milk shipped to a distributing plant must remain there to count towards pool qualification of the shipping supply plant. To accommodate handlers who must transfer direct receipts of producer milk to manufacturing outlets on Saturdays and holidays, however, it was proposed that this provision should not be effective on any Saturday or on Labor Day, Thanksgiving Day, Christmas, and New Year's Day during the 8-month performance period adopted herein. This will facilitate disposition of the inevitable weekend excesses over fluid requirements due to daily bottling schedules.

Regular supply plants do not have any need or incentive to backhaul milk during the automatic qualifying months April-July. The "net receipts" provision, however, should remain in effect in the event new supply plants qualify during the months of April through July. In this event during April through July transfers from the distributing plant of receipts of milk directly from producers on any Saturday or on Memorial Day and the Fourth of July should not be offset against receipts from supply plants during the month.

Some distributing plants follow a practice of clearing all bulk milk supplies out of their plants on Saturdays and holidays. In addition to the receipt of producer milk on those days, such plants may have some bulk milk supplies on hand at the end of the previous day that are transferred to manufacturing plants on a Saturday or holiday. It is intended that transfers to be excepted from the computation of "net receipts" at a distributing plant shall not exceed the volume of milk received directly from producers on such Saturday or holiday plus supplies left in the plant on the preceding day.

It would not be appropriate in determining net shipments simply to except the volume of producer receipts at the distributing plant on Saturdays and holidays. Otherwise a distributing plant that processes milk on such days could increase its direct receipts of producer milk on such days only for the purpose of enabling it to pool an equivalent quantity of supply plant milk that would be brought into the plant and backhauled to a manufacturing plant. Accordingly, this exception should not apply on Saturdays or holidays when the distributing plant is also receiving milk on the same day from a supply plant.

Also, if a distributing plant were to divert its producer milk on a Saturday or holiday, the volume of milk diverted from the plant on such day similarly would not be counted for offset purposes.

In light of the above considerations, it is concluded that the transfers of direct receipts of producer milk to be excluded from the computation of "net receipts" should not exceed an amount during the month computed as follows: Multiply the average daily receipts of producer milk at the plant during the previous month by the number of Saturdays and holidays in the current month; add 20 percent of such amount (to accommodate (1) transfers of any milk remaining in the plant at the end of the previous day, and (2) variations in the level of producer receipts at the plant); and subtract the quantity of producer milk diverted from the plant on such Saturdays and holidays. The average daily producer receipts during the previous month is employed in the computation in order that a distributing plant operator may know the amount of his excepted transfers at the time he transfers milk for manufacturing use. If a plant did not have receipts of producer milk during the previous month, average daily receipts during the current month should be used in lieu of the previous month.

Witnesses in opposition to the above proposals contended that sufficient supply-plant milk would be provided if the operators of distributing plants in Chicago were willing to pay supply-plant operators a higher handling fee for the milk. They claimed that supply plants should not be expected to give up milk for fluid use, with the plant realizing a

V 38 I 134 JUL 13 73 XUM

lower return than if the milk were manufactured into cheese. In effect, such witnesses were contending that if fluid handlers want the milk they should pay more for it to attract it away from the cheese plants.

No doubt more milk would be forthcoming from supply plants if fluid handlers were to pay supply-plant operators a handling fee in an amount that exceeds the return they realize from processing milk into cheese. The order Class I price, however, is substantially above the prices being paid for milk being put to cheese at unregulated plants in the milkshed. By drawing moneys from the pool, and sharing in the class I proceeds of the market, such milk enjoys the same return as that milk actually serving the fluid market.

The primary purpose of the Federal order is to insure an adequate and orderly supply of milk to the fluid market. The overall Class I utilization in this market has been about 42–43 percent in the past 2 years. This means that some 57–58 percent of the pooled milk supplies have been surplus to the needs of the fluid market in total. The problem at present is not an inadequate supply of milk for the market as a whole but the unavailability of sufficient supplies to meet the needs of that segment of the market, the Chicago metropolitan area, which must depend so greatly on supply-plant milk to meet its needs. It is not unreasonable, therefore, to fix shipping performance standards in a manner to induce the needed shipments from supply plants.

2. *Dairy farmer for other markets.*—The order should be amended to provide that a dairy farmer who was a producer during any "payback" month under another Federal order having provisions for a seasonal incentive "takeout-payback" (Louisville) plan shall not be a producer under this order during the following months of January through July.

Currently, any dairy farmer producing Grade A milk may be a producer under this order during any month by delivering to a pool plant.

A proprietary handler proposed that the milk of a producer that is received at a handler's pool plant under this order during the months of January through July not be pooled if milk of the same producer was received at another order plant operated by the same handler during any of the preceding months of August through December. Proponent stated that the purpose of this proposal was to prevent producers from transferring during the fall months to other Federal orders having Louisville plans, and then shifting back to this market during the flush production months.

Under orders having this type of seasonal incentive production plan, the otherwise applicable uniform price is reduced variously by 20–30 cents per hundredweight during the flush production season, usually April, May, June, and July.

In the fall months when production is seasonally at its lowest level, usually August through December, the money that was deducted during the previous spring is added to the uniform price. Such price may be increased by 25–35 cents per hundredweight as a result of the payback. The plan is designed to encourage a more even production pattern throughout the year, thus inducing more milk to be delivered in the fall when most needed. The Chicago Regional order does not contain provisions of this type, but the Chicago supply area and the supply areas of such other markets (Indiana, Central Illinois, Southern Illinois) overlap in Wisconsin.

There have been cases in which producers on the Chicago market became pooled under nearby orders that have the Louisville plan during the fall payback months, thus sharing in the payback moneys generated by that plan. The same producers then shifted back to the Chicago market after the payback months to avoid the period when deductions are made in the computation of the uniform price pursuant to the Louisville plan under the nearby orders. Producers should not be able to shift to other markets in the fall merely to take advantage of the payback period, then pool their milk on the Chicago order during the flush production months.

If another market is to have the availability of such supplies during the fall when milk is needed there, the Chicago market should not have the burden of such milk as surplus during the flush production months when there is no need for it in the other market. Producers participating in the moneys paid back pursuant to the Louisville plan under other orders should not be afforded an easy opportunity to shift back to the Chicago Regional order merely to avoid payment into the pool of the other order pursuant to the Louisville plan. This practice takes supplies of milk away from the Chicago market at a time when they are needed and then reassociates such supplies at a time when they are not needed, thereby depressing the uniform price and the returns to all producers. This is not conducive to orderly marketing.

Under the provisions adopted herein, the milk from such producers would be identified as other source milk and allocated to Class II. As such, this milk would be classified and priced in a manner similar to receipts of milk from producer-handlers, exempt distributing plants, and fluid milk products from a Government agency that has elected nonproducer status for the month. While not prohibiting or limiting the marketing of milk in this market by such producers, these provisions should discourage the disruptive pooling of neighboring markets' reserve milk supplies to avoid contributing to the seasonal incentive plans in such markets.

It was proposed that a producer not be pooled under this order if his milk were pooled at a plant operated by the same handler under any other order during the previous August–December period. To limit the application of these provisions to producers who delivered to plants operated by the same handler under the other order would not correct the problem described herein. Under these circumstances, Chicago order producers could arrange to deliver to the plant of any other handler in a neighboring market in the fall, then shift back to this market in the spring and be pooled. To correct the problem fully, the milk of producers who delivered during the payback months to a plant of any handler under another order containing provisions for a Louisville plan should not be pooled under this order during the following January through July.

These provisions should not apply to producers who may have shipped to an other Federal order market during the previous low production season where no seasonal incentive payment plan is employed. The problem is between the Chicago Regional order and those markets having Louisville plans. Accordingly, these provisions should be applied only to the milk of those producers pooled previously under orders having the Louisville-type seasonal incentive payment plan.

3. *Receipt of producer milk at a reload facility.*—The "plant" and "supply plant" definitions should be modified to further delineate what constitutes a receipt of milk at a bulk tank truck reload facility.

A cooperative association proposed to discontinue the current requirement that milk be commingled in a second tank truck with other milk at a reload facility to be deemed a receipt at such a plant. As proposed by the cooperative, any milk moved from the farm in a tank truck and transferred at a plant to an empty tank truck (without adding other milk to the load) would be deemed a receipt of producer milk at the plant.

Proponent stated that the purpose of the proposal was to avoid the need to continue a milk commingling practice it engages in at a reload facility to qualify producer milk for pooling. Presently, the cooperative often brings two tank trucks partially filled with milk picked up at farms into a reload facility. The milk in one tank truck is pumped into the other tank truck; then all of the milk is pumped back into the first tank truck. Thus, the milk on each truck is commingled and transferred to another tank truck to meet the letter of the present definition of a receipt of milk at a reload operation.

The requirement that milk be commingled with other milk in another tank truck at a reload facility is for the purpose of determining that such plant performed a supply function with respect to such milk.

The normal function of a bulk tank truck reload operation is to assemble milk from farm bulk tank truck routes into a larger over-the-road tank truck for transshipment to a distant distributing plant. Generally, such practice is a more economic means of assembling distant supplies of milk for distributing plants than for the smaller farm tank trucks to deliver milk directly to distributing plants. Reload facilities are located throughout the supply area in Wisconsin, which extends some 300 miles from distributing plants in the Chicago metropolitan area.

When a reload facility performs a supply plant function of assembling milk into larger loads for transshipment, the milk transshipped through such a plant would be commingled with other milk in another tank truck.

If a partially loaded tank truck stops at a reload facility to take on additional milk (from another tank truck), only that quantity of milk added should be considered a receipt and transshipment of milk from such plant. The milk already on the tank truck should be treated as a receipt at the plant at which it is actually unloaded. No supply function is performed by the reload facility with respect to the milk already in the truck on arrival there.

Similarly, if milk leaves a reload facility on the same tank truck that it arrived there in, it should not be considered a receipt at or transshipment from the facility since no true supply plant function is performed with respect to such milk. Accordingly, if milk is simply pumped into another tank truck and then pumped back into the original tank truck and moved to another plant, it should not be considered as received at or transshipped from the reload facility, since no supply plant function takes place with respect to such milk.

Definitiveness of what constitutes a receipt of milk at a reload facility, and a transshipment from the facility, is necessary to insure that a supply function takes place as opposed to operation of such a facility only for the purpose of transferring milk from truck to truck so that it will be considered a receipt at a pool plant for pooling when it is destined for a nonpool manufacturing plant. The latter operation only serves to circumvent the intent of the limits on diversion of milk to nonpool plants.

Milk handling at a reload station should serve a useful supply plant function as a condition of such a facility being deemed a pool supply plant with respect to the milk received and transshipped from the plant. Accordingly, the proposed amendment should be denied. Moreover, to fully effect the intent of the present order language describing a receipt and transshipment from a reload facility, it should further be specified that milk be transshipped in a tank truck other than the one it arrived there in to be considered a receipt at the plant.

4. *Diversions.*—The provisions relating to diverted milk should be modified as follows:

(a) Each producer should be required to deliver at least 30 percent of his milk to pool plants during the months of January, February, and March to qualify such producer's milk for pooling under the order.

Currently, a producer pooled under the order during the previous August–December period by delivering at least 50 percent of his milk to pool plants may divert all of his milk to nonpool plants during the following January–July.

It was proposed at the hearing that if the shipping performance period for supply plants were extended from the current August–December period to include the months of January, February, and March, the limitations on diverted milk applicable during August–December likewise should be extended. It was contended that if supply plants are to be required to make milk available for the fluid market during these additional months, individual producers also should be required to perform additionally during this period.

Elsewhere in this decision it is provided that the shipping performance period for regular supply plants be extended from the current August–December period to include the months of January, February, and March. In view of this extension of the performance period for supply plants desiring to participate in this market, it is concluded that producers individually as well as supply plants should be required to perform additionally during these months. As stated earlier, distributing plants rely heavily on supply plant milk during these months. Producers, therefore, should be required to make the milk available to pool plants instead of diverting the major portion of it to nonpool manufacturing plants.

The recommended decision provided that not more than 50 percent of a producer's milk could be diverted to nonpool plants in such months. In the exceptions to be recommended decision representatives of a farmers' organization and a group of proprietary handlers operating manufacturing plants excepted to a 50 percent delivery requirement by the individual producer in January, February, and March on the basis that this would be excessive when supply plants were being required to ship only 20 percent of their milk to distributing plants during this period. After consideration of the exceptions, it is concluded that while some additional delivery requirement is appropriate, it need not be as high as 50 percent of deliveries. Accordingly, the volume of milk required to be delivered to pool plants by the individual producer during any month January through March is lowered from the 50 percent level to 30 percent of his milk deliveries. This will be more closely in line with the aggregate delivery requirement on the plant.

(b) The provision limiting the quantity of a new producer's milk that may be diverted to the quantity of such producer's milk received in pool plants during the first full month of his association should be made to apply in the months of April, May, June, and July. Only those producers who are on the market during the low production months of August–December should be accorded unlimited diversion privilege during the subsequent April–July period.

Currently under the order, the quantity of milk of a new producer that may be diverted is limited to an amount equal to the quantity of such producer's milk received in a pool plant only until after the "first full month" of association with the market. This provision only applies to a producer whose first full month of delivery is during any of the months of January through July. After the first full month of association during such 7-month period the milk of such producer may be diverted to nonpool plants on an unlimited basis as for any other producer.

Two proposals were made to amend the current order language so as to use the terms "30 days" rather than "full month" when limiting the diversions of a new producer. The witness for one of the proponents testified that under the current wording of the order a new producer coming on the market any time after the first day of a month cannot attain unlimited diversion privileges (during January–July) as a regular producer until after the end of the following month (i.e., in some instances almost 2 full months). The witness contended that 30 days of association by a producer would adequately qualify his milk for pooling under the order.

The other proponent of this change, as contained in the hearing notice, modified his proposal at the hearing so as to provide that a new producer coming on the market during the months of January through July would have to make only one delivery to a pool plant to be eligible for full diversion thereafter. The only reason given by the witness in support of this proposed order change was that it would treat new producers on the market the same as producers who change from a pool plant of one handler to a pool plant of another handler.

The diversion privilege is intended primarily to obtain efficiency in the disposition of that milk temporarily not needed at a pool plant. The operators of distributing plants typically associate a sufficient supply of milk with their operations by receipts from dairy farmers and supply plants to cover their requirements on peak bottling days during the period of seasonally low production. Consequently, there are substantial quantities of milk produced on the other days of the week during the low production season, as well as throughout the period of seasonally high production, that must be moved to plants where it can be utilized in manufacturer dairy products. The diversion provisions allow this temporary surplus production to be moved directly from the farm to nonpool manufacturing plants and still remain pooled under the order.

During the fall and winter months, the low production season, diversions of producer milk are limited in an effort to assure that the milk associated with the market is available to pool plants. Then, during the spring and summer months, the heavy production season, these limitations are removed to enable the milk of producers regularly supplying the market to be efficiently marketed to nonpool manufacturing plants when it is not needed at pool plants.

The diversion privilege, however, is not a concept designed to aid in the qualification of new producers on the market,

V 38 I 134 JUL 13 73 XUM

particularly when such limits are lifted during the flush production season and additional supplies are not needed on the market.

The utilization of milk in the Chicago Regional market during the short production months has been about 50 percent Class I. During the flush production months the Class I utilization has ranged from about 34 to 40 percent. Clearly, during the flush production months there is no need to induce additional supplies of milk to be pooled on this market.

Deletion of the provisions limiting the diversions for new producers would make it very easy to associate new supplies of milk with the market. As proposed, the milk of new producers would have to be delivered only once to pool plants during the months of January through July to qualify for pooling and diversion. Thus, substantial additional quantities of milk could be essential with the pool, share in the uniform price, and never be made available to the fluid market. This would not be in the interest of orderly marketing.

The effects of a depressed uniform price are particularly acute in the more distant zones of the Chicago milkshed where such price competes with the prevailing prices being paid for manufacturing grade milk. Prices being paid for milk used to produce cheese at certain unregulated plants during March 1973 ranged from $5.75 to over $6 per hundredweight. In March 1973, the uniform price in Zone 18 was $5.73. One distributing plant operator testified at the hearing that in the recent past his company has lost over 2 million pounds of milk a month to cheese plants that are sharing in the pool but not making the milk available for fluid use. The witness claimed the only way they could have kept this milk was to pay above the order uniform price to these producers.

The association of additional supplies of milk with the pool, thus depressing the uniform price further, would aggravate a milk procurement situation that is already difficult for fluid milk handlers.

As stated previously, the milk of producers regularly supplying the market may be diverted currently during the months of January through July. (This period is being shortened to April to July as adopted hereinbefore.) These producers have demonstrated their association with, and desire to serve, the market when their milk is needed most. New producers coming on this market other than during the August to December period when milk is most needed, therefore, should do so only in response to a need for the milk and should be required to demonstrate their intent to truly serve the needs of the market. Only by making significant shipments to pool plants can new producers demonstrate their association with and intention of serving the fluid market. If new producer wish to come on during this period, however, and the plants through which they will be pooled want the milk, such plants should receive at least 50 percent of the milk from these producers in each month. The order provisions should be written to reflect this purpose.

Since the diversion provisions are tightened as set forth above, the proposal to change the words "full month" to read "30 days", which would relax diversion limits for new producers, is denied.

(c) A producer who supplies the market during any of the months of August through December and who subsequently fails to maintain continuous producer status should not be required to requalify as a new producer for diversion purposes during the following months April to July, unless he is off the market more than 30 consecutive days.

It was proposed at the hearing that in situations where, for example, a producer is off the market for less than 30 days as a result of his farm being degraded that, upon reinstatement of his health permit, such producer not be required to requalify as a new producer. Proponents contended that in most cases such problems are corrected in a few days and the producer resumes his delivery to a pool plant. They claimed that additional transportation costs are incurred in having to requalify as a new producer, unnecessarily reducing returns to such producer.

This particular diversion provision would only have applicability to diversion limits during April to July. During other months of the year there would be no differentiation for diversion as between new and regular producers.

There have been cases where producers' farms have been degraded and they could not deliver to the Grade A market for a few days. After reinstatement of their health permits such producers were in the category of a new producer and thus were required under the order to deliver at least 50 percent of their producer milk to pool plants during the first full month of delivery commencing with their return to the market. This situation has occurred during the months when diversion limits are relaxed with respect to regular producers and has resulted in additional transportation and handling costs to requalify a producer who had demonstrated his association with the market.

As is provided for elsewhere, all producers are required to demonstrate their association with the market by shipping their producer milk to pool plants during each of the months of August through March. To require additional shipments of milk to pool plants during the flush production months by producers who have demonstrated their association during the previous period of low production, but for one reason or another were unable to deliver their milk for a limited number of days, is an undue hardship and serves no useful purpose.

This noncancellation of regular producer status should not be limited to cases where a producer loses his health approval. It is intended to apply equally in any reasonable circumstances whereby a producer is unable to deliver his milk for a few days as a result of events or actions not of his own choosing. This will allow for other eventualities such as severe storms, accidents, or other situations that might hamper a producer's ability to deliver milk as producer milk for a limited number of days.

5. *Location adjustments to producers.* The proposal to adjust the uniform price applicable to producers according to the county in which the producer's farm is located should not be adopted on the basis of this record.

As association of cheesemakers located in Wisconsin proposed that the uniform price to producers be adjusted according to the location of the farm, by counties, as opposed to the current adjustment procedure; i.e., according to the location of the plant to which the milk is delivered. Proponent stated, however, that its proposal be limited only to the uniform price for milk delivered to supply plants. The current location adjustments apply at all types of plants and to both class I and uniform prices.

Proponent witness stated that its proposed amendment would encourage each producer to deliver his milk to the supply plant located closest to his farm. He contended that this would result in a lesser transportation allowance credited under the order for assembling milk through supply plants. To demonstrate the impact of the proposal, proponent witness cited the case of producers located near his plant in Zone 18 who are delivering milk to a supply plant located in Zone 12 (a 12-cent higher price zone). Under the proposal, the plant in Zone 12 would not be credited at any higher uniform price than the plant in Zone 18 for milk received from such producers.

Under the current order provisions Class I and uniform prices are adjusted to reflect the added transportation cost of delivering milk to the market center (Chicago) compared to plants nearer the production area in Wisconsin.

The adjustments apply uniformly at any given plant location. For milk moved to the market center through a pool plant the handler operating the transferee plant receives a transfer credit in the amount of the location adjustment applicable at the transferor plant location. If milk is moved directly to the market center from the farm rather than through a plant closer to his farm a higher uniform price is applicable at the market center.

The monetary inducement to move milk to the market center is virtually the same for a producer to ship the milk directly from the farm as it is for a handler to first assemble the milk at a plant in the production area. Moreover, the monetary incentive to move milk to the market center under the current Class I and uniform price location adjustment provisions is the same when milk is moved to the market center through a supply plant located near a producer's farm as it is through a supply plant located closer to the market center.

In the case cited by proponent the transfer credit for milk assembled at a supply plant in Zone 18 exceeds the transfer credit applicable to milk assembled at a supply plant in Zone 12 by the same amount that the uniform price at the plant in Zone 12 exceeds the uniform price at a plant in Zone 18.

With respect to milk produced near proponent witness' plant in Zone 18 but assembled at a supply plant in Zone 12, the proposal would reduce the uniform price for such milk by 12 cents (to the Zone 18 price rather than the Zone 12 price). Since producers pay for hauling their milk from farm to plant, such producers could be expected to seek a pool plant outlet closer to their farms in Zone 18. But for milk assembled at Zone 18 rather than Zone 12 the transfer credit would be 12 cents higher. Thus, if such producer milk is moved to the market center through a Zone 18 supply plant rather than a Zone 12 supply plant, there would not be any savings in milk assembly costs resulting from the location adjustment provisions.

Such proposal may in certain circumstances result in increased milk assembly costs. For example, producers whose farms are located in Zone 15 equidistant from a supply plant in Zone 12 and proponent witness' plant in Zone 18 would receive the same price irrespective of the plant to which they deliver. Such producers' farm-to-plant hauling cost would tend to be the same for delivery to the Zone 12 plant and the Zone 18 plant. However, if the milk were assembled at the Zone 18 plant, the transfer credit for moving the milk to the market center would be 12 cents greater than if it were assembled at the Zone 12 plant.

Since proponent limited the application of its proposal to only milk delivered to pool supply plants, the current location adjustment provisions would continue to apply to milk delivered to other types of plants. This would tend to result in different uniform prices for milk delivered to plants similarly located, since many supply plants in the market are located near pool distributing plants.

The type of plant-milk is received at does not have a bearing on the cost of moving milk to such plant from the farm. Consequently, type of plant does not provide an appropriate basis for adjusting prices for location, since it would not provide uniformity of prices among producers delivering milk to all plants at similar location relative to the market center.

In view of the above considerations, it is concluded that the proposed amendment to the location adjustment provisions should not be adopted.

6. *Emergency action.* The decision by the Deputy Administrator to deny the request for emergency action and/or suspension of the automatic and unit pooling provisions, with the reasons therefor, is affirmed herein.

Rulings on proposed findings and conclusions.—Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions, and the evidence in the record, were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

General findings. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Rulings on Exceptions

In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence. To the extent that the findings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

Marketing Agreement and Order

Annexed hereto and made a part hereof are two documents, a Marketing Agreement regulating the handling of milk, and an Order amending the order regulating the handling of milk in the Chicago Regional marketing area which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That this entire decision, except the attached marketing agreement, be published in the Federal Register. The regulatory provisions of the marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which is published with this decision.

Determination of Producer Approval and Representative Period

February 1973 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order, as amended and as hereby proposed to be amended, regulating the handling of milk in the Chicago Regional marketing area is approved or favored by producers, as defined under the terms of the order (as amended and as hereby proposed to be amended), who during such representative period were engaged in the production of milk for sale within the aforesaid marketing area.

Signed at Washington, D.C., on July 9, 1973.

Clayton Yeutter,
Assistant Secretary.

Order[1] amending the order, regulating the handling of milk in the Chicago Regional marketing area.

Findings and Determinations

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings.* A public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Chicago Regional marketing area.

The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

V 381347 JUL 13 73 XUM

affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Chicago Regional marketing area shall be in conformity to and in compliance with the terms and conditions of the order, as amended, and as hereby amended, as follows:

The provisions of the proposed marketing agreement and order amending the order contained in the recommended decision issued by the Deputy Administrator, Regulatory Programs, on June 12, 1973, and published in the FEDERAL REGISTER on June 15, 1973 (38 FR 15730) shall be and are the terms and provisions of this order, amending the order, and are set forth in full herein subject to modifications in §§ 1030.11(b)(6) and 1030.16(e)(1).

1. In § 1030.10 paragraphs (a) and (c) are revised to read as follows:

§ 1030.10 Plant.

(a) "Plant" means a building together with its facilities and equipment, whether owned or operated by one or more persons constituting a single operating unit or establishment: (1) that has facilities adequate for cleansing tank trucks, is approved by an appropriate health authority, and at which milk moved from the farm is transferred and commingled in another tank truck with other milk and is transshipped in such other tank truck to another plant, (2) at which milk is received from dairy farmers, or (3) at which milk is processed and packaged or manufactured. If a portion of the building is not approved by any health authority for the receiving, processing, or packaging of any fluid milk product for Grade A disposition and is physically separated from the approved portion, such unapproved portion shall not be considered as meeting the terms of this definition.

• • • • • •

(c) "Supply plant" means a plant from which a Grade A fluid milk product is shipped or transshipped during the month to another plant. Such supply plant shall be equipped with storage capacity sufficient to hold the largest quantity of fluid milk product either received in the plant or shipped from the plant as a single load during the month, except that no storage capacity shall be maintained in a plant described in paragraph (a)(1) of this section. Any plant located on the premises of a pool distributing plant pursuant to § 1030.11(a) shall not be considered a supply plant unless it is located in a building that is entirely separate from the distributing plant.

2. In paragraph (b) of § 1030.11 subparagraphs (4), (5), (6), and (7) are revised to read as follows:

§ 1030.11 Pool plant.

• • • • • •

(b) • • •

(4) Such percentage shall be not less than 40 for each of the months of September, October, and November, and 30 for all other months, except that a plant that was a pool plant pursuant to this paragraph during each of the months of August through December, the percentage shall be not less than 20 for each of the following months of January, February, and March. A plant meeting such requirements for August through March shall be a pool plant for each of the following months of April through July, unless:

(i) The milk received at the plant does not continue to meet the Grade A milk requirements for use in fluid milk products distributed in the marketing area; or

(ii) Written application is filed with the market administrator by the plant operator on or before the first day of any such month (April–July) requesting the plant be designated a nonpool plant for such month and any subsequent month through July, provided it does not otherwise qualify as a pool plant.

(5) For the purpose of determining the percentages specified in subparagraphs (4) and (7) of this paragraph, the quantity of fluid milk products moved from a supply plant pursuant to subparagraph (1)(i) of this paragraph shall be a net quantity assignable at pool distributing plants computed by subtracting from the quantity of fluid milk products received from a supply plant(s), but not to exceed such quantity, the amounts described in subdivisions (i) and (ii) of this subparagraph (if fluid milk products are received from more than one supply plant, such net quantity assignable shall be prorated among supply plants in accordance with the total receipts from such plants).

(i) The quantity of fluid milk products in the form of bulk milk and skim milk transferred from the pool distributing plant to pool supply plants plus any such bulk shipments to nonpool plants as Class II milk, other than:

(*a*) Transfers classified pursuant to § 1030.41(b)(4); and

(*b*) Transfers on any Saturday or on New Year's Day, Memorial Day, July 4, Labor Day, Thanksgiving, or Christmas, that no milk is received at the pool distributing plant from a supply plant, in an amount not in excess of 120 percent of the average daily receipts of producer milk pursuant to § 1030.16(a) at the plant during the prior month, less the quantity of producer milk diverted pursuant to § 1030.16(d) on such day. If no producer milk was received in the distributing plant during the prior month, the average daily receipts during the current month shall be used in lieu of the prior month for computing the transfers to be excepted by this subdivision; and

(ii) If milk is diverted from the pool distributing plant on the date of the receipt from the supply plant, the quantity so diverted, except any diversion of milk (not to exceed 3 days' production of any individual producer) made because of an emergency situation such as a breakdown of trucking equipment or hazardous road conditions shall not be subtracted if such emergency is reported to the market administrator.

(6) The percentages specified in subparagraph (4) and/or in subparagraph (7)(iii) of this paragraph applicable during the months August–March shall be increased or decreased by up to 10 percentage points by the Director of the Dairy Division if he finds such revision is necessary to obtain needed shipments or to prevent uneconomic shipments, except that the percentages specified in subparagraph (7)(iii) shall not exceed 50 percent of those specified in subparagraph (4). Before making such a finding the Director shall investigate the need for revision either on his own initiative or at the request of interested persons and if his investigation shows that a revision might be appropriate he shall issue a notice stating that revision is being considered and inviting data, views, and arguments with respect to the proposed revision: *Provided*, That if a plant which would not otherwise qualify as a pool plant during the month pursuant to subparagraph (4) or subparagraph (7)(iii) of this paragraph would qualify as a pool plant as a result of this subparagraph, such plant shall be a nonpool plant for such month upon filing by the operator of such plant a written request for nonpool status with the market administrator.

(7) Two or more plants shall be considered a unit for the purpose of this paragraph if the following conditions are met:

(i) The plants included in a unit are owned or fully leased and operated by the handler establishing the unit and such plants shall have been pool plants the month prior to being included in a unit. In the case of plants operated by cooperative associations two or more cooperative associations may establish a unit of designated plants by filing with the market administrator a written contractual agreement obligating each plant of the unit to ship milk as directed by such cooperatives;

(ii) The handler or cooperatives establishing a unit notify the market administrator in writing of the plants to be included therein prior to August 1 of each year and no additional plants shall be added to the unit prior to August 1 of the following year;

(iii) Each plant in a unit ships or transships to plants specified in subparagraph (1) of this paragraph the following percentages of its producer milk: 20 in each of the months of September, October, and November; 15 in each of the months of August and December; and 10 in each of the months of January, February, and March. If for any month a plant does not meet the individual plant shipping percentage, that plant shall be excluded from the unit; and

(iv) The notification pursuant to subdivision (ii) of this subparagraph shall list the plants in the order in which they shall be excluded from the unit if the minimum shipping requirements are not met, such exclusion to be in sequence beginning with the first plant on the list and continuing until the remaining plants as a unit have met the minimum requirements.

• • • • • •

3. In § 1030.15 delete the "and" at the end of paragraph (b), delete the period at the end of paragraph (c) and add "; and," and add a new paragraph (d) to read as follows:

§ 1030.15 Producer.

• • • • • •

(d) A dairy farmer with respect to milk produced by him that is received at a handler's pool plant during the months of January through July if any milk from the same farm was a receipt of producer milk in any "payback" month during the preceding year under an other order that provided for a seasonal incentive payment plan whereby funds previously withheld in the computation of the uniform price to producers were paid back to producers through the uniform price computation in subsequent months of the year.

4. In § 1030.16 paragraph (e) is revised to read as follows:

§ 1030.16 Producer milk.

• • • • • •

(e) Diverted from a pool plant to a nonpool plant, subject to the conditions specified in this paragraph. Milk shall be eligible for diversion as producer milk only if the person producing such milk had delivered milk as producer milk to a pool plant prior to the diversion. Milk picked up at a producer's farm in a tank truck, to the extent it is unloaded at a nonpool plant, shall be subject to the conditions specified in this paragraph; and if the tank truck contains milk from more than one producer, the quantity subject to the conditions specified in this paragraph shall be prorated over the total quantity of milk picked up at each producer's farm. In calculating the percentages specified in § 1030.11, milk so diverted shall be considered as received in the pool plant from which diverted. The location price differentials pursuant to § 1030.82 shall be based on the zone location of the nonpool plant(s) where such milk is physically received, except that in the case of a distributing plant, diverted milk of a producer shall be priced at the location of such plant if during the month not more than 4 days' production of such producer is diverted, or if the diverted milk is part of a tank truck load of milk that exceeds the milk storage capacity of such distributing plant. Diverted milk shall be limited as follows:

(1) Milk of a producer diverted for the account of the operator of a pool plant or a cooperative association pursuant to § 1030.13(d) that during the months of April through December does not exceed the quantity of such producer's milk received in the pool plant from which diverted, and during the months of January, February and March does not exceed 70 percent of such producer's milk received in or diverted from such pool plant: *Provided*, That during the months of April through July such limits shall not apply for a producer who delivered to a pool plant any time during the prior August–December period and subsequently maintained producer status without interruption of more than 30 consecutive days;

(2) To the extent that milk diverted by a cooperative as a handler during any month would result in the plant failing to qualify as a pool plant under § 1030.11 such diverted milk shall not be producer milk;

(3) Milk diverted to an other order plant shall be producer milk pursuant to this section only if it is not producer milk under such other order; and

(4) Milk of a producer diverted by a handler who fails to report the information required pursuant to § 1030.31(b)(4) shall not be considered producer milk pursuant to this paragraph.

5. In § 1030.30 subparagraph (3) of paragraph (a) is revised to read as follows:

§ 1030.30 Reports of receipts and utilization.

• • • • • •

(a) • • •

(3) Fluid milk products received from pool plants of other handlers (or other pool plants, as applicable), including a separate statement of the net receipts from each supply plant computed pursuant to § 1030.11(b)(5), except that during the months of April through July no such separate statement need be made if receipts from supply plants are only from plants that were pool plants during the prior months of August through March;

• • • • • •

6. In paragraph (b) of § 1030.31 delete the term "and" at the end of subparagraph (4), add the term "and" at the end of subparagraph (5), and add a new subparagraph (6) to read as follows:

§ 1030.31 Other reports.

• • • • • •

(b) • • •

(6) Each handler who, during the month, received milk from a dairy farmer from whom he had not received milk for at least 30 consecutive days, shall report the name and address of the dairy farmer and the plant to which each such person previously delivered milk. Each handler who discontinues receiving milk from a producer during the month shall report each such producer's name, address, and the plant to which such person transferred.

• • • • • •

7. In § 1030.46(a)(3) delete the term "and" at the end of subdivision (iv), change the period at the end of subdivision (v) to a semicolon, add the term "and" at the end of subdivision (vi), and add a new subdivision (vii) to read as follows:

§ 1030.46 Allocation of skim milk and butterfat classified.

• • • • • •

(a) • • •

(3) • • •

(vii) Receipts of fluid milk products from persons described in § 1030.15(d);

• • • • • •

[Docket No. AO 376]

MILK IN THE FRONTIER MARKETING AREA

Notice of Rescheduling of Hearing on Proposed Marketing Agreement and Order

A notice was issued on May 11, 1973 (38 FR 12986) giving notice of a public hearing to be held at the U.S. Courthouse, Old Federal Building (Courtroom 1), 111 South Wolcott Street, Casper, Wyoming, beginning at 10 a.m., local time, on June 26, 1973, with respect to a proposed marketing agreement and order, regulating the handling of milk in the Frontier marketing area.

A second notice was issued on June 18, 1973 (38 FR 16363) postponing the hearing until a date to be announced at a later time.

Notice is hereby given, pursuant to the rules of practice applicable to such proceedings (7 CFR Part 900), that said hearing is rescheduled to be held at the U.S. Courthouse, Old Federal Building, (Courtroom 1), 111 South Wolcott Street, Casper, Wyoming, beginning at 10 a.m. local time, on August 7, 1973.

Copies of this notice of rescheduling of hearing may be procured from the Hearing Clerk, Room 112, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, or may be there inspected.

Signed at Washington, D.C., on July 10, 1973.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

[FR Doc.73-14383 Filed 7-12-73;8:45 am]

Animal and Plant Health Inspection Service

[9 CFR Part 381]

4-D POULTRY PRODUCT

Transportation and Handling

Pursuant to the authority in the Poultry Products Inspection Act (71 Stat. 441, as amended; 21 U.S.C. 451 et seq.), the Animal and Plant Health Inspection

V 38-134 JUL 13 73 XUM

Service is proposing an amendment to Part 381, Subpart S, of the poultry products inspection regulations (9 CFR 381.94, 381.224) to set forth requirements and restrictions on the handling and movement of 4–D poultry.

Statement of considerations. Section 11(d) of the Poultry Products Inspection Act authorizes the Secretary to regulate the transactions, transportation in commerce, or importation of any dead, dying, disabled, or diseased (otherwise known as 4–D) poultry or any parts of any carcass of poultry that died otherwise than by slaughter. To administer the provisions of said section of the Act, the poultry products inspection regulations would be amended by adding a new § 381.194 in Subpart S. This new section spells out the requirements and restrictions on the handling and movement of so-called 4–D poultry to insure it is not diverted into food channels. Generally, the requirements would prohibit the movement of 4–D poultry to destinations other than animal food manufacturers, renderers, or Federal or State inspected establishments; it prohibits unloading of such poultry en route except for emergencies; and prohibits hauling such poultry in vehicles with healthy poultry or wholesome poultry product.

The language of this proposal is very similar to that in § 325.20 of the meat inspection regulations.

Part 381, Subpart S, of the poultry products inspection regulations would be amended as follows:

1. The Table of Contents would be amended by adding a new § 381.194 as follows:

Sec.
381.194 Transportation and other transactions concerning dead, dying, disabled, or diseased poultry, and parts of carcasses of poultry that died otherwise than by slaughter.

2. The proposed new § 381.194 would read as follows:

§ 381.194 Transportation and other transactions concerning dead, dying, disabled, or diseased poultry, and parts of carcasses of poultry that died otherwise than by slaughter.

No person engaged in the business of buying, selling, or transporting in commerce, or importing any dead, dying, disabled, or diseased poultry or parts of the carcasses of any poultry that died otherwise than by slaughter shall:

(a) Sell, transport, offer for sale or transportation, or receive for transportation, in commerce, any dead, dying, disabled, or diseased poultry, or parts of the carcasses of any poultry that died otherwise than by slaughter, unless such poultry and parts are consigned and delivered, without avoidable delay, to establishments of animal food manufacturers, renderers, or collection stations that are registered as required by § 381.179, or to official establishments that operate under Federal inspection, or to establishments that operate under a State or Territorial inspection system approved by the Secretary as one that imposes requirements at least equal to the Federal requirements for purposes of section 5(c) of the Act.

(b) Buy in commerce or import any dead, dying, disabled, or diseased poultry or parts of the carcasses of any poultry that died otherwise than by slaughter, unless he is an animal food manufacturer or renderer and is registered as required by § 381.179, or is the operator of an establishment inspected as required by paragraph (a) of this section and such poultry or parts of carcasses are to be delivered to establishments eligible to receive them under paragraph (a) of this section.

(c) Unload en route to any establishment eligible to receive them under paragraph (b) of this section, any dead, dying, disabled, or diseased poultry or parts of the carcasses of any poultry that died otherwise than by slaughter, which are transported in commerce or imported by any such person: *Provided*, That any such dead, dying, disabled, or diseased poultry, or parts of carcasses may be unloaded from a means of conveyance en route where necessary in case of a wreck or otherwise extraordinary emergency, and may be reloaded into another means of conveyance; but in all such cases, the carrier shall immediately report the facts by telegraph or telephone to the Director, Compliance Staff, Meat and Poultry Inspection Program, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250.

(d) Load into any means of conveyance containing any dead, dying, disabled, or diseased poultry, or parts of the carcasses of any poultry that died otherwise than by slaughter, while in the course of importation or other transportation in commerce any poultry or parts of carcasses not within the foregoing description or any other products or other commodities.

3. Section 381.224 would be amended by adding a regulation reference to § 381.194 along with "Act, 11(d)" in the table as follows:

§ 381.224 Designation of States under section 11 of the Act; application of sections of the Act and the regulations.

Paragraphs of act and regulations	Classes of operators	State	Effective date
•	•	•	•
Act, 11(d); § 381.194.			

Any person wishing to submit written data, views, or arguments concerning the proposed amendments may do so by filing them in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by September 21, 1973.

Any person desiring opportunity for oral presentation of views should address such requests to the Inspection Standards and Regulations Staff, Scientific and Technical Services, Meat and Poultry Inspection Program, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250, so that arrangements may be made for such views to be presented prior to the date specified in the preceding paragraph. A record will be made of all views orally presented.

All written submissions and records of oral views made pursuant to this notice will be made available for public inspection in the Office of the Hearing Clerk during regular hours of business, unless the person makes the submission to the Staff identified in the preceding paragraph and requests that it be held confidential. A determination will be made whether a proper showing in support of the request has been made on grounds that its disclosure could adversely affect such person by disclosing information in the nature of trade secrets or commercial or financial information obtained from any person and privileged or confidential. If it is determined that a proper showing has been made in support of the request, the material will be held confidential; otherwise, notice will be given of denial of such request and an opportunity afforded for withdrawal of the submission. Requests for confidential treatment will be held confidential (7 CFR 1.27(c)).

Comments on the proposal should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

Done at Washington, D.C., on: July 10, 1973.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-14389 Filed 7-12-73;8:45 am]

[9 CFR Parts 318, 325]

TREATMENT OF PORK AND PORK PRODUCTS

Additional Product Sealing Methods

Pursuant to the authority contained in the Federal Meat Inspection Act, as amended (21 U.S.C. 601 *et seq.*), notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that the Animal and Plant Health Inspection Service proposes to amend the meat inspection regulations (9 CFR Parts 318 and 325) to permit additional sealing methods for transportation of certain restricted meat products.

Statement of considerations. The current regulations specify that certain restricted meat products may be transferred in vehicles sealed with official program seals, or in closed containers sealed by cording and affixing thereto official program wing seals or sealing with wax impressed by an official program metal brand.

The two methods of closing containers approved by the regulations are no longer applicable since the program has discontinued issuing wing seals and wax seals are seldom used. Other control methods have not been permitted. However, this proposal does specify a sealing method for boxed products and proposes to give the Administrator authority to approve additional sealing measures.

Therefore, § 318.10(c)(2)(vi) would be amended to read as follows:

§ 318.10 Prescribed treatment of pork and products containing pork to destroy trichinae.

• • • • • •

(c) • • •
(2) • • •

(vi) Pork which has been refrigerated as specified in this subparagraph may be transferred in sealed railroad cars, sealed motortrucks, sealed trailers, or sealed closed containers to another official establishment at the same or another location, for use in the preparation of product covered by paragraph (b) of this section. Such vehicles and containers shall be sealed and transported between official establishments in accordance with § 325.7 of this subchapter.

• • • • • •

Further, § 325.7(b) would be amended as follows:

§ 325.7 Shipment of products requiring special supervision between official establishments under official seal; certificate.

• • • • • •

(b) When such restricted product is shipped from one official establishment to another official establishment in the same railroad car or other means of conveyance with other product, such restricted product shall be packed in individual closed containers as hereinafter provided. Containers shall be sealed by firmly applying a pressure sensitive tape around each container in two directions and stamping the intersection of the tape with the marking device described in § 312.2(a) of this subchapter for use on burlap, muslin, etc. (2½-inch rubber brand). Such tape must possess the adhesive property to actually remove a portion of the container surface when the tape is removed. Such restricted product shall be marked "U.S. passed for cooking" or "pork product ----"F.----days refrigeration" or "beef passed for refrigeration," as the case may be. In addition, a "U.S. retained" tag shall be securely affixed to each container of product passed for cooking and of beef passed for refrigeration. The means of conveyance shall not be sealed unless at least 25 percent of the other product in the vehicle is unmarked. For each consignment there shall be promptly issued and forwarded by the inspector to the inspector in charge at destination, a report on the form entitled "Notice of Unmarked Meats Shipped in Sealed Cars," appropriately modified to show the character of the containers, and that the contents are restricted. A duplicate copy shall be retained in the program files.

• • • • •

Any person wishing to submit written data, views, or arguments concerning the proposed amendments may do so by filing them in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by September 14, 1973.

Persons desiring an opportunity for oral presentation of views should address such requests to the Inspection Standards and Regulations Staff, Scientific and Technical Services, Meat and Poultry Inspection Program, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250, so that arrangements may be made for presentation of such views prior to the date specified in the preceding paragraph. A record will be made of all views orally presented.

All written submissions and records of oral views presented pursuant to this notice will be made available for public inspection in the Office of the Hearing Clerk during regular hours of business, unless the person makes the submission to the staff identified in the preceding paragraph and requests that it be held confidential. A determination will be made whether a proper showing in support of the request has been made on grounds that disclosure of the material submitted could adversely affect such person by disclosing information in the nature of trade secrets or commercial or financial information obtained from any person and privileged or confidential. If it is determined that a proper showing has been made in support of the request, the material will be held confidential; otherwise, notice will be given of denial of such request and an opportunity afforded for withdrawal of the submission. Requests for confidential treatment will be held confidential (7 CFR 1.27(c)).

Comments on the proposal should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

Done at Washington, D.C., on July 9, 1973.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-14313 Filed 7-12-73;8:45 am]

[9 CFR Part 319]

MEATBALLS AND SIMILAR PRODUCTS

Proposed Standard of Composition

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that the Department of Agriculture, pursuant to the authority conferred by the Federal Meat Inspection Act, as amended (21 U.S.C. 601 *et seq.*), proposes to amend Part 319 of the meat inspection regulations (9 CFR Part 319) to provide for standards of composition for meatballs and similar products.

Statement of considerations. The proposed amendment identifies minimum formula requirements for meatballs and similar products. Standards of composition or identity promulgated on the basis of the Federal Meat Inspection Act usually specify the ingredients and/or other distinctive characteristics or details that have been customarily associated with the products designated with common or usual names.

Information of principal importance to this proposed amendment was derived from observations by USDA employees of industry practices, product formula information submitted to USDA together with label approval applications, and recommendations from members of the meat industry and State government officials. The proposed standard is consistent with the current regulation of the Department in the matter of farinaceous materials as ingredients of "Meatballs." (See 9 CFR 319.306).

Subpart M of Part 319 would be amended by adding the following:

§ 319.314 Meatballs and similar products.

(a) "Meatballs" are the raw or cooked meat food products which are spherical in form and prepared from meat or meat and any of the optional ingredients listed in paragraph (b) of this section.

(1) "Meat" shall constitute not less than 65 percent of the total weight of the product formula.

(2) The term "Meat" used in this paragraph shall apply to boneless and skinless skeletal muscle that otherwise conforms to the definitions in § 301.2(tt) of this subchapter and which does not contain more than 30 percent fat.

(b) Meatballs may contain any of the following optional ingredients:

(1) Water, meat broth, milk, reconstituted skim milk, or tomato juice, singly or collectively, in an amount not to exceed 8 percent of the total weight of the product formula.

(2) One or more of the following which, singly or collectively, does not exceed 12 percent of the total weight of the product formula.

(i) Bread or bread crumbs, crackers, cracker crumbs or cracker meal.

(ii) Calcium reduced dried skim milk, dried milk, dried whey or nonfat dry milk.

(iii) Cereal, wheat flour or corn flour.

(iv) Soy flour, soy protein concentrate, isolated soy protein or textured vegetable product.

(3) Spices and flavorings.
(4) Salt.
(5) Eggs.
(6) Cheese.
(7) Tomatoes or tomato products.
(8) Peppers.
(9) Onions.
(10) Mushrooms.
(11) Water chestnuts.
(12) Sugar, dextrose, corn syrup, corn syrup solids, glucose syrup.

V 38-134
JUL 13 73
XUM

(c) If the products are cooked or partially cooked, the composition of the raw mix from which they are prepared shall be used in determining whether they meet the requirements of paragraph (a) and (b) of this section.

(d) Products labeled "Swedish Style Meatballs" shall consist of beef or beef combined with pork or veal, or both pork and veal, and one or more of the following: chopped onions, eggs, milk, bread crumbs, nutmeg, allspice; and shall comply with paragraphs (a) and (b) of this section.

(e) Products labeled "Meat and Cheese Balls" must contain not less than 15 percent cheese of the total weight of the product formula and comply with all other provisions of this section.

Any person wishing to submit written data, views, or arguments concerning the proposed amendment may do so by filing them in duplicate with the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250, by September 14, 1973.

Any person desiring opportunity for oral presentation of views should address such requests to the Product Standards Staff, Scientific and Technical Services, Meat and Poultry Inspection Program, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250, so that arrangements may be made for such views to be presented prior to the date specified in the preceding paragraph. A record will be made of all views orally presented.

All written submissions and records of oral views made pursuant to this notice will be made available for public inspection in the Office of the Hearing Clerk during regular hours of business, unless the person makes the submission to the Staff identified in the preceding paragraph and requests that it be held confidential. A determination will be made whether a proper showing in support of the request has been made on grounds that its disclosure could adversely affect such person by disclosing information in the nature of trade secrets or commercial or financial information obtained from any person and privileged or confidential. If it is determined that a proper showing has been made in support of the request, the material will be held confidential; otherwise, notice will be given of denial of such request and an opportunity afforded for withdrawal of the submission. Requests for confidential treatment will be held confidential (7 CFR 1.27(c)).

Comments on the proposal should bear a reference to the date and page number of this issue of the FEDERAL REGISTER.

Done at Washington, D.C., on July 9, 1973.

F. J. MULHERN,
Administrator, Animal and Plant Health Inspection Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 121]

PRIOR-SANCTIONED POLYVINYL CHLORIDE RESIN

Extension of Time for Filing Comments

In the FEDERAL REGISTER of May 17, 1973 (38 FR 12931) the Commissioner of Food and Drugs published a proposal recognizing a prior sanction for polyvinyl chloride resin and proposing that such resin meeting certain criteria not be used as a component of food packaging material for use in contact with alcoholic foods.

The preamble to the notice of proposed rule making set forth the basis for the Commissioner's conclusion that the use of polyvinyl chloride for packaging alcoholic foods may cause such foods to be adulterated.

Interested persons were given 60 days to file written comments regarding this proposal.

The Commissioner has received a request that a 90-day extension of the comment period be granted so that the plastic industry can complete work on data which they believe will be of significance to the Food and Drug Administration in the final consideration of this matter. By virtue of the fact that the Bureau of Alcohol, Tobacco, and Firearms of the Treasury Department has stopped the use of PVC containers for alcoholic beverages until there is final action by the Food and Drug Administration on the proposal, the Commissioner finds that there are reasonable grounds for granting the request for extension of time for filing comments. Therefore, the time for filing of such comments is extended to October 15, 1973.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 402, 409, 701(a), 52 Stat. 1042, 1046–1047 as amended, 1049, 1055; 21 U.S.C. 321(s), 342, 348, 371(a)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: July 9, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

Federal Aviation Administration

[14 CFR Part 39]

[Docket No. 72-CE-34-AD]

BEECH MODELS 50, 65, 65-80 AND 70 SERIES AIRPLANES

Proposed Airworthiness Directives

On December 29, 1972, an Advance Notice of Proposed Rule Making was published in the FEDERAL REGISTER (37 FR 28763, 28764) soliciting comments regarding Proposed Rule Making action to detect and control infilght fires in Beech Model 65 and 65–80 series airplanes by the installation of fire containment provisions and fire detection systems on these aircraft.

The Advance Notice stated consideration would be given all comments received on or before February 27, 1973. Approximately 42 comments were received. These comments did not establish a definite field consensus on the action which should be taken. Approximately 40 percent of those commenting agreed to a mandatory requirement for installation of the fire detection systems. Approximately 38 percent of the commentators concurred with mandatory installation of the fire seal kit. About 50 percent were opposed to both proposals with the remaining commentators expressing no strong opinion. A substantial portion of those commenting felt that good maintenance practices would prevent fires and thus obviate the necessity for further fire containment or detection provisions in these aircraft. Also numerous commentators stated that the cost of the proposed modifications was not justified on the basis of the airworthiness risk involved. Unreliability and resulting operational incidents were also cited as reasons for opposing the installation of the fire detection systems.

Of particular interest was the suggestion by some commentators that Beech Model 50 series airplanes should also be included in any rule making action involving this problem. The owners of aircraft having engine installations per STC SA444SW (Excaliber modification) and the STC holder also expressed the opinion that this configuration should be exempted from the AD, if adopted.

The FAA agrees that good maintenance practices will reduce the possibility of inflight fires, but service experience indicates that it cannot completely eliminate the problem. Accordingly, this argument cannot be accepted as a valid basis for negating regulatory action. Agency recognition of the modifications cost burden contributed appreciably to the decision to issue the Advance Notice of Proposed Rule Making soliciting comments rather than proceeding directly with rule making action. The cost-benefit ratio of both proposed installations in the Advance Notice has been considered and the FAA believes the action to be proposed in this Notice has the most favorable possible ratio when considered in light of the safety objectives which must be achieved. It is noteworthy that commentators who had experienced an inflight or ground incident of the type contemplated by the proposal did not express significant concern as to the costs involved.

Further analysis of the fire detection systems indicates that its advantages can be partially offset by false indications and increased maintenance problems. One inflight fire incident preceded by an explosion in the cowl was described by the pilot as so sudden that by the time he scanned the instrument panel once after the explosion the fire was burning fiercely. In cases such as this, which are a major area of concern, a fire detection system would have provided the pilot no additional advanced warning. Also, one aircraft involved in an infilght fire and wing separation had a fire detection system and one-shot fire extinguisher system installed which did not preclude an uncontrolled disastrous fire. Therefore, the agency believes that installation of the fire detection systems should remain on a voluntary basis and not be made the subject of rule making action at this time.

Analysis of the comments received and comparison of the design features on Beech Model 50 and 65 series aircraft confirms that the Model 50 series aircraft should be included in proposed rule making action. In addition, the Beech Model 70 aircraft is of similar design and should be included.

The FAA also believes there may be merit to the proposal that aircraft modified by STC SA444SW (Excaliber modification) should be exempted from this AD action and the agency is conducting further investigation to justify exemption of this modification. Any adopted rule making will include the results of this investigation.

One commentator's account of an inflight explosion within the cowl and structural and fire damage observed on the aircraft after it was landed indicates similarities between this incident and occurrences during the inflight fires resulting in wing separations and accidents. In the aircraft which was safely landed, the severest fire damage was on the nacelle aft of an area of the cowl which was ruptured and failed outward by the explosion. Similar evidence of cowl rupture was present in the wreckage of the airplanes involved in the wing separation accidents. Installation of fireproof neoprene cloth per Beech Kit 65-9008-01 will provide additional fire protection for the critical area of the nacelle behind the portion of the cowl vulnerable to explosive rupture.

After careful analysis the FAA concludes that installation of the fire seal kit should be made mandatory in the interest of safety. If a fire occurs on one of the aircraft involved in this proposal, this kit will contain the fire and provide desirable additional time for the pilot to detect the fire, evaluate the situation and take appropriate action. Accordingly, an AD is being proposed requiring within 100 hours' time in service after the effective date thereof, installation of Beech Nacelle Interior Fire Seal Kit No. 65-9008-1 on Beech Model 50, 65, 65-80 and 70 series airplanes.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views or arguments as they may desire. Communications should identify the Docket Number and be submitted in duplicate to the Director, Central Region, Attention: Regional Counsel, Airworthiness Rules Docket, 601 East 12th Street, Kansas City, Missouri 64106. All communications received on or before August 13, 1973, will be considered before action is taken upon the proposed Rule. The proposals contained in this Notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Airworthiness Rules Docket for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new AD.

BEECH: Applies to Model 65 (Serials L-1, L-2, L-6, LF-7 and up, and LC-1 through LC-239); Model A-65 and A65-8200 (Serials LC-240 through LC-335); Model 65-80 (Serials LD-1 through LD-150 [except LD-34 and LD-46]; Model 65-A80 and 65-A80-8800 (Serials LD-34, LD-46, LD-151 through LD-269); Model 65-B80 (Serials LD-270 and up); Model 65-88 (Serials LP-1 and up [except LP-27 and LP-29]; Model 70 (Serials LB-1 and up); Model E50 (Serials EH-1 through EH-70); Model F50 (Serials FH-71 through FH-96 [except FH-94]); Model G50 (Serials GH-94; GH-97 through GH-119); Model H50 (Serials HH-120 through HH-149); Model J50 (Serials JH-150 and up) airplanes.

Compliance: Required within the next 100 hours' time in service after the effective date of this AD, unless already accomplished.

To reduce the possibility of an inflight fire penetrating critical areas of the aircraft wing and nacelle, accomplish the following or any equivalent modification approved by the Chief, Engineering and Manufacturing Branch, FAA, Central Region:

Install Beech nacelle interior fire seal kit no. 65-9008-1, or any equivalent modification approved by the Chief, Engineering and Manufacturing Branch, FAA, Central Region.

Issued in Kansas City, Missouri, on July 5, 1973.

JOHN M. CYROCKI,
Director, Central Region.

[14 CFR Part 71]

[Airspace Docket No. 73-SW-43]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a 700-foot transition area at Brownfield, Tex.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before August 13, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arranagements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Forth Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (38 FR 435), the following transition area is added.

BROWNFIELD, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Brownfield, Tex., Terry County Airport (latitude 33°10'29" N, longitude 102°11'29" W) and within 3.5 miles each side of a 200°T (190°M) bearing from the Brownfield nondirectional beacon (latitude 33°10'45" N, longitude 102°11'30" W) extending from the 5-mile radius area to 8 miles south of the radio beacon.

The proposed transition area will provide controlled airspace for aircraft executing approach/departure procedures proposed at the Terry County Airport, Brownfield, Tex.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, TX., on July 3, 1973.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.73-14281 Filed 7-12-73;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 73-SW-44]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a 700-foot transition area at Pleasanton, Tex.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort

XUM

Worth, Texas 76101. All communications received on or before August 13, 1973, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Forth Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (38 F.R. 435), the following transition area is added.

PLEASANTON, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Pleasanton Municipal Airport (latitude 28°57'00" N., longitude 98°31'20" W.) and within 3 miles each side of the 175°T (166° M) bearing from the Pleasanton NDB extending from the 5-mile radius to 8 miles south of the NDB.

The proposed transition area will provide controlled airspace for aircraft executing the proposed NDB–A (original) approach procedure.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, TX., on July 3, 1973.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.73–14282 Filed 7–12–73;8:45 am]

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 85]

CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLES AND NEW MOTOR VEHICLE ENGINES

Low Emission Vehicles

Section 212 of the Clean Air Act (42 U.S.C. 1857f–6e) established a process under which the Federal Government will pay premium prices for motor vehicles whose emissions control performance is significantly better than that required by the Federal standards in effect at the time of their procurement. To be eligible for these premium prices, a motor vehicle must first be classified as a "low emission vehicle" by EPA, and then approved by the inter-Agency Low Emission Vehicle Classification Board as a suitable replacement for some class or model of vehicles that the Federal Government is then purchasing.

As presently defined in the regulations, a "low emission vehicle" is one that meets statutory 1975/1976 emissions standards before their effective date. This definition is now obsolete since it is clear that the 1975 model year will have arrived before any low emission vehicle (other than the vehicle for which an application has already been received), as defined by the current regulations, could be tested, certified, and purchased. Accordingly, it is proposed to revise subpart Q of 40 CFR Part 85 to define "low emission vehicle", in terms of attainment of standards significantly below statutory 1975 and 1976 Federal emission standards.

The proposed regulations would also set emission standards which must be met by heavy duty vehicles in order to qualify as "low emission vehicles". The Agency had delayed proposal of these standards until the corresponding basic standards under Section 202 of the Clean Air Act were in effect. The Agency will propose low emission vehicle standards for light duty trucks after Federal emission standards are promulgated for this class of vehicle. In the interim, applications will be accepted for light duty trucks to meet light duty low emission vehicle standards.

Finally, the proposed regulations would revise the details of the low emission vehicle determination procedure to make that procedure parallel more closely the process of certification testing of vehicles under Section 206 of the Act. If significant portions of the established test procedures are to be considered irrelevant or impractical for the testing of the vehicle, the publication of the notice of intent will discuss these procedures and invite comments as to their applicability to the testing of the vehicle.

The revised subpart Q would become effective 30 days after promulgation and would be applicable to "low emission vehicles" purchased in 1975 and subsequent model years. The current regulations which appear in 40 CFR Part 85 have expired, except for the vehicle for which an application has already been received, as of December 31, 1972.

Interested persons may participate in this rule making by submitting written data, views, or arguments (in quadruplicate) to the Administrator, Environmental Protection Agency, Attention: Mobile Source Air Pollution Control Program, Office of Air and Water Programs, Washington, D.C. 20460. All relevant material received not later than September 11, 1973, will be considered.

Comments submitted shall be available for public inspection during normal business hours at the Office of Public Affairs, Environmental Protection Agency, 4th and M Streets, SW., Washington, D.C. 20460.

This notice of proposed rulemaking is issued under the authority of Section 212 of the Clean Air Act, as amended (42 U.S.C. 1857f–6e), 84 Stat. 1676.

Dated: July 10, 1973.

ROBERT W. FRI,
Acting Administrator.

Subpart Q of Part 85 of Title 40 is proposed to be as follows:

Subpart Q—Low Emission Vehicles

§ 85.1601 Definitions.

(a) As used in this subpart, the term:

(1) "Motor vehicle" means any self-propelled vehicle designed for use in the United States on the highways, other than a vehicle designed or used for military field training, combat or tactical purposes.

(2) "Inherently low-polluting propulsion system" means a propulsion system that does not require control devices for exhaust emissions that are external to the energy releasing activities of the propulsion system.

(3) "Light duty vehicle" means both any light duty vehicle as defined in §§ 85.002(a)(5) and 85.102(a)(5), and any vehicle which may, in the judgment of the Administrator, be a suitable substitute for a light duty vehicle used by agencies of the Federal Government.

(4) "Heavy duty vehicle" means both any heavy duty vehicle as defined in §§ 85.702(a)(5), 85.802(a)(5), and 85.902(a)(5), and any vehicle which may, in the judgment of the Administrator, be a suitable substitute for a heavy duty vehicle used by agencies of the Federal Government.

(5) "Board" means the Low Emission Vehicle Certification Board established by Section 212 of the Act.

(6) "Federal Government" includes the legislative, executive, and judicial branches of the Government of the United States, and the Government of the District of Columbia.

(7) "Low emission vehicle" means either a low emission light duty vehicle or a low emission heavy duty vehicle.

(b) As used in this subpart, all terms not defined herein shall have the meaning given them in the Act or in this part.

§ 85.1602 Low emission vehicles.

(a) A "low emission light duty vehicle" is a light duty vehicle which, at the time of its procurement by the Federal Government, is covered by a determination made by EPA and indicating that such a vehicle

(1) Meets all emission standards then in effect under Section 202 of the Act for light duty vehicles, and

(2) Meets the requirements of paragraph (c) of this section, and

(3) For vehicles purchased in model year 1975, does not exceed the given level of one or more of the following pullutants:

(i) Hydrocarbons—0.08 grams per vehicle mile (gms/mile)

(ii) Carbon monoxide—0.7 gms/mile

(iii) Oxides of nitrogen—0.3 gms/mile, and

(4) for vehicles purchased in model year 1976 and beyond, does not exceed the given level of one or more of the following pollutants:

(i) Hydrocarbons—0.08 gms/mile

(ii) Carbon monoxide—0.7 gms/mile

(iii) Oxides of nitrogen—.16 gms/mile

(b) A "low emission heavy duty vehicle" is a heavy duty vehicle which, at the time of its procurement by the Federal Government, is covered by a determination made by EPA and indicating that such a vehicle

(1) Meets all emissions standards then in effect under section 202 of the Act for heavy duty vehicles, and

(2) Meets the requirements of paragraph (c) of this section and

(3) Does not exceed the given level of one or more of the following pollutants:

(i) Hydrocarbons plus oxides of nitrogen—2.1 grams per brake horsepower-hour (gms/bhp-hr.)

(ii) Carbon monoxide—1 gm/bhp-hr.

(c) No vehicle shall be considered to be a low emission vehicle unless the Administrator finds, and states in his determination, that it will not significantly increase the emissions of any air pollutant not subject to an emission standard under Section 202 of the Act by comparison to the emissions of such pollutant by any class or model of motor vehicles for which the applicant vehicles may be a suitable substitute.

§ 85.1603 Notice of intent to submit an application for certification.

(a) Any person desiring certification of a test vehicle under Section 212 of the Act shall submit to the Administrator a notice of intent to submit a certification application with respect to such vehicle. The notice of intent shall contain a description of the vehicle, including the propulsion system and the fuel used by it, and such other information as the Administrator may request.

(b) The Administrator shall, immediately upon receipt of the notice of intent, transmit a copy to the Board and publish in the FEDERAL REGISTER a notice of the receipt of the notice of intent, the name of the applicant, a brief description of the propulsion system and fuel used by the applicant vehicle, and information concerning the method by which the public may have access to data relating to the emission characteristics of the applicant vehicle. The FEDERAL REGISTER notice shall request written comments and documents from interested parties in support of, or in opposition to, certification of the class or model of vehicle described in the notice of intent. If the Administrator subsequently determines that the vehicle is a low emission vehicle, the comments will be transmitted to the Board to be used in making their determination whether the vehicle is a suitable substitute for any class or models of vehicles presently being purchased by the Federal Government for use by its agencies.

§ 85.1604 Test procedures.

(a) Unless the Administrator determines otherwise under paragraph (b) of this section, the test procedures for determining whether a vehicle meets the standards specified in § 85.1602(a) for classification as a low emission light duty vehicle shall be the applicable 1975 Federal Test Procedure, and the test procedures for determining whether a vehicle meets the standards specified in § 85.1602 (b) for classification as a low emission heavy duty vehicle shall be the applicable 1974 Federal Test Procedure.

(b) As soon as practicable after receipt of a notice of intent to submit a certification application for a low emission vehicle, the Administrator shall determine whether the relevant test procedures referred to in paragraph (a) of this section would result in satisfactory testing of that vehicle. If he determines that such test procedures would not, he shall, as soon as practicable after making the determination, promulgate new procedures to govern the testing of that vehicle.

§ 85.1605 Selection of test vehicles.

Unless the Administrator determines otherwise, the applicant shall test or cause to be tested two durability data vehicles of each engine-system combination and four emission data vehicles of each engine family described in the notice of intent. The test vehicles shall be selected by the Administrator upon receipt of the notice of intent and after consultation with the Board to determine the models or classes of vehicles for which the test vehicle may be a suitable substitute.

§ 85.1606 Testing.

All procedures specified in this part for obtaining a Certificate of Conformity under section 206 of the Act shall be applicable to low emission vehicles unless the Administrator determines that portions of the procedures are not relevant or practical as applied to the vehicle for which application is made.

§ 85.1607 Application for certification.

(a) After completion of required testing of all test vehicles in accordance with applicable test procedures, the person desiring certification shall submit to the Administrator a written application signed by an authorized representative of the applicant. The application shall be in such form as the Administrator and the Board may require, and shall contain both (1) all emission data from the tests of the emission data and durability test vehicles and (2) data required by the Board under § 400.4 of this title relative to the vehicle characteristics referred to therein.

(b) In addition to the information required under this section, and under § 400.4 of this title, the Administrator may require the applicant to submit any other information which the Administrator deems necessary in determining whether the test vehicle is a low emission vehicle. The application for certification may be considered incomplete unless all such information has been submitted.

§ 85.1608 Administrator's determination.

(a) The Administrator will, within 90 days after receipt of a completed application for certification, determine whether the applicant vehicle meets the applicable requirements of § 85.1602.

(b) The Administrator will, upon making the determination required in paragraph (a) of this section, publish in the FEDERAL REGISTER notice of receipt of the formal low emission vehicle application, his determination whether the vehicle is a low emission vehicle, and the reasons therefor. If the Administrator determines the vehicle to be a low emission vehicle, he will state precisely the time period for which that vehicle will continue to qualify as a low emission vehicle under the emissions standards applicable to present and future model years.

(c) As long as a determination under paragraph (a) of this section is in effect for a vehicle, vehicles which are in all respects of the same design as the test vehicle as described by the required information in the application for certification will also be deemed low emission vehicles for all purposes of section 212 of the Act.

(d) Each determination under paragraph (a) of this section will serve as EPA certification of a vehicle under Section 206 of the Act and will be made on the terms specified in § 85.075–30(a)(2), § 85.175–30(a)(2), § 85.775–30(a)(2), § 85.875–30(a)(2), or § 85.975–30(a)(2) for certificates of conformity.

(e) Each determination under paragraph (a) of this section shall be revocable whenever, owing to a change in emission standards, vehicles covered by it no longer meet the requirements of § 85.-1602.

§ 85.1609 Inherently low emitting propulsion system.

Whenever the Administrator makes a determination for a vehicle under § 85.1608, he will recommend to the Board whether or not, in his opinion, the vehicle is powered by an inherently low polluting propulsion system.

§ 85.1610 Postcertification testing.

The Administrator will, at the request of the Board, test the emissions from vehicles certified under Section 212 of the Act and purchased by the Federal Government. If these tests show that the emissions from such vehicles exceed the relevant standards contained in § 85.1602 and applicable at the time such vehicles were procured, the Administrator will notify the Board.

V 38 I 134 JUL 13 73 XUM

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 19692]

ANTENNA MONITORS IN STANDARD BROADCAST STATIONS WITH DIRECTIONAL ANTENNAS

Order Extending Time for Filing Comments and Reply Comments

In the matter of amendment of Part 73 of the Commission's rules and regulations to establish standards for the design and installation of sampling systems for antenna monitors in standard broadcast stations with directional antennas, Docket No. 19692.

1. On February 21, 1973, the Commission adopted a Notice of Inquiry and notice of proposed rule making in the above-captioned proceeding and publication in the FEDERAL REGISTER was given on March 2, 1973 (38 F.R. 5666). Comment and reply comment dates have been previously extended by an Order of April 17, 1973, to July 6 and July 20, 1973, respectively, and published in the issue of Thursday, April 26, 1973 (38 FR 10276).

2. The Association of Federal Communications Consulting Engineers (AFCCE), on July 2, 1973, filed a petition for extension of time for a period of one month, to and including August 10, 1973. AFCCE states that at its Annual Meeting in April, 1973, a motion was adopted to file comments in Docket 19692. Since that time a new rules and Standards Committee has been formed and it has been working on the preparation of comments on behalf of AFCCE. However, the additional time is necessary in order for the Committee to circulate a draft of the comments to the membership and to finalize them after receiving replies from the members.

3. On July 3, 1973, counsel for the Association For Broadcast Engineering Standards, Inc. (ABES) also filed a request for an extension of time in which to file comments and reply comments to and including October 22, 1973, and November 22, 1973, respectively. Counsel states that the extension would permit ABES to send a questionnaire to selected directional AM stations to determine the impact of the proposals and of possible alternatives on their operations and also to analyze the results of the questionnaire and prepare comments. The lengthy extension would also permit the ABES members who will attend the IEEE–AFCCE meetings on September 20 and 21, 1973, to decide on the presentation to be made to the Commission in this proceeding, and also allow sufficient time for drafting of its comments.

4. Although the Commission feels that it would have been helpful had we been advised sooner of the need for more time in which to file meaningful comments, the Commission does desire the benefit of significant comments from the industry and the public. However, the Commission feels that an extension of time in which to file comments and reply comments to and including October 1, 1973, and October 15, 1973, respectively, will be sufficient to allow the formulation of comments in this proceeding.

5. Accordingly, we are of the view that the public interest would be served by extending the time for filing comments and reply comments. *Therefore, it is ordered*, That the time for filing comments and reply comments in this proceeding are extended to and including October 1, 1973, and October 15, 1973, respectively.

6. *It is further ordered*, That the petition of the Association of Federal Communications Consulting Engineers is granted to the extent indicated above, and the petition of the Association For Broadcast Engineering Standards, Inc., is granted to the extent indicated above and denied in all other respects.

7. This action is taken pursuant to authority found in sections 4(i) and 303(r) of the Communications Act of 1934, as amended, and § 0.281(d)(8) of the Commission's rules and regulations.

Adopted: July 5, 1973.

Released: July 6, 1973.

[SEAL] HAROLD L. KASSENS,
Acting Chief,
Broadcast Bureau.

[FR Doc.73-14340 Filed 7-12-73;8:45 am]

[47 CFR Part 73]

[Docket No. 19785; FCC 73-733]

TV BROADCAST STATIONS IN FORT WALTON BEACH, FLA.

Proposed Table of Assignments

In the matter of amendment of § 73.606 (b), *Television Table of assignments*, TV Broadcast Stations (Fort Walton Beach, Florida), Docket No. 19785, RM–2156.

1. On March 8, 1973, Panhandle Broadcasting Company, Inc. (Panhandle), permittee of Station WDTB, Channel 13, Panama City, Florida, filed a petition requesting the Commission to assign Channel 17 to Fort Walton Beach, Florida.

2. Fort Walton Beach, population 19,994,[1] is located in Okaloosa County, population 88,187, in the Florida panhandle approximately 40 miles from Pensacola and approximately 60 miles from Panama City. Panhandle states that Fort Walton Beach has no local television service and receives only one predicted television Grade B signal or better, this coverage provided by Station WEAR–TV, Channel 3 (ABC), Pensacola, Florida. According to Panhandle a local cable television system, TV Cable Co. of Fort Walton Beach, carries stations which provide the three major networks' programming and also educational programming. Panhandle points out that this CATV service is a supplement and not a replacement for regular broadcast service available to all. It describes an area of 420 square miles with a population of 92,987 which lacks any Grade B or better NBC affiliate network programming service. If the channel is assigned, Panhandle states that it will apply for a construction permit to operate a station on Channel 17 as a satellite of its own Station WDTB, Channel 13, Panama City, which is an NBC affiliate. Panhandle avers that with operating parameters of 50 kW ERP and 600 feet above average terrain it can provide the unserved NBC area with a Grade B or better signal covering 95 percent of the area and 98 percent of the population in the area.

3. We have carefully examined the Fort Walton Beach assignment area and find that Channel 17 can be assigned to Fort Walton Beach in conformance with the minimum mileage separation requirements of the Commission's rules. Since Channel 17 is one of the lower seven UHF channels which are permitted to be shared by the land mobile service in the top-ten markets, we looked further into this aspect since in a projected sharing study looking into the next 15 largest urbanized areas Channel 17 was selected for land mobile sharing in New Orleans, Louisiana. However, in the event that Channel 17 is subsequently permitted for sharing, a Channel 17 assignment at Fort Walton Beach would not have to be frozen. If a station operated on Channel 17 at Fort Walton Beach it would not limit the shared use of Channel 17 by the land mobile services in the New Orleans urbanized area.[2] As a drop-in channel, Channel 17 will not require any other changes in the table. It is the most efficient channel assignment for Fort Walton Beach and will have the least preclusionary effect of the channels available for assignment.

4. Panhandle has shown the need for a television broadcast channel assignment to Fort Walton Beach. Therefore we believe a rule making proceeding is warranted to explore the possibility of making an assignment. Accordingly, pursuant to the authority contained in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended, it is proposed to amend the Television Table of Assignments, § 73.606(b) of the Commission's rules, by assigning Channel 17 to Fort Walton Beach, Florida.

5. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules, interested parties may file comments on or before August 20, 1973, and reply comments on or before August 30, 1973. All submissions by parties to this proceeding or by persons acting in behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

6. In accordance with the provisions of § 1.419 of the rules, an original and 14 copies of all written comments, replies, pleadings, briefs, or other documents shall be presented the Commission. A copy of all pleadings filed in this proceeding will be available for public inspection in the Public Reference Room at the Commission's headquarters in Washington, D.C. (1919 M Street, NW.).

Adopted: July 3, 1973.

Released: July 9, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

[47 CFR Part 73]

[Docket No. 19784; FCC 73-730]

FM BROADCAST STATIONS IN CERTAIN CITIES IN MD.

Of Proposed Table of Assignments

In the matter of amendment of § 73.202(b), *Table of assignments*, FM Broadcast Stations. (Grasonville, Leonardtown, and Lexington Park, Maryland), Docket No. 19784, RM–1995, RM–2036.

1. Notice of proposed rule making is hereby given concerning proposed amendments of the FM Table of Assignments (§ 73.202(b) of the Commission's rules and regulations) with respect to conflicting proposals for the assignment of Channel 276A to Grasonville, Maryland (RM–1995), and Lexington Park, Maryland (RM–2036). In RM–1995, by a petition filed June 14, 1972, Edward Mason De Maso (De Maso) proposed to assign Channel 276A to Grasonville; it was asserted that this assignment could be made without change elsewhere. In RM–2036, Sound Media, Inc. (Sound Media), licensee of daytime-only AM Station WKIK, Leonardtown, Maryland, by a petition filed August 11, 1972, requested that Channel 276A be assigned to Leonardtown and that Channel 249A be reassigned from Leonardtown to Lexington Park in order to resolve mutually exclusive applications for Channel 249A.[1]

2. The petitions are considered together, since assignment of Channel 276A may not be made to both Grasonville and Leonardtown because of mileage requirements. The required separation is 65 miles (§ 73.207(a)), but the distance between the communities is only 50 miles. The 1970 Census populations for the three communities involved, their respective counties, and populations are as follows:

Community	Population	County	Population
Grasonville	1,182 (unincorporated).	Queen Annes.	18,422
Leonardtown	1,406	St. Marys	47,388
Lexington Park-Patuxent River.[4]	9,136 (unincorporated).	St. Marys	47,388

[4] The 1960 Census reported a population for only Lexington Park. Informal information obtained from the Tri-County Council for Southern Maryland, located at Waldorf, Maryland, is that the 1970 Census includes persons from the family housing area and bachelor officers' quarters at the Patuxent River Naval Air Station thus accounting for the different designation in the 1970 Census.

3. *RM–1995.* De Maso, in support of his petition for assignment of a channel to Grasonville, sets forth a certain amount of detailed information as to the nature of that community. Grasonville, which is 16 miles east of Annapolis, is located on the Maryland Eastern Shore, that is, that portion of Maryland east of Chesapeake Bay. It is a center for agriculture and seafood production. Grasonville is "bisected" by U.S. 301 and Maryland Route 50 en route between the Chesapeake Bay Bridge (Bay Bridge) and popular ocean summer resorts (including Ocean City, Maryland, and Rehoboth Beach, Delaware) and other points to the north and south. Grasonville is also a summer resort on Chesapeake Bay whose prospects in this respect, along with the surrounding part of the country, are expected to increase with the completion of the parallel Bay Bridge in the summer of 1973. De Maso claims that the population of Queen Annes County, which stretches from Chesapeake Bay to the Delaware border, triples during the summer and the county serves as a "bedroom community" for Baltimore and Washington commuters. Grasonville (formerly Winchester), we are told, is the most important one of eight unincorporated towns in the county. It is alleged that in recent years Grasonville has become one of the area's largest seafood packing house complexes with eight packing houses. There are many thriving businesses and resort facilities in Grasonville; it is the location of a Delmarva Power Light Company base, a State Roads Commission field office, a branch of the Queenstown bank; and there are many other indicia of community life.

4. De Maso also alleges that Grasonville and its county is without means of local expression. There are two weekly county newspapers. There is also some circulation of newspapers from Annapolis and Baltimore, but these devote little if any coverage to Eastern Shore affairs. There are no broadcast stations in the county, and De Maso claims that the nearest stations in Delaware, Annapolis, and Baltimore are unable (in any event do not attempt) to meet the needs of the residents of Queen Annes County. At the time of the petition, as shown by the engineering statement supporting the De Maso petition, Channel 276A could have been assigned to Grasonville without conflict with any other FM channel assignment. De Maso expressed his intention to apply for a station, if the channel is assigned to Grasonville, and to build the station, if his application is granted. In the latter respect, he has contacted leaders and members of the community including the County Commissioners, the president of Chesapeake College, the Chamber of Commerce, various social organizations, and others, all of whom vigorously support the establishment of a broadcast facility at Grasonville.

5. *RM–2036.* As already noted, Sound Media filed its petition in order to obviate the need for a comparative hearing with Key Broadcasting for Channel 249A, assigned to Leonardtown, Maryland (Docket Nos. 19410 and 19411). Sound Media, licensee of AM Station WKIK (daytime-only) there, would use the channel at the city of assignment, while Key Broadcasting, licensee of AM Station WPTX, Lexington Park has applied for that channel for use at Lexington Park under the 10-mile rule (§ 73.203(b) of the Commission's rules and regulations). Leonardtown is the seat of St. Marys County; Lexington Park is an unincorporated community also located in the same county. According to Sound Media's petition, a station at either Leonardtown or Lexington Park would provide a first nighttime aural service to substantial areas and populations as well as "grey" areas. Indeed, a station at both communities would provide service to substantial unserved and grey areas at night. The engineering showing in support of Sound Media's petition is to the effect that with maximum facilities at both cities, a Leonardtown station would provide a first FM service to an area of 52 square miles with a population of 2,461 and a second FM service to 3,838 persons in a 66 square mile area, while a Lexington Park station would similarly provide service to an unserved area of 68 square miles with a population of 9,515 and a grey area of 5 square miles and a population of 416.

6. Sound Media urges that Lexington Park is a community of sufficient importance to warrant an FM channel assignment. Reliance is placed on population (the largest community in St. Marys County), the fact that Lexington Park has a standard broadcast station, and other indicia of being a community. We are told that Lexington Park has a newspaper, the *St. Marys Enterprise* (although there is no indication whether daily or weekly), county government offices (including the Metropolitan Commission, the Board of Education, and Health Department), a post office, and a branch of the county library; and that it is the site of one of the largest U.S. Naval Air Stations (the Patuxent River NAS). Other evidence of commercial and civic life is typical of towns of the same size including churches of six Christian denominations, a community church, and a Baha'i meeting place; an elementary school; a motel; a CATV system; voluntary organizations (Volunteer Fire Department, Rotary Club, Chamber of Commerce, Boy Scouts, and garden

[1] Populations are from the 1970 U.S. Census. Panhandle states that the Fort Walton Beach Chamber of Commerce estimates the present population to be 21,000.

[2] In 1968 there was a proposal to assign Channel 18 to Front Royal, Va. At that time Channel 18 was *proposed* for land mobile sharing in the Washington, D.C. area. Channel 18 was not assigned to Front Royal because of this even though it met all assignment standards of the rules.

[1] Sound Media is the applicant for Channel 249A at Leonardtown (BPH–6886) and Key Broadcasting Corporation (Key Broadcasting), licensee of Station WPTX, Lexington Park, Maryland, is the applicant for use of Channel 249A at Lexington Park under the "10-mile" provision of § 73203(b) (BPH–6540). These applications are in hearing: see Docket Nos. 19410 and 19411. Key Broadcasting is also the licensee of Stations WBMD(AM), Baltimore, Maryland, and WKTK–FM, Catonsville, Maryland.

V38-134 JUL 13 73 XUM

clubs); many grocery, appliance and drug stores, gas stations, laundromats, movers, barber shops, and other usual types of commercial establishments. Sound Media concludes that since Lexington Park has a larger population, more commercial establishments, and civic organizations that many communities with FM stations, an FM channel should be assigned there.

7. De Maso opposes Sound Media's petition with a priority of petition argument.[3] As more relevant to our action here, De Maso advances a proposal which would permit channel assignments to both Grasonville and Lexington Park. He suggests the assignment of Channel 240A to Lexington Park in lieu of the Sound Media's proposal for Leonardtown and Lexington Park. Sound Media in its reply to De Maso's opposition urges that its proposal for use of Channel 276A (assignment to Leonardtown and reassignment of Channel 249A from Leonardtown to Lexington Park) is more meritorious, but it agrees that De Maso's counterproposal might be considered as an alternative proposal. As to the merits, Sound Media states that its proposal would provide service to substantial unserved and grey areas while Grasonville and the area within the 1 mV/m contour of an FM station there receives ample service considering only existing AM and FM stations at Annapolis (about 16 miles west of Grasonville).

8. It would appear that a sufficient showing has been made that the public interest, convenience, and necessity would be served by considering the petitions for FM channel assignments at Grasonville, Leonardtown, and Lexington Park, as well as the counterproposal. In this respect, Sound Media has alleged a dearth of FM service at both Leonardtown and Lexington Park from existing facilities. Such a showing more appropriately should include assignments as well as stations and there are assumptions as to power and height. The criteria are: (i) Estimated FM 1 mV/m contours; (ii) assuming reasonable facilities for all existing stations, maximum for Class A, and 30 kW at 300 feet A.A.T. for Class B, or greater in the event the station already has such operating facilities; and (iii) all unoccupied channels in the area with the same facilities as in (ii). See and compare Roanoke Rapids-Goldsboro, North Carolina, 9 FCC 2d 672, 673 (1967).[4]

9. *Showings required.* Comments are invited upon the proposals referred to above. As indicated, there are questions raised by the conflict between the basic proposals (Plan I vs. Plan II), the population of Lexington Park as a community, and the appropriate type of engineering showing to support the claims of unserved area and grey area for FM stations at Leonardtown and Lexington Park. It would be helpful if Key Broadcasting Corporation participated, for it is clear that the assignment of a channel to Lexington Park would benefit it to the extent of obviating the need for a comparative hearing as concerns its application (BPH-6540) and that of Sound Media (BPH-6686).[5] De Maso and Sound Media are expected to affirm their respective intentions to apply for the channels, if assigned, and, if authorized, to promptly build on the channels for their respective communities. Failure to make the requested showings may result in denial of the proposals and/or counterproposal.

10. In view of the foregoing and pursuant to authority found in sections 4(i), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, it is proposed to amend § 73.202(b) of the Commission's rules and regulations, the FM Table of Assignments, as concerns the communities named, as follows:

PLAN I

City	Channel No. Present	Channel No. Proposed
Grasonville, Maryland		276A

or

PLAN II

Leonardtown, Maryland	249A	276A
Lexington Park, Maryland		249A

or

PLAN III

Grasonville, Maryland		276A
Lexington Park, Maryland		249A

11. *Cut-off procedure.* The following procedures will govern:

(a) Counterproposals advanced in this proceeding itself will be considered if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered, if they are advanced in reply comments.

(b) With respect to petitions for rule making which conflict with the proposals in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given, as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision herein.

12. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before August 20, 1973, and reply comments on or before August 30, 1973. All submissions by parties to this proceeding, or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

13. In accordance with the provisions of § 1.419 of the rules and regulations, an original and 14 copies of all comments, reply comments, pleadings, briefs and other documents shall be furnished the Commission. Responses will be available for public inspection during regular business hours in the Commission's Public Reference Room at its Headquarters, 1919 M Street, NW., Washington, D.C.

Adopted: July 3, 1973.

Released: July 9, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

[FR Doc.73-14352 Filed 7-12-73;8:45 am]

[3] We need not to discuss this, since there is no such doctrine. The test in this respect is the "cut-off" procedure referred to in paragraph 11 below.

[4] That case deals with determining service to unserved and grey areas when one seeks a Class B or C channel for a community entitled to only a Class A channel. However, the same test has been applied when one relies on a lack of service argument of the type that in part bottoms Sound Media's petition.

[5] As already noted, such a hearing is under way; see Docket Nos. 19410 and 19411.

FEDERAL RESERVE SYSTEM

[12 CFR Part 220]

[Reg. T]

CREDIT BY BROKERS AND DEALERS

Investment Contract Securities

Pursuant to authority of section 7 of the Securities Exchange Act of 1934 (15 U.S.C. 78g) notice is hereby given that the Board of Governors proposes to add paragraph (l) to § 220.6 of Regulation T, "Credit by Brokers and Dealers" (12 CFR 220.6) to provide that credit extended on any part of an investment contract will be deemed to be extended on the whole security. The proposed new paragraph is set forth below:

§ 220.6 Certain technical details.

• • • • •

(l) *Investment contract securities.* Credit for the purpose of purchasing or carrying any part of an investment contract security (for example, the cattle ownership portion of a program to own and feed cattle, or the condominium ownership part of a program to own and rent a unit through a rental pool) shall be deemed to be credit on the entire security.

The purpose of the proposed amendment is to negate previous Board interpretations which stated that broker/dealers would not be deemed to be arranging credit which they could not extend, as prohibited by § 220.7(a), when they sold investment contracts which included credit extended solely on the real estate or chattel part of the contract.

If adopted, this amendment will provide uniform treatment, for credit purposes, of every security as an indivisible whole in a manner consistent with that followed by the Securities and Exchange Commission in its area of regulation.

Interested persons are invited to submit relevant data, views, or arguments concerning this proposal. Any such material should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than August 10, 1973. Such material will be made available for inspection and copying upon request, except as provided in § 261.6(a) of the Board's Rules Regarding Availability of Information.

This notice is published pursuant to section 553(b) of Title 5, United States Code, and § 262.2(a) of the Rules of Procedure of the Board of Governors of the Federal Reserve System (12 CFR 262.2(a)).

By order of the Board of Governors, July 3, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.73-14330 Filed 7-12-73;8:45 am]

[12 CFR Part 222]

BANK HOLDING COMPANIES

Nonbanking Activities and Interests

Pursuant to its authority under section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)), the Board proposes to amend § 225.4(a)(4) of its Regulation Y to clarify the boundaries upon deposit-taking activities that are properly incidental to trust company activities which the Board has determined to be so closely related to banking or managing or controlling banks as to be a proper incident thereto, and to provide that the kinds of activities authorized under § 225.4(a)(4) include those performed not only by trust company subsidiaries that are State-chartered, but also by any such subsidiaries that may operate as limited purpose trust companies under national bank charters and that do not both accept demand deposits and make commercial loans.

The definition of boundaries upon deposit-taking activities by trust company subsidiaries of bank holding companies under § 225.4(a)(4) is especially significant in the case of multi-State operations. Section 3(d) of the Bank Holding Company Act (12 U.S.C. 1842(d)) prohibits the Board from approving any application under section 3 which will permit any bank holding company to acquire, directly or indirectly, additional banks located outside of the State in which the operations of its banking subsidiaries are principally conducted, unless any such acquisition is specifically authorized by the laws of the State in which such additional bank is located. In some cases, trust companies are chartered as banks, but intend to limit their operations to trust activities and not to engage in commercial banking. The policy of section 3(d) would not apply to holding company subsidiaries of this type. The proposed amendment would delineate the scope of deposit-taking activities that could be engaged in by trust company subsidiaries consistently with nonbank status under the Bank Holding Company Act.

Under the proposal, a trust company subsidiary that is not a "bank" within the meaning of the Bank Holding Company Act would be permitted to accept deposits that are generated out of funds received under trust instruments. It would not have authority to receive deposits generated out of funds received in the capacity of agent or custodian, except as expressly permitted in an exception for functions as agent or custodian for an issuer of, or investor in, securities. The Board notes that the New York Banking Department has determined to permit qualified out-of-State bank holding companies to acquire limited purpose trust companies in New York to furnish stock transfer and related services for institutional customers and to receive deposits incidental thereto. The proposed amendment is intended to facilitate bank holding companies' acquisitions of this type of limited purpose trust company.

Both commercial banks and trust companies act as agents or custodians for their customers. Deposit transactions incidental to agency or custodian functions are normally characteristic of commercial banking. However, the proposed deposit-taking activities incidental to payments upon or transfers of securities would appear to be properly incidental to a trust company business.

The Comptroller of the Currency has granted a national bank charter to a trust company organized for the purpose of carrying on the general business of a commercial bank trust department and to engage in such activities as are necessary, incident or related to such business. Trust companies that do not engage in the business of making commercial loans would not be "banks" within the meaning of section 2(c) of the Bank Holding Company Act (12 U.S.C. 1841(c)), even though chartered as national banks. The proposed amendment would permit bank holding companies to acquire under section 4(c)(8) of the Act federally chartered trust companies that are not "banks", and such trust companies would be governed by the same Regulation Y limitations on deposit-taking as would apply to State-chartered trust companies acquired under that section.

The proposed amended paragraph (a)(4) of § 225.4 of Regulation Y would read as follows:

§ 225.4 Nonbanking activities.

(a) *Activities closely related to banking or managing or controlling banks.* • • •

(4) performing or carrying on any one or more of the functions or activities that may be performed or carried on by a trust company (including activities of a fiduciary, agency, or custodian nature), in the manner authorized by federal or State law, so long as the institution does not both accept demand deposits and make commercial loans, and does not accept deposits other than (i) deposits that are generated from trust funds not currently invested and are properly secured to the extent required by law or (ii) deposits representing funds received for a special use in the capacity of an agent or custodian for an issuer of, or investor in, securities, such as paying and dividend disbursing agent, securities clearing agent, and similar capacities, and not employed by or for the account of a customer in the manner of a general purpose checking account or bearing interest.

• • • • •

To aid in the consideration of this matter by the Board, interested persons are invited to submit relevant data, views, or argument. Any such material should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than August 9, 1973.

By order of the Board of Governors, June 28, 1973.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[49 CFR Part 1307]

[Ex Parte No. MC-88]

DETENTION OF MOTOR VEHICLES—NATIONWIDE

Notice of Proposed Rulemaking and Order; Correction [1]

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on this 22d day of May 1973.

The failure of motor common carriers of property to provide uniform vehicle detention rules, including prearranged schedules, has given rise to shipper and carrier complaints alleging unjust and unreasonable practices, unjust discrimination, preference and prejudice, as well as unlawful concessions and rebates.

A number of inquiries have also been received as to whether arrangements for prearranged schedules may be made without provisions therefor being published in applicable tariffs lawfully on file with this Commission.

In view thereof, this proceeding is being initiated to examine and consider: (1) The need for requiring all motor common carriers of property subject to the jurisdiction of this Commission to publish and maintain their tariffs and file with this Commission uniform rules—nationwide—to govern the assessment and collection of vehicle detention charges applicable on interstate shipments moving subject to volume, truckload, less-than-truckload, or any quantity rates; (2) the need for requiring the publication of provisions therein requiring prearranged schedules to be established for the pickup and delivery of such shipments as a part of uniform vehicle detention rules; (3) if prearranged schedules are necessary, whether such provisions are necessary with respect to

[1] Line 4 paragraph 3 inadvertently omitted in original notice.

V38-134-JUL 13 73 XUM

(a) volume shipments, (b) truckload shipments, (c) less-than-truckload shipments, and (d) any quantity shipments, or any one or more of these four categories of shipments; (4) the lawfulness of carriers and shippers or receivers entering into voluntary prearranged schedules for the pickup or delivery of interstate shipments without tariff provisions authorizing such arrangements having first been published in tariffs lawfully on file with this Commission; and (5) the level of vehicle detention charges to be assessed and collected for such service.

It is the duty of this Commission under the Interstate Commerce Act to require that motor common carriers provide lawful, non-discriminatory, reasonable and adequate service and reasonable rates and charges. Therefore, the purpose of this rulemaking proceeding is to discourage undue delays of carriers' vehicles at origins, stopoff points, and destinations at the same time to assure lawful, nondiscriminatory, non-preferential, nonprejudicial, reasonable and adequate service, and reasonable vehicle detention rates and charges with respect to all classes, types and sizes of shippers and receivers of interstate freight shipments, nationwide.

Additionally, it is timely and otherwise appropriate and desirable to facilitate the simplification of carrier tariff provisions regarding vehicle detention so as to effect maximum utilization of automated systems techniques in the publication, application, and policing of detention rules and charges by carriers and shippers alike.

Precedent exists for the prescription of uniform detention rules and charges. In Docket 33434, "Detention of Motor Vehicles—Middle Atlantic and New England Territory," 325 ICC 336, decided April 23, 1965, this Commission prescribed uniform detention rules, with certain exceptions, to govern truckload shipments and all respondents thereto were required to establish appropriate tariff provisions within 60 days of the date that order became effective. At page 343, thereof, we stated:

> We find that a uniform detention rule, except as otherwise set forth herein, is necessary for economical and efficient transportation service by the respondents, and is in the public interest, and that the detention rule set forth in appendix E hereto is just and reasonable, and should be established and maintained by respondents, as set forth in the appended order.

The exceptions permitted thereunder were household goods, commodities transported in bulk in tank trucks, commodities transported by heavy haulers, and articles picked up from or delivered to railroad cars, and certain palletized shipments subject to Rule 15 of Middle Atlantic Conference, Agent, tariff 10 series, or other rules of similar character in other tariffs.

Accordingly, proposed uniform vehicle detention rules, including provisions for prearranged schedules, are set forth in the appendices hereto, for nationwide application.

It is for these purposes that the instant rulemaking proceeding is instituted.

Upon consideration of the above described matters and good cause appearing therefor:

It is ordered, That a proceeding be, and it is hereby, instituted under authority of part II of the Interstate Commerce Act (49 U.S.C. 301 et seq.) including sections 204(b), 208(a), 216 (b) and (d), 217 (a), (b), and (d), and 222(c), thereof, and pursuant to 5 U.S.C. 553 and 559 (the Administrative Procedure Act), to determine whether the facts and circumstances require or warrant the adoption of the proposed regulations set forth in the appendices A through C to this notice, or other regulations of similar purport applicable to motor common carriers of property operating in interstate or foreign commerce subject to the Interstate Commerce Act, and for the purpose of taking such other and further action as the facts and circumstances may justify or require.

It is further ordered, That all motor common carriers of property operating in interstate or foreign commerce within the United States, and subject to the Interstate Commerce Act, except those transporting exclusively, (1) household goods, (2) commodities in bulk in tank trucks, (3) heavy and specialized commodities or articles, requiring special handling, and (4) articles picked up from or delivered to railroad cars having prior or subsequent transportation by rail, be, and they are hereby made respondents in this proceeding.

It is further ordered, That the Bureau of Enforcement of this Commission be, and it is hereby, authorized and directed to participate in this proceeding.

It is further ordered, That no oral hearing be scheduled for the receiving of testimony in this proceeding unless a need therefor should later appear, but that respondents or any other interested persons may participate in this proceeding by submitting for consideration written statements of facts, views and arguments on the subjects mentioned above, or any other subjects pertaining to this proceeding.

It is further ordered, That any person intending to participate in this proceeding by submitting initial or reply statements, or otherwise, shall notify this Commission, by filing with the Interstate Commerce Commission, Office of Proceedings, Room 5354, Washington, D.C. 20423, on or before August 8, 1973, the original and one copy of a statement of his intention to participate. Inasmuch as the Commission desires wherever possible (a) to conserve time, (b) to avoid unnecessary expense to the public, and (c) the service of pleadings by parties in proceedings of this type only upon those who intend to take an active part in the proceeding, the statement of intention to participate shall include a detailed specification of the extent of such person's interest, including (1) whether such interest extends merely to receiving Commission releases in this proceeding, (2) whether he genuinely wishes to participate by receiving or filing initial and/or reply statements, (3) if he so desires to participate as described in (2), whether he will consolidate or is capable of consolidating his interests with those of other interested parties by filing joint statements in order to limit the number of copies of pleadings that need be served, such consolidation of interests being strongly urged by the Commission, and (4) any other pertinent information which will aid in limiting the service list to be used in this proceeding; that this Commission shall then prepare and make available to all such persons a list containing the names and addresses of all parties desiring to participate in this proceeding and upon whom copies of all statements must be filed; and that at the time of this service list the Commission will fix the time within which initial statements and replies must be filed.

And it is further ordered, That a copy hereof shall be served on each respondent herein, that notice of the institution of this proceeding shall be given by mailing a copy of this order to the Governor of every State having jurisdiction over transportation, that a copy be deposited in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C. for public inspection, and that a copy thereof be delivered to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to all interested persons.

Written material or suggestions submitted will be available for public inspection at the Offices of the Interstate Commerce Commission, 12th and Constitution Avenue, Washington, D.C. during regular business hours.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

Paragraph (e) is added to § 1307.35 to provide as follows:

§ 1307.35 Terminal and special services.

* * * * *

(e) *Proposed vehicle detention rule.* This item applies when carriers' vehicles (Note A) are delayed or detained at premises of consignor, consignee, or other places designated by consignor or consignee, subject to the following provisions:

(1) *General provisions.* (i) This item applies only to vehicles which have been ordered or used to transport shipments subject to truckload rates. If the shipment is moving on a rate subject to a stated minimum weight of 12,000 pounds or more; and such rate is not designated as a truckload rate, it will be considered a truckload rate for the purpose of applying this item.

(ii) This item applies only when vehicles are delayed or detained at the places of pick up or delivery and only when such delay or detention is attributable to consignor, consignee, or others designated by them.

(iii) Free time for each vehicle will be as provided in section 3.

(iv) After the expiration of free time as herein provided, charges as provided in section 4 will be assessed against the shipment.

(v) When section 7 of the Bill of Lading is executed, carrier will not deliver the shipment to consignee unless detention charges, if accrued, are guaranteed.

(2) *Computation of time.* (i) The time per vehicle shall begin to run upon notification by the driver to the responsible representative of the consignor or consignee at the place of pick up or delivery of the arrival of the vehicle for loading or unloading, as the case may be, either on the premises designated by the consignor or consignee, or as close thereto as conditions on said premises will permit, and shall end upon completion of loading or unloading and receipt by the driver of a signed Bill of Lading or receipt for delivery, as the case may be, except as provided in paragraph (b) of this section. Time, if any, necessary to prepare a vehicle for loading or unloading, as the case may be, will be excluded from the computation of time. Upon request of consignor or consignee, or others designated by them, carrier will enter into a reasonable prearranged schedule for arrival of the vehicle for loading or unloading.

Exception—When carrier makes a prearranged schedule with consignor or consignee, or others designated by them at place of pick up or delivery for the arrival of the vehicle for loading or unloading and carrier is unable for any reason to maintain such schedule within 30 minutes, the time shall begin to run from the commencement of loading or unloading and not from the time of arrival of the vehicle. If carrier's vehicle arrives prior to scheduled time, the time shall begin to run from the scheduled time or actual time loading or unloading commences, whichever is earlier.

(ii) Computations of time are subject to, and are to be made within the normal business (shipping or receiving) day at the designated premises at place of pick up or delivery, except, if carrier is permitted to work beyond this period, such working time shall also be included. When loading or unloading is not completed at the end of such day, time will be resumed at the beginning of the next such day, or when work the next day is actually begun by carrier, if earlier. When loading or unloading carries through a normal meal period, meal time, not to exceed one hour, will be excluded from computation of time.

(3) *Free time.* Free time shall be as follows:

Column A		Column B	
Actual weight in pounds per vehicle	Free Time in minutes	Actual weight in pounds per vehicle stop	Free Time in minutes per vehicle stop
Less than 24,000	240	Less than 10,000	90
24,000 and less than 36,000	300	10,000 and less than 20,000	180
36,000 or more	360	20,000 and less than 24,000	240
		24,000 and less than 36,000	300
		36,000 or more	360

Column A. Applies to vehicle containing truckload shipments requiring only one vehicle, or to fully loaded vehicles containing truckload shipments requiring more than one vehicle, except as provided in Column B.
Column B. Applies to last vehicle used in transporting overflow truckload shipments requiring two or more vehicles, or to vehicles containing truckload shipments stopped for completion of loading or partial unloading.

(4) *Charges.* When the delay per vehicle beyond free time is:

	The charge per vehicle will be:
1 hour or less	$
Over 1 hour but not over 75 minutes	
Over 75 minutes but not over 90 minutes	
Over 90 minutes but not over 105 minutes	
Over 105 minutes but not over 120 minutes	
Over 120 minutes but not over 135 minutes	
Over 135 minutes but not over 150 minutes	
Over 150 minutes but not over 165 minutes	
Over 165 minutes but not over 180 minutes	
Over 180 minutes	

(5) *Records.* A record of the following information must be maintained by the carriers and kept available at all times:

(i) Name and address of consignor, consignee, or other party at whose place of business freight is loaded or unloaded.

(ii) Identification of vehicles tendered for loading or unloading.

(iii) Date and time of notification of the arrival of the vehicle for loading and unloading.

(iv) Date and time loading or unloading begins.

(v) Date and time loading or unloading is completed.

(vi) Date and time vehicle is released for departure by consignor, consignee, or by other party at place of pick up or delivery after loading or unloading is completed.

(vii) Total actual weight of shipment loaded or unloaded.

(viii) Whether vehicles are tendered under a prearranged schedule for loading or unloading.

(ix) When vehicles are tendered under a prearranged schedule for loading or unloading, date and time specified therefor.

Nothing in this item shall require a carrier to pick up or deliver freight at hours other than such carrier's normal business hours.

NOTE A: "Vehicles" as used in this item means straight trucks or tractor-trailer combinations, except that this item will not apply to trailers without power units left by carrier at place of pick up or delivery of consignor, consignee, or other party designated by them. (See Items and series when trailers without power units are left by carrier).

When equipment is available, carrier may spot empty or loaded vehicles at consignor's or consignee's premises for loading or unloading in full possession of the consignor or consignee, unattended by carrier's employees and unaccompanied by power unit, subject to the following conditions and charges:

(6) *Loading or unloading.* (i) Loading or unloading will be performed by consignor or consignee and in the case of spotting for loading the Bill of Lading must show "Shipper load and count".

(ii) Carrier's responsibility for shipments loaded in trailers which are spotted under provisions of this item shall begin when loading has been completed and possession thereof is taken by the carrier. Carrier's responsibility for shipments delivered in trailers which are spotted under the provisions of this item will cease at the time the trailer is spotted at or on the place of delivery designated by the consignee.

(7) Free Time, After 7:00 a.m., on the day following that on which the vehicle is spotted:

(i) On vehicles spotted for unloading, 8 hours.

(ii) On vehicles spotted for loading, 8 hours, when the vehicles is placed at consignor's platform.

(8) Computation of time:

(i) Consignor or consignee will notify carrier when loading or unloading is in fact completed and trailer is available for pick up and the trailer will be deemed to be held until the time the carrier is so notified.

NOTE A: Notification means advice to consignor by carrier in connection with loading, or advice to carrier by consignee in connection with unloading, by mail or telegraph that trailer is loaded or unloaded as the case may be. If convenient and practicable, advice may be given by telephone, confirmed, however, in writing.

(ii) In computing time, Sundays and legal holidays (national, state or municipal) will in all cases be excluded.

(iii) Upon request of consignor or consignee, or others designated by them, carrier will enter into a reasonable prearranged schedule for arrival of the vehicle for loading or unloading.

	Charge
(9) *Charges*—(i) *Loading.* After expiration of free time the charge per trailer for each 24 hours or fraction thereof that the trailer is held will be NOTE A	$
(ii) *Loading.* After expiration of free time the charge per trailer shall be:	
(a) For each of the first three 24 hour periods or fraction thereof that the trailer is held	
(b) For the fourth 24 hour periods or fraction thereof that the trailer is held	
(c) For the fifth and each succeeding 24 hour period or fraction thereof that the trailer is held	

V 38-134
JUL 13 73
XUM

(10) *Pick up of trailer.* No charge will be made for picking up trailers spotted under this item when such pick up can be performed in 30 minutes after arrival of driver and power unit at consignor's or consignee's premises. Where a delay of more than 30 minutes is encountered, detention charges as specified in Item —— will be assessed.

(11) *Spotting of trailers.* Carriers will not spot trailers equipped with temperature control except that such equipment may be spotted at the charge provided for in this item for pickup or delivery of freight which does not require temperature control.

(12) *Strike interference.* When because of a strike of its employees, it is impossible for consignor or consignee to make available for movement by carrier, loaded or empty vehicles detained on consignor's or consignee's premises, a charge of $???? per day or fraction thereof will be made for such detention (NOTES A and B)

NOTE A: No charge will be assessed for empty trailers not constructively placed for loading. Carrier reserves the right to remove such trailers at any time.

NOTE B: Not applicable to vehicle furnished by water carriers or by the railroads.

(13) *General provisions.* (i) Except as otherwise specifically provided, when the loading or unloading of freight (Note A) is delayed, and such delay is attributable to the consignor, consignee or other designated by them, beyond the free time authorized in section 3, computed in accordance with SEC. 2, charges in section 4 will be assessed against the consignor (Note B), if the delay occurs at his premises and against the consignee (Note B), if the delay occurs at his premises (See Exception).

(ii) When Section 7 of the Bill of Lading is executed, carrier will not deliver the shipment to consignee unless detention charges, if accrued, are guaranteed.

(iii) Not applicable on LTL or AQ shipments loaded on same vehicle in multiple tender or unloaded from same vehicle in multiple delivery with shipments subject to truckload rates or subject to a stated minimum weight of 12,000 pounds or more. Apply provisions of Item ——.

(14) *Computation of time.* (i) The time consumed in loading or unloading freight shall be computed from the time of arrival until the time of departure of the vehicle, either on the premises of the consignor or consignee, or as close thereto as conditions on such premises (for under the control of consignor or consignee) will permit, including waiting time in reaching or leaving loading or unloading location. The time per vehicle shall begin to run upon notification by the driver to the responsible representative of the consignor or consignee that the vehicle is available for loading or unloading as the case may be. If the consignor or consignee refuses to sign carrier's record, the time specified by the driver of the vehicle shall be binding.

(a) The computation of time under this item begins and ends with the business hours of consignor or consignee. When loading or unloading is not completed at the end of a business day, the computation of the time will be resumed at the beginning of the next business day. When loading or unloading vehicle carries through a normal meal period, meal time, not to exceed one hour, will be excluded from computation of time.

(b) Upon request of consignor or consignee, or others designated by them, carrier will enter into a reasonable prearranged schedule for arrival of the vehicle for loading or unloading, provided at least 10,000 pounds are offered for pickup by consignor making such request or at least 10,000 pounds are available for delivery to consignee making such request (See Exception).

Exception. When carrier makes a prearranged schedule with consignor or consignee, or others designated by them, at place of pick up or delivery for the arrival of the vehicle for loading or unloading and carrier is unable, for any reason, to maintain such schedule within 30 minutes, the time shall begin to run from the commencement of loading or unloading and not from the time of arrival of the vehicle. If carrier's vehicle arrives prior to scheduled time, the time shall begin to run from the scheduled time or actual time loading or unloading commences, whichever is earlier.

(ii) In case of multiple shipments subject to LTL or AQ rates received from one shipper or delivered to one consignee at one time on the vehicle, time will be computed on the aggregate weight of the multiple shipments so received or delivered. Where there is more than one payor, charges will be prorated on the basis of the weight of each individual shipment. Where either a single shipment or such multiple shipments subject to LTL or AQ rates exceed the carrying capacity of one vehicle, free time for each vehicle shall be computed separately.

(15) *Free time.* Free time for the loading or unloading of freight will be allowed as follows:

For the first 1,750 lbs. or less	30 minutes (Note C)
For each additional 1,750 lbs. or fraction thereof	15 minutes (Note C)

(16) *Charges.* When the loading or unloading of freight is delayed beyond free time, charge per vehicle for each 15 minutes or fraction for time consumed for such delay shall be.

(17) *Redelivery.* The foregoing provisions of this item shall apply to an original delivery or tender of delivery of the shipment as well as to any redelivery or subsequent tender of delivery.

(18) *Collection (pick up) or delivery provisions in this or other tariffs.* The provisions of this item do not change or prevent the application of other items in this or other tariffs lawfully on file with the Interstate Commerce Commission covering pick up or delivery of freight. Nothing in this item shall require a carrier to pick up or deliver freight at hours other than such carrier's normal hours.

NOTE A: If shipments are refused when offered for delivery Item —— will apply.

NOTE B: The amounts due the carrier under the provisions of this rule shall be assessed against the consignor in case of loading, and against the consignee in the case of unloading, irrespective of whether line-haul charges are prepaid or collect.

NOTE C: In the case of multiple shipments received from one shipper or delivered to one consignee at one time on the vehicle, free time will be increased 5 minutes for each shipment subject to a maximum of 30 minutes additional free time.

INDIANA DUNES NATIONAL LAKESHORE ADVISORY COMMISSION

Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Indiana Dunes National Lakeshore Advisory Commission will be held at 10 a.m., e.s.t., on Friday, July 20, 1973, at the Indiana Dunes National Lakeshore building, Chesterton, Indiana.

The purpose of the Indiana Dunes National Lakeshore Advisory Commission is to meet and consult with the Secretary of the Interior on general policies and specific matters relating to the administration and development of the Indiana Dunes National Lakeshore.

The members of the Commission are as follows:

Mr. William L. Lieber (Chairman)
Indianapolis, Indiana
Mr. Harry W. Frey
Michigan City, Indiana
Mrs. Ione F. Harrington
Chesterton, Indiana
Mr. John A. Hillenbrand II
Batesville, Indiana
Mr. Ed Maslulis
Beverly Shores, Indiana
Mr. Harold G. Rudd
Portage (Ogden Dunes), Indiana
Mr. John R. Schnurlein
Valparaiso, Indiana

The matters to be discussed at this meeting include:

1. Superintendent's report on matters relevant to Indiana Dunes National Lakeshore since the last meeting.
2. Land Acquisition Officer's report on matters relevant to Indiana Dunes National Lakeshore since the last meeting.
3. Discussion of the Beach Erosion Status to date.
4. Discussion of the West Beach Highway Entrance.
5. Discussion of the Five-Year Development Program for Indiana Dunes National Lakeshore.

The meeting will be open to the public. Any member of the public may file with the Commission a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting, or who wish to submit written statements, may contact James R. Whitehouse, Superintendent, Indiana Dunes National Lakeshore, at 219-926-7561. Minutes of the meeting will be available for public inspection three weeks after the meeting at the Superintendent's Office of the Indiana Dunes National Lakeshore located at the intersection of State Park Road and U.S. Highway 12, Chesterton, Indiana.

Dated: June 19, 1973.

STANLEY W. HULETT,
Associate Director,
National Park Service.

SLEEPING BEAR DUNES NATIONAL LAKESHORE ADVISORY COMMISSION

Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Sleeping Bear Dunes National Lakeshore Advisory Commission will be held between 1 p.m. and 5 p.m. on Friday, July 27, 1973 at the Leland Lodge, Leland, Michigan.

The Commission was established by Public Law 91-479 to meet and consult with the Secretary of the Interior on general policies and specific matters related to the administration and development of the Sleeping Bear Dunes National Lakeshore.

The members are as follows:

Mr. John B. Daugherty (Chairman)
Frankfort, Michigan
Mr. William B. Bolton
Empire, Michigan
Mr. Verrol Conklin
Honor, Michigan
Mr. Frank C. MacFarlane
Cedar, Michigan
Mr. John Stanz
Glen Arbor, Michigan
Mr. Noble Travis
Leland, Michigan
Mr. Louis F. Twardzik
East Lansing, Michigan
Mrs. Charles R. Williams
Traverse City, Michigan
Mr. Carl T. Johnson
Cadillac, Michigan
Mr. Charles Yeates
Allegan, Michigan

The purpose of the meeting is to report on the status of land acquisition and related activities, and to bring the commission members up to date on management programs and plans and to swear in the new advisory commission members. These items will be presented by the staff of Sleeping Bear Dunes National Lakeshore. Committee reports and discussions include, status of the State of Michigan activities in transferring state lands to the National Park Service for inclusion in the national lakeshore; status of the proposed tax relief by the State of Michigan to provide assistance to the counties in lieu of taxes lost due to acquisition and inclusion of lands in the national lakeshore; and review of proposed marina facilities within the national lakeshore boundaries; and review of the State of Michigan Waterways Commission proposal to construct a launching facility in Good Harbor Bay.

The meeting is open to the public. It is expected that 30 persons will be able to attend the session in addition to the advisory commission members and the national lakeshore staff.

Any member of the public may file with the Commission a written statement concerning matters to be discussed. Further information concerning this meeting may be obtained from J. A. Martinek, Superintendent, Sleeping Bear Dunes National Lakeshore, Frankfort, Michigan at 616-352-9611. Minutes of the meeting will be available for public inspection two weeks after the meeting at the office of the Superintendent, 400½ Main Street, Frankfort, Michigan.

Dated: July 2, 1973.

STANLEY W. HULETT,
Associate Director,
National Park Service.

Office of the Secretary

MINING ENFORCEMENT AND SAFETY ADMINISTRATION

Notice of Establishment

By Order No. 2953 the Secretary of the Interior established within the Department of the Interior the Mining Enforcement and Safety Administration (MESA) and made it responsible for administering certain functions under the Federal Coal Mine Health and Safety Act of 1969 and the Federal Metal and Nonmetallic Mine Safety Act. Order No. 2953 transferred from the Bureau of Mines to the Mining Enforcement and Safety Administration the functions of mine health and safety, assessment and compliance, and education and training. The functions of energy, metallurgical and mining research and development, mine health and safety research, and mineral

V38-1347 JUL 13 73 XUM

supply are retained in the Bureau of Mines.

Notice is hereby given that on July 16, 1973, the Mining Enforcement and Safety Administration will become operative.

In order to provide for a continuing and orderly transfer of the functions assigned to the Mining Enforcement and Safety Administration notice is hereby given that:

1. All designations and appointments of duly authorized representatives of the Secretary of the Interior heretofore made pursuant to and for the purposes of the Federal Coal Mine Health and Safety Act of 1969 and the Federal Metal and Nonmetallic Mine Safety Act shall continue in force and effect. Such duly authorized representatives will be transferred to the Mining Enforcement and Safety Administration. Identification cards issued to such authorized representatives bearing any reference to "Bureau of Mines" shall be deemed to refer to "Mining Enforcement and Safety Administration."

2. The principal officials of the Mining Enforcement and Safety Administration are—

Administrator, Mining Enforcement and Safety Administration
Deputy Administrator, Mining Enforcement and Safety Administration
Assistant Administrator, Coal Mine Health and Safety
Assistant Administrator, Metal and Nonmetal Health and Safety
Assistant Administrator, Education and Training
Assistant Administrator, Technical Support
Deputy Assistant Administrator, Coal Mine Health and Safety

Persons filling a position designated as a "Deputy Director" or as an "Assistant Director" in the Bureau of Mines will be transferred to the Mining Enforcement and Safety Administration and are designated to fill the comparable position as a "Deputy Administrator," or as an "Assistant Administrator" and to perform the duties assigned to them until otherwise changed or assigned by the Administrator.

3. All District and Subdistrict offices, both Coal Mine Health and Safety and Metal and Nonmetal Mine Health and Safety, established by the Bureau of Mines are hereby redesignated as District and Subdistrict offices of the Mining Enforcement and Safety Administration, and all persons designated as District and Subdistrict Managers of the Bureau of Mines shall be District and Subdistrict Managers of the Mining Enforcement and Safety Administration.

4. All Notice and Order forms in use shall continue to be used by the Mining Enforcement and Safety Administration for the purpose of enforcement of the Federal Coal Mine Health and Safety Act of 1969 and the Federal Metal and Nonmetallic Mine Safety Act irrespective of any reference therein to the Bureau of Mines or an office of the Bureau of Mines and such references shall be deemed to refer to the Mining Enforcement and Safety Administration or an office of such Administration.

5. Inasmuch as no changes have been made in the geographical or jurisdictional boundaries of the respective Coal Mine Health and Safety Districts or the Metal and Nonmetal Mine Health and Safety Districts operators shall continue to contact the respective District and Subdistrict Offices in which the mine is located. All reports, plans, maps, or other documents required to be filed by operators or other persons under any standard or regulation promulgated by the Secretary under the authority of the Federal Coal Mine Health and Safety Act of 1969 or the Federal Metal and Nonmetallic Mine Safety Act shall continue to be filed at such offices designated in such regulations and shall be deemed to have been filed with the Mining Enforcement and Safety Administration if required to be filed with that Administration irrespective if the address or designated office is referred to as that of the Bureau of Mines.

Concurrently with the publication of this Notice there appears in the Rules and Regulations section of this issue of the FEDERAL REGISTER (page 18665) amendments of standards and regulations promulgated by the Secretary of the Interior under authority of the Federal Coal Mine Health and Safety Act of 1969 and the Federal Metal and Nonmetallic Mine Safety Act. These amendments reflect the transfer of functions under the two Acts and Secretary's Order No. 2953 from the Bureau of Mines to the Mining Enforcement and Safety Administration.

6. Until further notice "Permissible" equipment to which an approval plate, label, or other device is attached as authorized by the Secretary and which has been issued by the Bureau of Mines, and which is maintained in "permissible" condition, shall be deemed "permissible" for all purposes by the Mining Enforcement and Safety Administration.

Persons seeking to have equipment to be used in a coal mine or a metal mine approved as "permissible" shall file applications with Approval and Testing, Health and Safety Technical Support Center, 4800 Forbes Avenue, Pittsburgh, Pennsylvania 15213.

7. The Mining Enforcement and Safety Administration is substituted in lieu of the Bureau of Mines in all proceedings pending before the Office of Hearings and Appeals of the Department of the Interior in which the Bureau of Mines is named as the Petitioner or Respondent.

JOHN C. WHITAKER,
Acting Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Forest Service

SOUTH FORK YAAK PLANNING UNIT

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Multiple Use Plan—South Fork Yaak Planning Unit, Forest Service Report Number USDA-FS-DES (Adm) 73-84.

The environmental statement concerns a proposed implementation of a revised multiple use plan for the South Fork Yaak Planning Unit, Yaak Ranger District, Kootenai National Forest and located in Lincoln County, Montana. The proposal affects approximately 47,000 acres of National Forest lands which have been stratified into six management situations or units with similar resource implications.

This draft environmental statement was filed with CEQ July 6, 1973.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Building, Room 3230
12th St. & Independence Ave., S.W.
Washington, D.C. 20250

USDA, Forest Service
Northern Region
Federal Building, Room 3077
Missoula, Montana 59801

USDA, Forest Service
Kootenai National Forest
418 Mineral Avenue
Libby, Montana 59923

A limited number of single copies are available upon request to George A. Mahrt, Forest Supervisor, Kootenai National Forest, Box AS, Libby, Montana 59923.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151. Please refer to the name and number of the environmental statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor George A. Mahrt, Box AS, Libby, Montana 59923. Comments must be received by August 20, 1973 in order to be considered in the preparation of the final environmental statement.

PHILIP L. THORNTON,
Deputy Chief,
Forest Service.

JULY 6, 1973.

SOUTH BOISE-WOOD RIVER PLANNING UNIT

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the South Boise-Wood River Planning Unit Land Use Plan, USDA-FS-DES (Adm) 73-85.

The draft environmental statement identifies and evaluates the probable effects of a proposed land use plan for the South Boise-Wood River area, on the Sawtooth National Forest in south-central Idaho. The plan sets forth the allocation of land to resource uses and activities; establishes objectives; documents management direction, decisions, and necessary coordination between resource uses; and provides for the protection, use, and development of the various resources within the unit. The mix of uses provided for includes moderate levels of consumptive resource uses, a moderate but growing level of recreation use, and significant areas to remain undeveloped with the options for future management remaining open.

This environmental statement was filed with CEQ on July 6, 1973.

Copies are available for inspection during regular working hours at the following locations:

Regional Planning Office
USDA, Forest Service
Federal Building, Room 2025
324-25th Street
Ogden, Utah 84401

District Forest Ranger
Fairfield Ranger District
Sawtooth National Forest
Fairfield, Idaho 83327

Forest Supervisor
Sawtooth National Forest
1525 Addison Avenue East
Twin Falls, Idaho 83301

District Forest Ranger
Ketchum Ranger District
Sawtooth National Forest
Ketchum, Idaho 83340

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th St. & Independence Ave., S.W.
Washington, D.C. 20250

A limited number of single copies are available upon request from the Forest Supervisor E. A. Fournier, Sawtooth National Forest, 1525 Addison Avenue East, Twin Falls, Idaho 83301.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151. Please refer to the name and number of the environmental statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor E. A. Fournier, Sawtooth National Forest, 1525 Addison Avenue East, Twin Falls, Idaho 83301. Comments must be received by August 20, 1973 in order to be considered in the preparation of the final environmental statement.

PHILIP L. THORNTON,
Deputy Chief,
Forest Service.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

CORNELL UNIVERSITY MEDICAL COLLEGE AND UNIVERSITY OF WASHINGTON MEDICAL SCHOOL

Notice of Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00478-33-46040. APPLICANT: Cornell University Medical College, 1300 York Avenue, New York, N.Y. 10021. ARTICLE: Electron microscope, model EM 301. MANUFACTURER: Philips Electronic Instruments, NVD, The Netherlands. INTENDED USE OF ARTICLE: The article is intended to be used for ultrastructural studies of platelets in order to determine whether morphologic changes become apparent in them and on their surface during the process of blood coagulation. Particular interest will be paid to the nature of changes induced in the outer membranes of platelets by the action of complement during blood clotting. Further studies of complement-induced ultrastructural changes in cell membranes will, in addition, lead to a better understanding of the structure and function of cell membranes. Experiments will also be conducted in which the electron microscope will be used to study the localization of certain key glycoproteins in the membrane of platelets utilizing ferritin conjugated monospecific antisera to the isolated glycoprotein. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: April 16, 1973. ADVICE SUBMITTED BY DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE ON: June 22, 1973.

DOCKET NUMBER: 73-00486-33-46040. APPLICANT: University of Washington Medical School, Department of Pathology, Seattle, Wash. 98195. ARTICLE: Model JEM-100B electron microscope, MANUFACTURER: JEOL Ltd., Japan. INTENDED USE OF ARTICLE: The article is intended to be used for examination of biological specimens which include tissues, cells, cell components and viruses. Several of the research projects are as follows:

(1) Studies relating to the nature of the atherosclerotic plaque to identify the types of cells and the relationship of various cell types and extracellular material at various levels within the atherosclerotic plaque.

(2) Studies of selective myocardial cell necrosis induced by a variety of metabolic means such as isoproterenol, hyprokalemia or central nervous system stimulation;

(3) Studies of lymph node stimulation with adjuvant in conjunction with experimental allergic encephalitis, to identify accurately the specific architectural components of the lymph node that respond to the stimulus;

(4) Other studies which include studies of amyloid fibrils, the structure of collagen, components of elastic fibers, protein synthesis in virus assembly, membrane structure and fusion, and studies involving the passage of substances of different molecular size through cell membrane junctions.

In addition the article will be used for studying elementary particles of mitochondrial membranes and isolated ribosomes after negative staining procedures.

APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: April 24, 1973. ADVICE SUBMITTED BY DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE ON: June 22, 1973.

COMMENTS: No comments have been received in regard to any of the foregoing applications. DECISION: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for the purposes for which the articles are intended to be used, is being manufactured in the United States. REASONS: Each foreign article has a specified resolving capability of 3 Angstroms. The most closely comparable domestic instrument is the Model EMU-4C electron microscope which is manufactured by the Forgflo Corporation (Forgflo). The Model EMU-4C has a specified resolving capability of five Angstroms. (Resolving capability bears an inverse relationship to its numerical rating in Angstrom units, i.e., the lower the rating, the better the resolving capability.) We are advised by the Department of Health, Education, and Welfare in the respectively cited memoranda, that the additional resolving capability of the

V 38 134
JUL 13 73
XUM

foreign articles is pertinent to the purposes for which each of the foreign articles to which the foregoing applications relate is intended to be used. We, therefore, find that the Forgflo Model EMU-4C is not of equivalent scientific value to any of the articles to which the foregoing applications relate, for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director,
Special Import Programs Division.

[FR Doc.73-14338 Filed 7-12-73;8:45 am]

IIT RESEARCH INSTITUTE

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00277-90-14200. APPLICANT: IIT Research Institute, 10 West 35th Street, Chicago, IL 60616. ARTICLE: Image Analysing Computer System, Model Quantimet 720. MANUFACTURER: Metals Research Ltd., United Kingdom. INTENDED USE OF ARTICLE: The article is intended to be used to characterize particulate matter which may be from any source: ambient air suspended particles, air pollutants, life science specimens, materials science specimens, powders, pharmaceuticals, slurries pastes, pigments, etc. The properties investigated are particle number, particle size, size distribution, particle shape and shape distribution.

COMMENTS: No comments have been received with respect to this application.

DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

REASONS: The foreign article provides the capability for shape classification (i.e., the foreign article measures both area and perimeter for single features and, with the accessories ordered by the applicant, produces a classification based on the generally accepted shape sensitive parameter A/P^2, where A=area and P=perimeter). The most closely comparable domestic instrument, the Model QMS, manufactured by Bausch and Lomb does not provide the capability for shape classification. The National Bureau of Standards (NBS) advised in its memorandum dated June 8, 1973 that the capability for shape classification is pertinent to the applicant's intended investigation of particle shape distributions.

For these reasons, we find the Model QMS is not of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director
Special Import Programs Division.

MICHIGAN STATE UNIVERSITY, ET AL.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Nitrogen Analyzers

The following is a consolidated decision on applications for duty-free entry of Nitrogen Analyzers pursuant to section 6(c) of the Educational Scientific and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq). (See especially Section 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Specal Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00275-01-01100. APPLICANT: Michigan State University, East Lansing, Mich. 48823. ARTICLE: Solid State Nitrogen-15 Analyzer. MANUFACTURER: Breda, Holland. INTENDED USE OF ARTICLE: The article is intended to be used for the following nitrogen studies:

(1) Quantitatizing and maximizing denitrification in land disposal systems for animal wastes.

(2) To assess the quantities of nitrogen being fixed by microorganisms in aquatic environments in order to determine their contribution to the nitrogen pollution of lakes.

(3) To quantitate the fate of nitrogen in fertilizers used in agriculture in order to evaluate their contribution to the nitrogen pollution of rivers and streams.

(4) To trace nitrogen metabolism in crop plants.

(5) To quantitatively evaluate the amount of nitrate being dentrified in the natural soil ecosystem.

(6) To study the effects of photorespiration inhibitors on nitrogen fixation by soybeans.

(7) To study the metabolism and cycling of nitrogen through soil microfauna in the forest litter.

The article will also be used for educational purposes in laboratories in Soil Microbiology and Soil Biochemistry to acquaint students with the use of ^{15}N as a tracer in studies on nitrogen cycles in soil, on nitrogen related pollution problems and on nitrogen metabolism in plants.

APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: December 4, 1972. ADVICE SUBMITTED BY DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE ON: June 14, 1973.

DOCKET NUMBER: 73-00311-01-01100. APPLICANT: Graduate Hospital of University of Pennsylvania, Clinical Research Center, 19th and Lombard Streets, Philadelphia, PA 19146. ARTICLE: Nitrogen 15 Analyzer. MANUFACTURER: Breda, Holland. INTENDED USE OF ARTICLE: The article is intended to be used for a research program on Protein Metabolism in Surgical Patients in the General Clinical Research Center at the Graduate Hospital of the University of Pennsylvania. ^{15}N will be analyzed using an optical method. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: December 20, 1972. ADVICE SUBMITTED BY DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE ON: June 14, 1973.

DOCKET NUMBER: 73-00431-01-01100. APPLICANT: University of Missouri-Columbia, Columbia, Mo 65201. ARTICLE: Nitrogen 15 analyzer, NOI-5. MANUFACTURER: Isocommerz, the Netherlands. INTENDED USE OF ARTICLE: The article is intended to be used in the study of nitrogen metabolism, especially in ruminants. Several compounds containing 15/N will be used, including NH_4Cl, urea, glycine and other amino acids as they are available. Experiments planned include:

(1) The incorporation of ^{15}N into histidine of human subject depleted of histidine.

(2) The incorporation of ^{15}N into serum amino acids of sheep deprived of exogenous amino acids.

(3) The kinetics of disappearance of intravenously administered labelled amino acids.

The article will also be used in the courses animal husbandry 490 and 450 and nutrition 490 and 450 to provide research experience to graduate students. The students will be taught the operation of the instrument and use it for their individual research projects under the supervision of the major professor. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: March 16, 1973. ADVICE SUBMITTED BY DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE ON: June 14, 1973.

COMMENTS: No comments have been received in regard to any of the foregoing applications. DECISION: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for the purposes for which the articles are intended to be used, is being manufactured in the United States. REASONS: Each of the foreign articles provides basically simple, non-destructive analysis by means of emission spectrometry wherein nitrogen is excited to emission by a 27 megaherz radio frequency field. We are advised by the Department of Health, Education, and Welfare (HEW), in the respectively cited memoranda, that the characteristics described above are pertinent to the purposes for which each foreign article is intended to be used. HEW further advices that it knows of no instrument or apparatus of equivalent scientific value to any of the articles to which the foregoing applications relate.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate for such purposes as these articles are intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director,
Special Import Programs Division.

[FR Doc.73-14342 Filed 7-12-73;8:45 am]

NORTH DAKOTA STATE UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00467-33-46040. APPLICANT: North Dakota State University, Fargo, N. Dak. 58102. ARTICLE: Electron Microscope, Model Corinth 275. MANUFACTURER: AEI Scientific Apparatus Ltd., United Kingdom. INTENDED USE OF ARTICLE: The article is intended to be used for investigation of several types of specimens including: (1) Insect nerve tissue; (2) chloroplasts of wheat; (3) bacteria and bacteriophage; (4) liver cells, and (5) plant and animal viruses.

Experiments to be conducted vary with the specimen and include:

(1) Examination of the neurosecretory processes in brains and ganglia of the tobacco hornworm and cockroach.

(2) Study of chloroplasts of wheat to determine the effects of water stress on germination and early seedling development.

(3) Studies on bacteria and bacteriophage consisting of identifying host specific bacteriophage to potentially pathogenic bacteria found in livestock water ponds.

(4) Investigation by electron microscopy of the livers of rats treated with various concentrations of insecticides and drugs to determine the effect of such compounds on liver functions, and

(5) Identification of specific plant and animal viruses.

In addition, the article is to be used in the following courses to (1) teach technique and applications of electron microscopy in biological sciences; and (2) to expose students to applications of electron microscopy and interpretation of cell structure:

Botany 540—Techniques in Electron Microscopy.
Botany 102—Organismic Botany.
Zoology 411—Cytology.
Zoology 461—Cell Physiology.
Pharmacy 340—Physiological Processes Affected by Drugs.

COMMENTS: No comments have been received with respect to this application. DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used, is being manufactured in the United States at the time the article was ordered (February 23, 1973).

REASONS: The applicant requires an electron microscope which is suitable for instruction in the basic principles of electron microscopy. The foreign article is a relatively simple, medium resolution electron microscope designed for confident use by beginning students with a minimum of detailed programming. At the time of order the most closely comparable domestic instrument available was the Model EMU-4C electron microscope manufactured by the Forgflo Corporation. The Model EMU-4C electron microscope is a relatively complex instrument designed for research, which requires a skilled electron microscopist for its operation. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated June 22, 1973 that the relative simplicity of design and ease of operation of the foreign article is pertinent to the applicant's educational purposes. We, therefore, find that the Model EMU-4C electron microscope is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

A. H. STUART,
Director,
Special Import Programs Division.

PROVIDENCE HOSPITAL-RCR CENTER ET AL.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before August 2, 1973.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00573-33-43780. APPLICANT: Providence Hospital-RCR Center, 500 17th Avenue, Seattle, Washington 98122. ARTICLE: Regulator For Automatic Aspiration. MANUFACTURER: Collin Gentile Drapler S.A., France. INTENDED USE OF ARTICLE: The article is intended to be used for regulation of the suction system pressure during open heart operations thus preventing damage to the blood cells. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 15, 1973.

DOCKET NUMBER: 73-00574-33-46040. APPLICANT: University of Missouri Medical Center, 807 Stadium Road, Columbia, Missouri 65201. ARTICLE: Electron Microscope, Model SM-300S. MANUFACTURER: Philips Electronic Instruments, NVD, The Netherlands. INTENDED USE OF ARTICLE: The article is intended to be used as part of an interdisciplinary program to study the ultrastructure and function of the mammalian lung, particularly injury and repair related to human lung disease. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 15, 1973.

DOCKET NUMBER: 73-00575-90-46070. APPLICANT: The Ohio State University, 190 North Oval Drive, Columbus, Ohio 43210. ARTICLE: Scanning Electron Microscope, Model S4-10. MANUFACTURER: Cambridge Scientific Instruments Ltd., United Kingdom. INTENDED USE OF ARTICLE: The article is intended to be used in carrying out varied research projects such as the following:

(a) Conodont studies involving surface micromorphology, internal structure, and composition;

(b) Partial semiquantitative chemical analyses of individual dust particles from ice cores at Byrd Station, Antarctica;

(c) Distribution of Na, K, Ca, Mg and Al in plagioclase phenocrysts by means of x-ray analytic unit interfaced with the SEM and to obtain maps showing

V 38 I 134 JUL 13 73 XUM

the distribution within the phenocrysts of the elements cited;

(d) Studies of Pleistocene pollen grains;

(e) Studies of thin films of various magnetic materials, surface spin waves, and metals at very low temperatures;

(f) Investigation of the influence of neuro-secretory cell activity in the brain on the rate of aging in insects and other animals;

(g) Study of the pathogenic effects of various strains of fungi on mosquitoes;

(h) Studies of ion transport across membranes involving various specimens, including mitochondria of insect sperm, various parasite organs and tissues, and plant cells and their organelles that can be placed under experimental conditions of salt concentration; and

(i) Relationship between dietary intake of DDT, parathyroid function, and production of thin eggshells in birds.

In addition the article is to be used regularly by students enrolled in various courses in:

Geology and Minerology
Physics
Chemistry
Entomology
Biophysics
Zoology

DOCKET NUMBER: 3-005 6-33-46040. APPLICANT: Veterans Administration Hospital (673), 13000 North 30th Street, Tampa, Florida, 33612. ARTICLE: Electron Microscope, Model EM 201. MANUFACTURER: Philips Electronic Instruments NVD, The Netherlands. INTENDED USE OF ARTICLE: The article is intended to be used to examine specimens of cartilage and joint synovia taken from rabbits and human patients to determine whether subcellular changes consequent to virus infection resemble changes in rheumatoid arthritis. Specimens of hamster bronchial epithelium taken from exposure of the animals to airborne pollutants will be studied to define the pathology and functional changes which such pollutants evoke in lung tissue. Livers and spleen taken from Venezuelan equine encephalitis virus infected animals will also be studied for ultrastructural changes related to the enhanced immune responsiveness and protection against bacterial endotoxin which follows such infection. In addition to these studies, the article will be employed in teaching medical students and M.D. post doctoral fellows. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 15, 1973.

DOCKET NUMBER: 73-00578-33-46040. APPLICANT: Veterans Administration Hospital (673), 13000 North 30th Street, Tampa, Florida 33612. ARTICLE: Electron Microscope, Model EM 301. MANUFACTURER: Philips Electronic Instruments, NVD The Netherlands. INTENDED USE OF ARTICLE: The article is intended to be used to enhance the diagnostic speed and accuracy of a variety of lesions, particularly those affecting the kidneys, liver, small vessels and connective tissues; to enhance the recruitment of well qualified staff pathologists and to build up and modernize the residency training in pathology. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 15, 1973.

DOCKET NUMBER: 73-00579-33-46040. APPLICANT: Creighton University, College of Dentistry, 2500 California Street, Omaha, Nebraska 68131. ARTICLE: Electron Microscope, Model EM 201. MANUFACTURER: Philips Electronic Instruments NVD., The Netherlands. INTENDED USE OF ARTICLE: The article is intended to be used for studies of biological cells during inflammation and after pharmacologic manipulation; reticulo-endothelial cells producing immunoglobulins; mast cells and cultured cells involved in bone resorption and the ultrastructural effects of dental materials on mammalian cells. In addition, the article will be used in the course *Advanced Oral Biology* where senior dental students and graduate students in dental specialty programs will learn research applications of electron microscopy and basics of electron microscopic methods. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 18, 1973.

DOCKET NUMBER: 73-00580-33-46040. APPLICANT: Yale University, Purchasing Department, 260 Whitney Avenue, New Haven, Conn. 06520. ARTICLE: Electron Microscope, Model Elmiskop 102. MANUFACTURER: Siemens AG, West Germany. INTENDED USE OF ARTICLE: The article is intended to be used for studies of animal (including human) tissues, cells and subcellular components and the investigation of the following phenomena: (1) Organization and activity of dissociated cells from either exocrine or endocrine glands; (2) survey of the effects of different components of culture or maintenance media upon the organization and function of dissociated cells; (3) survey of experiments designed to maintain such cells in activity over reasonably long periods of time *in vitro*. The article will also be used in part in advanced training in research at the postdoctoral fellow and research associate level. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 18, 1973.

DOCKET NUMBER: 73-00581-33-46040. APPLICANT: Vassar College, Raymond Avenue, Poughkeepsie, New York 12601. ARTICLE: Electron Microscope, Model JEM 100B. MANUFACTURER: JEOL Ltd., Japan. INTENDED USE OF ARTICLE: The article is intended to be used in investigations of the mesonephric kidney of the chick embryo with the following objectives in mind: (1) to correlate the ultrastructure with cellular and general kidney function during the differentiation function and degeneration phases of the organs' life span; (2) to study the origin and function of lysosomes during the period of initiation of function of the proximal tubule; (3) to study the ultrastructure of the degeneration granules (lipofucin) and the role of lysosomes in mesonephric involution; and (4) to describe the structure of the glomerulus during differentiation and functional period and to correlate this with surface ultrastructure revealed by the SEM studies. The article will also be used in an instructional program involving electron microscopy. APPLICATION RECEIVED BY COMMISSIONER OF CUSTOMS: June 19, 1973.

A. H. STUART,
Director,
Special Import Programs Division.

UNIVERSITY OF SCRANTON

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00454-99-46040. APPLICANT: University of Scranton, Monroe Avenue, Scranton, Pa. 18510. ARTICLE: Electron microscope, model JEM T-8. MANUFACTURER: JEOL Ltd., Japan. INTENDED USE OF ARTICLE: The article is intended to be used to study the effects of a variety of experimental agents on cultured nervous tissue from various parts of the central peripheral nervous system; study the myelin sheath of the central and peripheral nervous systems; and aid in the analysis of the fine structure of the nervous system.

COMMENTS: No comments have been received with respect to this application. DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (June 29, 1972).

REASONS: The applicant requires an electron microscope which is suitable for instruction in th basic principles of electron microscopy. The foreign article is a relatively simple, medium resolution electron microscope designed for confident use by beginning students with a minimum of detailed programing. At the time the foreign article was ordered the most closely comparable domestic instrument was the Model EMU-4C electron microscope manufactured by the Forgflo Corporation. The Model EMU-4C electron microscope is a relatively complex instrument designed for research, which requires a skilled electron microscopist for its operation. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated June 14, 1973 that the relative

simplicity of design and ease of operation of the foreign article is pertinent to the applicant's educational purposes. We, therefore, find that the Model EMU-4C electron microscope is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the foreign article was ordered.

A. H. STUART,
Director,
Special Import Programs Division.

UNIVERSITY OF TEXAS MEDICAL BRANCH

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

DOCKET NUMBER: 73-00458-33-46500. APPLICANT: University of Texas Medical Branch, UMED 3-17641, Purchasing Department, Galveston, Tex. 77550. ARTICLE: Ultramicrotome, Model Om U3. MANUFACTURER: C. Reichert Optische Werke, Austria. INTENDED USE OF ARTICLE: The article is intended to be used for studies of mammalian central nervous system (brainstem) tissues derived from both unlesioned and lesioned experimental animals (primarily cats). Specific experiments to be conducted include continued investigation of the normal ultrastructural organization (synaptology) of the cat lateral cuneate nucleus and the morphologic alterations produced in this nucleus by destroying its various inputs (deafferentation).

COMMENTS: No comments have been received with respect to this application. DECISION: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

REASONS: Examination of the applicant's thin sections under the electron microscope will provide optimal information when such sections are uniform in thickness and have smoothly cut surfaces. Conditions for obtaining high quality sections depend to a large extent on the properties of the specimen being sectioned (e.g., hardness, consistency, toughness etc.), the properties of the embedding media and the geometry of the block. In connection with a prior case (Docket No. 69-00118-33-46500) which relates to the duty-free entry of a similar foreign article, the Department of Health, Education, and Welfare (HEW) advised that "Smooth cuts are obtained when the speed of cutting (among such [other] obvious factors as knife edge condition and angle), is adjusted to the characteristics of the material being sectioned." In connection with another prior case (Docket No. 69-00665-33-46500) relating to the duty-free entry of a similar foreign article, HEW advised that "The range of cutting speeds and a capability for the higher cutting speeds is . . . a pertinent characteristic of the ultramicrotome to be used for sectioning materials that experience has shown difficult to section." In connection with still another prior case (Docket No. 70-00077-33-46500) relating to the duty-free entry of a similar foreign article, HEW advised that "ultrathin sectioning of a variety of tissues having a wide range in density, hardness etc." requires a maximum range in cutting speed and, further, that "The production of ultrathin serial sections of specimens that have great variation in physical properties is very difficult." The foreign article has a cutting speed range of 0.5 to 10 millimeters/second (mm/sec). The most closely comparable domestic instrument is the Model MT-2B ultramicrotome manufactured by Ivan Sorvall, Inc. (Sorvall). The Sorvall Model MT-2B ultramicrotome has a cutting speed range of 0.09 to 3.2 mm/sec. We are advised by HEW in its memorandum of June 14, 1973 that cutting speeds in excess of 4mm/sec. are pertinent to the applicant's research studies. We, therefore, find that the Model MT-2B ultramicrotome is not of quivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director
Special Import Programs.

National Bureau of Standards

STANDARDS FOR HARDBOARD PRODUCTS

Circulation for Acceptance

In accordance with the provisions of § 10.5 of the Department of Commerce Procedures for the Development of Voluntary Product Standards (15 CFR Part 10, as amended; 35 FR 8349 dated May 28, 1970), the National Bureau of Standards is giving public notice and circulating for acceptance the following three Recommended Voluntary Product Standards:

TS 168a, Basic Hardboard
TS 207a, Prefinished Hardboard Paneling
TS 208, Hardboard Siding

The purpose of these Voluntary Product Standards is to establish nationally recognized quality requirements for the products covered and to provide producers, distributors, and users with a basis for common understanding of the characteristics of these products.

Copies of TS 168a, TS 207a, and TS 208a may be obtained from the Office of Engineering Standards Services, National Bureau of Standards, Washington, D.C. 20234. Written comments or objections concerning these standards should be addressed to the Office of Engineering Standards Services on or before August 27, 1973.

Dated: July 9, 1973.

R. S. WALLEIGH,
Acting Director.

National Oceanic and Atmospheric Administration

QUINLAN MARINE ATTRACTIONS

Partial Withdrawal of Undue Economic Hardship Application

Notice is hereby given that on June 22, 1973, Mr. Ralph Quinlan, doing business as Quinlan Marine Attractions, Lincolnton, N.C., was granted without prejudice, a requested amendment to his application for an exemption from the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361, 86 Stat. 1027 (1972)) on grounds of undue economic hardship (see 38 FR 12839, May 16, 1973). The amendment consists of the deletion of the request to take four bottlenose dolphins (*Tursiops truncatus*) to be displayed in Carowinds Park, Charlotte, N.C.

Copies of the original application and the letter granting the amendment to the application are available for inspection at the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, and at the National Marine Fisheries Service Regional Offices. The Regional offices are located at the following addresses: Southwest Region, 300 South Ferry Street, Terminal Island, California 90731, telephone 213-831-9575; Northeast Region, Federal Building, 14 Elm Street, Gloucester, Massachusetts 01930, telephone 617-281-0640; Southeast Region, William C. Cramer Federal Office Building, 144 First Avenue South, St. Petersburg, Florida 33701, telephone 813-893-3141; Northwest Region, Lake Union Building, 1700 West Lake Avenue North, Seattle, Washington 98109, telephone, 206-442-7575; Alaska Region, P.O. Box 1668, Juneau, Alaska 99801, telephone 907-586-7221.

Dated: July 9, 1973.

EXPORTERS' TEXTILE ADVISORY COMMITTEE

Notice of Public Meeting

The Exporters' Textile Advisory Committee will meet at 10:00 a.m. on July 19, 1973, in Room 6802, Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

The Committee, which is comprised of 24 members representing exporting firms and three trade associations, advises Department officials concerning ways of increasing U.S. exports of textile and apparel products.

The agenda for the meeting is as follows:

1. Review of Export Data.
2. Report on Conditions in Export Markets.
3. Impact of European Free Trade Area.
4. Export Trade Promotion.
5. Other Business.

A limited number of seats will be available to the public. The public will be permitted to file written statements with the Committee before or after the meeting. To the extent time is available at the end of the meeting, the presentation of oral statements will be allowed.

Further information concerning the Committee may be obtained from Arthur Garel, Director, Office of Textiles, Main Commerce Building, U.S. Department of Commerce, Washington, D.C. 20230.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

[DESI 6258; Docket No. FDC-D-621; NDA 5-812]

SUPPOSITORIES CONTAINING AMINOPHYLLINE WITH PENTOBARBITAL AND BENZOCAINE

Notice of Withdrawal of Approval of New Drug Application

A notice was published in the FEDERAL REGISTER of April 9, 1973 (38 FR 9037) extending to G. D. Searle & Co., PO. Box 5110, Chicago, Illinois 60680 and to any interested person, an opportunity for hearing on the proposal of the Commissioner of Food and Drugs to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act withdrawing approval of NDA 5-812 for Aminophylline with Pentobarbital and Benzocaine Supposicones. The basis of the proposed action was the lack of substantial evidence that the drug is effective for its labeled indications.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, October 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, Md. 20852.

Neither the holder of the application nor any other person filed a written appearance of election within the 30 days provided by said notice. The failure to file such an appearance constitutes election by such persons not to avail themselves of an opportunity for hearing.

The Commissioner of Food and Drugs pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to him (21 CFR 2.120), finds that on the basis of new information before him with regard to the drug, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling thereof.

Therefore, pursuant to the foregoing finding, approval of new drug application No. 5-812 and all amendments and supplements thereto is withdrawn effective on July 23, 1973.

Shipment in interstate commerce of the above-listed drug product or of any identical, related, or similar product, not the subject of an approved new drug application, will be unlawful.

Dated: July 9, 1973.

SAM D. FINE,
Associate Commissioner for Compliance.

Office of the Secretary

OFFICE OF THE REGIONAL DIRECTOR

Delegation of Authority

Part 1, section 1E-40, Part C, *Delegations of Authority*, of the Department of Health, Education, and Welfare Statement of Organization, Functions, and Delegations of Authority is hereby amended to delete *Child Development* and is changed to read as follows:

Human Development. 1. Regional Directors have been delegated the certain authorities by the Assistant Secretary for Human Development as follows:

a. Under the general policies and in such form as prescribed by the Director, Office of Child Development (and approved by the Assistant Secretary for Human Development) and in conformity to the allocations and financial guidelines of the Director, Office of Child Development to make grants under section 222 (a)(1) of the Economic Opportunity Act of 1964 (Project Head Start), except insofar as such grants are for programs which primarily serve migrants or Indians living on Federal reservations. This authority may be redelegated.

b. Under the general policies and in such form as prescribed by the Assistant Secretary for Human Development and in conformance with the allocations and financial guidelines issued by him, Regional Directors are authorized to make grants or contracts under the authority of Title I of the Juvenile Delinquency Prevention Act. The Regional Director is authorized to redelegate this authority only to the Assistant Regional Director for Human Development without the concurrence of the Assistant Secretary for Human Development.

c. To make, amend, suspend, and cancel the grants and contracts authorized in "a." and "b." above and to issue audit disallowances as well as to receive appeals on and make final decisions on such disallowances.

Dated: July 6, 1973.

ROBERT H. MARIK,
Assistant Secretary for Administration and Management.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Interstate Land Sales Registration

[Docket No. N-73-183; Administrative Division Docket No. 73-41]

MESCAL LAKES, ET AL.

Notice of Hearing

Notice is hereby given that:

1. Mescal Development Company, James C. Witty, General Partner, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701 et seq.), received a notice of proceedings and opportunity for hearing dated May 16, 1973, which was sent to the developer pursuant to 15 U.S.C. 1706(d) and 24 CFR 1710.45(b)(1) informing the developer of information obtained by the Office of Interstate Land Sales Registration showing that a change had occurred which affected material facts in the Developer's Statement of Record for Mescal Lakes, located in Cochise County, Arizona, and the failure of the Developer to amend the pertinent sections of the Statement of Record and Property Report.

2. The Respondent filed an answer received June 5, 1973, in answer to the allegations of the notice of proceedings and opportunity for a hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the notice of proceedings and opportunity for a hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(b), *It is hereby ordered*, That a public hearing for the purpose of taking evidence on the questions set forth in the notice of proceedings and opportunity for hearing will be held before Administrative Law Judge Miles Brown, in room 2253, Department of HUD Building, 451 7th Street, SW, Washington, D.C. on July 18, 1973, at 10:00 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before July 10, 1973.

5. The Respondent is hereby notified that failure to appear at the above scheduled hearing shall be deemed a default and the proceeding shall be determined against Respondent, the allegations of which shall be deemed to be true, and an order suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b)(1).

This notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

Dated: July 9, 1973.

By the Secretary.

JOHN R. McDOWELL,
Deputy Administrator, Interstate Land Sales Registration.

HAWAII'S PROPOSED ACTION PLAN

Notice of Availability

The Hawaii Highways Division has submitted to the Federal Highway Administration of the U.S. Department of Transportation a proposed Action Plan as required by Policy and Procedure Memorandum 90-4 issued on September 21, 1972. The Action Plan outlines the organizational relationships, the assignments of responsibility, and the procedures to be used by the State to assure that economic, social and environmental effects are fully considered in developing highway projects and that final decisions on highway projects are made in the best overall public interest, taking into consideration: (1) Needs for fast, safe and efficient transportation; (2) public services; and (3) costs of eliminating or minimizing adverse effects.

The proposed Action Plan is available for public review at the following locations:

1. Hawaii Highways Division
   Planning Branch
   600 Kapaiolani Avenue, Room 301
   Honolulu, Hawaii 96813
2. Design Branch
   869 Punchbowl Street
   Honolulu, Hawaii 96813
3. Hawaii District Office
   50 Makaala Street
   Hilo, Hawaii 96720
4. Maui District Office
   962 Keaoolu Street
   Kahului, Maui 96732
5. Kauai District Office
   State Office Building
   3060 Elwa Street
   Lihue, Kauai 96766
6. Office of Environmental Quality
   550 Halekauwila Street
   Honolulu, Hawaii 96813
7. Hawaii Division Office
   677 Ala Moana Blvd., Suite 1002
   Honolulu, Hawaii 96813
8. Federal Highway Administration, Region 9
   450 Golden Gate Avenue, Box 36096
   San Francisco, California 94102
9. U.S. Department of Transportation
   Federal Highway Administration
   Environmental Development Division
   Nassif Building, Room 3246
   400 7th Street, S.W.
   Washington, D.C. 20590

Comments from interested groups and the public on the proposed Action Plan are invited. Comments should be sent to the FHWA Regional Office shown above before August 6, 1973.

Issued on July 6, 1973.

NORBERT T. TIEMANN,
Federal Highway Administrator.

National Highway Traffic Safety Administration

[Docket No. EX73-6; Notice 1]

AUTO SPORT IMPORTERS

Petition for Temporary Exemption From Motor Vehicle Safety Standards

Edward Felbin T/A Auto Sport Importers, a Pennsylvania proprietorship, has applied for temporary exemptions for its Squire SS 100 passenger car from certain safety standards on grounds of substantial economic hardship.

Auto Sport did not manufacture any vehicles in 1972. It intends to manufacture between 50 and 100 vehicles in 1973. Named the Squire SS 100, the vehicle would be a replica of the 1936 Jaguar SS 100 roadster. It requests the exemptions for a period of 3 years, which would begin on the date the exemptions are granted. The exemptions would be from the wiped area requirements of Standard No. 104, the head form impact requirements of Standard No. 201, and the standards on windshield mounting (No. 212) and fuel system integrity (No. 301).

In support of its petition Auto Sport states that in its opinion it does meet Standards Nos. 201, 212, and 301. It bases this belief for Standards Nos. 201 and 301 upon its "use of materials that are currently being used by manufacturers who have done tests and certified compliance" and its "contemporary construction and installation methods that are at least equal to other manufacturers who have tested and certified compliance". Similarly with respect to Standard No. 212, it reports that the Squire's "windshield is mounted in a detachable steel frame assembled in a manner similar to other windshield installations that have been certified". However, it considers that the cost of testing to verify conformance with Standard No. 201, and a crash test to verify Standards Nos. 212 and 301, would cause it substantial economic hardship, though it does not supply any actual cost figures.

The problems with the wiped area requirements of Standard No. 104 are caused by the vehicle's design; "Because the glass is attached in a somewhat more forward position than modern automobiles and the width of the car is considerably narrower than contemporary automobiles, the percentage of area viewed by the 95 percentile drive (sic) is greater than the actual area of glass; thus, even if a wiper could be designed to wipe 100 percent of the glass, this section of the standard would still not be met". Petitioner intends to use three wiper arms to wipe the greatest percentage possible of the windshield. It has not submitted a list of items that would have to be modified to meet the standard or estimated conformance costs, as to comply with Standard No. 104 would require modification of the whole car. Because such a modification would change the character and appeal of the car, Auto Sport does not intend to comply with Standard No. 104 upon termination of the exemption. Failure to obtain the exemptions will cause petitioner a loss of $500,000. Balance sheets as of the end of 1970, 1971, and 1972 have been submitted, as well as an interim balance sheet as of April 30, 1973, and a projected balance sheet as of December 31, 1973 showing the estimated effects of the denial of the petition.

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on this subject (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition of Auto Sport described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5221, 400 Seventh Street, S.W., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date

V 38 I 134 JUL 13 73 XUM

indicated below will be considered. The application and supporting materials, and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the extent possible. If the petition is granted, notice will be published in the FEDERAL REGISTER pursuant to the authority indicated below.

Comment closing date: August 13, 1973.

Proposed effective date: Date of issuance of exemption.

(Sec. 3, Public Law 92-548, 86 Stat. 1159, 15 U.S.C. 1410; delegation of authority at 38 F.R. 12147.)

Issued on July 9, 1973.

JAMES E. WILSON,
Associate Administrator, Traffic Safety Programs.

AMERICAN REVOLUTION BICENTENNIAL COMMISSION

PHILATELIC ADVISORY PANEL

Notice of Meeting

JULY 16, 1973.

Notice is hereby given, pursuant to Executive Order 11671, that the following American Revolution Bicentennial Commission Philatelic Advisory Panel meeting will be held on July 16, 1973:

The Philatelic Advisory Panel will hold an open meeting (with the exception of the closed portions of the meeting asterisked below) on July 16, 1973 at 736 Jackson Place, N.W., Washington, D.C. 20276 at 10:00 a.m.

The Panel is composed of 16 leaders and authorities in the philatelic community who advise the Commission on matters pertaining to this commemoration of the Bicentennial. The agenda items to be discussed are:

Relationship of Interphil '76 and the Bicentennial
Stamp issues for 1974 and 1975*
Bicentennial Philatelic Awards
Bicentennial Philatelic Brochures
Bicentennial Philatelic Exhibit
Stamp Club participation in the Bicentennial

Dated: July 6, 1973.

ATOMIC ENERGY COMMISSION

[Docket No. 50-3]

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.

Availability of Environmental Report

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that a report entitled "Indian Point Unit No. 1, Environmental Report and Benefit Cost Analysis" and Appendices thereto, dated June 1973, submitted by the Consolidated Edison Company of New York, Inc., is available in the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C. and in the Hendrick Hudson High School Library, Albany Post Road, Montrose, New York 10548. The report and appendices thereto is also being made available to the public at the New York State Office of Planning Services, 488 Broadway, Albany, New York 12207 and at the Tri-State Regional Planning Commission, 100 Church Street New York, New York 10007.

The report and appendices thereto discusses environmental considerations related to conversion of a provisional operating License to full-term operating License for the Indian Point Nuclear Generating Unit No. 1, located in the Town of Buchanan, Westchester County, New York.

After the report and appendices have been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement related to the proposed action will be prepared. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a notice of availability of the draft environmental statement. The notice will request comments from interested persons on the proposed action and on the draft environmental statement. The notice will also contain a statement to the effect that the comments of Federal agencies and Sate and local officials and interested persons thereon will be available when received.

Dated at Bethesda, Maryland, this 6th day of July 1973.

For the Atomic Energy Commission.

GEORGE W. KNIGHTON,
Chief Environmental Projects Branch #1 Directorate of Licensing.

[Docket No. 25098; Order 73-7-22]

PIEDMONT AVIATION, INC.

Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 6th day of July 1973.

By application and petition filed on January 9, 1973, Piedmont Aviation, Inc. (Piedmont), requests that the Board issue an order directing interested persons to show cause why Piedmont's certificate of public convenience and necessity for route 87 should not be amended or modified to the extent necessary to realign the carrier's route system by consolidating the existing 14 segments into one segment, and by eliminating certain restrictions.[1]

In support of its request Piedmont asserts, inter alia, that its 14-segment route system is "now outmoded in the age of nonstop service and limited-stop service" since many of the carrier's flights must be scheduled to stop at route junction points. Such stops, it is alleged, impose an unnecessary cost on Piedmont and unnecessarily inconvenience the traveling public. In addition, Piedmont contends that other restrictions which no longer serve useful purposes limit the carrier's ability to schedule its aircraft in the most economical and most efficient manner.

Piedmont states that the proposed route realignment would afford the carrier greater operational flexibility in

[1] A map showing the realigned system is filed as part of the original document.

scheduling and would eliminate inconvenience to the traveling public. In addition, the carrier claims that if the proposed relief is granted, there will be a reduction in airport and air traffic congestion by the elimination of unnecessary stops; substantial cost savings; time and fare savings for the traveling public resulting from the elimination of unnecessary mileage; and long-range route strengthening and subsidy reduction for Piedmont.

Answers were filed by Allegheny Airlines, Inc. (Allegheny), Delta Air Lines, Inc. (Delta), Northwest Airline, Inc. (Northwest), and Southern Airways, Inc. (Southern). These carriers indicate that they have no objection to the issuance of a show cause order proposing to amend Piedmont's certificate as the carrier requests, so long as certain operating restrictions in enumerated markets are retained.[1a] The Louisville and Jefferson County Air Board also filed an answer in which it opposes any improved authority for Piedmont in the Louisville-Washington market pending disposition of its petition for review of the Board's decision in the Piedmont/Eastern Transfer Case, Order 72-11-22, dated November 7, 1972. In addition, answers in support of the application were filed by the Cities of Chicago and Cincinnati. Finally, Piedmont filed a reply together with a motion for leave to file an otherwise unauthorized document.[2] Therein, Piedmont agrees to accept certain additional restrictions in order to meet the objections raised by some of the parties.

As stated in the recent Texas International and Airwest route realignments[3] it has been Board policy to realign the route systems of local service carriers in order to maximize the opportunities for scheduling flexibility and equipment utilization; to conform route authority to traffic flows; and to eliminate or modify certificate conditions which serve no useful purpose, impair meaningful market development, and inhibit significant improvement in the carrier's economic performance. The ultimate objectives of the Board's route realignment policy are to reduce subsidy payments to local service carriers while, at the same time, improving air service to the public.

Upon consideration of the pleadings and all the relevant facts, we tentatively find and conclude that Piedmont's route realignment and certificate amendment proposal, as modified herein, is consistent with the Board's policy and objectives and that substantial public service and carrier benefits will derive from the realigned route system.[4]

It is our tentative view that the proposed realignment and certificate amendments offer Piedmont the potential for significant route strengthening and for a substantial reduction in the carrier's subsidy need and subsidy payments. Such reductions should be reflected for fiscal 1975, assuming the carrier takes full advantage of the operational benefits made available by the realignment, and conducts its operations in a manner which produces maximum economic improvements in terms of cost efficiency and traffic development. Thus, consolidating Piedmont's existing 14-segment route system into one segment and modifying or eliminating unnecessary and burdensome conditions as proposed by the carrier, will allow Piedmont to provide new or improved service in numerous markets in which such service is presently restricted as a result of either the arbitrary segmentation of the carrier's route or outmoded certificate restrictions. Full implementation of the potential operational and scheduling flexibility offered by the realigned system should also increase the carrier's average length of hop and passenger haul, and thus lower its unit costs.[4a]

Piedmont has proposed a number of restrictions on its realigned system in order to lessen the competitive impact on other carriers. In general, no restrictions have been proposed which would give Piedmont less authority than it presently possesses while meaningful existing long-haul restrictions have, for the most part, been retained. In non-competitive markets, no restrictions have been proposed, and, in competitive markets where Piedmont now holds one-stop authority via a junction point, a one-stop restriction is proposed. In competitive markets involving significant amounts of traffic where another carrier has nonstop authority, a one-stop restriction is proposed. Finally, in competitive markets where no significant traffic is involved, unrestricted authority is proposed unless there was a specific rationale for restricted authority or the market is served by another local service carrier.

The Board tentatively finds and concludes that the conditions contained in Piedmont's proposed certificate, subject to the modifications discussed below, are sufficient to maintain the regional characteristics of Piedmont's local service route system, preserve the competitive balance in key markets, and substantially lessen the likelihood of adverse economic impact on competing carriers. In addition, we tentatively find and conclude that elimination or modification of the operating restrictions as proposed by Piedmont is consistent with the Board's policy of removing or modifying conditions which serve no useful purpose and which are otherwise wasteful and undesirable.[5]

Finally, the Board tentatively finds and concludes that all new nonstop authority in markets where traffic generation is large enough to support a finding that such operations are economically feasible, will be made ineligible for subsidy assistance.[6]

With regard to the objections raised by Allegheny, Southern, and Northwest, we have tentatively determined to impose the following restrictions:

Market	*Restriction*
Baltimore-Cincinnati	Single-plane prohibition
Baltimore-Columbus	Single-plane prohibition
Baltimore-Huntington	One-stop
Parkersburg-Louisville	One-stop
Charleston-New York (via Dulles)	Single-plane prohibition
Atlanta-Charlotte	Two-Stop
Atlanta-Chicago	Two-Stop
Atlanta-New York	One-stop
Atlanta-Washington	One-stop
Chicago-Memphis	Two-Stop[7]
Chicago-Nashville	Two-Stop[7]
Chicago-New York	Two-Stop
Chicago-Washington	Two-Stop

In this regard, we have tentatively accepted those restrictions urged by Allegheny, Southern and Northwest, with the exception of the Atlanta-Washington/New York markets. In these markets, Southern has objected to the imposition of a one-stop restriction and has requested that the present two-stop restriction be maintained. Southern is currently subject to a single-plane restriction in these markets and is an applicant for one-stop authority in the markets via Greenville/Spartanburg. Southern, unlike Piedmont, is not presently an incumbent in these markets.

[1a] Allegheny opposes improved authority for Piedmont in the Baltimore-Cincinnati, Baltimore-Columbus, and Charleston-New York markets. Allegheny also objects to granting Piedmont improved authority in the Baltimore-Huntington and Louisville-Parkersburg markets, noting that it did not seek improved authority in these markets in its realignment in order to avoid encroachment upon Piedmont. Pending final Board action on the Allegheny Route Realignment, Docket 24576, we will maintain the status quo of a one-stop restriction in these two markets. Delta opposes the award of nonstop authority in the Augusta-Louisville market and the operation of through service by Piedmont in the Augusta-Louisville-Columbus/Cincinnati markets. Northwest objects to the modification of present restrictions in the Chicago-Washington and Chicago-New York markets. Finally, Southern objects to the grant of one-stop authority in the Chicago-Memphis, Chicago-Nashville, Atlanta-Charlotte, Atlanta-New York, and Atlanta-Washington markets.

[2] The motion will be granted.

[3] Orders 73-1-47, January 15, 1973, and 72-4-140, April 26, 1972.

[4] See Orders 73-1-47, January 15, 1973, 72-9-58, September 14, 1972, 72-4-140, April 26, 1972, 71-4-113, April 16, 1971, 71-2-12, February 2, 1971, 68-11-74, November 18, 1968, 68-7-63, July 12, 1968, and E-26868, June 4, 1968.

[4a] We would, of course, expect the carrier to revise its fares in markets in which it receives improved authority so that the fares are calculated in a manner which properly reflects the improved pattern of operations resulting from the realignment.

[5] We further find that Piedmont is a citizen of the United States within the meaning of the Act and is fit, willing and able properly to perform the transportation proposed herein and to conform to the provisions of the Act and the Board's rules, regulations, and requirements thereunder. In addition, we tentatively find and conclude that the proposed realignment of Piedmont's route 87 is required by the public convenience and necessity.

[6] Appendix A contains a revised list of subsidy-ineligible operations, and is filed as part of the original document.

[7] Only if London/Corbin is served; otherwise a one-stop restriction.

V38-134 JUL 13 73 XUM

The impact of the modification of Piedmont's two-stop restriction upon Southern would, therefore, be deminimis. In addition, the grant of one stop authority to Piedmont would in no way preclude grant of Southern's application and, moreover, Piedmont has specifically proposed an additional restriction in the Atlanta-Greenville-Washington/New York markets to avoid any possible conflict with Southern's application.[9] Under these circumstances, imposition of an additional restriction would appear unwarranted.

As far as Delta's objection is concerned, Piedmont, in its reply, agreed that the exclusion of a one-stop restriction in the Augusta-Louisville market was in error and has corrected its proposed certificate to reflect this restriction.

Lastly, the Louisville and Jefferson County Air Board opposes any improvement in Piedmont's one-stop Louisville-Washington authority pending the outcome of its appeal of the Board's decision in the Piedmont/Eastern Transfer Case, wherein the Louisville parties argued that the transfer of Louisville-Washington one-stop authority from Eastern to Piedmont would prejudice applications pending in the Louisville-Washington Service Investigation, Docket 21318. As we have previously stated, the transfer does not, in our view, exclude the authorization of competitive nonstop service in the market or otherwise prejudice any applicant in the pending proceeding.[9a] In addition, it is our view that the one-stop authority to be awarded herein in no way changes that conclusion or compromises the legal position of the Louisville parties should the petition for review be succesful. In any event, the continuing effectiveness of the Board's earlier award will be governed by the disposition by the United States Court of Appeals of the appeal now pending before that court. We shall not, therefore, further restrict Piedmont's Louisville-Washington authority at this time.

Interested persons will be given 30 days following service of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to direct their objections, if any, to specific markets, and to support such objections with detailed economic analysis. If an evidentiary hearing is requested, the objector should state in detail why such a hearing is necessary and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

During the same period prescribed above, we will expect Piedmont to file with the Board an estimate, with supporting data, of the annual gross transport revenue increase for the first full year of operations to result from the award proposed herein. This data is necessary for the purpose of computing the license fee pursuant to § 389.25(a) (2) of the Board's regulations.

Accordingly, it is ordered, That:

1. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein and amending Piedmont's certificate in the manner set forth in the accompanying proposed certificate:

2. Any interested persons having objection to the issuance of an order making final the proposed findings, conclusions, and certificate amendments and modifications set forth herein shall, within 30 days after service of a copy of this order, file with the Board and serve upon all persons listed in Appendix B attached hereto a statement of objections together with a summary of testimony, statistical data, and such evidence expected to be relied upon to support the stated objections;

3. If timely and properly supported objections are filed, full consideration will be accorded the matters or issues raised by the objections before further action is taken by the Board;[9]

4. In the event no objections are filed to any part of this order, all further procedural steps relating to such part or parts will be deemed to have been waived, and the case will be submitted to the Board for final action;

5. A copy of this order shall be served on Piedmont, which is hereby made a party to this proceeding;

6. A copy of this order shall be served upon all persons listed in Appendix; [10] and

7. The motion of Piedmont Aviation, Inc., for leave to file an otherwise unauthorized document, be and it hereby is granted.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

COMMISSION ON CIVIL RIGHTS

DELAWARE STATE ADVISORY COMMITTEE

Agenda and Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the Rules and Regulations of the U.S. Commission on Civil Rights, that a planning meeting of the Delaware State Advisory Committee to this Commission will convene at 12 noon on July 13, 1973, at the Young Women's Christian Association, 908 King Street, Wilmington, Delaware 19801.

Persons wishing to attend this meeting should contact the Committee Chairman, or the Mid-Atlantic Regional Office of the Commission, Room 510, 2120 L Street, N.W., Washington, D.C. 20425.

The purpose of this meeting shall be to assess the June 1–2, 1973, open meeting on the conditions in the Delaware Adult Corrections System as they relate to the civil rights of inmates.

This meeting will be conducted pursuant to the rules and regulations of the Commission.

Dated at Washington, D.C., July 3, 1973.

ISAIAH T. CRESWELL, JR.,
Advisory Committee Management Officer.

[FR Doc.73-14497 Filed 7-12-73;8:45 am]

ENVIRONMENTAL PROTECTION AGENCY

CERTAIN PESTICIDE CHEMICALS

Notice of Intent To Cancel Registration

This notice is a continuation of the phaseout of no residue, or zero tolerance, registrations. Previous actions in this regard were based on the statement of implementation in the FEDERAL REGISTER of April 13, 1966, (31 FR 5723), and amended statement of implementation in the FEDERAL REGISTER of December 5, 1970 (35 F.R. 18550).

In FEDERAL REGISTER notices August 30 and December 2, 1972 (37 FR 17554, 25716), interim tolerances were established for a number of pesticides for which petitions for tolerances were submitted prior to December 31, 1970. These tolerances provide a basis for the registration only until the processing of the pending petition is completed and action is taken thereon.

Pesticide use patterns involving food or feed which are not supported by finite tolerances, exemptions, or interim tolerances are listed below: Although petitions to establish tolerances for residues resulting from these use patterns were pending at the end of 1970, petitions are not now pending.

a. *S*[[(*p*-Chlorophenyl) thio]methyl]-*O,O*-dimethyl phosphorodithioate—cotton.

b. Endosulfan—soybeans.

c. 4 - (2,4 - Dichlorophenoxy) butyric acid—barley, oats, wheat.

d. 6- Methyl - 2,3 - quinoxalinedithiol cyclic *S,S*-dithiocarbonate-apples, apricots, cantaloupes (including seed crops), cherries, cucumbers, melons (including seed crops), nectarines, peaches, pears, plums, prunes, squash (including seed crops).

e. Streptomycin—hops.

f. Simazine—pineapples.

The registered uses of the foregoing pesticides on the crops listed would reasonably be expected to result in residues in or on harvested food or feed. The presence of such residues in or on food or feed would constitute adulteration under the Federal Food, Drug, and Cosmetic Act (sec. 402(a) (1), (2), 52 Stat. 1046; 21 U.S.C. 342(a) (1), (4)). Thus, products bearing directions for use on food or feed are not considered to be adequate for the protection of the public.

Therefore, in accordance with the provisions of section 6 of the Federal Insecticide, Fungicide, and Rodenticide Act as amended by Public Law 92–516 (86 Stat. 984), products containing such pesticides which are registered under the Act bearing directions for such uses are no longer considered to be in compliance with the provisions of the Act. The registration of such products will be canceled effective 30 days following the publication of this note, or from receipt by the registrant of a copy of this notice, whichever is later, unless all directions for such uses are immediately deleted from the labels of such products or other procedure is invoked as provided in section 6.

Five copies of corrected labeling must be submitted to the Registration Division, Office of Pesticide Programs, Environmental Protection Agency, Washington, D.C. 20460, if continued registration is desired.

Dated: July 9, 1973.

HENRY J. KORP,
Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.73-14397 Filed 7-12-73;8:45 am]

LOS ANGELES TRANSPORTATION CONTROL PLAN

Notice of Public Hearing

A revised transportation control plan was proposed for the Metropolitan Los Angeles Intrastate Air Quality Control Region on June 15, 1973, and published in the FEDERAL REGISTER on July 2, 1973, 38 FR 17683.

Notice is hereby given that a public hearing on this revised proposal will be held on August 9, 1973, at the Los Angeles Convention Center, 1201 South Figueroa Street, Los Angeles, California 90015. The hearing will take place from 9:30 a.m. to 12:00 Noon and 1:30 p.m. to 4:30 p.m. If witnesses indicate that they can only attend an evening session, or if adequate time is not available during the day sessions to hear all witnesses, an evening session will be held from 7:00 p.m., lasting until all witnesses have been heard.

Persons wishing to give testimony at this hearing may do so by stating such intent at the hearing. Athough it is not required, persons planning to submit testimony should submit a copy of the testimony prior to the hearing date to the Regional Administrator, Environmental Protection Agency, 100 California Street, San Francisco, California 94111.

Dated: July 9, 1973.

ALAN G. KIRK II,
Acting Assistant Administrator for Enforcement and General Counsel.

[FR Doc.73-14392 Filed 7-12-73;8:45 am]

[9] We would note, in this connection, that Southern's request for a two-stop restriction is wholly unsupported by any factual or evidentiary matter, and it seems clear that the application in Docket 24778 does not depend on traffic in the Atlanta-Washington/New York markets.

[9a] Order 72-11-22, at 4.

[9] All motions and/or petitions for reconsideration shall be filed within the period allowed for filing objections and no further motions, requests, or petitions for reconsideration of this order will be entertained.

[10] Filed as part of the original document.

FEDERAL COMMUNICATIONS COMMISSION

[Report 656]

COMMON CARRIER SERVICES INFORMATION [1]

Domestic Public Radio Services Applications Accepted for Filing [2]

JULY 9, 1973.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) the close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cut-off dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Acting Secretary.

APPENDIX

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

9623–C2–P–73 Telcom Corporation (New) C. P. for a new 2-way station to operate on 152.06 MHz at 1950 feet South of Old Albany Road, Shelburne, Massachusetts.

9624–C2–P–73 Carolina Telephone and Telegraph Company (KIJ363) C. P. for additional facilities and to add points of communications, operating on 152.81 MHz at 1.8 miles SE of Rocky Mount, North Carolina.

9760–C2–P–73 All Services, Inc. (KLF484) C. P. for additional facilities, operating on 152.06 MHz at 2104 Mt. Pleasant Street, Charleston, South Carolina.

9781–C2–P–(3)–73 The Mountain States Telephone and Telegraph Company (KOA607) C. P. to change antenna system, power and additional facilities, operating on 152.75 MHz at Loc. #1: 7.5 miles South of Phoenix, Arizona and Loc. #2: 12403 North 15th Avenue, Phoenix, Arizona, also to add frequency: 158.01 MHz at 228 West Adams St., Phoenix, Arizona (test facility)

[DOCKET NO. 19325]

ITU WORLD ADMINISTRATIVE RADIO CONFERENCE FOR MARITIME MOBILE TELECOMMUNICATIONS

Order Extending Time

1. On June 13, 1973, the Commission adopted its third notice of inquiry in this proceeding (38 F.R. 16673), preparatory to a World Administrative Radio Conference for Maritime Mobile Telecommunications (WARC–MAR) to be convened April 22, 1974, and requested comments to be filed on or before July 16,

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations and other requirements.

[2] The above alternative cut-off rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio and Local Television Transmission Services (Part 21 of the rules).

V38-1347 JUL 13 73 XUM

1973, and reply comments on or before July 25, 1973.

2. The Commission has been petitioned by the Radio Technical Commission for Marine Services (RTCM) to extend the comment and reply comment deadline dates, taking into account that the Third Notice was released only three days prior to the RTCM Executive Meeting and, consequently, the necessary study and possible action on the Third Notice cannot be completed by RTCM Special Committees and submitted to the RTCM Executive Meeting for approval on June 21st.

3. The purpose of the third notice of inquiry is to obtain the greatest number and variety of comments in this proceeding; noting that it is the last opportunity to do so prior to the preparation of the final U.S. proposals, the filing period is being extended insofar as practicable, but limited by the deadlines imposed to meet international commitments.

4. Accordingly, the date for filing comments in this proceeding is extended from July 16th to July 23rd, and reply comments from July 25th to August 1, 1973. Authority for this action is taken pursuant to Section 0.251(b) of the Commission's Rules.

Adopted: July 5, 1973.

Released: July 6, 1973.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] JOHN W. PETTIT,
General Counsel.

[FR Doc.73-14346 Filed 7-12-73;8:45 am]

[Docket No. 19743]

SUBSCRIPTION AGREEMENTS BETWEEN RADIO BROADCAST STATIONS AND MUSICAL FORMAT SERVICE COMPANIES

Extension of Time for Filing Comments and Reply Comments

1. On May 17, 1973, the Commission adopted a notice of inquiry in the above-captioned proceeding (38 F.R. 18268). Publication was given in the FEDERAL REGISTER on May 29, 1973, 38 Fed. Reg. 14124. Comment and reply comment dates have been extended by previous Order to July 5 and July 19, 1973, respectively.

2. On June 27, 1973, counsel for the National Citizens Committee for Broadcasting (NCCB) filed a Petition for Enlargement of Time for Submitting Public Comments. It requests an extension of time in which to file comments for 60 days, to and including August 28, 1973. NCCB states that the requested extension is necessitated by the need to make a full in-depth assessment of the questions enumerated by the Commission in its Notice of Inquiry and its lack of adequate personnel to complete this task. They state that this problem, however, has been solved and that since additional personnel are now available the detailed research has begun.

3. Although we believe that we should have been advised sooner of NCCB's need for additional time, it is our desire to have the full benefit of views of the various segments of the industry and the public. Therefore, we feel that the public interest would be served by extending the time for filing comments and reply comments. Accordingly, *it is ordered*, That the time for filing comments and reply comments in this proceeding are extended to and including August 28, 1973, and September 11, 1973, respectively. No further extensions of time are contemplated in this proceeding.

4. This action is taken pursuant to authority found in sections 4(i) and 303 (r) of the Communications Act of 1934, as amended, and § 0.281(d)(8) of the Commission's rules and regulations.

Adopted: July 5, 1973.

Released: July 6, 1973.

[SEAL] HAROLD L. KASSENS,
Acting Chief,
Broadcast Bureau.

FEDERAL POWER COMMISSION

[Docket No. RP73-98]

ALGONQUIN GAS TRANSMISSION CO.

Proposed Changes in Rates and Charges

JULY 3, 1973.

Take notice that Algonquin Gas Transmission Company (Algonquin) on June 8, 1973, tendered for filing proposed changes[1] in its FPC Gas Tariff, Original Volume No. 1.

The proposed changes are the substitution of a demand-commodity form of rate for a straight line rate of $1.80 per Mcf, and a minimum monthly bill which relates to the demand-commodity type rate proposed. The Company says that the rates and charges proposed in this filing are supported by the cost and revenue data set forth in the original filings in Docket Nos. CP69-41 and CP72-35. Algonquin maintains that the revised rate is necessitated by a rapid increase in the cost of naphtha and propane feedstocks.

Algonquin requests an effective date of one day after the initial SNG rates, also tendered for filing on June 8, 1973, become effective. Algonquin has estimated that service under the initial SNG rates will begin October 16, 1973. The Company requests waiver of the Commission's notice requirements to allow the revised rates to be tendered at this time.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 17, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8142]

ARKANSAS POWER & LIGHT CO.

Order Accepting Proposed Rate Increase for Filing and Instituting Investigation of Debt Adjustment Provision

JULY 3, 1973.

On April 18, 1973, as completed on June 4, 1973, Arkansas Power & Light Company (Arkansas) tendered for filing a supplement to a Power Coordination, Interchange, and Transmission Agreement (Agreement) dated April 20, 1972,[1] which Agreement was accepted for filing by a Commission letter order dated August 10, 1972. The Agreement provides for the sale of Additional Power Requirements by Arkansas to AECC commencing on June 1, 1973. However the letter order accepting the Agreement for filing stated that the sale of Additional Power Requirements to AECC would "constitute a rate schedule change requiring a timely filing." Arkansas states that this filing would raise Arkansas's capacity charge from $1.60/kW shown in the original Agreement to $1.68/kW in this Supplement No. 2, which results from an increase under an automatic embedded debt cost adjustment provision from a base embedded debt cost of 5.254 percent to 6.138 percent. The filing was noticed on May 8, 1973, but no comments were received.

Our review of Arkansas's filing indicates that the rate level contained therein has been fully suported and that the filing should be accepted for filing and made effective on June 1, 1972, without suspension as proposed. However, our review of the embedded debt cost adjustment provision indicates that it has not been shown to be just and reasonable. Therefore, we shall institute an investigation under section 206 of the Federal Power Act to determine whether the provision is in the public interest.

The Commission finds:

It is necessary and appropriate in the public interest and to aid in the enforcement of the Federal Power Act that:

(1) Arkansas's filing of April 18, 1973, as completed on June 4, 1973, be accepted for filing and made effective as hereafter ordered.

(2) The embedded debt cost adjustment provision should be set for investigation under section 206 of the Federal Power Act.

The Commission orders:

(A) Arkansas's filing of April 18, 1973, as completed on June 4, 1973, is hereby accepted for filing to become effective June 1, 1973, as proposed.

(B) An investigation into the justness and reasonableness of the debt adjustment provision in the Additional Power Requirements section of the Agreement is hereby instituted under section 206 of the Federal Power Act.

(C) On or before September 4, 1973, Arkansas shall file its prepared testimony and exhibits in this proceeding. The prepared testimony of Staff and any/and all intervenors shall be filed on or before October 2, 1973. Any rebuttal evidence by Arkansas shall be served on or before October 16, 1973. Cross-examination of the evidence filed will commence on October 30, 1973, before a Presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge (See Delegation of Authority, 18 CFR 3.5(d)) beginning at 10 a.m., EDT, in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426.

(D) Nothing contained in this order shall relieve this applicant of any responsibility imposed by the Economic Stabilization Act of 1970 (Public Law 91-379, 84 Stat. 799, as amended by Public Law 92-15, 85 Stat. 38), or by an Executive Order or rules and regulations promulgated pursuant to such Act.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14360 Filed 7-12-73;8:45 am]

[1] Designated as Arkansas Power & Light Company FPC No. 67. This filing is designated as Supplement No. 2 thereto.

[Docket No. CP73-340]

COLORADO INTERSTATE CORP.

Notice of Application

JULY 6, 1973.

Take notice that on June 25, 1973, Colorado Interstate Gas Company, a division of Colorado Interstate Corporation (Applicant), P.O. Box 1087, Colorado Springs, Colorado 80944, filed in Docket No. CP73-340 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity for authorization to construct and operate a gas pipeline, a compressor station, and a pipeline loop facility, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate:

Approximately 216 miles of 20-inch pipeline extending from the northern terminus of Applicant's pipeline in the Big Horn Basin Area of Wyoming and Montana to the Bearpaw Mountain Area in north central Montana,

A new compressor station having approximately 4,800 horsepower and a dehydration plant located at the northern terminus of the proposed 20-inch pipeline, and

Approximately 73 miles of 20-inch pipeline loop on Applicant's existing 12-inch pipeline extending from the Rawlins Compressor Station to the Madden Field in the Wind River Basin of Wyoming.

Applicant estimates the total cost of the proposed facilities will be $29,300,000, and plans to spend an additional $5,100,000 on new gathering facilities in the Bearpaw Mountain Area in 1974 and 1975. Applicant plans to finance the proposed construction on an interim basis through funds from operations, short-term bank borrowings, and commercial paper or long-term senior securities. Applicant states that it plans permanently to finance the proposed construction by the issuance of $50,000,000 of debt securities.

It is stated that on May 21, 1973, Applicant signed a gas purchase agreement with Gas Producing Enterprises, Inc., and Colorado Oil and Gas Corporation dedicating to Applicant all of the new natural gas produced from their respective leases, and leases that may subsequently be acquired, in the Bearpaw Mountain Area. Applicant contemplates a total of 252 wells on the subject acreage to which it attributes 139 million Mcf at 14.65 psia of proven gas reserves and an estimated 586 million Mcf at 14.65 psia of probable and possible reserves of natural gas. Under said contract Applicant is obligated to pay 40.0 cents per Mcf of gas at 14.65 psia, subject to Btu adjustment, for up to 40 million Mcf of proven reserves, with an escalation of 1.0 cent for each additional 40 million Mcf of gas developed. For wells drilled below 15,000 feet the price increases, with the same quantity escalations as to the amount of gas developed; and there is a 1.0 cent per year escalation for all gas delivered after December 31, 1975. Applicant expects to take daily into its system through the proposed facilities from the proved and probable reserves of the Bearpaw Mountain Area approximately 23,000 Mcf of gas in 1974-75, 39,700 Mcf in 1975-76, 53,600 Mcf in 1976-77, 65,600 Mcf in 1977-78, and 77,900 Mcf in 1978-79.

The stated purpose of the proposed facilities is to augment Applicant's ability to serve its customers future requirements through development of the Bearpaw Mountain Area gas reserves. Applicant states that beginning in 1974-75 it expects to have a 101,000 Mcf peak-day deficiency of gas which will grow to be 384,000 Mcf by 1976-77 without deliveries from the said area. Even with the deliveries through the proposed facilities the estimated peak-day deficiency will be 78,000 Mcf of gas in 1974-75 and 330,000 Mcf in 1976-77.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 3, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14377 Filed 7-12-73;8:45 am]

V 38-134 JUL 13 73 XUM

[Docket No. RI69-835]

BETA DEVELOPMENT CO.

Motion for Disbursement of Escrowed Funds

JULY 6, 1973.

Take notice that on May 3, 1973, Beta Development Company (Petitioner), P.O. Box 1659, Midland, Texas 79701, filed a motion pursuant to § 1.15(b) of the Commission's rules of practice and procedure for an order directing disbursement of escrowed funds in Docket No. RI69-835. The natural gas sales involved in the above-entitled proceeding are made from the San Juan Basin Area, San Juan County, New Mexico, to El Paso Natural Gas Company (El Paso).

In accordance with a Commission order issued June 26, 1969, an escrow agreement was executed on November 9, 1970, by Petitioner, as respondent, and The First National Bank of Fort Worth, as escrow agent. Into this escrow account was placed a one-cent per Mcf rate increase (from 14¢ to 15¢) as required by Commission order. The annual payments into the escrow account approximated $140,000.

On April 11, 1973, the Commission issued Opinion No. 658, Area Rate for the Rocky Mountain Area, in Docket No. R-425. This opinion establishes area rates for the Rocky Mountain Area, including the San Juan Basin Area, at a maximum of 24¢ per Mcf at 14.73 psia. In addition, the opinion prescribed a minimum rate of 14¢ per Mcf at 14.73 psia, or 15.3¢ per Mcf at 15.025 psia. Petitioner states that the one-cent rate increase to 15¢ per Mcf (at 15.025) it paid into the escrow account represents an increase in rate to a level less than the minimum rate prescribed by the Commission in Opinion No. 658.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 16, 1973, file with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C., 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14374 Filed 7-12-73;8:45 am]

[Docket No. CI73-921]

CRA, INC.

Notice of Application

JULY 3, 1973.

Take notice that on June 25, 1973, CRA, Inc. (Applicant), P.O. Box 7305, Kansas City, Missouri 64116, filed in Docket No. CI73-921 an application pursuant to Section 7(c) of the Natural Gas Act and § 2.75 of the Commission's General Policy and Interpretations (18 CFR 2.75) for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Northern Natural Gas Company (Northern) from Section 82, Block 1, H&TC Railway Company Survey, Irion County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection. Applicant states that it, as successor-in-interest to Brooks Gas Corporation, is authorized by the Commission's order of July 14, 1960, in Docket No. G-1934 (23 FPC 961), as amended by the order of November 6, 1968, in said docket, to sell residue gas to Northern, pursuant to a gas purchase agreement dated August 7, 1959, from the Mertzon Gasoline Plant operated by Applicant in Irion County at 13.25 cents per Mcf of gas at 14.65 psia. Applicant purchases raw gas from wells drilled by Thunderbird Oil Corporation (Thunderbird) in Irion County and processes the gas at the Mertzon Plant prior to sale to Northern.

Applicant proposes, pursuant to an amendatory agreement of December 5, 1972, to the contract of August 5, 1959, to sell to Northern for 20 years approximately 3,000 Mcf of residue gas per month at 31.0 cents per Mcf at 14.65 psia, subject to upward Btu adjustment, from wells drilled by Thunderbird in said acreage after processing at the Mertzon Plant. Initial upward Btu adjustment is estimated at 1.7 cents per Mcf. The contract provides for a price escalation of 0.25 cent per year.

Applicant states that the gas offered for certification pursuant to the agreement with Northern has not been previously sold in the interstate market and is from wells commenced after April 6, 1972, and that no application has been previously filed with the Commission for certification of the sale of such gas.

Applicant asserts that the instant sale at the proposed initial rates will make additional gas available to the interstate market where shortages currently exist. Applicant further asserts that the gas is needed to augment Northern's current system-wide supply and the expected peak and average day three-year requirements of its customers. Applicant notes that proposed and authorized rates for emergency sales of gas and purchases of liquefied natural gas exceed that proposed herein. It is stated that Thunderbird refused to develop the subject acreage for gas production at the former contract rate of 14.25 cents per Mcf because that rate would not cover the cost of drilling the new wells.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 30, 1973, file with the Federal Power Commision, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14373 Filed 7-12-73;8:45 am]

[Docket No. CI73-456, etc.]

ECEE, INC. ET AL.

Order Consolidating Proceedings, Granting Interventions, and Fixing Date for Hearing

JULY 3, 1973.

In the matter of Ecee, Inc., Docket No. CI73-456; Pinto, Inc., Docket No. CI73-455; Texas Production Co., Docket No. CI73-454; Pennzoil Offshore Gas Operators, Inc., Docket Nos. CI73-477 & CI73-546; The Offshore Co., Docket No. CI72-773; and Southern Natural Gas Co., Docket No. CP72-259.

The above-named Applicants have each filed applications pursuant to section 7(c) of the Natural Gas Act,[1] and pursuant to § 2.75[2] of the Commission's General Policy Statements, the new Optional Procedure for Certificating New Producer Sales of Natural Gas set forth in Order No. 455,[3] (hereinafter § 2.75) for certificates of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce.

On December 26, 1972, Ecee, Inc. (Ecee) filed in Docket No. CI73-456 an application for the sale of natural gas to Sea Robin Pipeline Company (Sea Robin) from Block 270, East Cameron Area, and Block 330, Eugene Island Area, offshore Louisiana, at an initial price of 35.0¢ per Mcf at 15.025 psia, subject to upward and downward BTU adjustment. The basic contract with United Gas Pipeline Company[4] provides for reimbursement to the sellers for 100 percent of any new taxes, for price escalations of 2.5¢ per Mcf every 36 months after the date of initial delivery, and for a contract term to extend until January 1, 1993.

Identical applications for similar sales to Sea Robin were filed by Pinto, Inc. (Pinto) in Docket No. CI72-455 and Texas Production Company (TPC) in Docket No. CI73-454. All three of these applications were noticed together with a return date for interventions or protests of February 5, 1972; the joint notice was published in the FEDERAL REGISTER (38 FR 1765) on January 18, 1973.

Each of the three parties (Ecee, Pinto, and TPC) filed a Gas Purchase Contract with United, an Agreement, and a Letter Agreement; all were dated October 1, 1972.

A notice of intervention was filed by the Public Service Commission for the State of New York, and timely petitions to intervene were filed by:

Associated Gas Distributors
Sea Robin Pipeline Company
United Gas Pipeline Company
Southern Natural Gas Company (late)

On January 15, 1973, Pennzoil Offshore Gas Operators, Inc. (POGO) filed in Docket No. CI73-477 an application for the sale of natural gas to Sea Robin Pipeline Company (Sea Robin) from Block 295, Eugene Island Area, offshore Louisiana, at an initial price of 35.0¢ per Mcf at 15.025 psia, subject to upward and downward BTU adjustment, for a period of twenty years. The basic contract, dated April 20, 1972, provides for a 2.5¢ per Mcf escalation every thirty-six months.

POGO was issued a temporary certificate for this sale on May 17, 1972, in Docket No. CI72-693, and a permanent certificate was issued on October 17, 1972, conditioned to the applicable provisions of Opinion Nos. 598 and 598-A, in Amoco Production Company (Operator), et al., Docket Nos. G-4904, et al. POGO further states that the optional pricing procedure was not available at the time of the original certificate application. Deliveries were commenced pursuant to § 2.75n on February 21, 1973.

POGO's application was noticed January 26, 1973, and all protests and petitions to intervene were due on or before February 20, 1973. Notice was published in the FEDERAL REGISTER (38 FR 3218) on February 2, 1973.

A notice of intervention and timely petitions to intervene were filed by:

Associated Gas Distributors
The Public Service Commission for the State of New York
Mississippi Valley Gas Company
Sea Robin Pipeline Company
United Gas Pipe Line Company
Southern Natural Gas Company

On February 16, 1973, POGO filed its application in Docket No. CI73-546 seeking certification for the sale of natural gas to Sea Robin from Block 270, East Cameron Area, and Block 330, Eugene Island Area, both offshore Louisiana. The contract terms are identical to those contained in POGO's application for a sale to Sea Robin from Block 292 of the Eugene Island Area in Docket No. CI73-477. Deliveries were commenced on February 21, 1973, pursuant to § 2.75n (18 CFR 2.75n).

POGO was issued temporary certificates authorizing sales of its gas from the acreage covered by this application on October 17, 1972, in Docket Nos. CI72-692, CI72-693, and CI72-694. Deliveries had not commenced under those certificates as of the date of filing this application, and POGO states that certification is sought for all wells in Block 295 of the Eugene Island Area (all wells in this area were commenced after April 6, 1972) and only those wells in Eugene Island Block 330 and East Cameron Block 270 which were commenced after April 6, 1972.

POGO is affiliated with Sea Robin and states that the 35.0¢ per Mcf price is the same as the contract price that Sea Robin pays to certain non-affiliated producers.

POGO's application was noticed on February 28, 1973, and the notice was published in the FEDERAL REGISTER on March 7, 1973, (38 FR 6232). Timely protests or petitions to intervene were due on or before March 30, 1973. Timely petitions to intervene were filed by the following parties:

Public Service Commission for the State of New York (Notice of Intervention)
United Gas Pipe Line Company
Alabama Gas Corporation
Sea Robin Pipeline Company
Mississippi River Transmission Corporation
American Public Gas Association
Associated Gas Distributors

On February 20, 1973, The Offshore Company (Offshore) filed its application in Docket No. CI72-773 for certification of a sale of natural gas to Sea Robin Pipeline Company (Sea Robin) from Ship Shoal Block 225, offshore Southern Louisiana.

Pursuant to the optional procedure, Offshore filed its contract with Sea Robin dated April 27, 1972. This contract had been previously accepted for filing with Offshore's application for a temporary certificate which was issued in this docket on June 9, 1972. Offshore accepted the temporary certificate, but did not commence deliveries under that authorization. Offshore further fails to state whether the wells involved in this application were commenced before or after April 6, 1972 (See § 2.75b(5)).

The basic contract provides for a term of twenty (20) years, an initial rate of 35.0¢ per Mcf with 2.5¢ per Mcf escalations every three years. The pressure base is psia, and the price is subject to upward and downward BTU adjustments. The contract further provides for 100 percent reimbursement to the seller for any new or additional taxes.

Deliveries were commenced pursuant to § 2.75n (18 CFR 2.75n) on May 4, 1973.

Offshore is affiliated with Sea Robin and states that the 25.0¢ per Mcf price is the same as the contract prices that Sea Robin pays to certain non-affiliated producers.

Offshore's application was noticed on March 2, 1973, and the notice was published in the FEDERAL REGISTER on March 9, 1973 (38 FR 6435). Timely petitions to intervene or protests were due on or before March 26, 1973. Timely petitions to intervene were filed by the following parties:

American Public Gas Association
Public Service Commission for the State of New York
Sea Robin Pipeline Company
United Gas Pipeline Company
Associated Gas Distributors

On February 20, 1973, Southern Natural Gas Company (Southern) filed its application in Docket No. CP72-259 for certification of a sale of natural gas to Sea Robin Pipeline Company (Sea Robin) from Ship Shoal Block 225, offshore Southern Louisiana.

Southern's position with respect to this sale is the same as The Offshore Company; this sale was previously the subject of a temporary certification, and Southern also seeks to withdraw the previous application and to amend the previous application to permit certification pursuant to § 2.75.

Southern commenced deliveries pursuant to § 2.75n (18 CFR 2.75n) on May 4, 1973.

Southern's application was noticed on March 1, 1973, and the notice was published in the FEDERAL REGISTER on March 7, 1973 (38 FR 6232). Timely protests or petitions to intervene were due on or before March 26, 1973. Timely petitions were filed by the following parties:

Alabama Gas Corporation
American Public Gas Association
Atlanta Gas Light Company
Public Service Commission for the State of New York
Sea Robin Pipeline Company
United Gas Pipeline Company
Associated Gas Distributors

A formal hearing has been requested, and we find a hearing is desirable to determine, on the record, whether the present and future public convenience and necessity will be served by certificating these sales, and whether the proposed rates are just and reasonable, taking into consideration all factors bearing on maintenance of an adequate and reliable supply of gas, delivered at the lowest reasonable cost.[4]

Since these applications involve similar questions of law and fact as to the reasonableness of the prices for which certi-

[4] United Gas Pipeline assigned all of its rights under the subject contract to Sea Robin as of October 1, 1972.

[4] Opinion and Order Issuing Certificate of Public Convenience And Necessity And Determining Just And Reasonable Rates, Opinion No. 659, Belco Petroleum Corporation, Agent, et al., Docket Nos. CI73-293, et al., — F.P.C. —, — (issued May 30, 1973, slip op. at para. 21, p. 5).

V 38 - 134 JUL 13 73 XUM

fication is sought, the Commission concludes that the ultimate disposition of the above-described proceedings would be best accomplished in a consolidated proceeding. The Commission shall, therefore, consolidate these dockets for hearing and disposition.[6]

This hearing is not the proper forum for the relitigation of the propriety of the § 2.75 procedures; that matter is now before the Court of Appeals. See n. 3, supra. This hearing will be addressed solely to the issues of public convenience and necessity, and the justness and reasonableness, of the particular sales and rates herein proposed.

Those parties and intervenors desiring to submit cost and non-cost data should structure their evidence to reflect the tests under § 2.75 for determining the justness and reasonableness of the rate sought,[6] bearing in mind that with respect to proceedings under § 2.75 of our regulations, we have heretofore stated.

> We will, absent a showing of special circumstances, accept as conclusive the cost findings embodied in our area rate decisions, as such may be supplemented from time to time by appropriate Commission order. (Order 455, paragraph 63, page 21.)

We do not, therefore, open this hearing to the presentation of cost data, other than that incorporated from the Belco, et al. proceedings as hereinafter ordered, unless, in the judgment of the Presiding Administrative Law Judge, a showing of special circumstances is made.

We also direct the attention of the parties to our recent statement in Opinion No. 639, Area Rates for the Appalachian and Illinois Basin Areas, Docket No. R–371, opinion issued December 13, 1972, wherein we stated:

> We have been admonished not to rely on cost alone, but also to consider producer rate levels in the context of "non-cost" factors of supply and demand, capital formation, and probable industry response to any given level of rates. Austral Oil, et al. v. F.P.C., 428 F.2d 407 (CA5, 1970). Applications under § 2.75 will be so considered * * *.

No intervenor has questioned Sea Robin's need for the additional natural gas supplies that will be available to it as a result of these purchases. However, we are unable to determine the extent of Sea Robin's need for new supplies since it has failed to submit the certification required by § 2.75h (18 CFR 2.75h). Accordingly, we shall require Sea Robin to present evidence as to its need for additional supplies of natural gas and whether or not a comparable supply of natural gas is available to Sea Robin at any rate lower than the rates proposed in these applications.

The six-month period during which a producer under § 2.75o (18 CFR 2.75o) may not collect a rate in excess of the prevailing area ceiling rate will expire on August 21, 1973, for TPC in Docket No. CI73–454, for Pinto in Docket No. CI73–455, for Ecee in Docket No. CI73–456, and for POGO in Docket Nos. CI73–477 and CI73–546. Consequently, we shall provide special procedures which will enable us to determine promptly whether the public convenience and necessity requires that these sales be certified and whether the rates sought are just and reasonable. We will provide that the hearing hereinafter ordered shall commence on July 17, 1973, and conclude not later than July 20, 1973.

We have just rendered a decision in the first proceedings under § 2.75 in which a full evidentiary record was made.[7] We think it appropriate in these circumstances to incorporate by reference the record developed in that proceeding into these consolidated proceedings insofar as it may be relevant pursuant to the majority or minority views in Opinion No. 659.

The Commission finds:

(1) It is necessary and in the public interest that the above-docketed proceedings be consolidated for hearing and decision.

(2) It is desirabie and in the public interest to allow the above-named petitioners to intervene in these proceedings.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 14, 15, and 16 thereof, the Commission's rules of practice and procedure, and the Regulations under the Natural Gas Act (18 CFR Chapter I), Docket Nos. CI73–456, CI73–455, CI73–454, CI73–477, CI73–546, CI72–773, and CP72–259 are consolidated for purposes of hearing and disposition.

(B) A public hearing on the issues presented by the proposals of the applicants herein shall be held commencing July 17, 1973, at 10 a.m., e.d.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, DC 20426, and shall be completed on or before July 20, 1973.

(C) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding pursuant to the Commission's Rules of Practice and Procedure.

(D) Applicants and all intervenors supporting the applications shall file their direct testimony and evidence on or before July 10, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all parties to these proceedings.

(E) The Commission Staff and all intervenors opposing the application shall file their direct testimony and evidence on or before July 13, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, and all other parties to these proceedings.

(F) All rebuttal testimony and evidence shall be served on or before July 17, 1973. All parties submitting rebuttal testimony and evidence shall serve such testimony and evidence upon the Presiding Administrative Law Judge, the Commission Staff, and all other parties to these proceedings.

(G) The record in the Belco case, Docket Nos. CI73–293, et al., is incorporated by reference into the subject consolidated procedings insofar as it may be relevant pursuant to the majority or minority views in Opinion No. 659.

(H) The above-named petitioners are permitted to intervene in this proceeding subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and provided, further, that the admission of such interests shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(I) The Administrative Law Judge's decision shall be rendered on or before August 10, 1973.

(J) All briefs on exceptions shall be due on or before August 17, 1973.

By the Commission.[8]

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Dockets Nos. CI73–593 and CI73–656]

GETTY OIL CO. AND CITIES SERVICE GAS RESOURCES CO.

Order Consolidating Proceedings, Granting Interventions, and Fixing Date for Hearing

JULY 6, 1973.

The above-named Applicants have each filed applications pursuant to section 7(c) of the Natural Gas Act,[1] and pursuant to § 2.75[2] of the Commission's General Policy Statements, the new Optional Procedure for Certificating New Producer Sales of Natural Gas set forth in Order No. 455,[3] (hereinafter § 2.75) for certificates of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce.

On March 8, 1973, Getty Oil Company (Getty) filed its application in Docket No. CI73–593 for certification of a sale of natural gas to Cities Service Gas Company (Cities) from the Locke (Brown Dolomite) Field, Roberts County, Texas (Hugoton-Anadarko Area).

Pursuant to the optional procedure, Getty filed its contract dated February 20, 1973, with the application. The basic contract provides for an initial rate of 40¢ per Mcf with 1.0¢ per year at 14.65 psia, subject to upward and downward BTU adjustment. The contract term is twenty (20) years and further provides for reimbursement of 87.5 percent of all new or additional taxes to the seller. The price is to be reduced by 1.5¢ per Mcf for compression if required and performed by the buyer. Getty also seeks pre-granted abandonment of the sale upon expiration of the contract.

Deliveries were commenced pursuant to Section 2.75n on April 26, 1973.

Getty's application was noticed on March 16, 1973, and the notice was published in the FEDERAL REGISTER on March 23, 1973 (38 FR 7586). Timely protests or petitions to intervene were due on or before April 9, 1973. Timely petitions were filed by the following parties:

Associated Gas Distributors
Cities Service Gas Company

On April 2, 1973, Cities Service Gas Resources Company (Resources) filed its application in Docket No. CI73–656 for certification of a sale of natural gas to Cities Service Gas Company (Cities) from the Canadian East Douglas Field, Hemphill County, Texas (Hugoton-Anadarko Area). Resources application covers its forty (40) percent interest in the gas produced from this field. The remaining sixty (60) percent interest is sold to Cities by North American Royalty Inc. under its small producer certificate.

Resources' contract was filed concurrently with the application pursuant to the optional procedure. The basic contract provides for an initial rate of 40.0¢ per Mcf at 14.65 psia, subject to upward and downward BTU adjustment, and price escalations of 1.0¢ per Mcf every year. The contract term is for twenty years continuing thereafter as long as gas can be produced in commercial quantities. The contract further provides for reimbursement to the seller for 87.5 percent of all new taxes levied after the date of initial delivery.

Deliveries were commenced pursuant to § 2.75n (18 CFR 2.75n) on April 3, 1973.

Resources is affiliated with Cities and states that the 40.0¢ per Mcf price is the same as the contract prices that Cities pays to certain non-affiliated producers.

Resources' application was noticed on April 17, 1973, and the notice was published in the FEDERAL REGISTER on April 25, 1973 (38 FR 10177). Timely protests or petitions to intervene were due on or before May 11, 1973. Timely petitions to intervene were filed by the following parties:

Associated Gas Distributors
Public Service Commission for the State of New York (notice of intervention)
Cities Service Gas Company (late)
American Public Gas Association (late)

A formal hearing has been requested, and we find a hearing is desirable to determine, on the record, whether the present and future public convenience and necessity will be served by certificating these sales, and whether the proposed rates are just and reasonable, taking into consideration all factors bearing on maintenance of an adequate and reliable supply of gas, delivered at the lowest reasonable cost.[4]

Since these applications involve similar questions of law and fact as to the reasonableness of the prices for which certification is sought, the Commission concludes that the ultimate disposition of the above-described proceedings would be best accomplished in a consolidated proceeding. The Commission shall, therefore, consolidate these dockets for hearing and disposition.[5]

This hearing is not the proper forum for the relitigation of the propriety of the Section 2.75 procedures; that matter is now before the Court of Appeals. (See n. 2, supra.) This hearing will be addressed solely to the issues of public convenience and necessity, and the justness and reasonableness, of the particular sales and rates herein proposed.

Those parties and intervenors desiring to submit cost and non-cost data should structure their evidence to reflect the tests under Section 2.75 for determining the justness and reasonableness of the rate sought,[6] bearing in mind that with respect to proceedings under § 2.75 of our regulations, we have heretofore stated:

> We will, absent a showing of special circumstances, accept as conclusive the cost findings embodied in our area rate decisions, as such may be supplemented from time to time by appropriate Commission order. (Order 455, paragraph 3, page 21)

We do not, therefore, open this hearing to the presentation of cost data, other than that incorporated from Belco, et al., proceedings as hereinafter ordered, unless, in the judgment of the Presiding Administrative Law Judge, a showing of special circumstances is made.

We also direct the attention of the parties to our recent statement in Opinion No. 639, Area Rates for the Appalachian and Illinois Basin Areas Docket No. R–371, opinion issued December 13, 1972, wherein we stated:

> We have been admonished not to rely on cost alone, but also to consider producer rate levels in the context of "non-cost" factors of supply and demand, capital formation, and probable industry response to any given level of rates. Austral Oil, et al., v. F.P.C., 428 F. 2d 407 (CA5, 1970). Applications under § 2.75 will be so considered * * *.

No intervenor has questioned Cities' need for the additional natural gas supplies that will be available to it as a result of these purchases. We note from Cities' filing that it has experiencel large curtailments of service on its systems, and that it is making emergency and limited-term purchases in order to reduce curtailments as much as possible. Accordingly, the hearing provided for herein should not explore any issues related to Cities' need for additional supplies of natural gas. However, we shall require Cities to present evidence as to whether or not a comparable supply of natural gas is available to Cities at any rate lower than the rates proposed in these applications.

We have just rendered a decision in the first proceedings under § 2.75 in which a full evidentiary record was made.[7] We think it appropriate in these circumstances to incorporate by reference the record developed in that proceeding into these consolidated proceedings insofar as it may be relevant pursuant to the majority or minority views in Opinion No. 659.

The Commission finds:

(1) It is necessary and in the public interest that the above-docketed proceedings be consolidated for hearing and decision.

(2) It is desirable and in the public interest to allow the above-named petitioners to intervene in these consolidated proceedings.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 14, 15, and 16 thereof, the Commission's rules of practice and procedure, and the Regulations under the Natural Gas Act (18 CFR Chapter I), Docket Nos. CI73–593 and CI73–656 are consolidated for purposes of hearing and disposition.

(B) A public hearing on the issues presented by the proposals of the applicants herein shall be held commencing August 20, 1973, at 10:00 a.m., e.d.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 and shall be completed on or before August 24, 1973.

(C) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(D) Applicants and all intervenors supporting the applications shall file their direct testimony and evidence on or before August 3, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all other parties to these proceedings.

(E) The Commission Staff and all intervenors opposing the application shall file their direct testimony by August 10, 1973.

(F) All rebuttal testimony and evidence shall be served on or before August 15, 1973. All parties submitting rebuttal testimony and evidence shall serve such testimony and evidence upon the

LONG ISLAND LIGHTING CO.

Change in Electric Fuel Adjustment Clause

JULY 5, 1973.

Take notice that on June 19, 1973, Long Island Lighting Company (LILCO) tendered for filing a change in the electric fuel adjustment applicable to the Electric Power Contract between LILCO and the Incorporated Village of Freeport, New York (Freeport). LILCO states that the proposed change has already been accepted by the Public Service Commission of the State of New York and by Freeport. The company submits that three changes are involved: base cost of fuel has been increased and changed in nomenclature from 31.3¢ per million b.t.u. (approximately 0.32¢ per kWh) to 0.465¢ per kWh, cost of fuel used to generate electricity for sale to utilities not subject to the fuel adjustment clause is eliminated from the average cost of fuel, and the cost of economy energy purchased by the Company for sale to its customers is included in the average cost of fuel. An effective date of June 1, 1973, is proposed.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 17, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP73-341]

MICHIGAN WISCONSIN PIPE LINE CO.

Notice of Application

JULY 5, 1973.

Take notice that on June 25, 1973, Michigan Wisconsin Pipe Line Company (Applicant), One Woodward Avenue, Detroit, Michigan 48226, filed in Docket No. CP73-341 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas from Block 287, South Marsh Island Area, offshore Louisiana, to a point near Lake Arthur, Louisiana for Natural Gas Pipeline Company of America (Natural), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to transport approximately 5,000 Mcf of gas per day for twenty years which Natural intends to purchase from Chevron Oil Company. It is stated that Applicant will take said gas into its system at a point of interconnection between its 12-inch pipeline and Natural's gathering line in the South Marsh Island Area and deliver equivalent volumes of gas to Natural at the point of interconnection of Applicant's and Natural's pipelines near Lake Arthur, Cameron Parish, Louisiana. Applicant proposes to charge initially 4.34 cents per Mcf for gas delivered to it plus 1.74 cents for gas redelivered to Natural.

Applicant states that it filed on November 14, 1972, as supplemented on February 12, 1973, in Docket No. CP73-114 an application for authorization to construct and operate, among other things, two 12,000 horsepower compressor units at its North Tepetate Station, Louisiana, which will facilitate the proposed transportation service.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 30, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14370 Filed 7-12-73;8:45 am]

MID LOUISIANA GAS CO.

Notice of Exchange Agreement

JULY 5, 1973.

Take notice that on June 22, 1973, Mid Louisiana Gas Company (Mid Louisiana) tendered for filing the following tariff sheets as a part of First Revised Volumes No. 1 and 2 of its FPC Gas Tariff:

First Revised Volume No. 1	*Supersede Sheets*
Fourth Revised Sheet No. 1	Third Revised Sheet No. 1
First Revised Volume No. 2	
Second Revised Sheet No. 1	First Revised Sheet No. 1
Original Sheets Nos. 58 through 65	

Mid Louisiana states that the proposed tariff sheets are for the purpose of filing a new Rate Schedule X-6 as part of Mid Louisiana's FPC Gas Tariff, First Revised Volume No. 2 to reflect the exchange agreement between Mid Louisiana and Mississippi River Transmission Corporation dated September 22, 1972. The Company submits that by Order issued June 1, 1973, in Docket No. CP73-83 the Commission granted a Certificate of Public Convenience and Necessity authorizing the exchange of natural gas in accordance with this agreement. The company further states that no charge in rate level to its customers is proposed by these tariff sheets. An effective date of August 1, 1973, is proposed.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before July 19, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14375 Filed 7-12-73;8:45 am]

[1] The tariff sheets are designated as follows: First Revised Sheet No. 23; and First Revised Sheet No. 23A through 23H.

[Docket No. RP73-6]

MISSISSIPPI RIVER TRANSMISSION CORP.

Notice of Filing of Proposed Curtailment Plan

JULY 6, 1973.

Take notice that on June 14, 1973, Mississippi River Transmission Corporation (MRT) submitted for filing revised tariff sheets[1] to its presently effective FPC Gas Tariff, First Revised Volume No. 1, constituting its permanent curtailment plan pursuant to the stipulation and agreement approved by the Commission's order of December 20, 1972. That agreement provided for the filing, by MRT, of a permanent curtailment program between May 1 and June 15, 1973. MRT requests that its tendered sheets be made effective November 1, 1973.

In summary, MRT's proposed permanent curtailment plan provides:

(1) The division of MRT's resale customers into two categories: Participating Buyers, which are those having contract demands under MRT's Rate Schedule CD-1 of 5,000 Mcf or more, and Partial Participating Buyers, which are those having contract demands of less than 5,000 Mcf.

(2) Curtailment to be applied in the following order: (a) MRT's direct interruptible industrial deliveries; (b) Deliveries under MRT's Rate Schedule PI-1; (c) Deliveries to Participating Buyers to the extent of estimated interruptible industrial service volumes of customers having a requirement of 1.5 MMcf/d or more, down to 1.5 MMcf/d; (d) MRT's deliveries to Participating Buyers to the extent of interruptible industrial service volumes of customers having requirements of less than 1.5 MMcf/d plus those volumes left in (c); (e) The release of gas by Participating Buyers to offset further curtailment of MRT's firm industrial customers; (f) MRT's direct firm industrials buying 1 MMcf/d or more to the extent of their standby capacity; (g) Deliveries to Laclede and Illinois Power to the extent of standby capacity of their firm industrials; (h) MRT's direct firm industrials buying 1 MMcf/d or more with no standby capacity; (i) Deliveries to Laclede's and Illinois Power's firm industrial sales greater than 1 MMcf/d or more with no standby capacity; (j) MRT's and Participating Buyer's remaining firm industrials; (k) Remaining sales by Participating and Partial Participating Buyers.

In addition to the tariff sheets, MRT also submitted a Statement of Reasons explaining the nature and reasons for the filing and certain end use data with respect to MRT's customers.

The above described permanent curtailment plan is the same plan under which MRT has been operating since its approval December 20, 1972, except that a new section has been added authorizing MRT to dispense supplemental supplies of gas, in an emergency situation, to any customer being curtailed in order to forestall irreparable injury to life or property. The curtailment plan approved December 20 will continue in effect until October 31, 1973.

MRT's permanent curtailment plan is on file with the Commission and is available for public inspection.

MRT states that copies of its filing have been mailed to its jurisdictional and direct sale customers and to the appropriate state regulatory agencies. Additionally, MRT states that copies of this filing are available for public inspection during regular business hours in its office in St. Louis, Missouri.

Any person desiring to be heard or to make any protest with reference to this filing should on or before July 19, 1973, file with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to participate as parties in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Any order issued in this proceeding will be subject to the Commission's Statement of Policy Implementing the Economic Stabilization Act of 1970 (P.L. 91-379, 84 Stat. 799, as amended by P.L. 92-15, 85 Stat. 38) and Executive Order 11615 including such amendments as the Commission may require.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. G-16026, G-18148, G-18149, RP60-5, RP61-8]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Motion Renewing Motion for Approval of Settlement Agreement

JULY 6, 1973.

Take notice that Natural Gas Pipeline Company of America (Natural) on June 27, 1973, filed a motion renewing on April 3, 1972, motion for Commission approval of a settlement agreement relative to the consolidated effective tax rate issues concerned in the docket numbers above. The settlement agreement arose from a petition filed by Natural on May 19, 1970, requesting the Commission to issue an order finding and declaring that Natural had no liability under the "consolidated effective tax rate" conditions of previously approved settlement agreements. Natural's petition also requested Commission approval of use of that interpretation of the consolidated effective tax rate issue in future rate proceedings before the Commission.

The settlement agreement which Natural wishes approved relies on the Commission ruling in Florida Gas Transmission Company, Opinion No. 611, February 16, 1972. Under the provisions of the settlement agreement, Natural would have no refund obligation in the cases docketed above with regard to the consolidated effective tax rate conditions and such conditions are terminated. Also, if Peoples Gas (parent of Natural), through its own operations or those of any company other than Natural in which People owns 50 percent or more of the stock, shall suffer tax losses or create a "loss company" in the system, such result will not and may not be used to reduce the rate of Natural below the level they otherwise would be.

Comments or objections to the proposed Agreement as to the Disposition of the Consolidated Effective Tax Issue may be filed with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. on or before July 16, 1973.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7895 etc.]

PENNSYLVANIA-NEW JERSEY-MARYLAND INTERCONNECTION ET AL.

Notice of Application

JULY 6, 1973.

Take notice that each of the Applicants listed herein has filed an application pursuant to section 205 of the Federal Power Act and Part 35 of the regulations issued thereunder.

Any person desiring to be heard or to make any protest with reference to these applications should on or before July 31, 1973, file with the Federal Power Commission Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). Persons wishing to become parties to a proceeding or to participate as a party in any hearing related thereto must file petitions to intervene in accordance with the Commission's Rules. All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not

V 38-134 JUL 13 73 XUM

serve to make the protestants parties to the proceeding. The applications referred to above, are on file with the Commission and are available for public inspection.

Docket No.	Filing Date	Name of Applicant
E-7895	5/21/73	Pennsylvania-New Jersey-Maryland Interconnection

Applicant filed Schedule 1.05 to the Interconnection Agreement between the Allegheny Power System Power Group and the Pennsylvania-New Jersey-Maryland Group, dated December 22, 1971, and replacing Schedule 1.05 dated April 26, 1965. Schedule 105 contains an amendment which adds a delivery and metering point at the Doubs-Conastone 500 KV Line. The amended schedule to become effective December 22, 1971.

Docket No.	Filing Date	Name of Applicant
E-8150	5/7/73	Puget Sound Power & Light Company

Applicant filed May 4, 1973, Certificate of Concurrence in the rate schedule which Pacific Power and Light Company has filed with the Commission.

Docket No.	Filing Date	Name of Applicant
E-8258	6/15/73	Consumers Power Co.

Applicant filed Certificate of Concurrence, dated June 11, 1973, in reference of the filing of Amendment No. 3 dated July 1, 1973, to the Operating Agreement dated March 1, 1966 between Indiana & Michigan Electric Company, Consumers Power Company and the Detroit Edison Company, and filed with the Commission by the American Electric Power Service Corporation by letter dated May 31, 1973.

Docket No.	Filing Date	Name of Applicant
E-8262	6/8/73	Duke Power Company

Applicant filed June 5, 1973 supplement to its contract with the York Electric Cooperative, Inc. This contract has been on file with the Commission and designated Duke Power Company Rate Schedule FPC No. 146. This filing provides for an increase in designated KW demand at each of the following five (5) delivery points in the State of South Carolina: Bethany, Lesslie, Filbert, Tirzah and Ogden. Applicant's filing also indicates that the Van Wyck, South Carolina delivery point has received Southeastern Power Administration allocation of customers preference. Filed documents are to become effective June 20, 1973.

Docket No.	Filing Date	Name of Applicant
E-8263	6/8/73	Duke Power Company

Applicant filed June 5, 1973 supplement to its contract with Little River Electric Cooperative, Inc. This contract has been on file with the Commission and designated Duke Power Company Rate Schedule FPC No. 145. This filing provides for an increase in designated KW demand at each of the following three (3) delivery points in the State of South Carolina: Donald, from 2,800 to 3,400; Latimer, from 750 to 1,200; and Abbeville (Secession Avenue), from 2,200 to 2,700. This filing also reflects Southeastern Power Administration reallocation at two of the Abbeville (Rocky River and "Penny Delivery") delivery points. Filed documents are to become effective June 20, 1973.

Docket No.	Filing Date	Name of Applicant
E-8265	6/8/73	Wisconsin Public Service Corporation

Applicant filed June 5, 1973, an Amendment to the Master Interconnection Agreement with the Wisconsin Power and Light Company dated January 5, 1966, designated Wisconsin Public Service Corporation Rate Schedule FPC No. 17, Wisconsin Power and Light Company Schedule FPC No. 14. Filed Appendix C (Revision No. 2) effective on or about December 15, 1973, modifies the agreement to provide for interconnections to be located where the Wisconsin Public Service Corporation's existing 69 KV transmission lines (extending westerly from its Harrison Street Substation) intersect with the Wisconsin Power and Light Company's existing 69 KV transmission lines, and at a point 8.5 miles east of the Harrison Street Substation on the proposed Wisconsin Public Service Corporation 69 KV transmission line. This interconnection will be known as the Waupaca Interconnection. Filed Appendix I, effective on or about November 1, 1973, modifies the agreement to provide for interconnection of the two systems at the new Wisconsin Public Service Corporation Little Wolf River 115/69 KV Substation and shall be known as the Little Wolf River Interconnection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14361 Filed 7-12-73;8:45 am]

[Docket No. CI73-202]

PENNZOIL CO.

Order Granting Interventions and Fixing Date for Hearing

JULY 3, 1973.

The above-named Applicant has filed an application pursuant to section 7(c) of the Natural Gas Act,[1] and pursuant to § 2.75[2] of the Commission's General Policy Statements, the new Optional Procedure for Certificating New Producer Sales of Natural Gas set forth in Order No. 455,[3] (hereinafter Section 2.75) for a certificate of public convenience and necessity authorizing the sale and delivery of natural gas in interstate commerce.

On February 15, 1973, Pennzoil Company (Pennzoil) filed in Docket No. CI73-202 its application for the sale of natural gas to Northern Natural Gas Company (Northern) from the Quito Area, Ward County, Texas (Permian Basin Area).

Pennzoil, pursuant to the optional procedure, filed its contract with Northern dated August 11, 1972, with its application for a temporary certificate. Pennzoil accepted that temporary certificate, conditioned to an initial rate of 27.0¢ per Mcf on October 17, 1972. No deliveries were commenced under that certificate, and all of the wells herein involved were commenced after April 6, 1972.

The contract extends for a term of twenty years, and provides for an initial rate of 37.0¢ per Mcf at 14.65 psia, upward and downward BTU adjustment, and a 1.0¢ per year escalation. The contract further provides for reimbursement to the seller of ninety percent of all new or additional taxes. The contract also provides for an initial advance payment of $500,000, and additional advance payments until an additional maximum advance payment is made; recoupment will be made within five years.

Deliveries were commenced pursuant to § 2.75n (18 CFR 2.75n) on February 23, 1973.

Pennzoil's application was noticed on February 28, 1973, and the notice was published in the FEDERAL REGISTER on March 7, 1973, (38 FR 6321). Timely protests and petitions to intervene were due on or before March 30, 1973. Petitions to intervene were filed by the following parties:

Northern Natural Gas Company
American Public Gas Association

Having reviewed the petitions to intervene, we find that all of the above-mentioned petitioners have sufficient interest in these proceedings to warrant intervention.

A formal hearing has been requested, and we find a hearing is desirable to determine, on the record, whether the present and future public convenience and necessity will be served by certificating this sale, and whether the proposed rate is just and reasonable, taking into consideration all factors bearing on maintenance of an adequate and reliable supply of gas, delivered at the lowest reasonable cost.[4]

This hearing is not the proper forum for the relitigation of the propriety of the § 2.75 procedures; that matter is now before the Court of Appeals. See n. 3, supra. This hearing will be addressed solely to the issues of public convenience and necessity, and the justness and reasonableness, of the particular sales and rates herein proposed.

Those parties and intervenors desiring to submit cost and non-cost data should structure their evidence to reflect the tests under § 2.75 for determining the justness and reasonableness of the rate

[1] 15 U.S.C. 717, et seq. (1970).
[2] 18 CFR 2.75.
[3] Statement Of Policy Relating To Optional Procedure For Certificating New Producer Sales of Natural Gas, Docket No. R-441, — F.P.C. — (issued August 3, 1972), appeal pending, John E. Moss, et al. v. F.P.C., No. 72-1837 (D. C. Cir).

[4] Opinion And Order Issuing Certificate Of Public Convenience And Necessity And Determining Just And Reasonable Rates, Opinion No. 659, Belco Petroleum Corporation, Agent, et al., Docket Nos. CI73-293, et al., —— F.P.C. ——, —— (issued May 30, 1973, slip op. at para. 21, p. 5).

sought,[5] bearing in mind that with respect to proceedings under § 2.75 of our regulations, we have heretofore stated:

We will, absent a showing of special circumstances, accept as conclusive the cost findings embodied in our area rate decisions, as such may be supplemented from time to time by appropriate Commission order. (Order 455, paragraph 63, page 21).

We do not, therefore, open this hearing to the presentation of cost data, other than that incorporated from the Belco, et al. proceedings as hereinafter ordered, unless, in the judgment of the Presiding Administrative Law Judge, a showing of special circumstances is made.

We also direct the attention of the parties to our recent statement in Opinion No. 639, Area Rates for the Appalachian and Illinois Basin Areas, Docket No. R-371, opinion issued December 13, 1972, wherein we stated:

We have been admonished not to rely on cost alone, but also to consider producer rate levels in the context of "non-cost" factors of supply and demand, capital formation, and probable industry response to any given level of rates. Austral Oil, et al. v. F.P.C., 428 F.2d 407 (CA5, 1970). Applications under Section 2.75 will be so considered * * *.

No intervenor has questioned Northern's need for the additional supplies of natural gas that will be available to it as a result of this purchase. Accordingly, the hearing hereinafter provided for should not explore any issues related to Northern's need for additional supplies of natural gas. However, we shall require Northern to present evidence as to whether or not a comparable supply of natural gas is available to Northern at any rate lower than the rate proposed in this application.

The six-month period during which a producer under § 2.75o (18 CFR 2.75o) may not collect a rate in excess of the prevailing area ceiling rate will expire on August 23, 1973. Consequently, we shall provide special procedures which will enable us to determine promptly whether the public convenience and necessity requires that this sale be certificated and whether the rate sought is just and reasonable. We will provide that the hearing hereinafter ordered shall commence on July 17, 1973, and conclude not later than July 20, 1973.

The Commission finds:

(1) It is necessary and in the public interest that the above-docketed proceeding be set for hearing.

(2) It is desirable and in the public interest to allow the above-named petitioners to intervene in this proceeding in order that they may establish the facts and the law from which the nature and validity of their alleged rights and interests may be determined and show what further action may be appropriate under the circumstances in the administration of the Natural Gas Act.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, 15, and 16 thereof, The Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Chapter I) a public hearing shall be held concerning the issues presented by the application herein commencing July 17, 1973, at 10:00 a.m., e.d.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426.

(B) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure.

(C) Applicants and all intervenors supporting the applications shall file their direct testimony and evidence on or before July 10, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, the Commission Staff, and all other parties to these proceedings.

(D) The Commission Staff and all intervenors opposing the application shall file their direct testimony and evidence on or before July 13, 1973. All testimony and evidence shall be served upon the Presiding Administrative Law Judge, and all other parties to these proceedings.

(E) All rebuttal testimony and evidence shall be served on or before July 17, 1973. All parties submitting rebuttal testimony and evidence shall serve such testimony and evidence upon the Presiding Administrative Law Judge, the Commission Staff, and all other parties to these proceedings.

(F) The record in the Belco case, Docket Nos. CI73-293, et al., is incorporated by reference into the subject consolidated proceedings insofar as it may be relevant pursuant to the majority or minority views in Opinion No. 659.

(G) The above-named petitioners are permitted to intervene in this proceeding subject to the rules and regulations of the Commission. *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petitions for leave to intervene; and provided, further, that the admission of such interests shall not be construed as recognition by the Commission that they or any of them might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(H) The Administrative Law Judge's decision shall be rendered on or before August 17, 1973.

(I) All parties shall submit briefs on exceptions to the Commission on or before August 17, 1973.

By the Commission.[6]

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.73-14379 Filed 7-12-73;8:45 am]

[5] Opinion 659 gave consideration to such factors as (1) cost, (2) return, (3) alternate supply costs, (4) contract rates for intra- and interstate sales, (5) commodity value, Opinion No. 659, supra.

[6] Chairman Nassikas concurring in part filed a separate statement filed as part of the original document.

[Docket No. CI73-930]

RAINS & WILLIAMSON OIL CO., INC.

Notice of Application

JULY 6, 1973.

Take notice that on June 28, 1973, Rains & Williamson Oil Co., Inc. (Applicant), 435 Page Court, 220 West Douglas, Wichita, Kansas 67202, filed in Docket No. CI73-930 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Panhandle Eastern Pipe Line Company from acreage in Meade County, Kansas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell, until the first day of the month following expiration of two years from the date of initial delivery, approximately 60,000 Mcf of gas at 50.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Initial upward Btu adjustment is estimated at 5.7 cents per Mcf.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before August 3, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any persons wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be

V 38 I 134 JUL 13 73 XUM

unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-47]

SEA ROBIN PIPELINE CO.

Postponement of Prehearing Conference and Hearing

JULY 6, 1973.

On June 29, 1973, Sea Robin Pipeline Company filed a motion for an extension of the dates for the prehearing conference and the hearing fixed by the notice issued June 21, 1973. The motion states that there is no obligation by any party to the request.

Upon consideration, notice is hereby given that the dates of the prehearing conference and the hearing are further modified as follows:

Prehearing Conference (10 a.m., EDT)	August 7, 1973
Hearing (10:00 a.m., EDT)	August 21, 1973

KENNETH F. PLUMB,
Secretary.

SOUTHERN NATURAL GAS CO.

Proposed Tariff Changes

JULY 5, 1973.

Take notice that Southern Natural Gas Company (Southern) on June 21, 1973, tendered for filing Rate Schedule X-22 containing original tariff sheets 1A, 162, 163, 164, 165, 166, and 167 to its FPC Gas Tariff, Original Volume No. 2 to become effective July 21, 1973. Southern states that the Rate Schedule X-22 tariff sheets contain an agreement dated August 15, 1972, for the exchange of natural gas between Southern and Michigan Wisconsin Pipe Line Company (Michigan Wisconsin).

Southern states that this filing is being made pursuant to Commission order dated June 1, 1973 issuing certificates of public convenience and necessity in Docket No. CP73-84 to construct and operate certain facilities for an emergency interconnection in St. Mary Parish, Louisiana, for the transportation and exchange of natural gas.

The company states that copies of the filing have been mailed to Michigan Wisconsin and are on file with the Commission and are available for public inspection.

Any person desiring to comment upon or to protest said filing may file such comment or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, on or before July 19, 1973.

KENNETH F. PLUMB,
Secretary.

[Docket No. CS71-383]

TEXASGULF INC.

Notice of Redesignation

JULY 6, 1973.

By a letter dated May 25, 1973, Texasgulf Inc., has advised the Commission that it has undergone a corporate name change from Texas Gulf, Inc., to Texasgulf Inc.

Accordingly, the small producer certificate of public convenience and necessity issued pursuant to section 7(c) of the Natural Gas Act in Docket No. CS71-383 to Texas Gulf, Inc., is redesignated as that of Texasgulf Inc. and the name of the respondent in the proceedings pending in Docket Nos. RI65-475 and RI71-642 is changed to Texasgulf Inc.

[Project 2334]

WESTERN MASSACHUSETTS ELECTRIC CO.

Application for Change in Land Rights

JULY 6, 1973.

Public notice is hereby given that application for a change in land rights has been filed under the Federal Power Act (16 U.S.C. 791a-825r) by Western Massachusetts Electric Company (Correspondence to: Mr. Leon E. Magluthin, Jr., Vice-President-Operations, Western Massachusetts Electric Company, 174 Brush Hill Avenue, West Springfield, Massachusetts 01089) for the Gardners Falls Project, located on Deerfield River in the towns of Buckland and Shelburne in Franklin County, Massachusetts.

The application seeks Commission approval of a proposed easement to be granted by Western Massachusetts Electric Company to the Town of Buckland, Massachusetts. The easement (20 feet in width and about 100 feet long) is for the purpose of constructing a 12 inch cast iron effluent pipe into the Deerfield River. The outfall will extend from a sewage treatment plant being constructed by the town.

Any person desiring to be heard or to make protest with reference to said application should on or before August 13, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

FIRST BANC GROUP OF OHIO, INC.

Acquisition of Bank

First Banc Group of Ohio, Inc., Columbus, Ohio, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 per cent (less directors' qualifying shares) of the voting shares of First Trust Company of Ohio, National Association, Columbus, Ohio, a proposed new bank. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Cleveland. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than July 30, 1973.

Board of Governors of the Federal Reserve System, July 5, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

FIRST BANC GROUP, INC.

Acquisition of Bank

First Banc Group, Inc. Creve Coeur, Missouri, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of The Citizens Bank of Gerald, Gerald, Missouri. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

First Banc Group, Inc. is also engaged in the following nonbank activities: land ownership and data processing activities. In addition to the factors considered under section 3 of the Act (banking factors), the Board will consider the proposal in the light of the company's nonbanking activities and the provisions and prohibitions in section 4 of the Act (12 U.S.C. 1843).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of St. Louis. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than July 30, 1973.

Board of Governors of the Federal Reserve System, July 5, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-14325 Filed 7-12-73;8:45 am]

STOCKGROWERS STATE BANK COMPANY, INC.

Order Approving Retention of Bank

Stockgrowers State Bank Company, Inc., Worland, Wyoming, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to retain [1] 92.6 per cent of the voting shares of The Stockgrowers State Bank ("Bank"), Worland, Wyoming.

Notice of the application and a substantive amendment thereto, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant was organized in 1971 for the primary purpose of becoming a bank holding company with respect to Bank. As Applicant does not have any banking subsidiaries at this time, this transaction eliminated neither existing nor potential competition.

Bank ($13.2 million in deposits), located in the city of Worland, Wyoming (population approximately 5,055), is the smaller of two banks in Washakie County and controls 49.7 per cent of total commercial deposits in the county and 1.2 per cent of total commercial deposits in the State.[2] The Board concludes that consummation would not have an adverse effect on any other banking institution or result in the concentration of banking resources in any relevant area. It also appears that community needs for banking services are presently being served and that approval of this proposal would have no immediate effect thereon; however, provisions of trust services, anticipated under Applicant's management, would enhance Bank's ability to meet the future needs and convenience of the community.

Under Applicant's original ownership and management, Bank's condition deteriorated rapidly as a result of an overly-aggressive lending and investment philosophy, loose loan administration, and absentee management. In October, 1972, a group of Worland residents acquired Applicant, and the quality of Bank's assets has improved substantially since that time. Bank is now in adequate financial condition apparently as a result of recent improvements achieved through Applicant's new management and ownership. Bank has satisfactory prospects under its present management, which is believed to be capable. Applicant's financial condition, management, and future prospects are considered satisfactory. Although Applicant's new owners have significantly improved Applicant's condition by lowering its acquisition debt, Applicant's ratio of debt to equity remains high, but now apparently is manageable, and it appears that Applicant will be able to service its acquisition debt without placing an undue strain on the resources of Bank. The Board is of the opinion that the present management of Applicant has demonstrated both its ability and willingness to provide Bank with the leadership required to return it to a viable condition. Therefore, banking factors lend some weight toward approval of this application.

On the basis of the record, the application is approved for the reasons summarized above.

By order of the Board of Governors,[3] effective June 26, 1973.

[SEAL] CHESTER B. FELDBERG,
Assistant Secretary of the Board.

[FR Doc.73-14327 Filed 7-12-73;8:45 am]

UNITED BANKS OF COLORADO, INC.

Acquisition of Bank

United Banks of Colorado, Inc., Denver, Colorado, has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 80 per cent or more of the voting shares of Broomfield Bank, Broomfield, Colorado. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than July 30, 1973.

Board of Governors of the Federal Reserve System, July 5, 1973.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.73-14326 Filed 7-12-73;8:45 am]

[1] On March 15, 1971, Applicant without prior Board approval acquired the shares of Bank which shares it has applied to retain. On June 22, 1971, the Board, in order to avoid impositions of undue hardship, ordered that any company which acquired a bank between December 31, 1970 and June 22, 1971, without first securing prior Board approval because of lack of knowledge of that requirement might file for such approval by August 31, 1971. Applicant apparently lacked knowledge of the requirements of the Act at the time it acquired the shares of Bank, and subsequently filed an application with the Federal Reserve Bank of Kansas City.

[2] Bank deposit data are as of December 31, 1972.

[3] Voting for this action: Chairman Burns and Governors Mitchell, Daane, Brimmer, Sheehan, Bucher and Holland.

WELLS FARGO & CO.

Proposed Acquisition of Wells Fargo Mortgage Company

Wells Fargo & Company, San Francisco, California, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Wells Fargo Mortgage Company, San Francisco, California, a newly organized company. Notice of the application was published in newspapers of general circulation as follows:

Fresno, California.	The Daily Real Estate. Report and Abstract of Records.	May	9, 1973
San Diego, California.	San Diego Daily Transcript.	May	8, 1973
San Francisco, California.	The Recorder	May	8, 1973
Santa Anna, California.	Orange County Reporter.	May	9, 1973
San Jose, California.	San Jose Post-Record.	May	9, 1973
Sacramento, California.	The Daily Recorder	May	9, 1973
Santa Rosa, California.	The Press Democrat	May	9, 1973
San Bernardino, California.	The Sun	May	14, 1973
Walnut Creek, California.	Contra Costa News Register.	May	15, 1973
Los Angeles, California.	The Los Angeles, California.	May	25, 1973

Applicant states that the proposed subsidiary would engage in the activities of making or acquiring for its own account or for the account of others, mortgage loans and other extensions of credit. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of San Francisco.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than July 26, 1973.

Board of Governors of the Federal Reserve System, June 29, 1973.

[SEAL] CHESTER B. FELDBERG,
Assistant Secretary of the Board.

[FR Doc.73-14177 Filed 7-12-73;8:45 am]

V 38 I 134 JUL 13 73 XUM

FEDERAL TRADE COMMISSION

QUARTERLY FINANCIAL STATISTICS PROGRAM

Resolution Requiring Quarterly Financial Statistics and Related Information From Corporations

Notice is hereby given that the Federal Trade Commission has approved, adopted and entered of record the following resolution:

RESOLUTION REQUIRING QUARTERLY FINANCIAL STATISTICS AND RELATED INFORMATION FROM CORPORATIONS

Whereas, it is necessary for the proper functioning of the government that there be available to the President, the Congress, government agencies, and the business community, continuing and current financial data and statistics from corporations within the various industries and lines of commerce of the United States; and

Whereas, the Federal Trade Commission, acting pursuant to the authority vested in it by Section 6 of the Federal Trade Commission Act, is engaged in the collection of annual and special reports from corporations engaged in commerce and the compilation and publication of the results thereof in combined statistical form for the purposes of said Act; and

Whereas, certain responsibilities and functions of the Securities and Exchange Commission in the collection of information as to costs, profits and related financial data from registered corporations for the Quarterly Financial Report publication series has been transferred to the Federal Trade Commission:

Now, therefore, it is hereby resolved that the Federal Trade Commission, in the exercise of the powers vested in it by section 6 of the Federal Trade Commission Act (38 Stat. 721; 15 U.S.C.A., section 46), and with the aid of any and all powers conferred upon it by law and any and all compulsory processes available to it, do forthwith proceed to collect information, for the purposes herein stated, in the form of reports or otherwise, regarding the financial position and financial results of business operations, including, but not limited to balance sheets and statements of income and retained earnings, together with such other facts as may be necessary for the classification and interpretation thereof, from such corporations as may be designated by the Commission pursuant to general or special order;

It is further resolved that the reports and the data relating to an individual company contained therein obtained as a result of this resolution shall be received in and afforded confidential status and shall not be available for use in any Commission adjudication or in connection with any investigation for the purpose of initiating adjudicative proceedings, as more fully spelled out in the "Rules and Procedures for the Use of Confidential Individual Company Data Collected Under the FTC's Quarterly Financial Statistics Program" adopted by the Commission and attached hereto.

By direction of the Commission dated June 28, 1973.

[SEAL] CHARLES A. TOBIN, *Secretary.*

RULES AND PROCEDURES FOR THE USE OF CONFIDENTIAL INDIVIDUAL COMPANY DATA COLLECTED UNDER THE FTC'S QUARTERLY FINANCIAL STATISTICS PROGRAM

Data collected under the Quarterly Financial Statistics Program are gathered for the purpose of preparing statistical compilations, consistent with the confidentiality strictures contained herein. Under no conditions are the individual company reports to be inspected or otherwise used for "taxation, regulation or investigation" or in any Commission adjudication or in connection with any investigation for the purpose of initiating adjudicative proceedings.[1] While the Commission intends to utilize tabulations of QFR data in FTC merger statistical reports, the FTC series on aggregate concentrations, rates of return in selected manufacturing industries, and such other statistical and economic reports as are authorized by the Commission, no individual company data contained in the QFR Reports will be revealed in these reports prepared by the FTC. However, these FTC reports may be utilized in connection with any Commission adjudication or any investigation for the purpose of initiating adjudicative proceedings.

The names of companies, financial data and all other information which are obtained from respondent companies in connection with the Federal Trade Commission's Quarterly Financial Statistics Program are confidential, as pledged in the cited Commission Resolution, and persons authorized to have access to this information may not release, discuss or in any way provide access to such information to anyone not authorized to have access. Further, all such QFR data are considered to be exempt from the disclosure provisions of the Feedom of Information Act. Penalties under Section 10 of the Federal Trade Commission Act provide for fines up to five thousand dollars ($5,000), or imprisonment not exceeding one year for unauthorized release of such information.

Authorized access and use. Access to and use of individual company data is restricted to members of the Division of Financial Statistics and the Statistical Reports Unit of the Economic Research and Services Section, both of which are part of the Bureau of Economics and both of which have no involvement in any investigative or regulatory functions of the Federal Trade Commission. Access by members of the Division of Management is authorized only during and for the purpose of electronic processing of such data.

[1] Except where the latter relate to legal action initiated by the refusal of a respondent company to file a timely and acceptable QFR report.

The Division of Financial Statistics is a statistics-gathering unit which prepares for publication the Quarterly Financial Report. The QFR presents selected balance sheet and income statement data aggregates for industrial corporations, classified by industry groups and by asset size classes. All mailing of reporting forms and correspondence relating to individual QFR companies (except for correspondence involving legal action for failure to submit reports) will be under the supervision of the Chief of the Division of Financial Statistics. That division is responsible for reviewing, editing and coding all individual company reports and for requesting such tabulations and listings of individual company data from the Division of Management as needed to prepare the Quarterly Financial Report. The Financial Statistics Division is responsible for the selection and maintenance of the QFR sample panel, in accordance with accepted scientific sampling methodology and Federal statistical standards. It requests such other tabulations as may be needed to insure the statistical reliability and consistency of the QFR published data series. It prepares preliminary estimates and such other special tabulations relating to the QFR as requested by the Department of Commerce and the Federal Reserve Board, or as may be directed by the Office of Management and Budget. The Chief of the Division of Financial Statistics is responsible for the development and implementation of disclosure analysis procedures applied to all QFR data. He shall certify to the Director of the Bureau of Economics that he has reviewed and approved all disclosure analysis procedures used in the QFR publication tables and all other tabulations involving QFR source data.

The Statistical Reports Unit is a statistical research and economic analysis unit in the Office of the Director, Bureau of Economics, and is responsible for: The preparation of FTC merger statistical reports, the annual FTC statistics on aggregate concentration, the FTC report on rates of return in selected manufacturing industries, and other statistical and economic reports authorized by the Commission. The head of the Statistical Reports Unit shall request from the Division of Financial Statistics such access to individual company QFR data as is needed to complete these Bureau of Economics reports, after receiving concurrence from the Chief of Financial Statistics Division that the table plans and disclosure analysis procedures to be used in preparing these FTC reports are consistent with the QFR procedures and adequate to protect against direct or residual disclosure that could result from such additional tabulation of QFR data. He will certify to the Director of the Bureau of Economics that he has subjected all tables in these reports which in any way used QFR data to the above-described disclosure analysis.

The Director of the Bureau of Economics will not have access to the individual QFR schedules nor the derived data listings for individual companies utilized by these statistical units. He shall, however, have supervisory responsibility and authority with respect to the units. Such responsibility and authority shall include approving any reports prepared by them, making recommendations with respect to the preparation of such reports, and exercising any other supervisory control not requiring access to the individual QFR data.

Under no conditions may the individual company data reported on the QFR schedule be used for, or in the course of, any enforcement action or enforcement investigation. Therefore, all persons not on the staffs of the Statistical Reports Unit or Division of Financial Statistics will not be granted access to individual company information in the QFR files or data records; nor will personnel from either of these two units engage in any activity of the Commission which involves regulation or investigation, nor prepare any reports utilizing QFR data for such purposes while assigned to those units. Any employee who transfers into or out of either of the units will be formally notified in writing that he is subject to Section 10 of the Federal Trade Commission Act, the above-cited Commission Resolution, and these Rules, which prohibit disclosure, discussion, or release of these data to any unauthorized person.

Security of individual company QFR data. All individual company QFR schedules and data records at the Federal Trade Commission must at all times be under the security and supervision of the staff of either the Statistical Reports Unit or the Division of Financial Statistics, except during electronic data processing when the Chief, Division of Management, shall be responsible for their security.

All rooms containing individual company QFR data will be locked except when occupied. The individual company data will be stored in secured drawers, files, etc., except when being used.

The Chief of the Commission's Division of Management shall be responsible for the security of the original QFR schedules and all derived punched cards and computer records being processed. All punched cards, tapes, printouts, and containers for same, will be conspicuously marked "confidential." The Chief of the Division of Management will be responsible for the security of data in his possession and will personally approve all storage locations and security procedures, subject to concurrence of the Chief, Financial Statistics Division. He will not permit any special tabulations or listings of QFR data except those specifically approved by the Director of the Bureau of Economics, and for which disclosures analysis procedures have been reviewed and concurred in by the Chief of the Financial Statistics Division for consistency with existing QFR disclosure analysis procedures. Except for magnetic storage media used in processing, all cards, tapes, and printouts containing individual company QFR data will be sent to the Division of Financial Statistics for secure storage, along with the original QFR schedules.

All persons having use or possession of individual company data will be personally responsible for securing the confidentiality of those data and for following the rules set forth above. Any violation of these rules, either through neglect or otherwise, will result in prosecution to the full extent of the law or any other legal action decided on by the Chairman of the Commission.

TARIFF COMMISSION

[TEA-W-205]

J. P. STEVENS AND CO.

Workers' Petition for a Determination; Notice of Investigation

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the workers and former workers of the Hannah Pickett and Martha Baum plants, Rockingham, North Carolina, of J. P. Stevens and Co., Inc., Greenville, South Carolina, the United States Tariff Commission, on July 9, 1973, instituted an investigation under section 301(c)(2) of the Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with woven fabrics of wool (of the types provided for in item 336.60 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

The optional public hearing afforded by law has not been requested by the petitioners. Any other party showing a proper interest in the subject matter of the investigation may request a hearing, provided such request is filed on or before July 23, 1973.

The petition filed in this case is available for inspection at the Office of the Secretary, United States Tariff Commission, 8th and E Streets, N.W., Washington, D.C., and at the New York City office of the Tariff Commission located in Room 437 of the Customhouse.

Issued July 10, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON, *Secretary.*

[FR Doc.73-14390 Filed 7-12-73;8:45 am]

DEPARTMENT OF LABOR

Wage and Hour Division

CERTIFICATES AUTHORIZING THE EMPLOYMENT OF FULL-TIME STUDENTS WORKING OUTSIDE OF SCHOOL HOURS AT SPECIAL MINIMUM WAGES IN RETAIL OR SERVICE ESTABLISHMENTS OR IN AGRICULTURE

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulation on employment of full-time students (29 CFR Part 519), and Administrative Order No. 621 (36 FR 12819), the establishments listed in this notice have been issued special certificates authorizing the employment of full-time students working outside of school hours at hourly rates lower than the minimum wage rates otherwise applicable under section 6 of the Act. While effective and expiration dates are shown for those certificates issued for less than a year, only the expiration dates are shown for certificates issued for a year. The minimum certificate rates are not less than 85 percent of the applicable statutory minimum.

The following certificates provide for an allowance not to exceed the proportion of the total hours worked by full-time students at rates below $1 an hour to the total number of hours worked by all employees in the establishment during the base period in occupations of the same general classes in which the establishment employed full-time students at wages below $1 an hour in the base year; or provide the same standards authorized in certificates previously issued to the establishment.

Each certificate has been issued upon the representations of the employer which, among other things, were that employment of full-time students at special minimum rates is necessary to prevent curtailment of opportunities for employment, and the hiring of full-time students at special minimum rates will not create a substantial probability of reducing the full-time employment opportunities of persons other than those employed under a certificate. The certificate may be annulled or withdrawn, as indicated therein, in the manner provided in Part 528 of Title 29 of the Code of Federal Regulations. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof on or before August 13, 1973.

Signed at Washington, D.C. this 6th day of July 1973.

DONALD T. CRUMBACK,
Authorized Representative of the Administrative.

[Notice 295]

ASSIGNMENT OF HEARINGS

JULY 10, 1973.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

FD–27346, Missouri Pacific Railroad Corp., Securities, now being assigned hearing August 27, 1973, at the Offices of the Interstate Commerce Commission, Washington, D.C.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.73–14357 Filed 7–12–73;8:45 am]

[Rev. S. O. 994; I.C.C. Order 105]

CENTRAL VERMONT RAILWAY, INC.

Rerouting or Diversion of Traffic

In the opinion of R. D. Pfahler, Agent, the Central Vermont Railway, Inc. is unable to transport traffic over its line between Bethel, Vermont, and White River Junction, Vermont, because of track damage from flooding.

It is ordered, That:

(a) The Central Vermont Railway, Inc., being unable to transport traffic over its line between Bethel, Vermont, and White River Junction, Vermont, because of track damage from flooding, that carrier is hereby authorized to reroute or divert such traffic via any available route to expedite the movement. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) *Concurrence of receiving roads to be obtained.* The railroad desiring to divert or reroute traffic under this order shall receive the concurrence of other railroads to which such traffic is to be diverted or rerouted, before the rerouting or diversion is ordered.

(c) *Notification to shippers.* Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the division of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(f) *Effective date.* This order shall become effective at 12:01 p.m., July 2, 1973.

(g) Expiration date. This order shall expire at 11:59 p.m., July 30, 1973, unless otherwise modified, changed, or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., July 2, 1973.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER
Agent.

[FR Doc.73–14353 Filed 7–12–73;8:45 am]

FOURTH SECTION APPLICATION FOR RELIEF

JULY 10, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the General Rules of Practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 42711—*Hot Topping Compounds from Philadelphia, Pa.* Filed by Southwestern Freight Bureau, Agent, (No. B–420), for interested rail carriers. Rates on hot topping compounds, in carloads, as described in the application, from Philadelphia, Pa., to Shreveport, La.

Grounds for relief—Rate relationship.

Tariff—Supplement 65 to Southwestern Freight Bureau, Agent, tariff 58–E, I.C.C. No. 4994. Rates are published to become effective on August 13, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.73–14355 Filed 7–12–73;8:45 am]

[Ex Parte 252 (Sub-No. 1)]

INCENTIVE PER DIEM CHARGES—1968

Directing Special Procedure

Upon consideration of the record, the reports herein (of which 343 I.C.C. 49 is the most recent), petitions for reconsideration and the various orders, including the order of April 24, 1973, reopening the proceeding for reconsideration of six specific matters[1] and assigning the matter for prehearing conference held June 5, 1973;

It appearing, that at the prehearing conference several petitioners renewed their requests that the proceeding be reconsidered in toto, rather than specifically on the six issues outlined in the Commission's order of April 24, 1973, on the grounds urged in prior written petitions;

It further appearing, that oral requests that the proceeding be reconsidered in toto have already been considered by the Commission in connection with the orders entered on April 24, May 25, May 31, and July 6, 1973, wherein such written requests were denied;

It further appearing, that a majority of those present at the prehearing conference of June 5, 1973, favored the adoption of special procedure for the purpose of expediting resolution of the matters involved; and for good cause shown:

It is ordered, That on or before August 13, 1973, parties to the proceeding shall file with the Commission an original and 15 copies of verified statements of position in writing, verified statements of witnesses, together with studies, if any, designed to support their respective positions with a statement of where the underlying work papers to such studies will be available for inspection by parties to the proceeding and at the same time, serve a copy of such prepared material upon all parties listed in the Appendix attached hereto and any additional persons who make known their desire to actively participate in the proceeding on or before July 27, 1973. All rail carriers filing such statements shall include data listing monies collected, monies paid out, amounts spent (indicating the purposes therefor) and amounts held in escrow, all in compliance with the Commission's prescribed incentive per diem

[1] The order stated: "*It is ordered,* That this proceeding be, and it is hereby; reopened for reconsideration for the purposes of (1) determining whether the funds now earmarked for boxcars should be permitted to be drawn down for the acquisition of other types of cars in demand, like covered hoppers, and whether such modification would increase the number of boxcars available for general use, (2) determining whether the existing test period average should be modified in any respect, (3) determining whether a specified period should be prescribed within which incentive funds must be expended or committed to the acquisition of general service boxcars, (4) determining whether carriers which fail to acquire their normal complement of such cars and, consequently, are unable to draw down the incentive funds within a specified period, should be required to return the funds collected to the debtor carriers, (5) determining other methods to facilitate the use of the accrued incentive per diem funds for the purchase, building, or rebuilding of general service, unequipped boxcars, and (6) determining whether any group of carriers should be exempt from the payment of incentive per diem."

V38-1347 JUL 13 73 XUM

rules and regulations. In order that the parties may assist the Commission in determining what relief, if any, is warranted on this record and in conformity with the six specified issues noted above, among other factors, respondents should also show, to the extent possible, how they contemplate to utilize any unexpended or uncommitted incentive per diem funds in conformity with the present rules and regulations.

It is further ordered, That on or before September 17, 1973, any party to the proceeding wishing to file a reply to a verified statement shall file with the Commission an original and 15 copies of such reply verified statements in writing, verified statements of witnesses, and at the same time, serve a copy of such prepared material upon all parties listed in the Appendix attached hereto and any additional parties who make known their desire to actively participate in the proceeding on or before July 27, 1973.

It is further ordered, That any additional parties who desire to actively participate and receive copies of the prepared material to be served shall notify the Commission, in writing, on or before July 27, 1973, as well as all parties listed in the Appendix.[2]

It is further ordered, That parties desiring to cross-examine witnesses who have submitted verified statements shall give notice to that effect, in writing, to the affiant and his counsel, if any, on or before October 3, 1973, a copy of such notice to be filed simultaneously with the Commission, together with a request for any underlying data that the witnesses will be expected to have available for immediate reference at the hearing. All verified statements and attachments as to which no cross-examination is requested will be considered as part of the record. Any witness who has been requested to appear for cross-examination but fails to do so, subjects his verified statement to a motion to strike.

It is further ordered, That a hearing will be held commencing on October 15, 1973, 9:30 o'clock a.m. United States Daylight Savings Time at the Office of the Interstate Commerce Commission, Washington, D.C., for the purpose of hearing cross-examination of witnesses so requested; to afford opportunity to present evidence in opposition to the cross-examination; and any such other pertinent evidence which the presiding Administrative Law Judge deems necessary to complete the record.

It is further ordered, That a copy of this order be served upon all parties to this proceeding listed in the Appendix,[1] that a copy be filed in the Office of the Secretary of this Commission and in each field office; and that a copy of this order and of the Appendix hereto be delivered to the Director, Division of Federal Register, for publication in the FEDERAL REGISTER.

It is further ordered, That while this proceeding does not currently appear to be a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, initial and reply statements filed by the parties participating herein shall indicate the presence or absence of any effect of the recommendations made therein to this Commission on the quality of the human environment. Cf. Implementation—Natl. Environmental Policy Act, 1969, 340 I.C.C. 431 (1972).

And it is further ordered, That to avoid future unnecessary service upon parties who may have participated in the earlier proceeding and who are not actively participating in the reopened proceeding, subsequent service herein of notices and orders of the Commission will be limited to those parties who:

(1) Have appeared at the prehearing conference, or

(2) Have specifically made written request to the Secretary of the Commission to be included on the service list to actively participate and to receive copies of the material to be served as outlined herein.

Dated at Washington, D.C., this 9th day of July, 1973.

By the Commission, Commissioner Rupert L. Murphy.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice 313]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before August 2, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74165. By order of July 9, 1973, the Motor Carrier Board approved the transfer to Wagner Household Vans, Incorporated, Maryville, Mo., of the operating rights in Certificate No. MC-136948 issued May 10, 1973, to Harvey Williams, Maryville, Mo., authorizing the transportation of household goods, as defined by the Commission, between points in Atchison and Holt Counties, Mo., on the one hand, and, on the other, points in Nebraska, Kansas, and Iowa; and between points in Buchanan County, Mo., on the one hand, and, on the other, points in Kansas, Nebraska, and Illinois. Donald L. Stern, 530 Univac Building, Omaha, Nebr. 68106 Attorney for applicants.

No. MC-FC-74219. By order of July 3, 1973, the Motor Carrier Board approved the transfer to Seigle's Express, Inc., North Arlington, N.J., of a portion of Certificate No. MC-35858 issued May 2, 1972, to Paramus Delivery Service, Inc., New York, N.Y., authorizing the transportation of Gas ranges, electric materials, paints and raw materials (shoddy), between New York, N.Y., on the one hand, and, on the other, points in that part of New Jersey (except Newark, N.J., and points in New Jersey within 10 miles of Newark), New York, and Connecticut within 35 miles of Columbus Circle, New York, N.Y. Robert B. Pepper, 168 Woodbridge Avenue, Highland Park, N.J. 08904, Applicants' Representative.

No. MC-FC-74391. By order of July 5, 1973, the Motor Carrier Board approved the transfer to New England Bus Company, Inc., Acushet, Mass., of Certificate No. MC-9598 (Sub No. 2) issued to Union Street Railway Company, a corporation, New Bedford, Mass., authorizing the transportation of: Passengers and their baggage, in special operations, beginning and ending at New Bedford, Mass., and extending to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, and the District of Columbia. Frank Daniels, Attorney, 15 Court Square, Boston, Mass. 02108 Edward F. Harrington, Attorney, 190 William St., New Bedford, Mass. 02740.

No. MC-FC-74466. By order entered July 2, 1973, the Motor Carrier Board approved the transfer to Storer Transportation Service, Inc., Modesto, Calif., of the operating rights set forth in Certificate No. MC-15401, issued April 13, 1942, to Willis M. Kleinenbroich, doing business as Modesto Riverbank Oakdale Stage Line, Modesto, Calif., authorizing the transportation of passengers and their baggage, and express and newspapers, in the same vehicle with passengers, over a regular route, between Modesto, Calif., and Oakdale, Calif., from Modesto over unnumbered highway to Oakdale, and return over the same route, servicing all intermediate points. Edward M. Lacy, 1024 J. Street, Suite 420, P.O. Box 3150, Modesto, CA 95353, attorney for applicants.

No. MC-FC-74539. By order of July 3, 1973, the Motor Carrier Board approved the transfer to Peters Truck Lines, a corporation, Yreka, California, of Certificates of Registrations Nos. MC 97710 (Sub-No. 5), issued April 7, 1965, to Walter F. Peters, Doing Business As Peters Truck Lines, Yreka, California, evidencing a right to engage in transportation in interstate commerce corresponding in scope to Certificate of Public Convenience and Necessity granted in Decision No. 60602, dated August 23, 1960, as transferred by Decision No. 66733, dated February 4, 1964 and MC 97710 (Sub-No. 6), issued April 6, 1970, evidencing a right to engage in transportation in interstate commerce, corresponding in scope to Certificate of Public Convenience and Necessity granted in Decision No. 61589, dated February 28, 1961, as amended by Decision No. 74082, dated May 7, 1968 and transferred by Decision No. 74473, dated July 30, 1968, issued by the California Public Utilities Commission. Marshall G. Berol, Esq., Loughran, Berol & Hegarty, 100 Bush Street, San Francisco, Calif. 94104 Attorney for applicants.

No. MC-FC-74572. By order dated July 6, 1973, the Motor Carrier Board approved the transfer to Campo's Express, Inc., Stafford Springs, Conn., 06076, of the operating rights set forth in Certificate No. MC-49318, issued May 27, 1941, authorizing the transportation of general commodities, with usual exceptions, between Stafford, Conn., and Springfield, Mass., over specified routes; and general commodities with usual exceptions, from Springfield, Mass., to Williamantic, Conn., and between Springfield, Mass., and points in Massachusetts within 15 miles of Springfield, on the one hand, and, one the other, Stafford, Conn., and points in Connecticut within 15 miles of Stafford. Thomas W. Murrett, 342 North Main St., West Hartford, Conn. 06117, attorney for applicants.

BASIC EDUCATIONAL OPPORTUNITY PROGRAM

V 38 - 134 JUL 13 73 XUM

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

[45 CFR Part 190]

BASIC EDUCATIONAL OPPORTUNITY GRANT PROGRAM

Notice of Proposed Rule Making

Pursuant to the authority contained in Subpart 1 of Part A of Title IV of the Higher Education Act of 1965 as amended (20 U.S.C. 1070a), notice is hereby given that the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to issue the following Regulations under Part 190 of Title 45 of the Code of Federal Regulations, covering the general definitions, procedures for applying for a determination of the expected family contribution, method of award determination and the allowable educational costs for the Basic Educational Opportunity Grant Program. Regulations covering the determination of the expected family contribution for both dependent and independent students have been previously published (38 FR 15418, June 11, 1973).

Subpart A of the proposed regulation sets forth the scope and definitions, Subpart B sets forth the application procedures for determining expected family contributions, Subpart E sets forth the allowable costs of attendance criteria, and Subpart F sets forth the procedures for the determination of Basic Grant awards.

The appendix to this notice, which will not be part of the regulations, includes an explanation and rationale for the provisions in each proposed subpart.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed rules to Peter K. U. Voigt, Acting Coordinator, Basic Educational Opportunity Grants, U.S. Office of Education; Room 4010, Federal Office Building No. 6; 400 Maryland Avenue, SW., Washington, D.C. 20202, on or before August 13, 1973. Comments received will be available for public inspection at the above office Monday through Friday between 8:00 a.m. and 4:30 p.m.

(20 U.S.C. 1070a)

Dated: June 29, 1973.

JOHN OTTINA,
Acting U.S. Commissioner of Education.

Approved: July 9, 1973.

CASPAR W. WEINBERGER,
Secretary, Department of Health, Education, and Welfare.

Subpart A—Scope, Purpose and General Definitions

Sec.
190.1 Scope and purpose.
190.2 General definitions.
190.3 Eligible student.

Subpart A—Scope, Purpose and General Definitions

§ 190.1 Scope and purpose.

The purpose of the Basic Educational Opportunity Grant Program is to assist in making available the benefits of postsecondary education to eligible students by providing assistance in meeting the cost of such education.

(20 U.S.C. 1070a)

§ 190.2 General definitions.

For purposes of this part,

(a) "Academic year" means a period of time of not less than 8 months which occurs during a 12 month period beginning July 1 and ending June 30 of the subsequent year, and in which a full-time student would normally be expected to complete the equivalent of two semesters, two trimesters, three quarters, 30 semester hours, 30 trimester hours, 45 quarter hours, or 900 clock hours of instruction.

(20 U.S.C. 1088(c)(1))

(b) "Act" means Title IV–A–1 of the Higher Education Act of 1965, as amended.

(c) "Clock hour" means a period of time which is the equivalent of either (1) a 50 to 60 minute class, lecture or recitation, (2) two hours of laboratory, shop training, or internship requiring outside preparation, (3) 2 hours of outside preparation related to (1) and (2), or (4) 3 hours of laboratory, shop training, or internship not requiring outside preparation.

(d) "Commissioner" means the U.S. Commissioner of Education or his designee.

(e) "Eligible program" means a program of training at an institution of higher education which (1) leads to a degree or certificate, (2) is of at least six months duration, and (3) admits as regular students only those persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate.

(20 U.S.C. 1141(a)(1); 20 U.S.C. 1088(b)(3))

(f) "Full-time student" means a student who is carrying a full-time academic work load, other than by correspondence, measured in terms of (1) course work or other required activities as determined by the institution in which the student is enrolled, including any combination of courses, work experience, research or special studies which the institution requires of the student to consider him as being engaged in full-time study, and which amounts to a minimum of 12 semester hours or 12 quarter hours per academic term for institution utilizing trimesters, semesters or quarter hour systems, or which consists of a program requiring a minimum of 25 clock hours per week for those institutions that do not utilize such systems, and (2) the tuition and fees customarily charged for full-time study by the institution.

(20 U.S.C. 1088(c)(2))

(g) "Half-time student" means a student who is carrying a half-time academic work load measured in terms of (1) course work or other required activities as determined by the institution in which the student is enrolled, including any combination of courses, work experience, research or special studies which the institution requires of the student to consider him as being engaged in part-time study, and which amounts to a minimum of 6 semester hours or 6 quarter hours for institutions utilizing trimesters, semesters or quarters, or which consists of a program requiring a minimum of 13 clock hours per week for those institutions which do not utilize such systems, and (2) the tuition and fees customarily charged for half-time study by the institution. All students engaged in a program of study by correspondence which is offered as requiring at least 12 hours of preparation a week shall be considered half-time students for purposes of this part.

(h) "Good standing" means the eligibility of a student to continue in attendance in accordance with the standards and practices of the institution in which he is enrolled.

(i) "Institution of higher education" means an educational institution in any State which (1) admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate, (2) is legally authorized within such State to provide a program of education beyond secondary education, (3) provides an educational program for which it awards a bachelor's degree or provides not less than a two-year program which is acceptable for full credit toward such a degree, (4) is a public or other nonprofit institution, and (5) is accredited by a nationally recognized accrediting agency or association or, if not so accredited, (i) is an institution with respect to which the Commissioner has determined that there is satisfactory assurance, considering the resources available to the institution, the period of time, if any, during which it has operated, the effort it is making to meet accreditation standards, and the purpose for which this determination is being made, that the institution will meet the accreditation standards of such an agency or association within a reasonable time, or (ii) is an institution whose credits are accepted, on transfer, by not less than three institutions which are so accredited, for credit on the same basis as if transferred from an institution so accredited.

Such term also includes any school which provides not less than a one-year program of training to prepare students for gainful employment in a recognized occupation and which meets the provision of paragraph (i) (1), (2), (4), and (5) of this section, and any proprietary institution of higher education as defined in paragraph (j) of this section, which has an agreement with the Commissioner containing such terms and conditions as the Commissioner determines to be necessary to insure that the availability of assistance to students at the school under this part has not resulted, and will not result, in an increase in the tuition, fees, or other charges to such students.

(20 U.S.C. 1141(a), 20 U.S.C. 1088(b))

(j) "Proprietary institution of higher education" means a school which (1) provides not less than a six-month program of training to prepare students for gainful employment in a recognized occupation, (2) admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate, (3) is legally authorized by the State in which it is located to provide a program of education beyond secondary education, (4) is accredited by a nationally recognized accrediting agency or association approved by the Commissioner for this purpose, (5) is not a public or other nonprofit institution, and (6) has been in existence for at least two years.

(20 U.S.C. 1088(b)(3))

(k) "Nonprofit" as applied to a school, agency, organization, or institution means a school, agency, organization or institution owned and operated by one or more nonprofit corporations or associations, no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual.

(20 U.S.C. 1141(c))

(l) "State" includes, in addition to the several States of the Union, American Samoa, the Commonwealth of Puerto Rico, the District of Columbia, Guam, the Trust Territory of the Pacific Islands, and the Virgin Islands.

(20 U.S.C. 1141(b); 20 U.S.C. 1088(a))

(m) "Undergraduate course of study" means a regularly prescribed course of study for an undergraduate student at an institution of higher education.

(n) "Undergradute student" means a student who (1) is in attendance at an institution of higher education, (2) has not earned his first baccalaureate or professional degree, and (3) is not enrolled in a program that leads to (i) a first professional degree when at least three years of study at the postsecondary level are required for entrance into the program leading to such a degree, or (ii) a degree beyond the bachelor's degree or a first professional degree. Such term does not include any student who is enrolled in that portion of a program that involves study beyond the fourth year of study at the postsecondary level unless such program is designed to extend for a period of five years.

(20 U.S.C. 1070a unless otherwise noted)

§ 190.3 Eligible student.

(a) A student is eligible to receive a Basic Educational Opportunity Grant under this part if he:

(1) Was not enrolled as a regular student at any institution of higher education prior to July 1, 1973,

(2) Is accepted for enrollment or is enrolled in good standing as a full-time undergraduate student at an institution of higher education,

(3) Is enrolled in an eligible program as defined in § 190.2(e), and

(4) Is a citizen or national of the United States or is in the United States for other than a temporary purpose and is, or intends to become, a permanent resident thereof; or is a permanent resident of the Trust Territory of the Pacific Islands.

(b) For purposes of paragraph (a) of this section a student shall be deemed not to have been enrolled as a regular student at any institution of higher education where such student (1) was enrolled in a program of remedial study, whether or not for credit, (2) was enrolled in a preparatory program, whether or not for credit, designed to enable the student to meet the requirements for enrollment at an institution of higher education, or (3) was enrolled on less than a full-time basis and had not yet received a high school degree or its equivalent.

(20 U.S.C. 1070a; 1088; P.L. 93–35)

Subpart B—Application Procedures for Determining Expected Family Contribution

Sec.
190.11 Application.
190.12 Certification of information.
190.13 Deadline for filing applications.
190.14 Notification of expected family contribution.
190.15 Request by applicant for recomputation of expected family contribution because of clerical or arithmetic error.
190.16 Extraordinary circumstances affecting the expected family contribution determination.

Subpart B—Application Procedures for Determining Expected Family Contribution

§ 190.11 Application.

In order to have the expected family contribution calculated for any academic year, a person shall submit to the Commissioner a form, approved by the Commissioner for that purpose, containing such information as the Commissioner may from time to time prescribe, unless the Commissioner specifically provides an alternative method of receiving such information.

(20 U.S.C. 1070a(b)(2))

§ 190.12 Certification of information.

An applicant, and where relevant, the applicant's parents or spouse, shall authorize the Commissioner to obtain from the Internal Revenue Service a copy of the Federal Income Tax Return(s) of the applicant, parent or spouse for the base year in order to verify the information disclosed on the application form. In addition, the applicant, and where relevant, the applicant's parents or spouse shall provide, if requested, any other documentation necessary to verify information discolsed on the application form.

(20 U.S.C. 1070a(b)(2))

§ 190.13 Deadline for filing applications.

The Commissioner will from time to time establish cut-off dates for filing of applications for determining expected family contributions for any academic year.

(20 U.S.C. 1070a(b)(1))

§ 190.14 Notification of expected family contribution.

The Commissioner will send to each eligible student a "Family Contribution Analysis Report" which states the amount of the applicant's expected family contribution for the academic year for which a Basic Educational Opportunity Grant is requested and certain basic information used in the computation of that amount.

(20 U.S.C. 1070a)

§ 190.15 Request by applicant for recomputation of expected family contribution because of clerical or arithmetic error.

An applicant may request a recomputation of his expected family contribution if he believes a clerical or arithmetic error has occurred. The applicant requesting such a recomputation must submit his request for recomputation to the Commissioner no later than five (5) weeks after the date indicated on the "Family Contribution Analysis Report". Such requests are to be made in such form as the Commissioner will specify.

(20 U.S.C. 1070a(b)(2))

§ 190.16 Extraordinary circumstances affecting the expected family contribution determination.

Where:

(1) Either a parent or a spouse whose income was included in the calculation of expected family contribution as determined in § 190.33 or § 190.44 has died in the base year or the tax year subsequent to the base year,

(2) Either a parent or a spouse whose income was included in the calculation of the expected family contribution as determined in § 190.33 or § 190.44 has experienced loss of employment of at least ten (10) weeks during the tax year subsequent to the base year, or

(3) Either an applicant, parent, or spouse whose income was included in the calculation of the expected family contribution as determined in § 190.33 or § 190.44 has been unable to pursue normal income-producing activities by reason of disability or natural disaster for a period of at least ten (10) weeks during the tax year subsequent to the base year,

the applicant may submit an application, or if an application has been previously submitted, a new application which shall use the tax year subsequent to the base year as the base year. Such an application shall include the annual adjusted family income received to the date of application or reapplication and an estimate of the annual adjusted family income for the remainder of that year.

(20 U.S.C. 1070a(a)(3)(B)(i)(V))

Subpart E—Costs of Attendance

Sec.
190.51 Costs of attendance.

Subpart E—Costs of Attendance

§ 190.51 Costs of attendance.

(a) For the purposes of this part only the following expenses (and allowances

V 38 I 134
JUL 13 73
XUM

in lieu of expenses) shall be recognized as a student's cost of attendance.

(1) *Tuition and fees.* The amount charged the student for tuition and fees that is generally charged to all students or that is generally charged to a particular class of students of which the applicant student is a member.

(2) *Room and board.* (i) The actual amount charged by the institution pursuant to a contract entered into with the student under which both room and board are provided by the institution; or,

(ii) The actual amount charged by the institution pursuant to such a contract entered into for room but not board, plus an allowance of $550; or,

(iii) The actual amount charged by the institution pursuant to such a contract entered into for board but not room, plus an allowance of $400; or,

(iv) Where no such contract is entered into for either room or board, an allowance of (1) $950 if the student does not live with a parent or parents, or (2) $750 if the student lives with a parent or parents.

(3) *Books, supplies, and miscellaneous expenses.* An allowance of $350.

(b) For the purpose of this section, tuition and fees may not include any amounts related to the cost of travel, except such travel within the United States, other than travel from the student's residence to the institution, as is required in connection with a particular course of study.

(c) In the case of students engaged in a program of study by correspondence, only the costs of tuition and fees determined in accordance with paragraph (a) of this section shall be recognized as a student's cost of attendance for the purposes of this part.

Subpart F—Determination of Basic Educational Opportunity Grant Awards

Sec.

190.61 Submission of "Family Contribution Analysis Report" for purposes of basic educational opportunity grant calculation.

190.62 Calculation of basic educational opportunity grant awards at full-funding.

190.63 Calculation of basic educational opportunity grant awards at less-than-full-funding.

190.64 Calculation of basic educational opportunity grant awards for less than an academic year.

190.65 Applicability of family contribution schedules and payment schedules.

Subpart F—Determination of Basic Educational Opportunity Grant Awards

§ 190.61 Submission of "Family Contribution Analysis Report" for purposes of basic educational opportunity grant calculation.

The applicant shall submit a "Family Contribution Analysis Report" to the institution(s) of higher education he wishes to attend in order to have the amount of his Basic Grant award determined. The Commissioner will from time to time establish cut off dates for any academic year for the filing of "Family Contribution Analysis Reports".

(20 U.S.C. 1070a(b)(2))

§ 190.62 Calculation of basic educational opportunity grant awards at full-funding.

When funds are available to satisfy such payments, the Commissioner will pay to each eligible applicant for any academic year a Basic Educational Opportunity Grant in an amount equal to $1400 minus his expected family contribution, except that no award will be made (a) which is in excess of 50 percent of the applicant's actual cost of attendance at the institution of higher education in which the applicant is enrolled, (b) which exceeds the difference between the expected family contribution of the applicant and his actual cost of attendance at the institution in which he is enrolled, or (c) which is less than $200.

(20 U.S.C. 1070a(2))

§ 190.63 Calculation of basic educational opportunity grant awards at less-than-full-funding.

When funds are not available to fully satisfy all Basic Educational Opportunity Grant awards, each grant awarded to an eligible applicant determined under § 190.72 shall be reduced in accordance with the provisions of section 411(b)(3) of the Act. The amount to be reduced in accordance with section 411(b)(3) will be the remainder of $1400 less the applicant's expected family contribution. No award will be made if the amount of such award after the application of the provisions of section 411(b)(3) of the Act is less than $50, nor may an award be made under this Section to an applicant whose award was calculated to be less than $200 under § 190.62.

(20 U.S.C. 1070a(a)(2)(b)(iii))

§ 190.64 Calculation of basic educational opportunity grant awards for less than an academic year.

In the event that an applicant is enrolled as a full-time student during an academic year for a period of time which is less than a full academic year, the amount of his grant shall be reduced in the same proportion as that period of time bears to eight months.

(20 U.S.C. 1070a(a)(2))

§ 190.65 Applicability of family contribution schedule and payment schedules.

The Basic Educational Opportunity Grant award will be calculated on the basis of the costs of attendance as determined in Subpart E, the Family Contribution Schedules, and the Payment Schedule in effect for the academic year in which the award is made.

(20 U.S.C. 1070a(a)(2); 20 U.S.C. 1070a(b)(3))

APPENDIX

The following discussion is intended to provide additional information and explanation of the preceeding proposed regulations. The reference number which appears before each explanation corresponds to the number of the proposed regulation.

SUBPART A

Section 190.2(a) *Academic year.* The proposed definition of academic year provides for an academic year which corresponds to the Federal fiscal year, July 1 to June 30 of the subsequent year. Also, the definition provides for an academic year which is at least 8 months but no longer than 12 months in length.

The primary reason for proposing that an academic year must fall within the Federal fiscal year is to assure that all student awards are determined based on the same Family Contribution Schedules and payment schedule which are in effect for a particular fiscal year. By adopting this type of definition of academic year, we have precluded the situation where two students from similar economic backgrounds who are attending the same institution simultaneously would have different awards calculated because they initiated their academic year at different times.

Another reason for defining the academic year as the fiscal year is to provide a closing date for fiscal purposes. To determine the total expenditures from the fiscal year's appropriation, it is necessary to establish this cut-off date in order that final data on fiscal activity be easily and effectively processed.

Of course, there will be legitimate instances where an individual student's academic year would, in fact, span two fiscal years. When these situations occur, these awards will be calculated in the following manner:

1. At the time that the student initiates his academic year (i.e., April), his award is calculated on the basis of the Family Contribution Schedules and payment schedules in effect for that fiscal year. The award would be calculated for a full academic year.

2. The student's award would be disbursed to him in installments in proportion to the number of months remaining until June 30. A student who enrolled in April would then receive a payment equal to 3 months of his total award.

3. In order to receive an award after July 1, the student would submit an Application for Determination of Expected Family Contribution for the subsequent fiscal year.

4. Upon receipt of the new expected family contribution, the institution will calculate the student's award based on the payment schedule effective for that fiscal year.

5. The student's award will then be disbursed on the basis of the months remaining in the student's academic year.

The provision that the academic year is at least 8 months but not longer than 12 months accommodates the traditional 8½ to 9 month academic year as well as the academic years at many of the non-traditional types of institutions.

Only one Basic Grant can be awarded a student during one academic year. Students enrolled in accelerated courses of study leading to a certificate or degree in less than the customary length of time required to obtain such a certificate or degree, often attend on a continuous basis. For purposes of the Basic Grant Program, these students will only receive *one* award for use in the academic year. For instance, if a student enrolled in September and completed one year of study in May, he would receive one Basic Grant for that period. If this student immediately initiated the second year of study, he could not receive a second award until after July 1.

Section 190.2(c) *Clock hour.* While many institutions utilize such academic units as semesters, trimesters, and quarters, a large number of schools measure progress toward a certificate or degree in terms of clock hours.

In order to accommodate these types of institutions, the proposed definition of clock hour recognizes and establishes minimum standards upon which a student's progress can be equated with traditional academic units.

The proposed definition would establish one clock hour as (1) a 50 to 60 minute class, lecture or recitation, (2) two hours of laboratory, shop training, or internship requiring outside preparation, (3) two hours of outside preparation for every 50 to 60 minute class, lecture or recitation, (4) two hours of outside preparation for every two hours of laboratory, shop training, or internship requiring outside preparation, or (5) three hours of laboratory, shop training or internship not requiring outside preparation. Further, this proposed definition of clock hours is consistent with that presently used for the Federally Insured Student Loan Program.

Section 190.2(e) *Eligible program.* The proposed definition of eligible program serves the purpose of establishing those types of educational courses of study within an eligible institution in which a student must be enrolled in order to receive a Basic Grant. The requirements for determining institutional eligibility are specified by law. The term eligible program for purposes of Basic Grants applies these statutory provisions to the programs of study within these eligible schools. In this way we seek to assure that students receiving Basic Grants are attending educational programs which meet certain minimum standards and which are postsecondary in nature.

Section 190.2(f) *Full-time student.* In the first year of operation, Basic Grant eligibility is restricted to students who are beginning their postsecondary education and who are attending on a full-time basis. Generally, traditional types of institutions consider 15 credit hours to be a full-time academic work load. However, while many students average 15 credit hours per academic term, in practice students often vary their work load between 12 and 18 credits per term. Therefore, 12 credit hours has been traditionally recognized as the minimum full-time schedule. The proposed definition is designed not to exclude those students who are temporarily taking less than the number of credit hours generally recognized to be a full-time academic work load.

In the event that the institution uses clock hours rather than semester or quarter hours, 25 clock hours a week can be shown, as illustrated below, to be the approximate equivalent of 12 semester, trimester or quarter hours.

It is customarily assumed that a student spends 1 to 3 hours of study or laboratory work outside of class for each hour spent in class. At a minimum, therefore, a student enrolled for a course of study of 12 semester, trimester or quarter hours devotes at least 1 hour of outside study for each classroom hour of study.

His total study load would, therefore, be at least 24 clock hours. Since most students spend more than one hour of laboratory work or study for an hour of class work, the one hour of difference between 24 and 25 clock hours does not seem significant. In addition, a student who is enrolled for 25 clock hours a week would complete 100 clock hours of work in a month and 900 clock hours in a year, which is a traditional definition of a full academic year for institutions using clock hours.

In addition to meeting the work load criteria, a full-time student must also be charged the tuition and fees normally charged by the institution to a student who is taking a full-time course load.

By establishing both of these eligibility criteria, it can be assured that only truly full-time students are receiving Basic Grants.

Section 190.2(g) *Half-time student.* Although half-time students are not eligible to receive Basic Grants in the 1973–74 academic year, a definition of half-time student is necesary for purposes of the multiple student adjustment in the determination of expected family contribution. The proposed definition parallels that for full-time student. The definition further indicates that all students engaged in a program of study by correspondence at institutions of higher education will be considered to be half-time students or less depending on the number of required clock hours of preparation per week. Such consideration is consistent with the existing regulations of the Federally Insured Student Loan Program.

Section 190.2 (j) *Institution of higher education.* The definition of institution of higher education (including proprietary institutions of higher education) reflects the statutory requirements for institutional eligibility and is the standard defintion used by many of the existing Federal student financial aid programs.

Inquiries and communications relating to institutional eligibility should be addressed to the Accreditation and Institutional Eligibility Staff, Bureau of Higher Education, U.S. Office of Education, Washington, D.C. 20202.

Section 190.2(n) *Undergraduate student.* The proposed definition of undergraduate student generally reflects the criteria used by institutions of higher education in determining the status of an undergraduate student. For purposes of Basic Grants, however, any student who has already earned his first baccalaureate degree is not considered to be an undergraduate student even if he is enrolled in an undergraduate course of study. For example, a student who has earned on Associate of Arts degree and who is enrolled in a program of study leading to a baccalaureate degree, would be considered to be an undergraduate student. On the other hand, a student who has already earned any baccalaureate degree and who is enrolled in a program which is designed to lead to a baccalaureate degree would *not* be considered to be an undergraduate student for purposes of Basic Grants.

Students who are enrolled in a program of study which is designed to lead to both a bachelor's degree and an advanced degree over a five-year or longer period, will be considered to be an undergraduate student for only the first four years of that program. Of course, students who are enrolled in a program of study leading to a *first* baccalaureate degree, designed by the institution to extend over 5 academic years, will be considered to be undergraduate students for the length of the program.

For purposes of Basic Grants, students who are enrolled in a program of study leading to a first professional degree which requires at least 3 years of study at the undergraduate level prior to entrance into such a program, will be considered to be undergraduate students for only that period of required undergraduate study.

Section 190.3 *Eligible student.* Students who are eligible to receive Basic Grants during the first year of operation (academic year 1973–74), must be beginning their postsecondary education after July 1, 1973 and be enrolled in an eligible program in an institution of higher education on a full-time basis.

Any students enrolled as regular students in an institution of higher education prior to July 1, 1973 will not be eligible to receive Basic Grants.

High School students who take college-level courses while still in secondary schools are not considered to have been enrolled as regular students. These students are then, therefore, eligible to receive Basic Grants.

Another group of students who are not considered to have been enrolled as regular students in institutions of higher education prior to July 1, 1973, are those persons who were enrolled in remedial or preparatory programs of study, whether or not for credit, before that date. These special programs must be designed specifically for the purposes of assisting students who require such remedial or preparatory study in order to successfully pursue postsecondary education.

This proposed provision is to assure that students participating in Upward Bound, Student Special Services, and other special programs, sponsored by Federal, State, or private organizations will not be excluded from participation in the Basic Grant Program.

SUBPART B

Subpart B establishes the application procedures for Basic Grants.

Section 190.11 *The application for determination of expected family contribution.* "Application for Determination of Expected Family Contribution" forms for the 1973–74 academic year will be widely distributed to students through student financial aid officers at institutions of higher education, high school guidance counselors, post offices, Talent Search Projects, Upward Bound Projects, and other organizations and agencies located in areas easily accessible to students.

For the first year of operation completed forms will be submitted to the American College Testing Program which has a contract with the Commissioner to calculate expected family contributions for the Basic Grant Program according to the appropriate Regulations issued by the Office of Education.

Section 190.12 *Certification of information.* The determination of expected family contribution is based on data supplied by the applicant relating to the financial strength of his family. Since several of the data items requested on the application form reflect information provided by the applicant (and where relevant his parents or spouse) for Federal Income Tax purposes, the student may be requested to submit to the Commissioner the IRS returns for the base year as well as other documentation necessary to verify the information provided. In addition, when the applicant (and where relevant, his parents or spouse) signs the application form, he authorizes the Commissioner to obtain copies of the Federal Income Tax Returns for the base year.

Section 190.15 *Request by applicant for recomputation of expected family contribution because of clerical or arithmetic error.* Applicants will be notified of the amount of their expected family contributions by the Commissioner on a "Family Contribution Analysis Report". In addition to the amount of the expected family contribution, the notification will include certain key data items taken from the applicant's application which were used in calculating the contribution. The applicant should compare these data items with those submitted on his application form and, should there be any discrepancy, he may request a recomputation of his expected family contribution. Such a request for recomputation must be made within five weeks of the date indicated on the "Family Contribution Analysis Report".

Section 190.16 *Extraordinary circumstances affecting the expected family contribution determination.* For purposes of determining expected family contribution for the Basic

V 38-134 JUL 13 73 XUM

Grant Program it was determined that the most accurate indicator of annual adjusted family income is the amount reported on the Federal Income Tax Return for the year preceding the year for which aid is requested. However, it was recognized that extraordinary circumstances could occur which would substantially affect the expected family contribution which was calculated on the basis of the preceding year's income. Therefore, this proposed regulation establishes the conditions under which an applicant may request a determination of expected family contribution which uses the current tax year as the base year and reflects these extraordinary circumstances.

In the event of the death of the applicant's parent(s) or spouse whose income was included in the determination of expected family contribution, the applicant may immediately request that his expected family contribution be calculated using the current tax year as the base year.

A different situation exists in those cases where the parent or the spouse of the applicant suffers a loss of employment. Unemployment may be for a brief period only, and reemployment may permit the family to enjoy the same level of income as that before the wage earner became unemployed.

A similar situation occurs when the applicant, and where relevant the applicant's parent or spouse whose income was included in the determination of expected family contribution, is unable to pursue normal income-producing activities due to disability or natural disaster.

For applicants who experience such situations as described above, there will be a requirement of a 10-week waiting period before the applicant can request a calculation of expected family contribution using the current tax year as the base year.

In all cases where a request is made to vary from the standard base year, the applicant will be required to submit the amount of income received to the date of the request and an estimate of the amount of income to be received for the remainder of that year as well as any other pertinent information the Commissioner may require.

SUBPART E

Subpart E establishes the allowances for the costs of attendance for students seeking Basic Grants. The legislation defines the "actual cost of attendance" as the actual per-student charges for tuition, fees, room and board (or expenses related to reasonable commuting), books and an additional allowance for other expenses that the Commissioner determines to be reasonable for students attending an institution of higher education. Certain costs, such as tuition, fees, and dormitory charges, can be precisely known at the time of enrollment. Other costs, such as those for off-campus living expenses, books or miscellaneous expenses, can only be estimated at the time a student's Basic Grant is calculated. Therefore, it was determined that standard allowances would be established for this second group of costs.

No allowance is made for the cost of room and board, or books, supplies, and miscellaneous expenses of the student engaged in a program of study by correspondence. In the case of books and supplies, these expenses are generally part of the tuition of the correspondence student. The room and board costs and miscellaneous expenses which the student engaged in correspondence study incurs are seen as fixed costs that the student would assume whether or not he was enrolled in postsecondary education.

Subpart E of the regulations states which costs are accepted as they are charged the student, and those costs which require an allowance. The reference numbers which appear before each item refer to the numbers of the Regulations.

Section 190.51(a)(1) *Tuition or fees.* Since such costs as tuition and fees are definite, the institution can determine the actual amount charged for tuition and fees for each student. For both tuition and fees, only those charged to all students within a certain class of study or those required of a certain class of students for educational purposes will be allowed.

For example, a parking fee, which is a discretionary item, would not be allowed since it is not required of all students or of all students within a certain curriculum. However, a laboratory fee charged to all chemistry students would be allowed since it is a fee required all students taking such a course.

The "out of State" or "out of county" tuition or fees charged by State and county public educational institutions are allowable since they are charged an entire class of students. No travel costs, including the cost of travel for study outside the United States, are allowed since these costs are not authorized by the enabling legislation. However, the costs of travel within the United States, which are charged as a course fee or included in tuition charges by the institution of higher education, and are required of all students taking such course, are allowed.

Section 190.51(a)(2) *Room and board.* Separate standard allowances were established for those students who did not contract for room and board with the institution, and for students who resided with their parents.

The $950 allowance for the student who does not enter into a contract for room and board facilities at the institution is the combination of a $531 allowance for board and a $412 allowance for room. The $531 allowance for board costs was determined by multiplying the U.S. Department of Agriculture's monthly moderate cost food plan for boys between 15 and 20 years old by 12 to determine annual costs. The one month cost for January 1973 was $63.20.[1] The 12 month cost would then be $758.40. Since most students are in attendance at institutions of higher education for only 36 weeks or 70% of the year, this $758.40 was multiplied by .70 to produce a board cost of $531.

The room cost was derived from the Bureau of Labor Statistics estimate of housing expenses for the lower budget level in Autumn 1971. This figure, $1516,[2] was increased by 5% as an estimate for inflation, and then adjusted by .37[3] which is the BLS Index of the difference between the four member family which is the base for the lower budget level estimate and the one member household. The adjustment above would produce an annual housing cost of $589. This figure was then further reduced to account for the fact that the student is generally only in an institution of higher education for 70 percent of the year. Such a reduction brings these costs to $412. The combined room and board figure is therefore $943 which has been rounded to $950.

The separate allowances for room and board are derived by this same process.

The allowance of $750 is proposed for the student living with his parents. The cost of living at home for a year may be approximated by determining the difference in the Family Size Offset for a family of a given size and the family one member smaller. The table below presents the $700 average difference in the family size allowance.

AVERAGE FAMILY SIZE OFFSET[4]

Family	Family Size Offset	Difference
2	2800	
3	3350	550
4	4300	950
5	5050	750
6	5700	650
7	6300	600
		3500
		5
		700
		Average Difference

[4] The Family Size Offset figures are taken from Subpart D, § 190.44(c)(1) of the proposed Regulations for the Basic Educational Opportunity Grant Program as published February 2, 1973, in the FEDERAL REGISTER.

The average costs determined above reflect the cost of supporting a student for the entire year. Since most students are in attendance at institutions of higher education for only 36 weeks or 70 percent of the year, it is appropriate to utilize only 70 percent of the average difference to determine the costs of supporting the student which are related to the student's education. 70 percent of the $700 average is $490.

In addition to the room and board costs, some transportation allowance must be made for the commuting student since the Act specifies the "expenses related to reasonable commuting" are to be included.

The cost for transportation for commuting students was determined by averaging the cost for commuting students at public and private institutions as shown in the table below. The average is $259.

AVERAGE TRANSPORTATION COSTS OF STUDENTS AT PUBLIC AND PRIVATE INSTITUTIONS[5]

Type of Institution	*Transportation Costs*
Public 4-year	$236
Public 2-year	307
Private 4-year	236
	$779
	3
Average transportation costs	$259

[5] Haven and Horch, "How College Students Finance their Education: A National Survey of Educational Interest, Aspirations, and Finances of College Sophomores in 1969–70", The College Scholarship Service, Princeton, New Jersey, 1972.

The combined cost of room, board, and reasonable commuting expenses is, therefore, $490 plus $259 or $749 which has been rounded to $750.

Section 190.51(a)(3) *Books, supplies and miscellaneous expenses.* $150 has been used for other Federal financial aid programs as a reasonable standard allowance for books and supplies and it is anticipated that such an amount would therefore be reasonable for this program. An additional standard allowance for miscellaneous expenses of $200 is proposed to provide for expenses incurred by a student which are not covered in the room and board allowances. The total of $350 is, therefore, the allowance to be made for these purposes.

SUBPART F

Subpart F establishes the procedures for the determination of Basic Grant awards.

[1] U.S. Department of Agriculture, "Cost of Food at Home Estimated for Food Plans at Three Costs Levels, January 1973, U.S. Average," Washington, D.C.

[2] U.S. Department of Labor, "Autumn 1972 Urban Family Budgets and Geographical Comparative Indexes", USDL–72–240. Washington, D.C.

[3] U.S. Department of Labor, "Revised Equivalence Scale for Estimating Equivalent Incomes or Budget Costs by Family Type", Bulletin No. 1570–2, P. 14.

The section does not include procedures for the reduction of Basic Grant awards for less than full-time students since during the first year of operation (academic year 1973–74) only full-time students are eligible for the program.

Section 190.61 *Submission of "Family Contribution Analysis Reports" for purposes of basic educational opportunity grant calculation.* Students attending institutions of higher education having an effective Terms of Agreement with the Commissioner will submit the "Family Contribution Analysis Report" to the institution which will calculate the amount of the student's award based on the allowable cost criteria and payment schedule issued by the Office of Education. The institution will also act as the Commissioner's agent in disbursing funds to students. In the event that the institution the student wishes to attend does not choose to act as the Commissioner's agent, the student will submit the "Family Contribution Analysis Report" directly to the Commissioner following the procedures contained in regulations which will be published subsequent to these proposed regulations.

Section 190.63 *Calculation of basic educational opportunity grants at "less than full funding".* The Office of Education will make an estimate of the amount required to extend grants at the full-funding level to all eligible students during any fiscal year. When an appropriation is available for a fiscal year, the Office of Education will calculate whether the amount appropriated is sufficient to extend full-funding to all eligible students, or whether awards must be made on the basis of less than full-funding. If awards are to be at less than full funding, the Office will determine which of the various reduction provisions of section 411 (b)(3) of the Act will be in effect. The Office will then publish a simple table of student award payments which will specify the amount of the Basic Grant for that academic year which will be made to a student with a given family contribution and cost of education.

Section 190.64 *Calculation of basic educational opportunity grant award for less than an academic year.* An eligible program must be at least 6 months in length. At the same time, an academic year must be at least 8 months in length. In order for a student to receive the full amount of his grant he must be in attendance for a full academic year.

Those students who are enrolled in programs which are at least 6 months but less than 8 months in length will not receive a full grant. The amount of their grants will be calculated as if they were in attendance for an academic year, but will be reduced in the same proportion as the length of the program bears to 8 months.

For instance, if a student is enrolled in an eligible program which is 6 months in length, his grant would be first calculated for the full academic year. However, he would only be awarded six-eighths or three-quarters of that amount initially calculated.

DEPARTMENT OF LABOR

Employment Standards Administration

■

Minimum Wages for Federal and Federally Assisted Construction

Area Wage Determination Decisions, Modifications, and Supersedeas Decisions

V 38-134 JUL 13 73 XUM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Modifications and Supersedeas Decisions to Area Wage Determination Decisions

Area wage determination decisions. Area Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

Area Wage Determination Decisions are effective from their date of publication in the Federal Register without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO AREA WAGE DETERMINATIONS DECISIONS

Modifications and Supersedeas Decisions to Area Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing Area Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the Federal Register without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the orgial Area Wage Determination Decision.

NEW GENERAL WAGE DETERMINATION DECISIONS

New General Wage Determination Decisions No. AQ–1 for the State of Missouri.

MODIFICATIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications to General Wage Determination Decisions for the following States (the numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State):

Alabama:	
AP–195; AP–197; AP–198; AP–199; AP–1101; AP–1102	June 8, 1973
Illinois:	
AP–689; AP–692; AP–695; AP–698; AP–1005; AP–1008; AP–1010	June 8, 1973
AP–1012; AP–1013; AP–1016	June 1, 1973
Indiana:	
AP–648; AP–649; AP–650; AP–651; AP–652; AP–653; AP–654; AP–655; AP–656; AP–657; AP–658; AP–659; AP–660; AP–661; AP–662; AP–664; AP–665; AP–666; AP–667	May 18, 1973
Iowa:	
AP–2,458	Aug. 25, 1973
Kentucky:	
AP–170	Mar. 23, 1973
Louisiana:	
AP–735	June 1, 1973
Massachusetts:	
AP–470	Feb. 16, 1973
AP–814; AP–815	May 11, 1973
Mississippi:	
AP–158	Feb. 16, 1973
New York:	
AP–800	Mar. 30, 1973
AP–807; AP–808	May 11, 1972
AP–844	June 8, 1973
AP–852	Dec. 15, 1972
AP–853	Dec. 22, 1973
Pennsylvania:	
AP–404	July 28, 1972
AP–462; AP–489	Mar. 9, 1973
AP–817; AP–819; AP–820; AP–821; AP–824; AP–825	May 18, 1973
Rhode Island:	
AP–484	Mar. 16, 1973

SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Supersedeas Decisions to General Wage Determination Decisions for the following States (the numbers of the decisions being superseded and their dates of publication in the Federal Register are listed with each State; Supersedeas Decision numbers are in parentheses following the number of the decision being superseded):

Arkansas:	
AP–703(AQ–2)	Feb. 16, 1973
California:	
AP–255(AQ–1,002); AP–256(AQ–1003)	Dec. 29, 1972
New York:	
AM–1,728(AQ–2001)	Aug. 11, 1971
North Dakota:	
AP–267(AQ–1000)	Mar. 9, 1973
Pennsylvania:	
AP–429(AQ–2000)	Oct. 6, 1972

CANCELLATION OF GENERAL WAGE DETERMINATION DECISIONS

The following general wage determination decisions are cancelled: AP–176; Alachua, Dixie, Gilchrist, Lafayette, Levy, Marion and Union Counties; and AP–177, Baker, Clay, Duval, Nassau, Putnam, St. Johns and Suwannee Counties, all in the State of Florida. Agencies with projects pending in these counties should utilize the project determination procedure by submitting form SF–308. See Regulations Part 1 (29 CFR 1.5).

CORRECTION

The Index to the Federal Register published July 6, 1973, was current as of June 1, 1973, rather than June 29, 1973, as indicated.

Signed at Washington, D.C., this 6th day of June 1973.

WARREN D. LANDIS,
Assistant Administrator,
Wage and Hour Division.
